

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

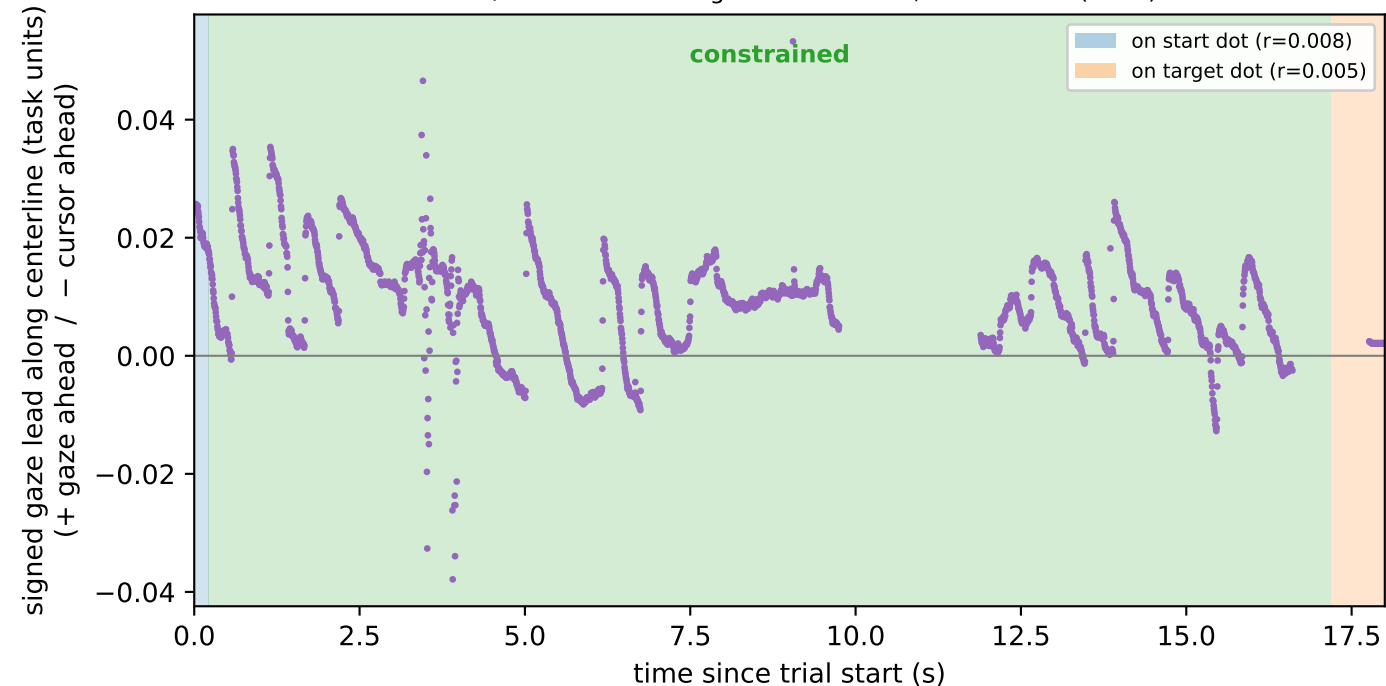

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

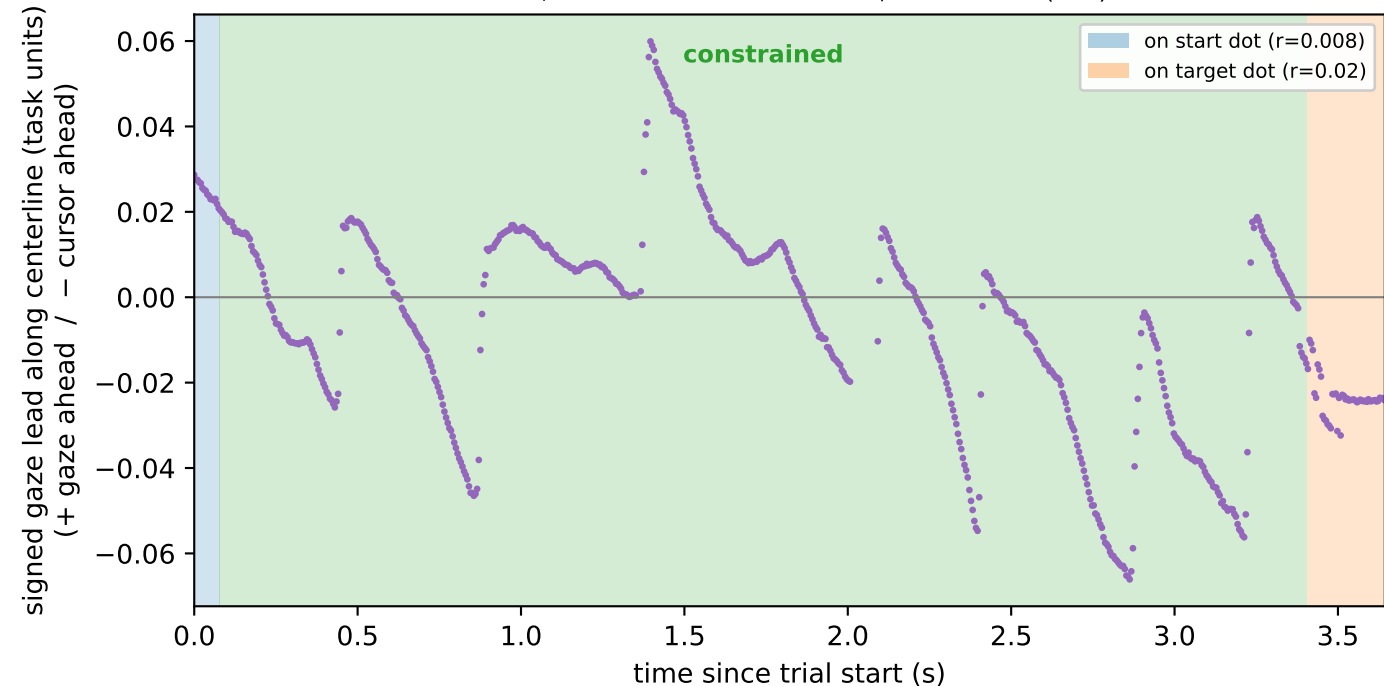

Trial 2/73 round 1 — gentle sinusoidal, width 0.01 (id 26)

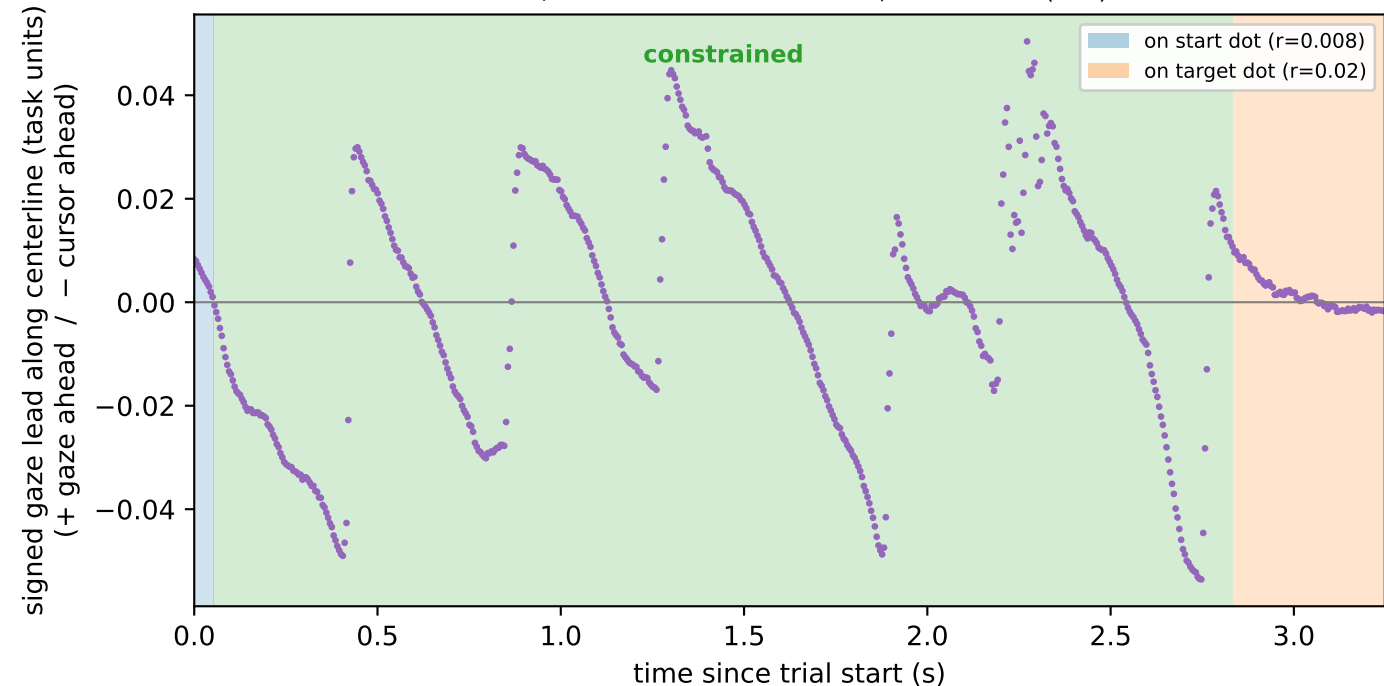

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

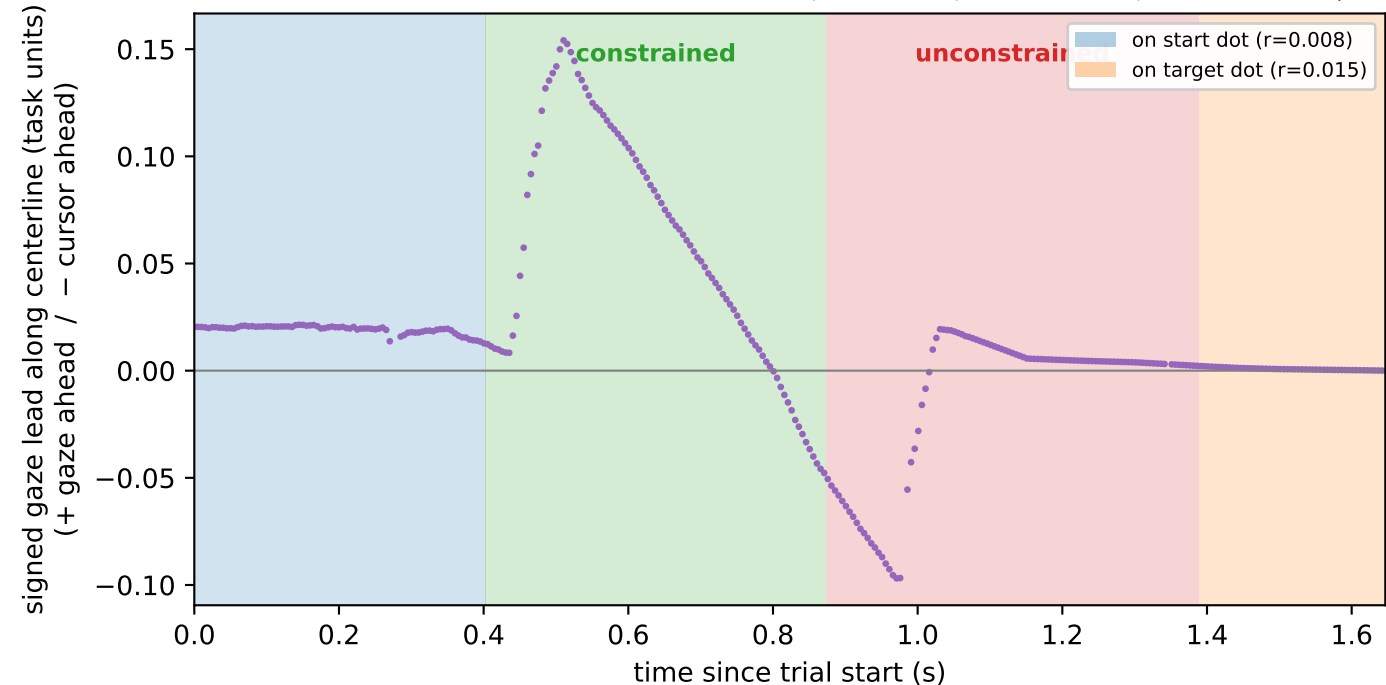

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

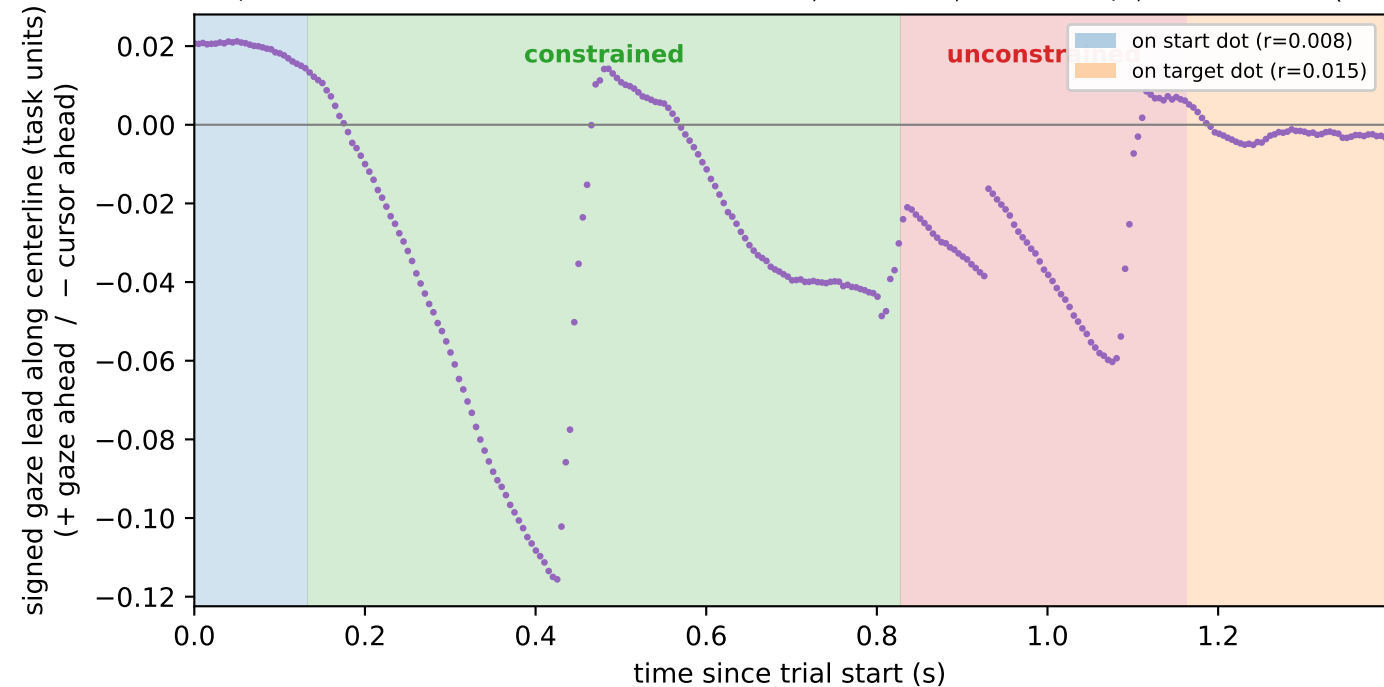

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

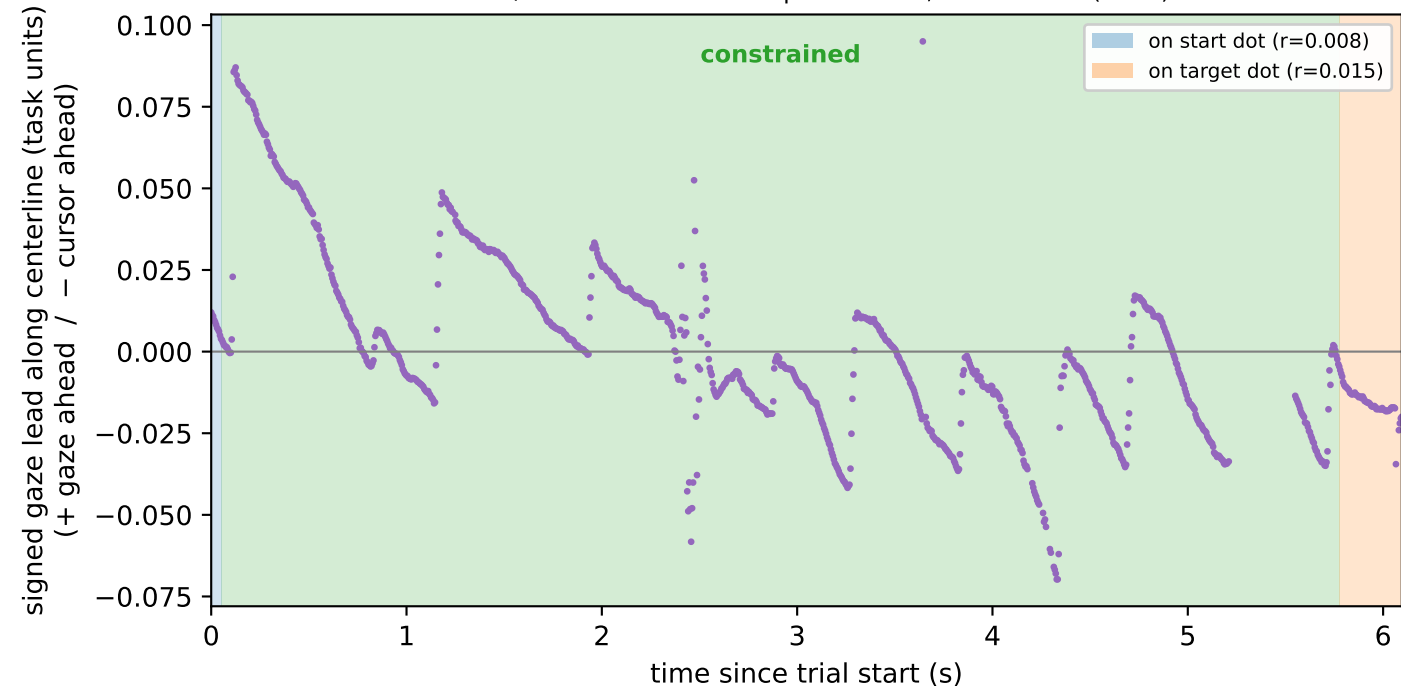

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

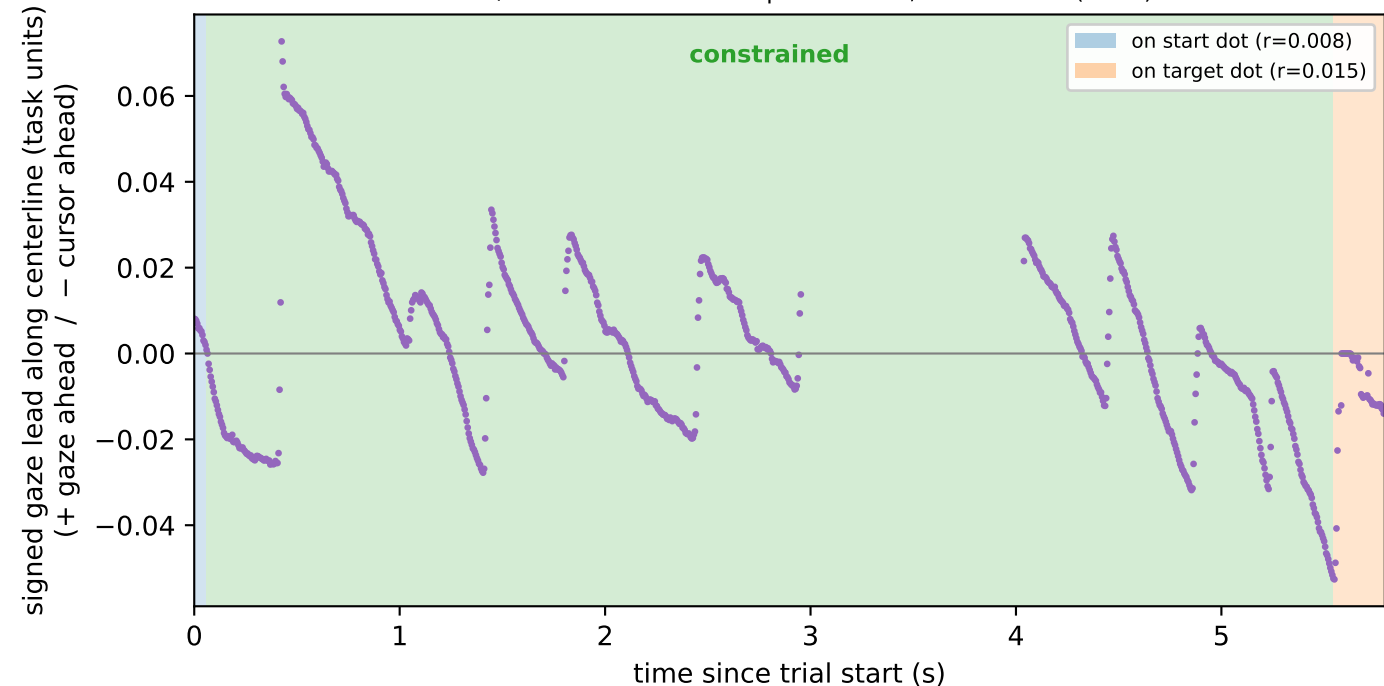

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 5/73 round 1 — sharp sinusoidal, width 0.03 (id 33)

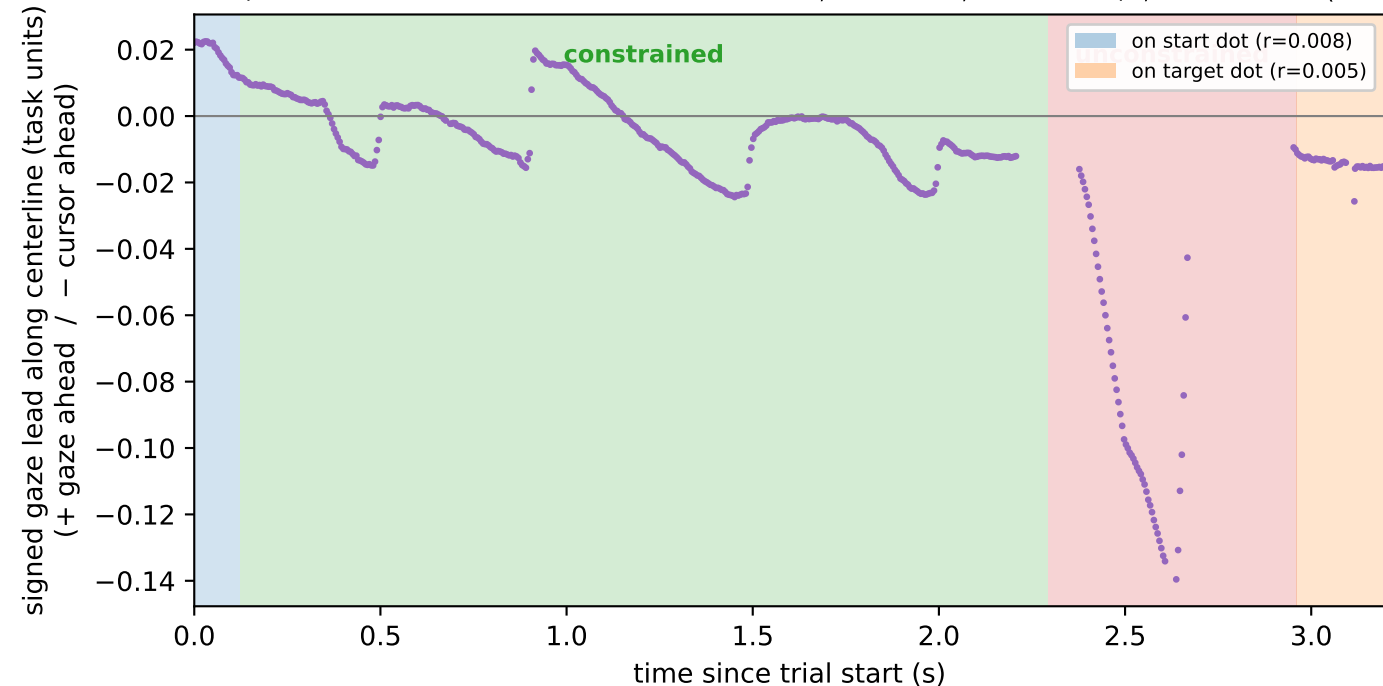

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

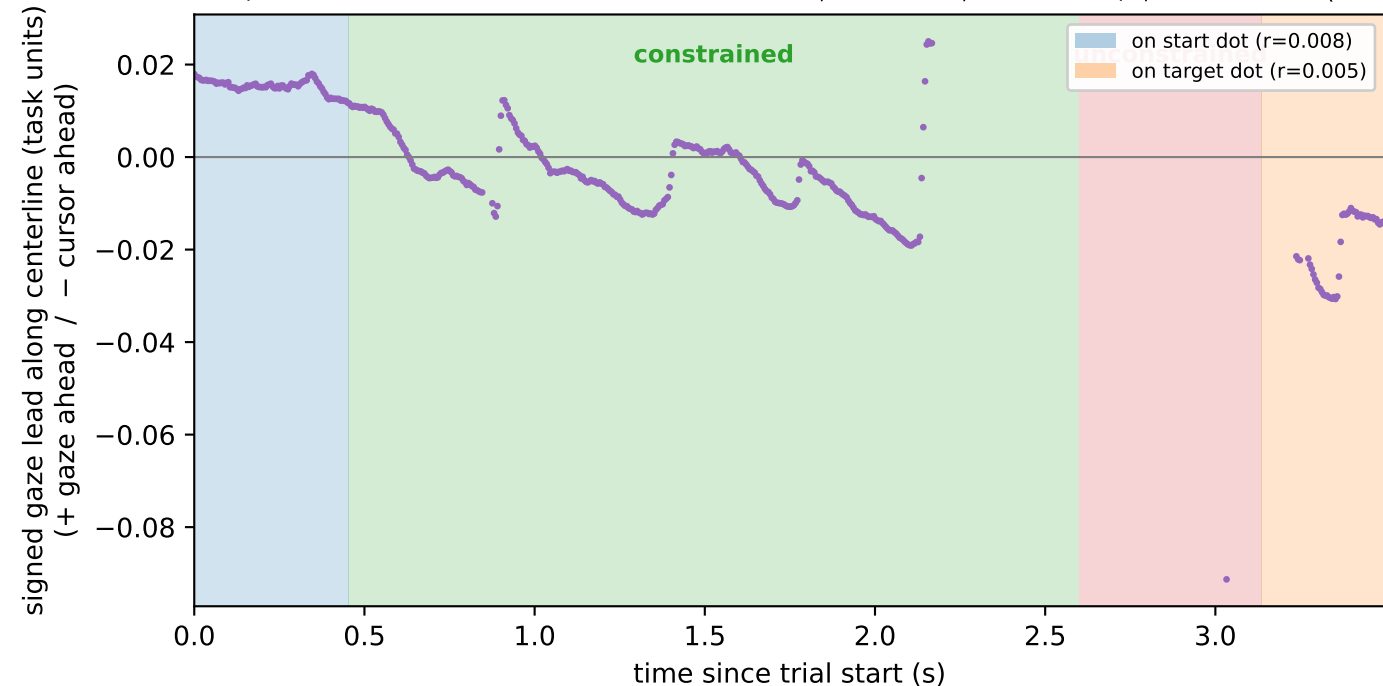

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 6/73 round 1 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 5mm (id 60)

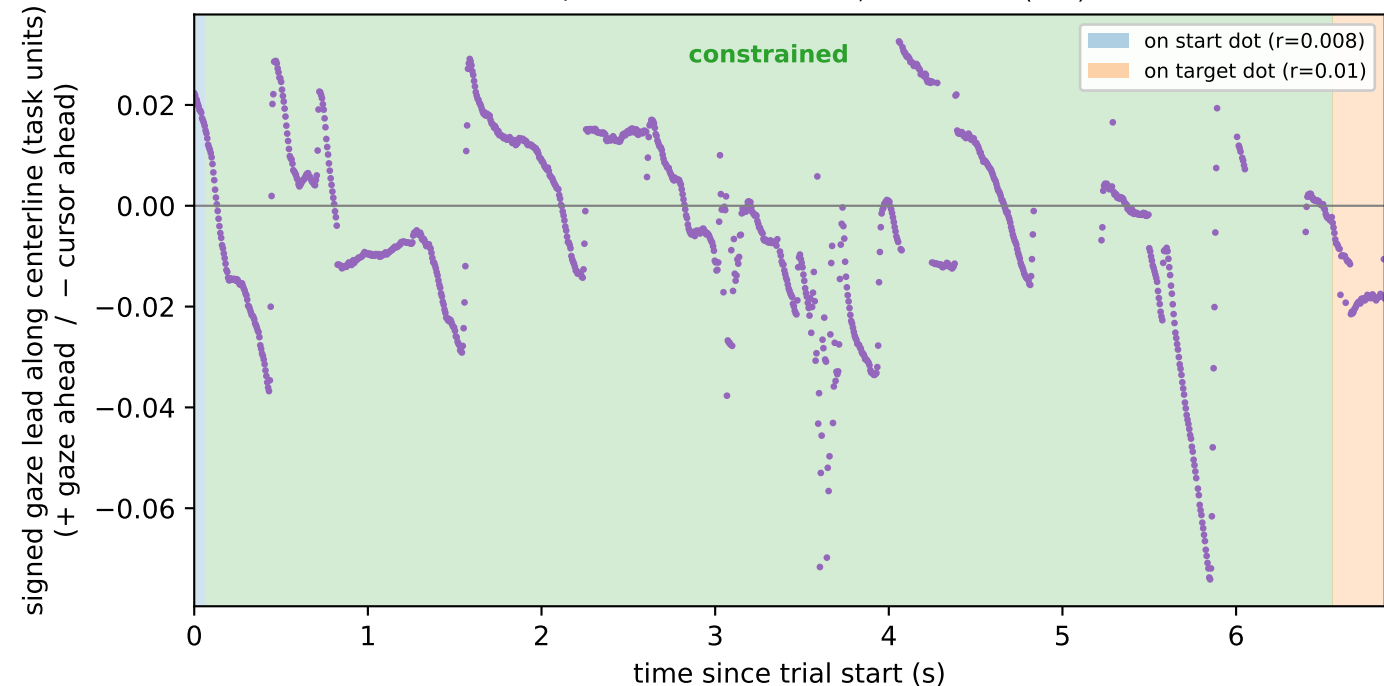

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

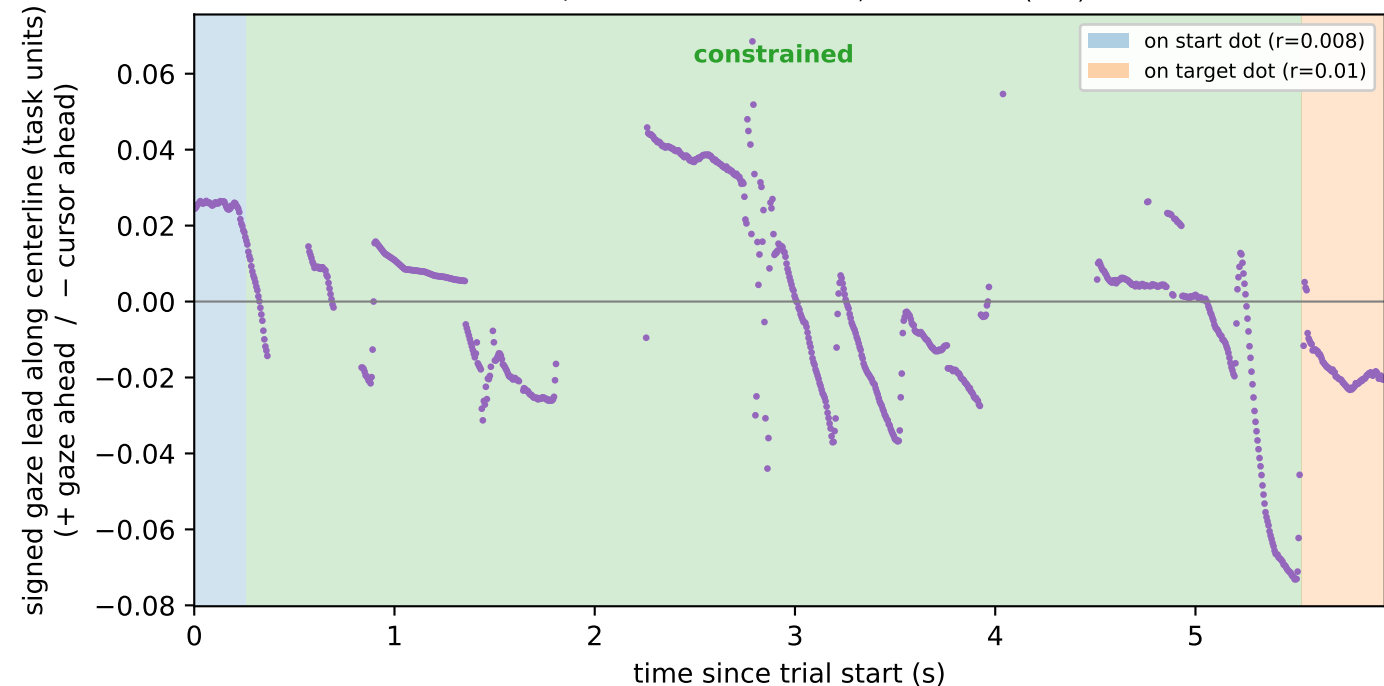

Trial 6/73 round 2 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 5mm (id 60)

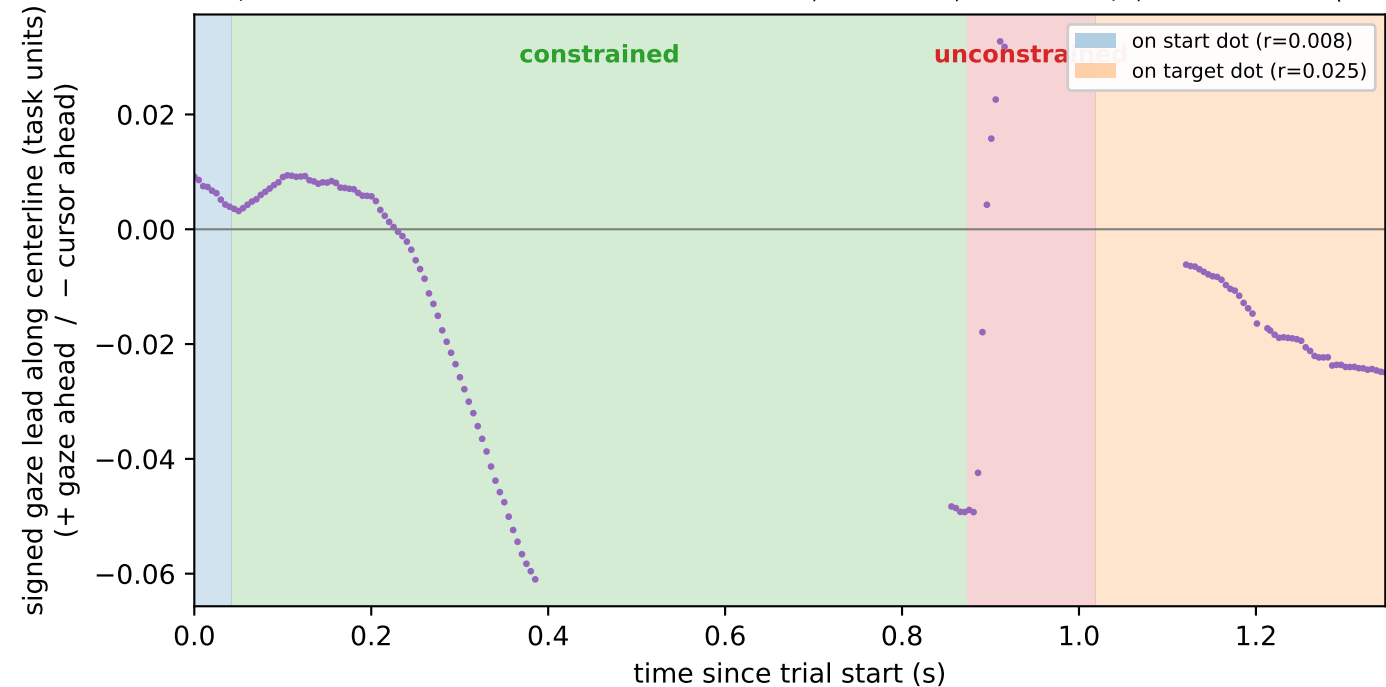

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

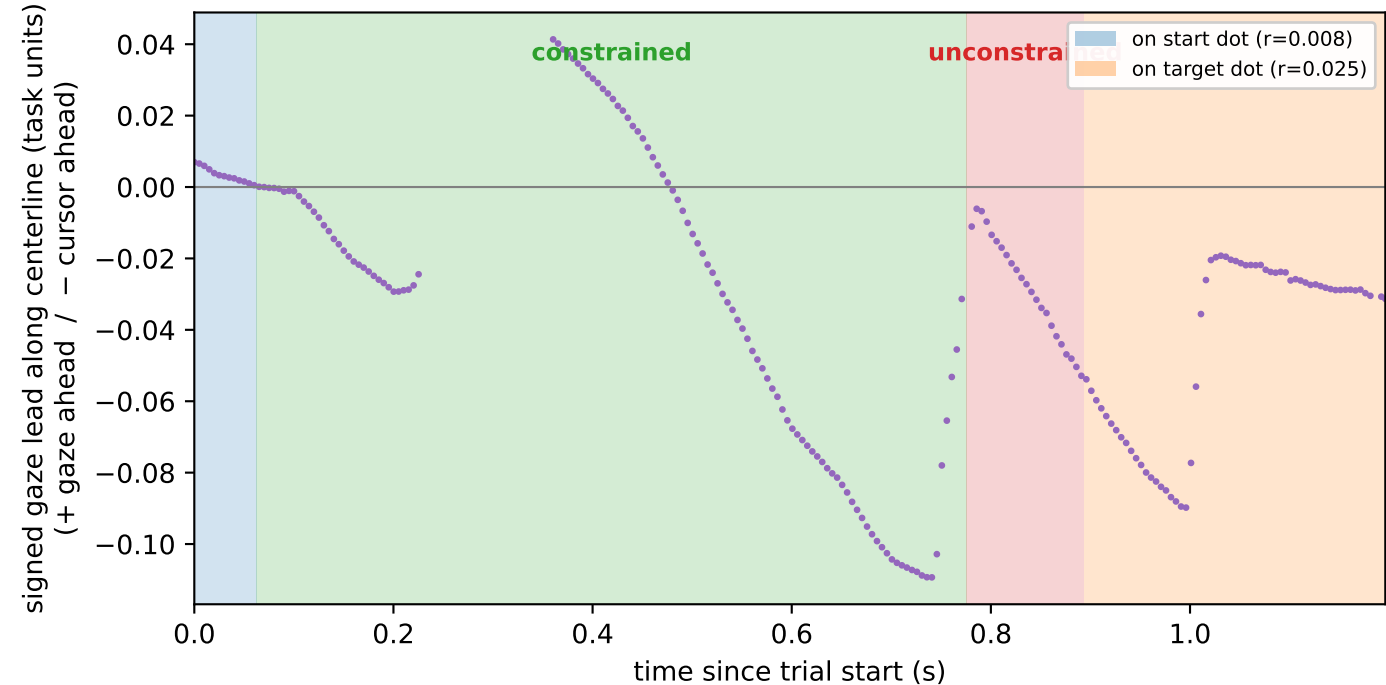

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

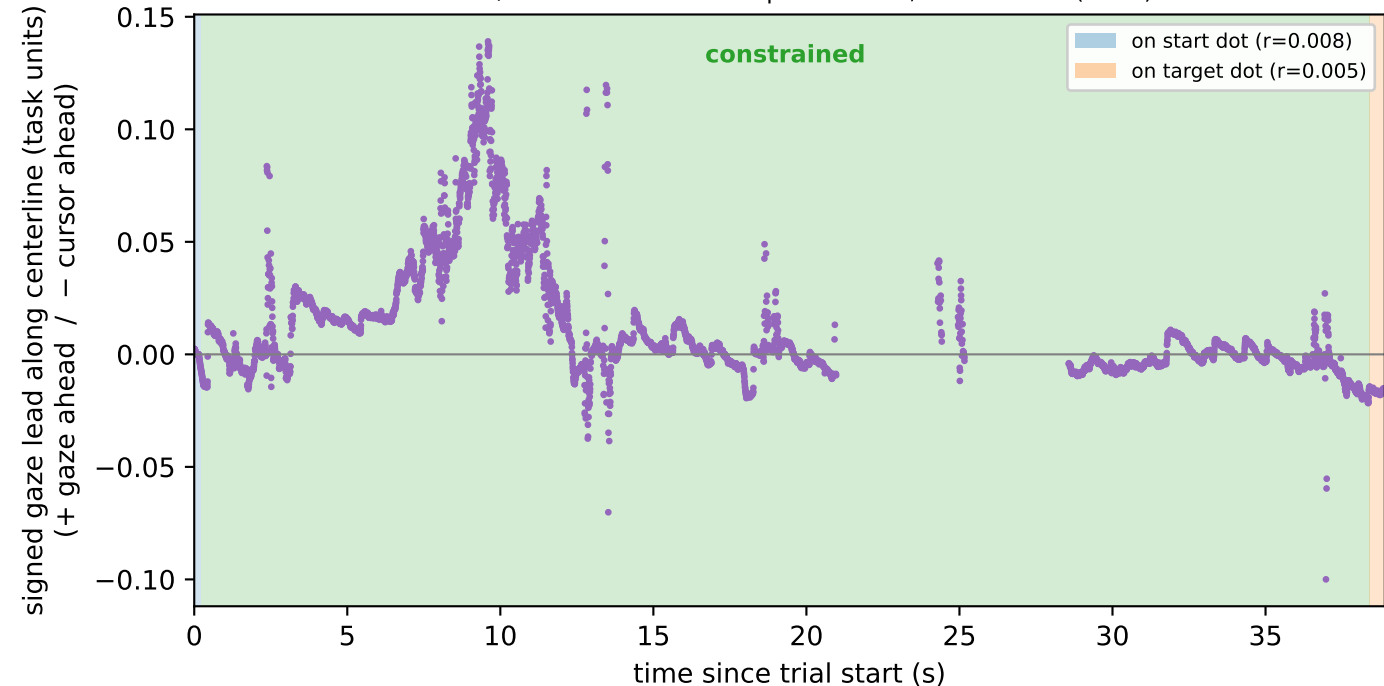

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

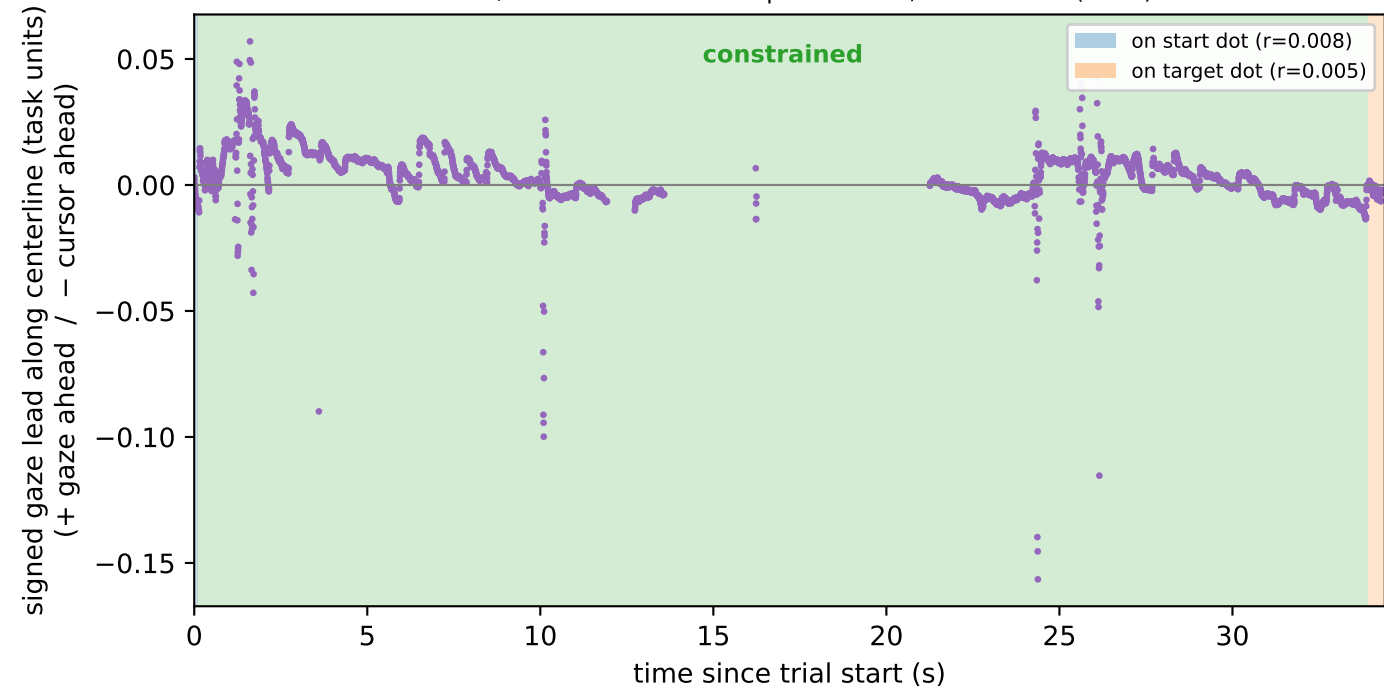

Trial 9/73 round 1 — sharp sinusoidal, width 0.01 (id 31)

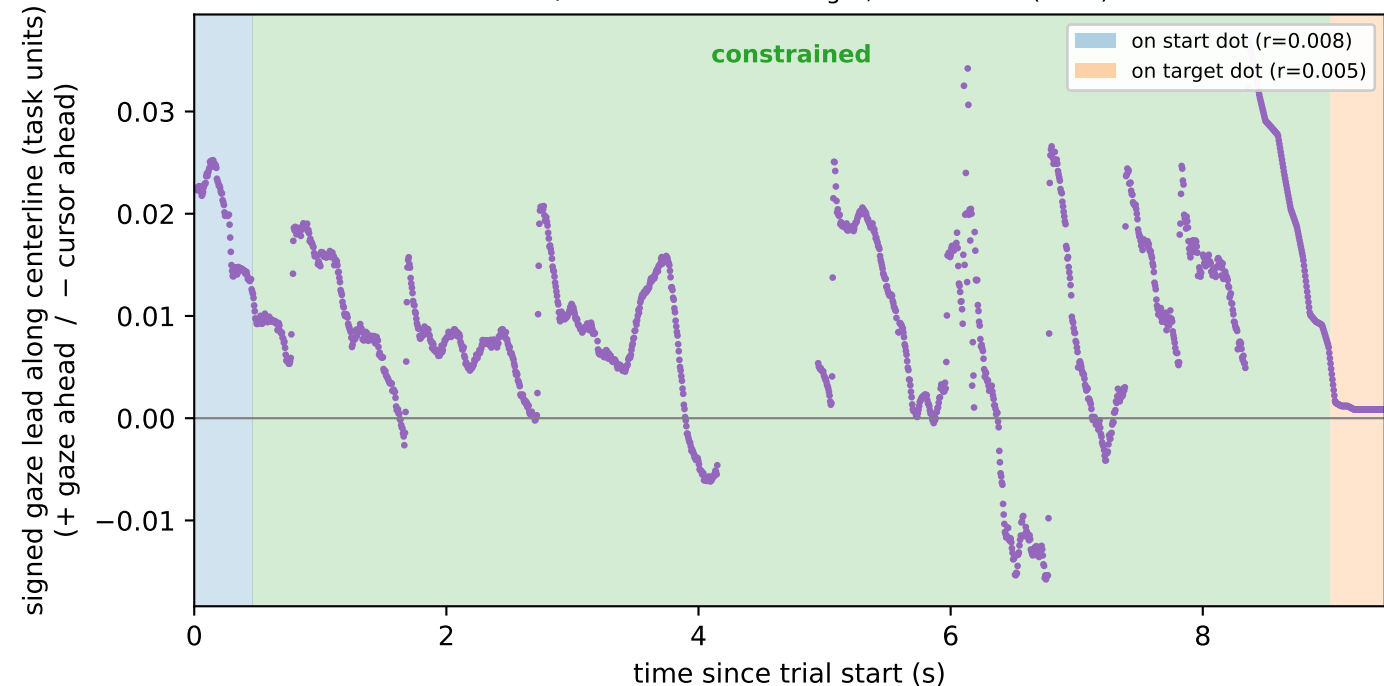

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 9/73 round 2 — sharp sinusoidal, width 0.01 (id 31)

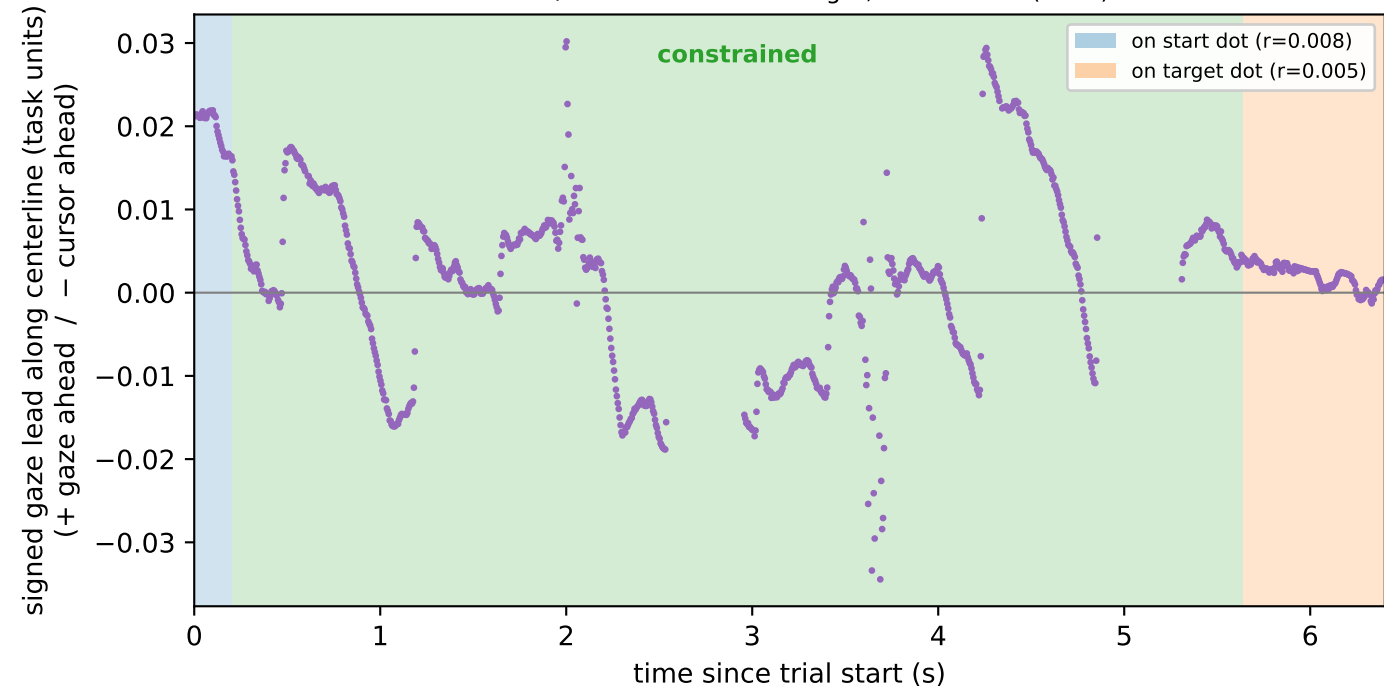

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

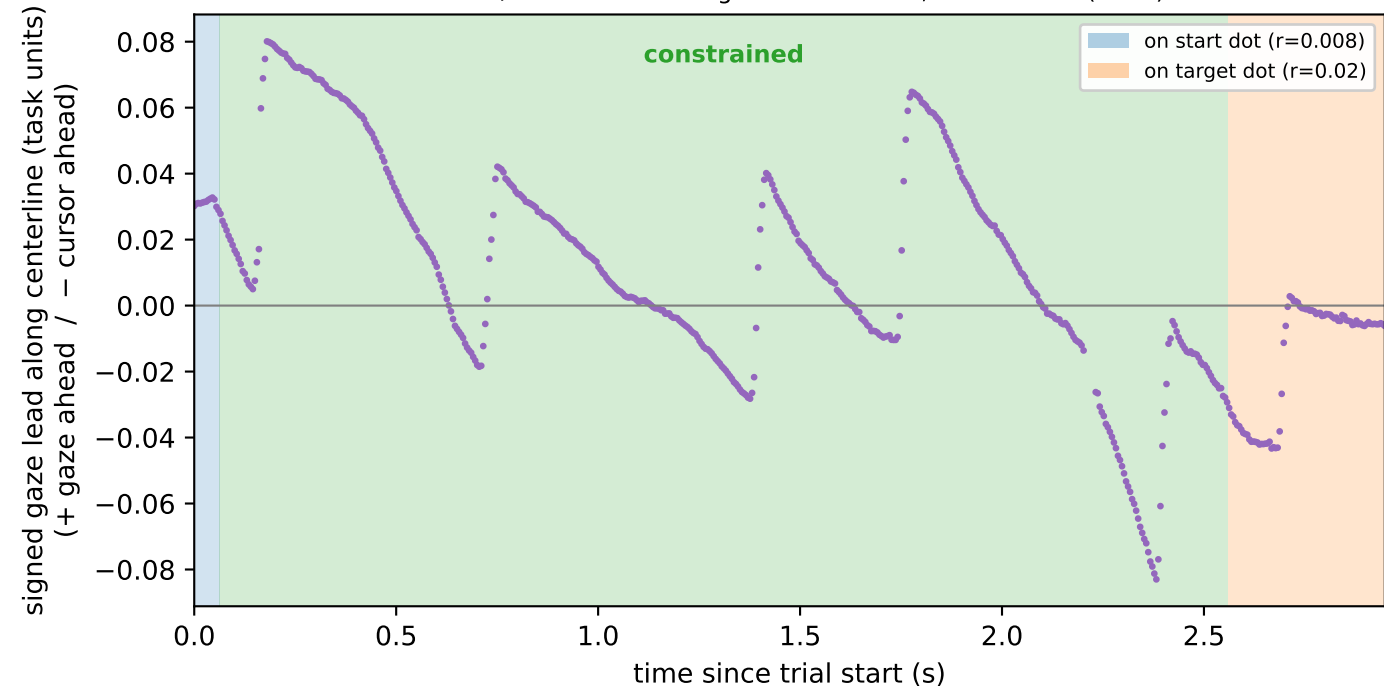

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

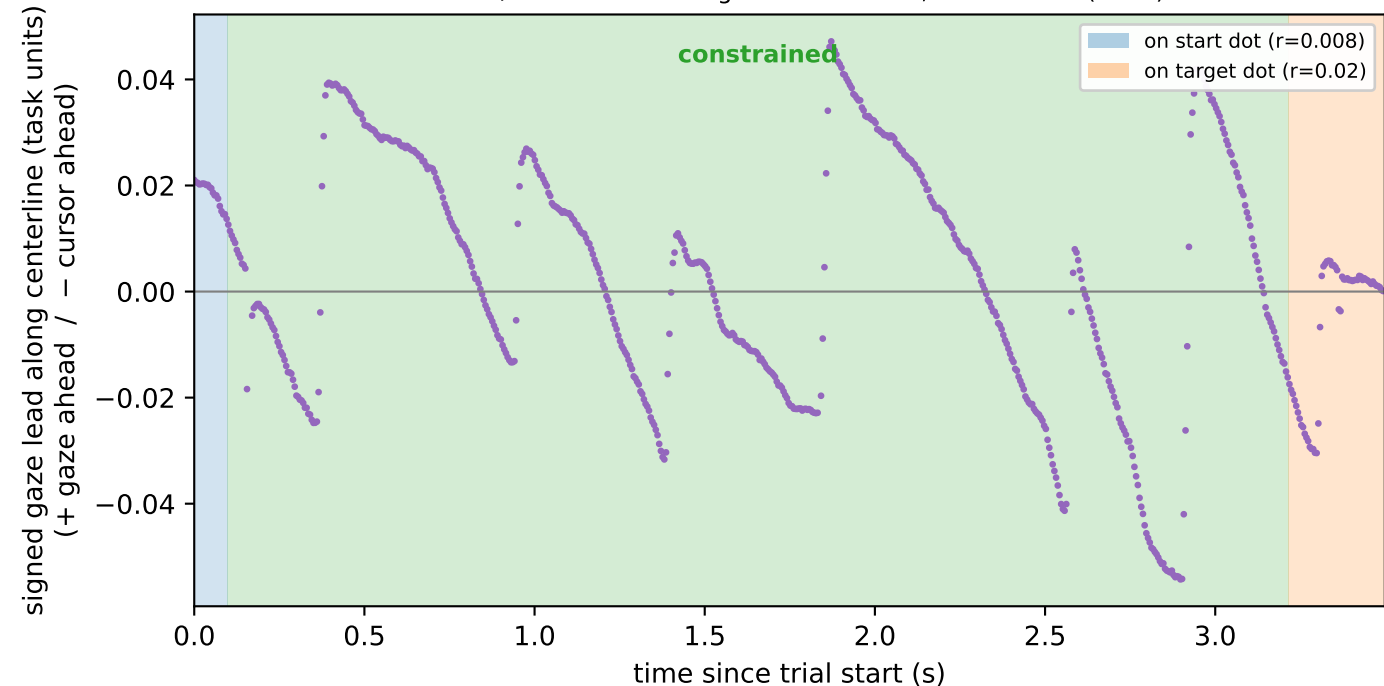

Trial 10/73 round 2 — straight, width 0.01 (id 11)

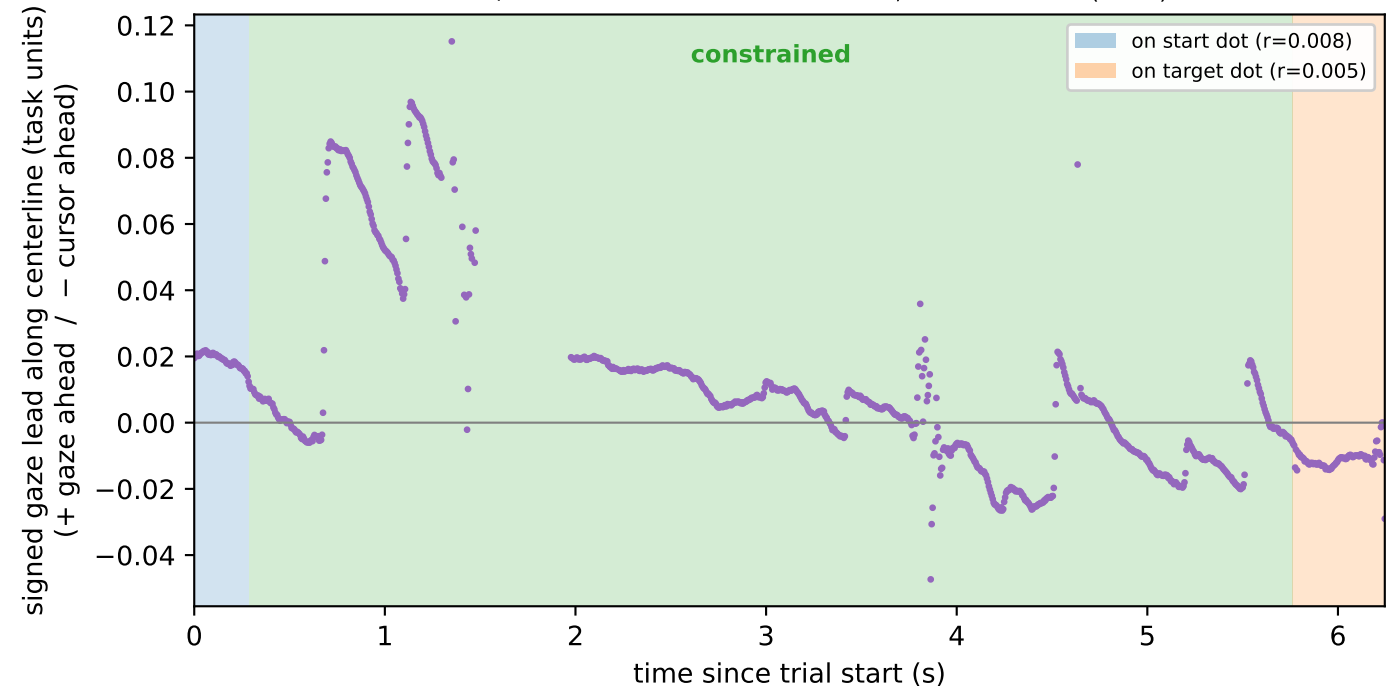

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

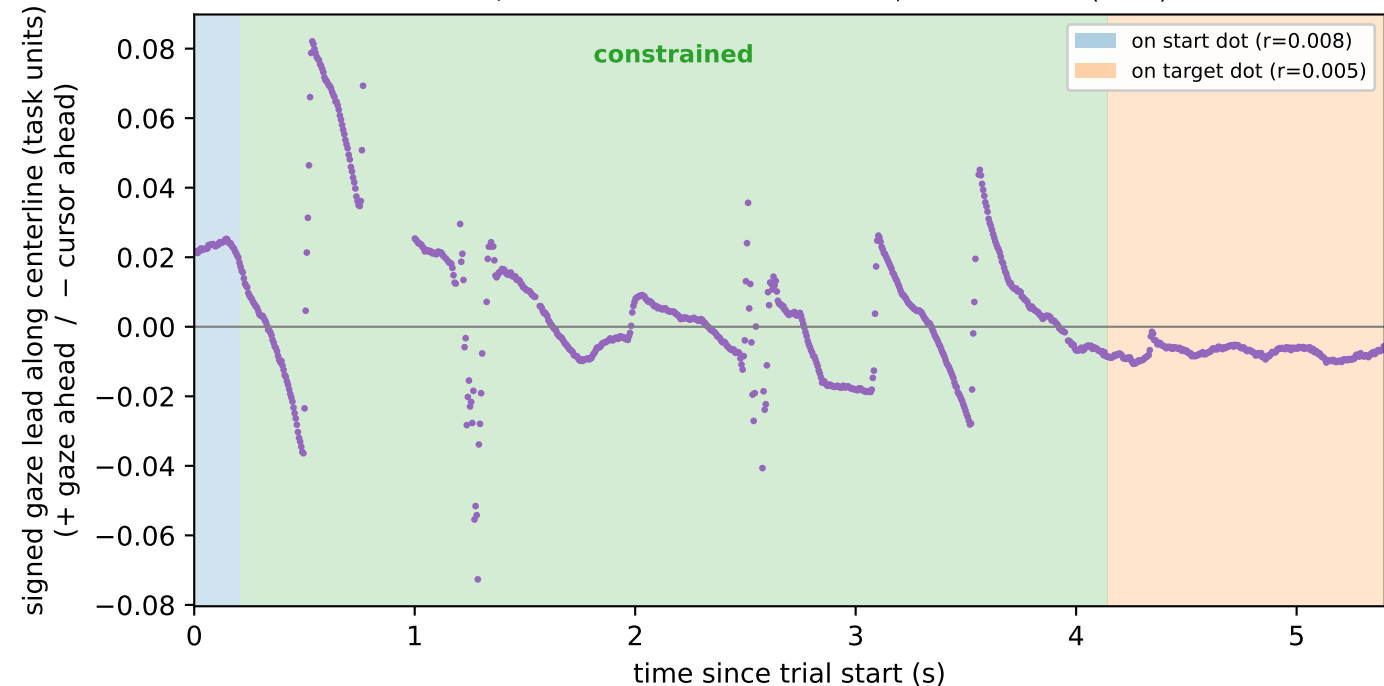

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

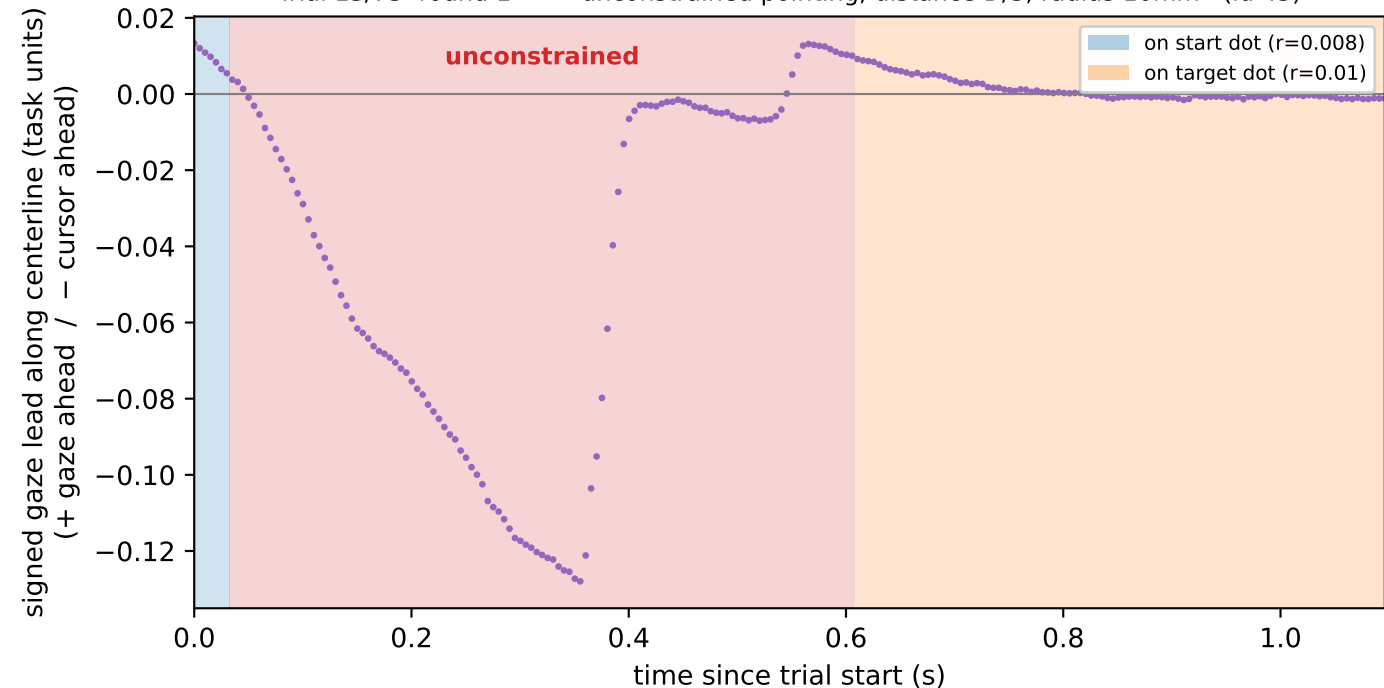

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

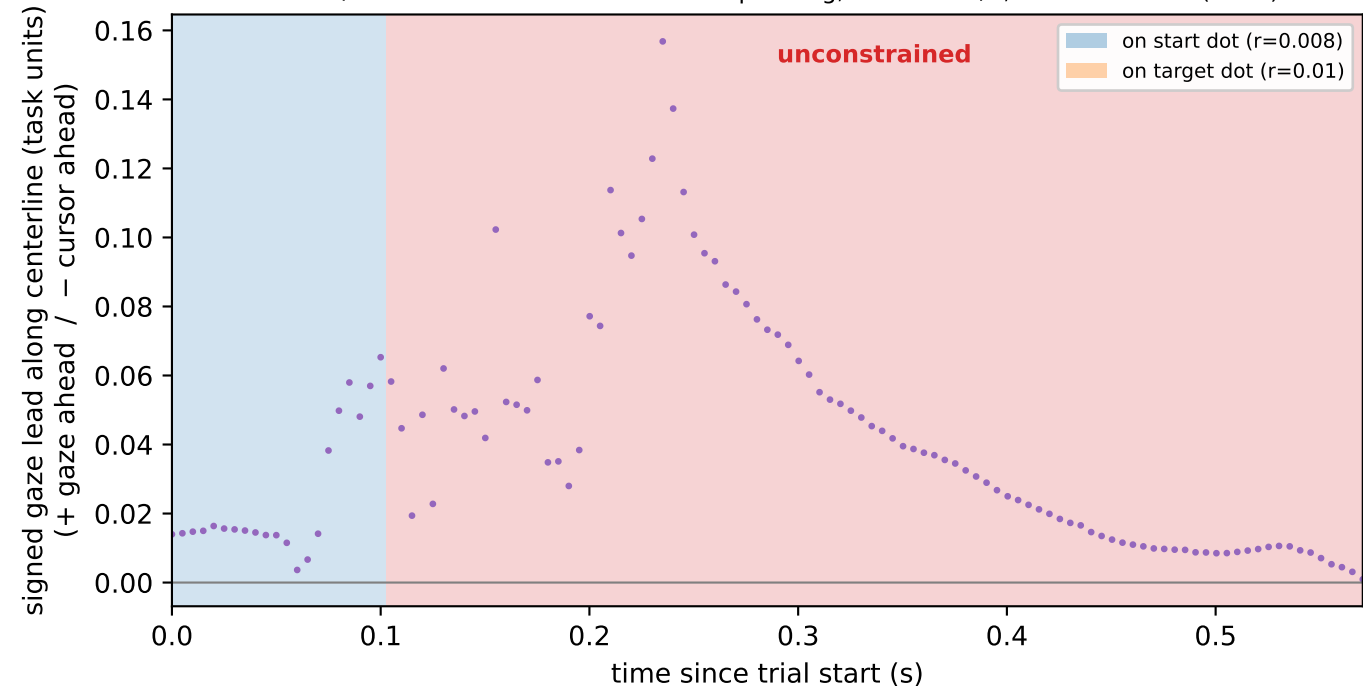

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

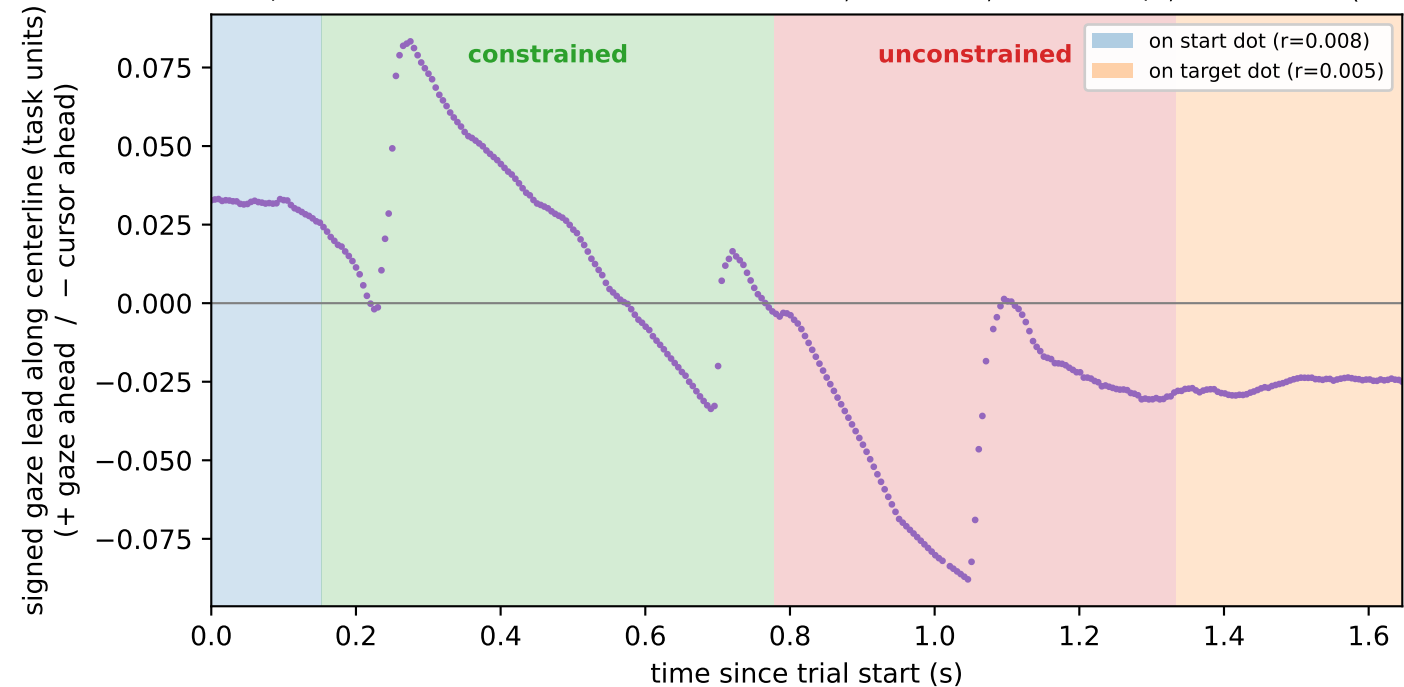

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

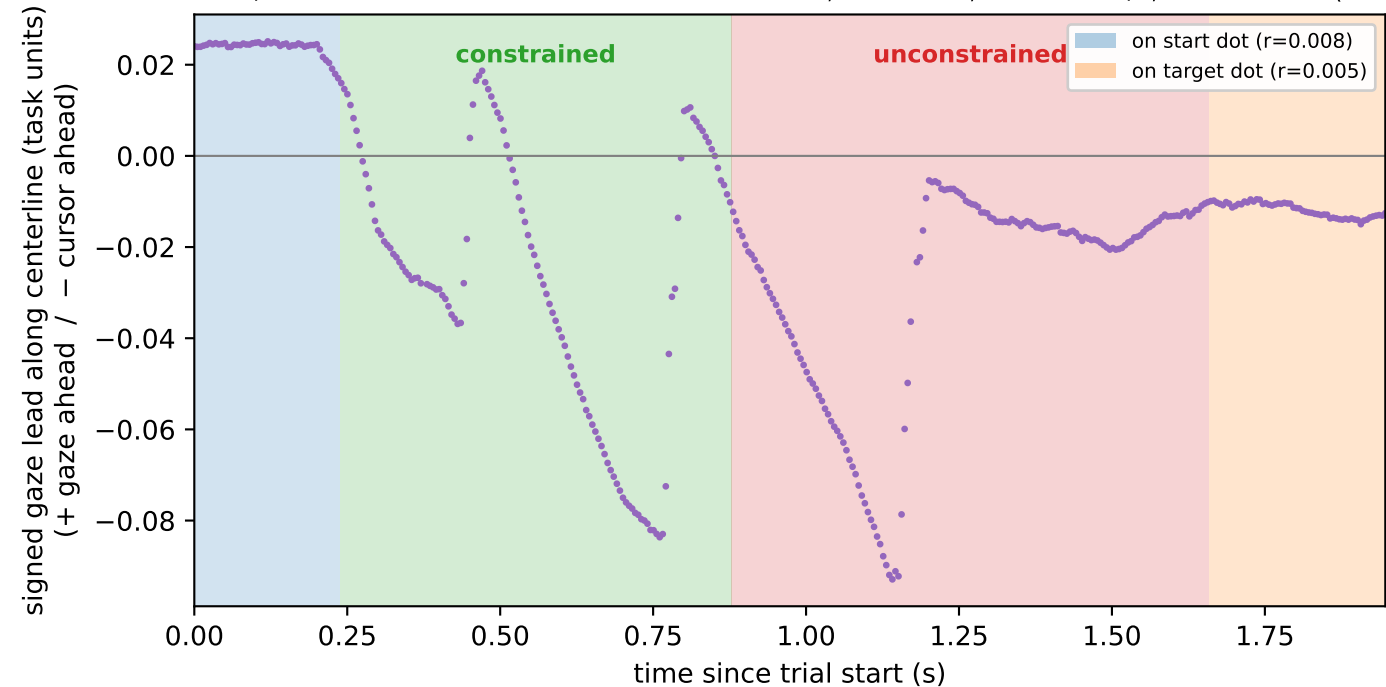

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

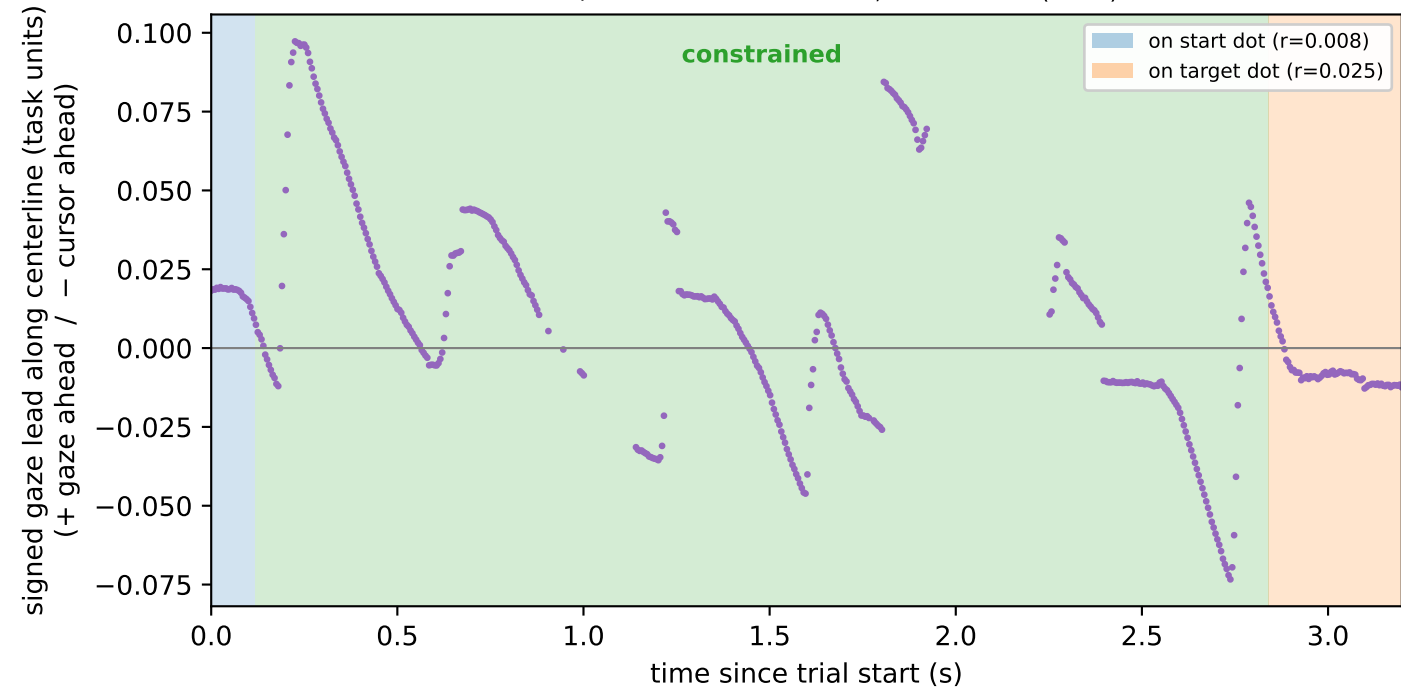

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

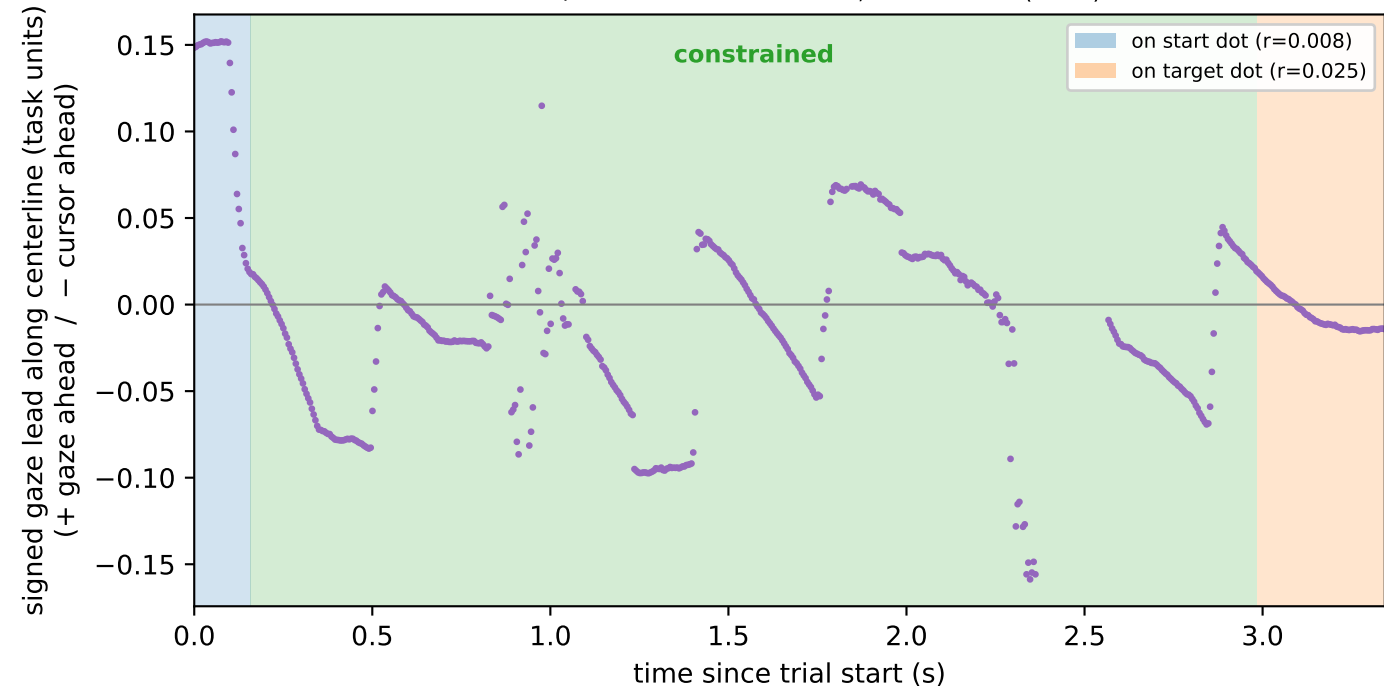

Trial 14/73 round 2 — constrained-to-unconstrained, width 0.05, distance 4D/6, radius 5mm (id 75)

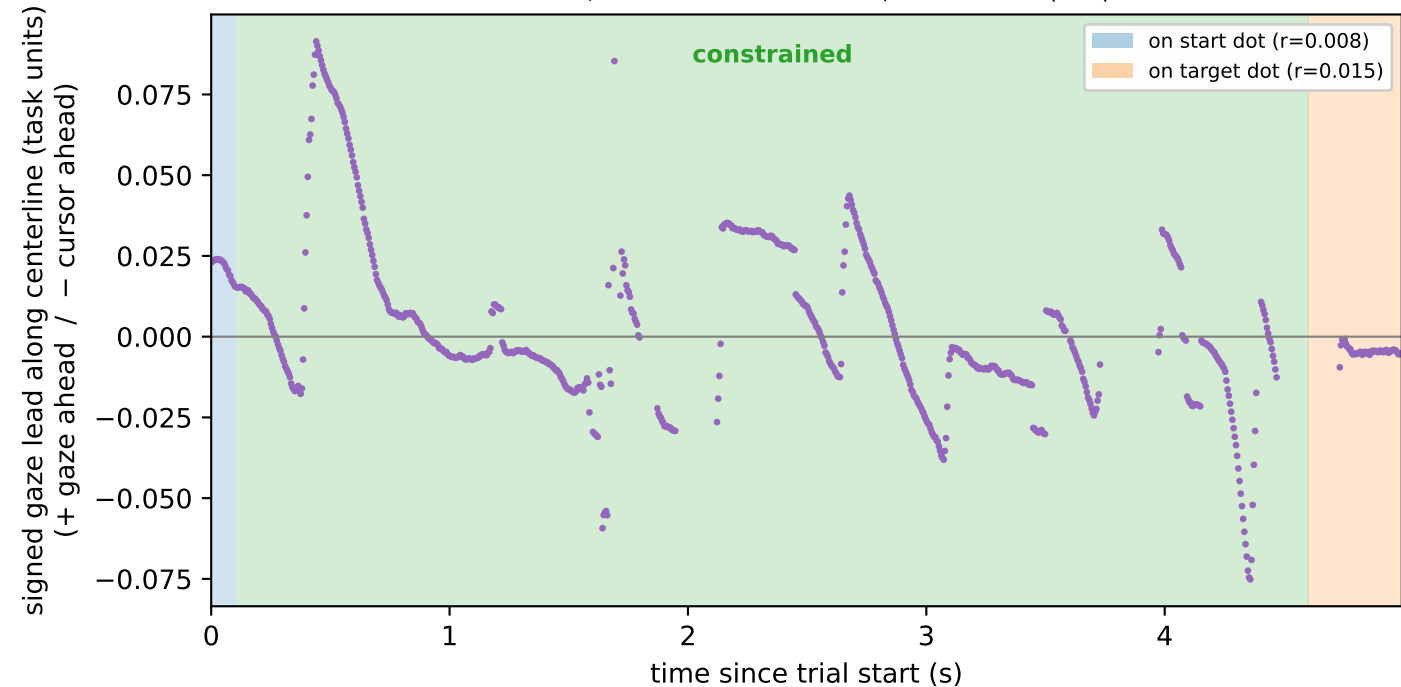

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

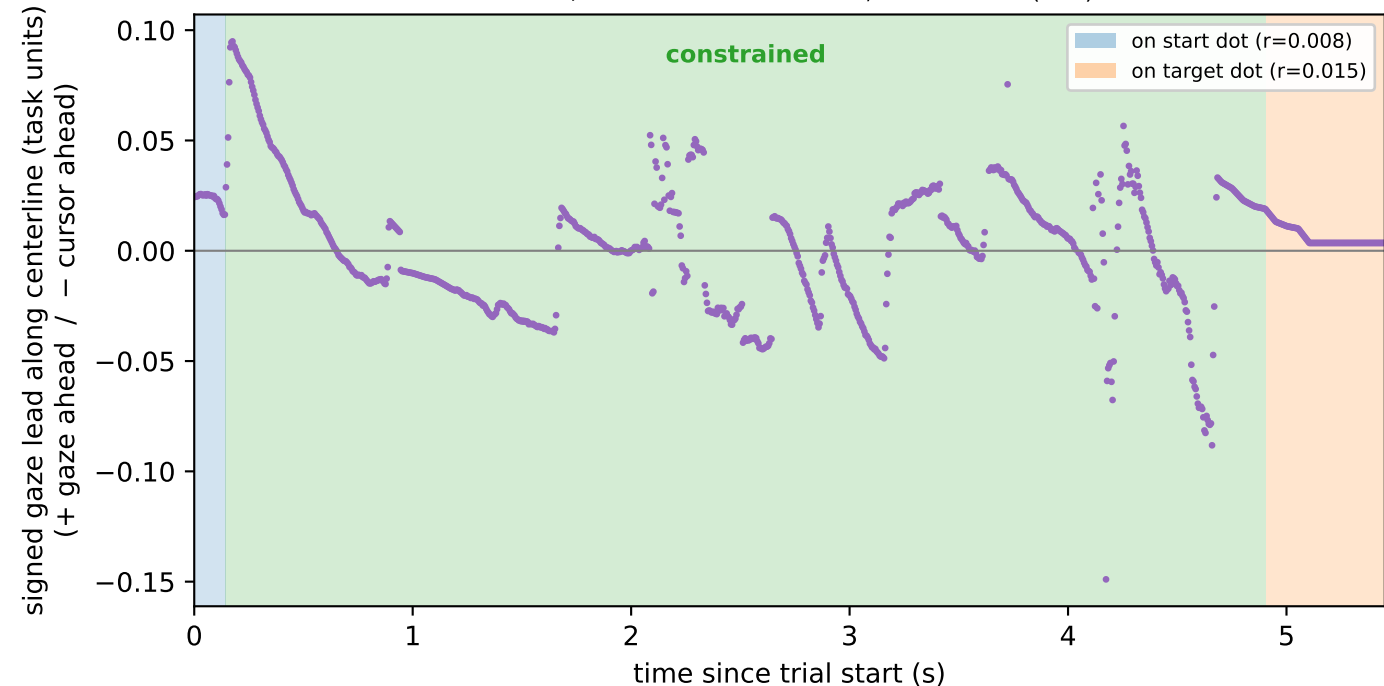

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

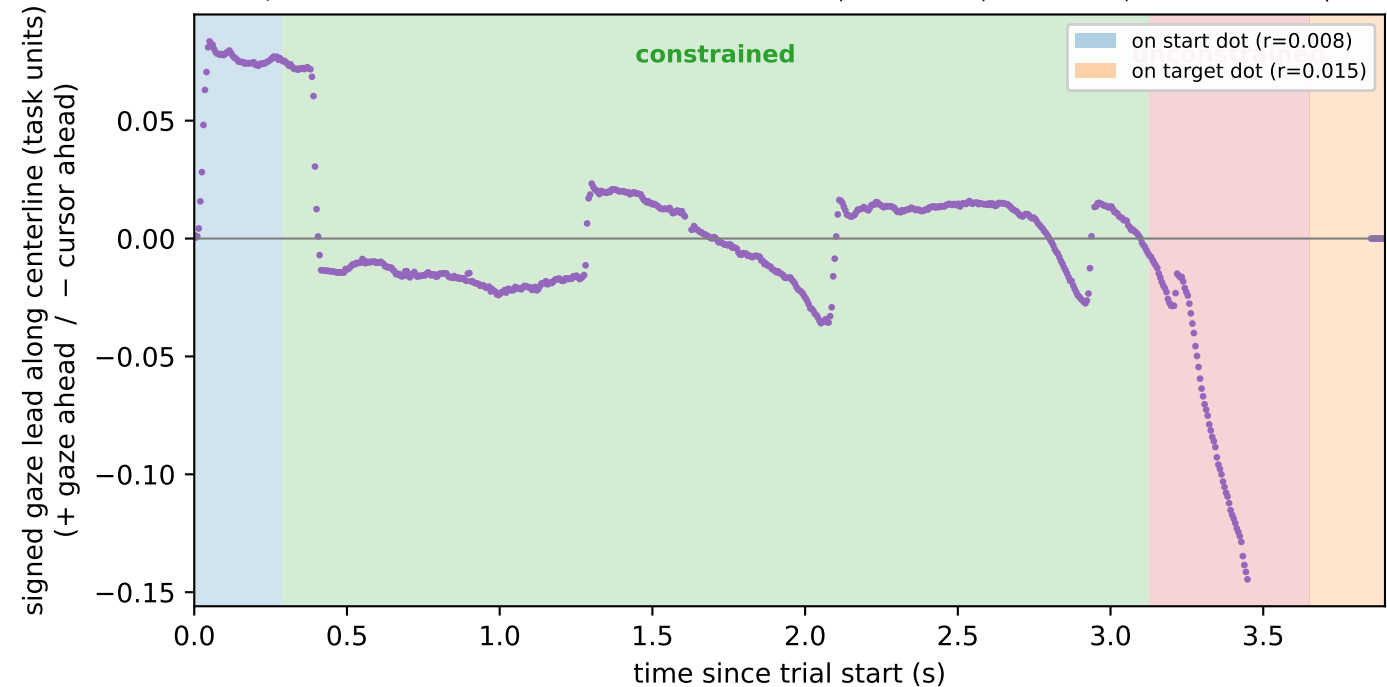

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

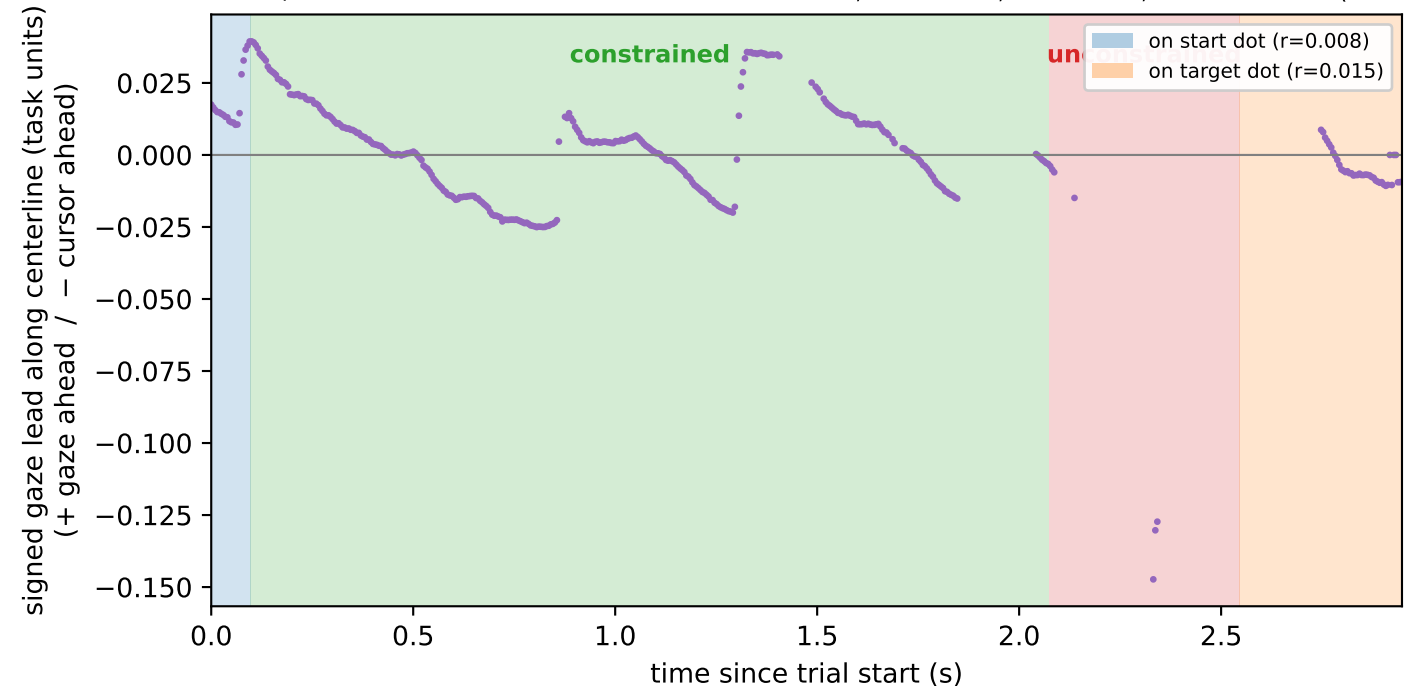

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

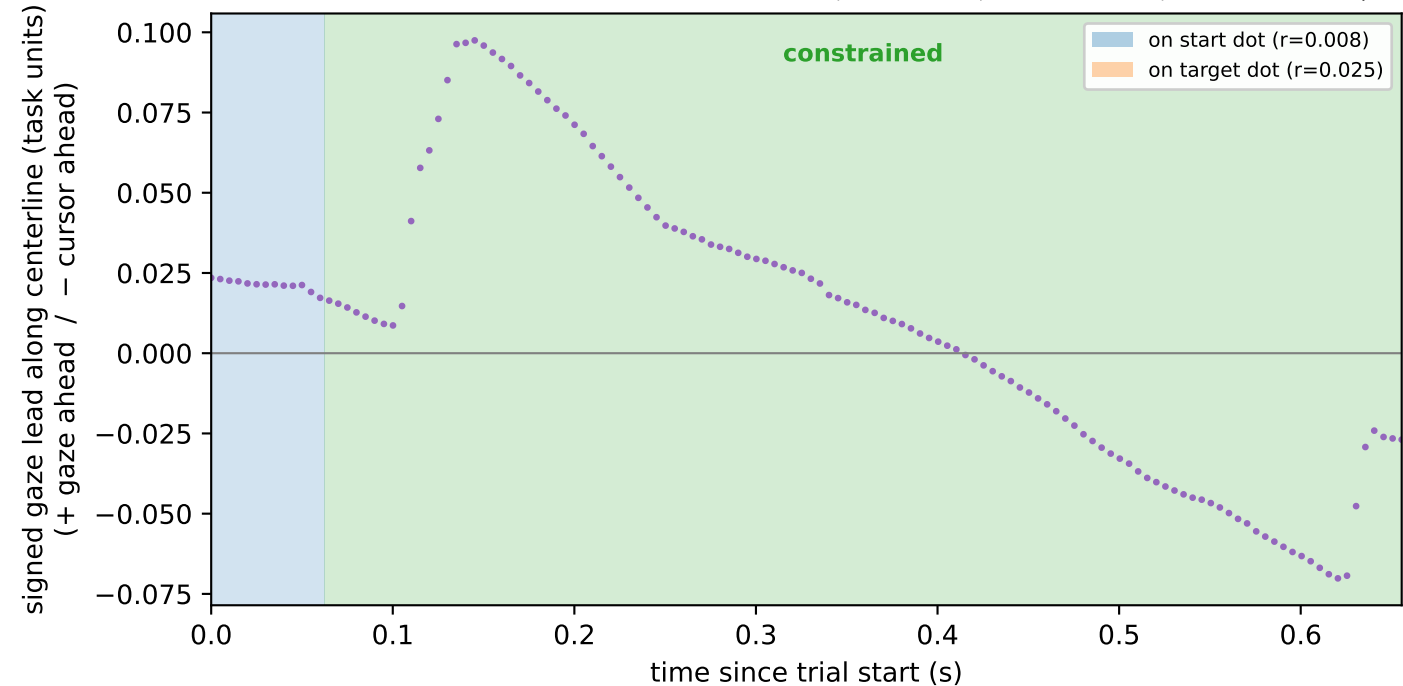

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

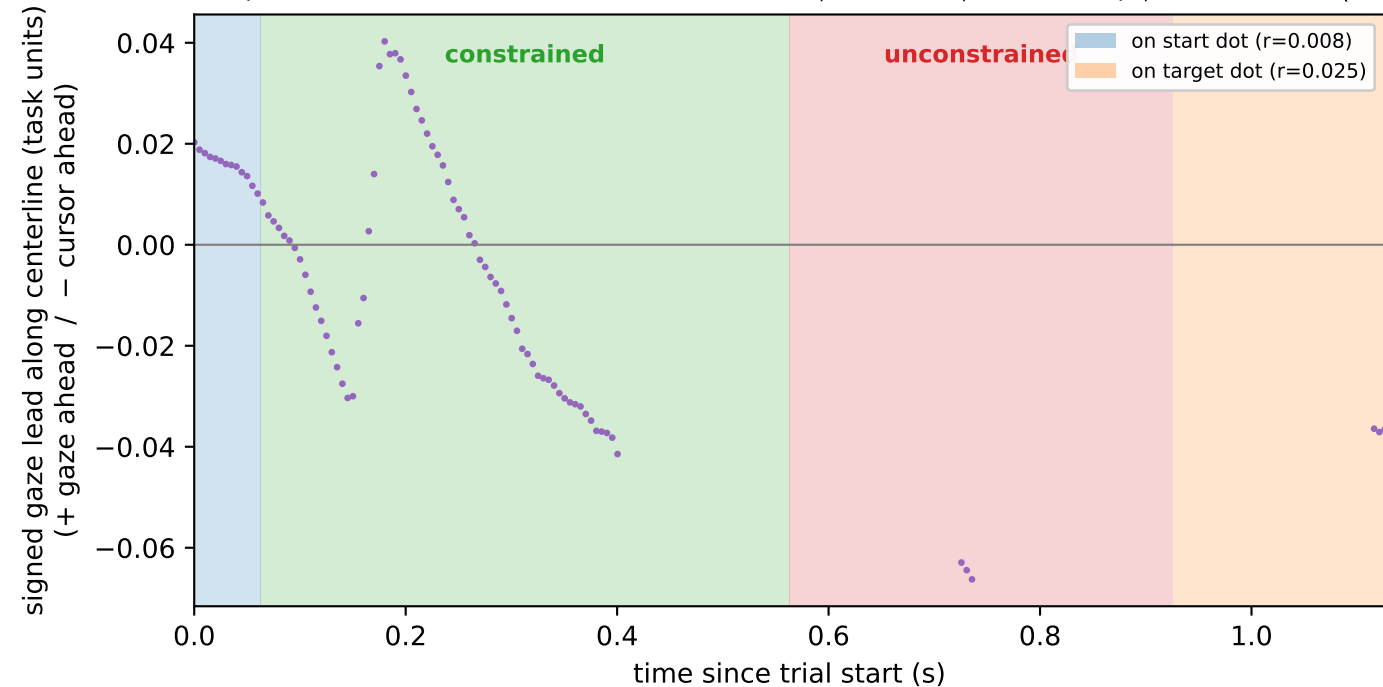

Trial 17/73 round 2 — constrained-to-unconstrained, width 0.01, distance D, radius 15mm (id 64)

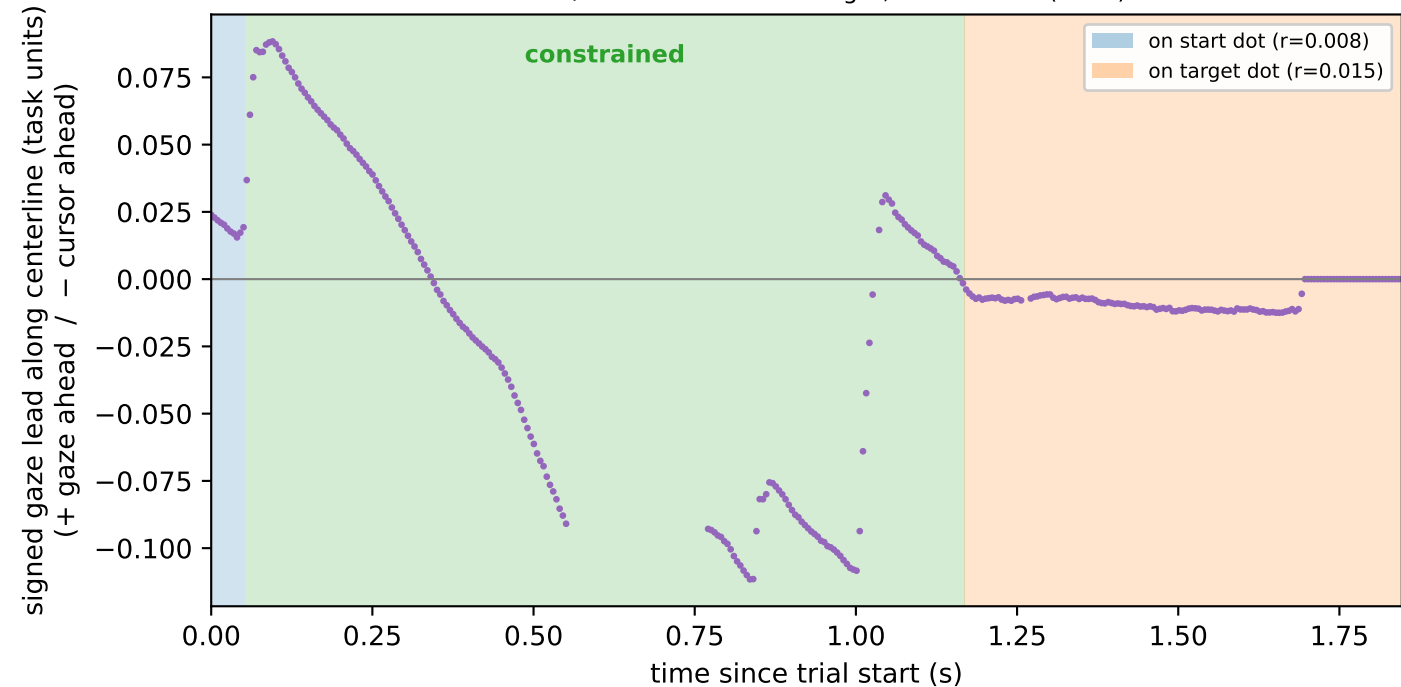

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

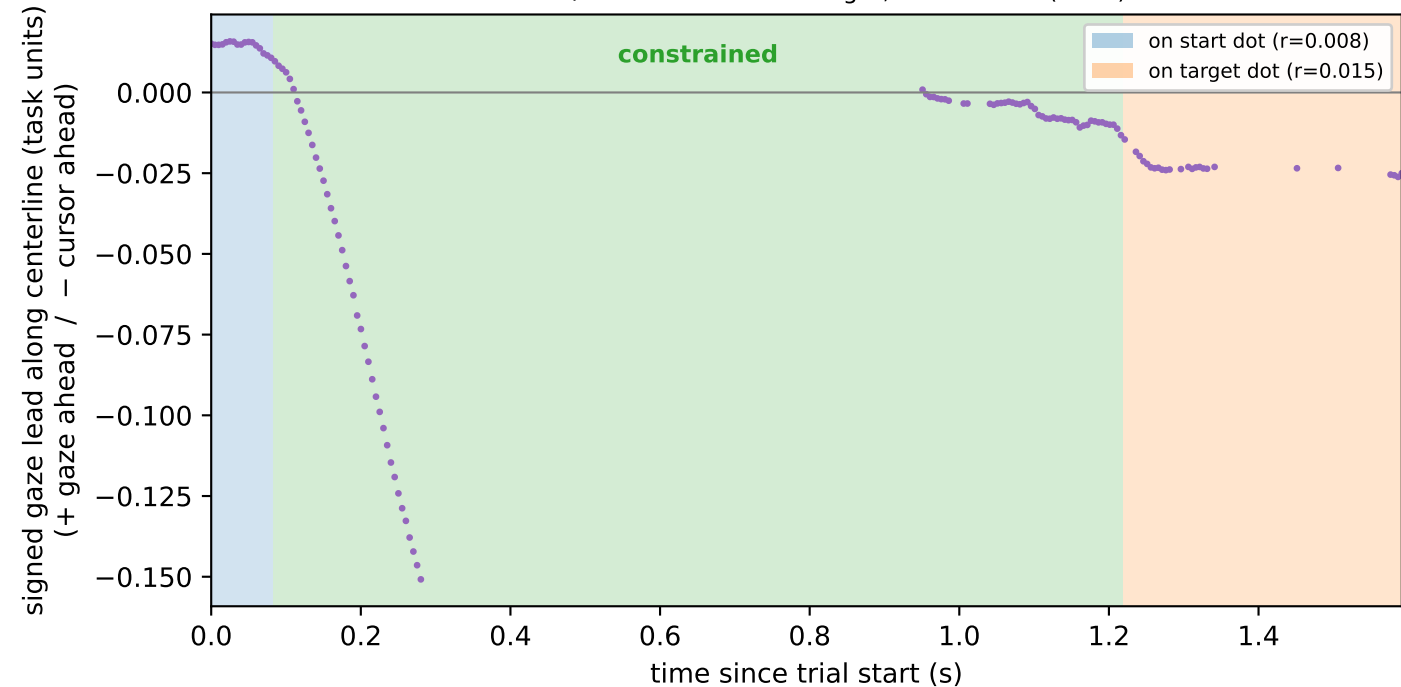

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

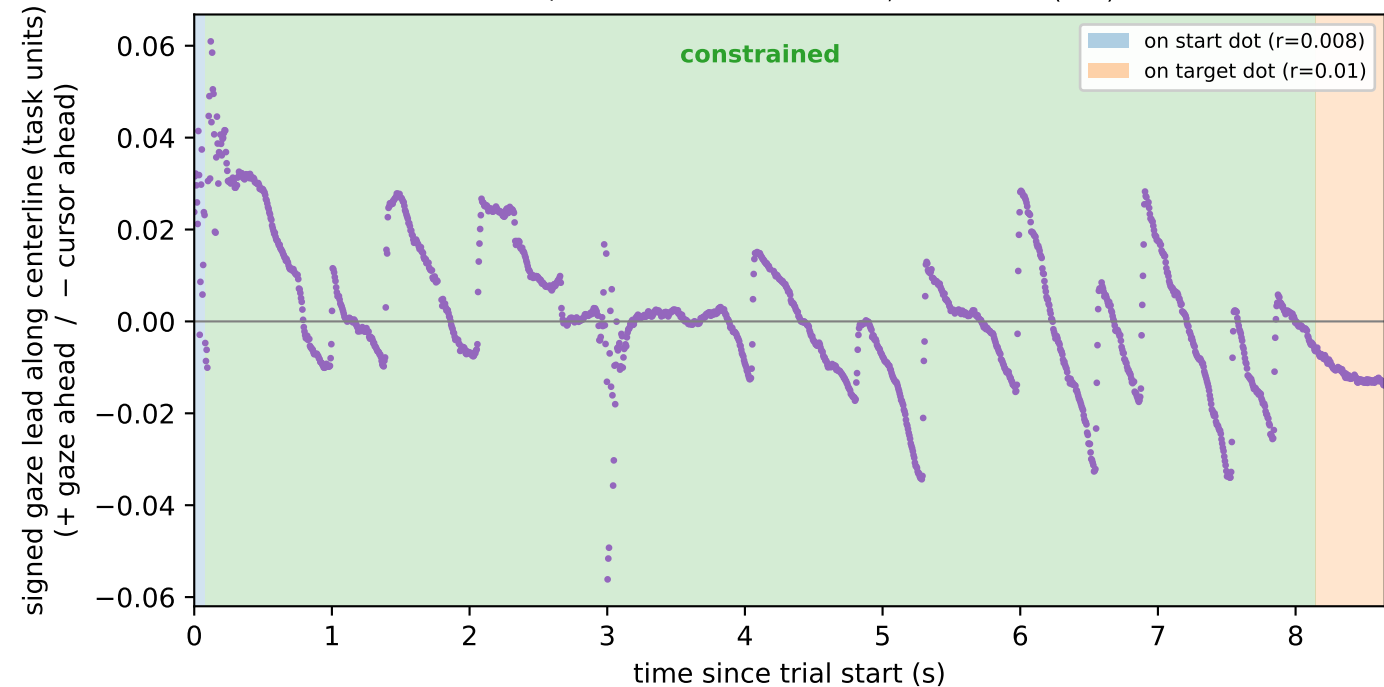

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

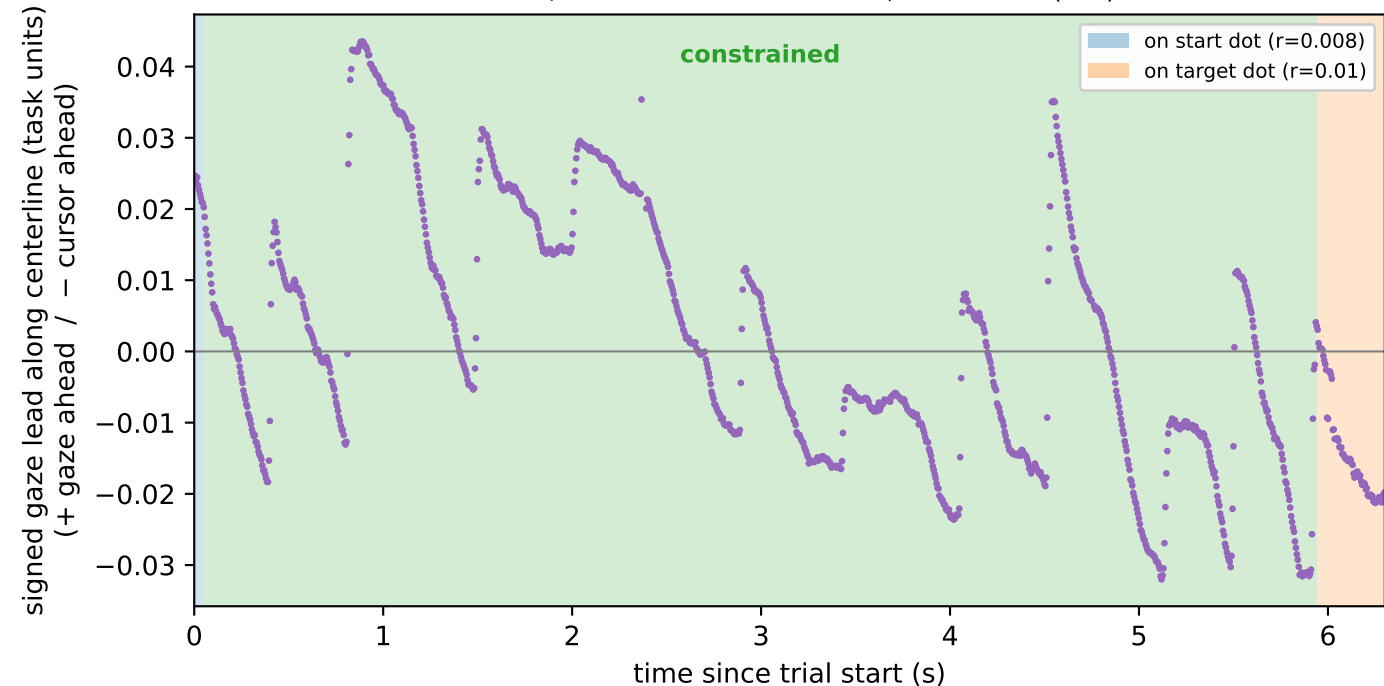

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

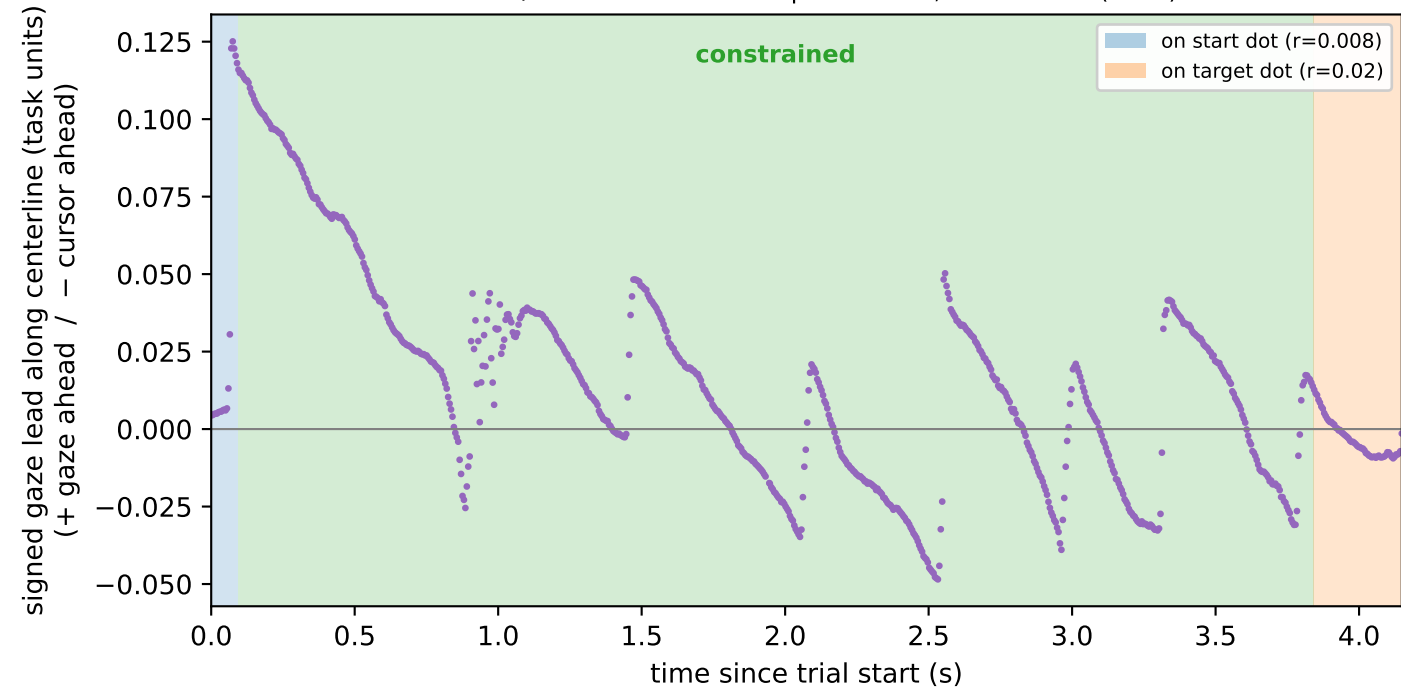

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

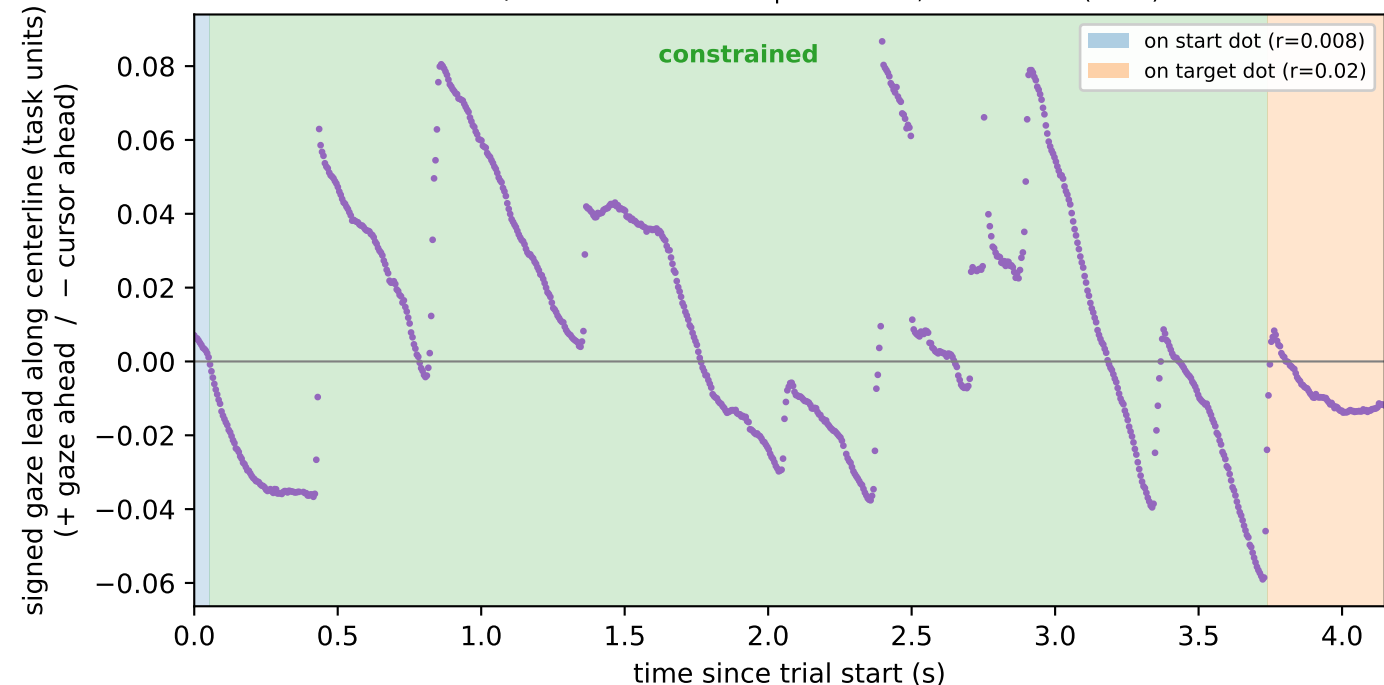

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

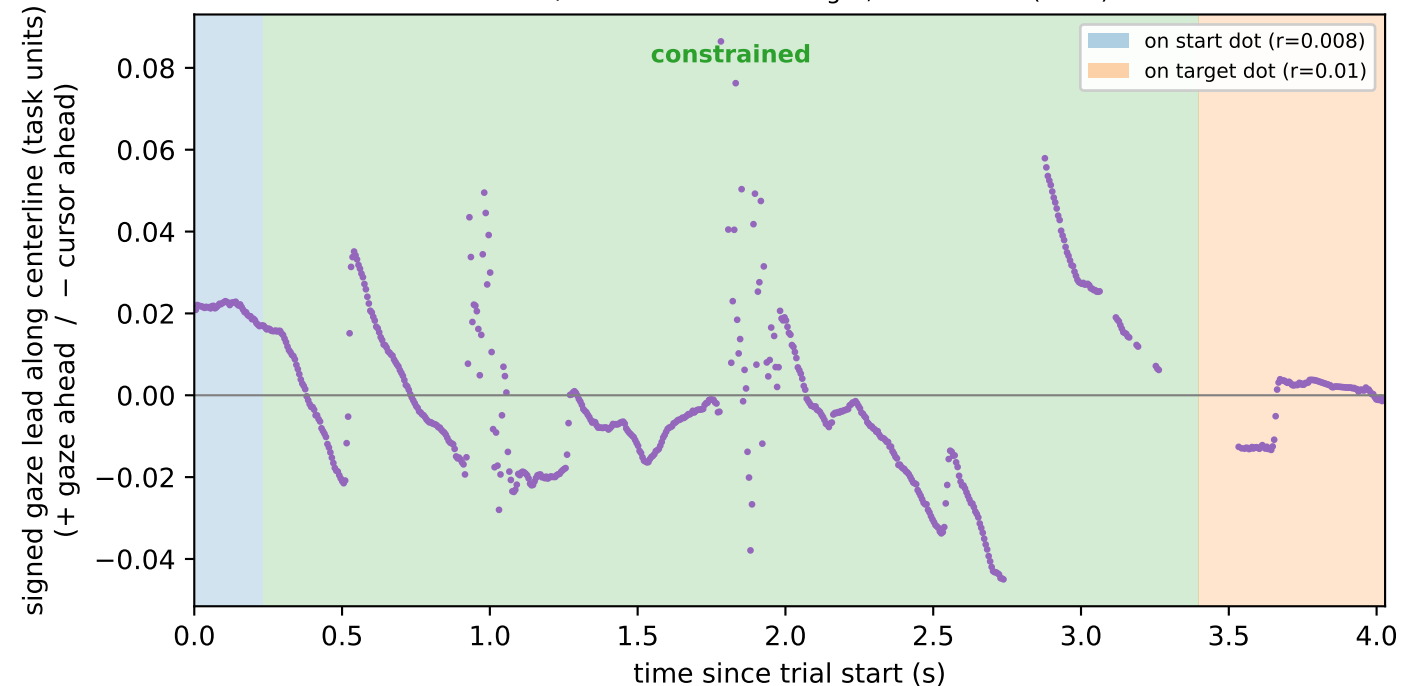

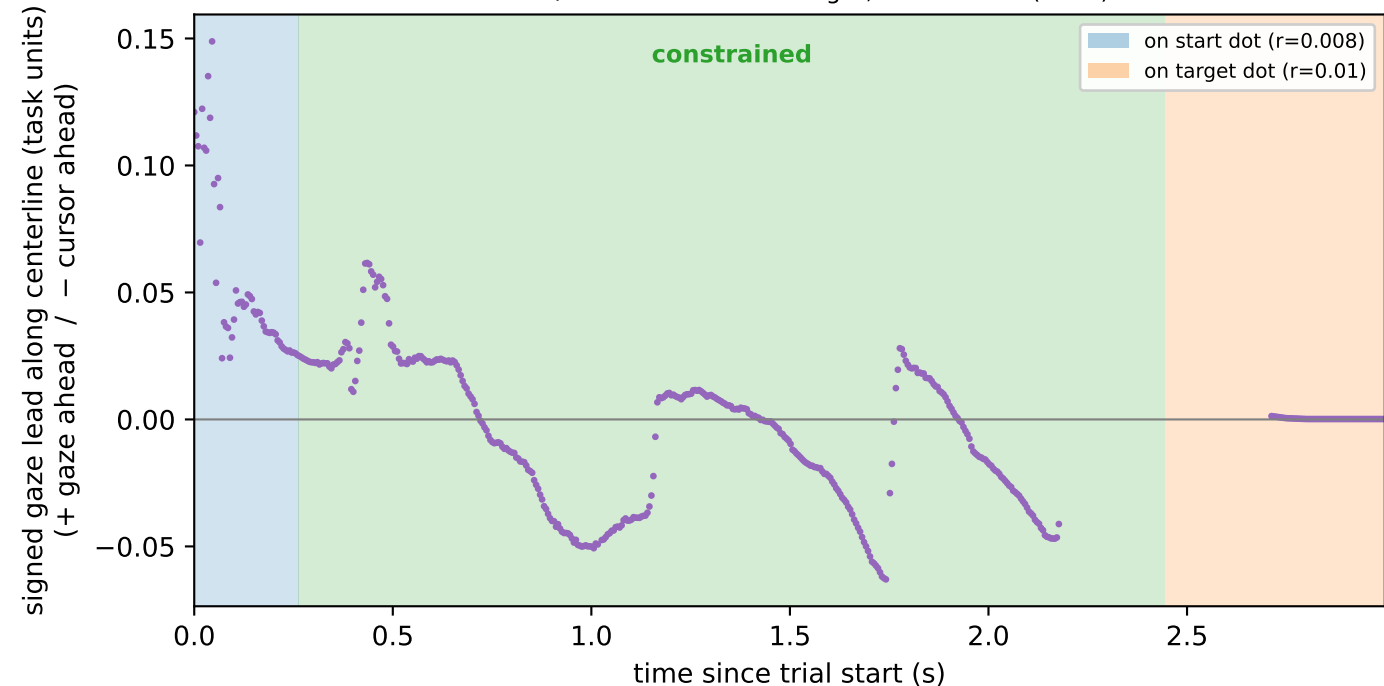

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

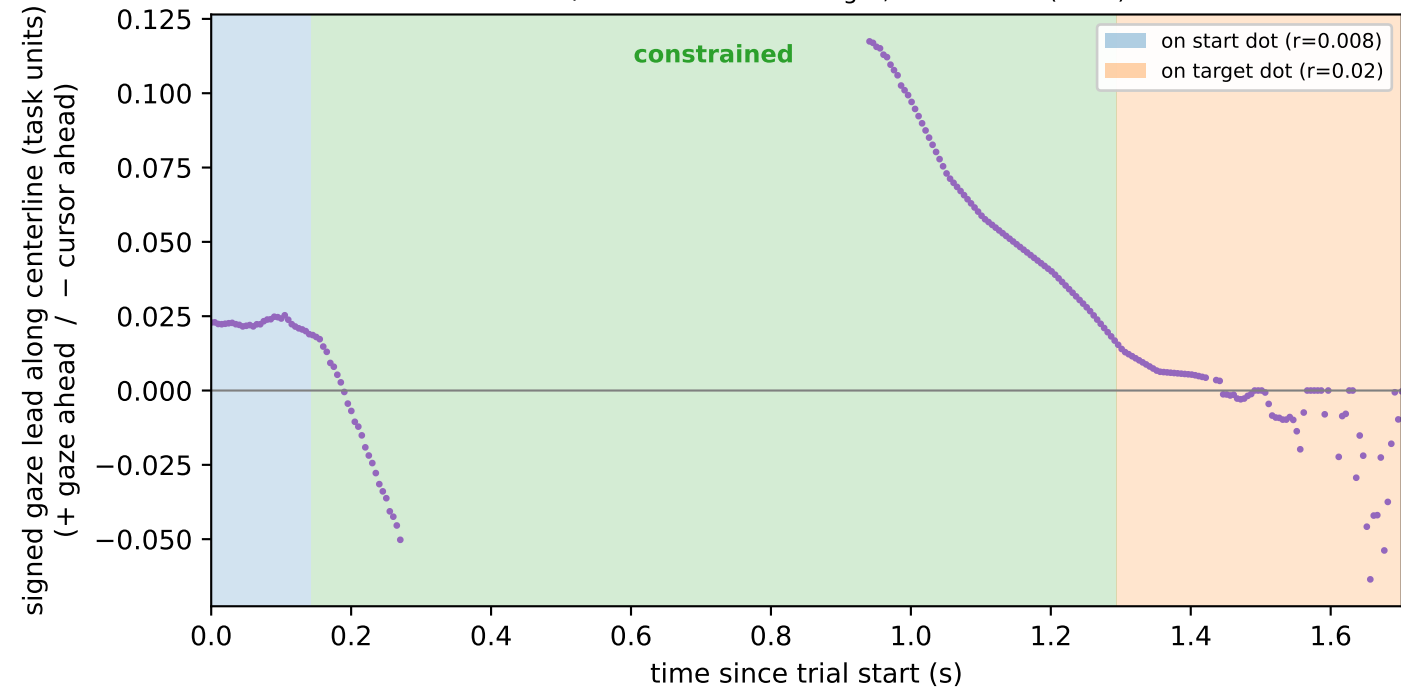

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

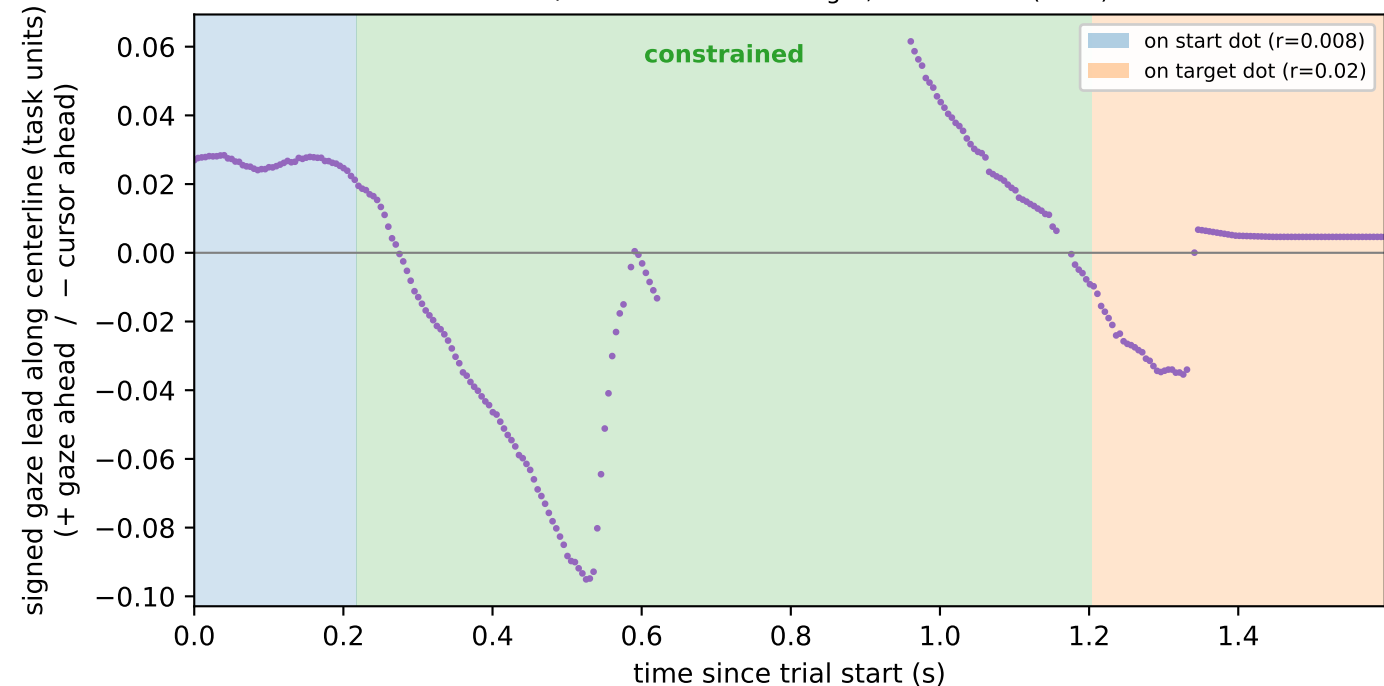

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

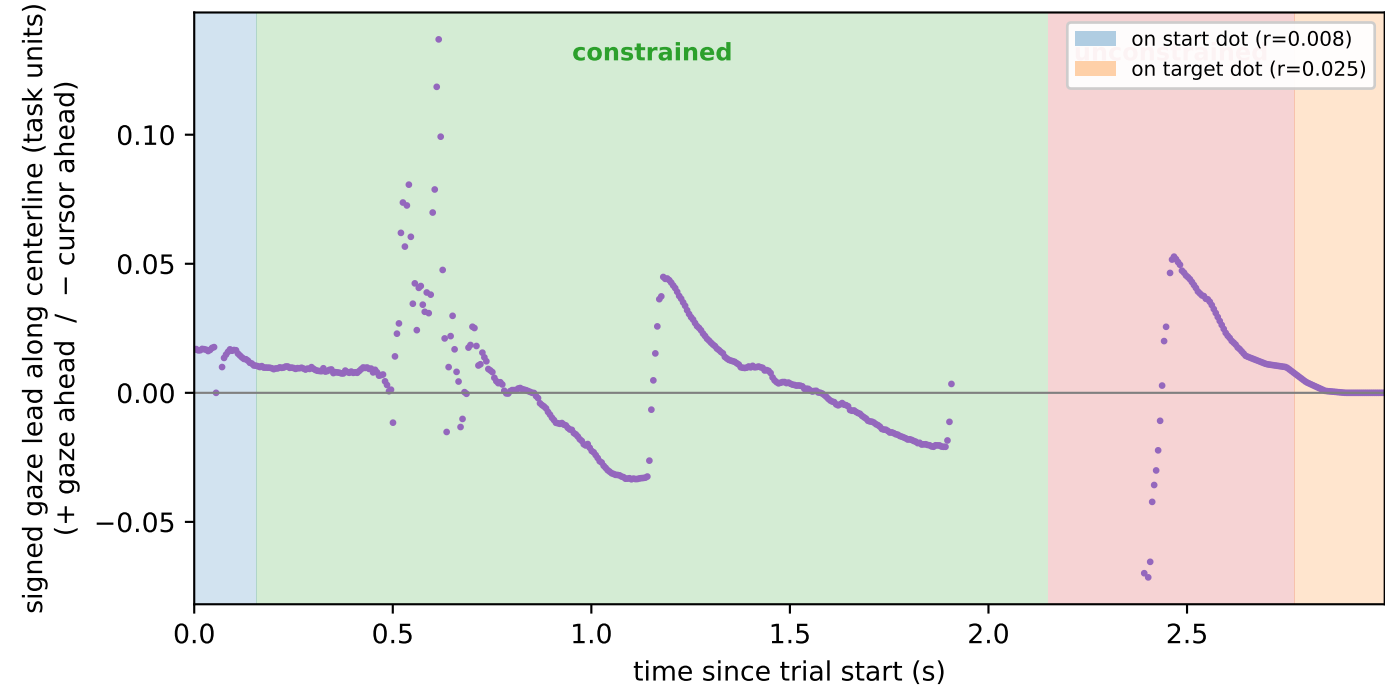

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

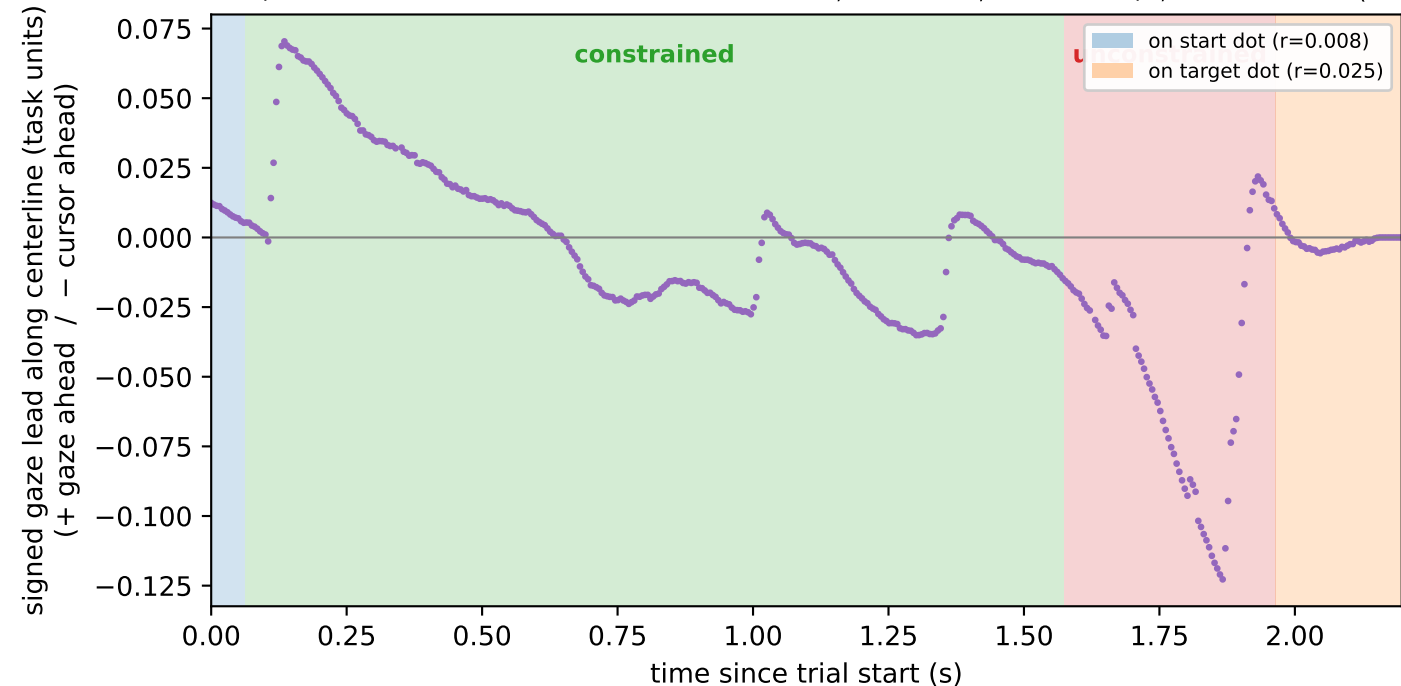

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

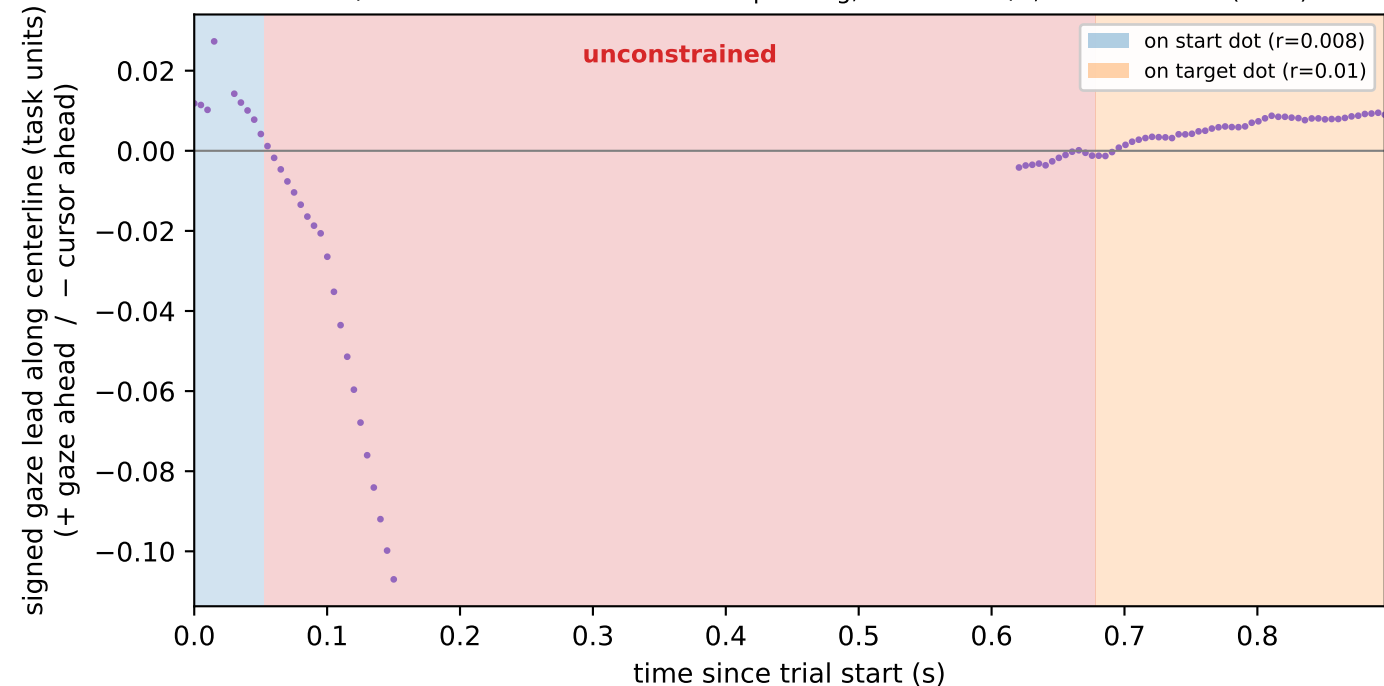

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

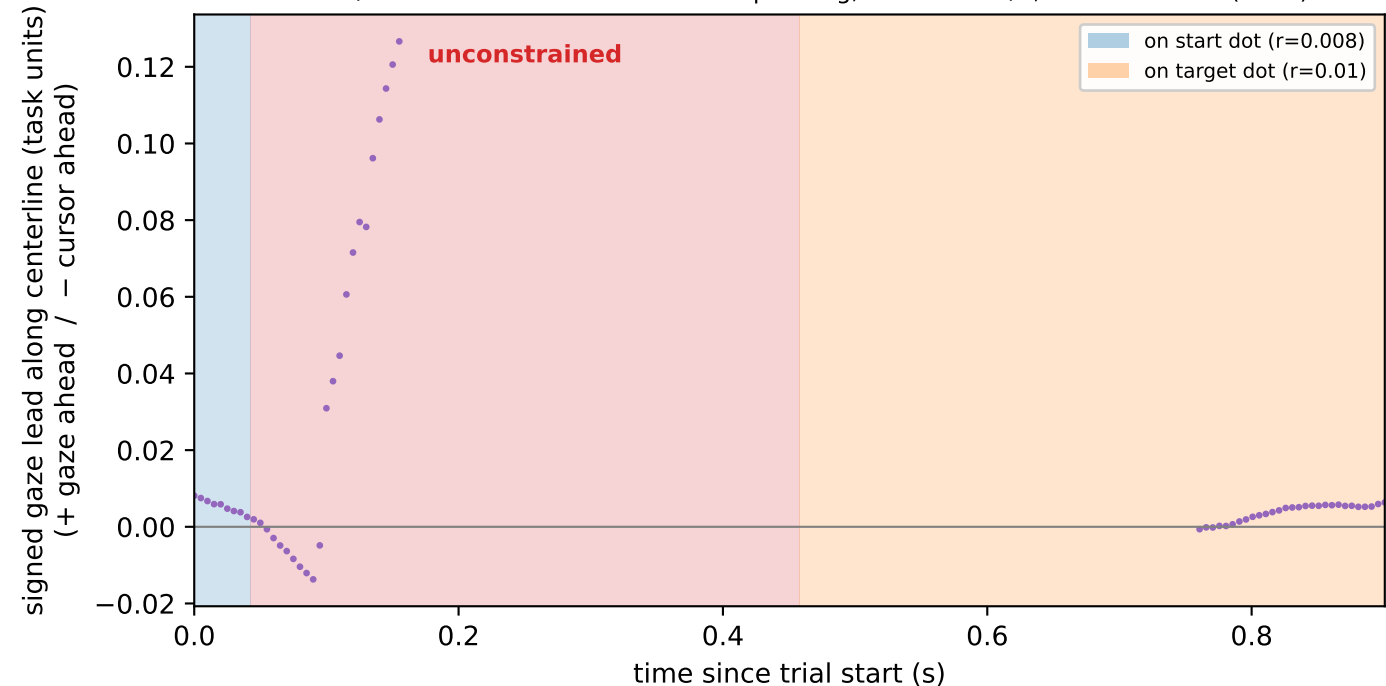

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

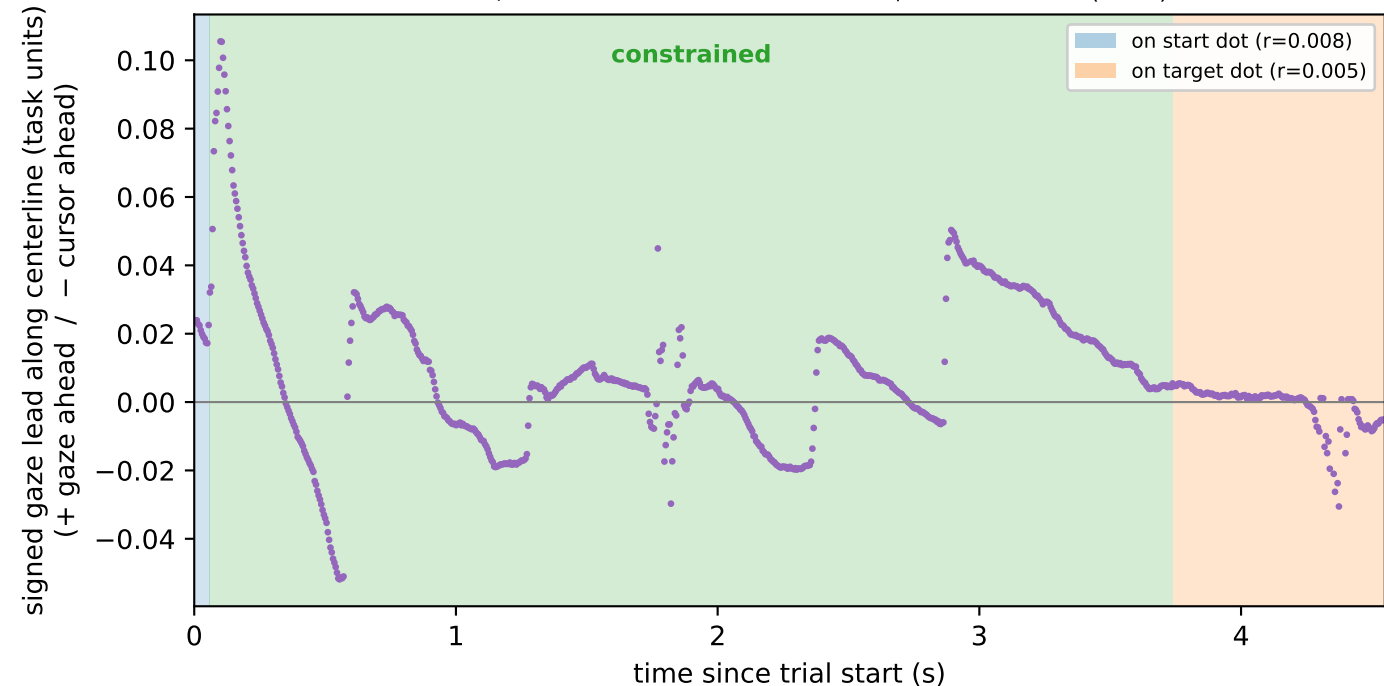

Trial 25/73 round 1 — unconstrained pointing, distance 2D/3, radius 10mm (id 48)

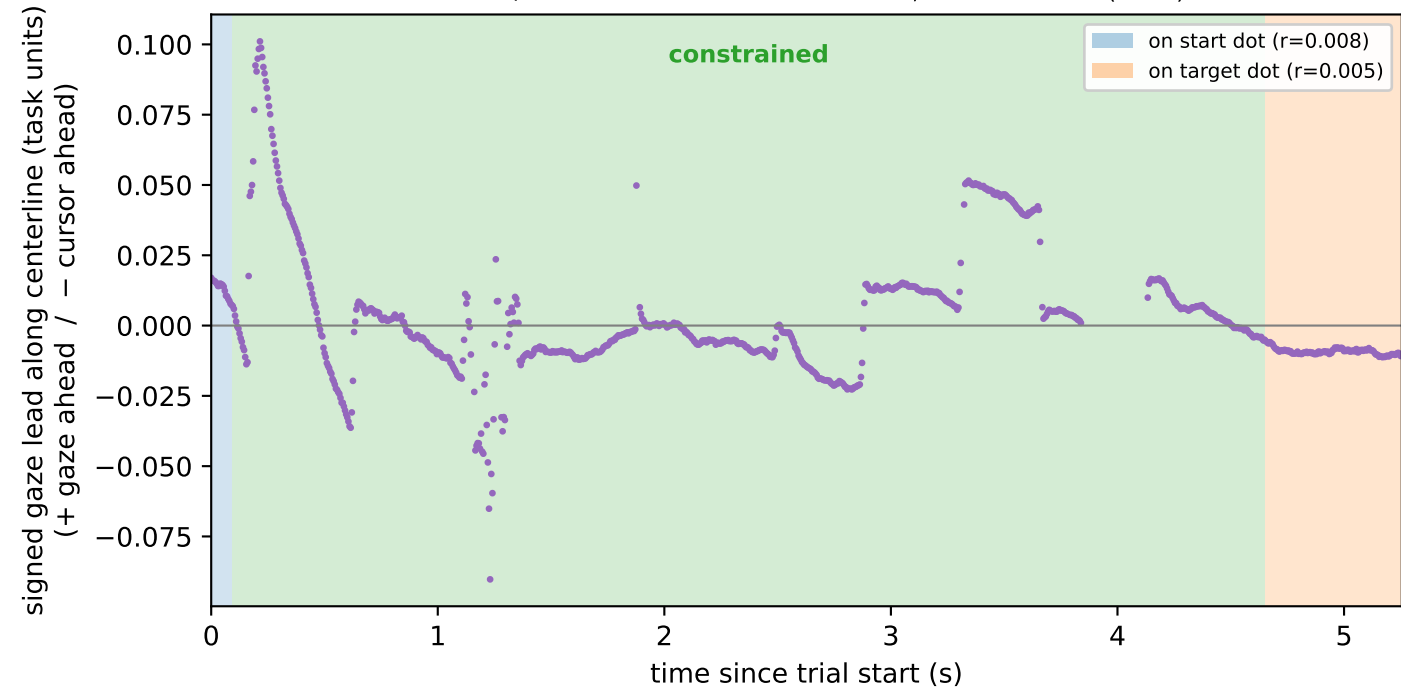

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

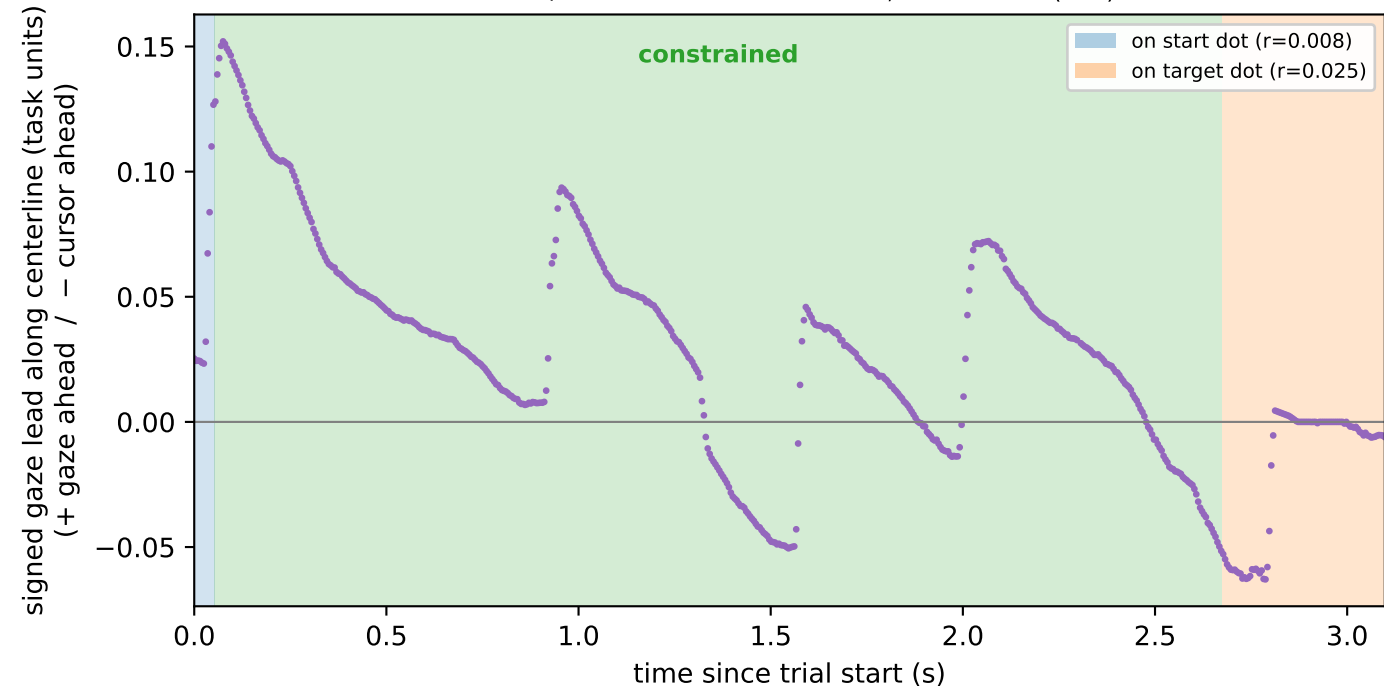

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

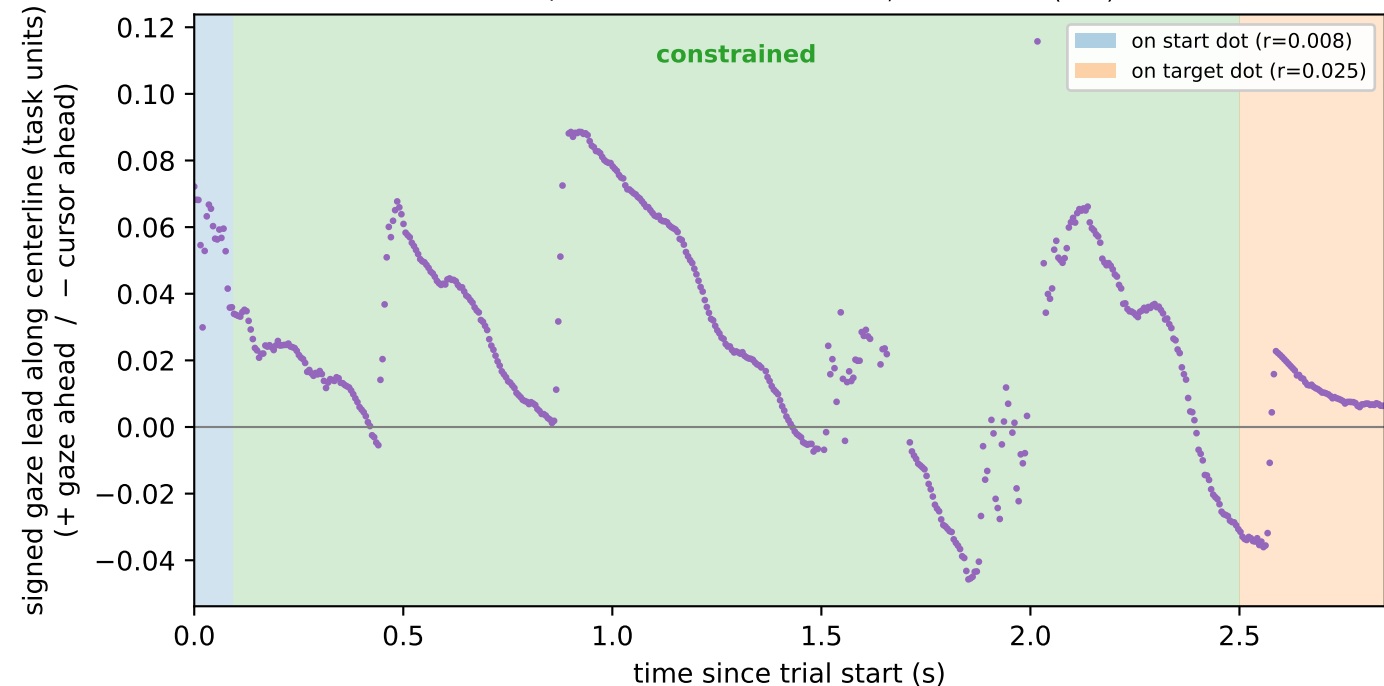

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

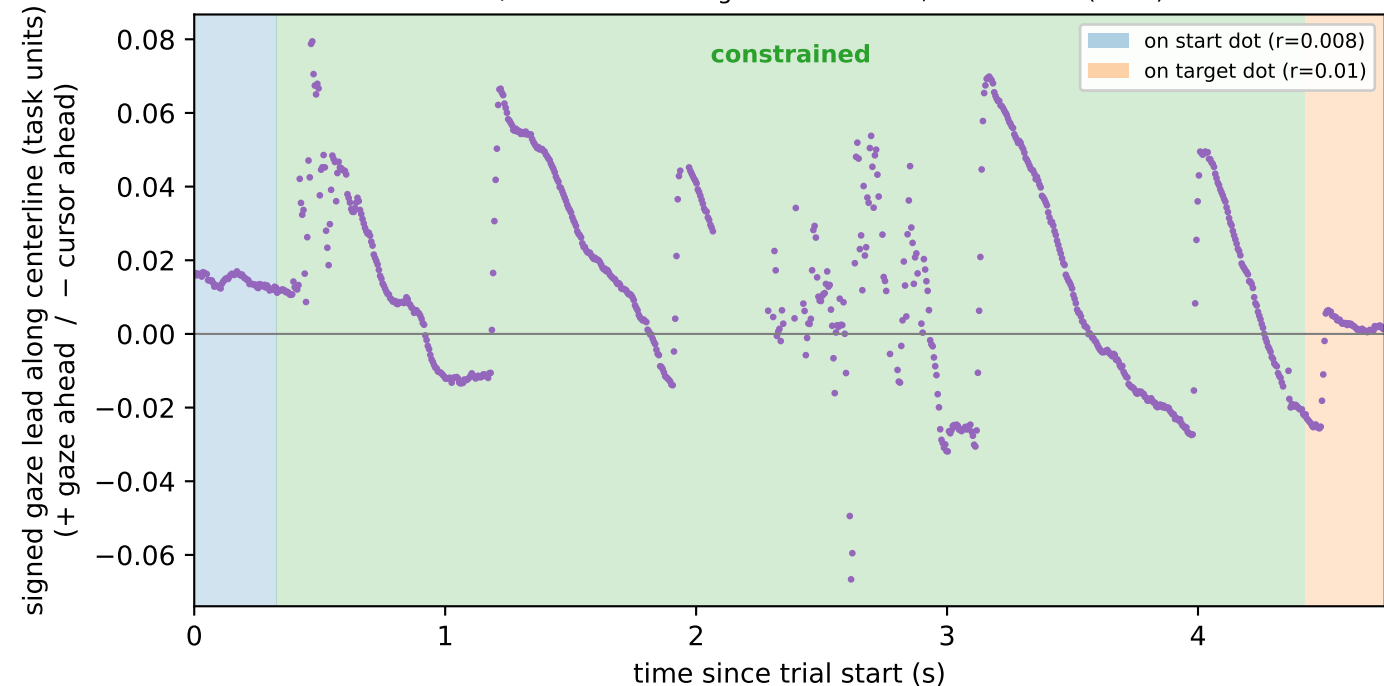

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

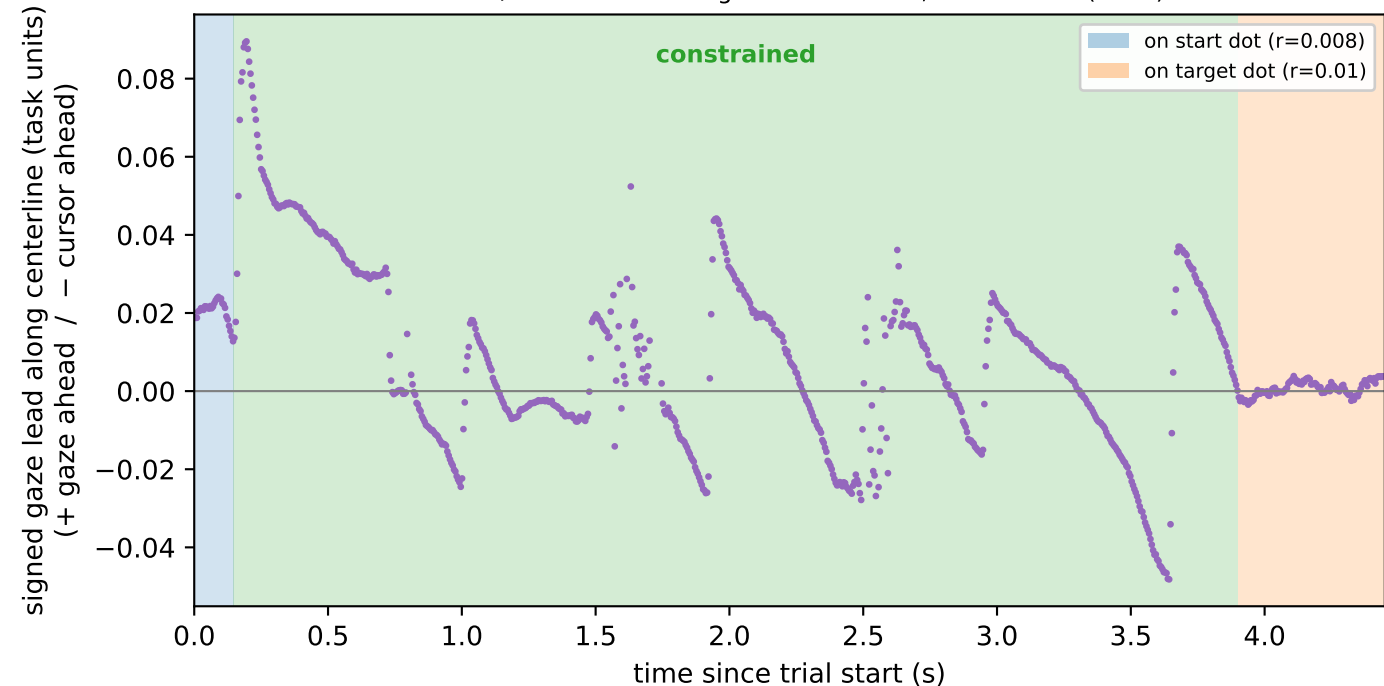

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

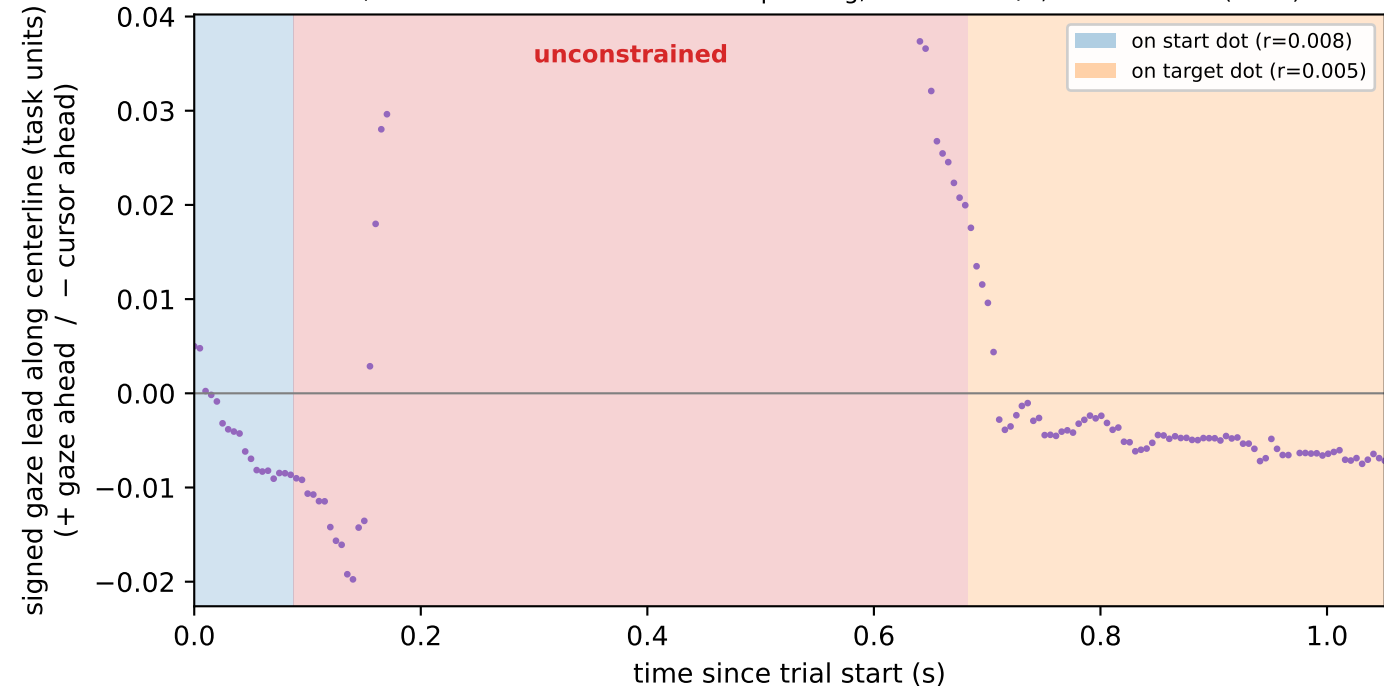

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

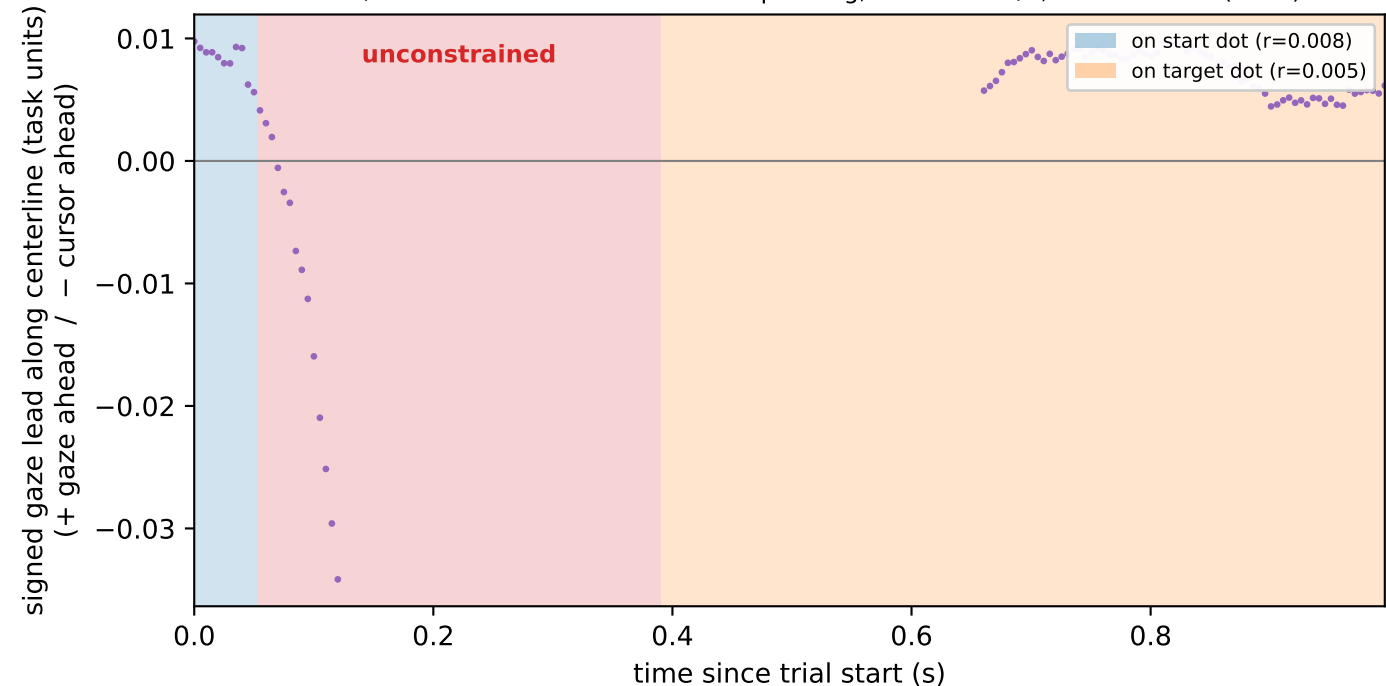

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

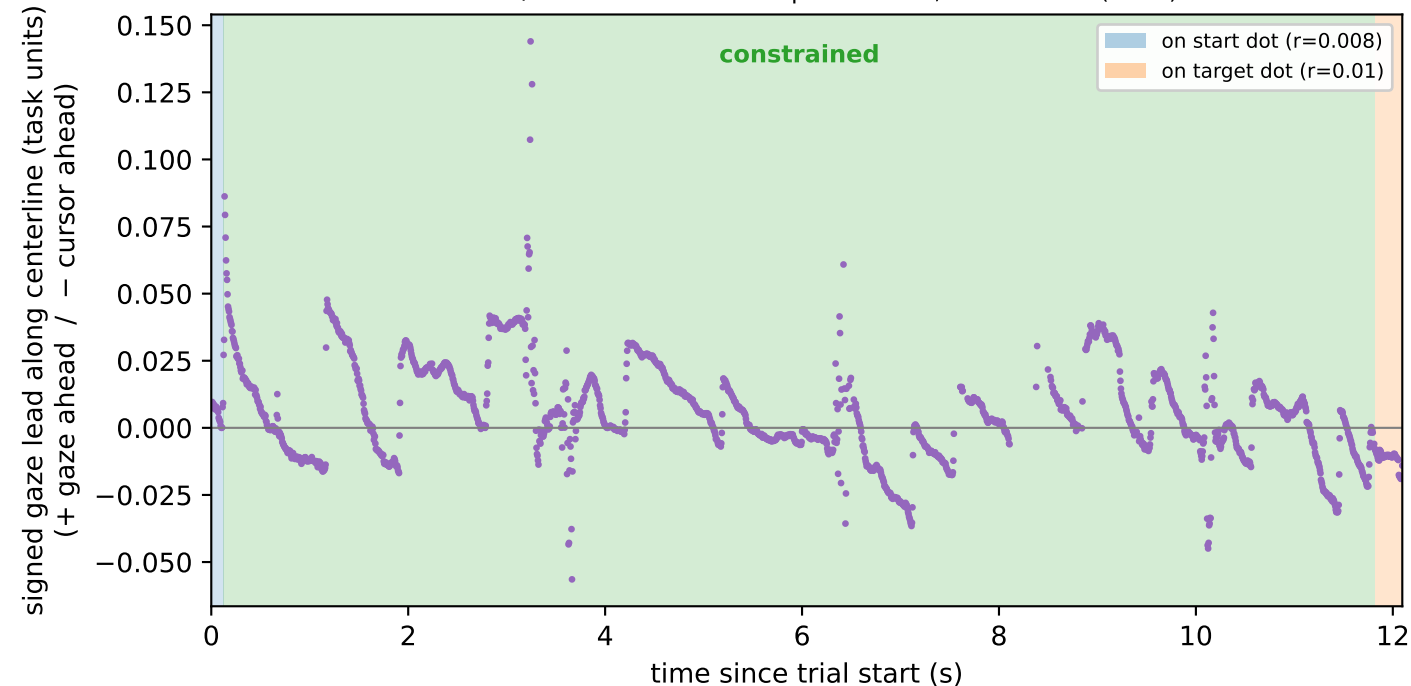

Trial 29/73 round 1 — unconstrained pointing, distance 2D/3, radius 5mm (id 47)

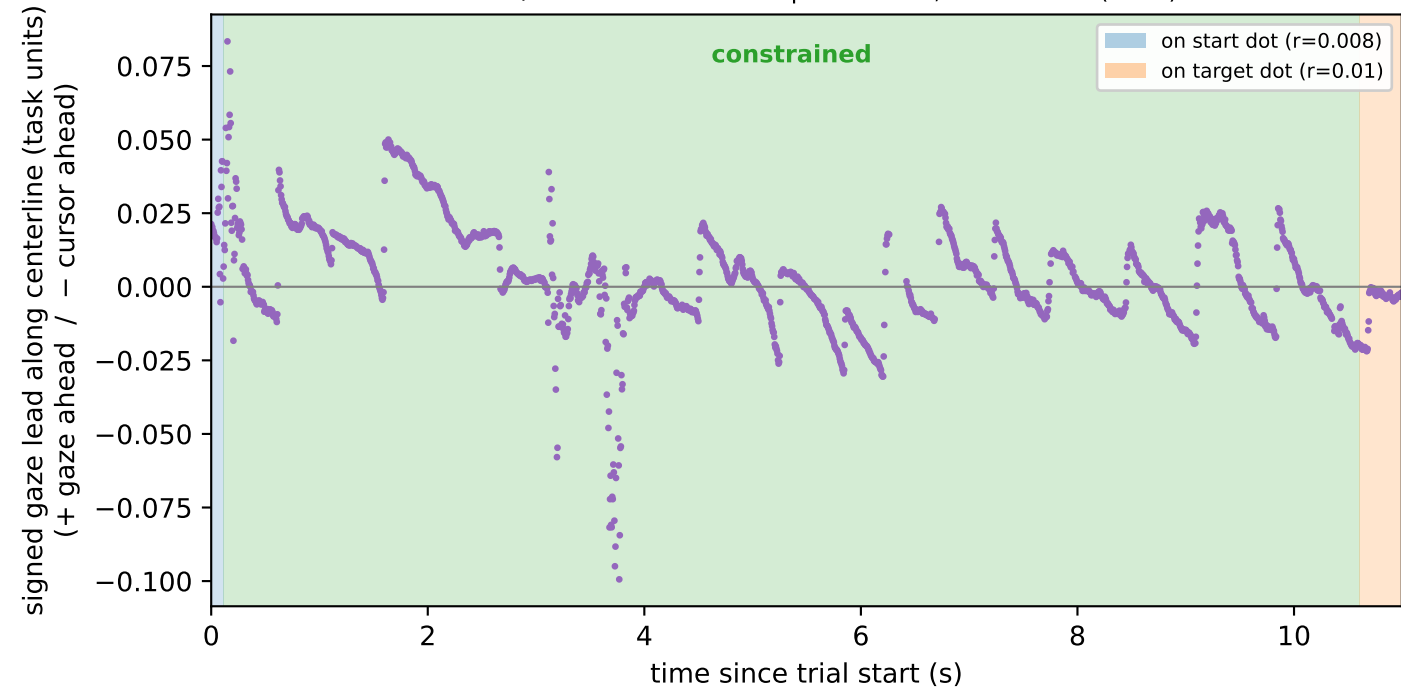

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

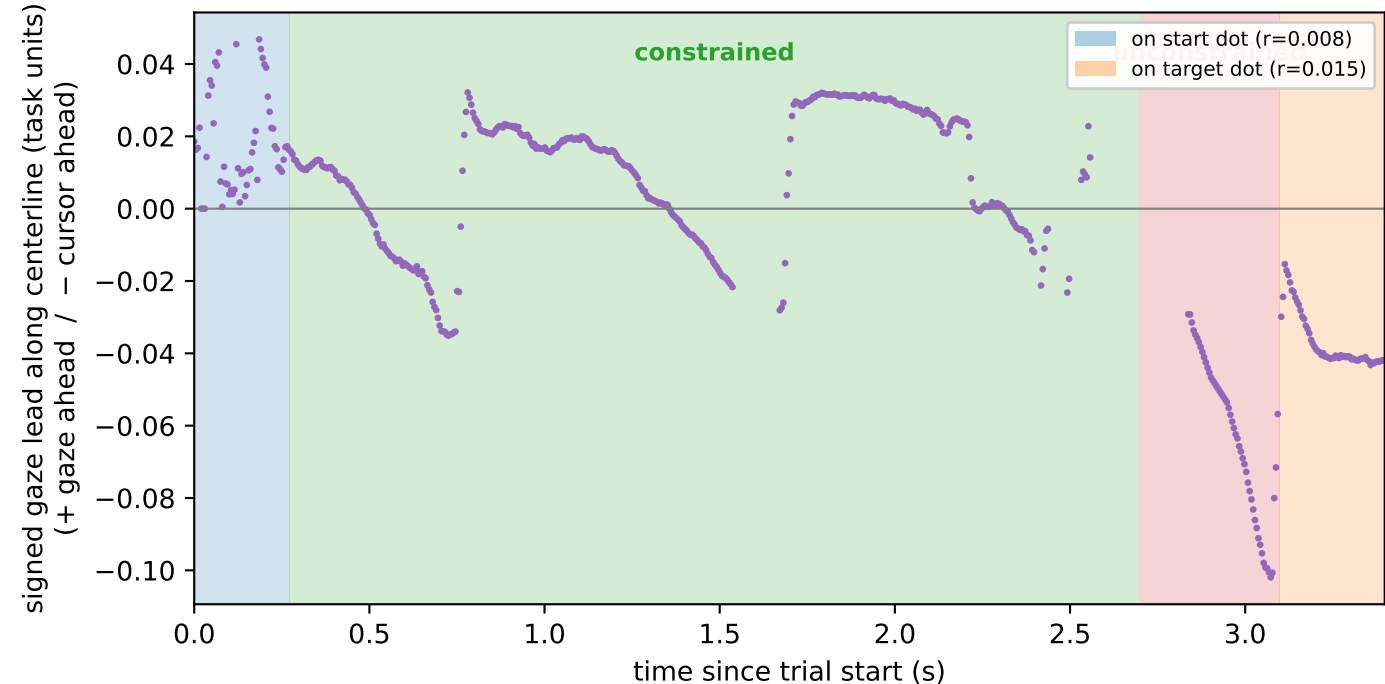

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

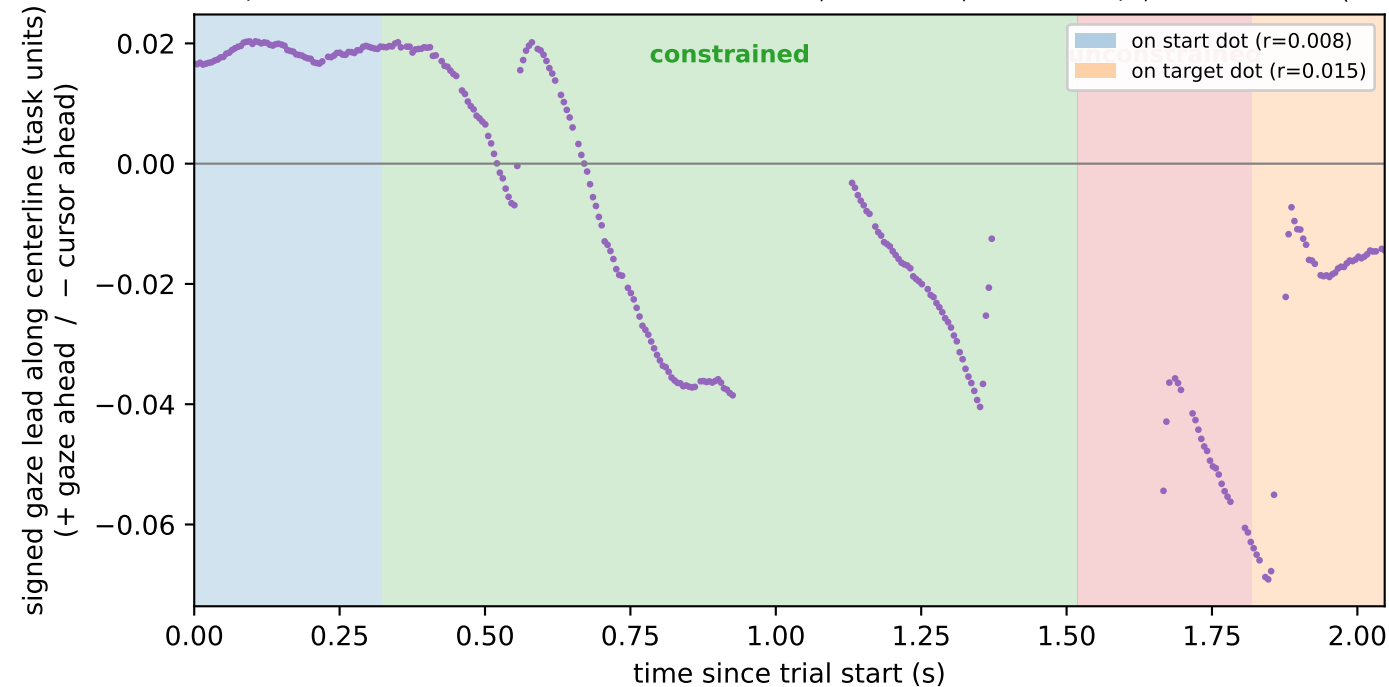

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

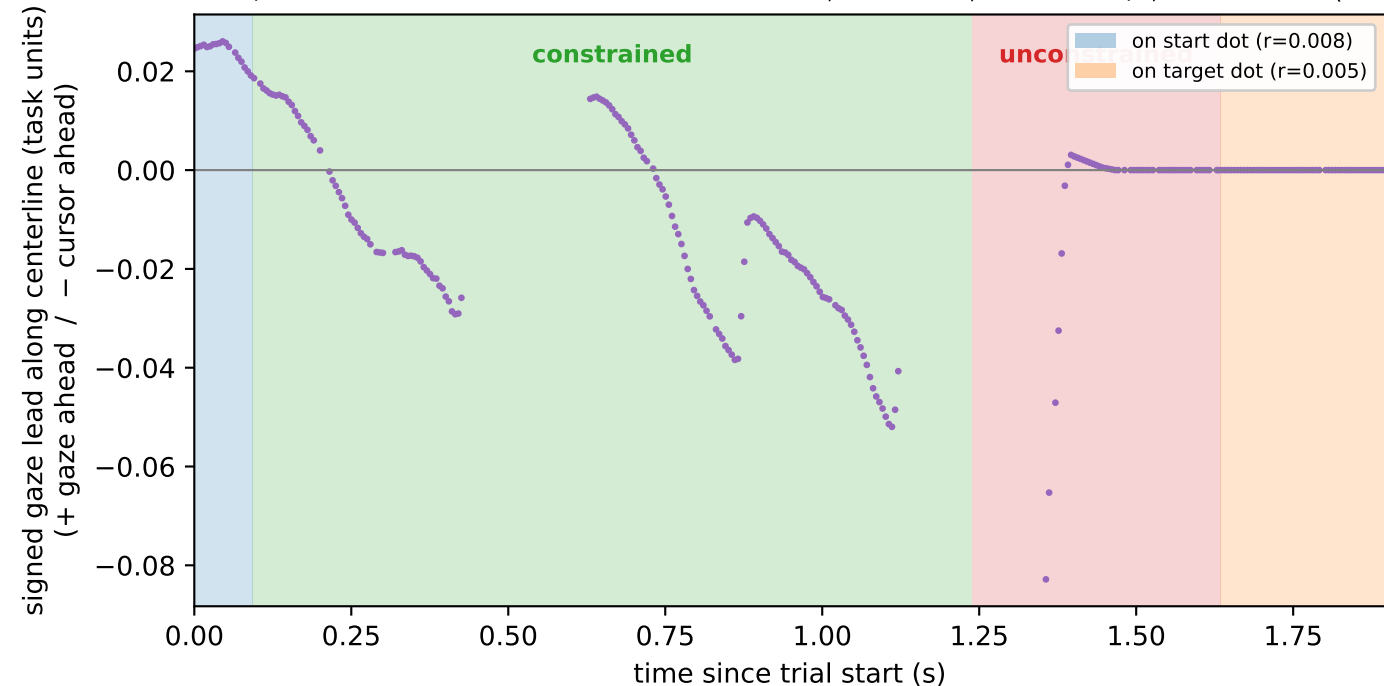

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

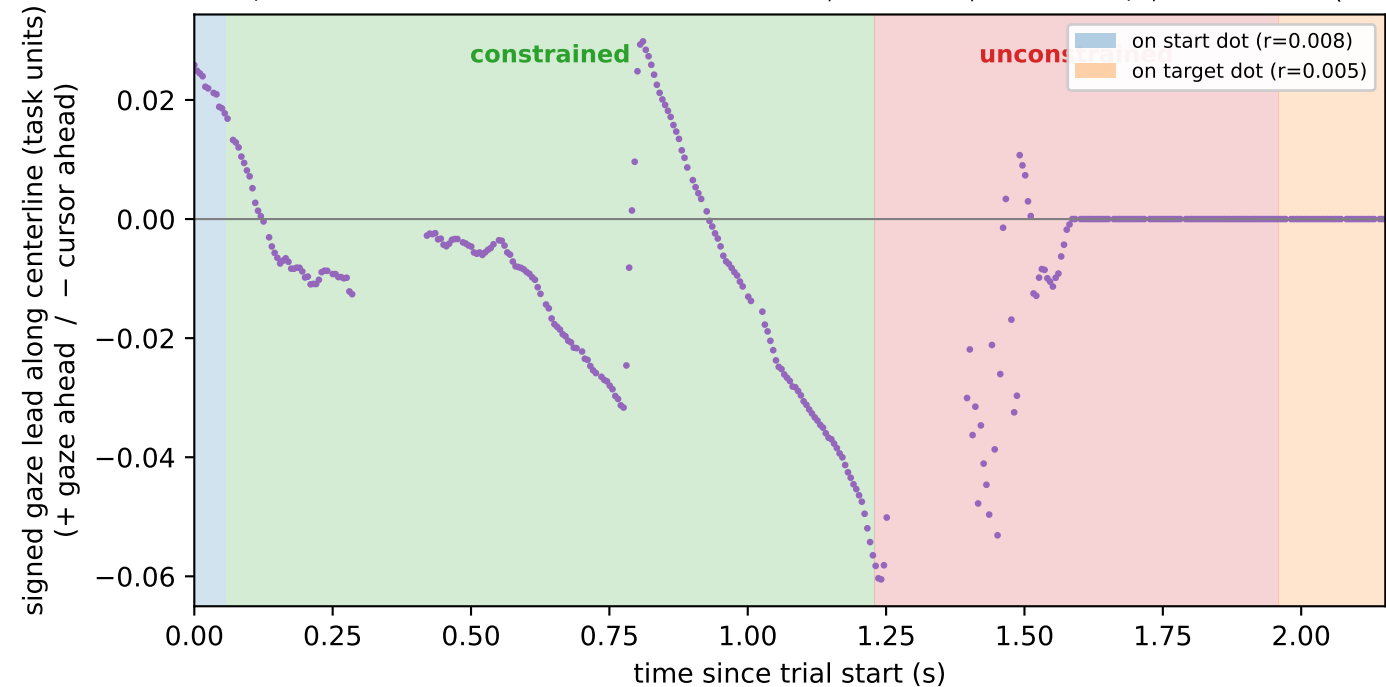

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 32/73 round 1 — constrained-to-unconstrained, width 0.01, distance 4D/6, radius 5mm (id 57)

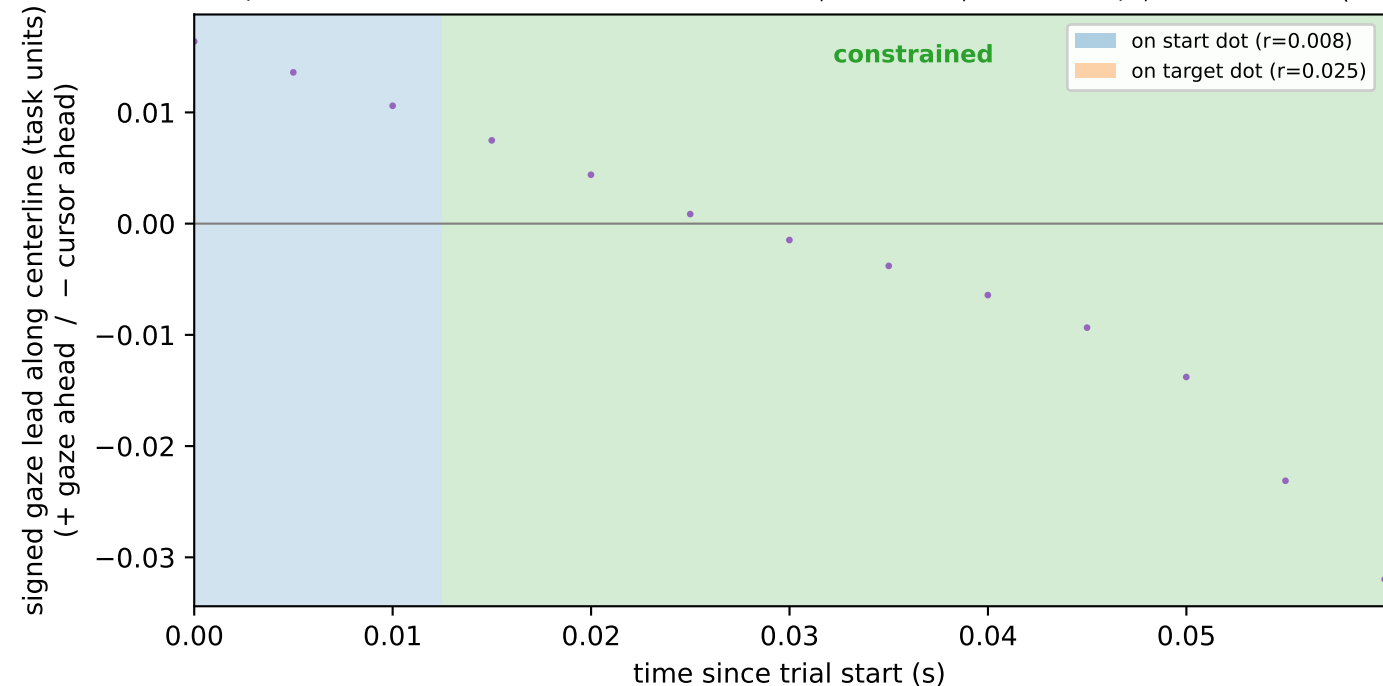

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

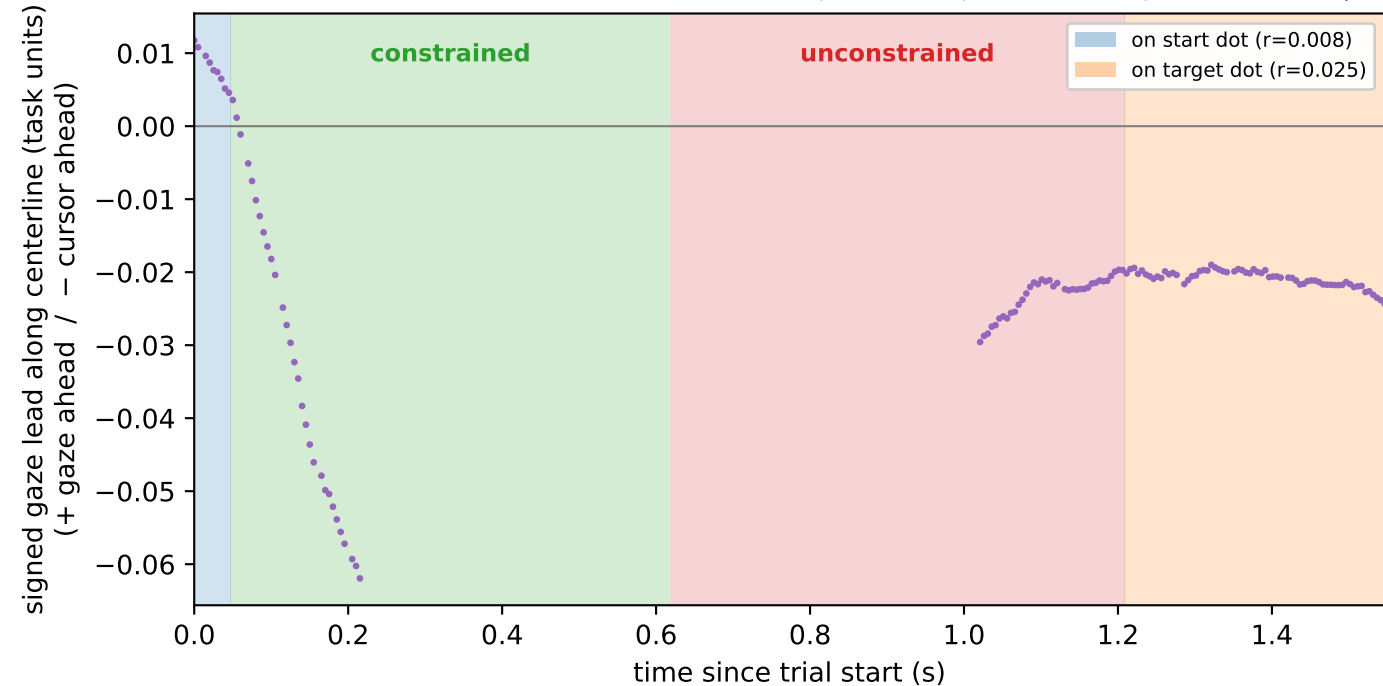

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

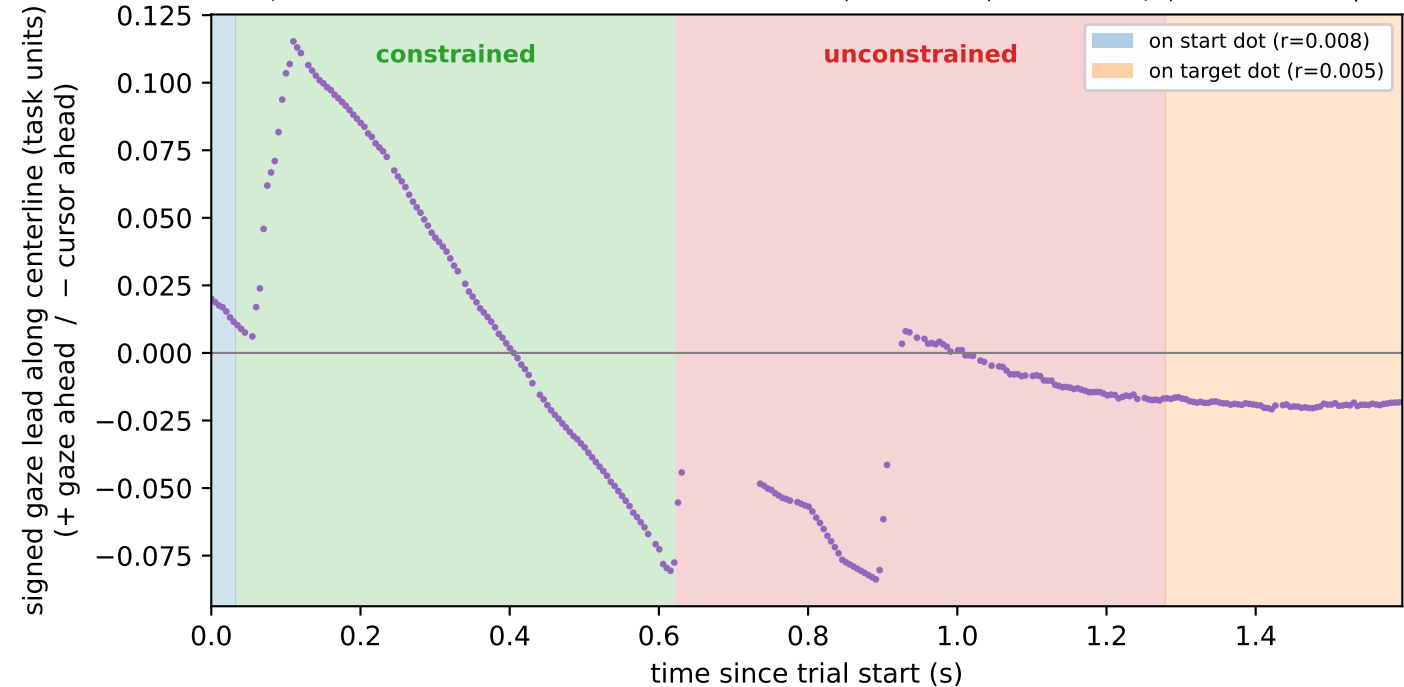

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

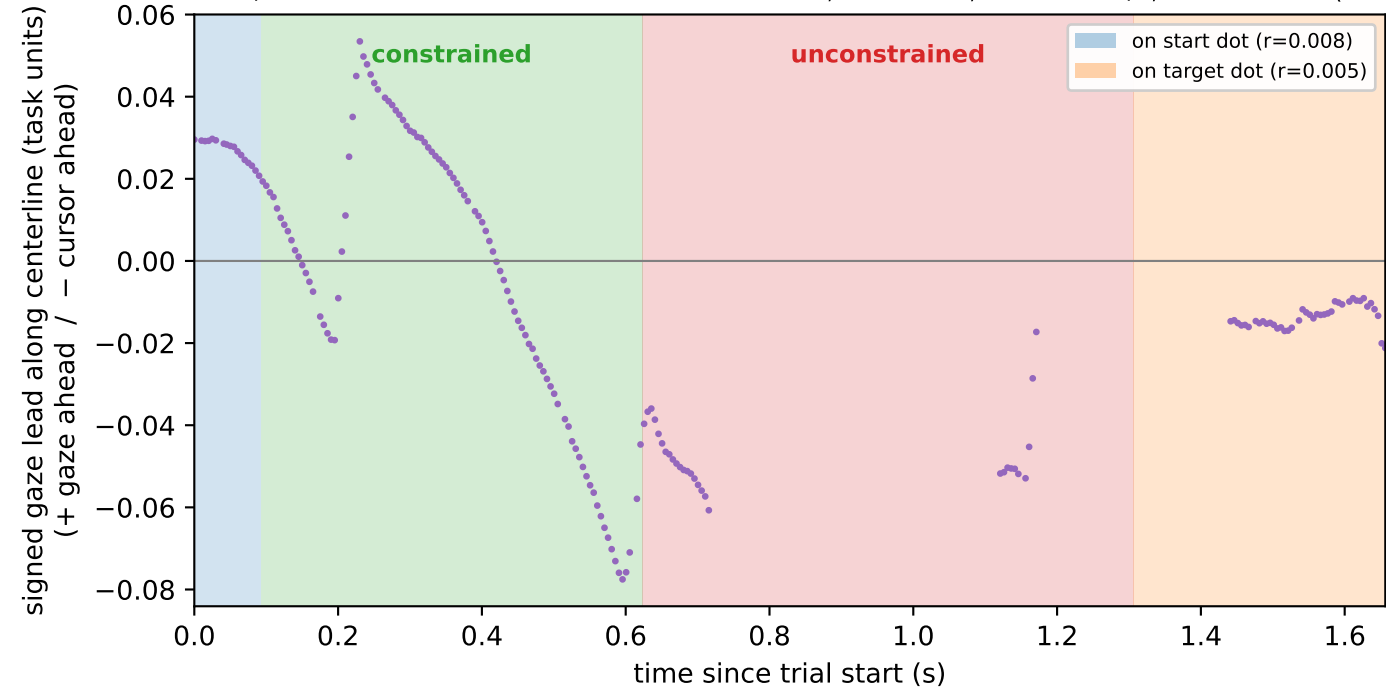

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

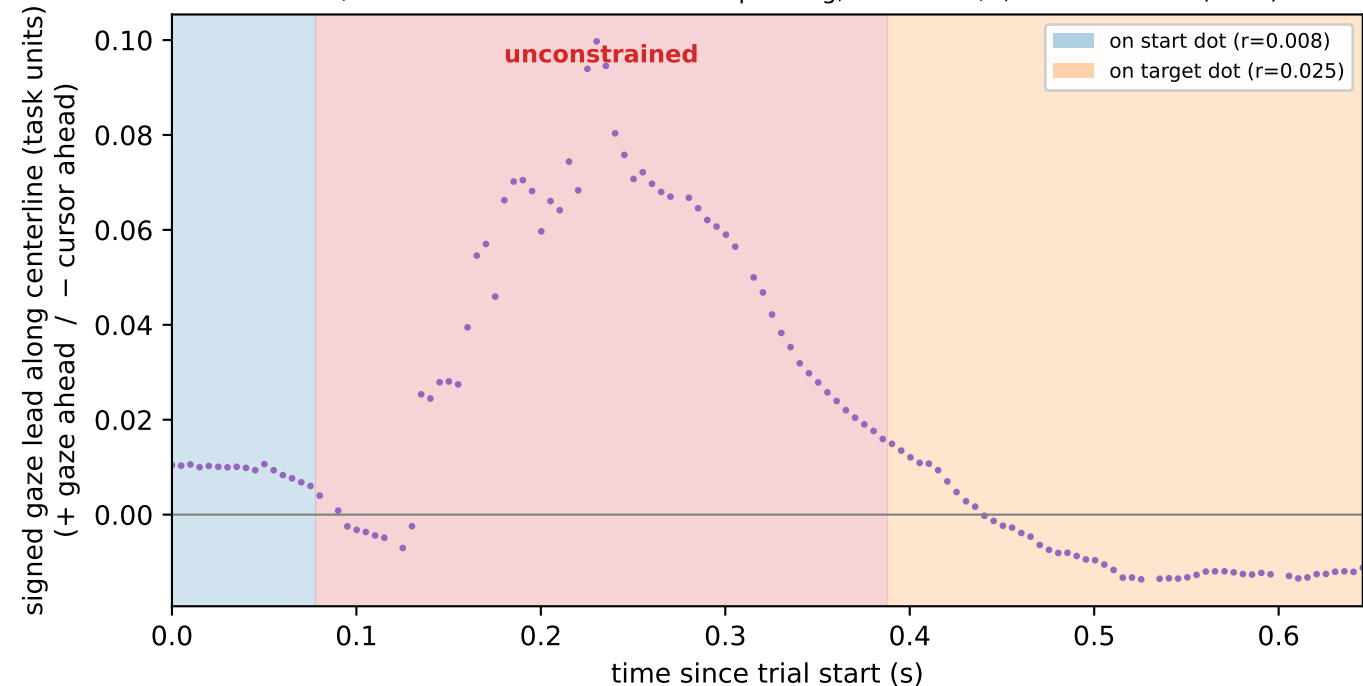

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

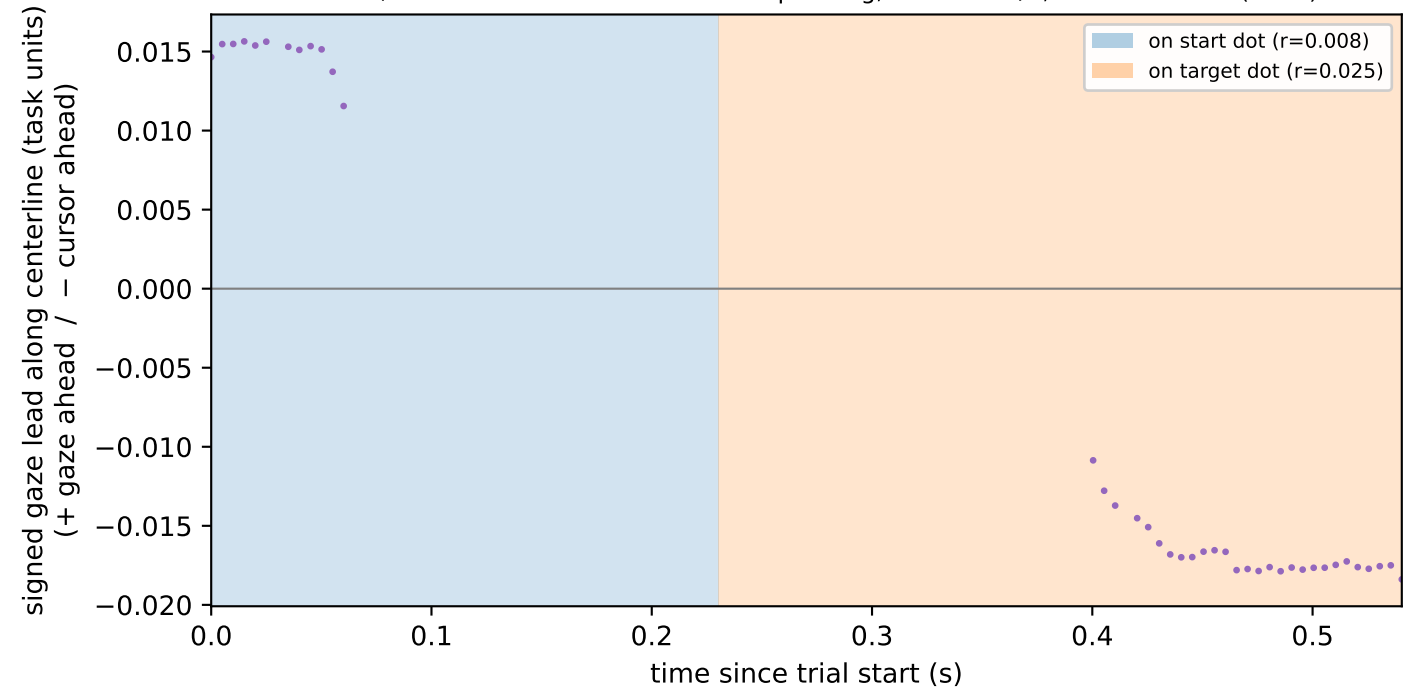

Trial 34/73 round 2 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 5mm (id 66)

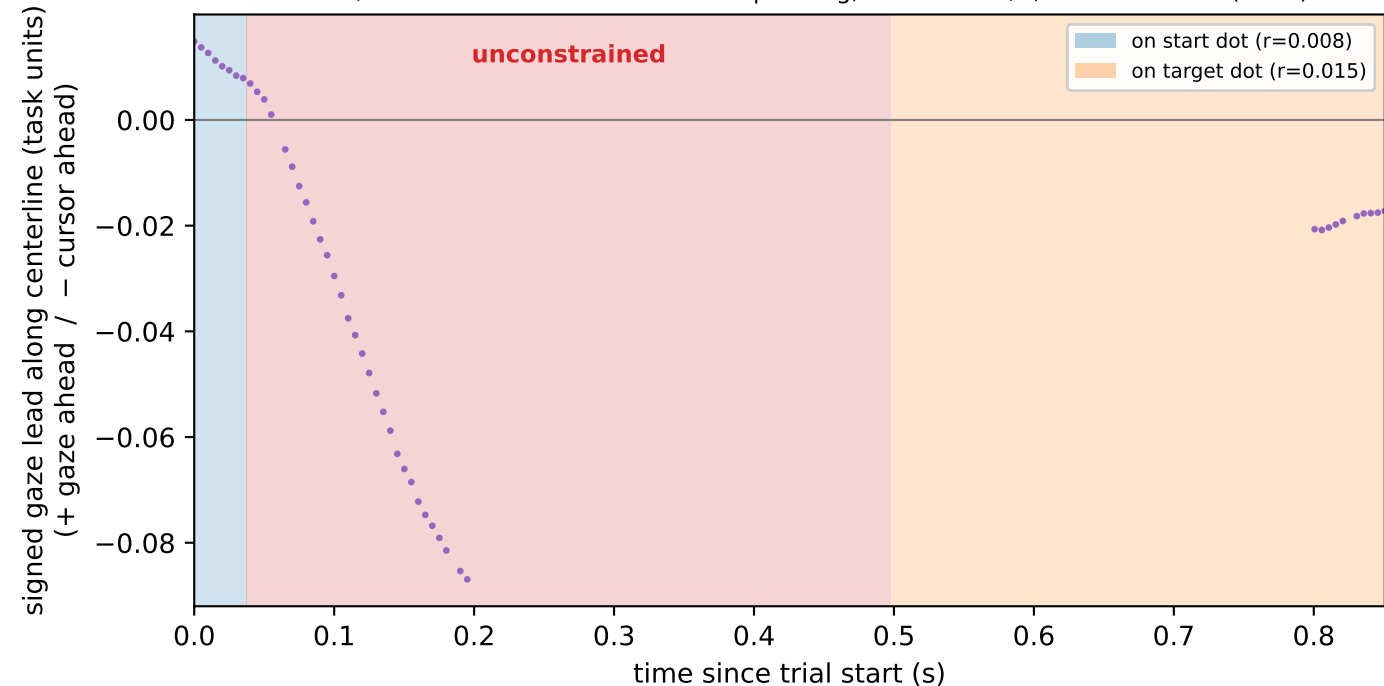

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

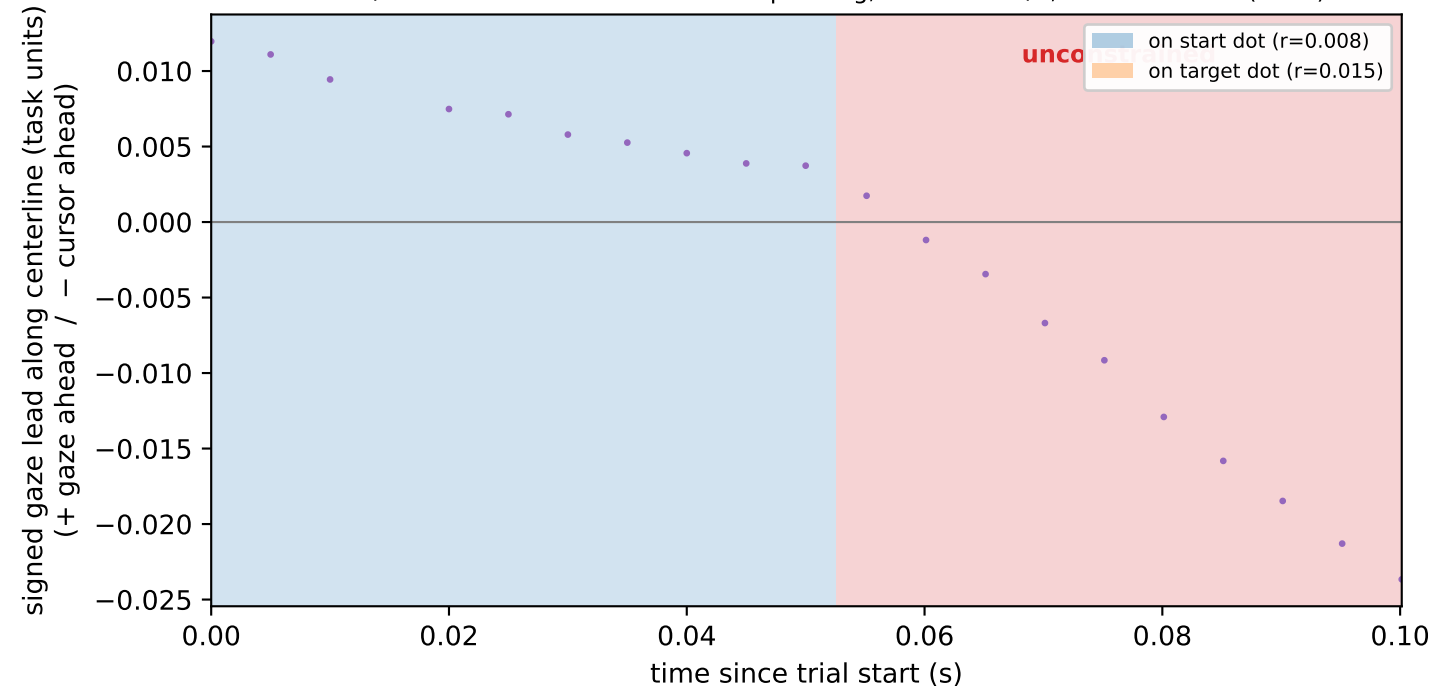

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

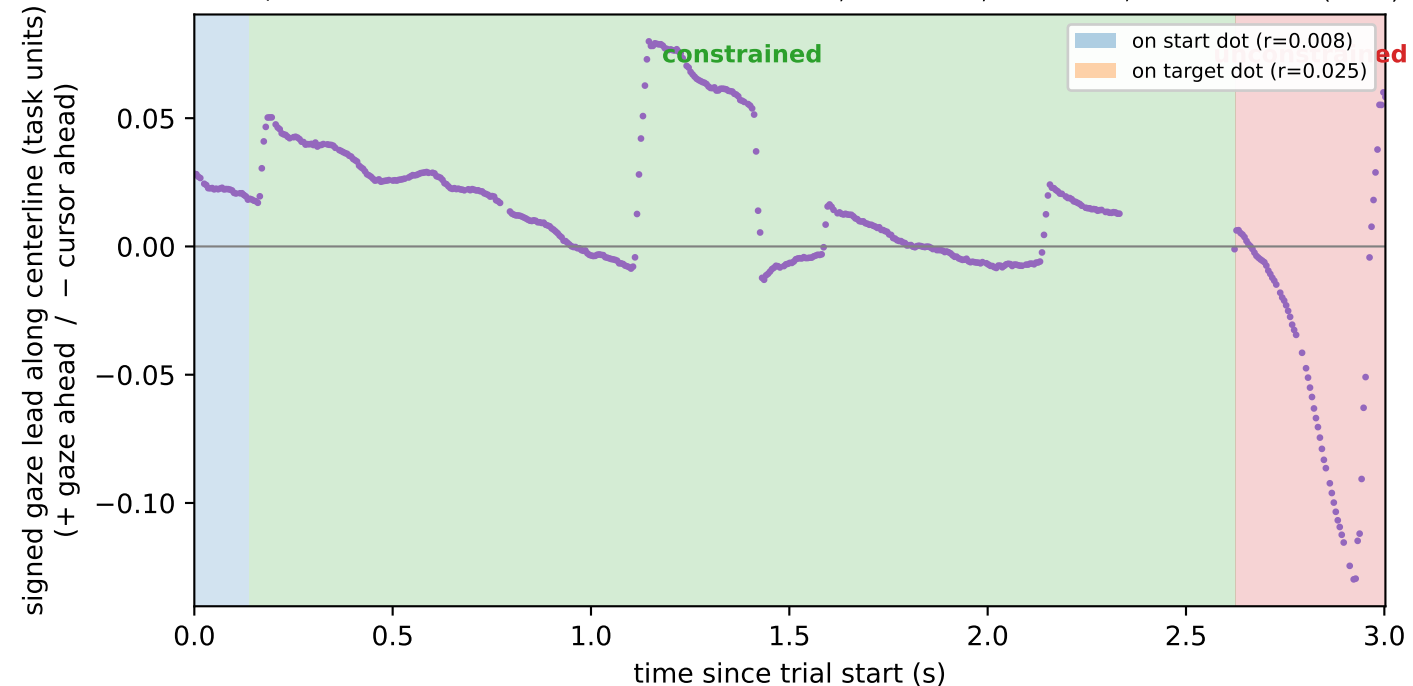

Trial 36/73 round 2 — unconstrained pointing, distance 2D/3, radius 15mm (id 49)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

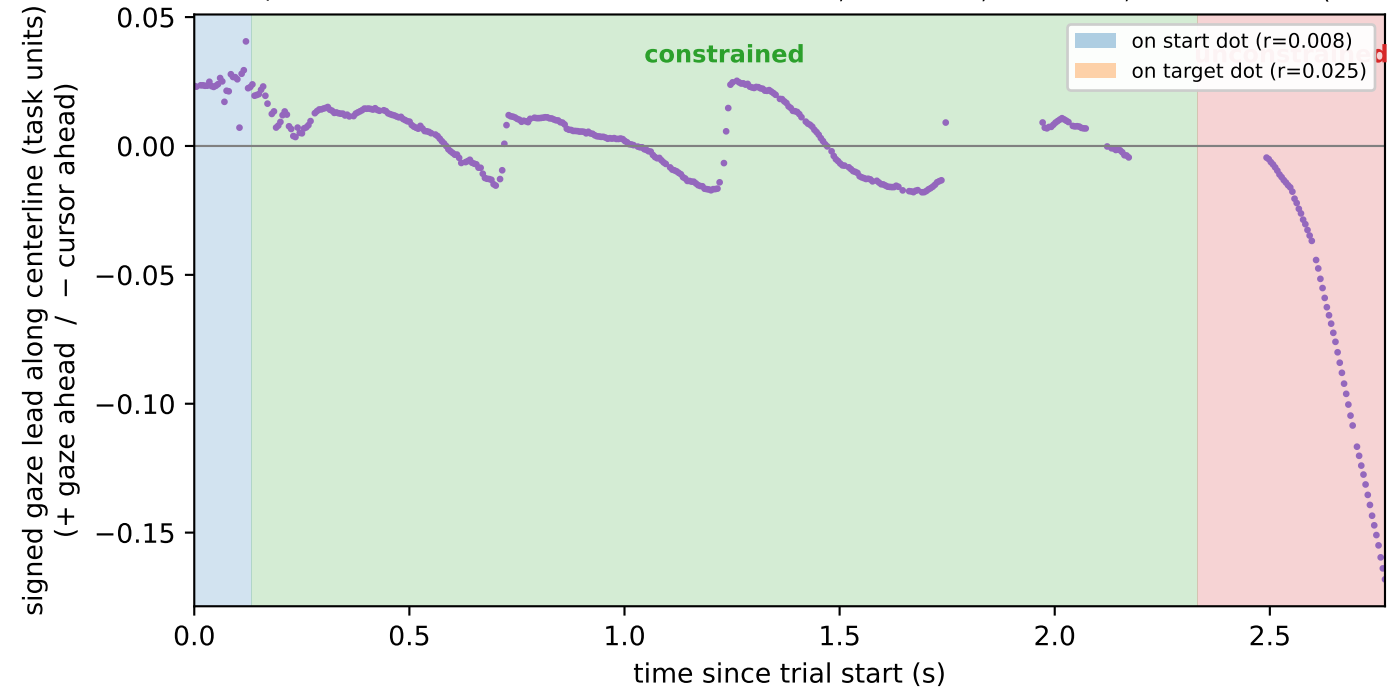

Trial 37/73 round 1 — constrained-to-unconstrained, width 0.01, distance D, radius 25mm (id 65)

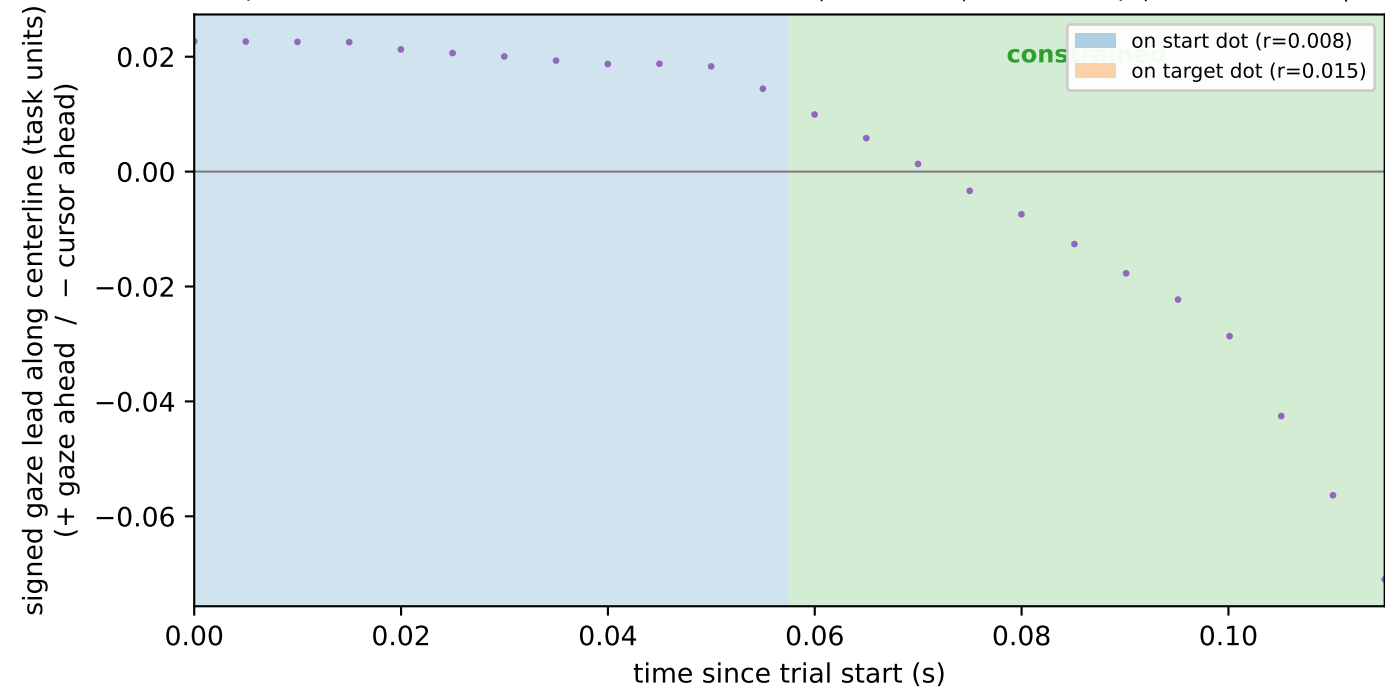

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

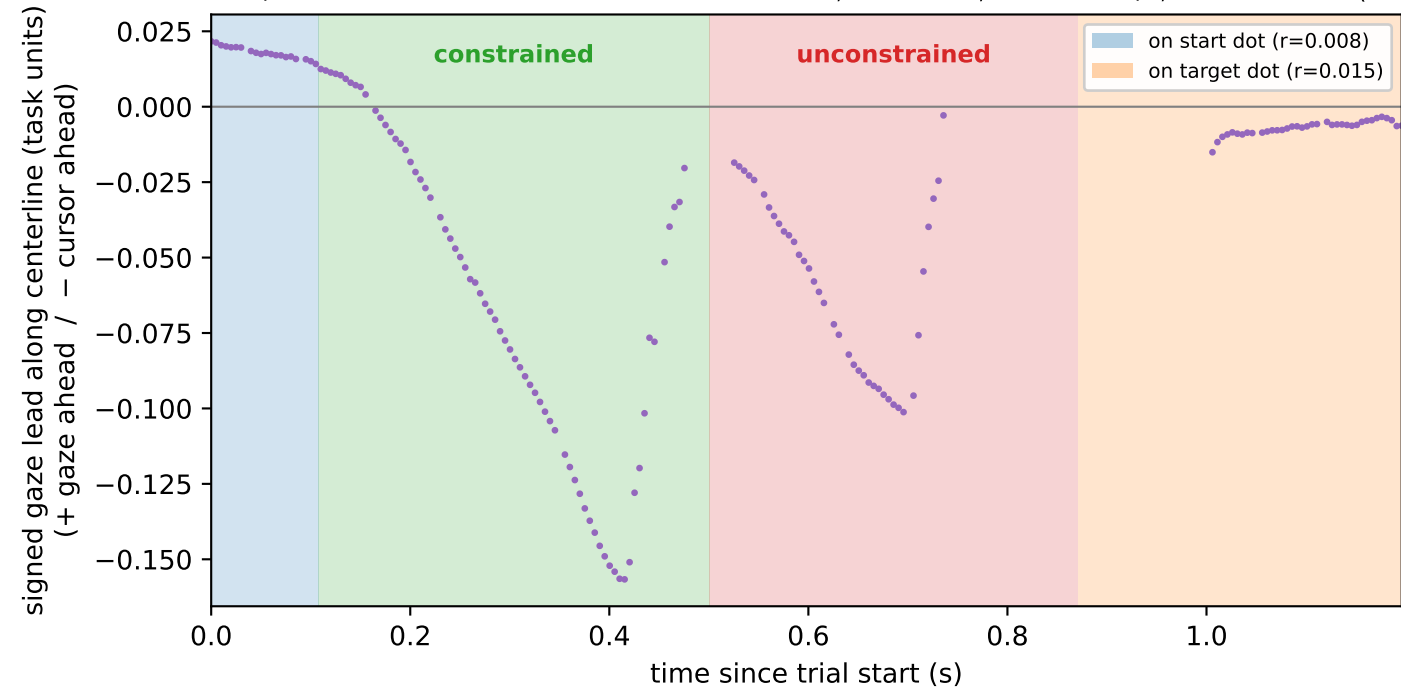

Trial 37/73 round 2 — constrained-to-unconstrained, width 0.01, distance D, radius 25mm (id 65)

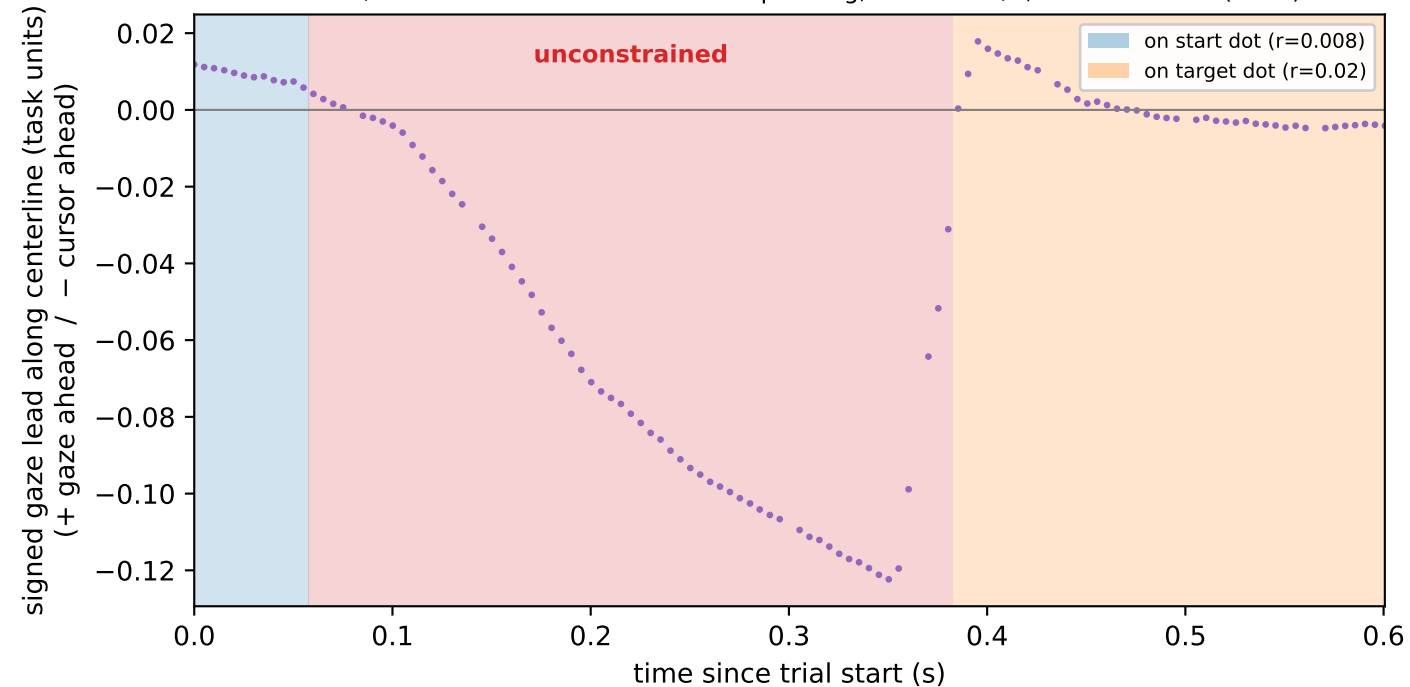

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

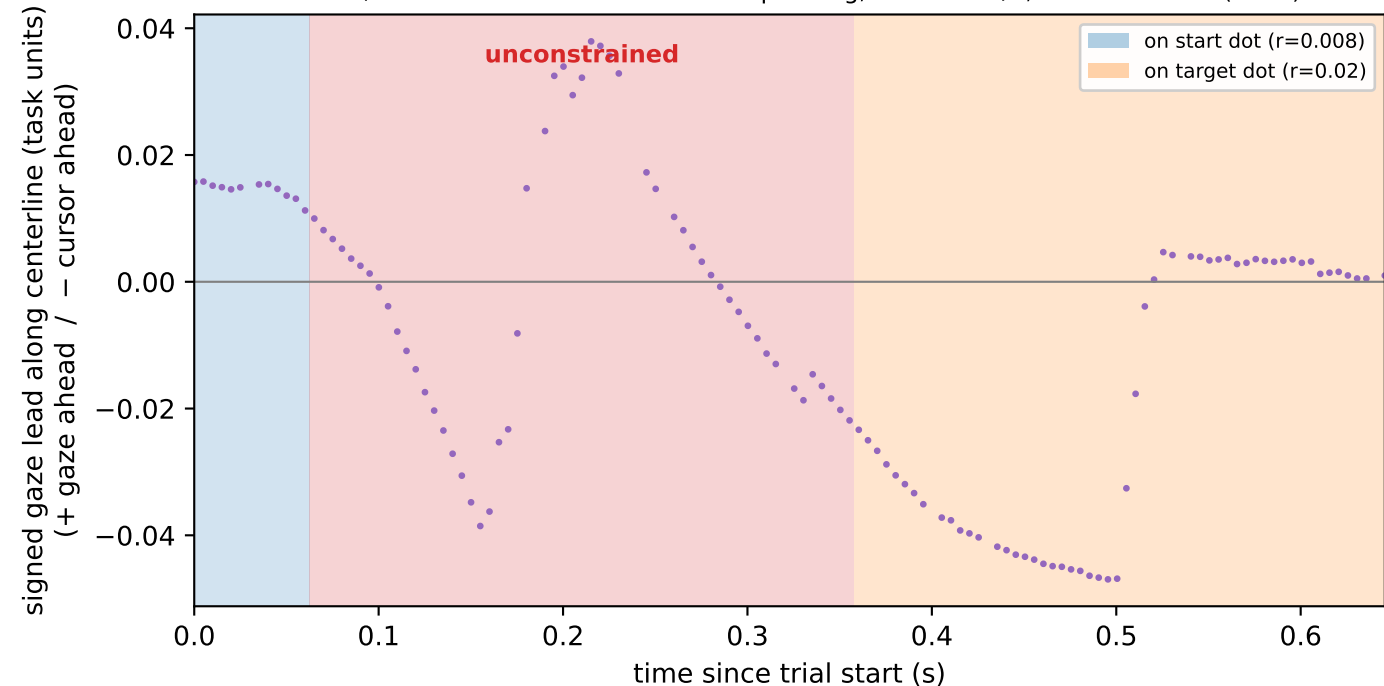

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

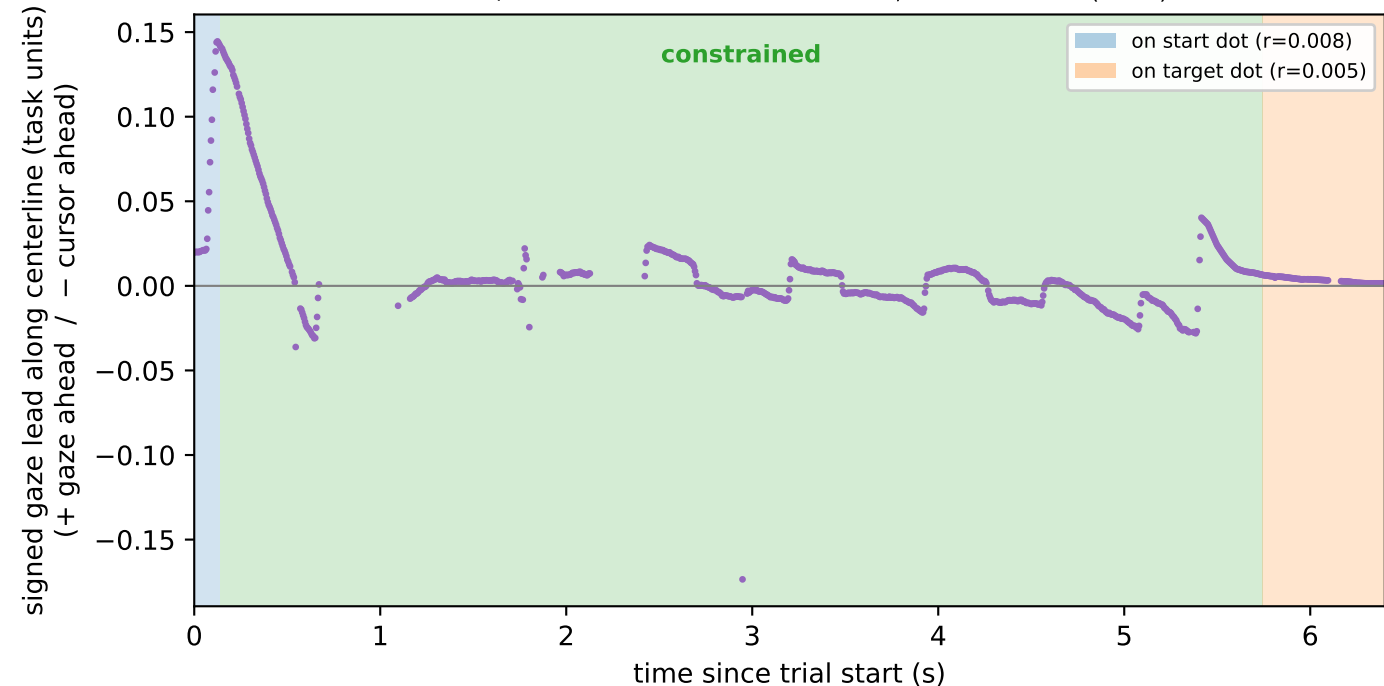

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

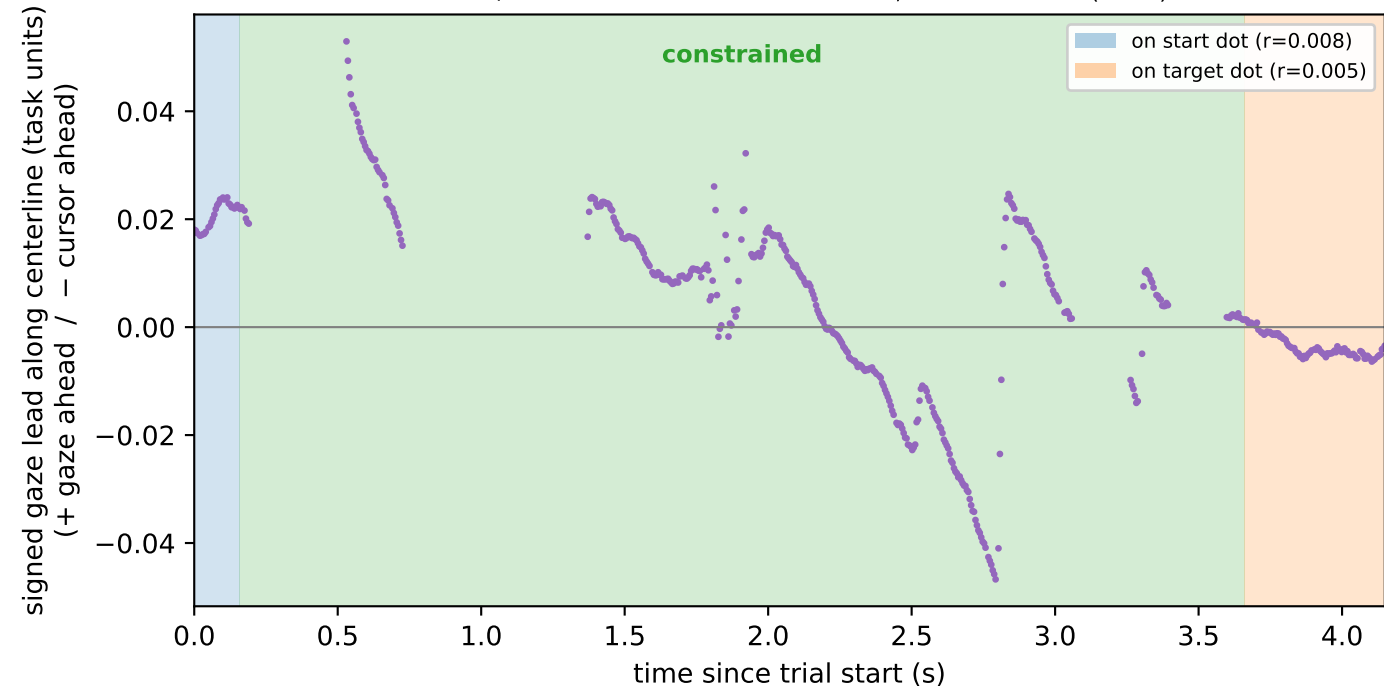

Trial 39/73 round 2 — unconstrained pointing, distance D/3, radius 20mm (id 45)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

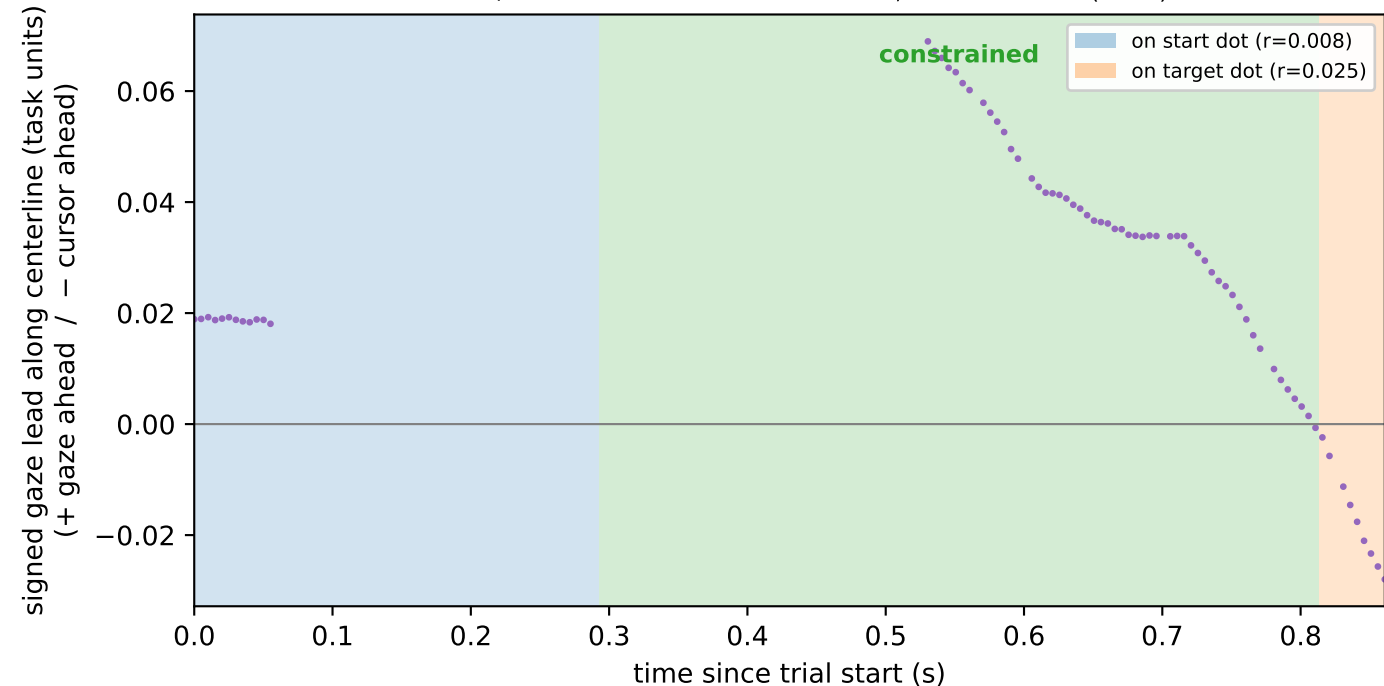

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

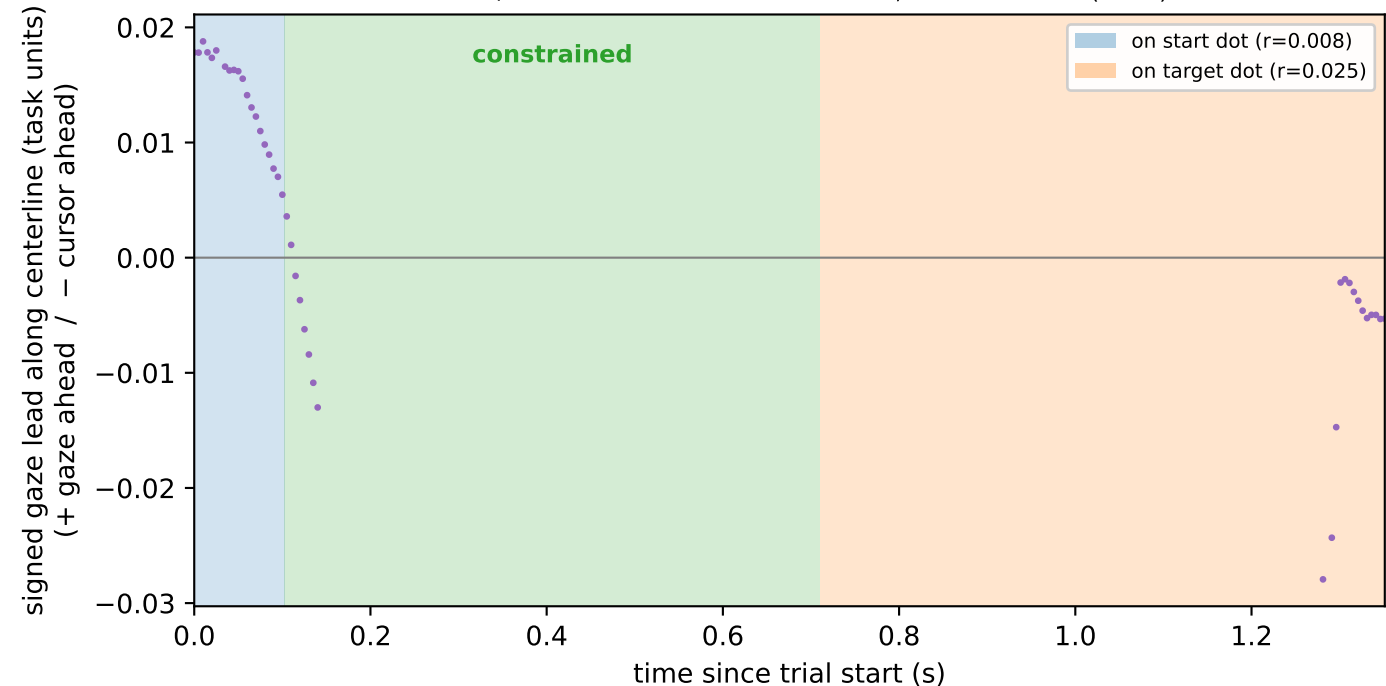

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

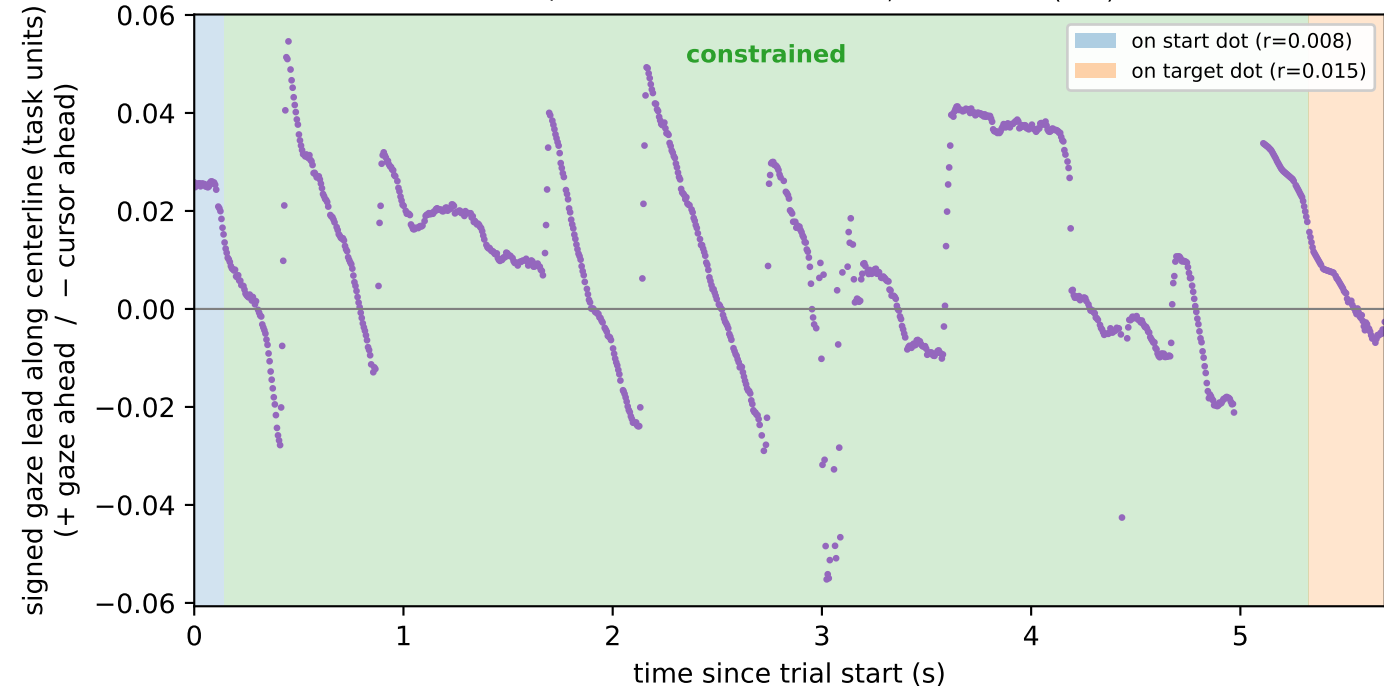

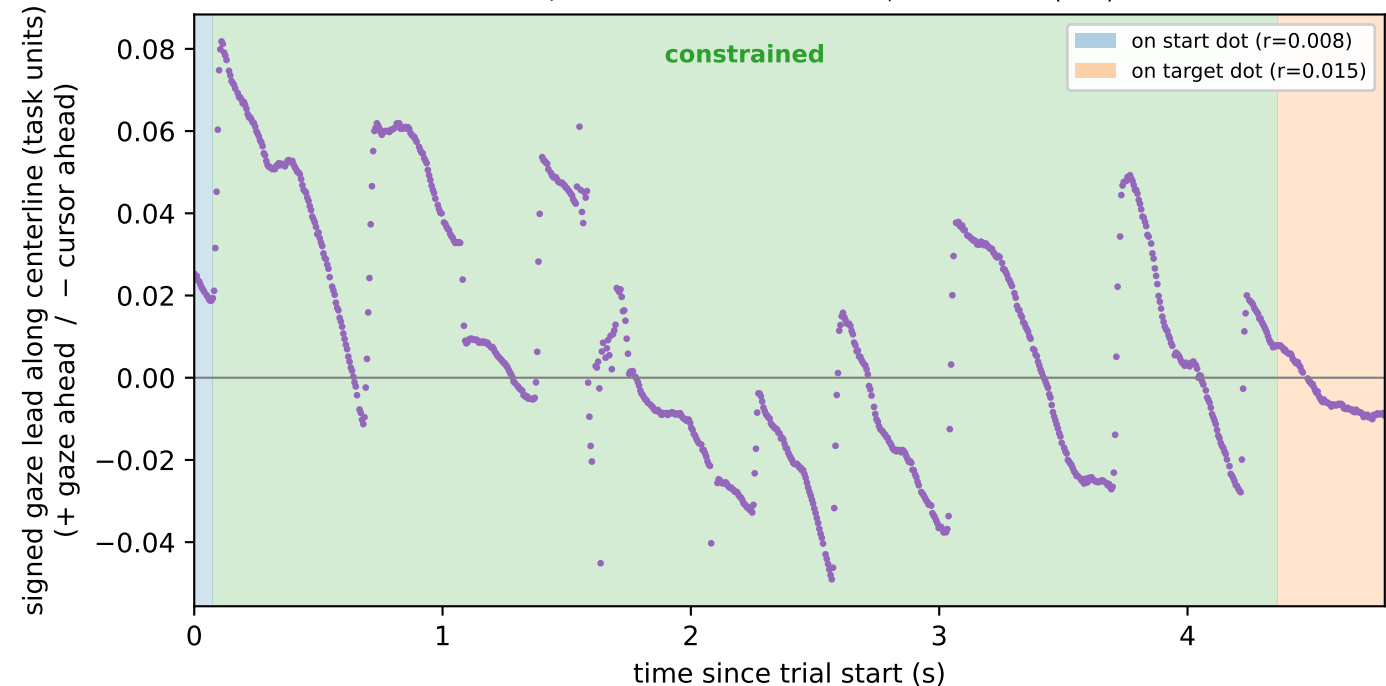

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

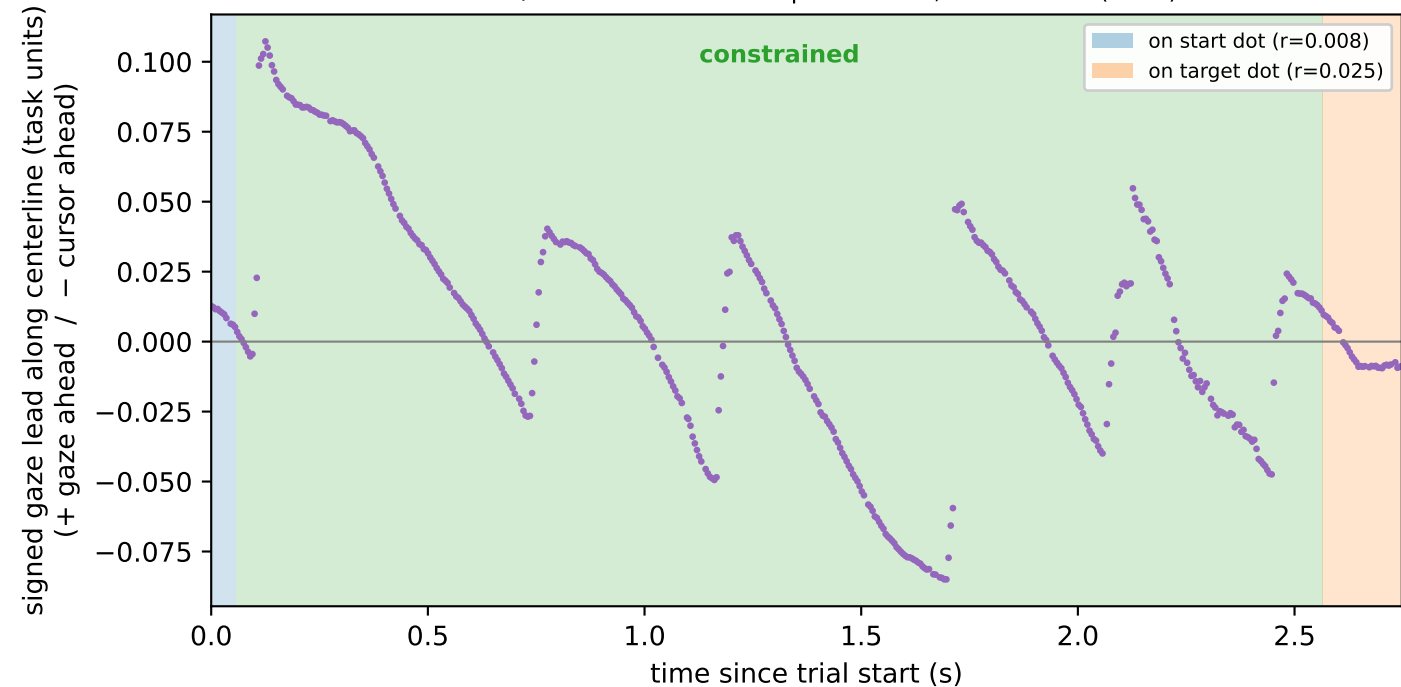

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

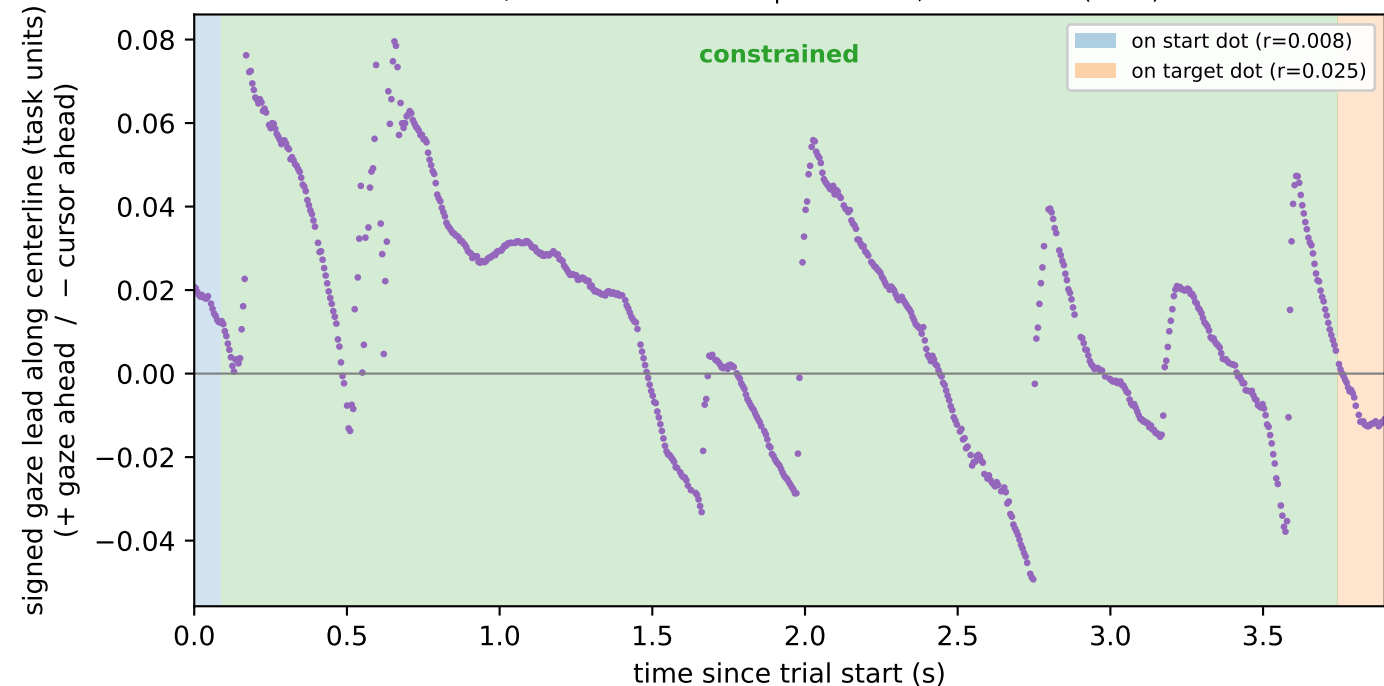

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

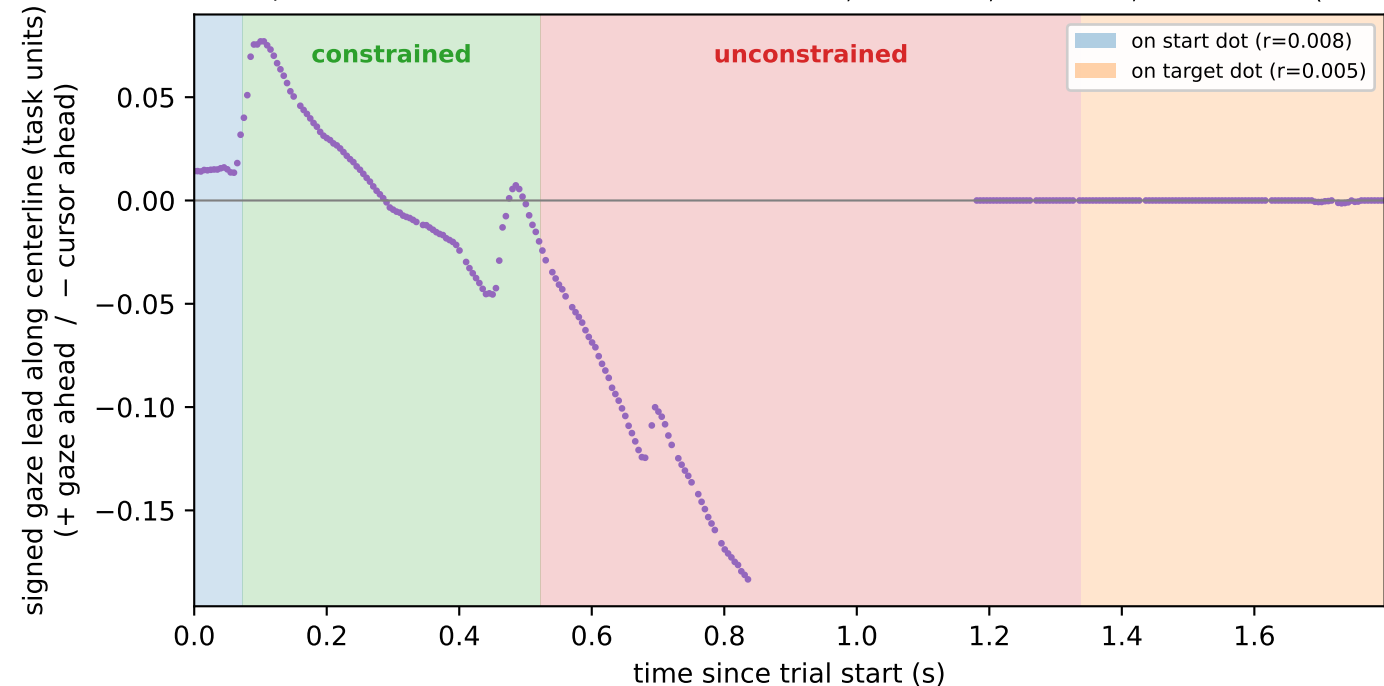

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

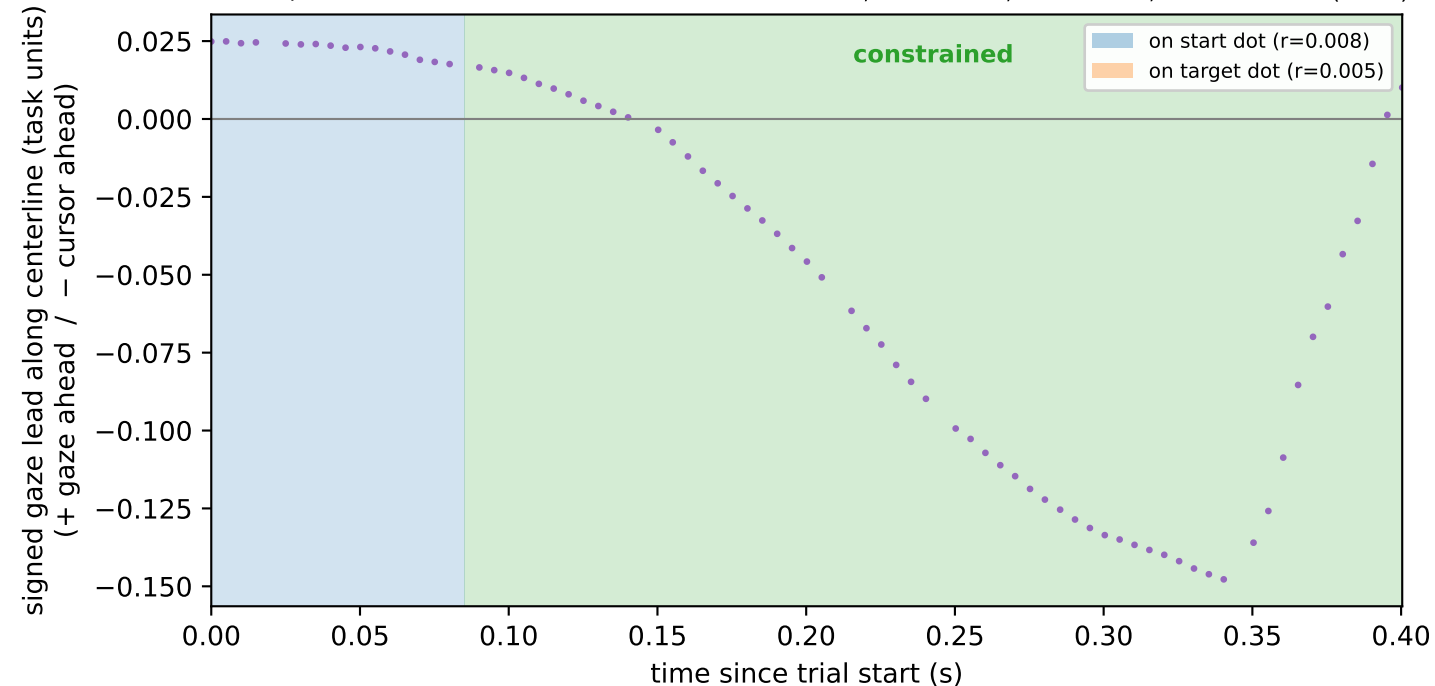

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 44/73 round 1 — constrained-to-unconstrained, width 0.03, distance D, radius 5mm (id 72)

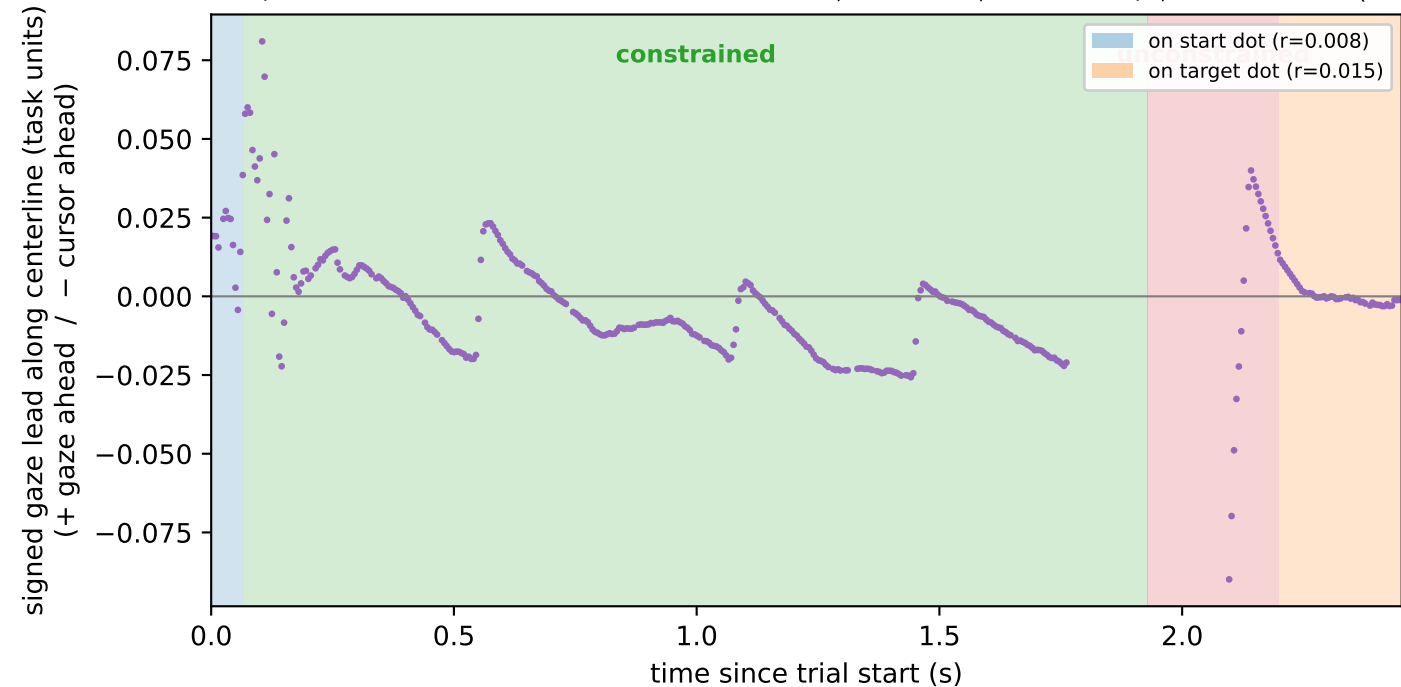

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

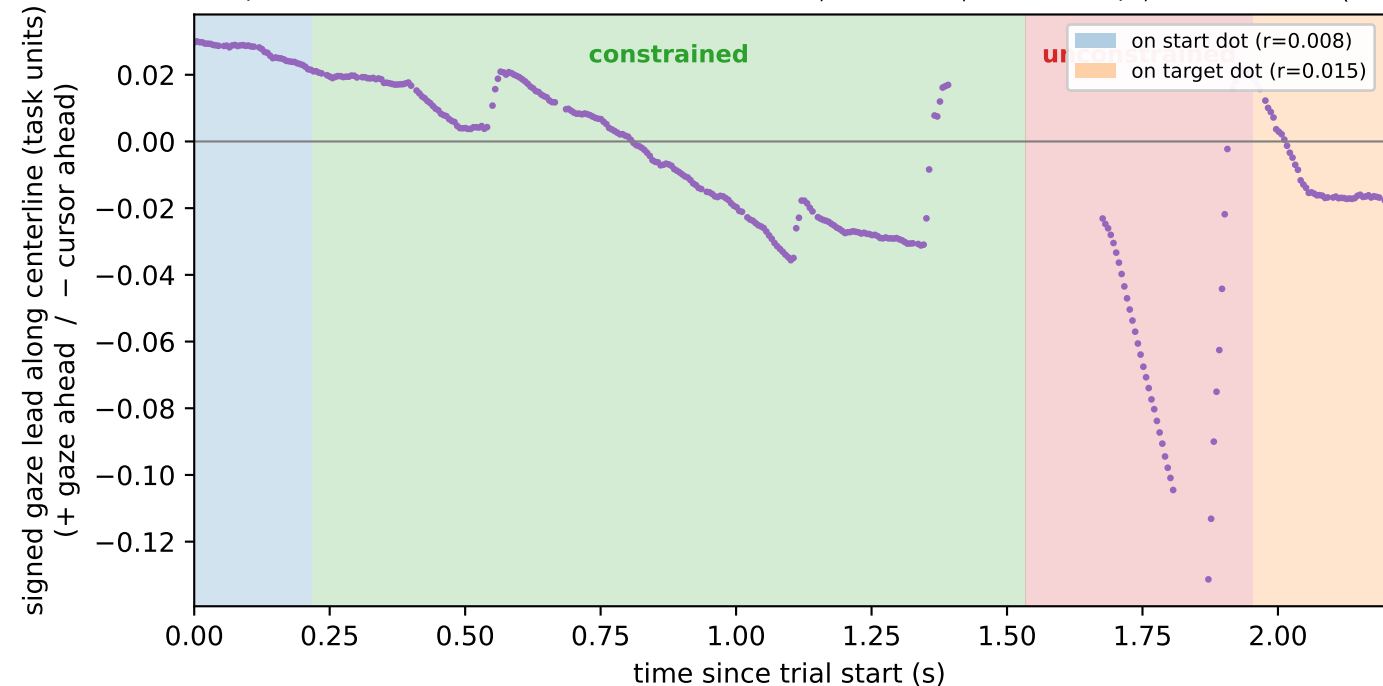

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

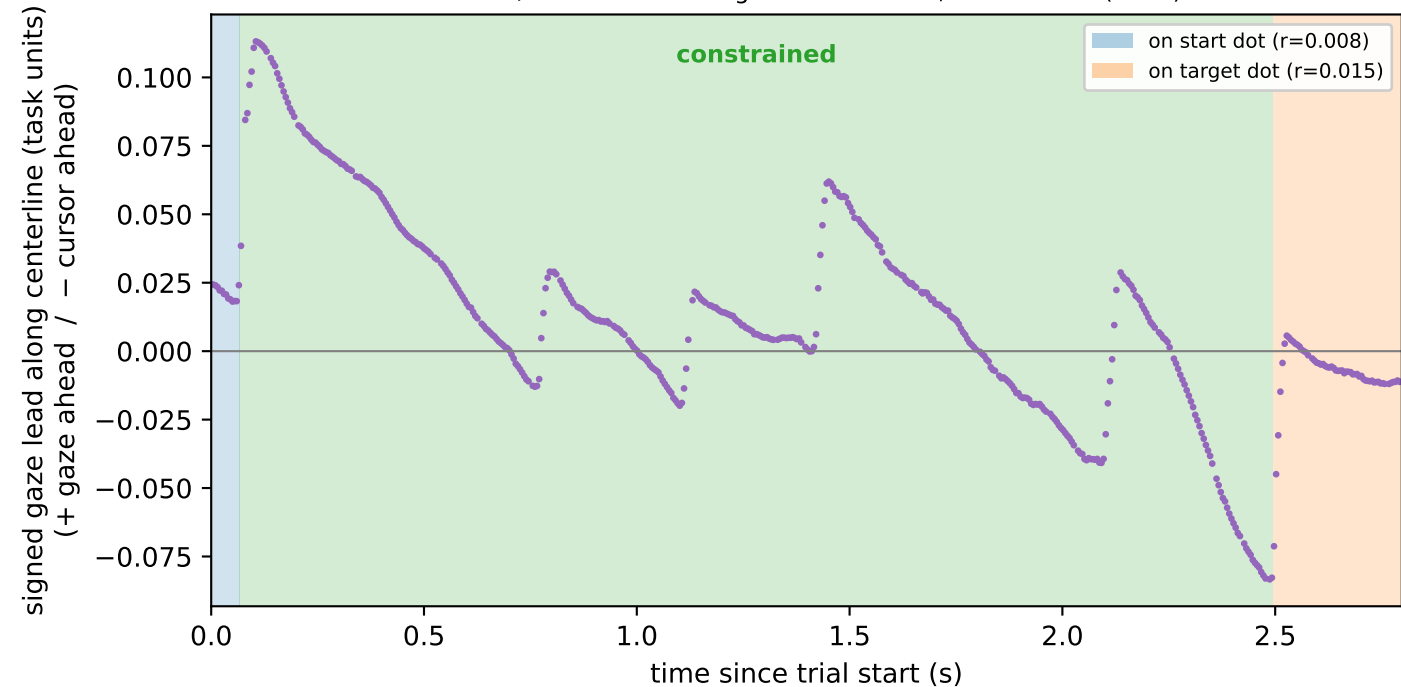

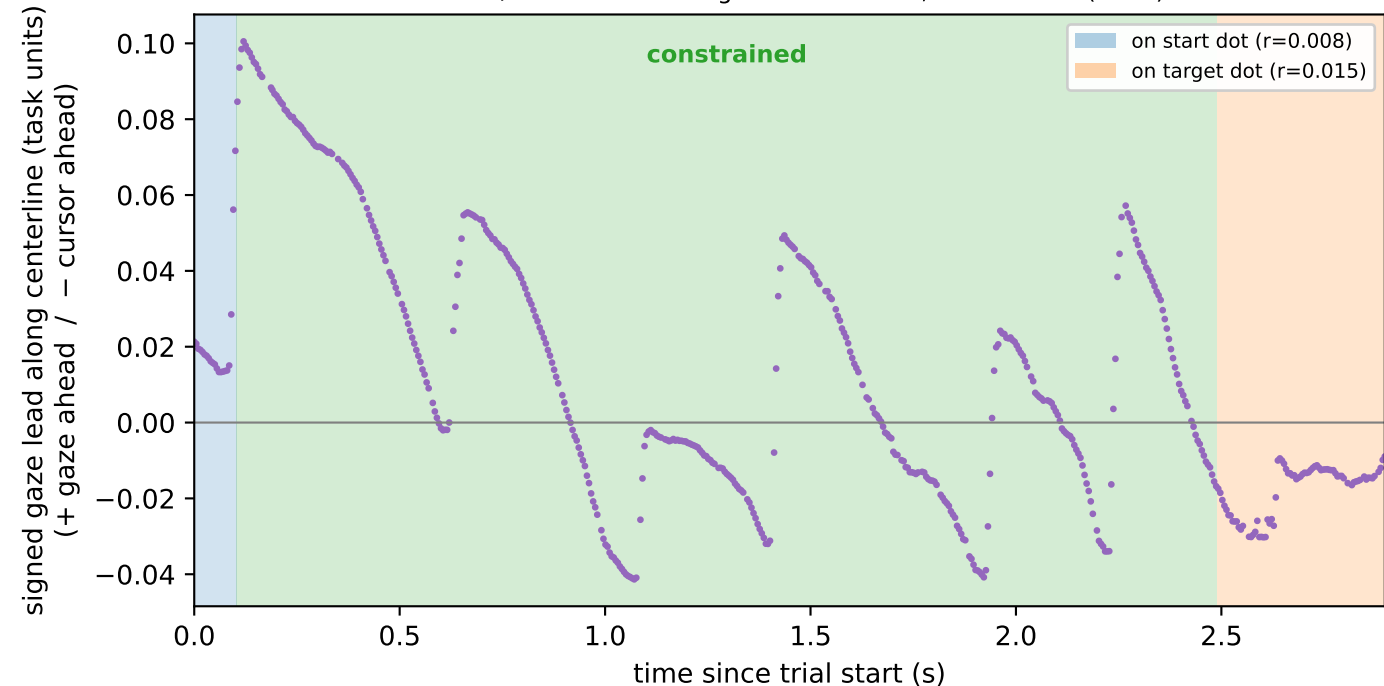

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

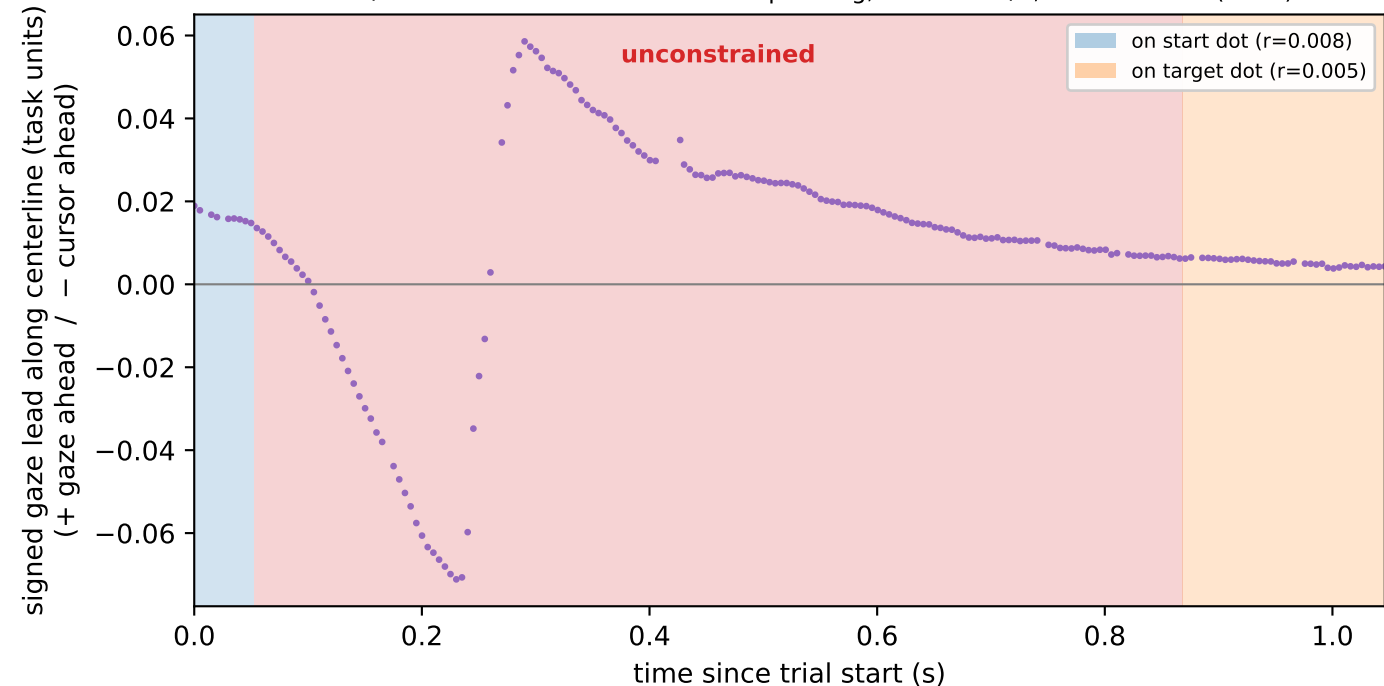

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

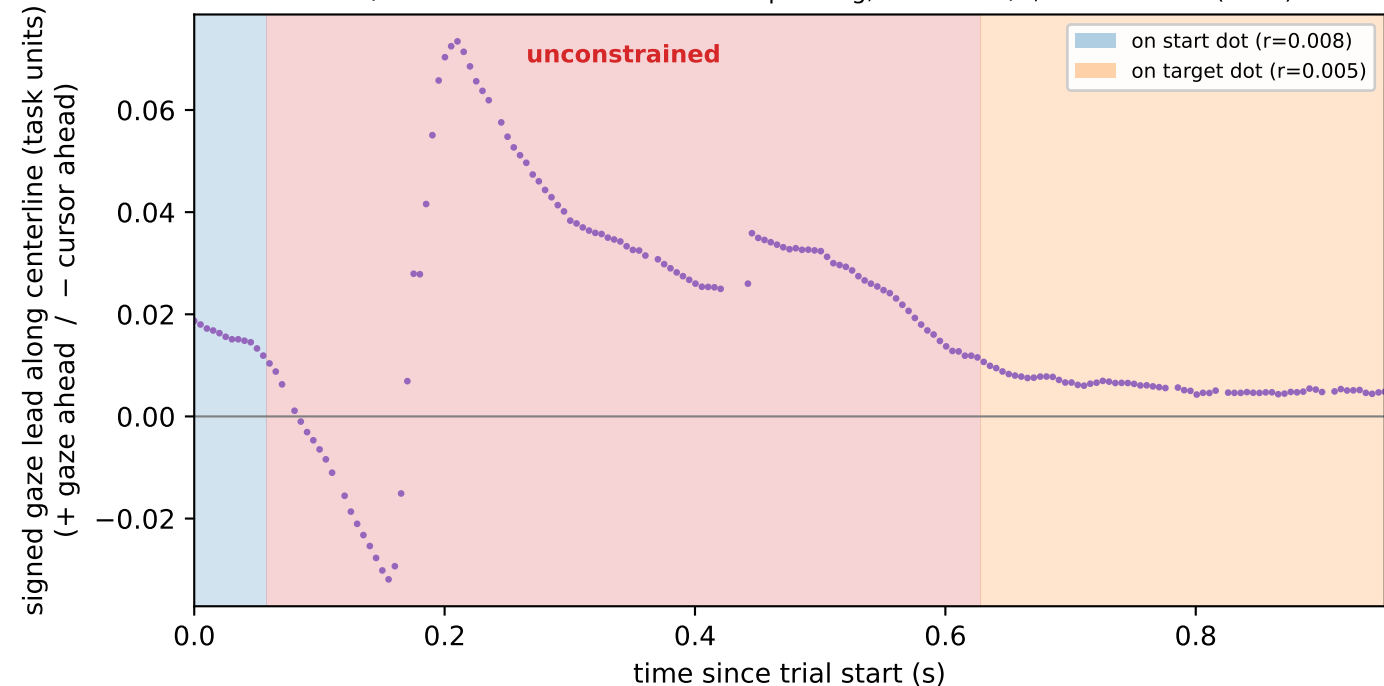

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

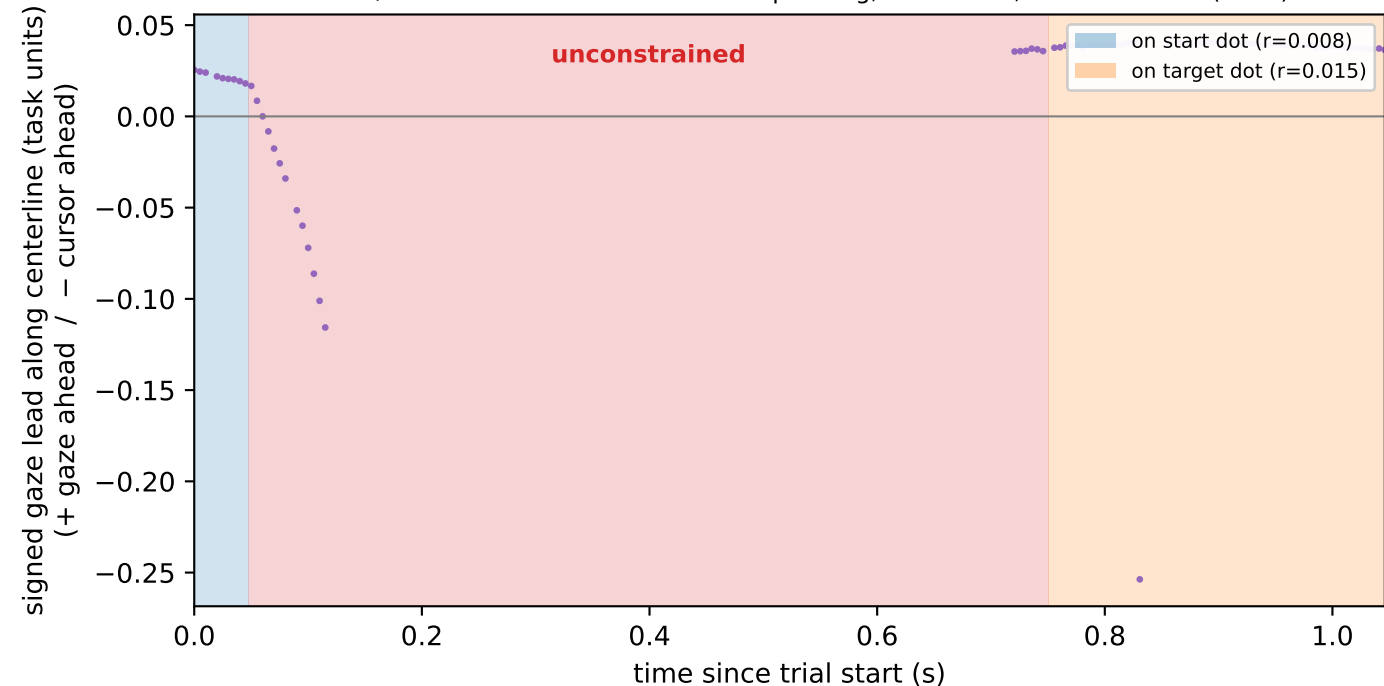

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

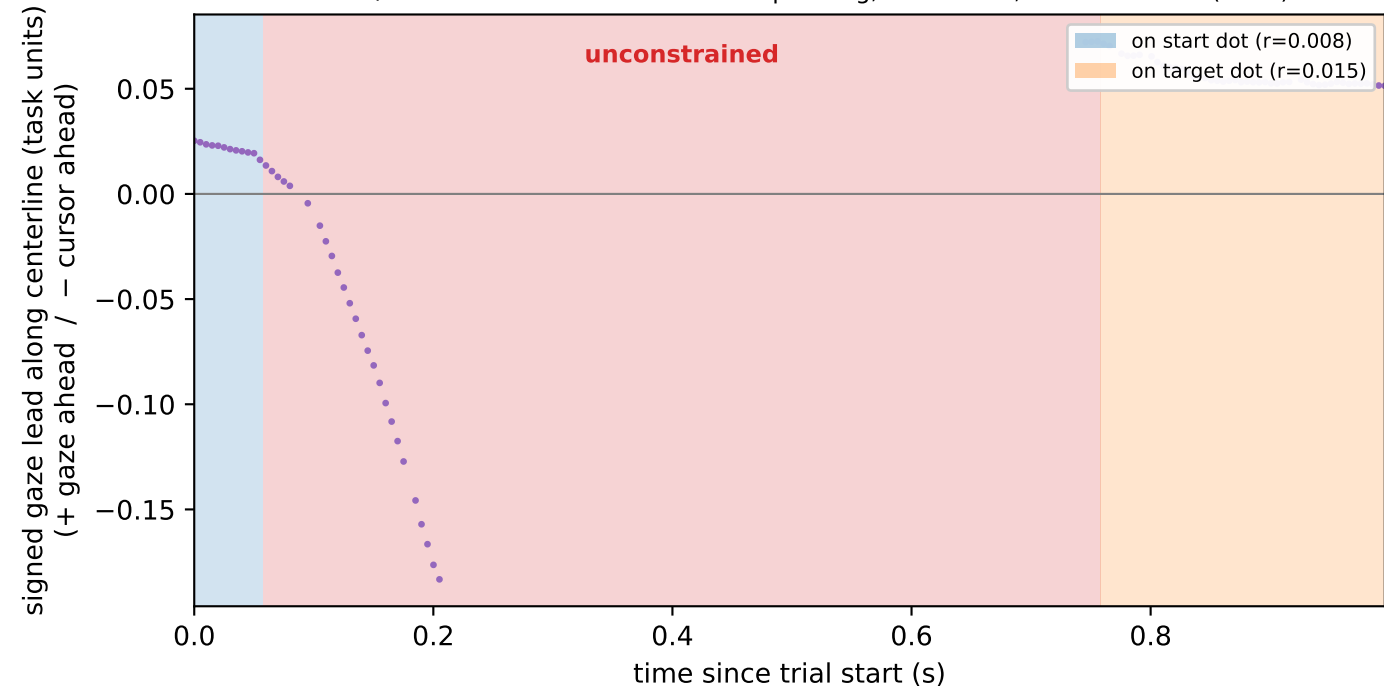

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

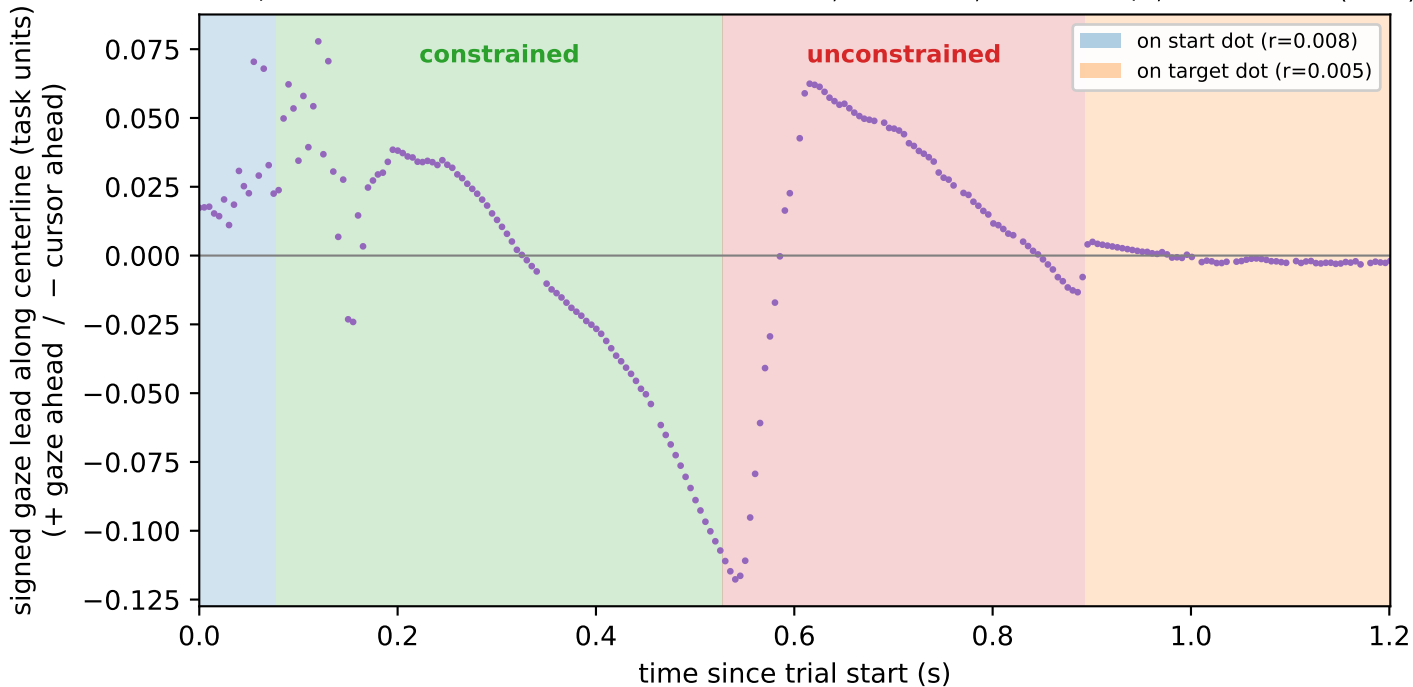

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

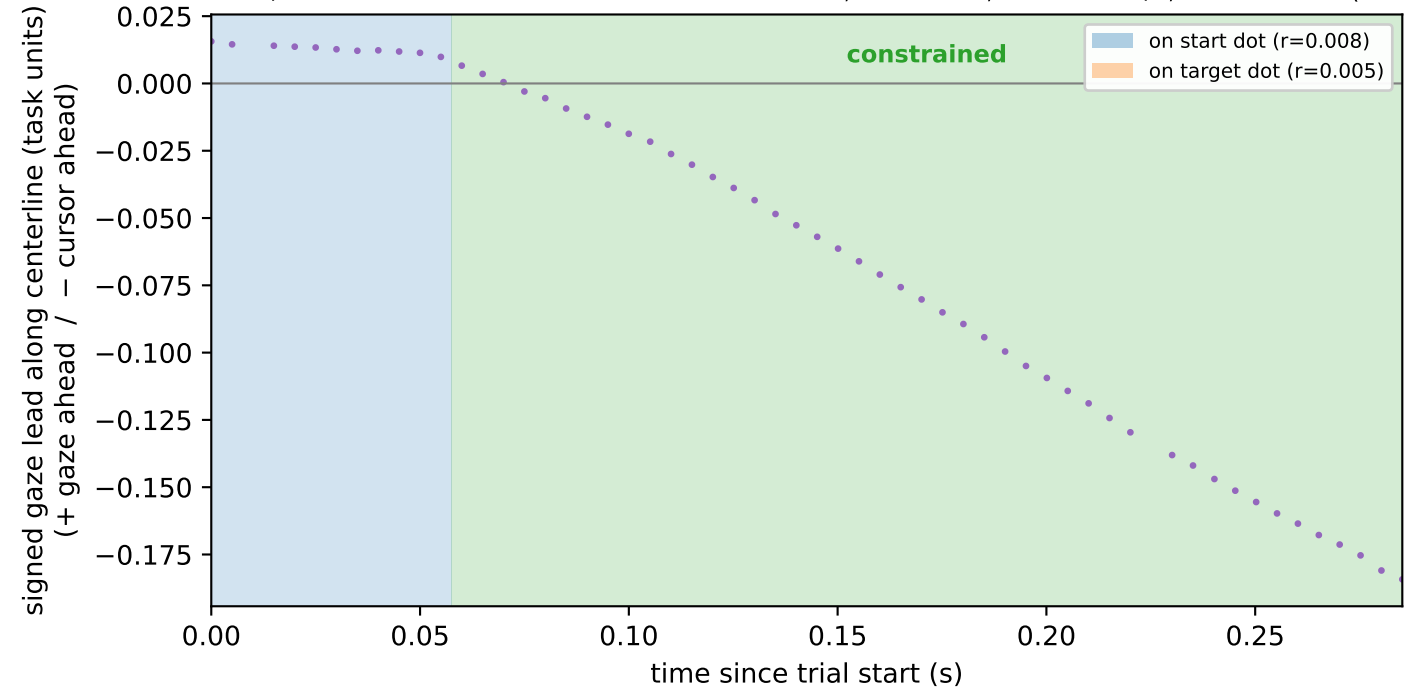

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 49/73 round 1 — constrained-to-unconstrained, width 0.05, distance 5D/6, radius 5mm (id 78)

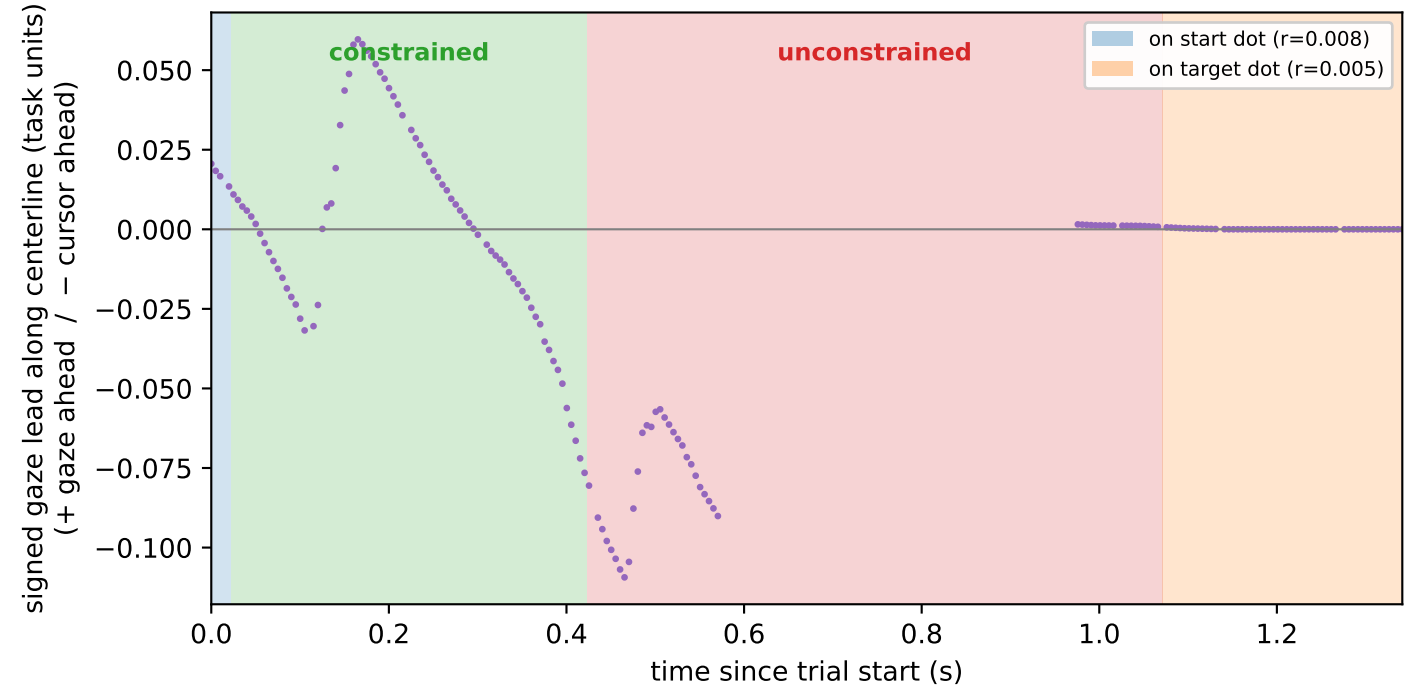

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

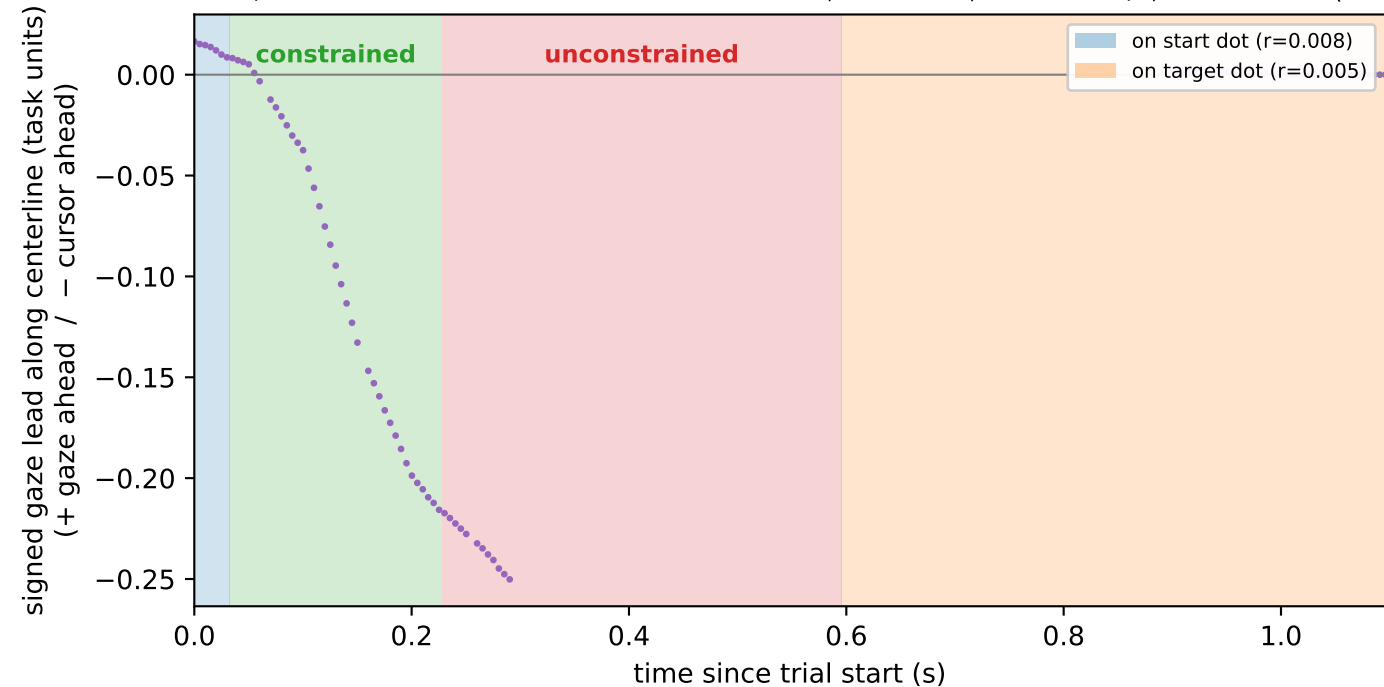

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

Trial 50/73 round 1 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 5mm (id 69)

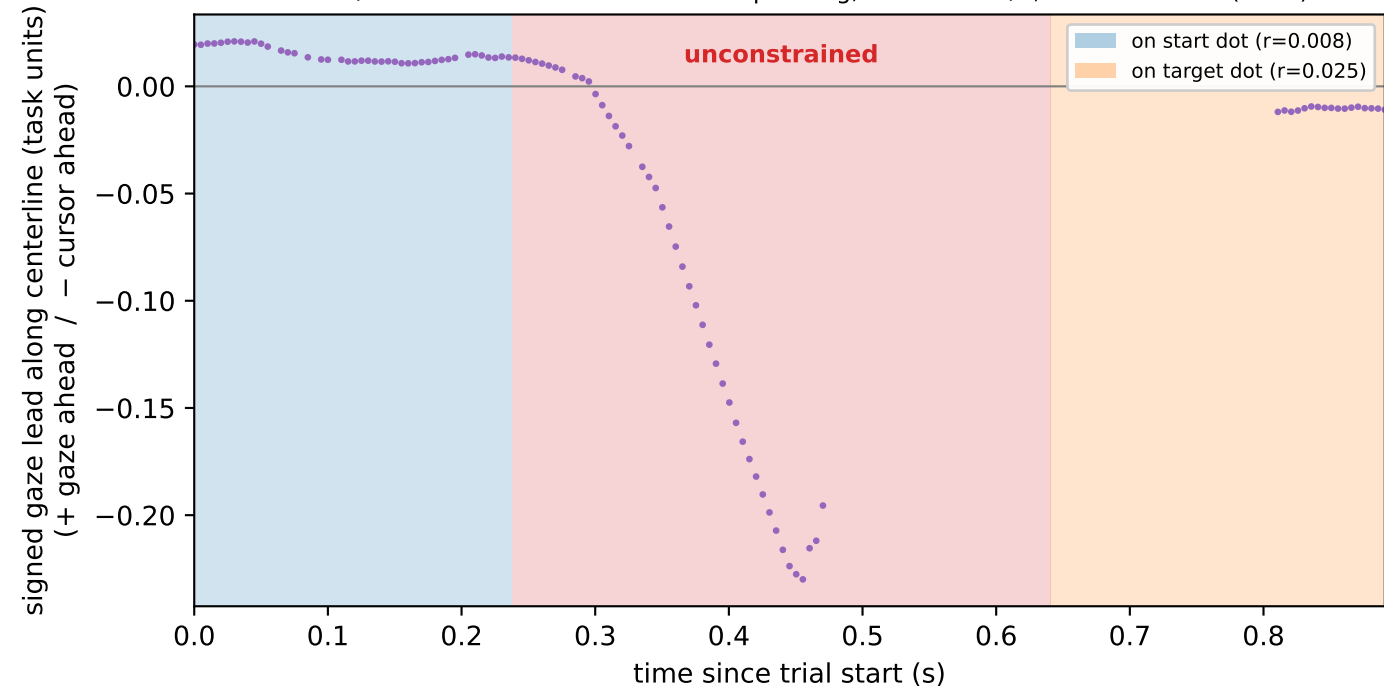

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

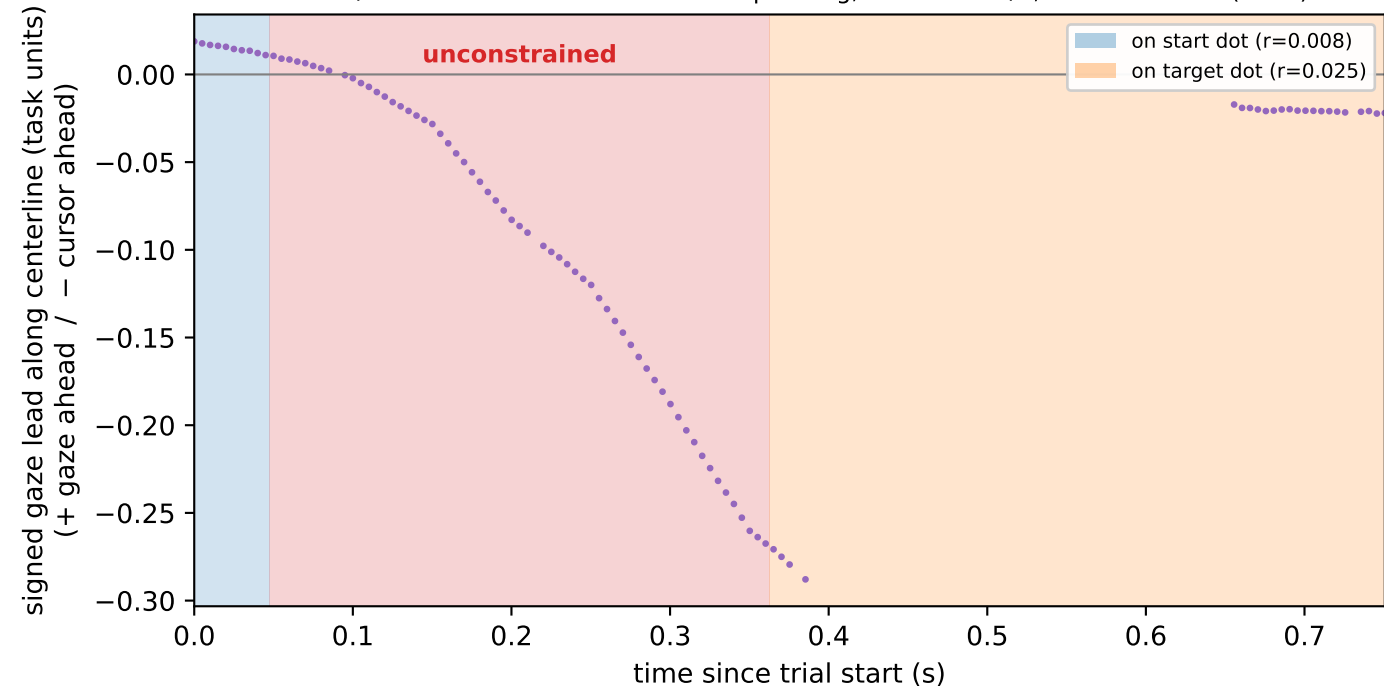

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 51/73 round 1 — unconstrained pointing, distance 2D/3, radius 25mm (id 51)

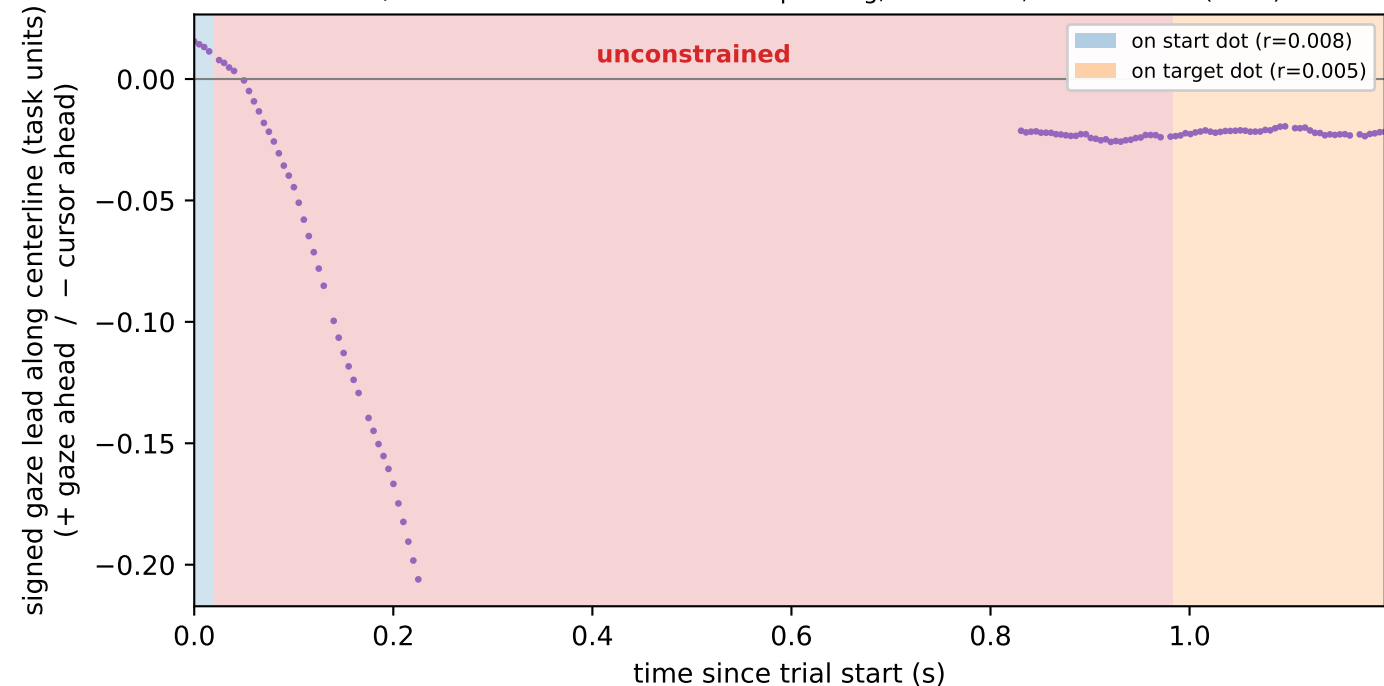

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

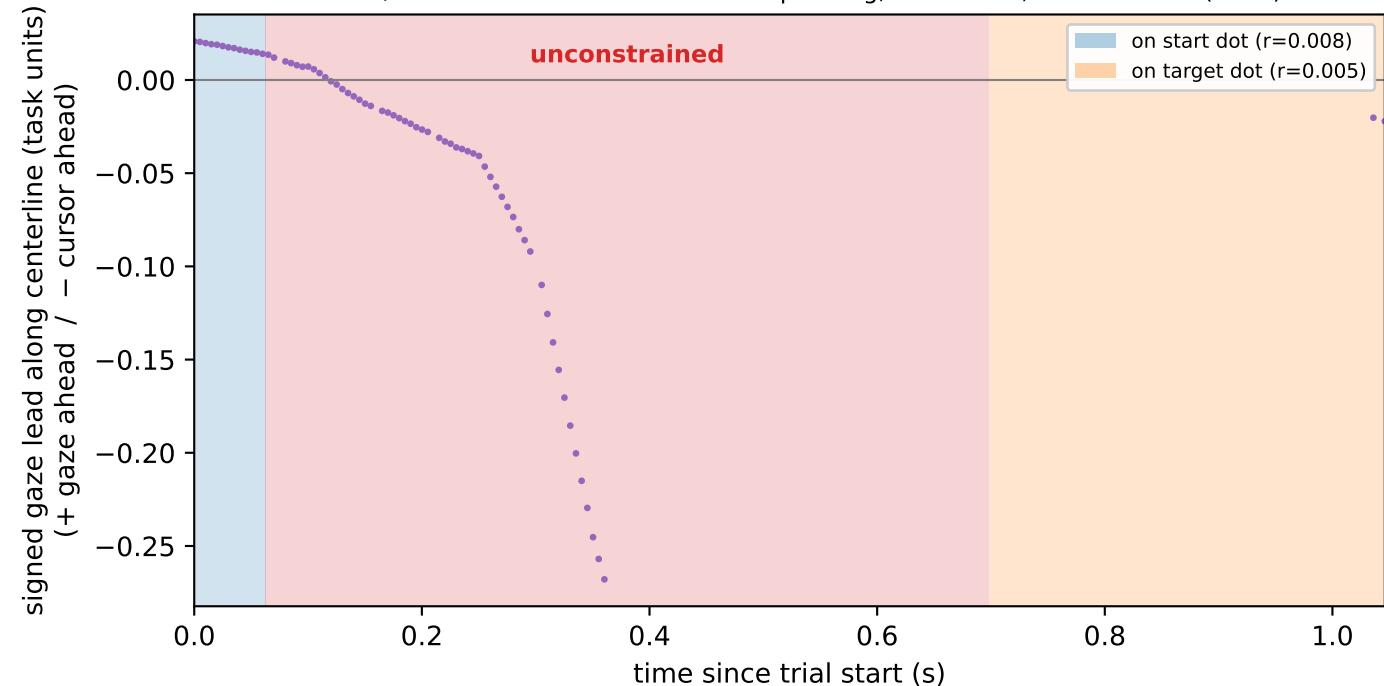

Trial 51/73 round 2 — unconstrained pointing, distance 2D/3, radius 25mm (id 51)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

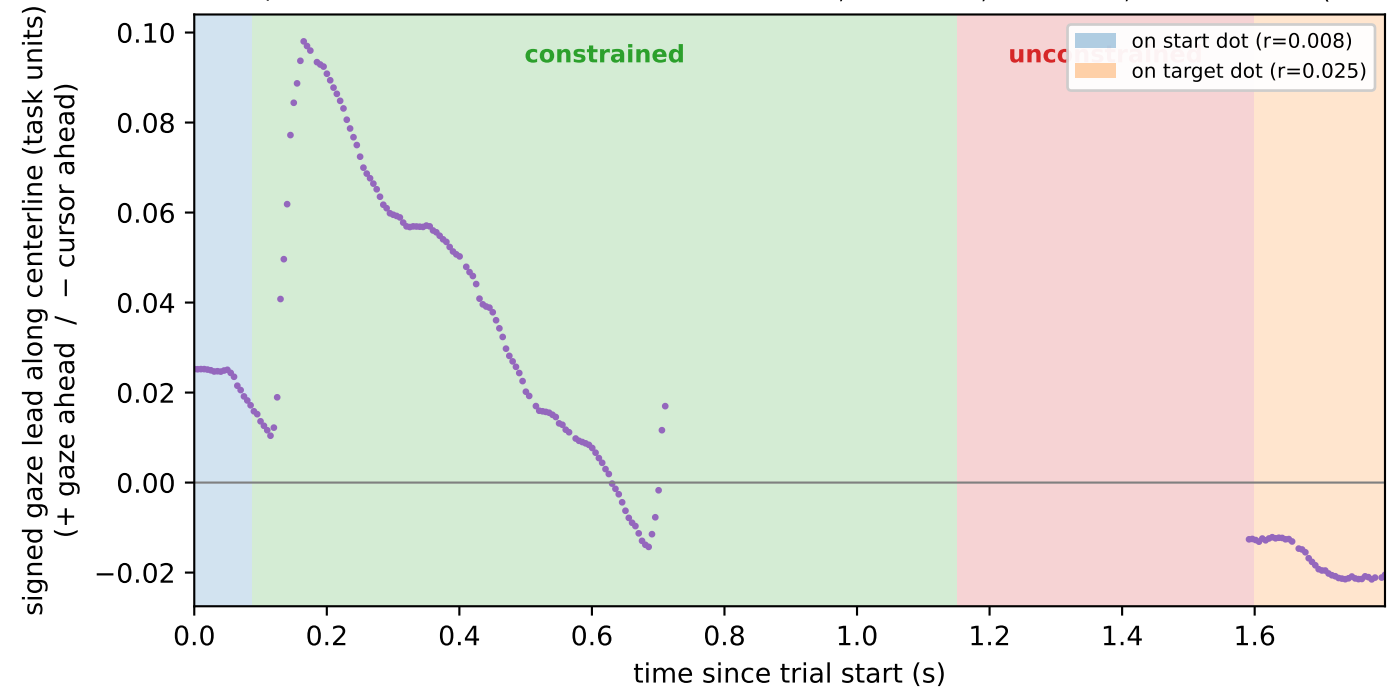

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

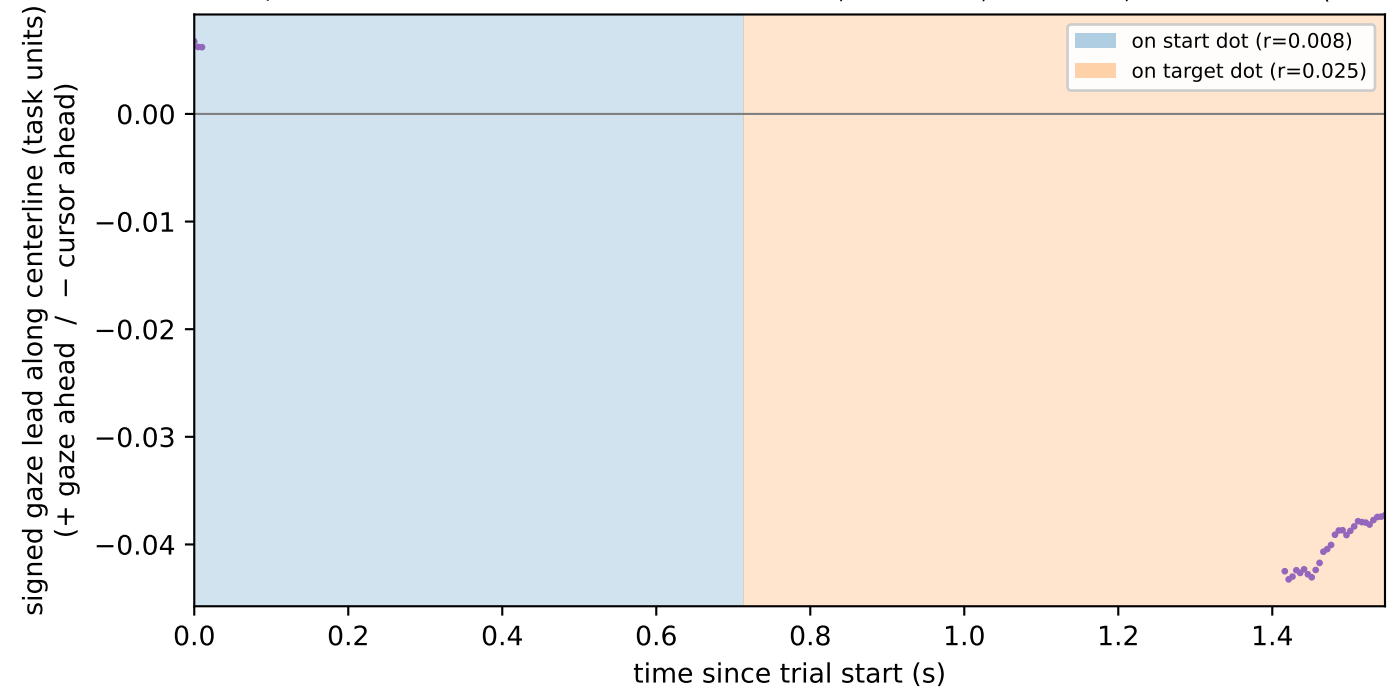

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

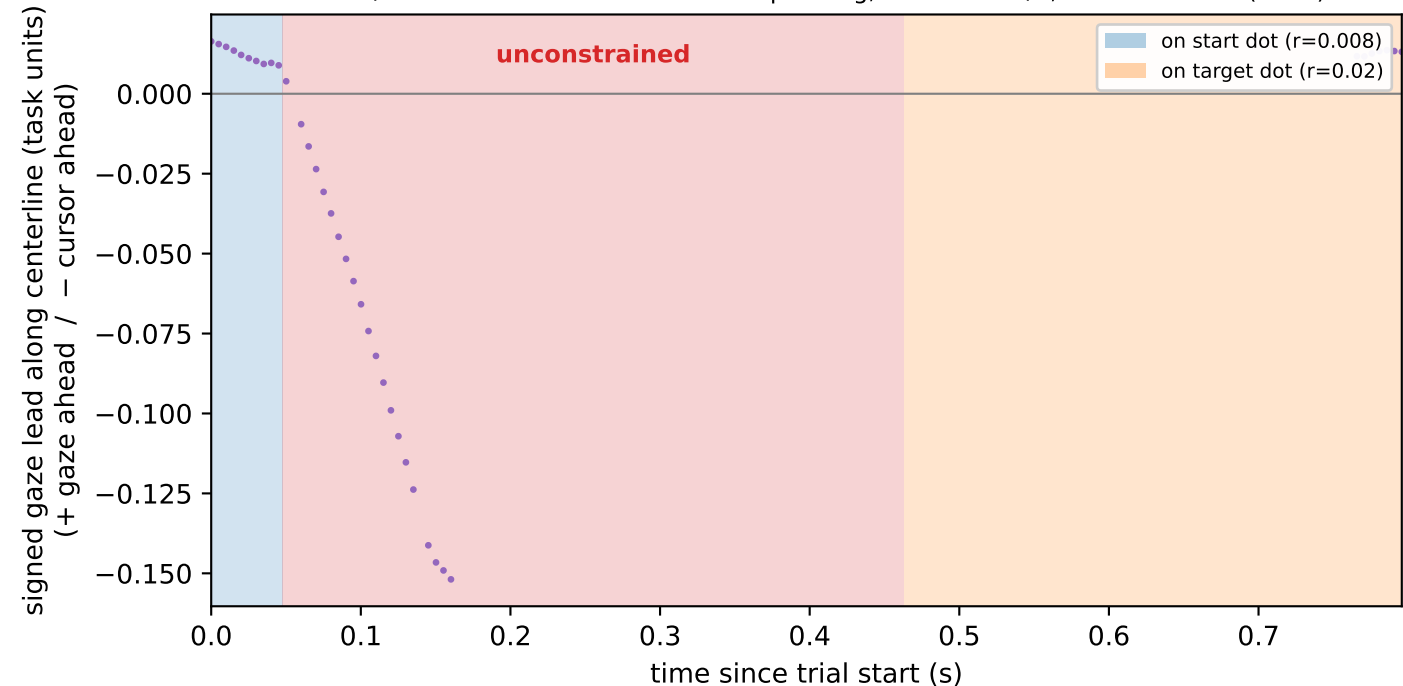

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

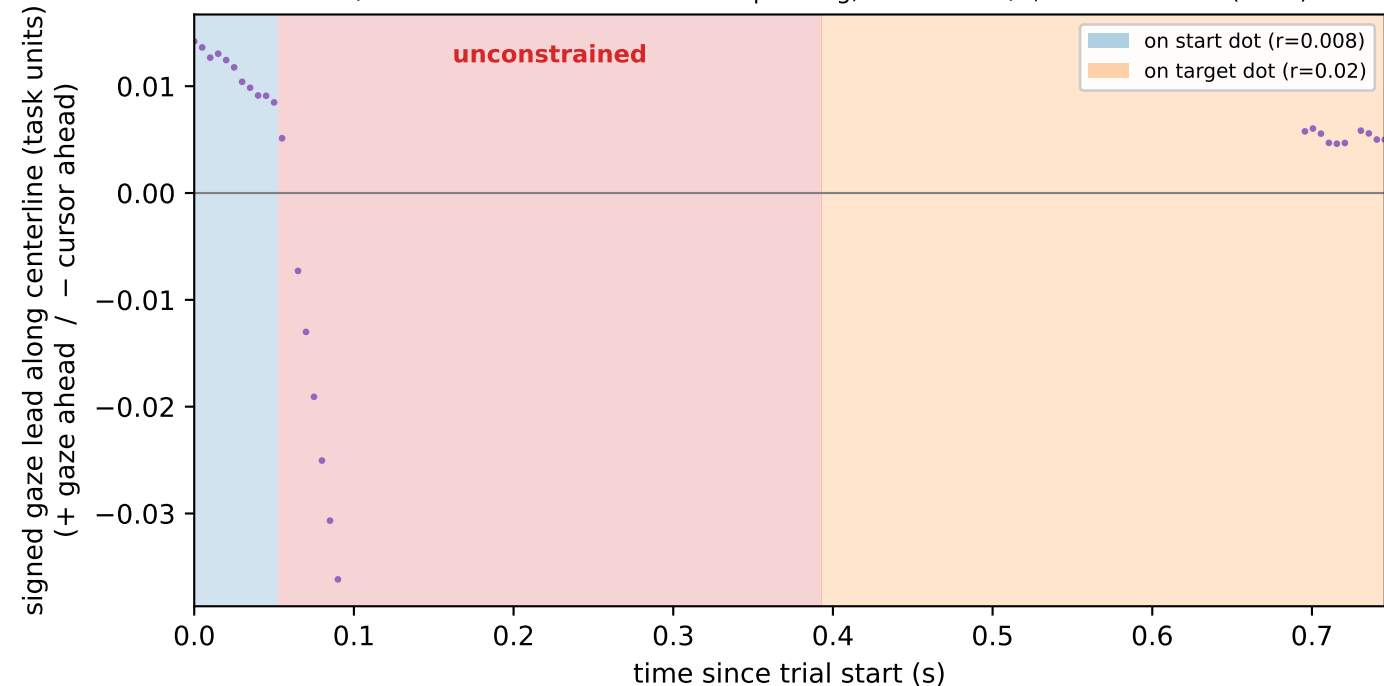

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

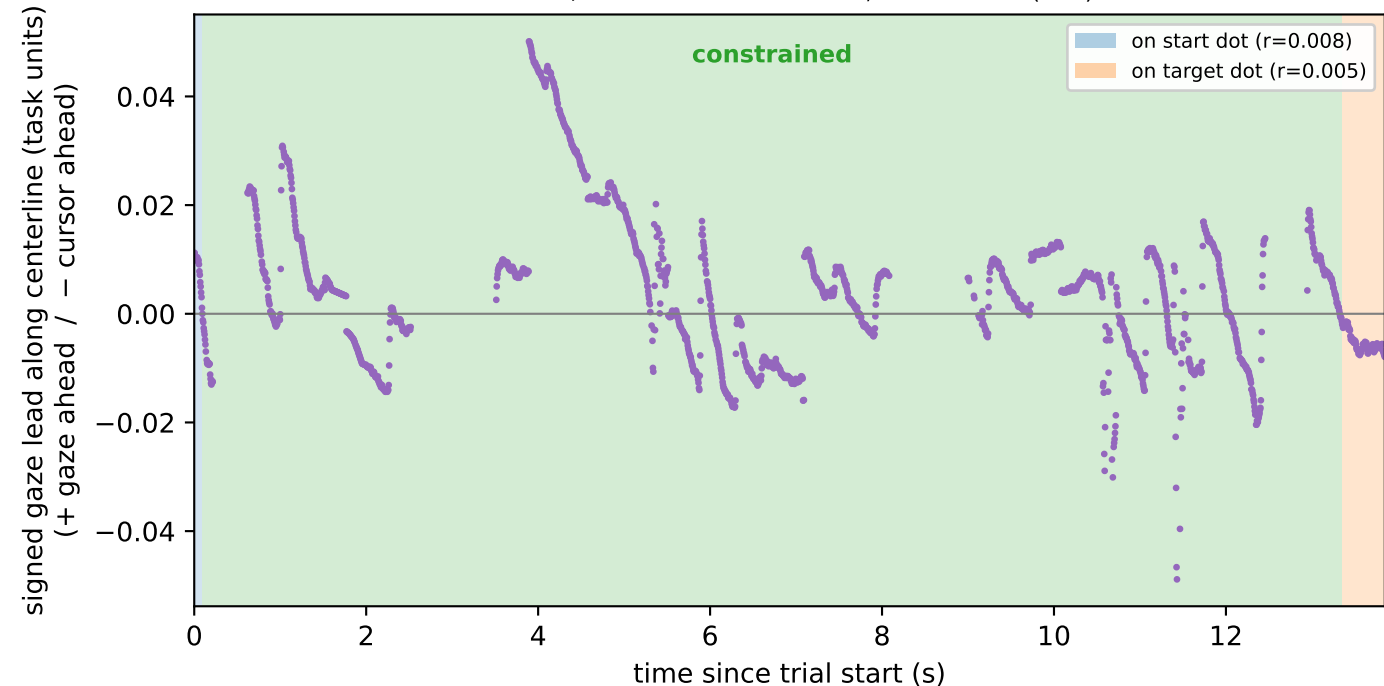

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

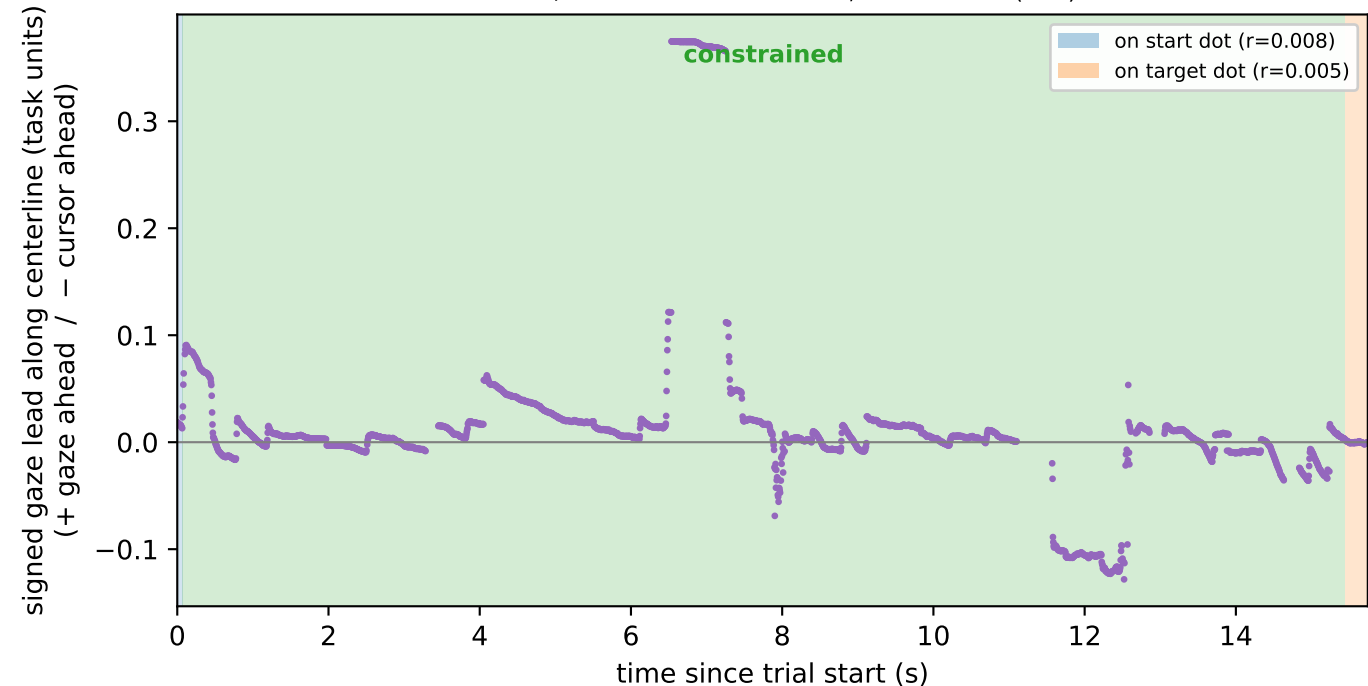

Trial 54/73 round 2 — unconstrained pointing, distance 2D/3, radius 20mm (id 50)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

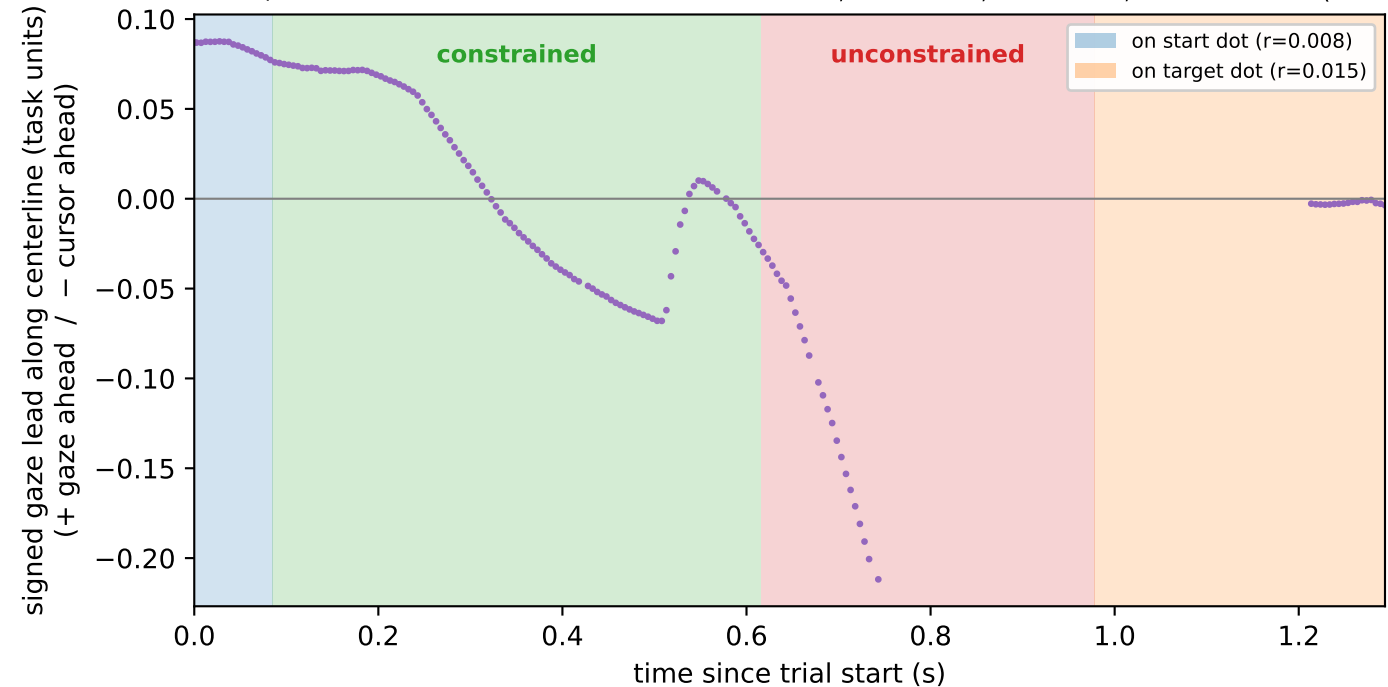

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

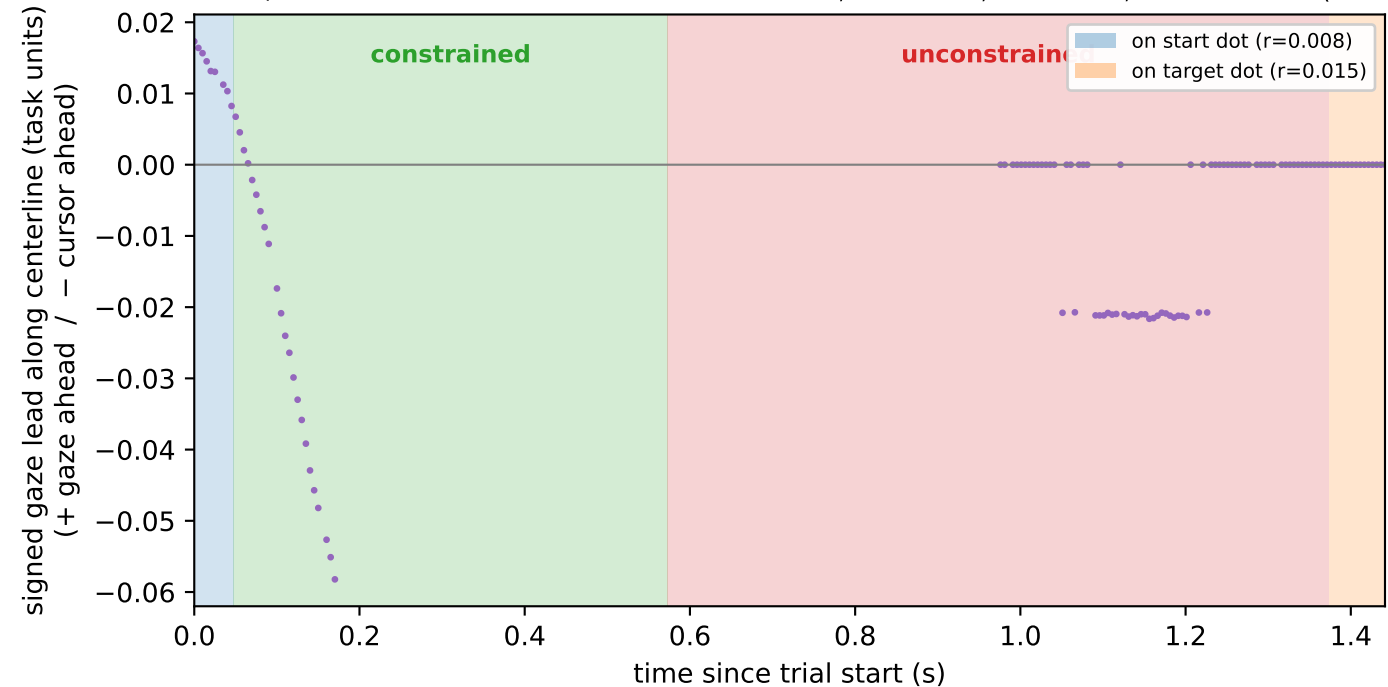

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

Trial 56/73 round 1 — constrained-to-unconstrained, width 0.03, distance D, radius 15mm (id 73)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

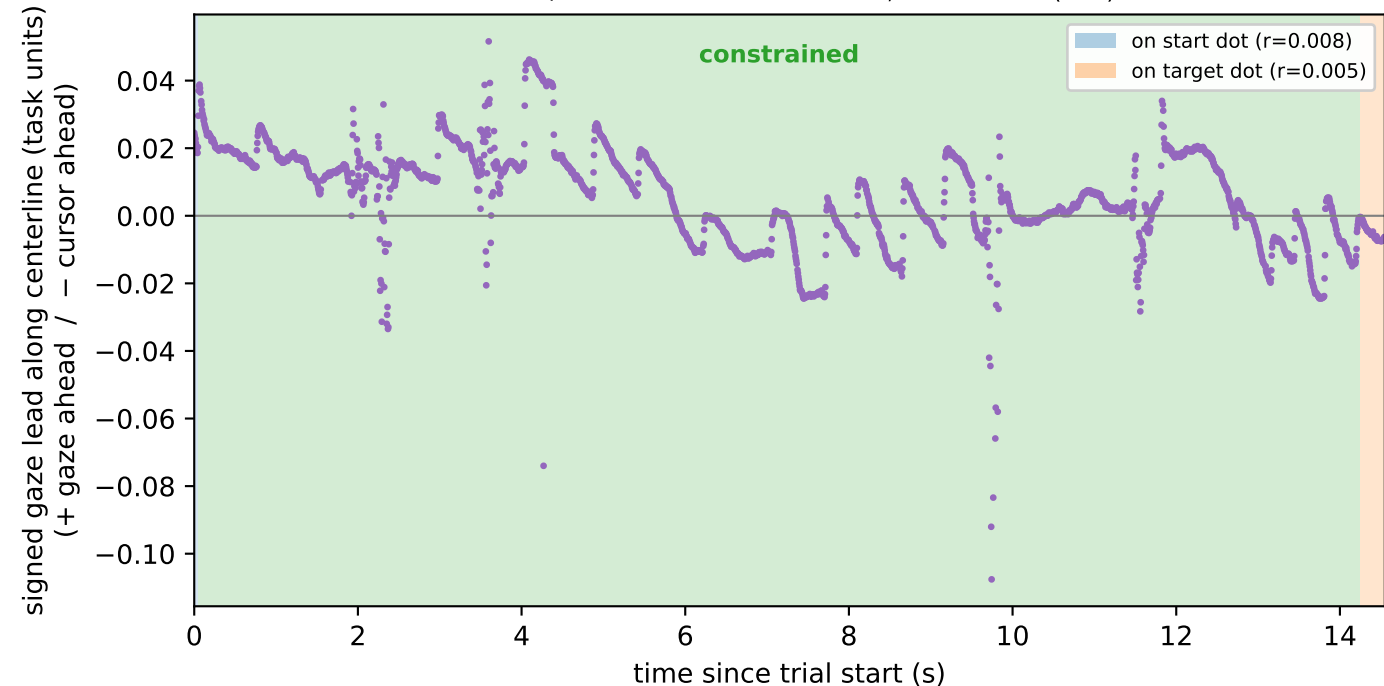

Trial 56/73 round 2 — constrained-to-unconstrained, width 0.03, distance D, radius 15mm (id 73)

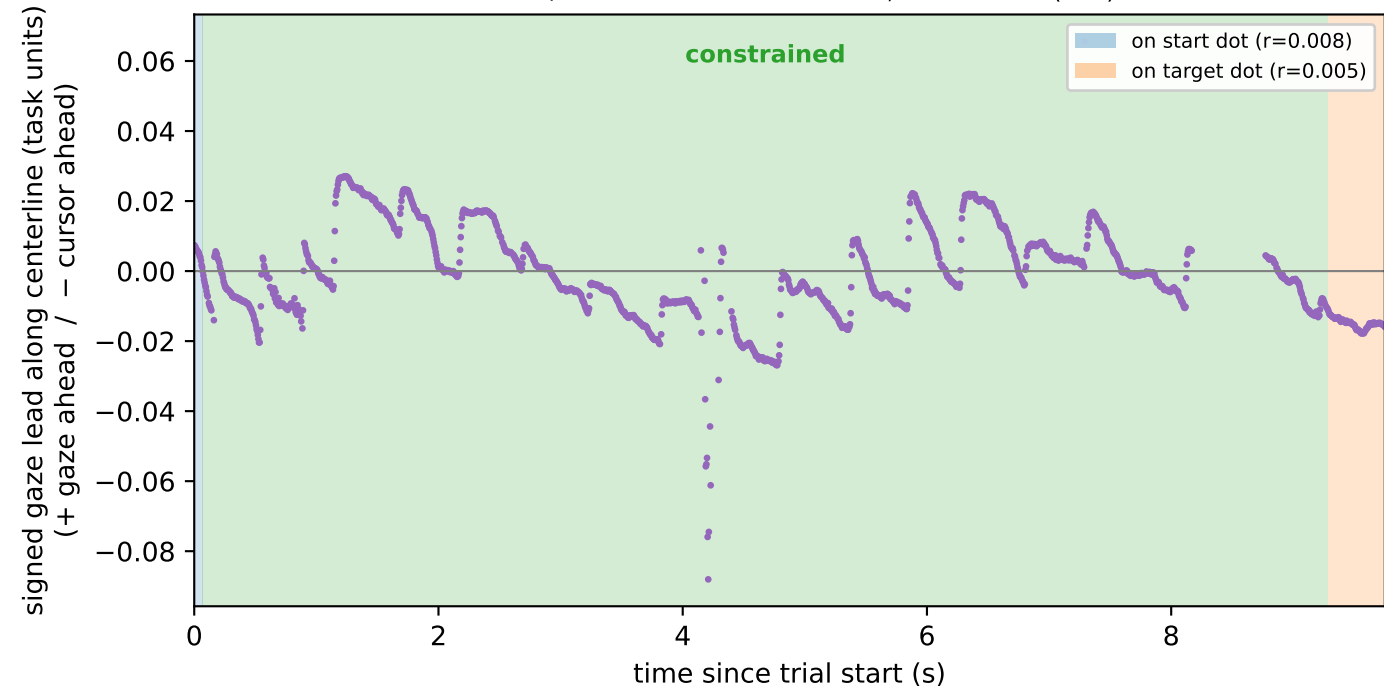

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

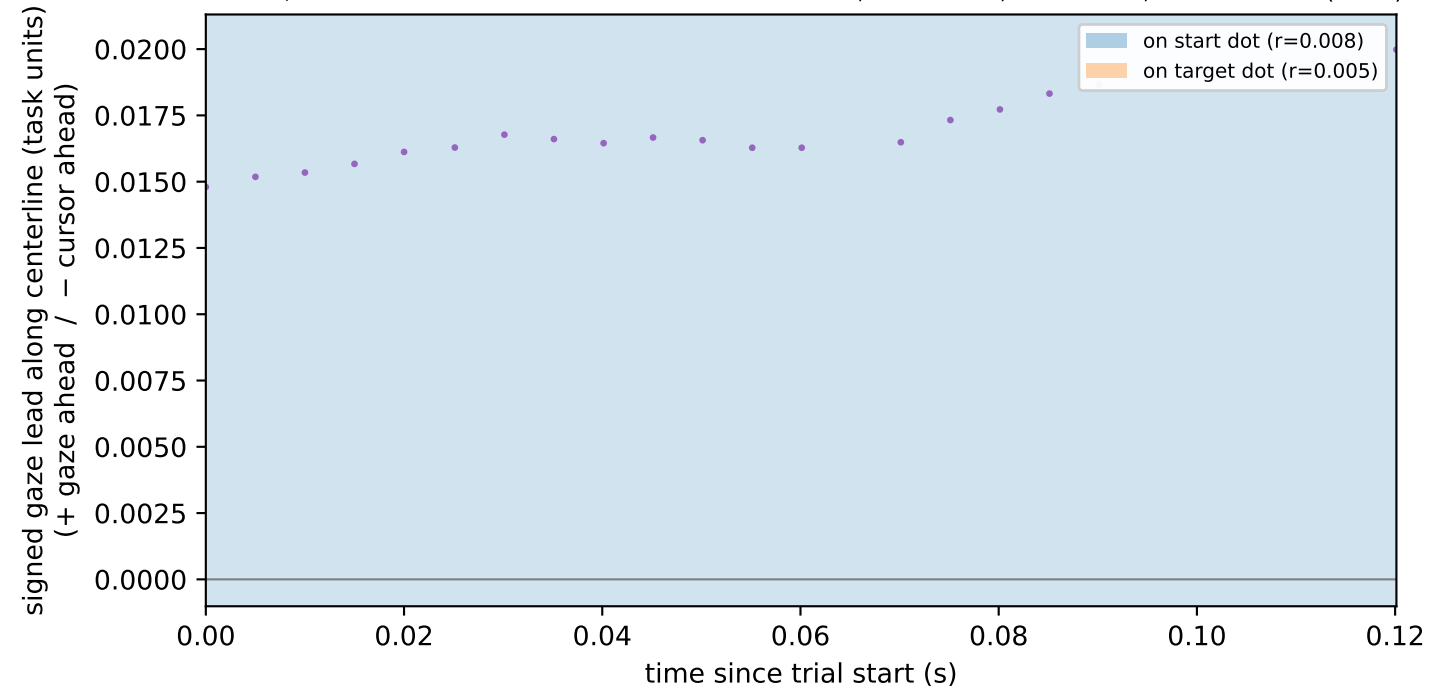

Trial 57/73 round 1 — sinusoidal, width 0.01 (id 1)

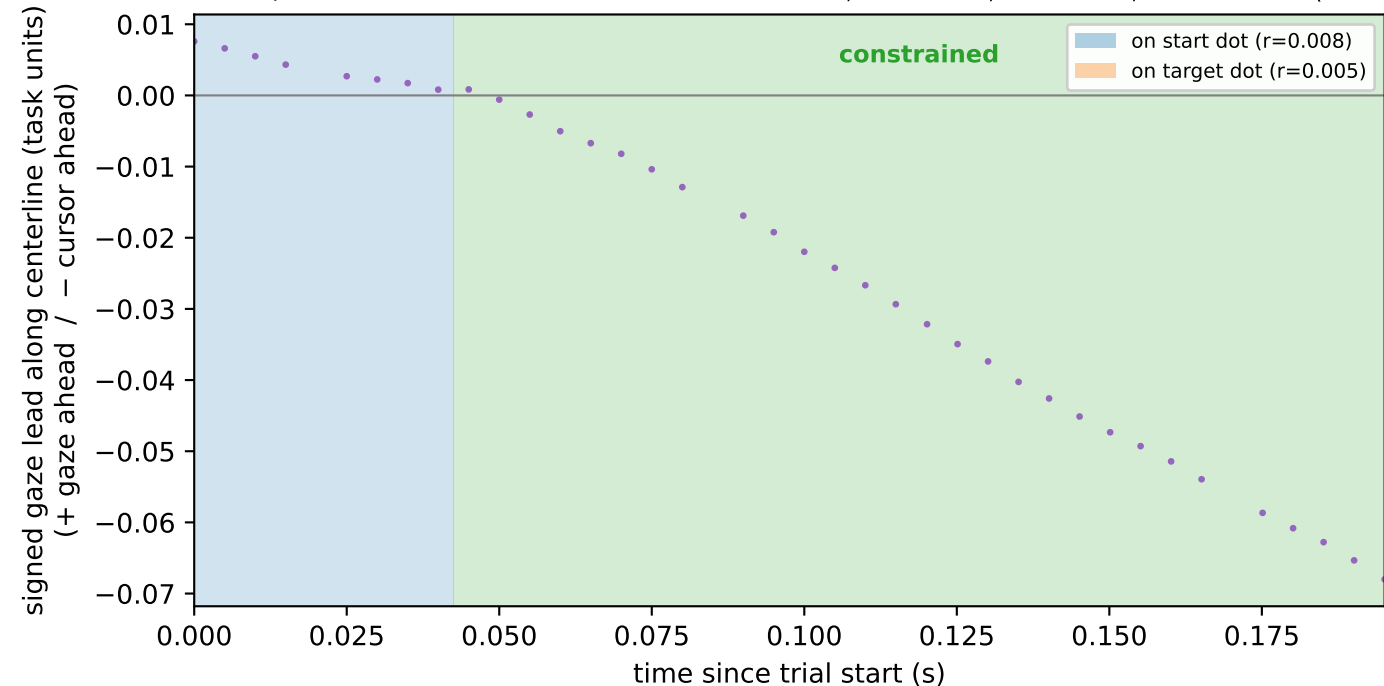

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

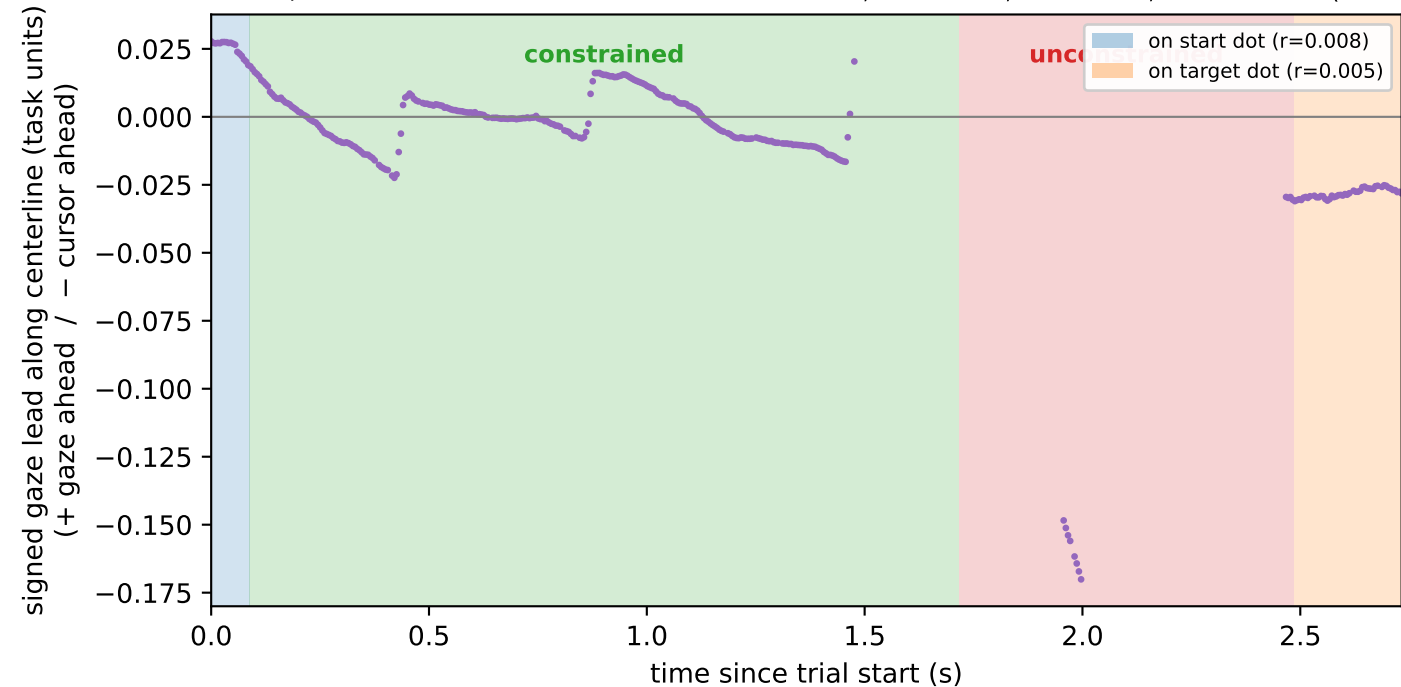

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

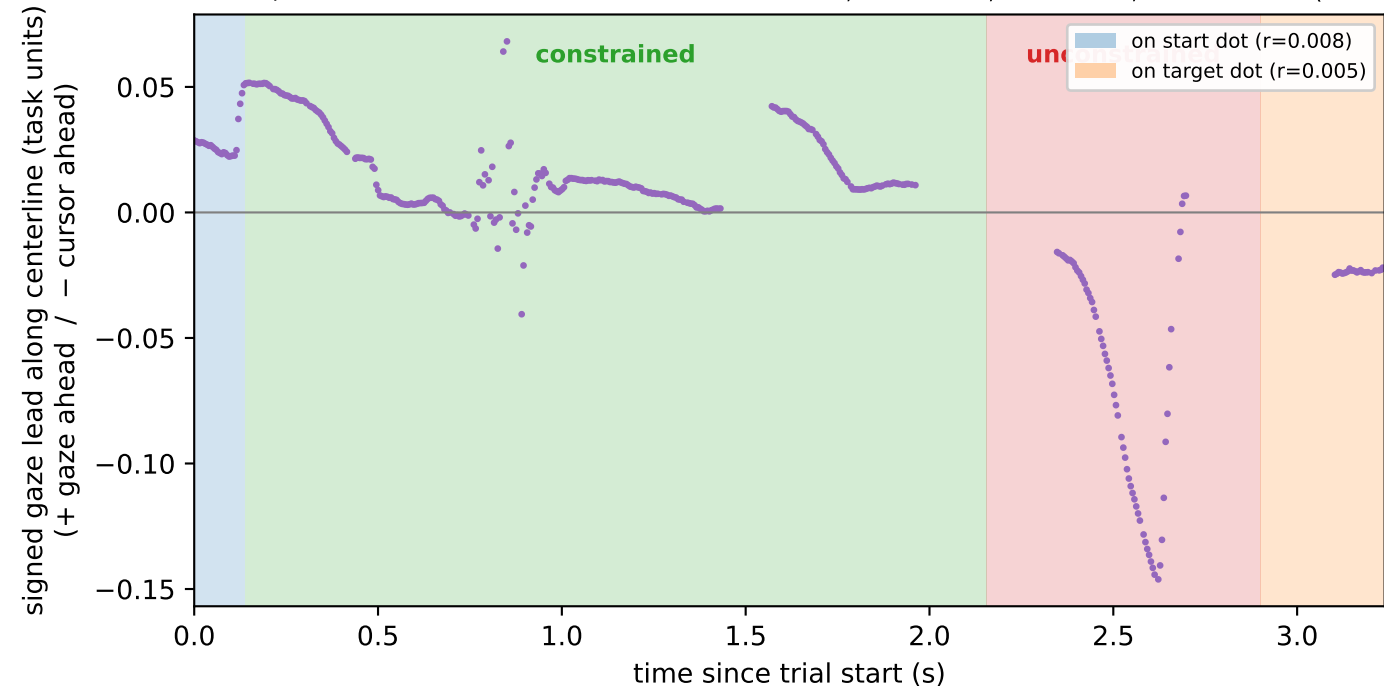

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 59/73 round 1 — constrained-to-unconstrained, width 0.01, distance D, radius 5mm (id 63)

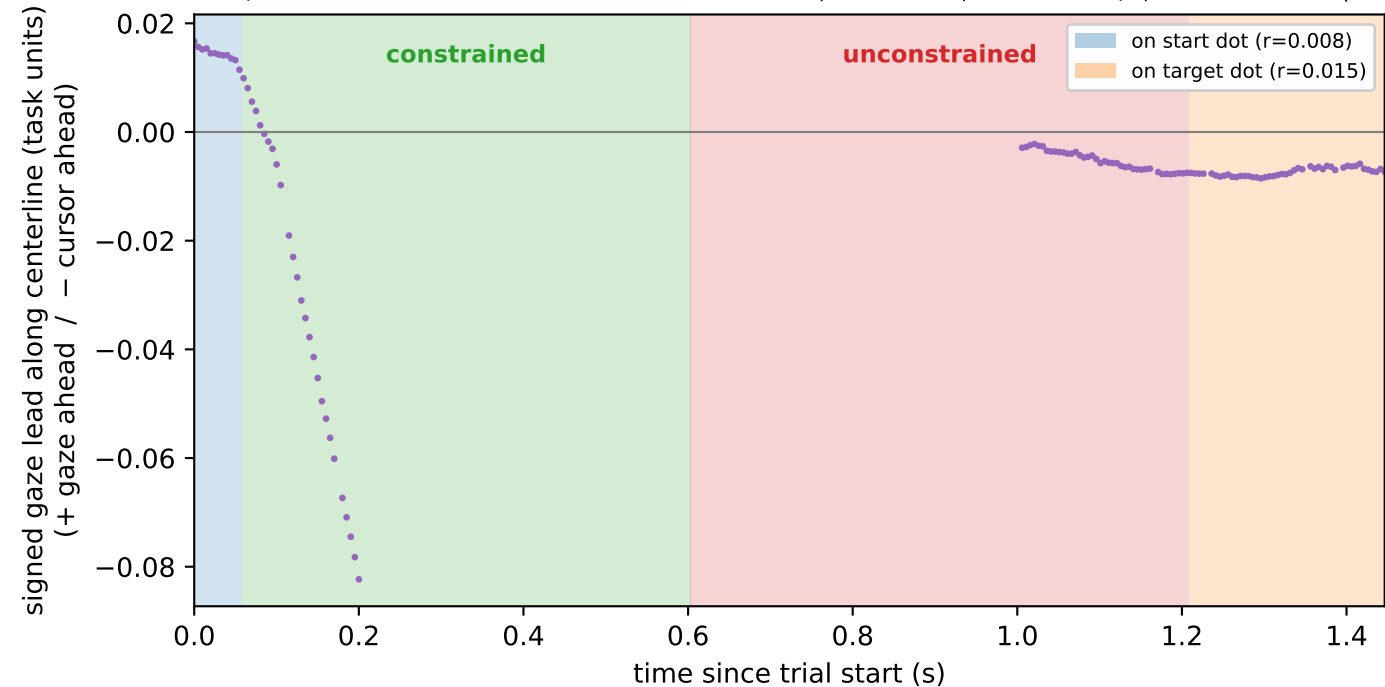

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

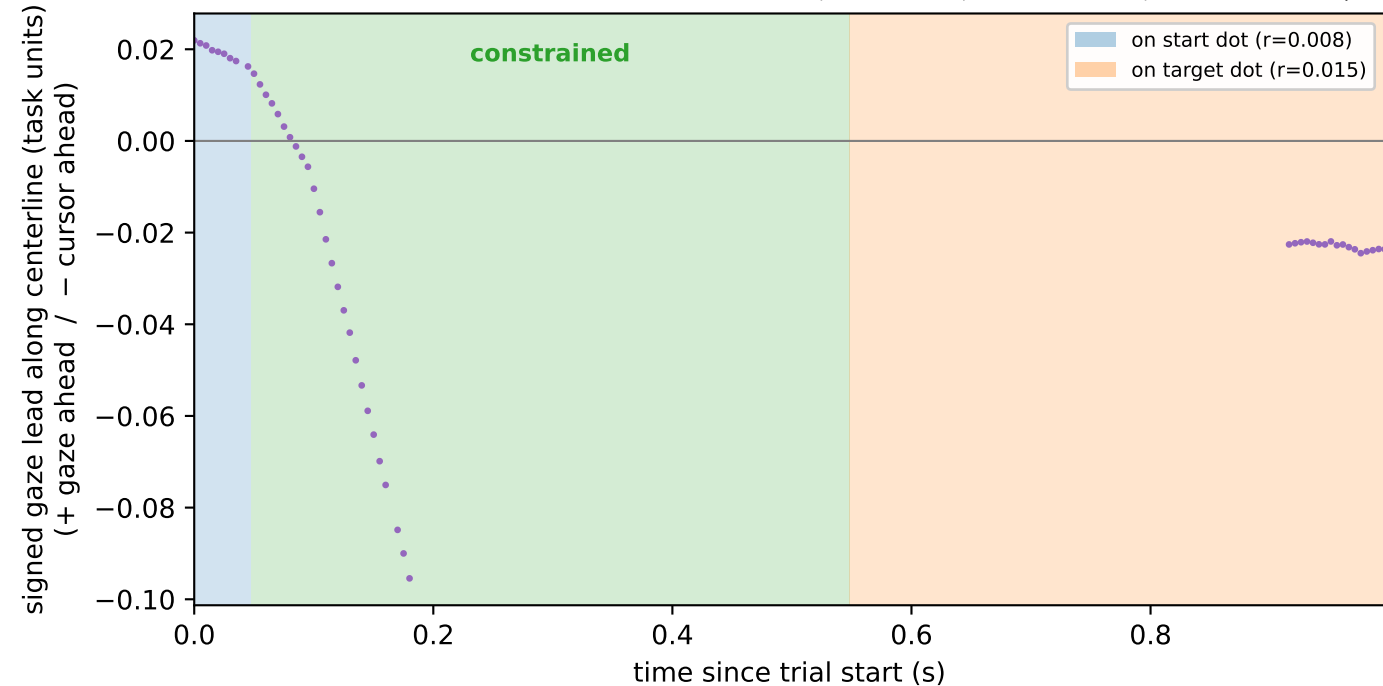

Trial 59/73 round 2 — constrained-to-unconstrained, width 0.01, distance D, radius 5mm (id 63)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

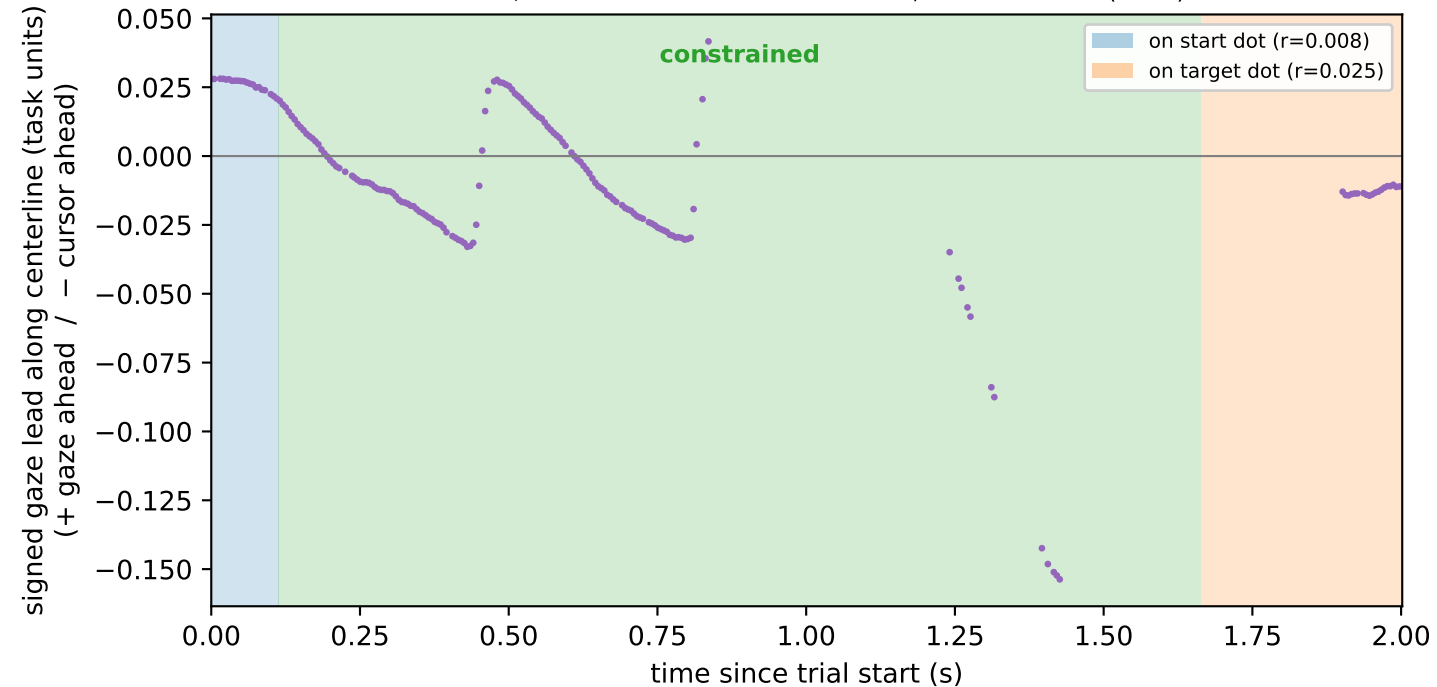

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

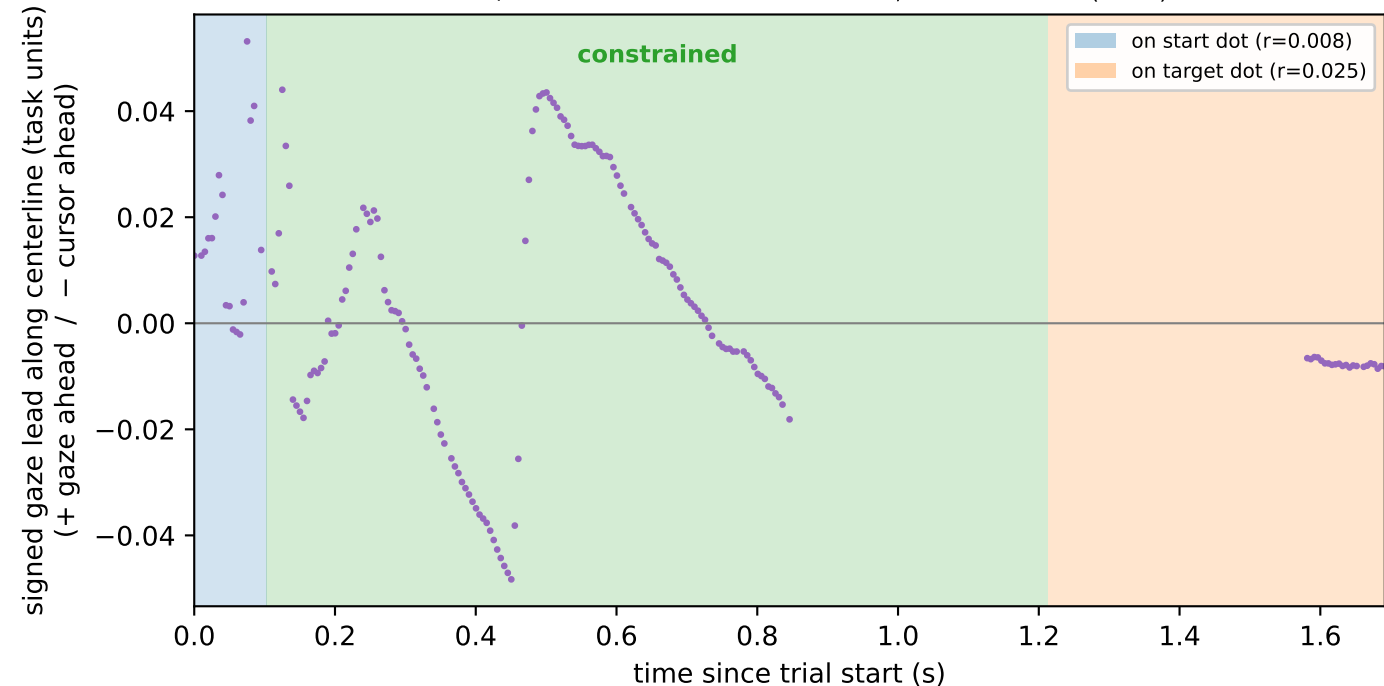

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 61/73 round 1 — narrow-to-wide, narrow=0.02 (id 40)

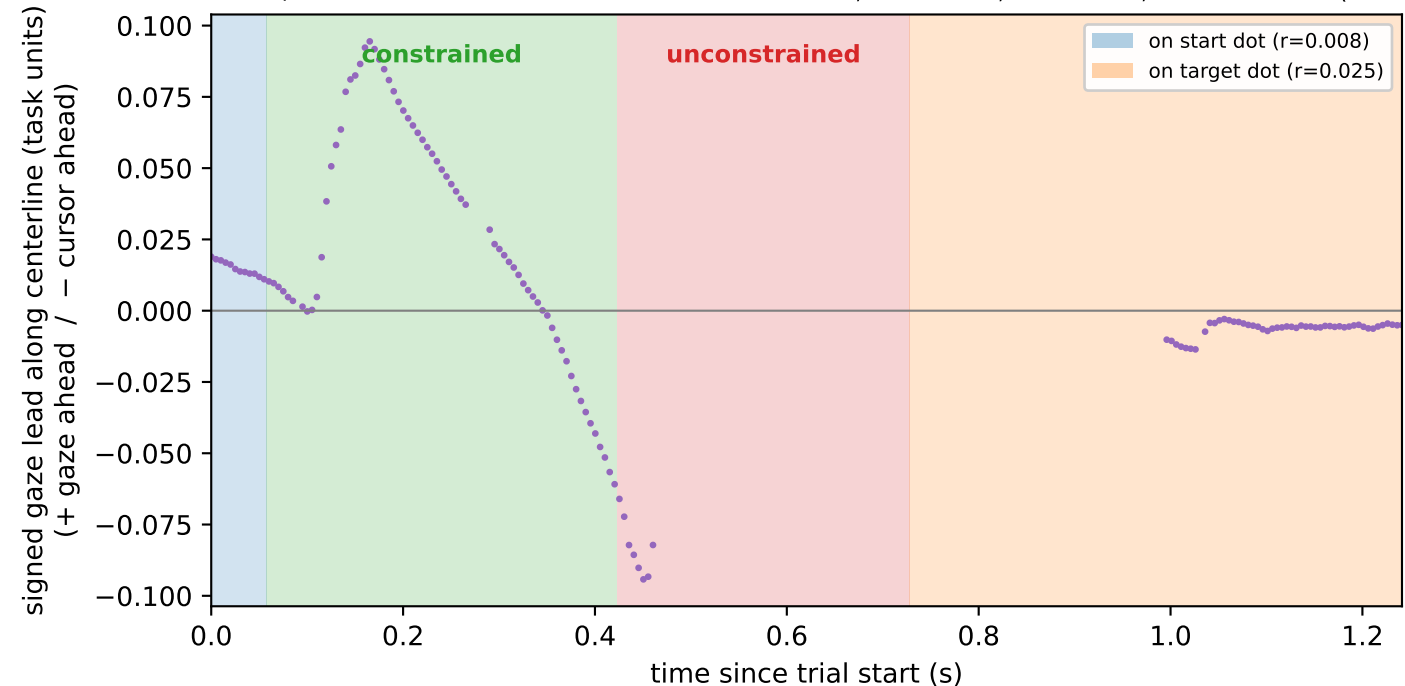

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

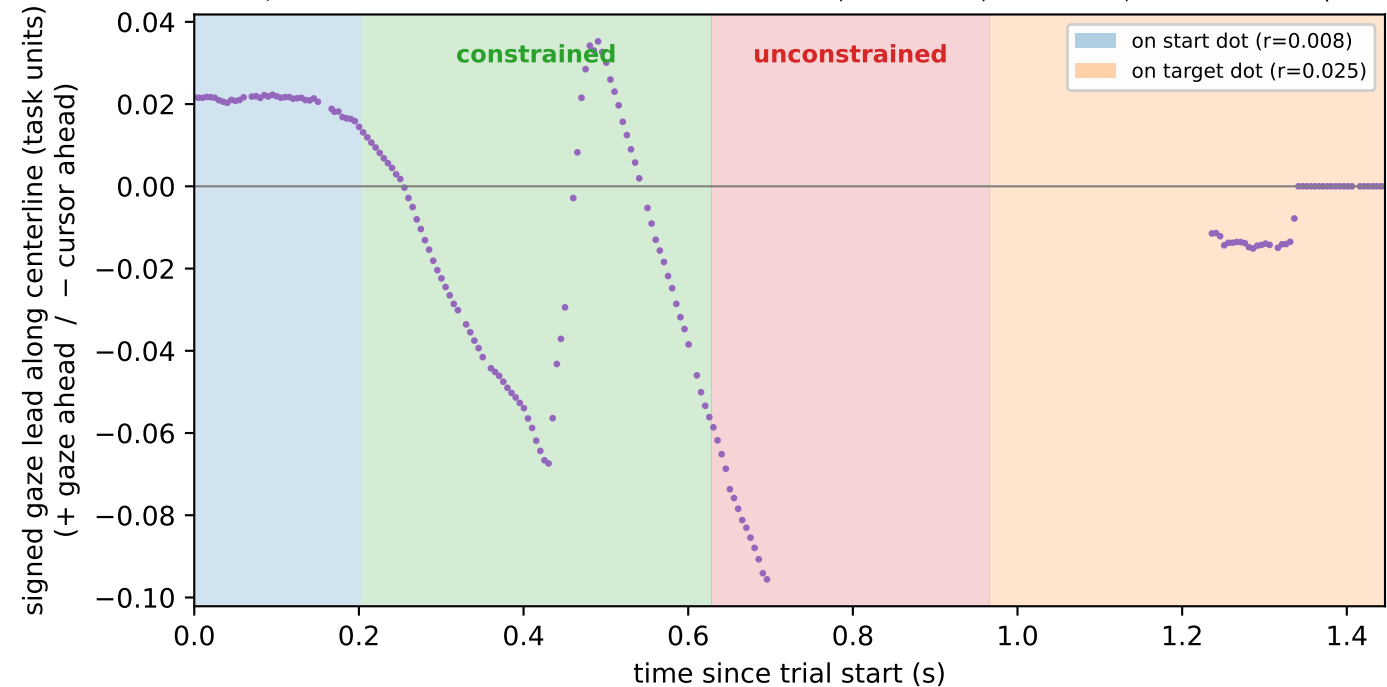

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

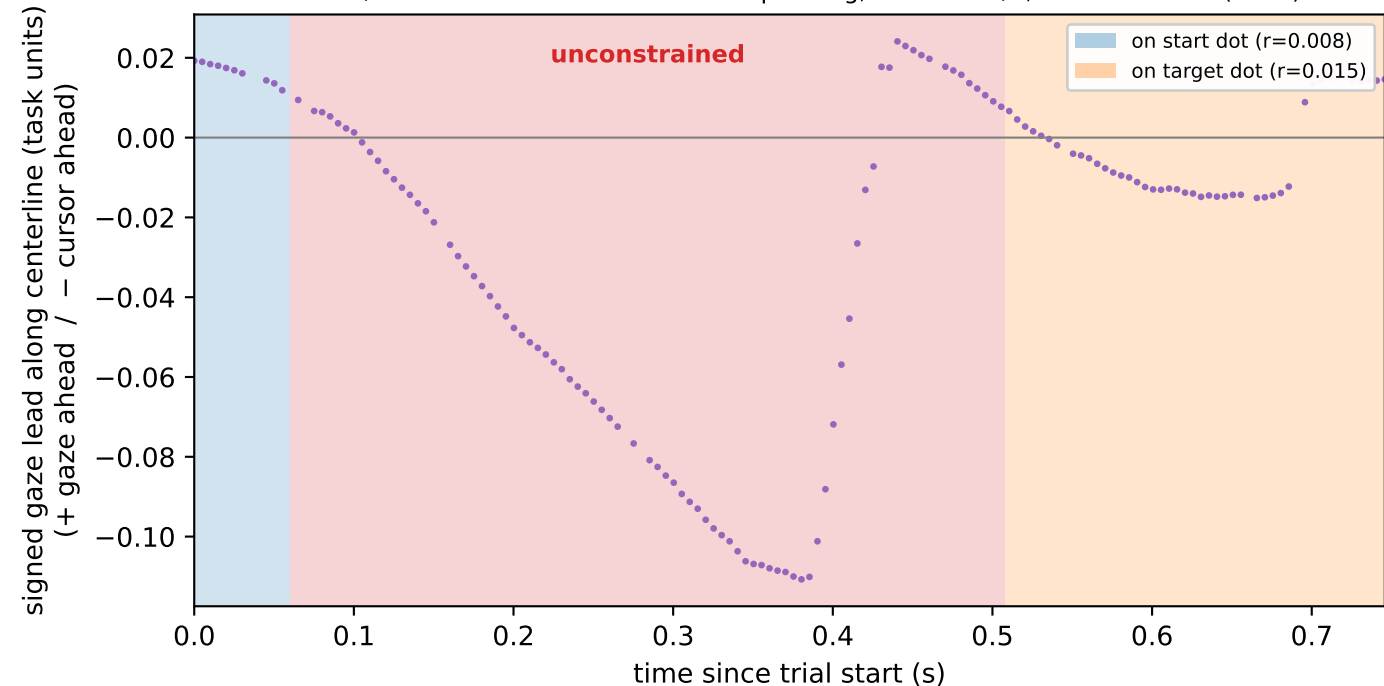

Trial 62/73 round 1 — constrained-to-unconstrained, width 0.05, distance D, radius 25mm (id 83)

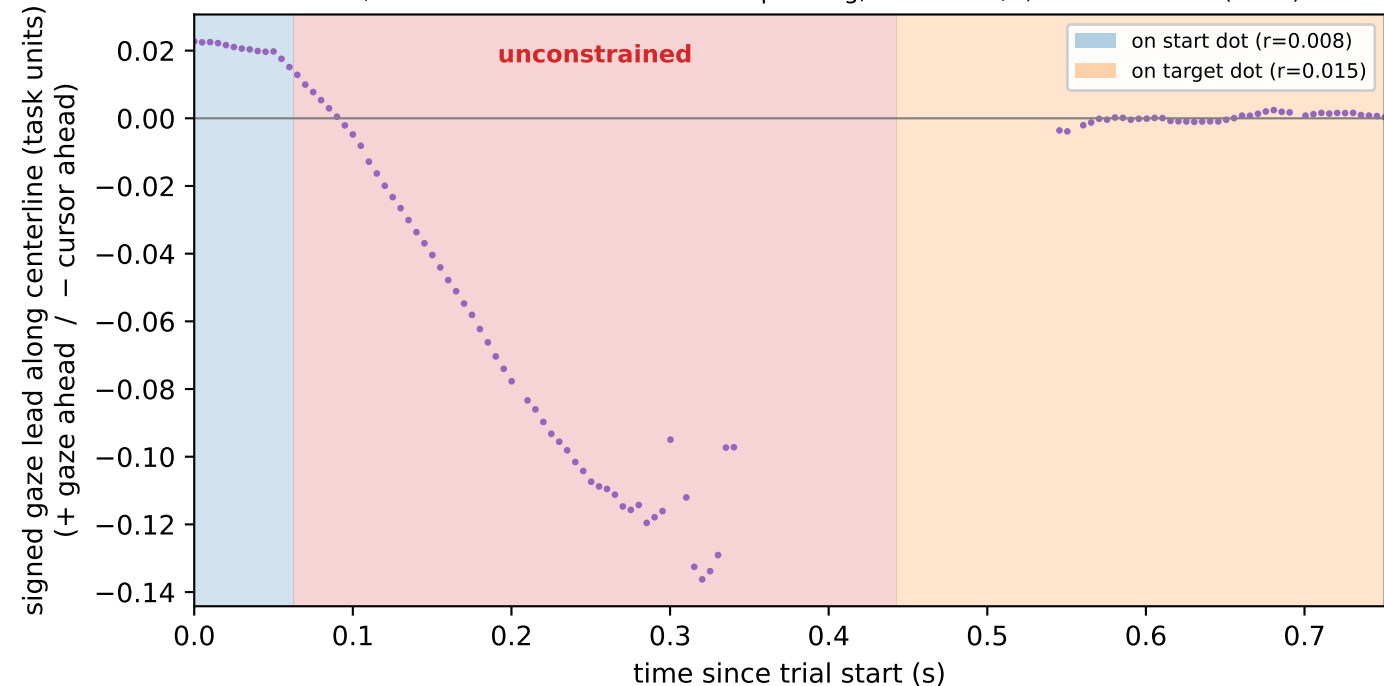

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

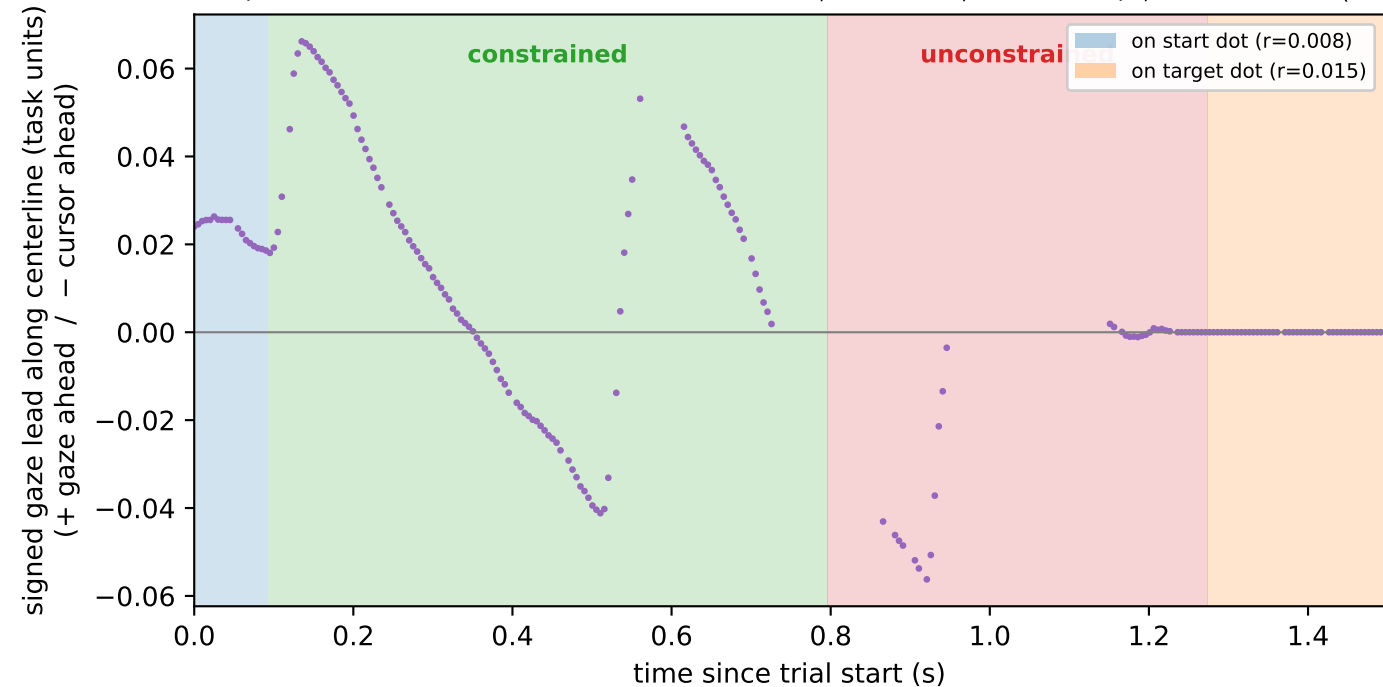

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

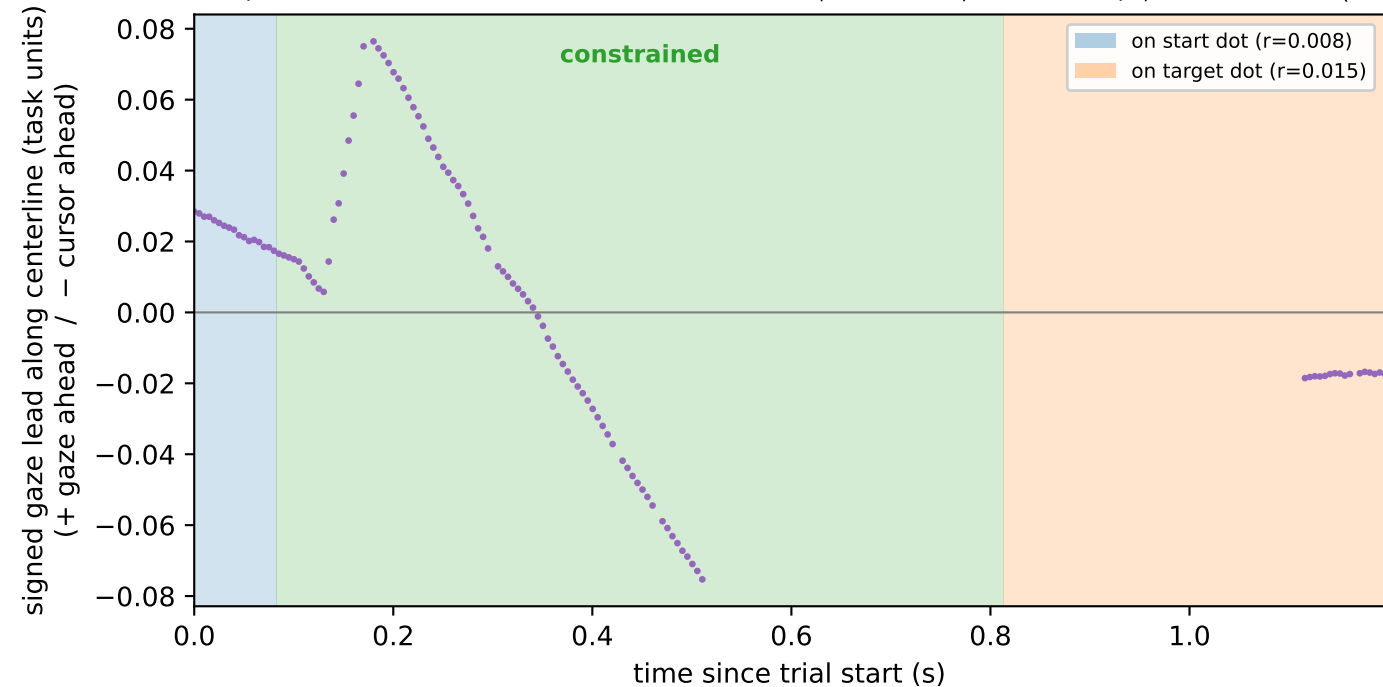

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

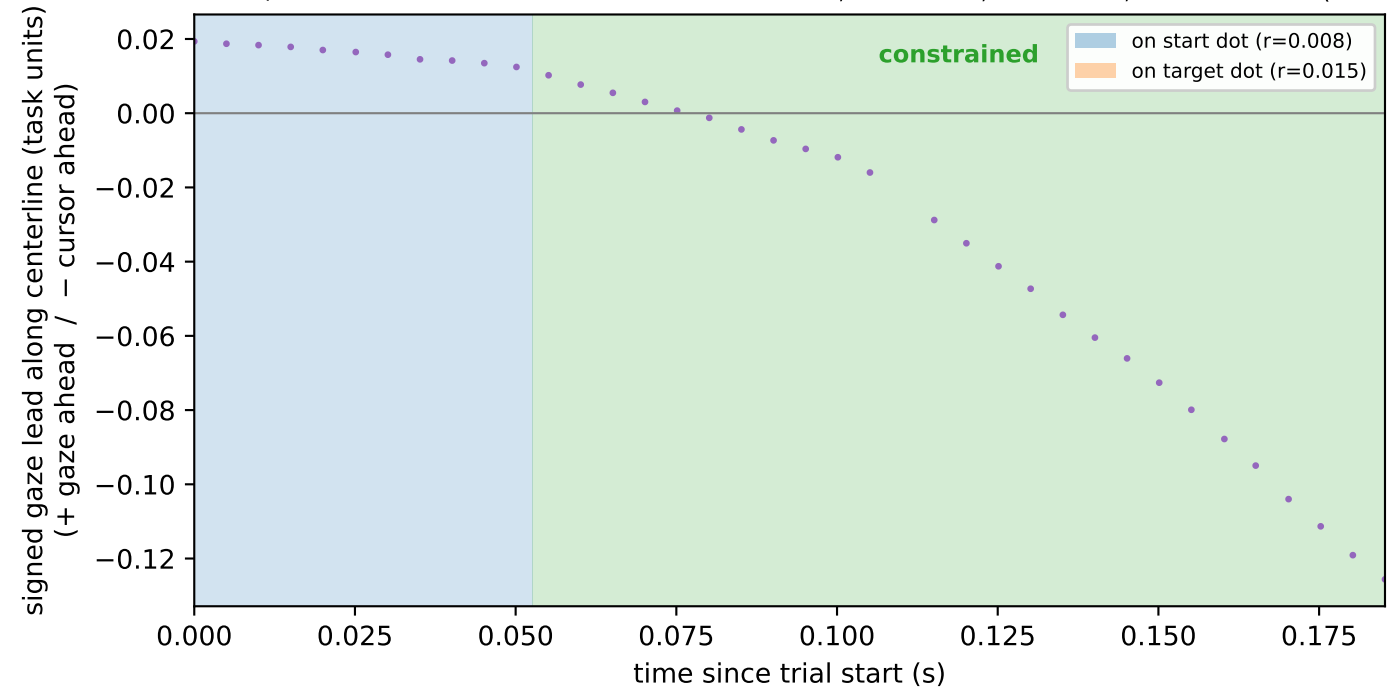

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 64/73 round 2 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 15mm (id 67)

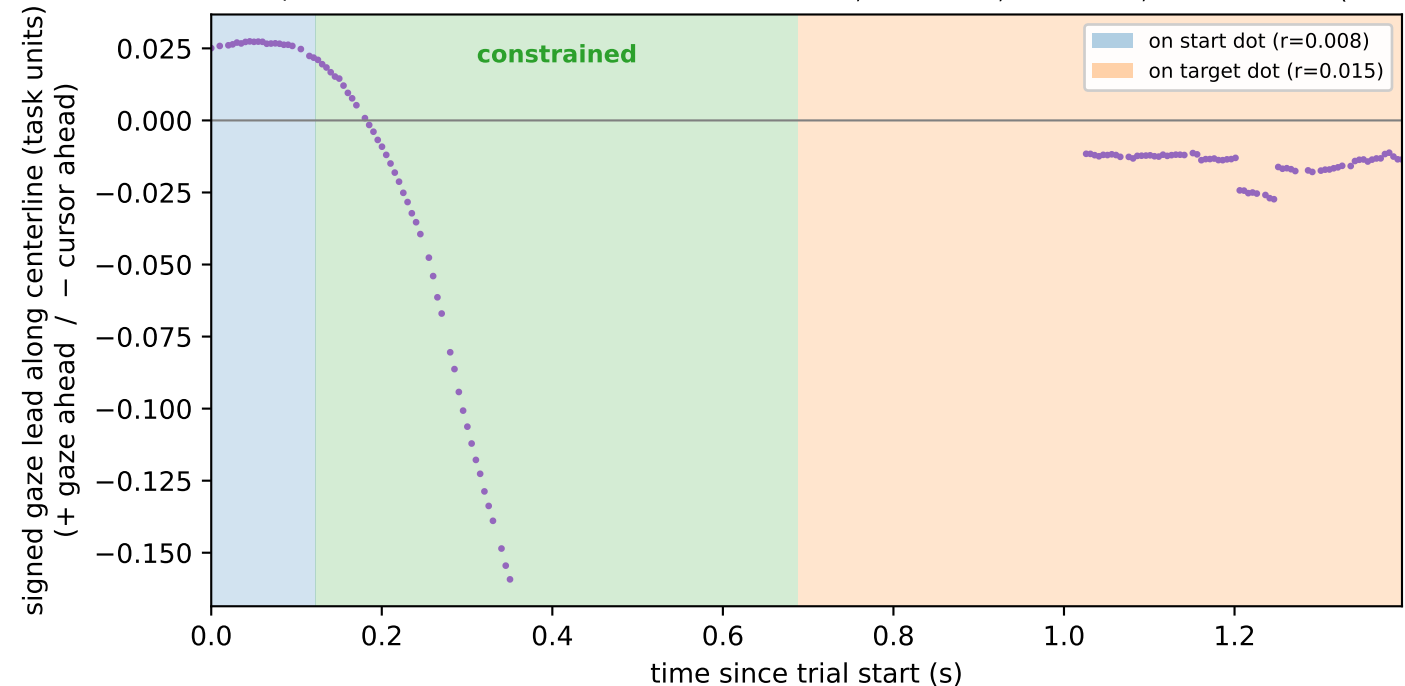

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

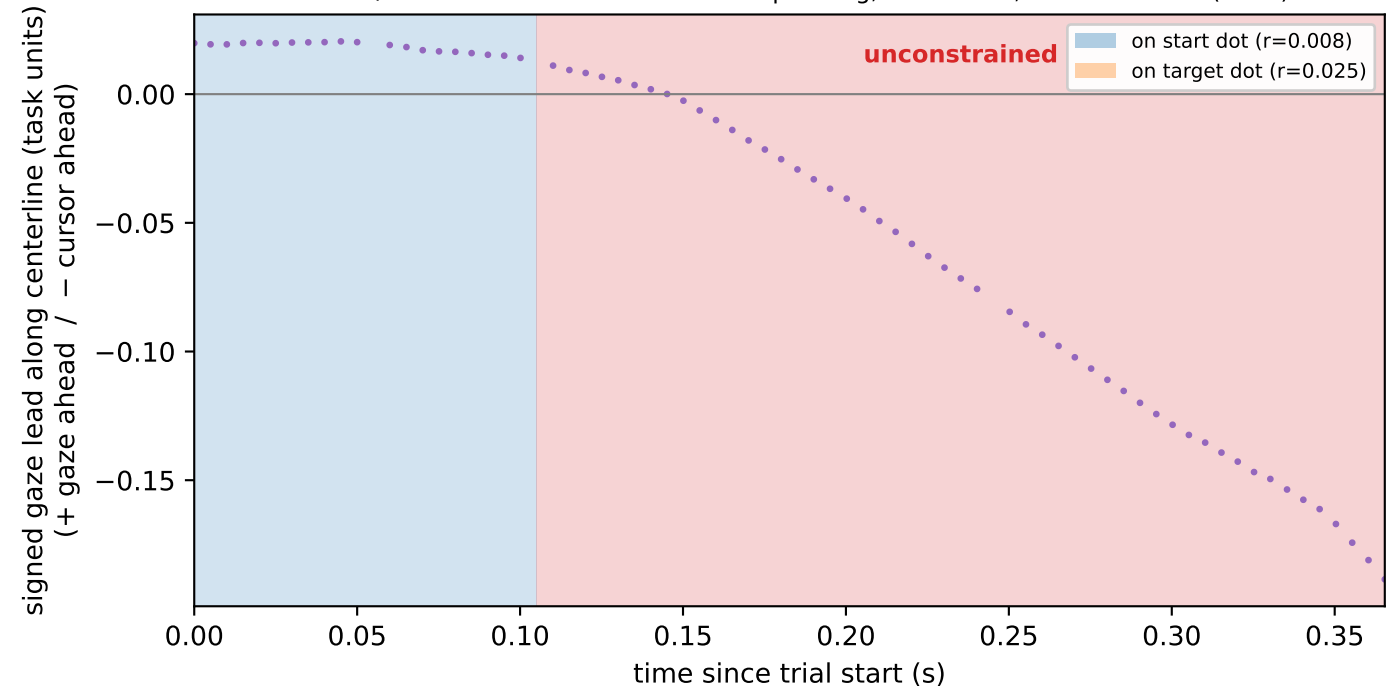

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

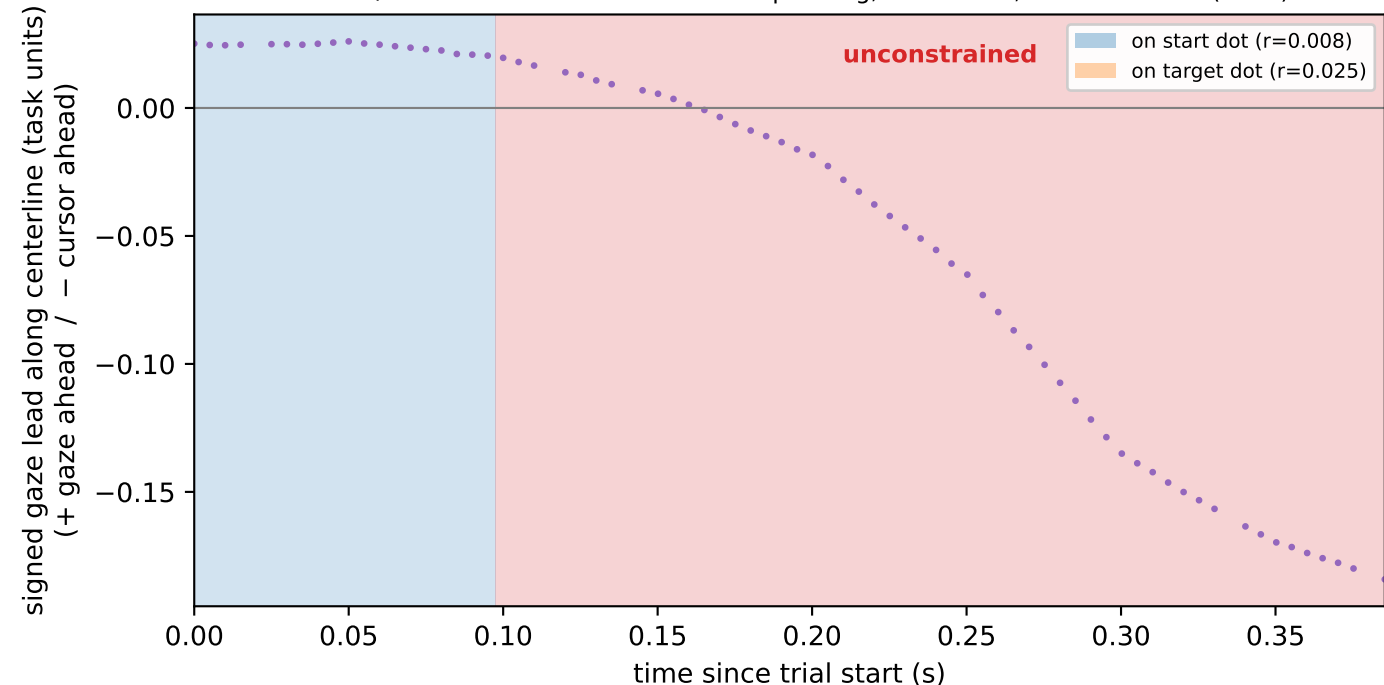

Trial 65/73 round 2 — constrained-to-unconstrained, width 0.05, distance D, radius 15mm (id 82)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

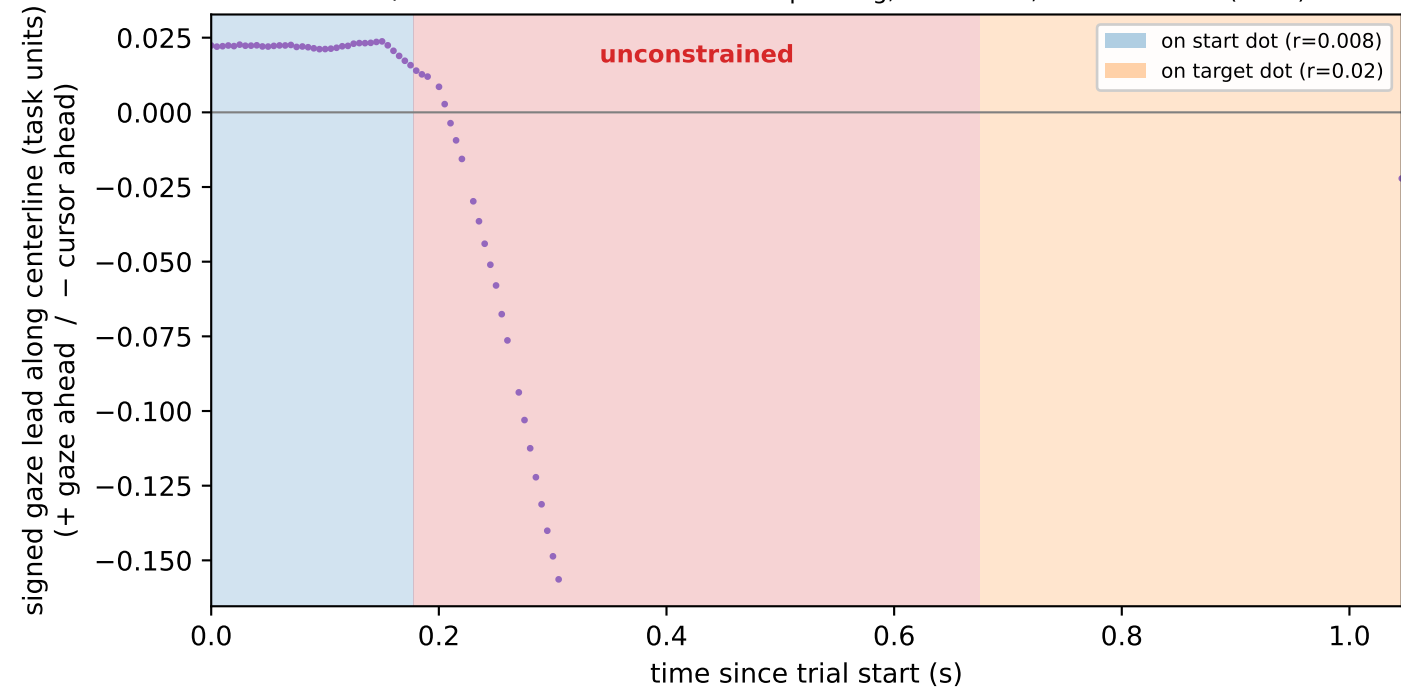

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

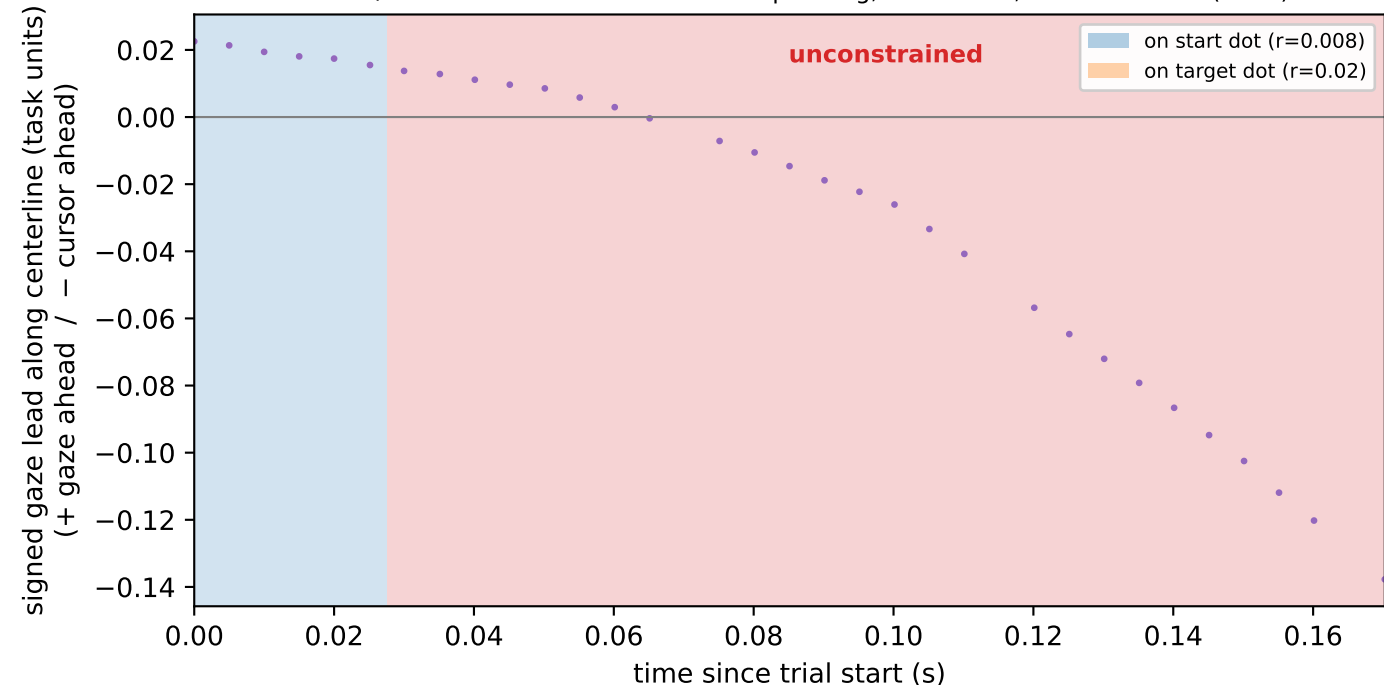

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

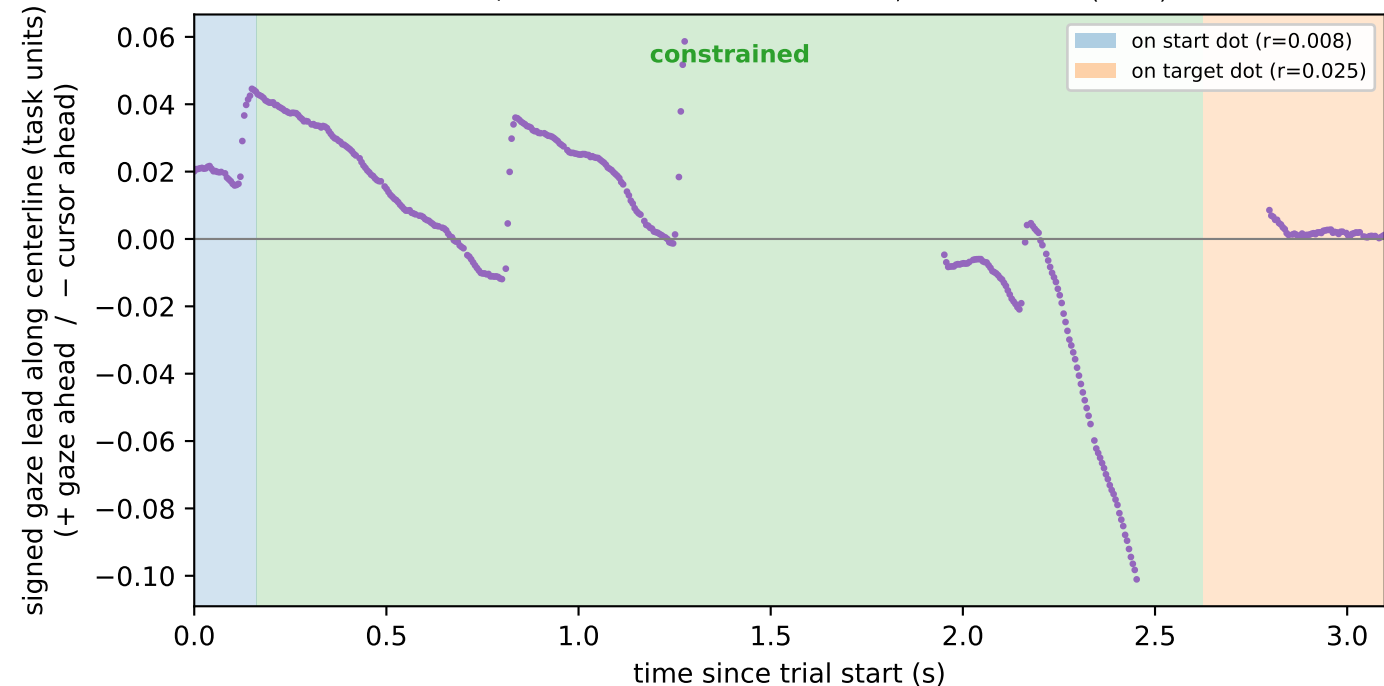

Trial 67/73 round 1 — unconstrained pointing, distance D, radius 20mm (id 55)

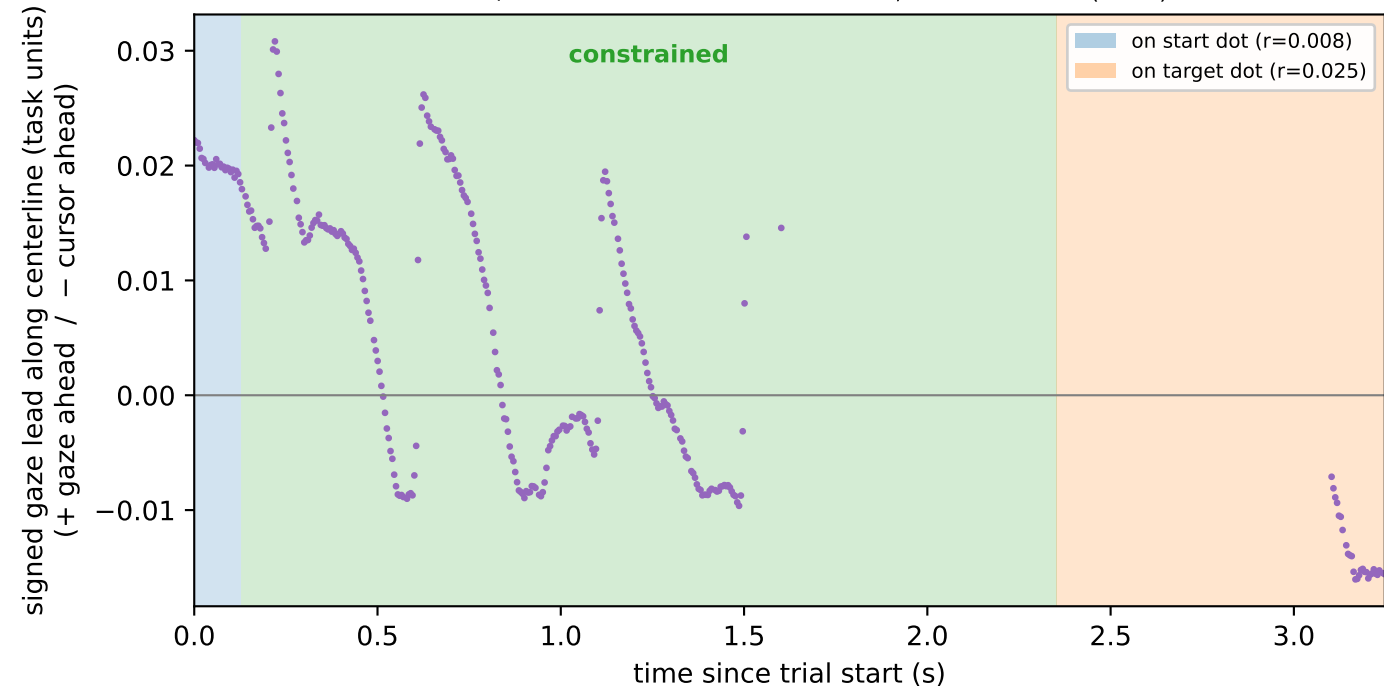

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

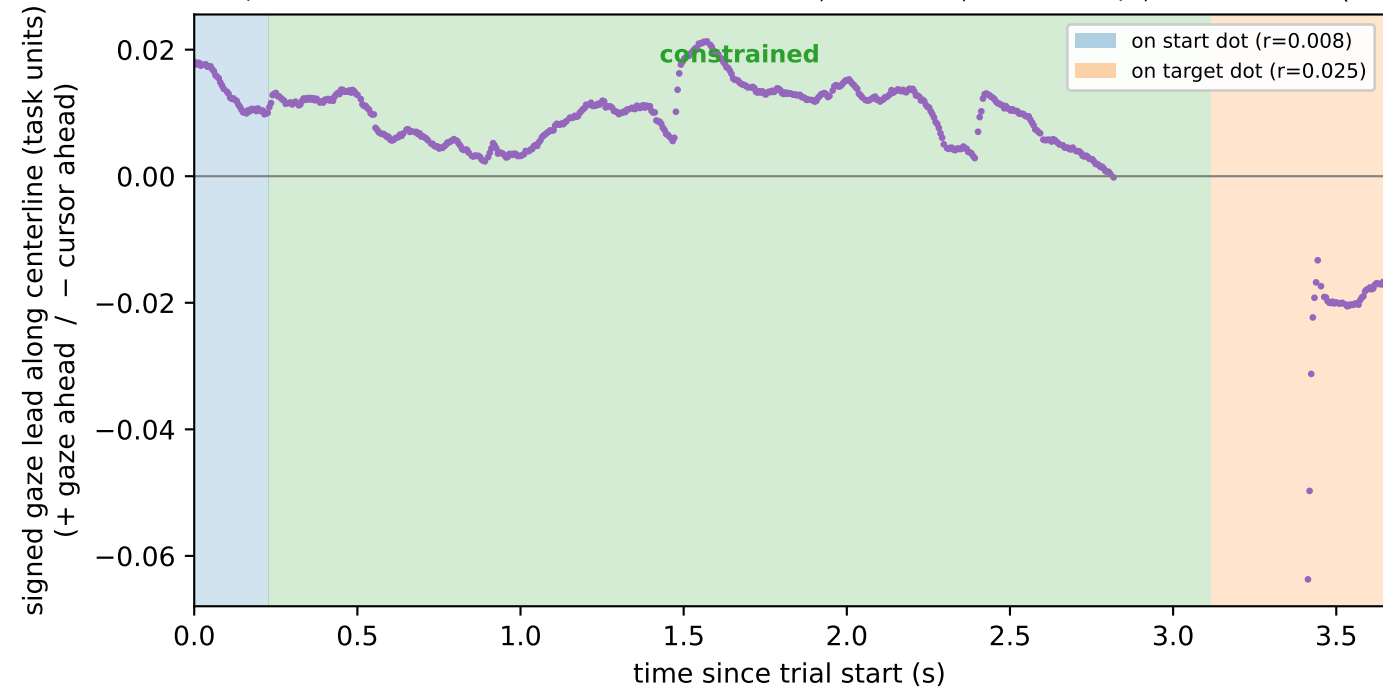

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

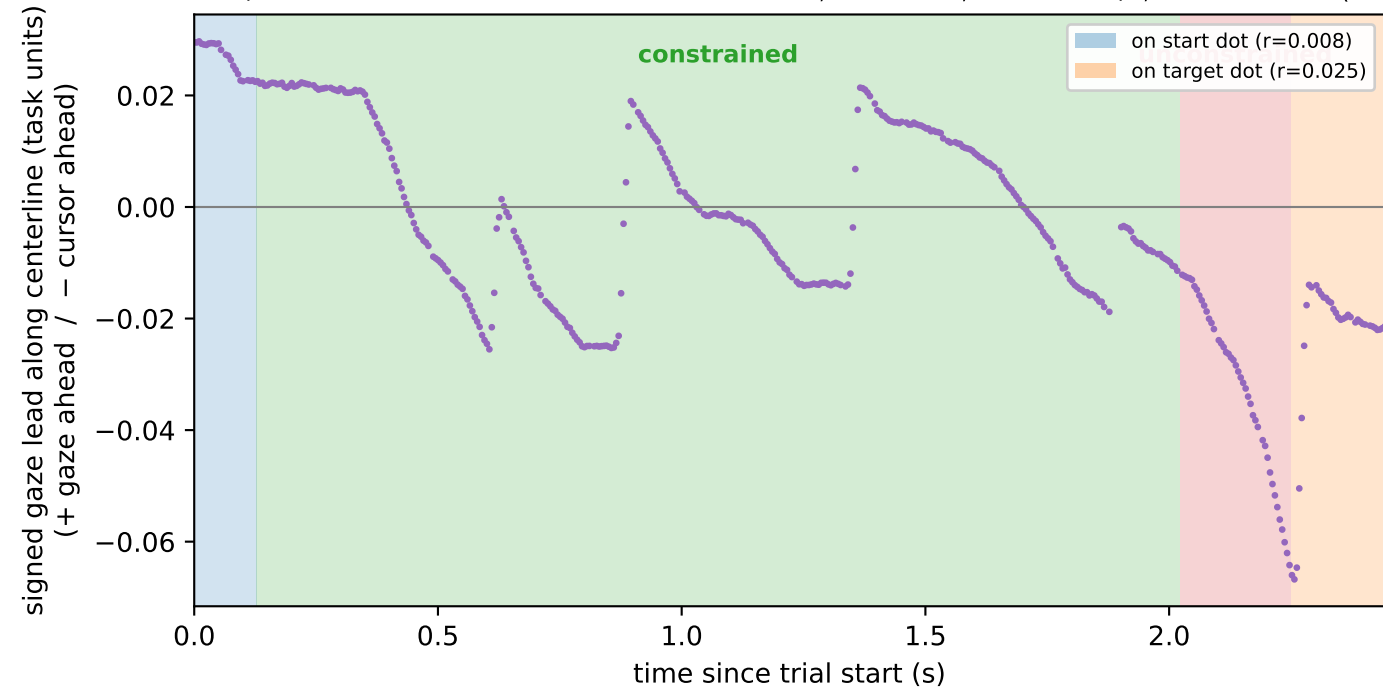

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 69/73 round 1 — constrained-to-unconstrained, width 0.01, distance 4D/6, radius 25mm (id 59)

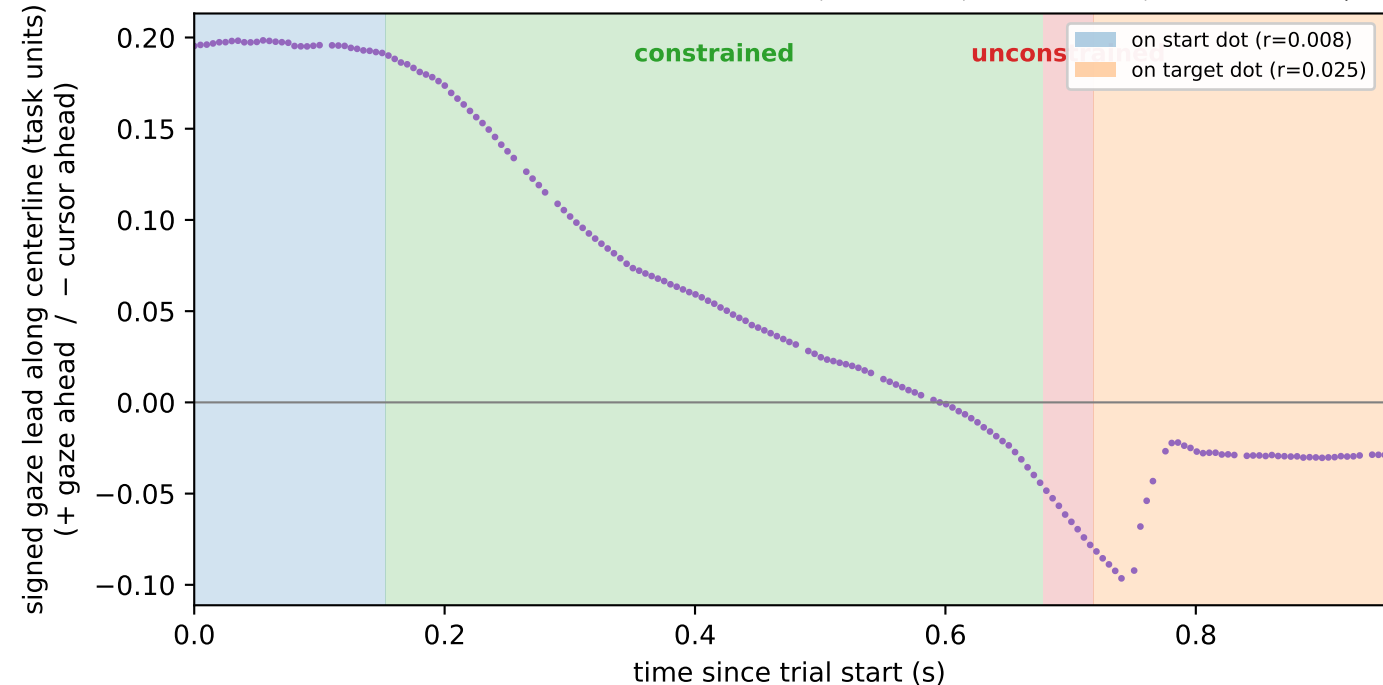

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

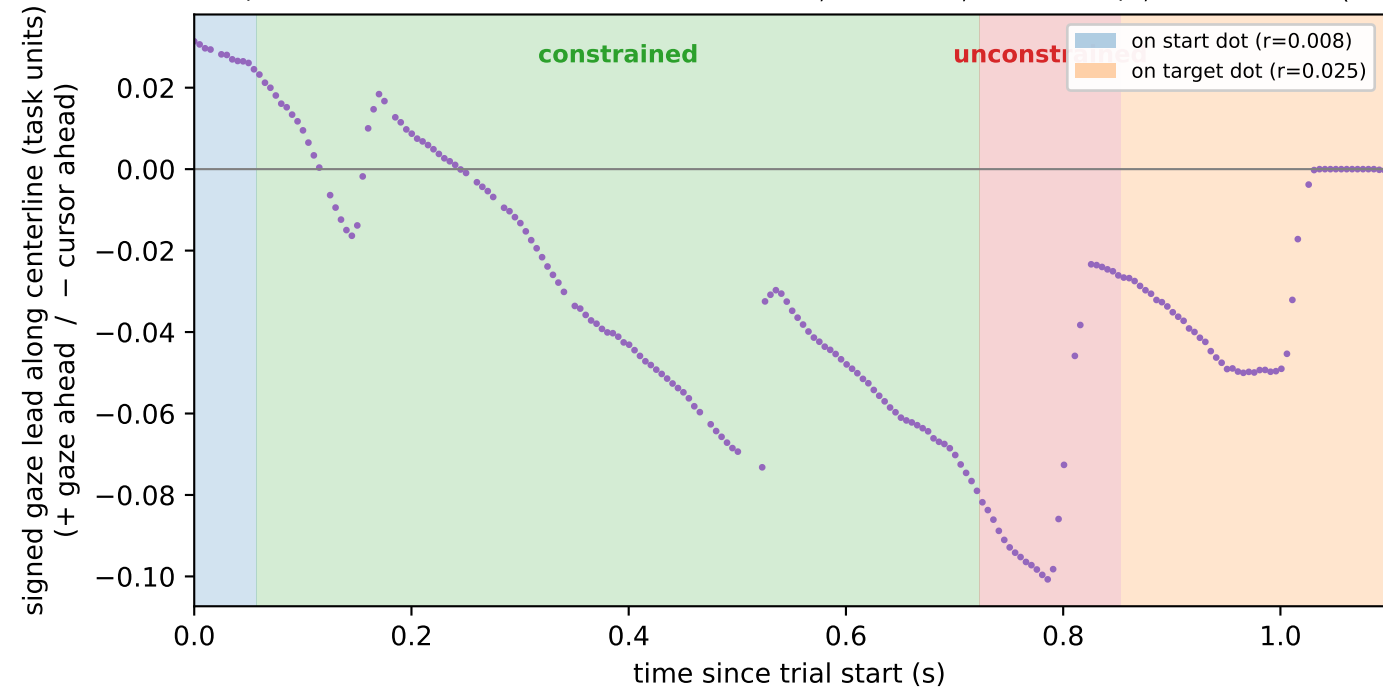

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

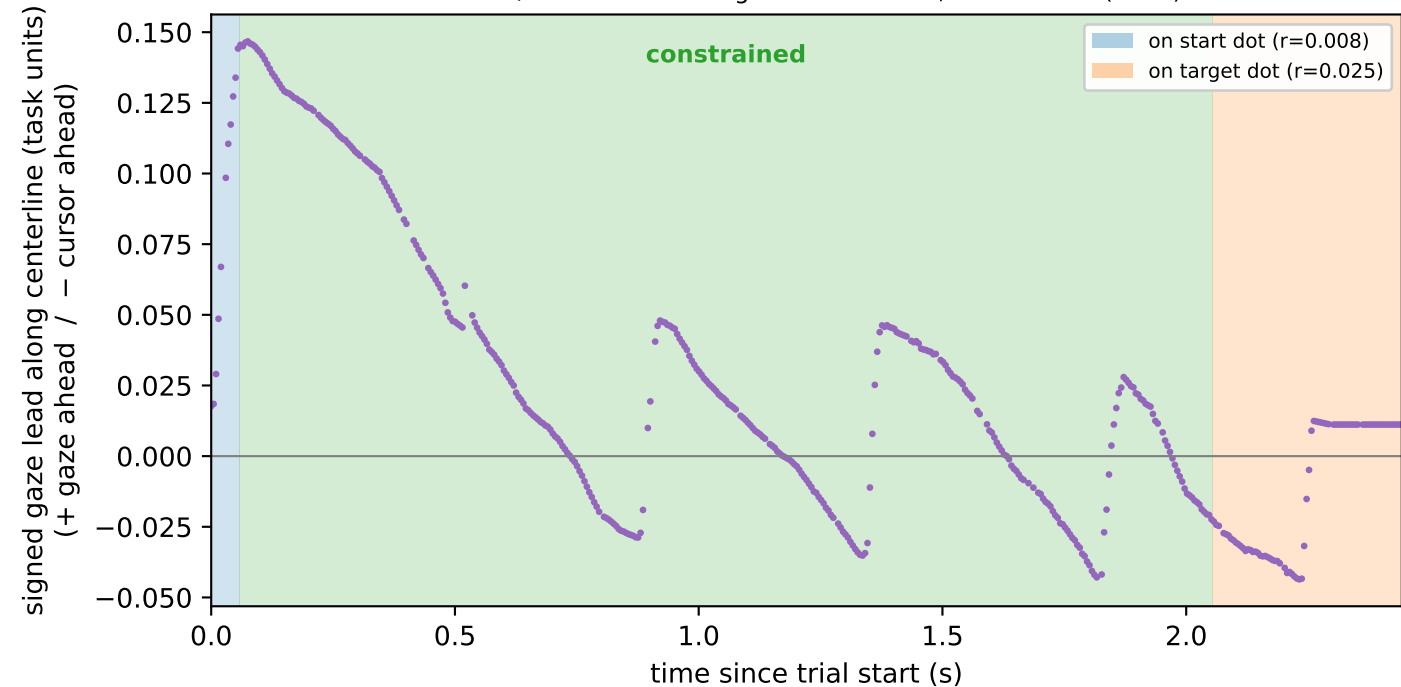

Trial 70/73 round 1 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 25mm (id 68)

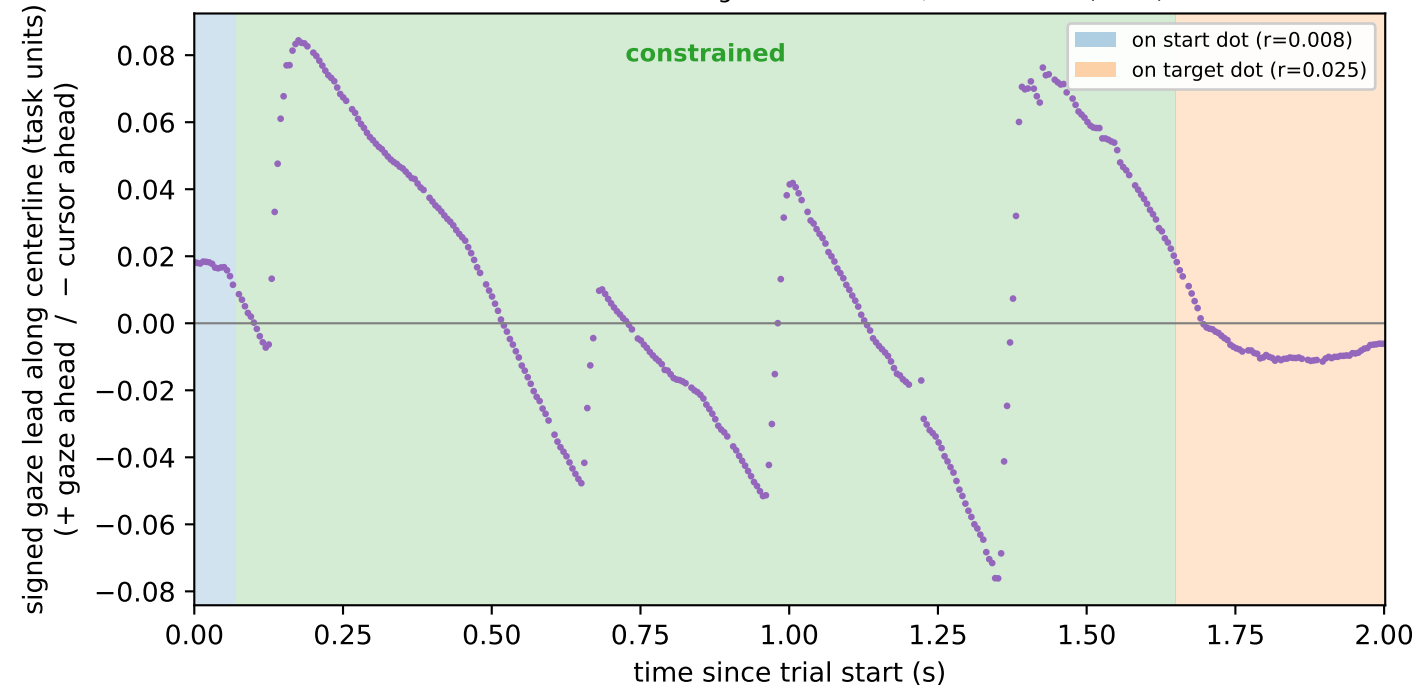

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

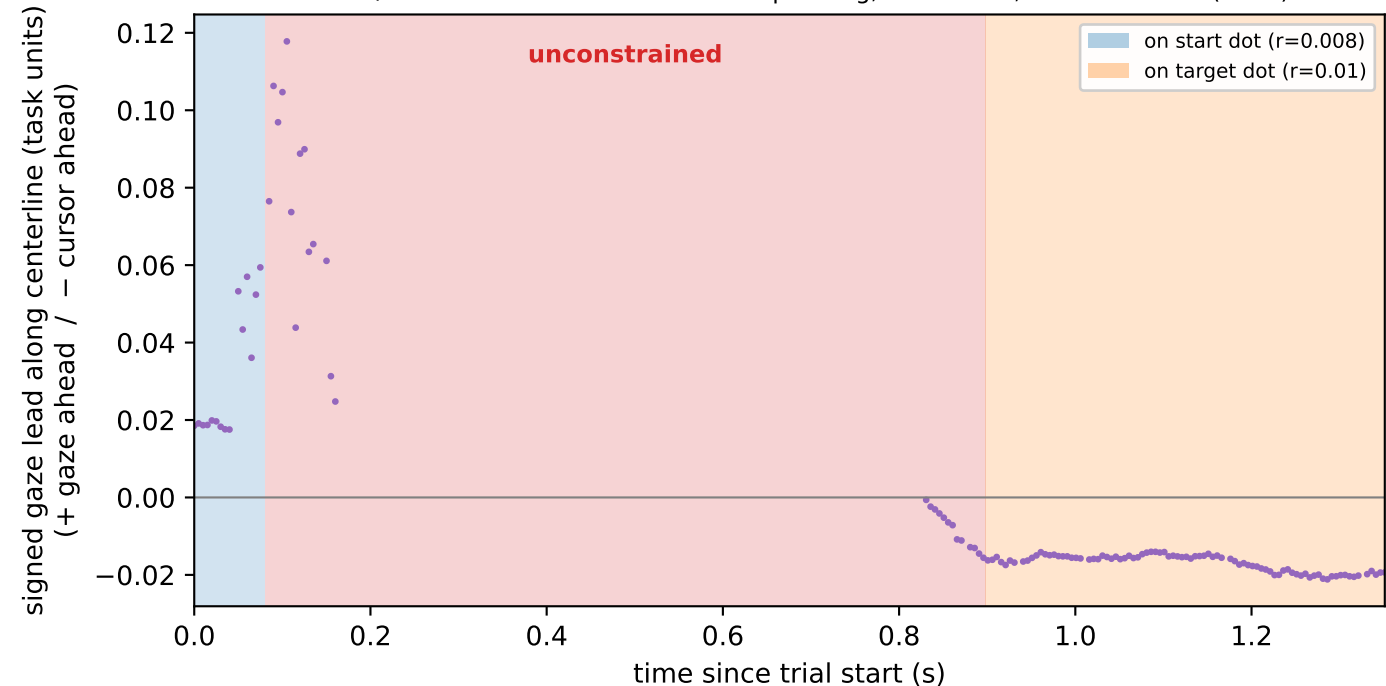

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

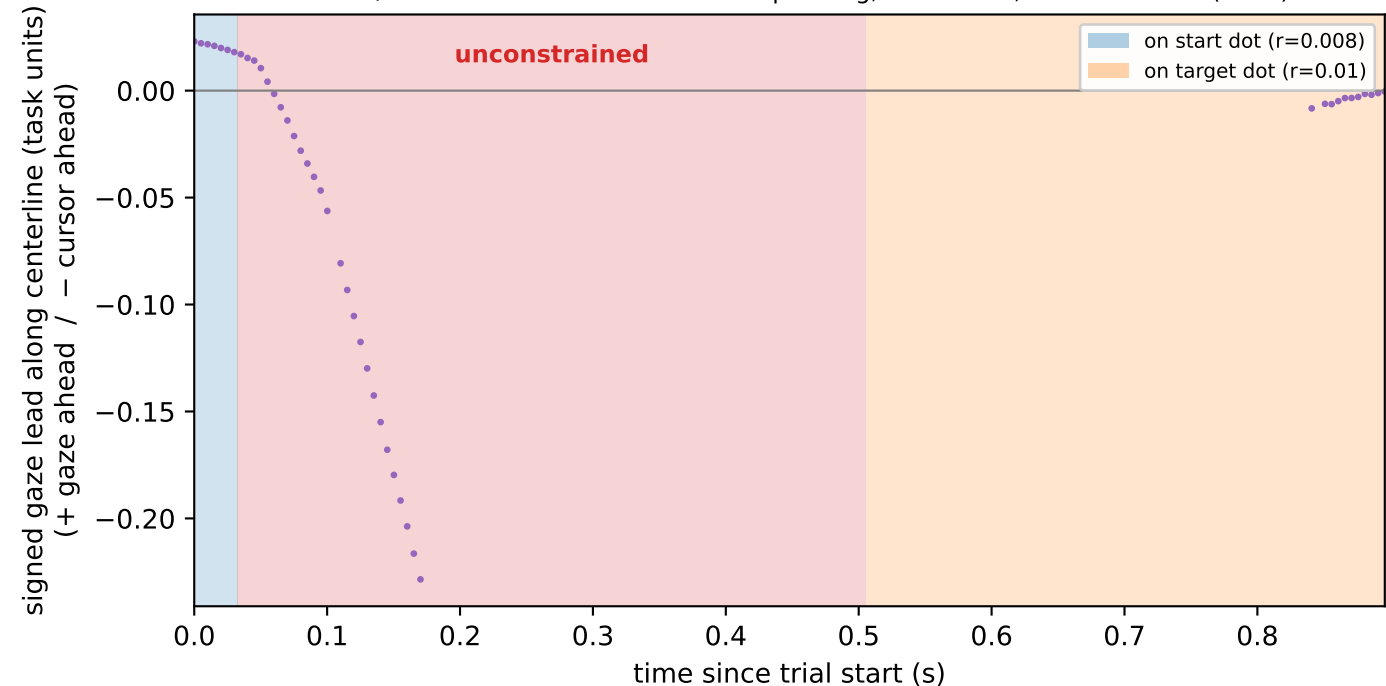

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

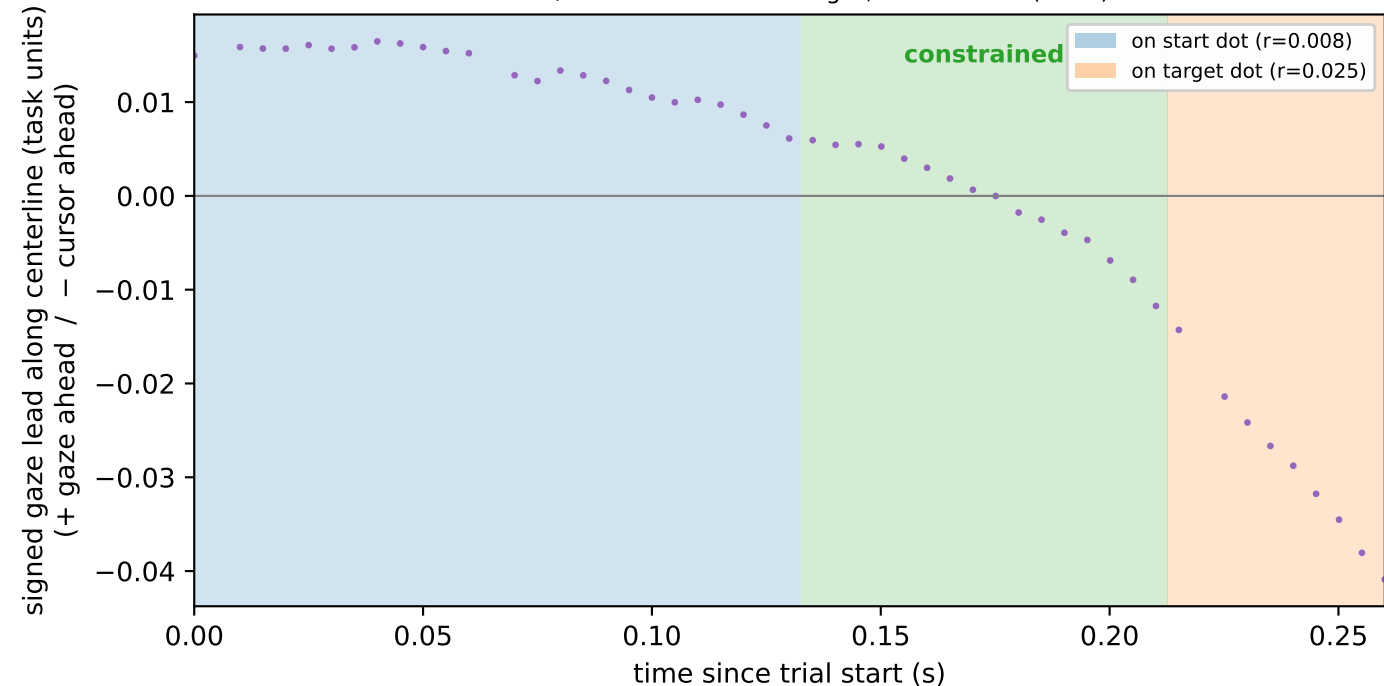

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

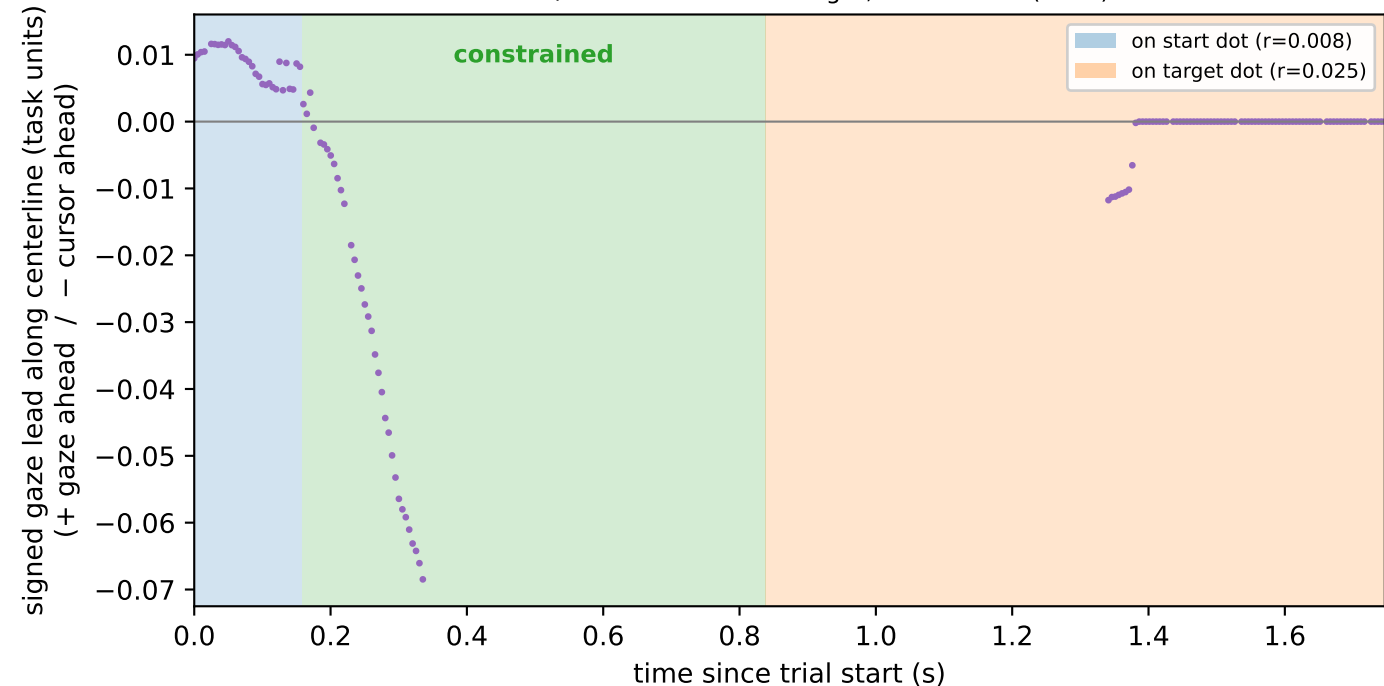

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 73/73 round 1 — straight, width 0.05 (id 15)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*
