

Trial 1/73 round 1 — unconstrained pointing, distance D, radius 15mm (id 54)

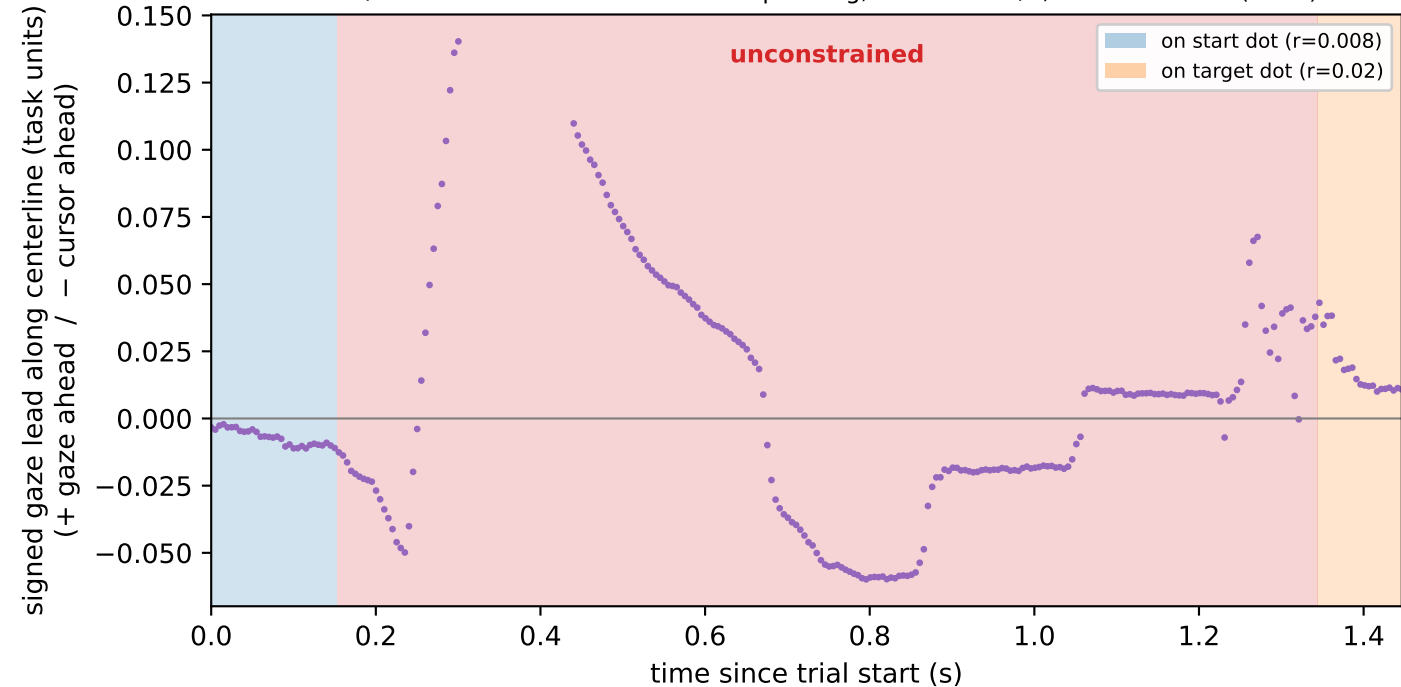

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

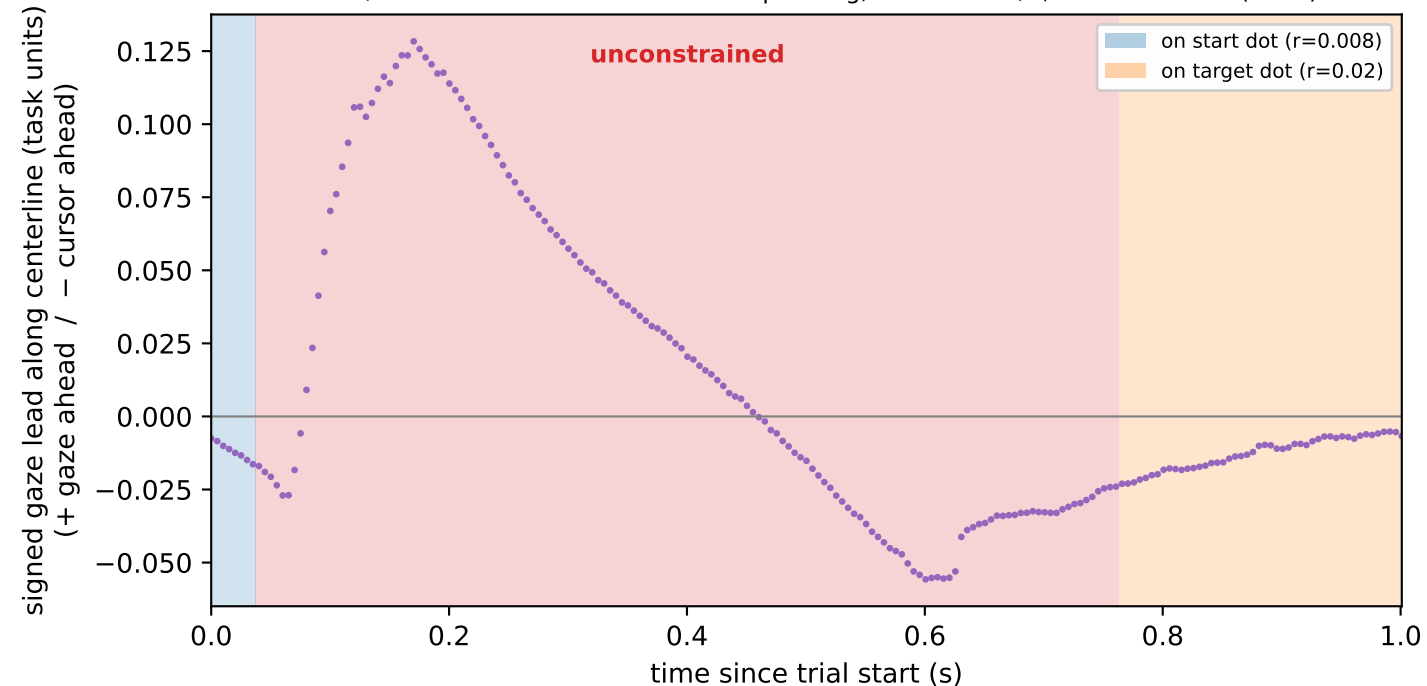

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

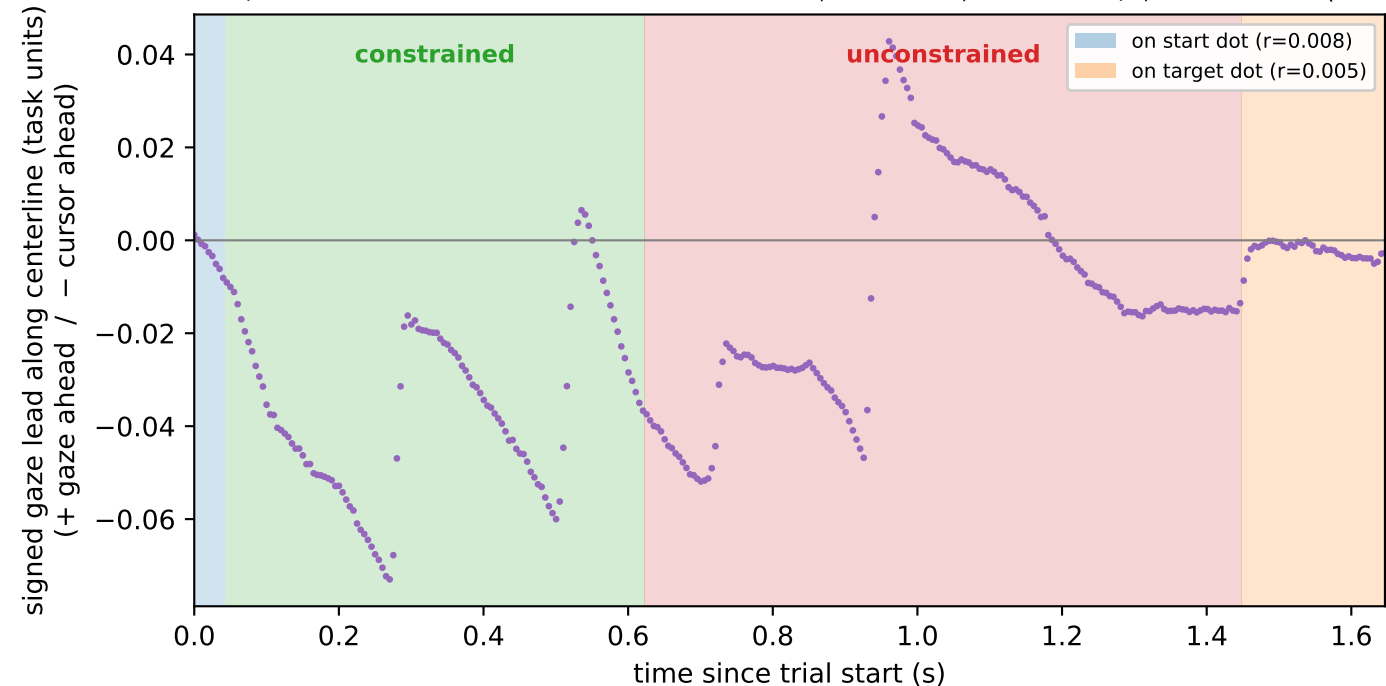

Trial 2/73 round 1 — unconstrained pointing, distance 2D/3, radius 20mm (id 50)

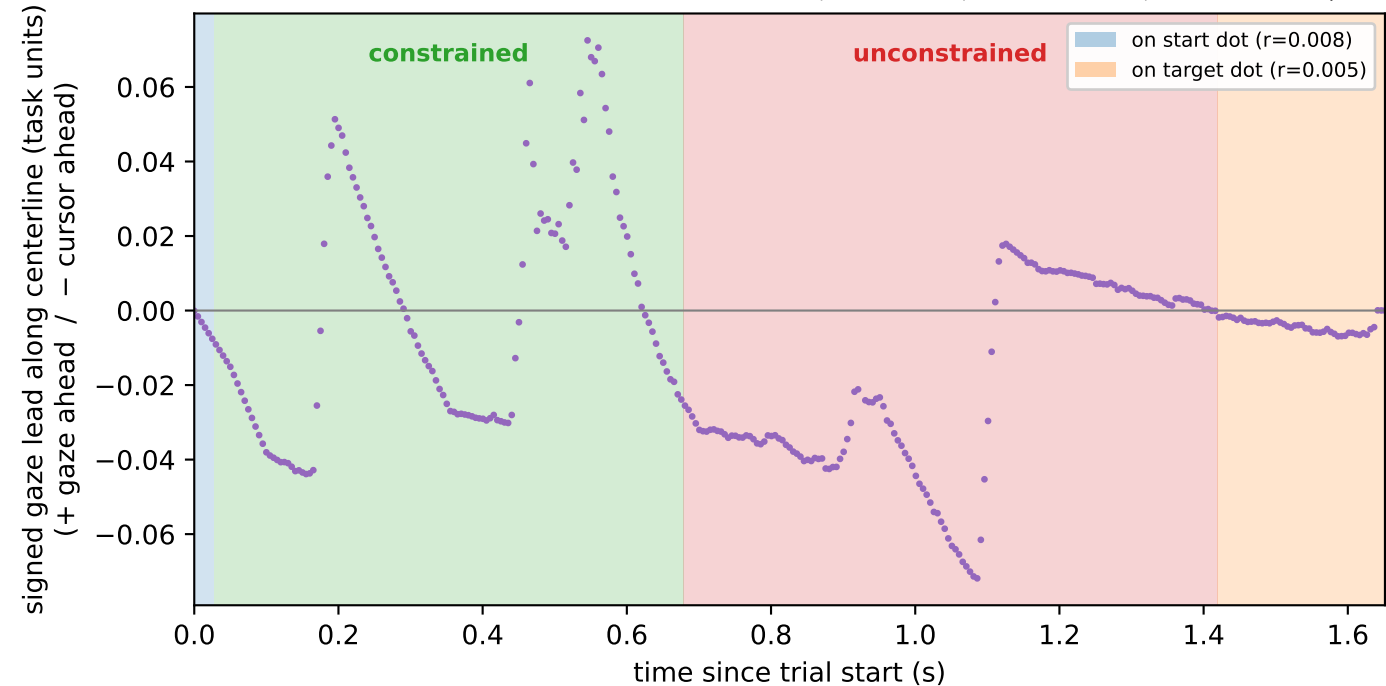

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

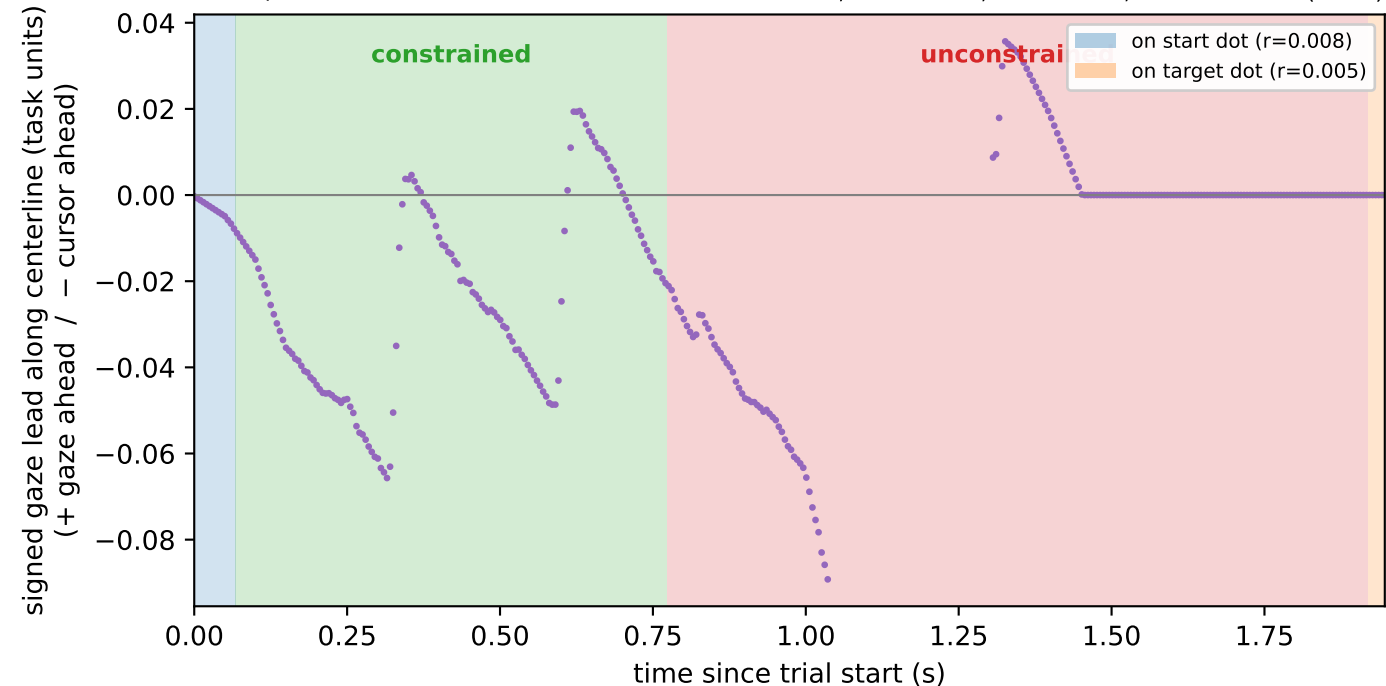

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

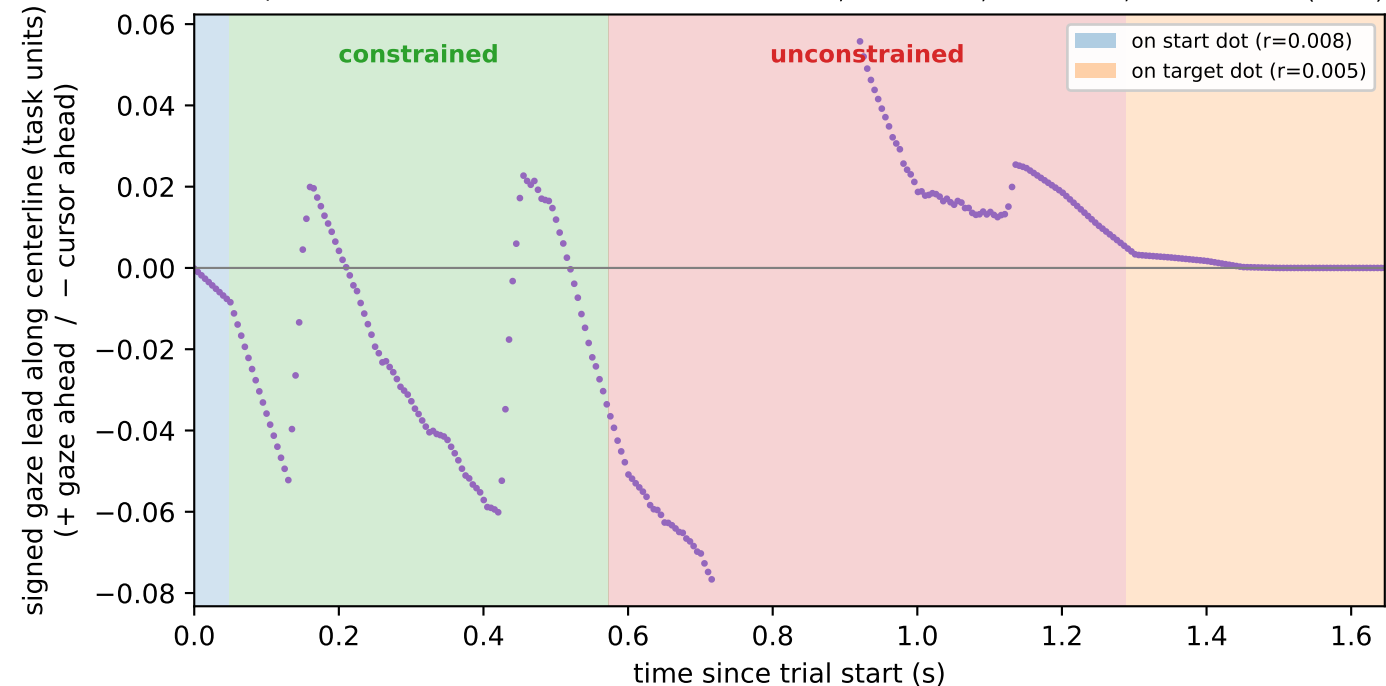

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

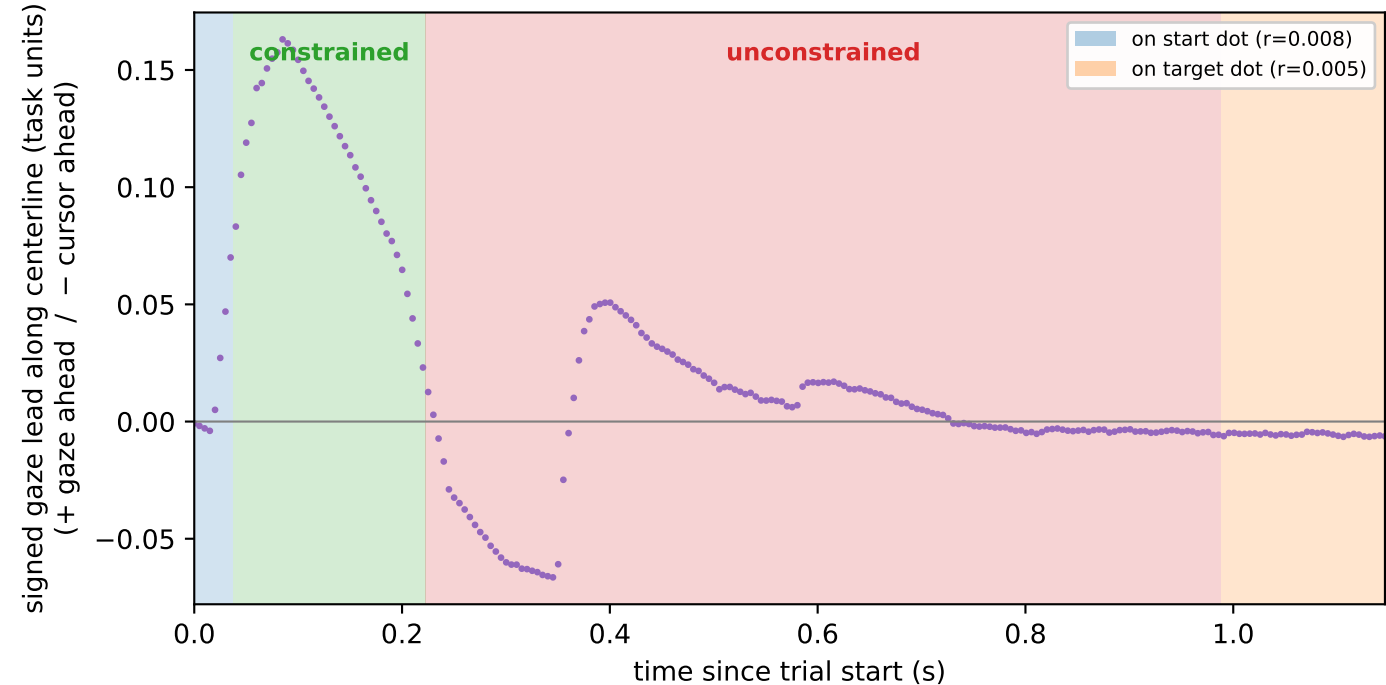

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

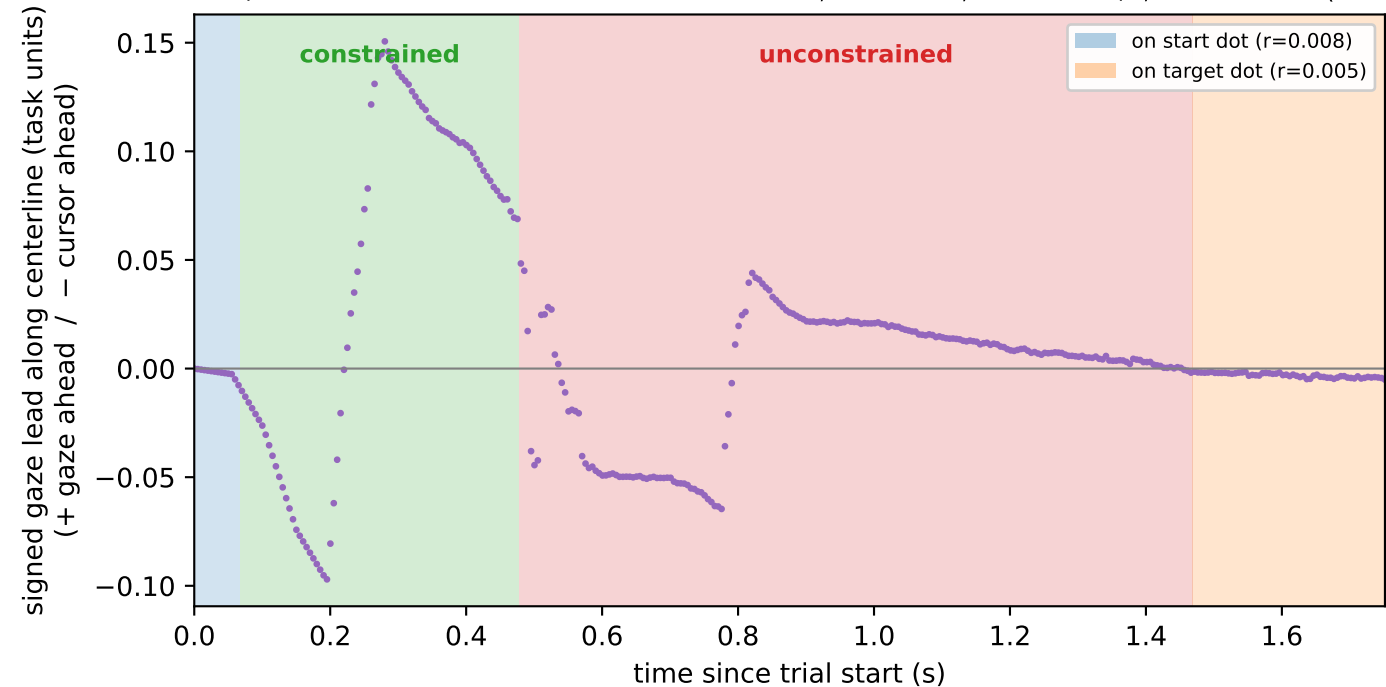

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

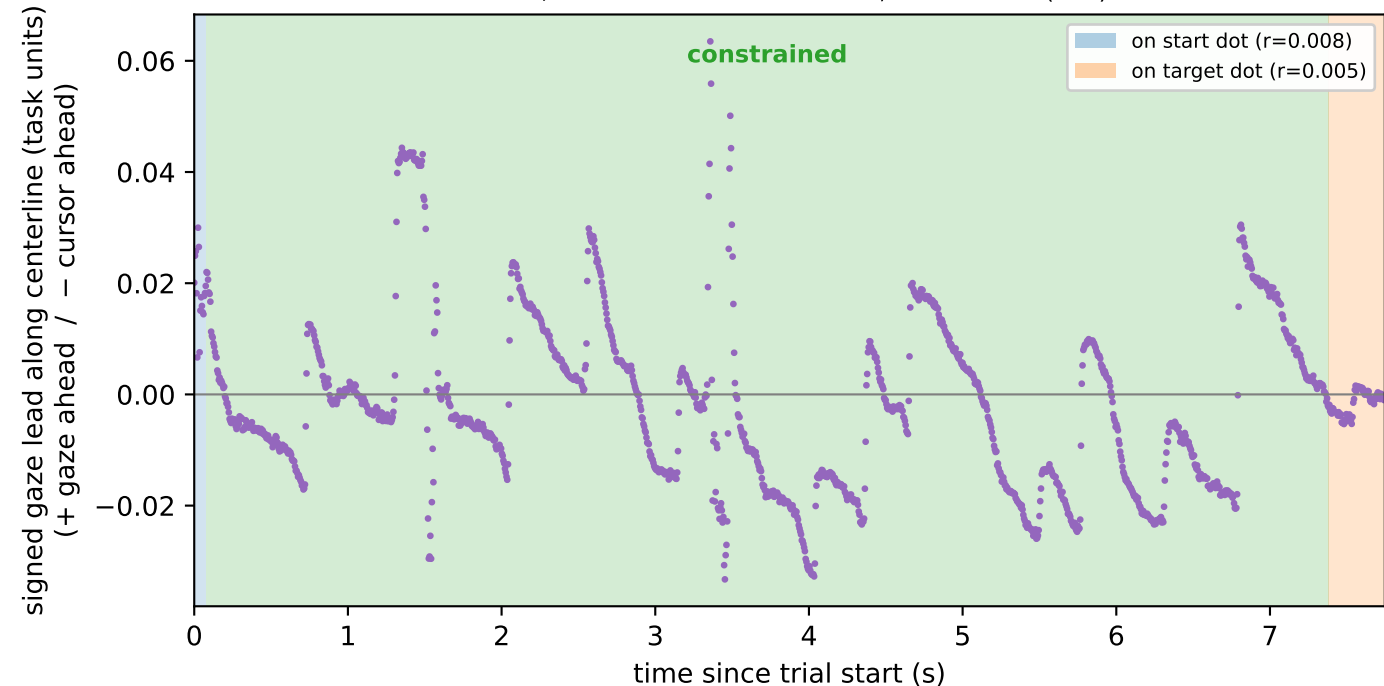

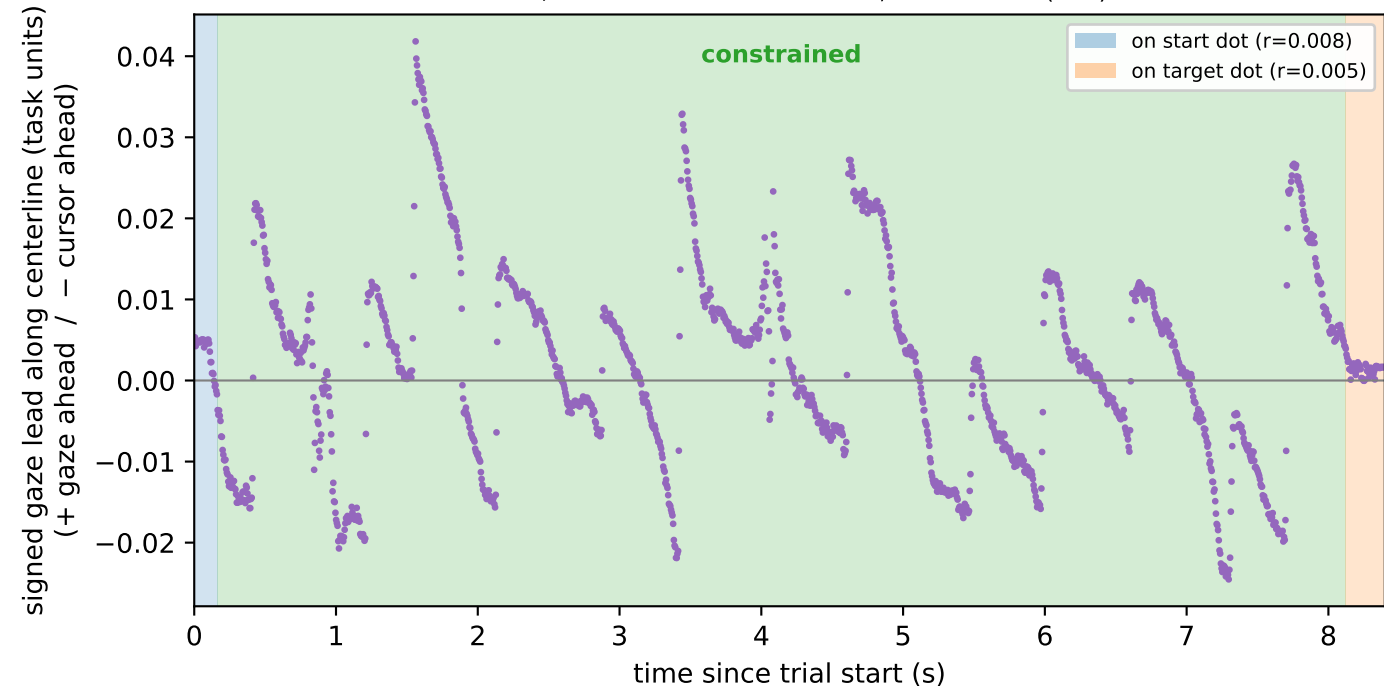

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

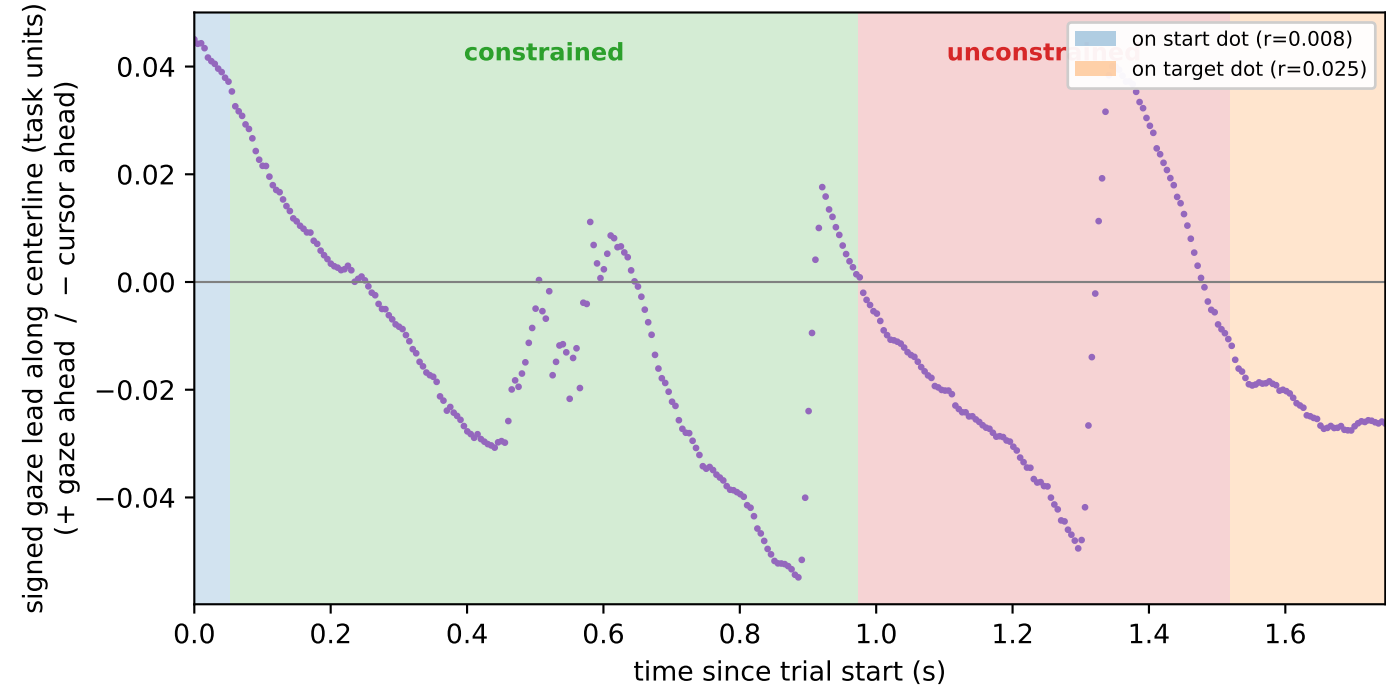

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

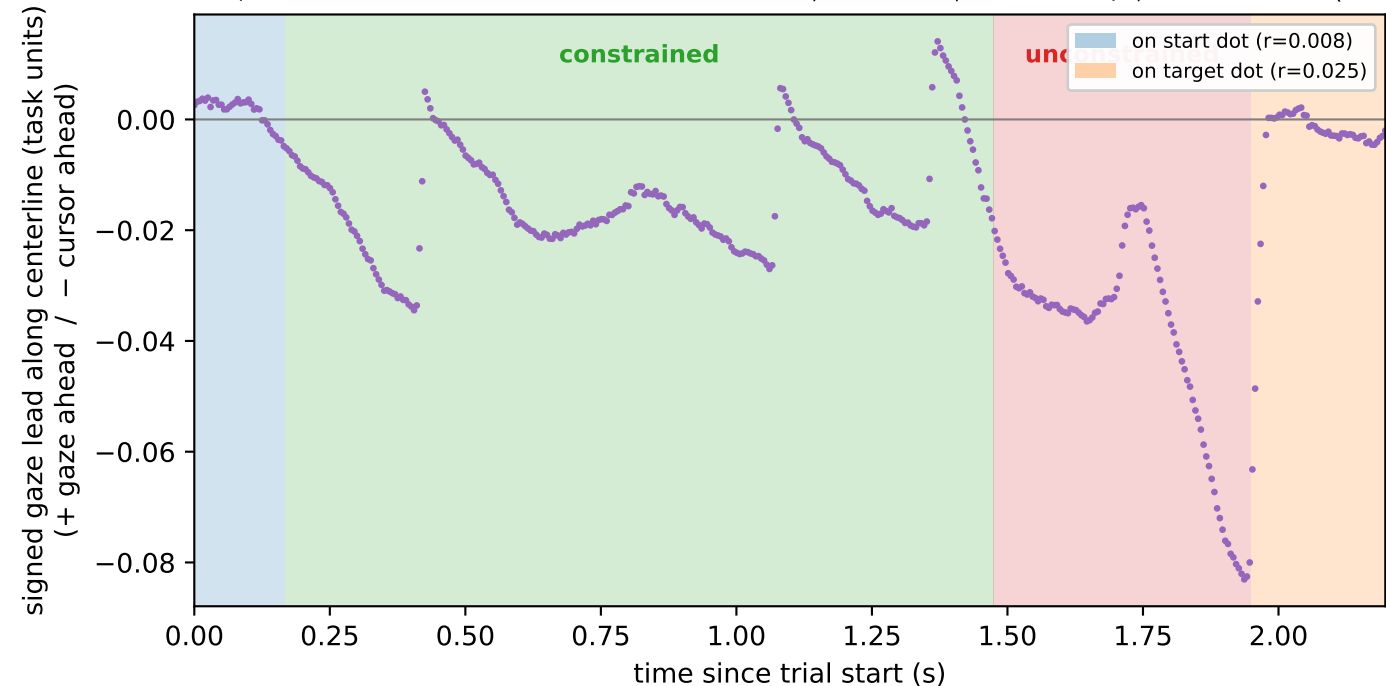

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

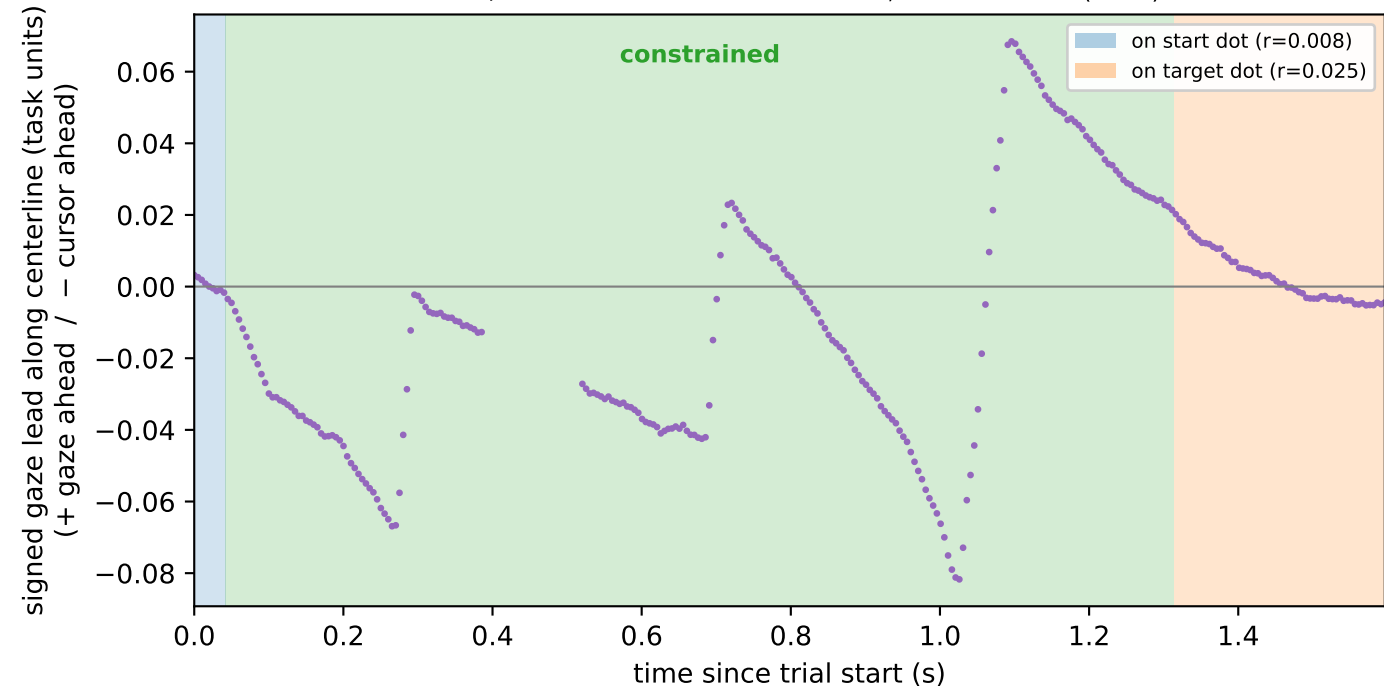

Trial 7/73 round 1 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 25mm (id 62)

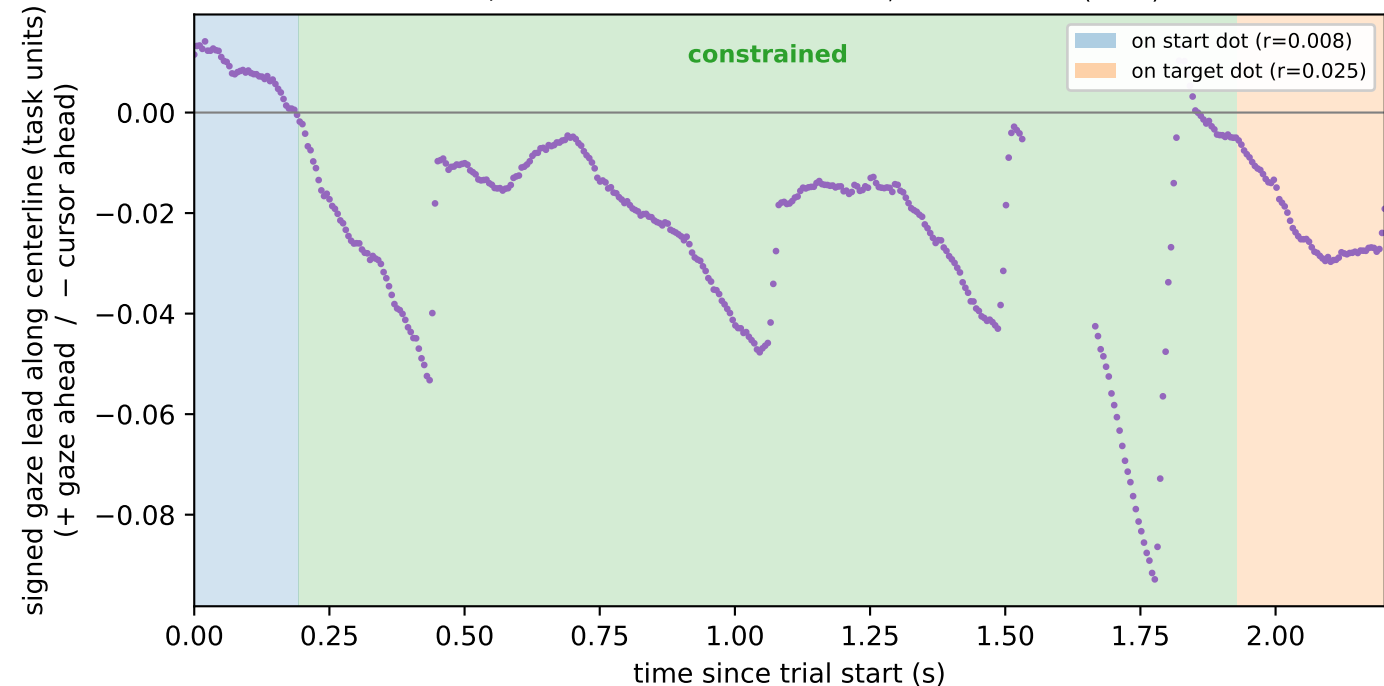

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

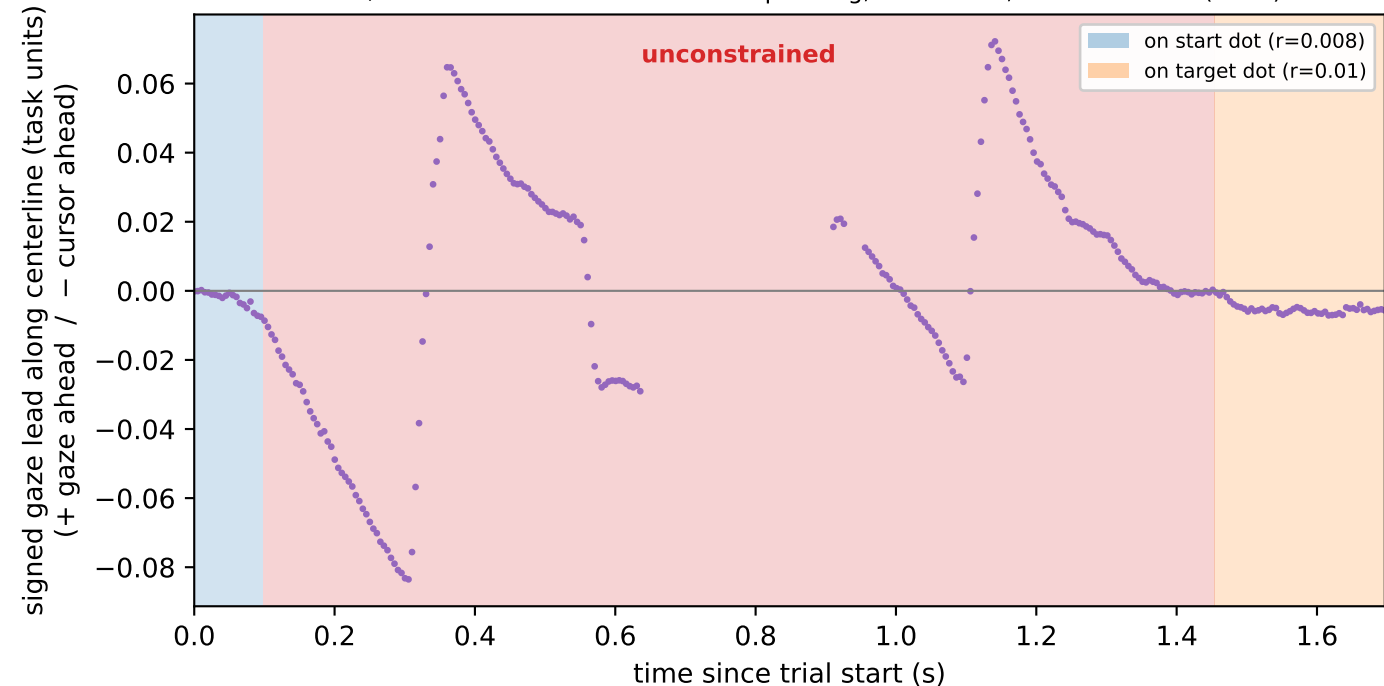

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

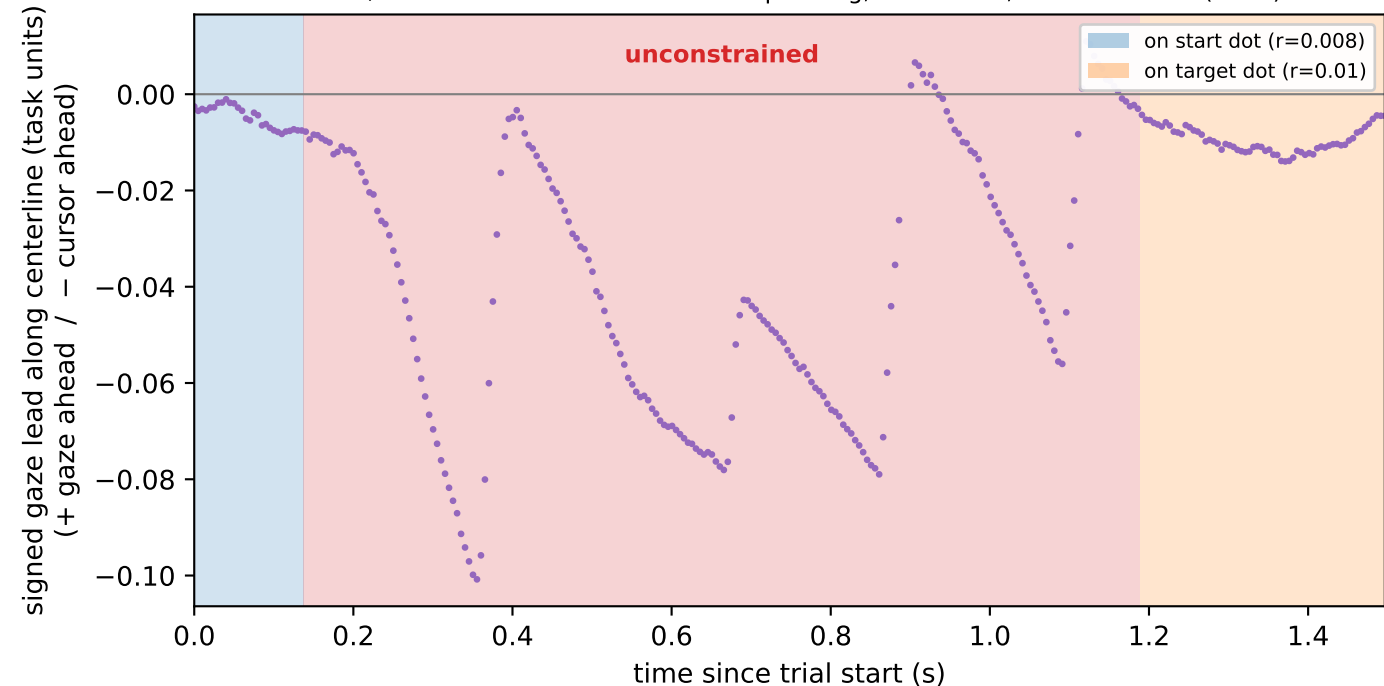

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

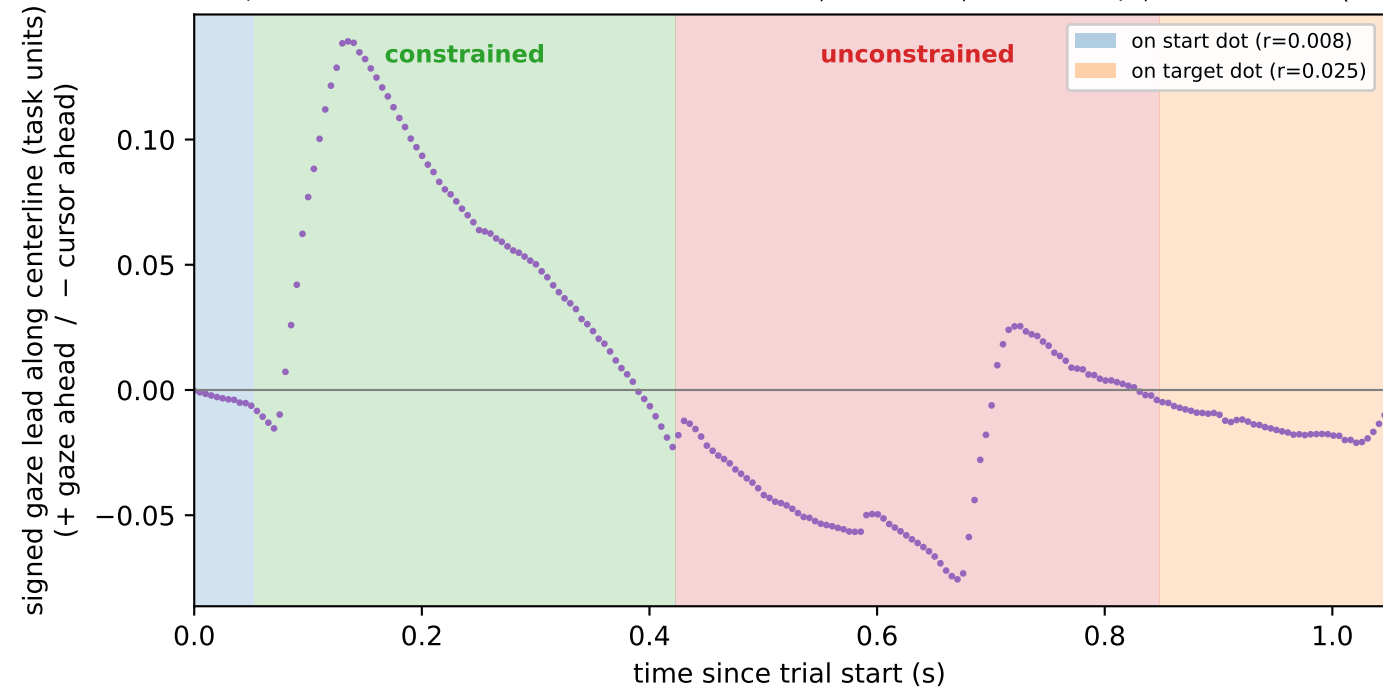

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

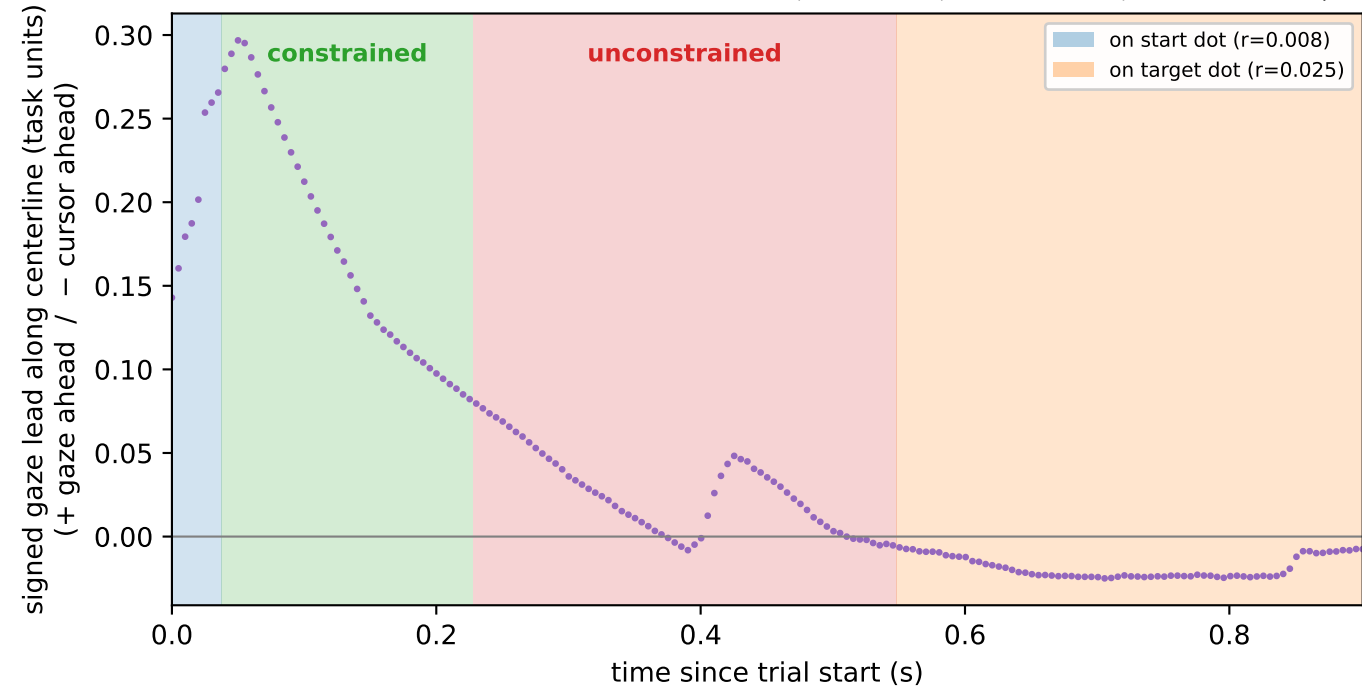

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

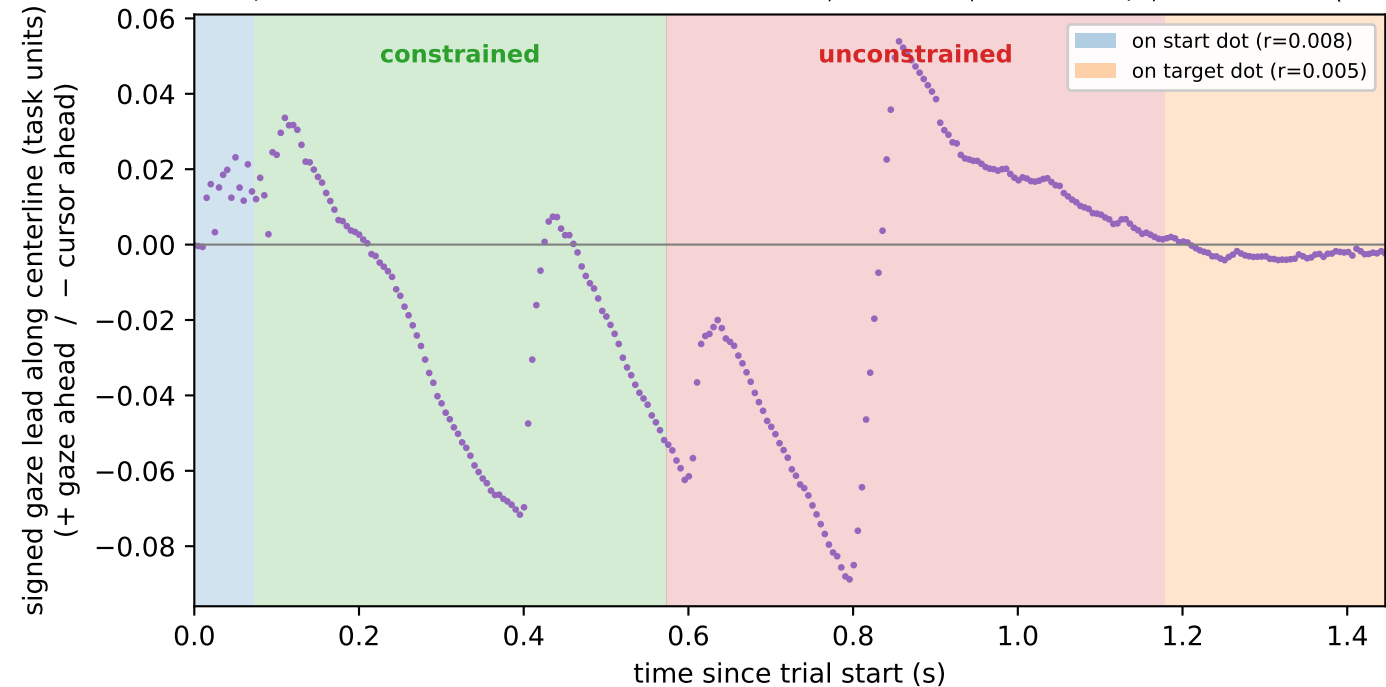

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

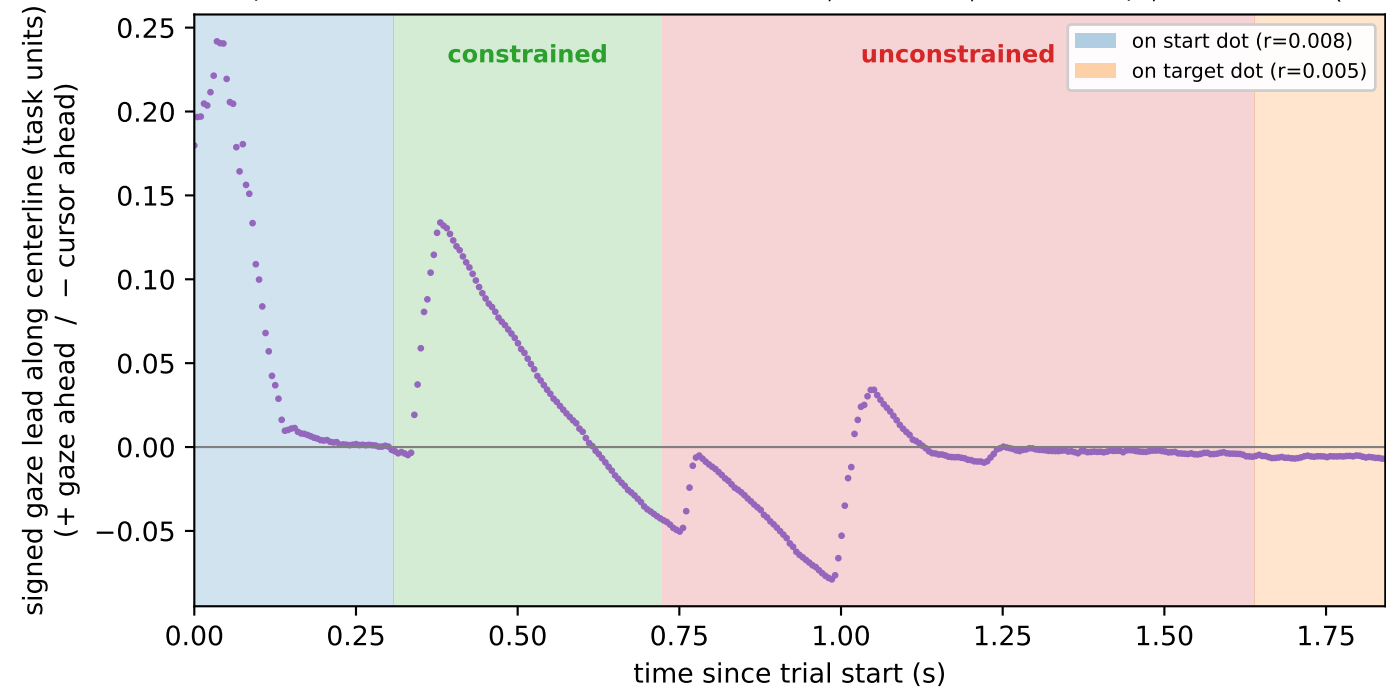

Trial 10/73 round 2 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 25mm (id 71)

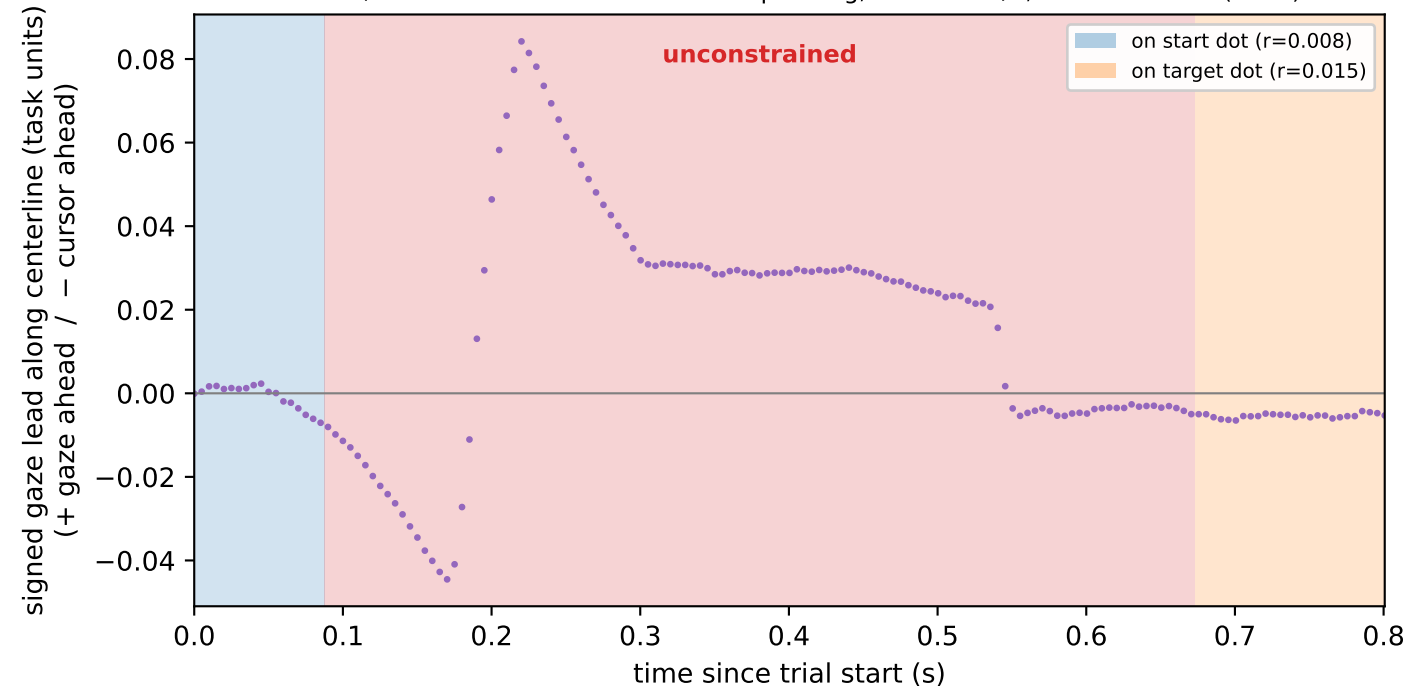

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

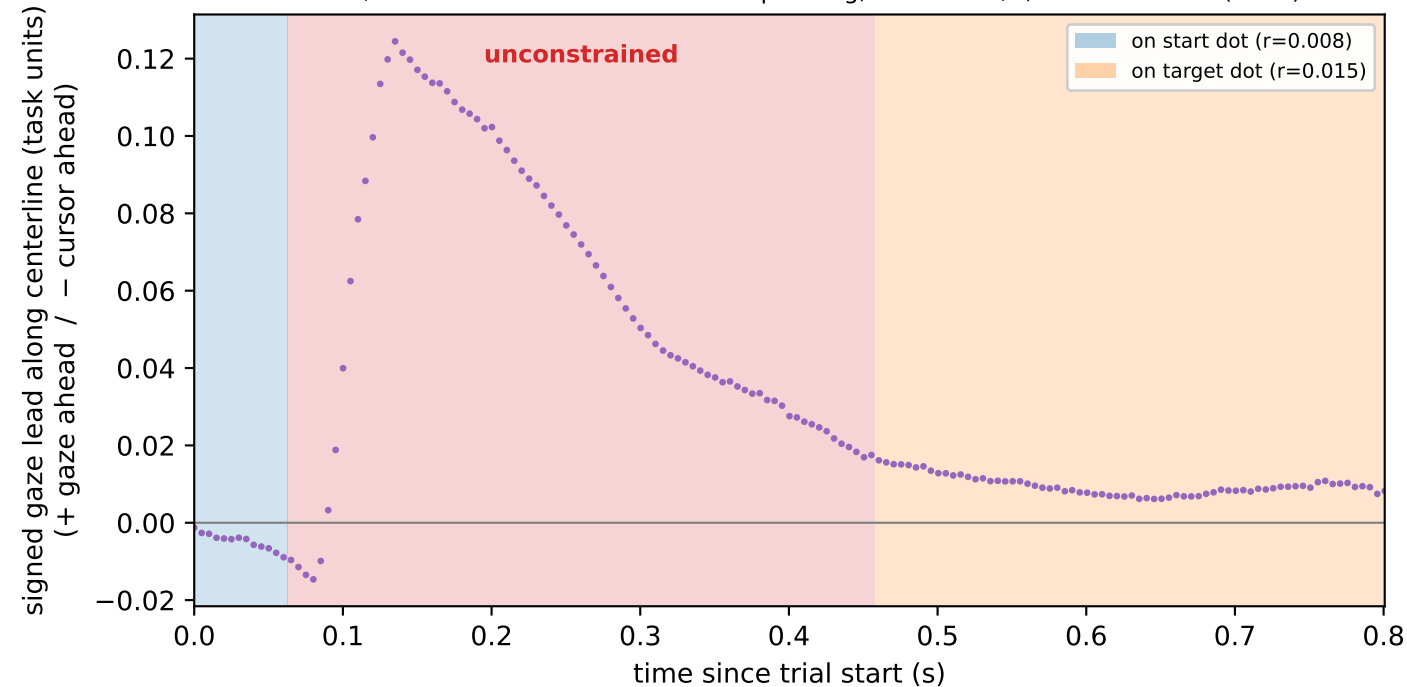

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

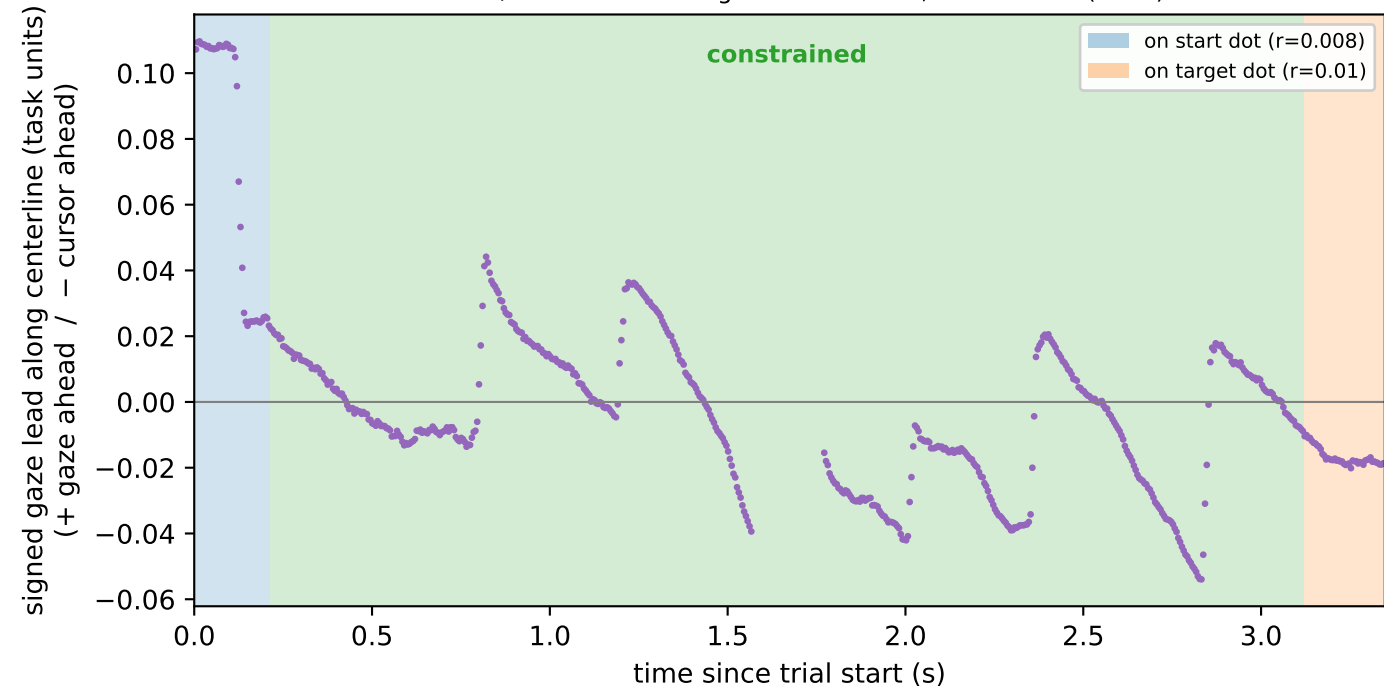

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

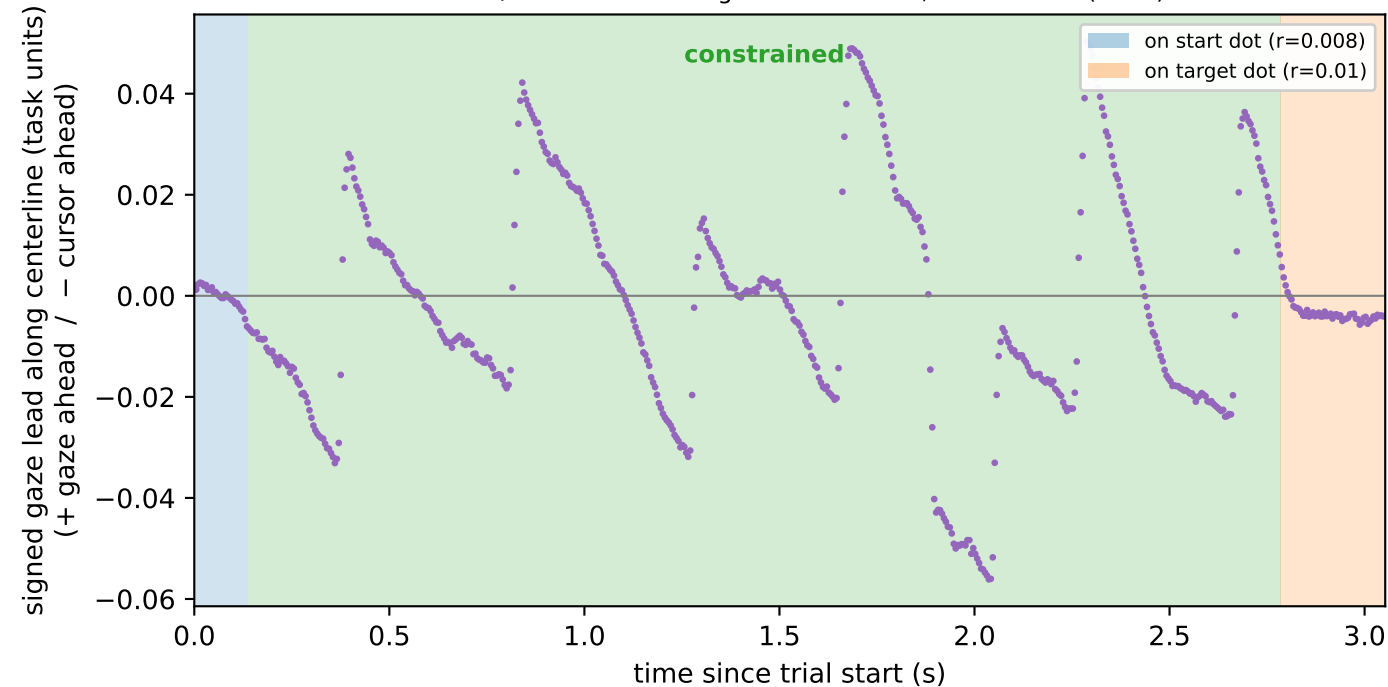

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

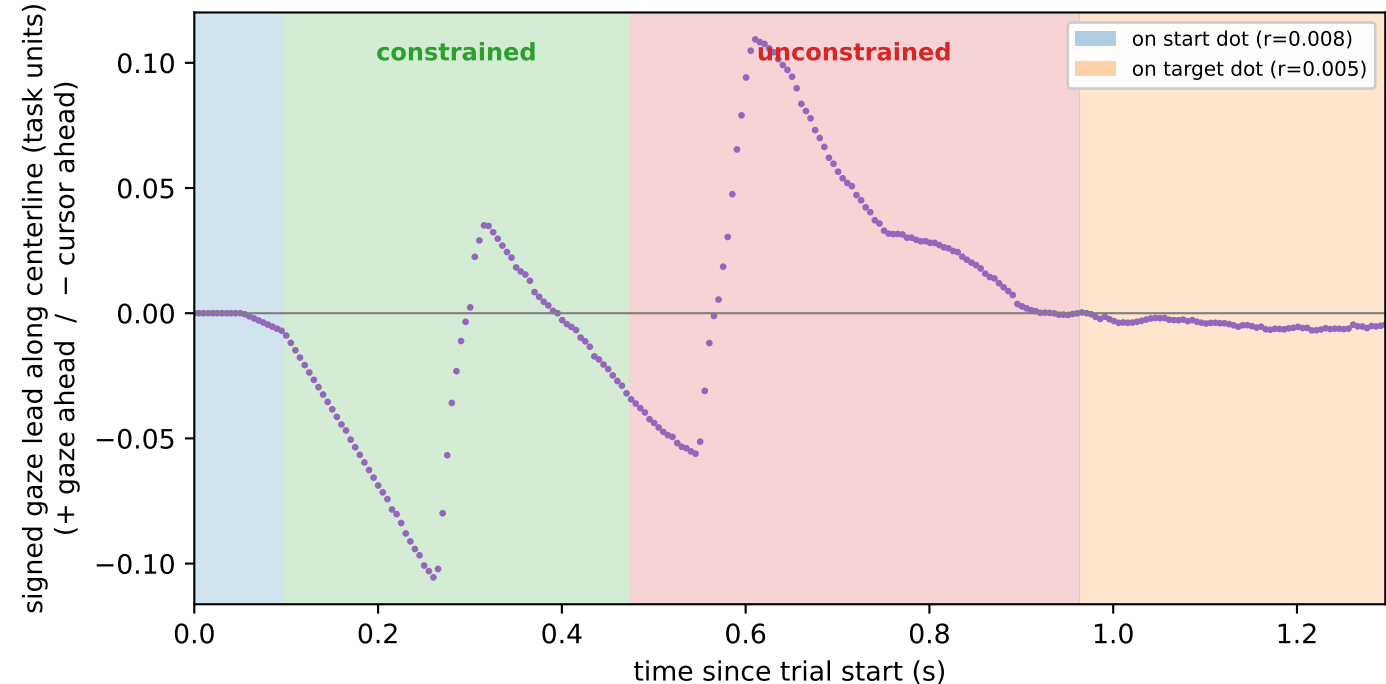

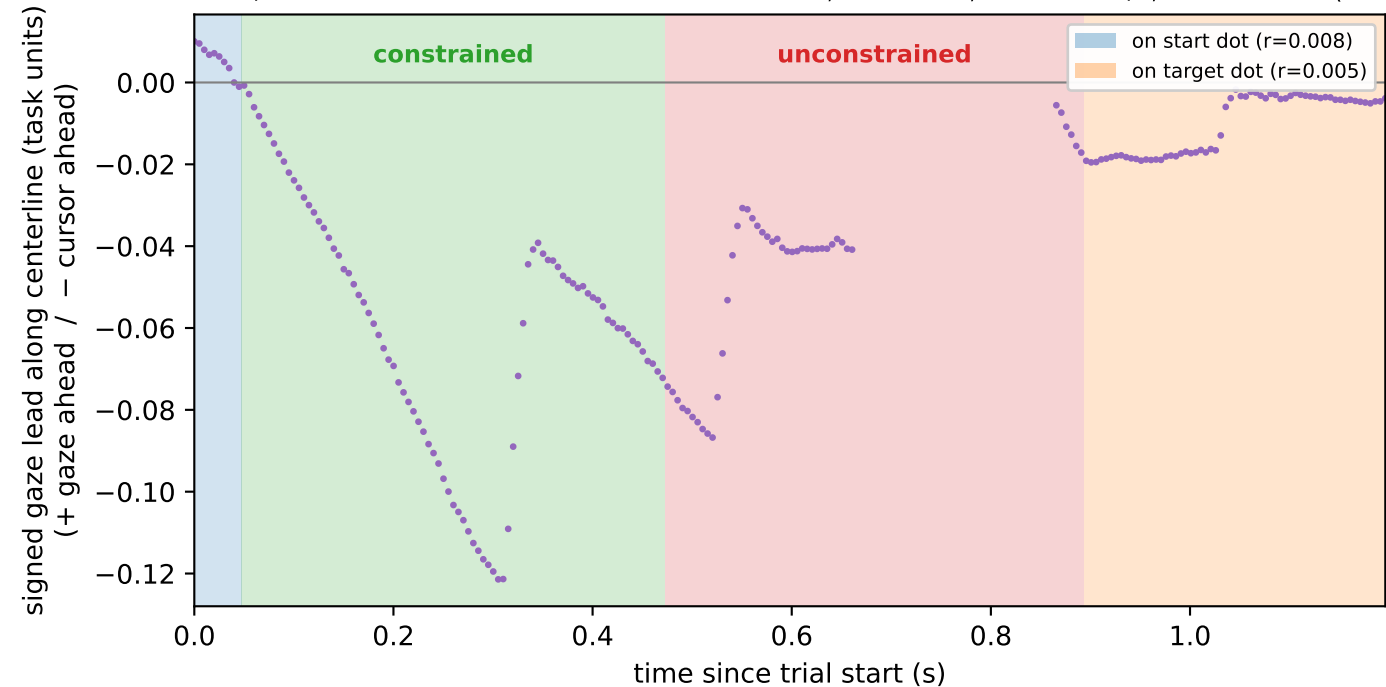

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

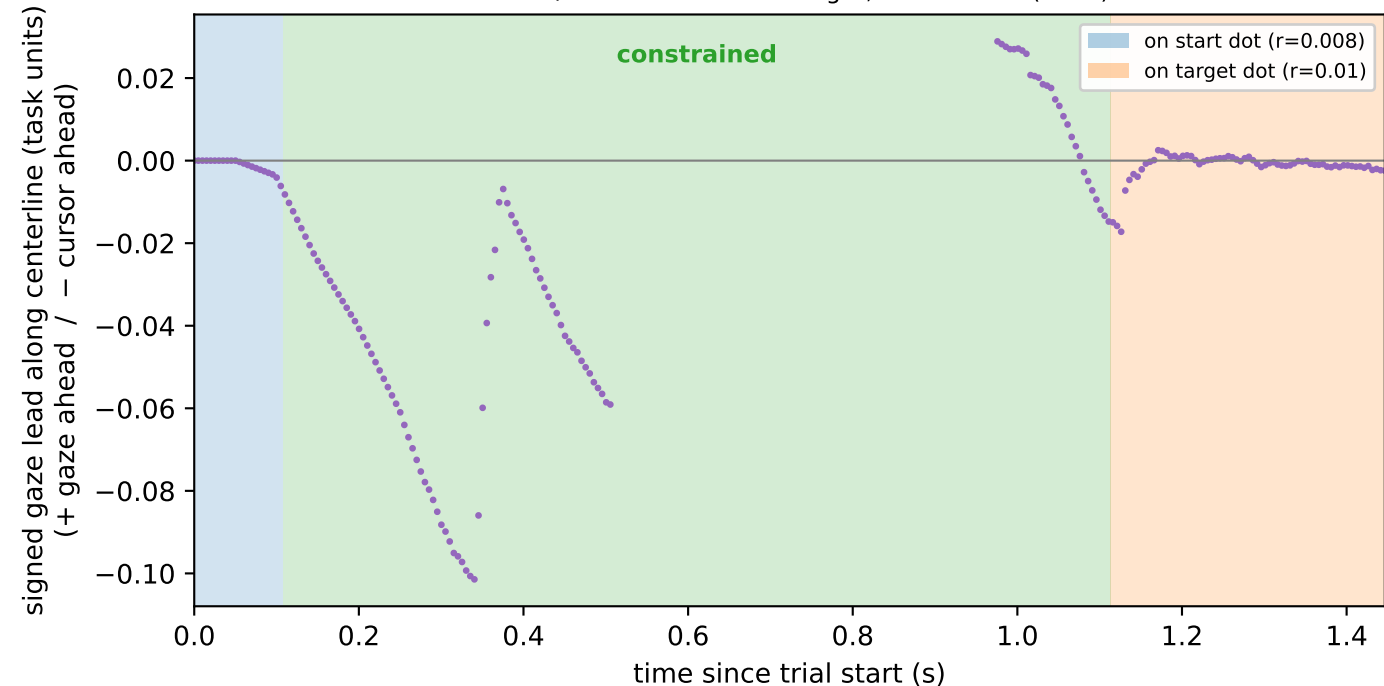

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

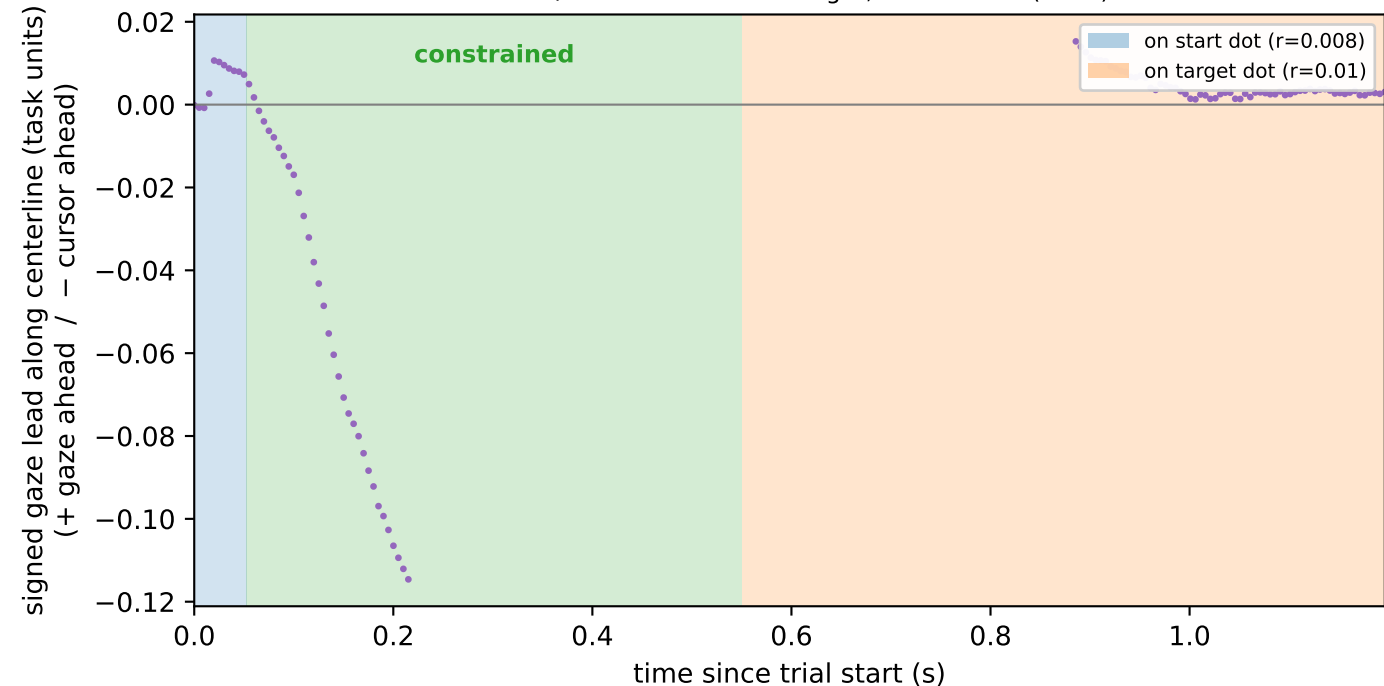

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

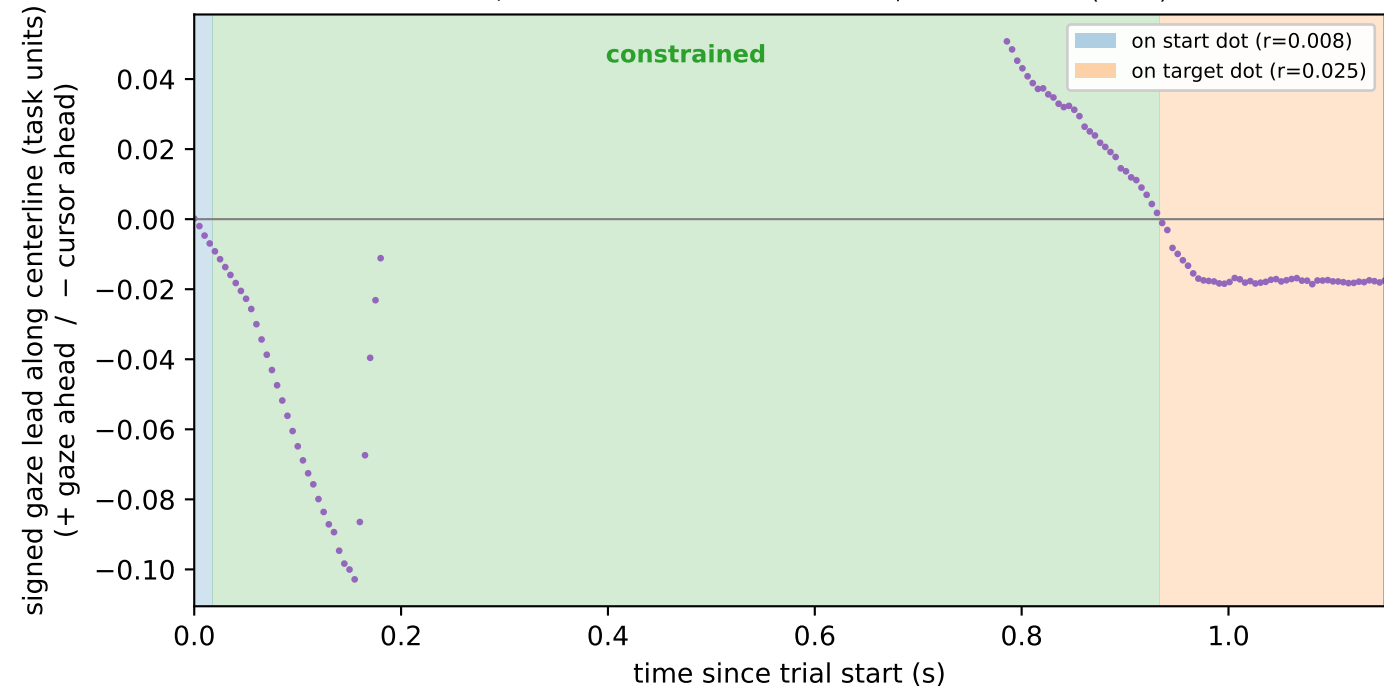

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

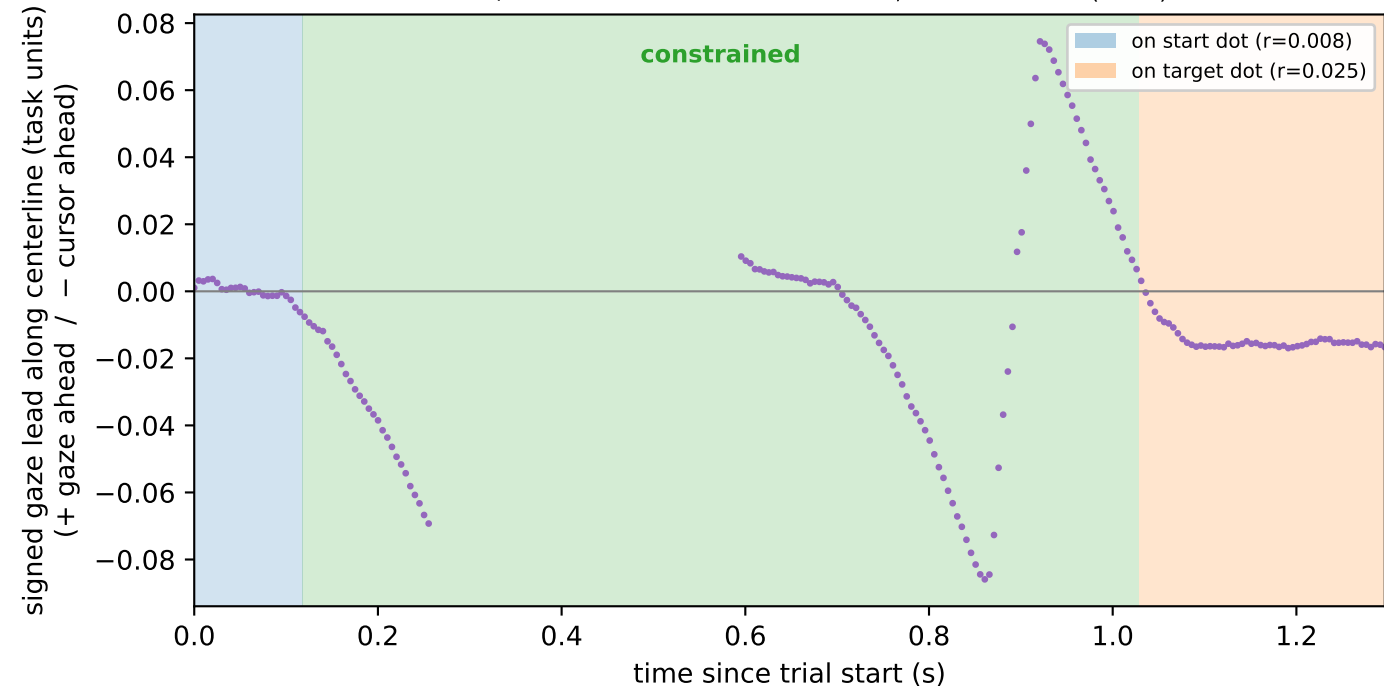

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

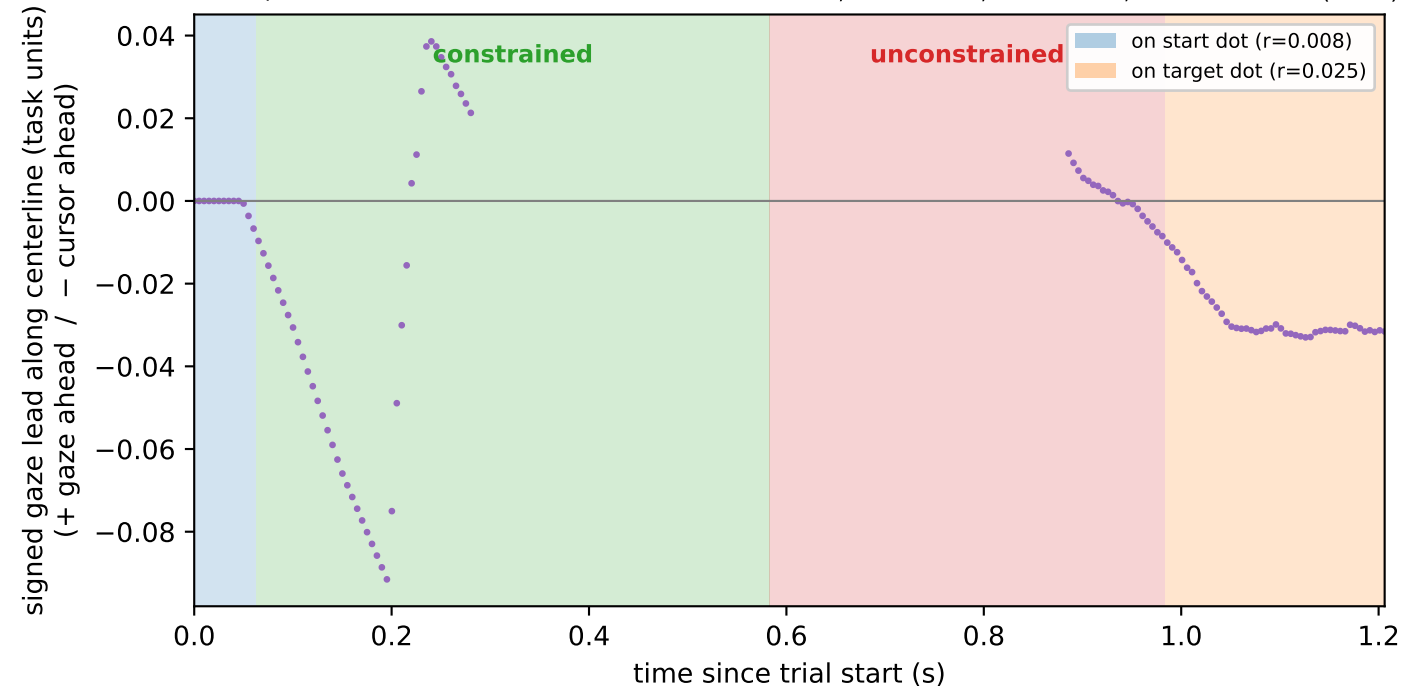

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

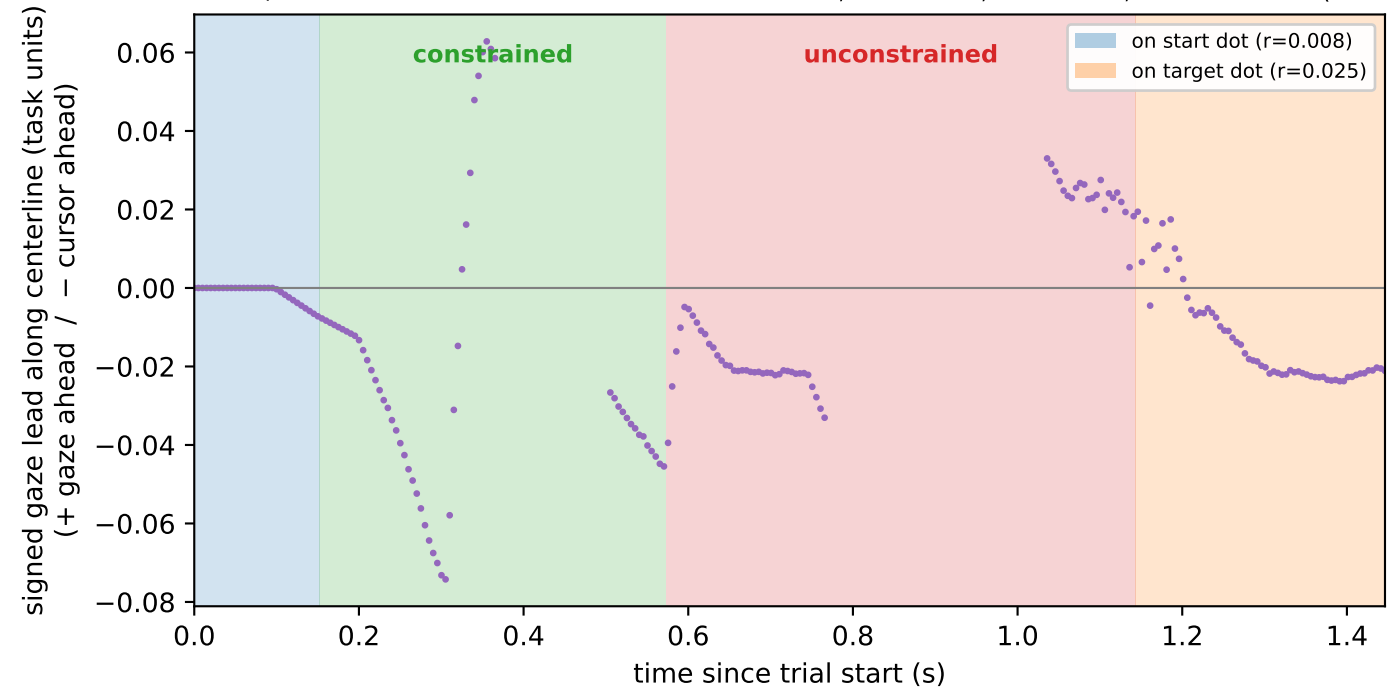

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

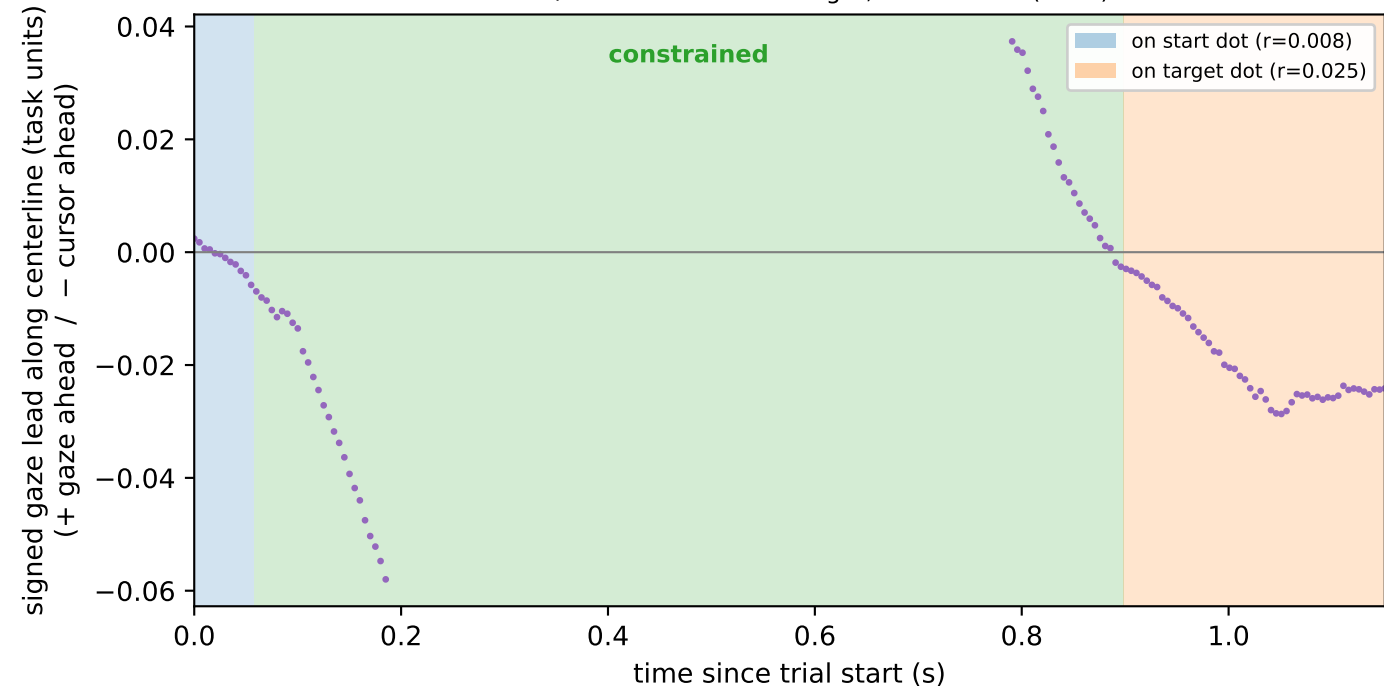

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

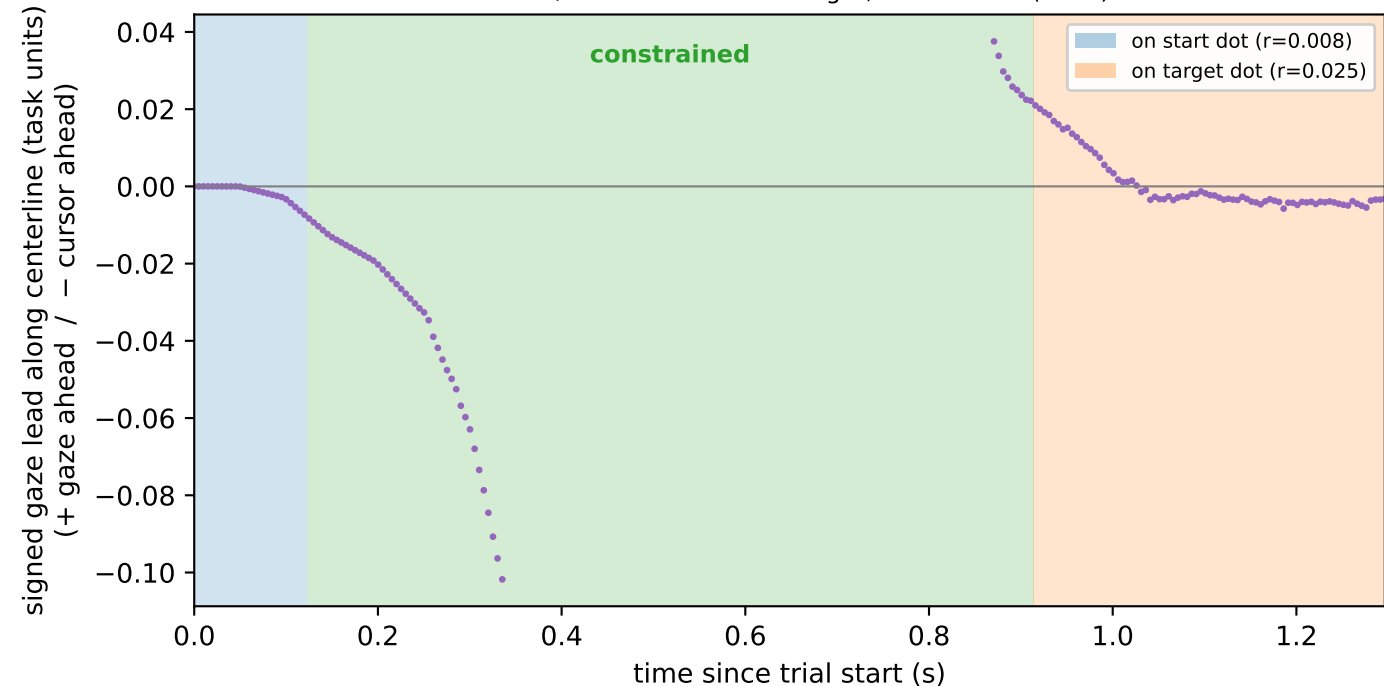

Trial 17/73 round 2 — constrained-to-unconstrained, width 0.03, distance D, radius 25mm (id 74)

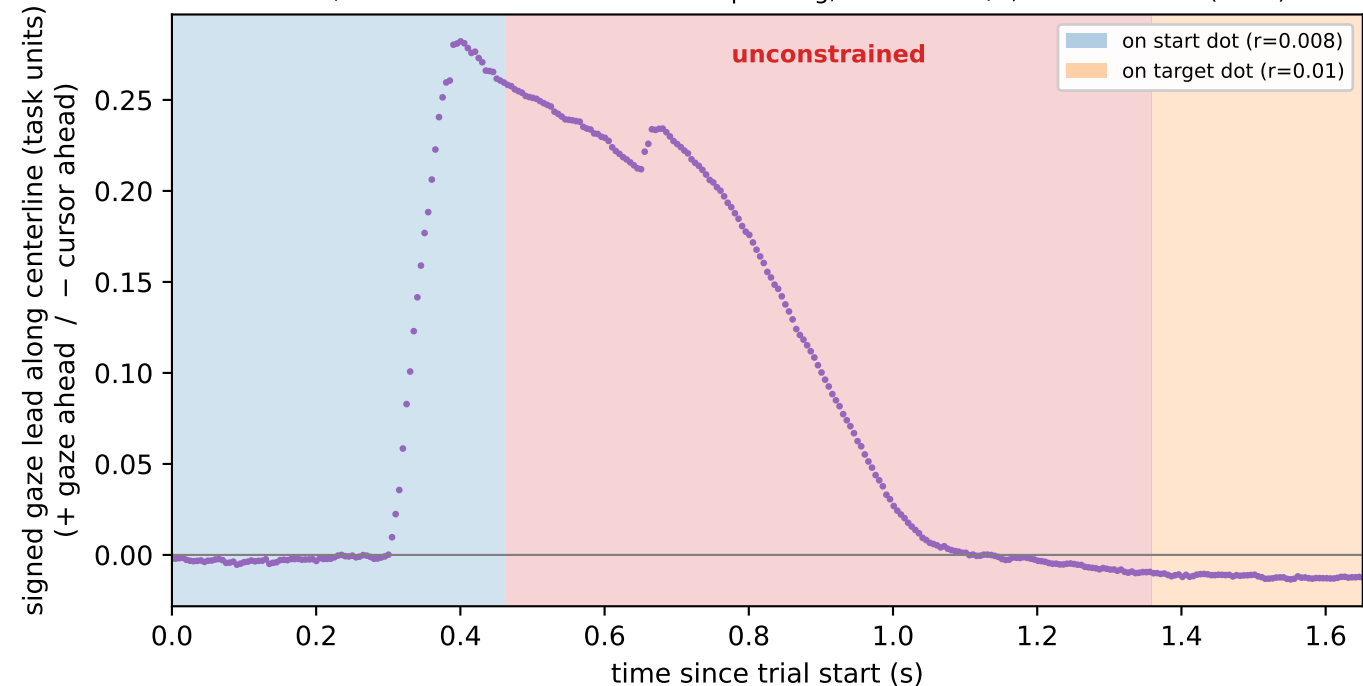

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

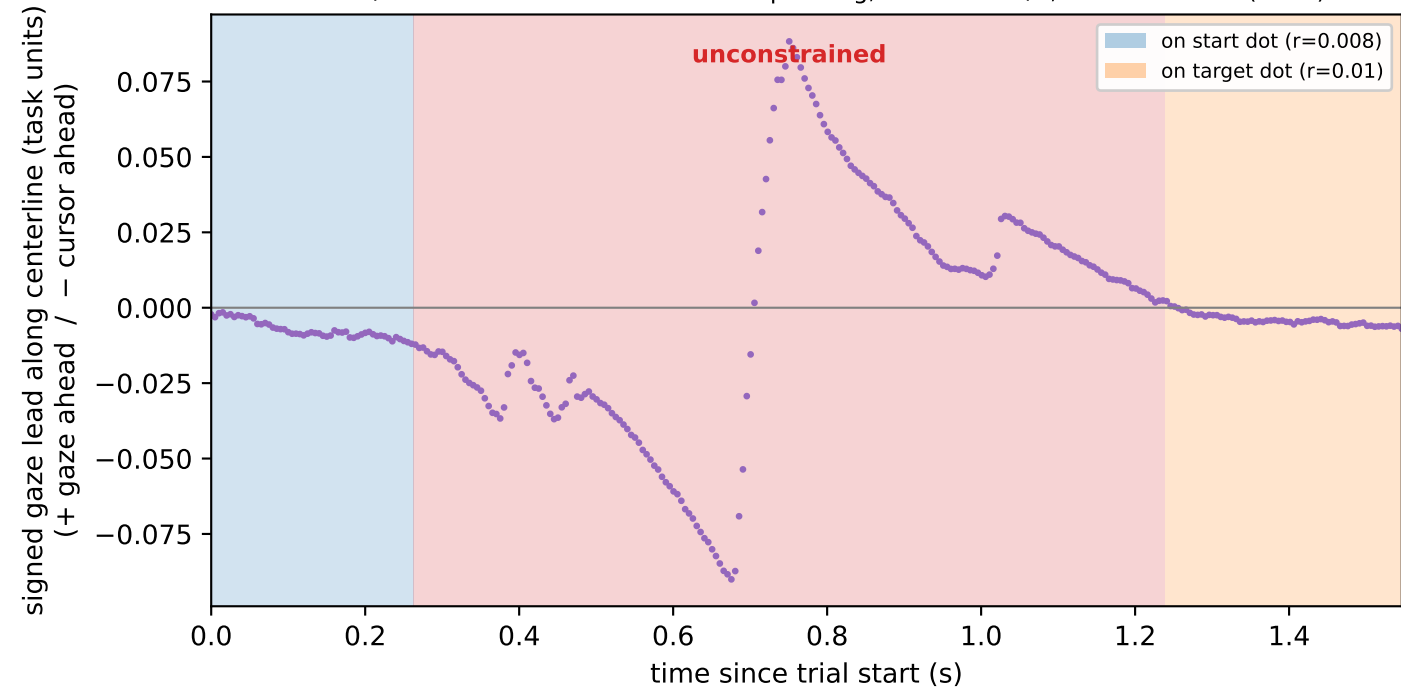

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

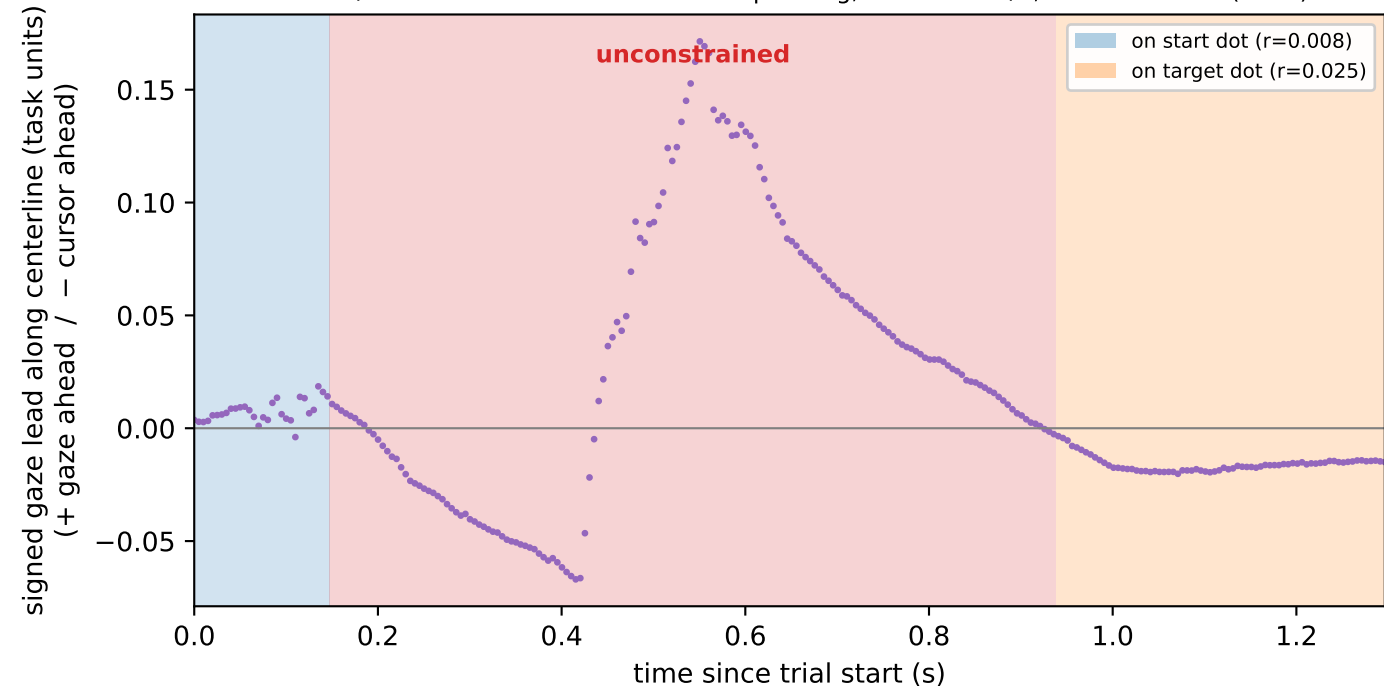

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

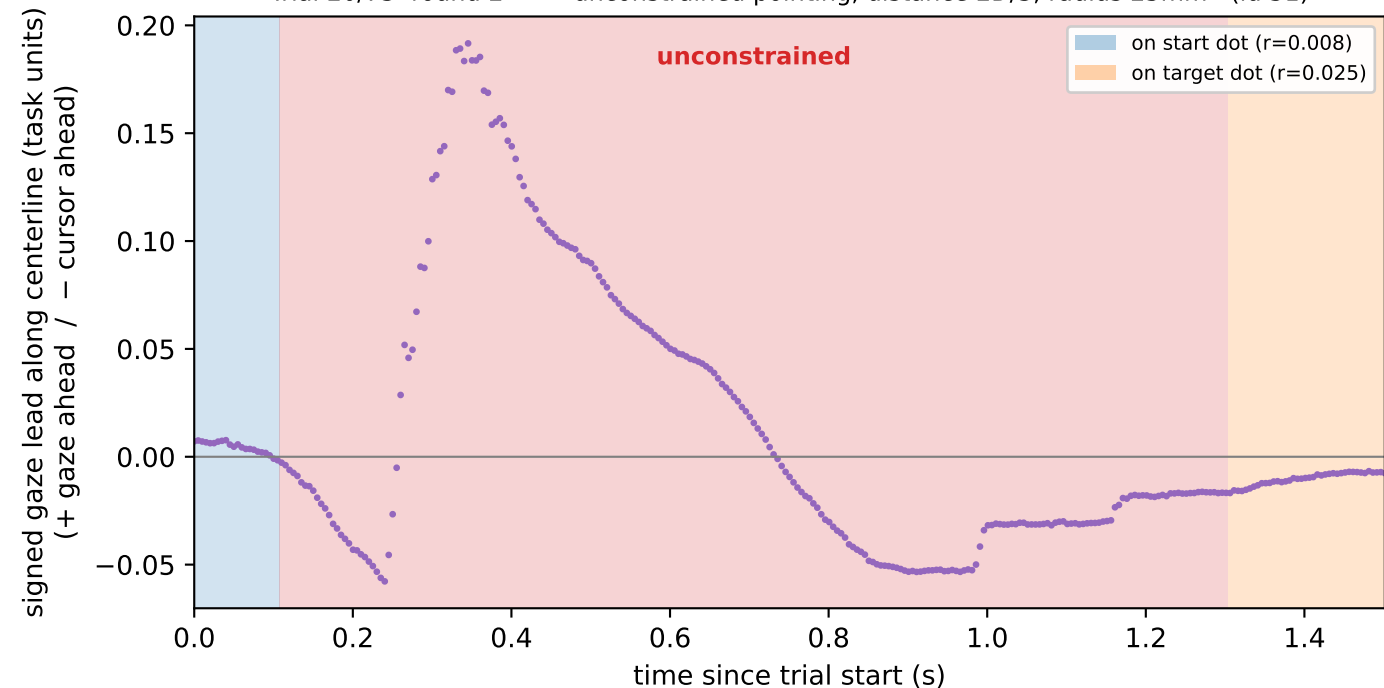

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 20/73 round 1 — unconstrained pointing, distance 2D/3, radius 25mm (id 51)

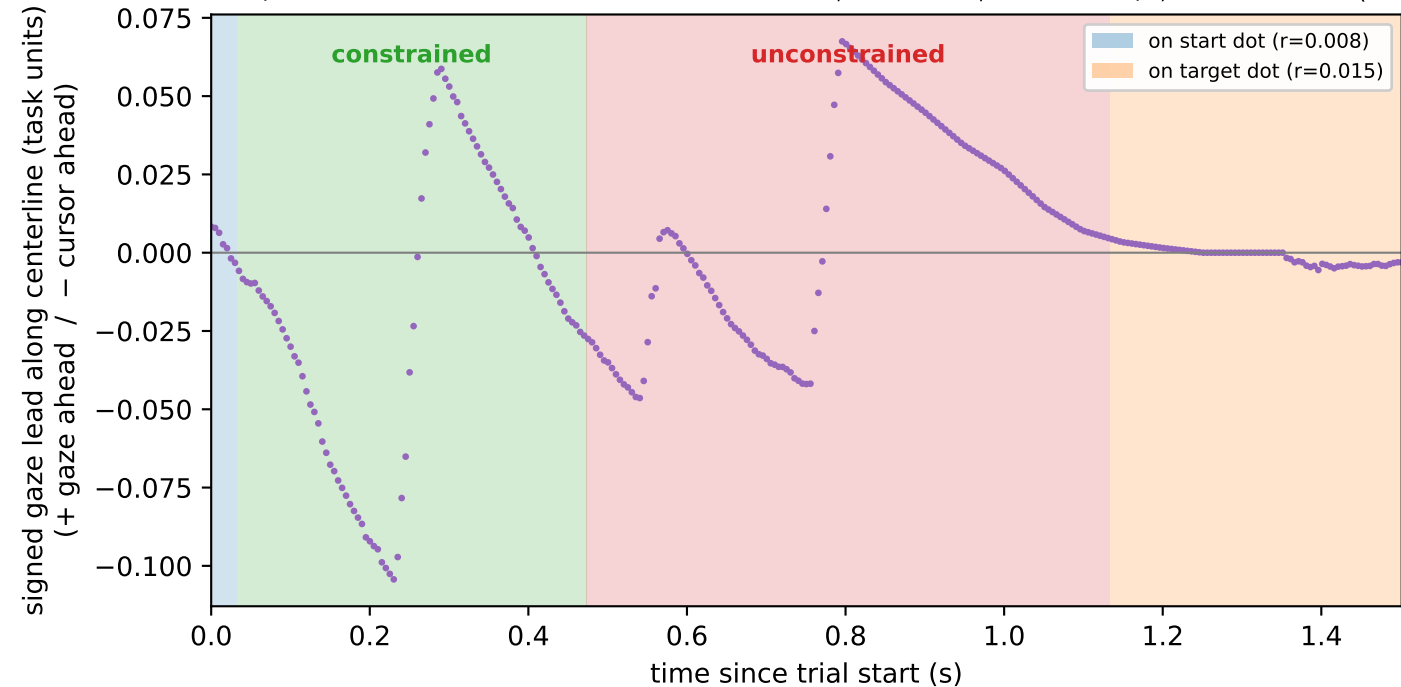

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 20/73 round 2 — unconstrained pointing, distance 2D/3, radius 25mm (id 51)

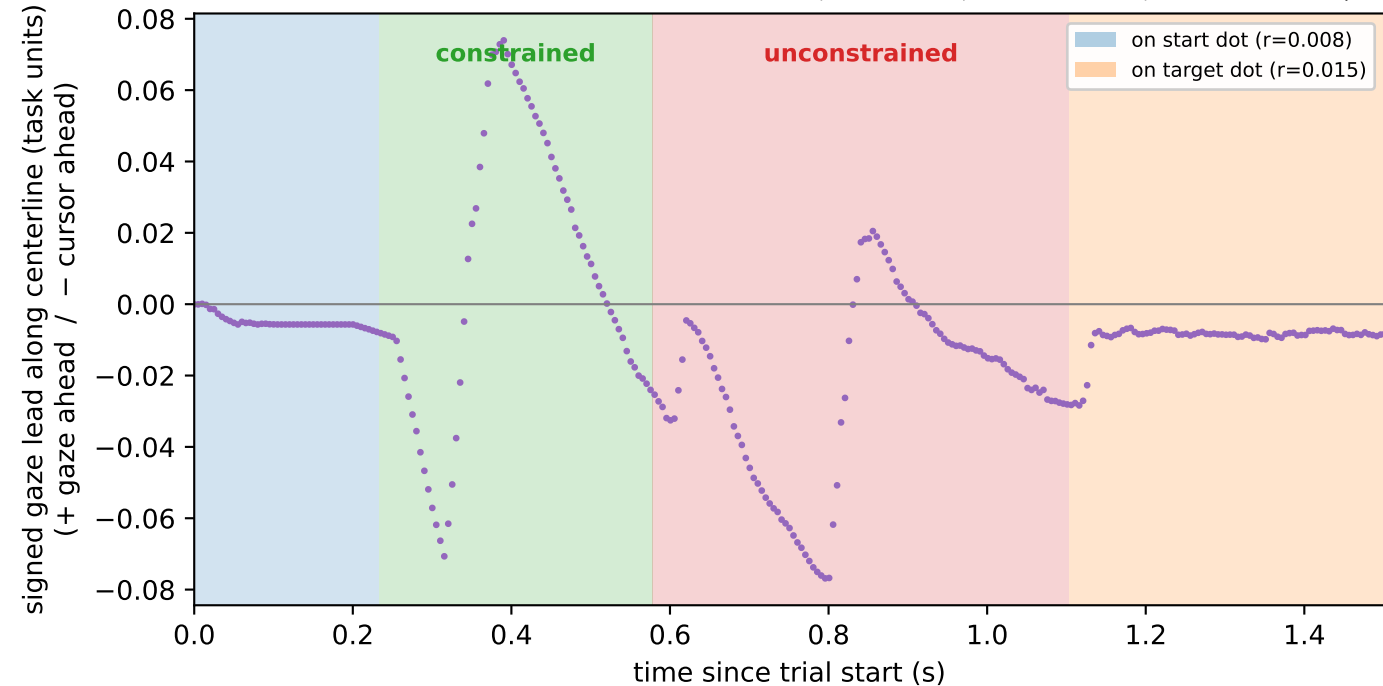

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

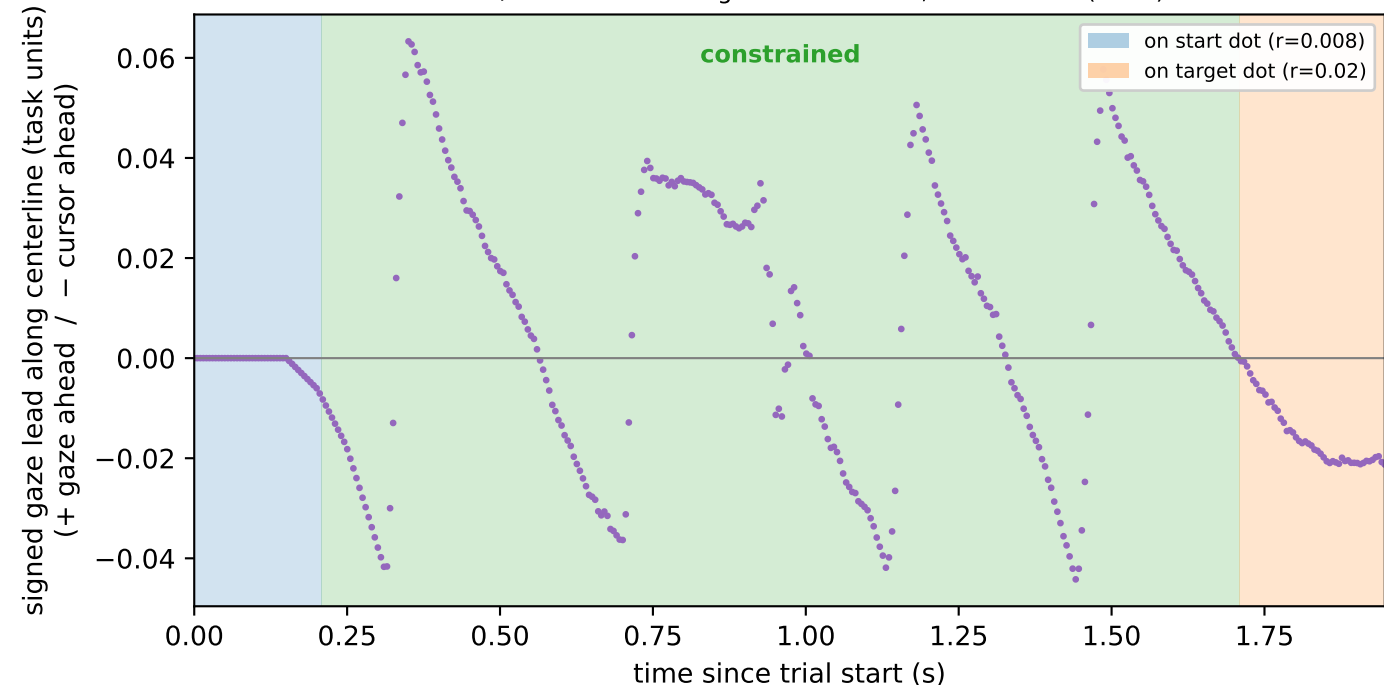

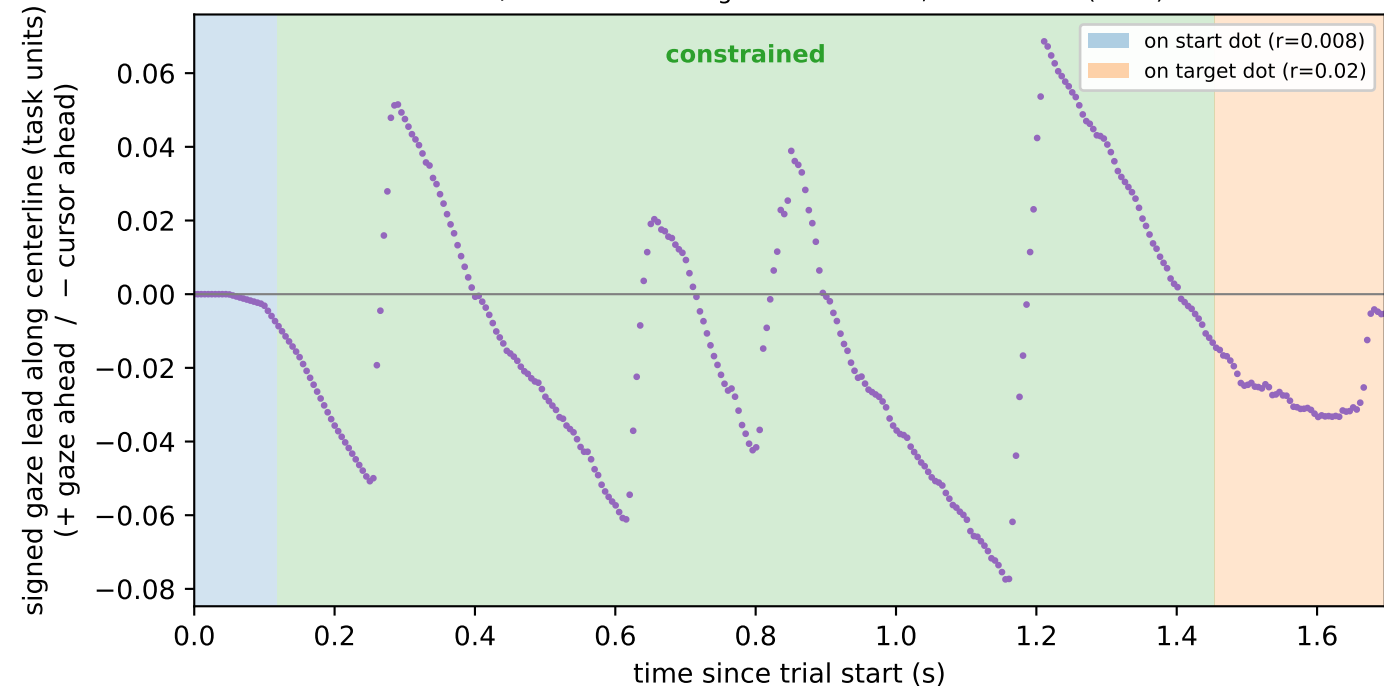

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

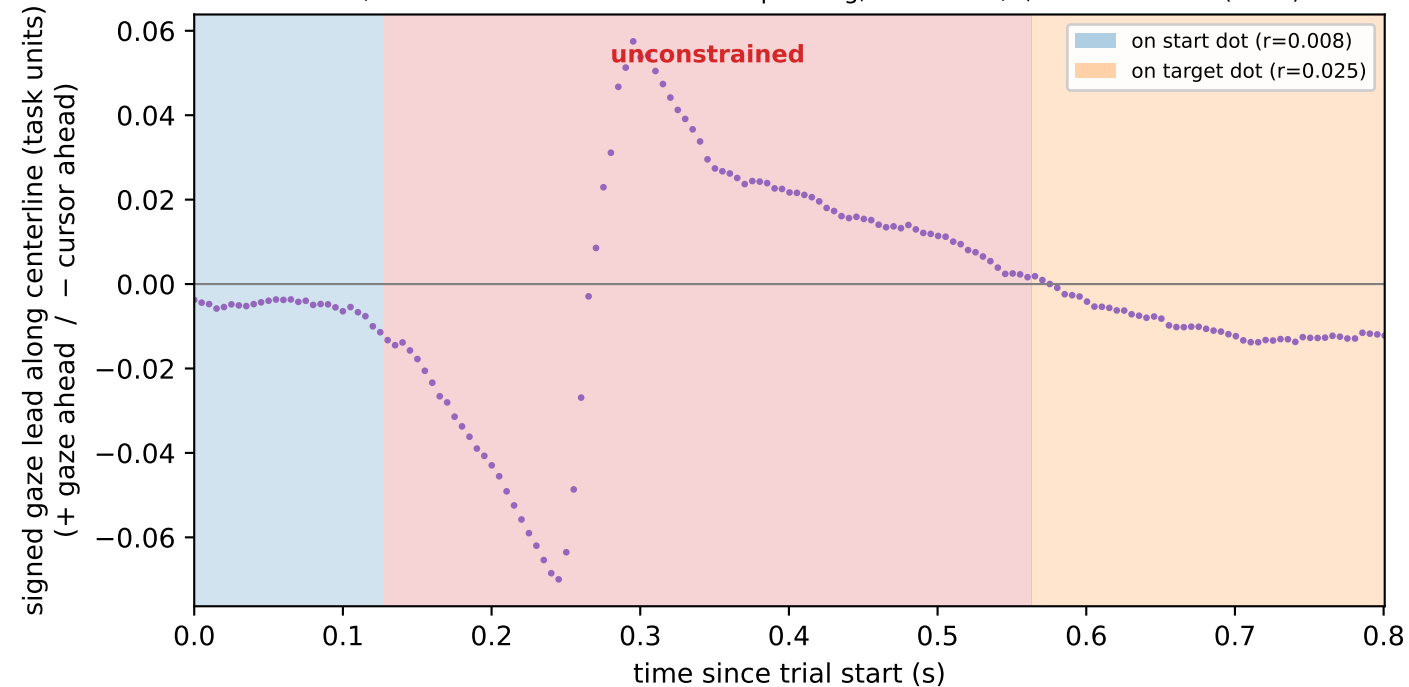

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

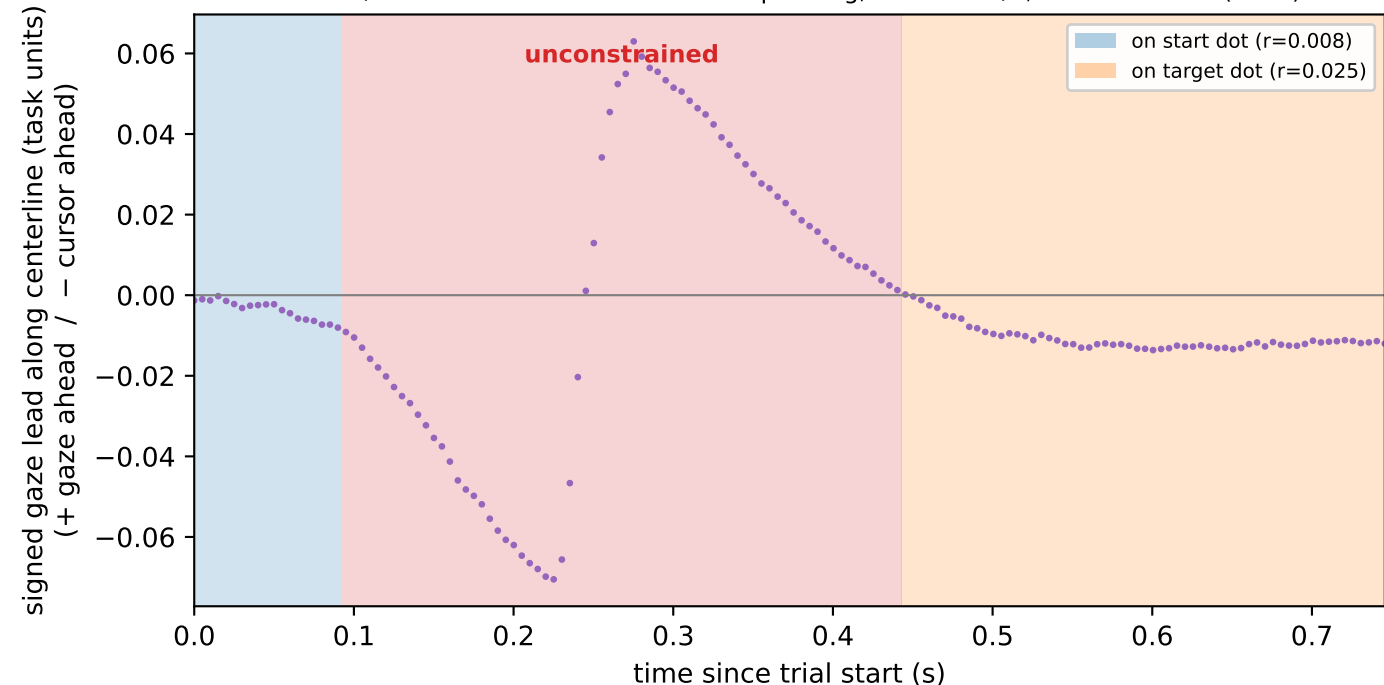

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

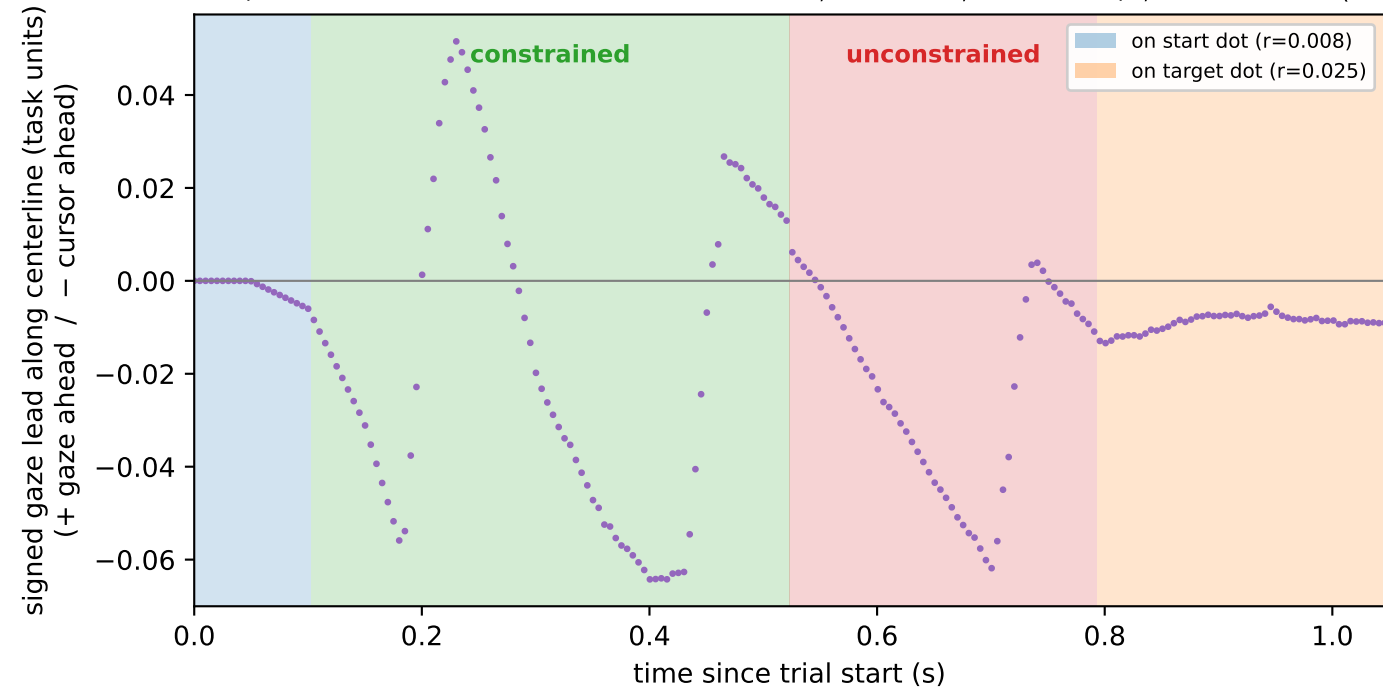

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

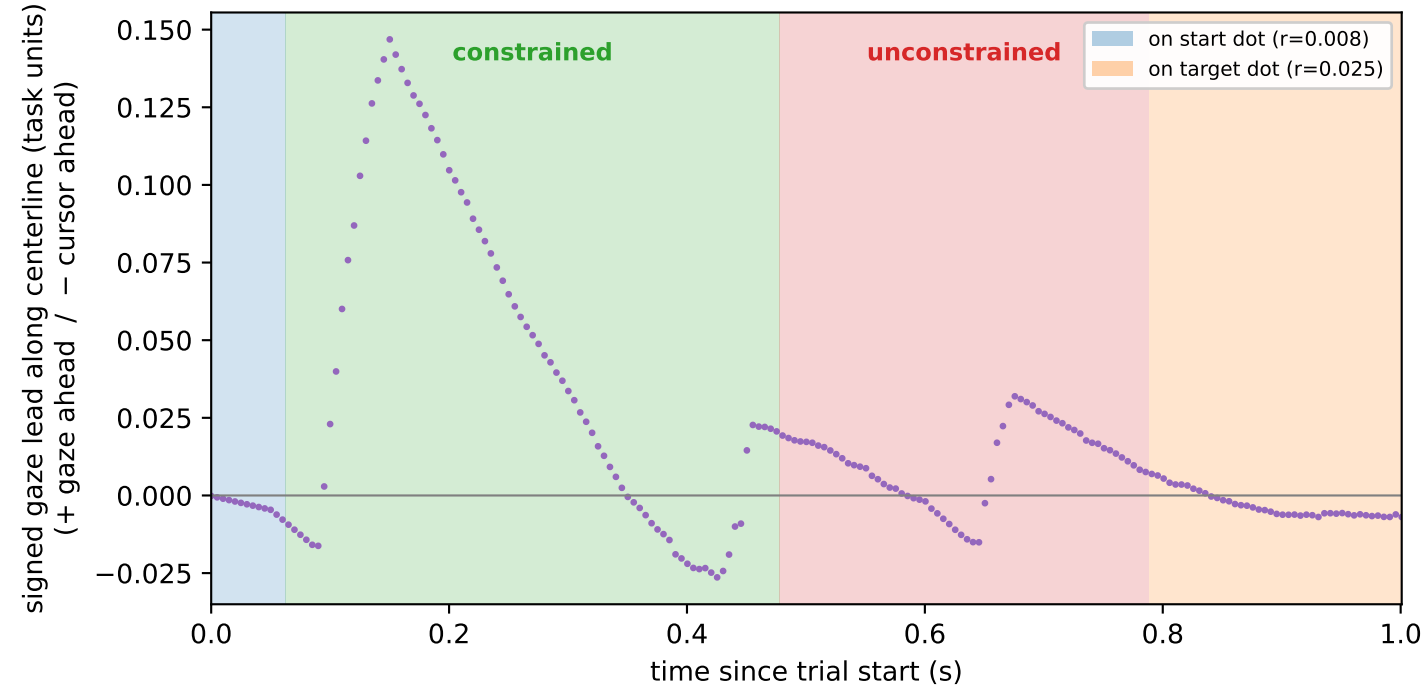

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

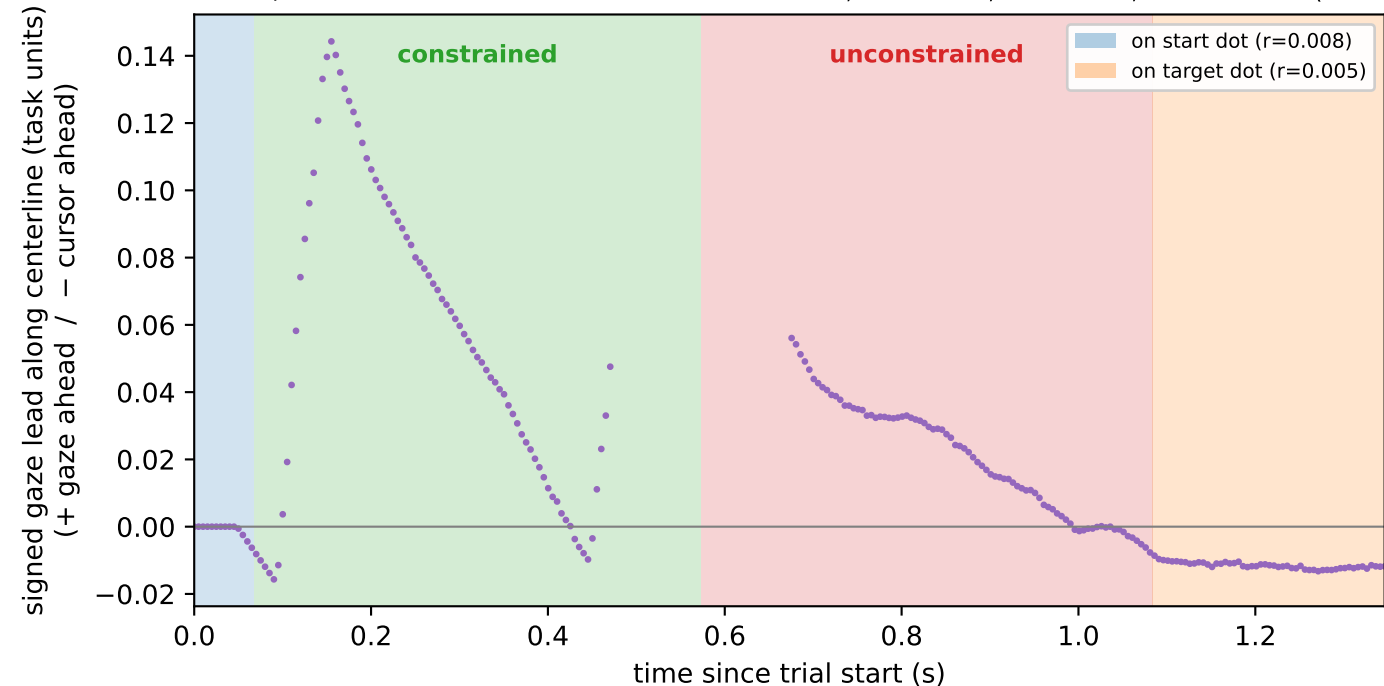

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

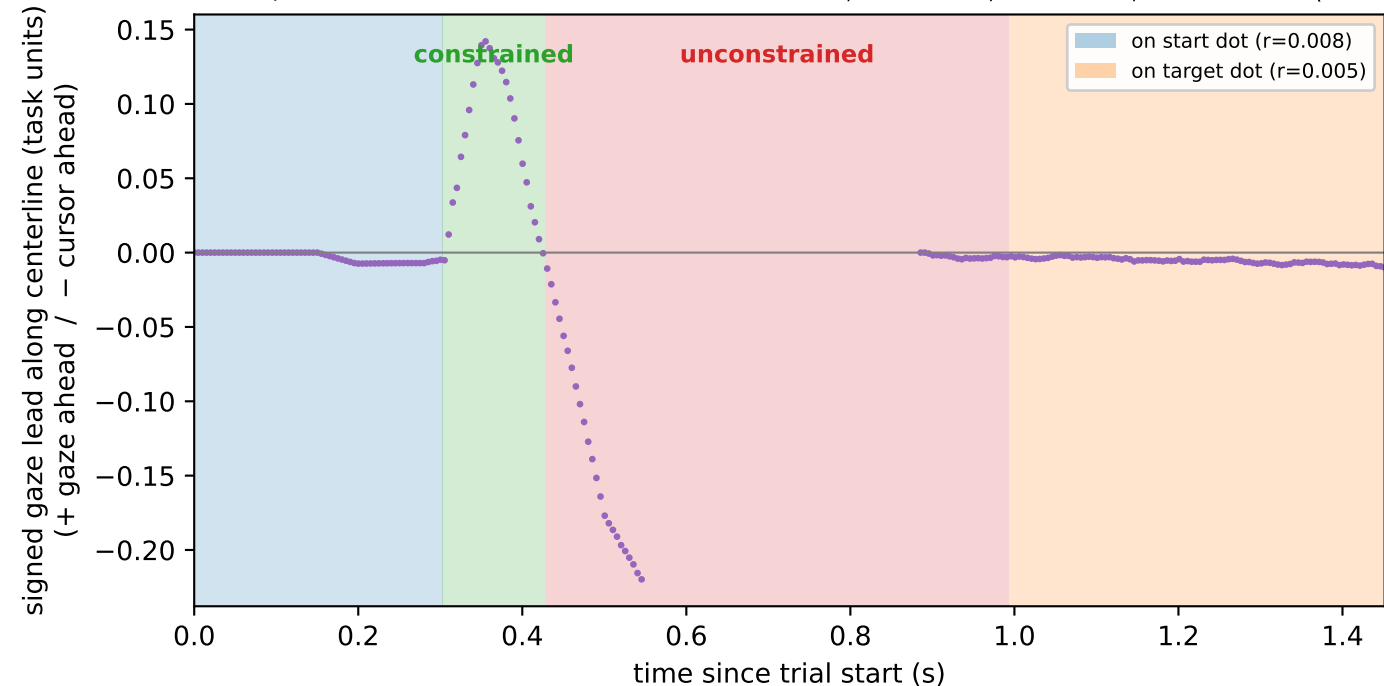

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

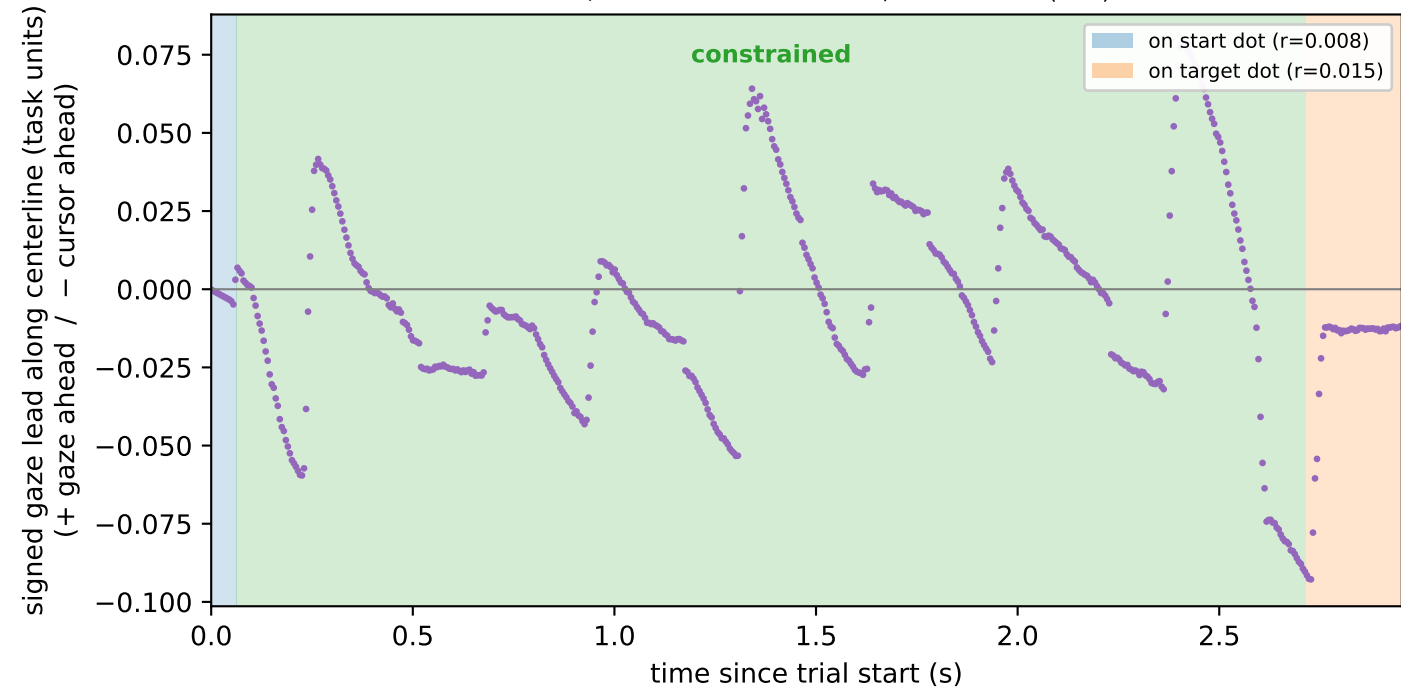

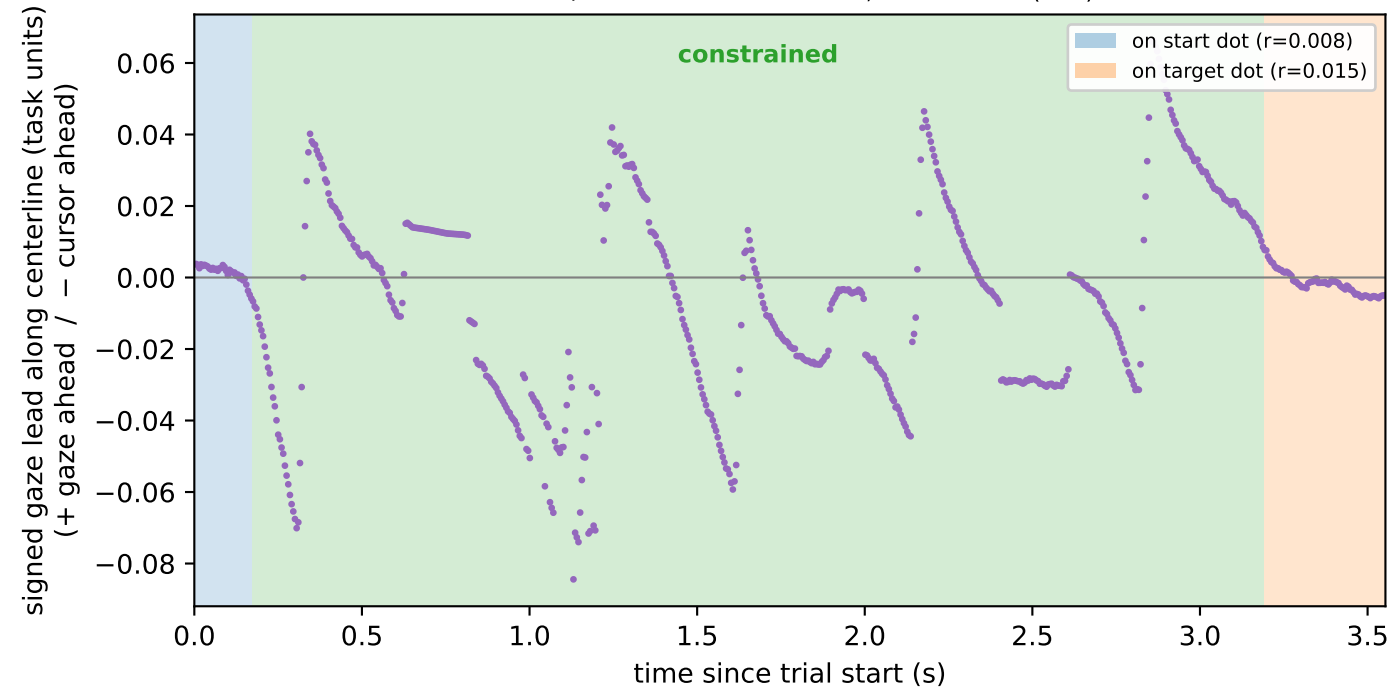

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

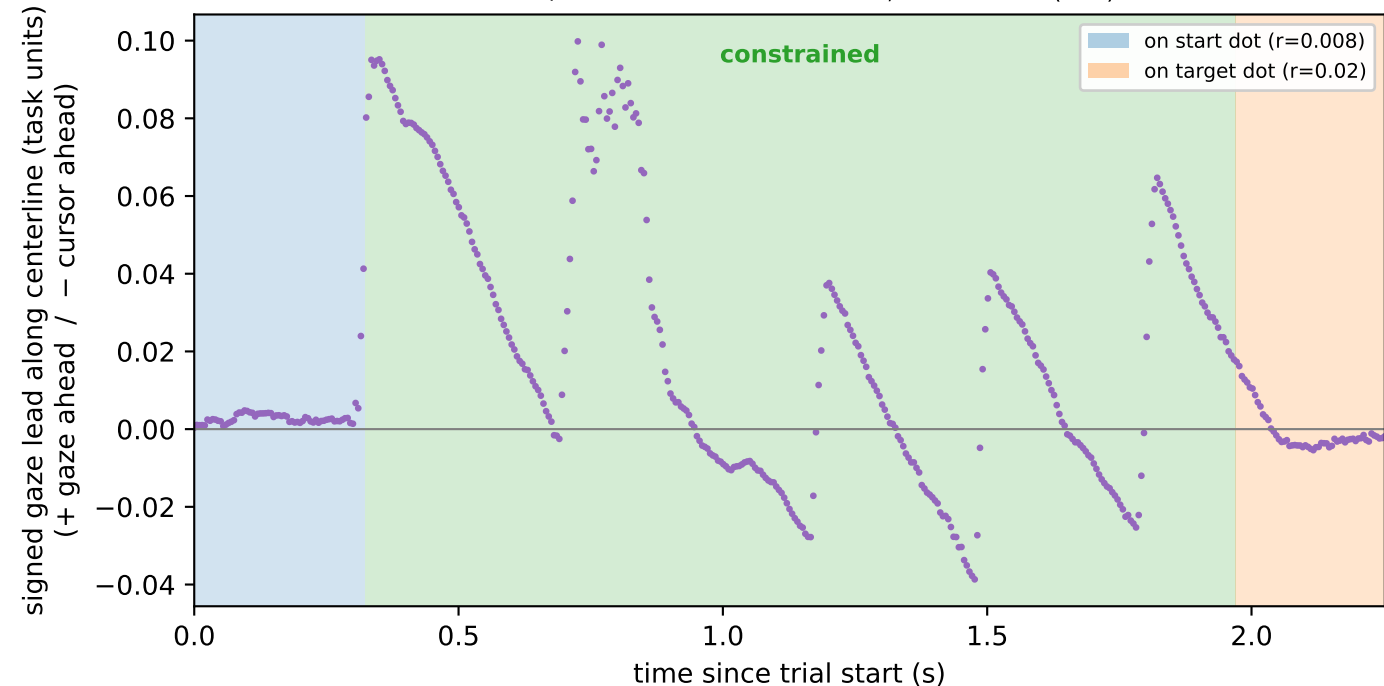

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

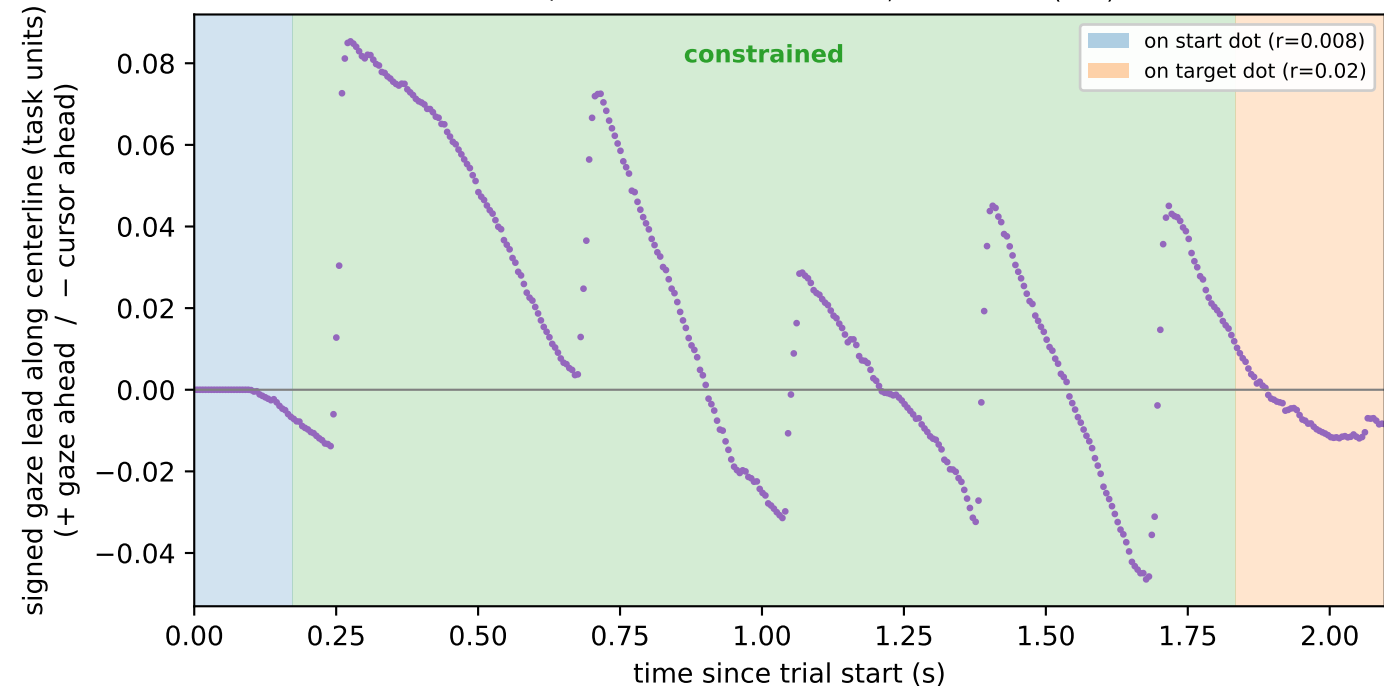

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

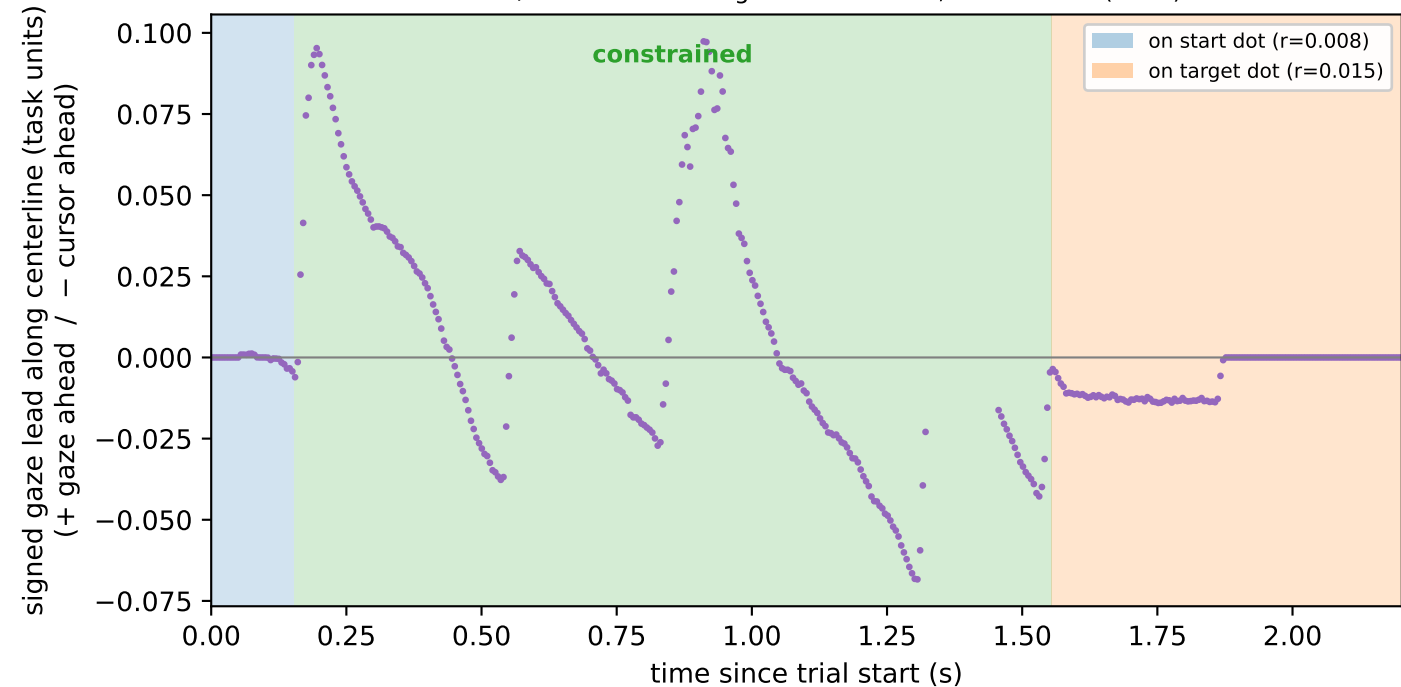

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

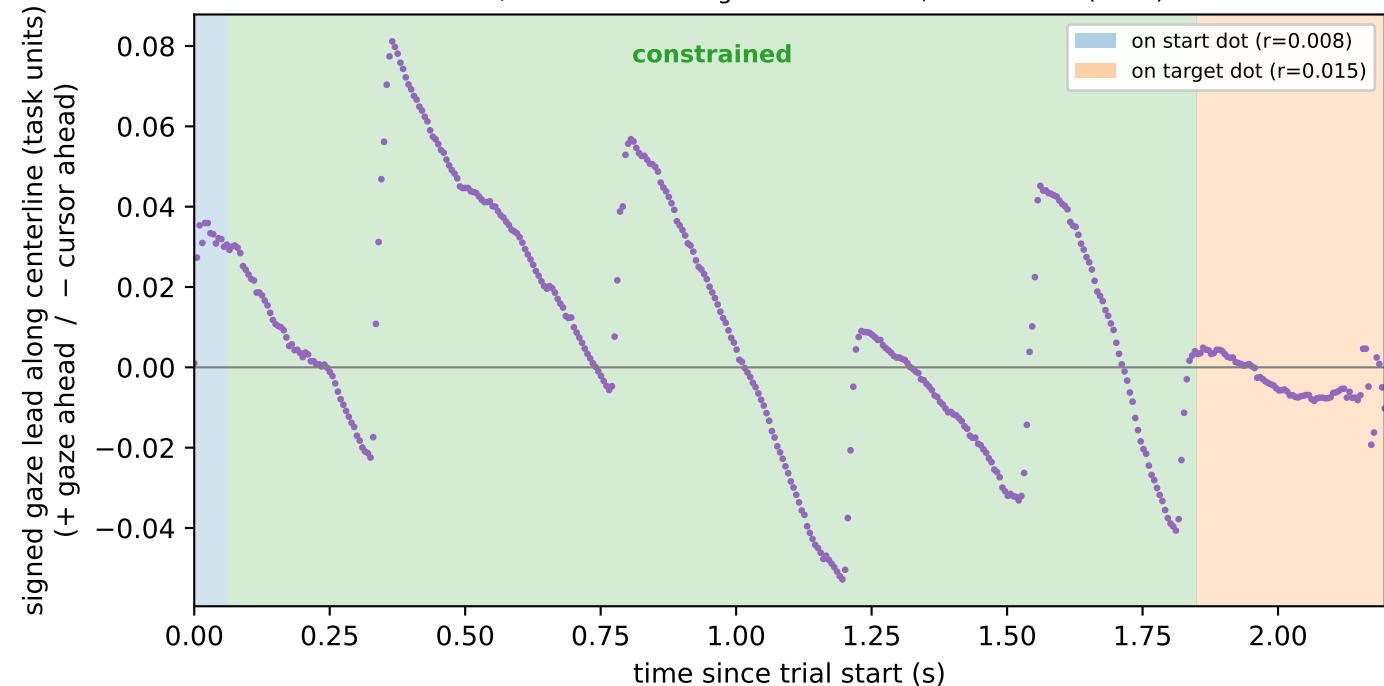

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

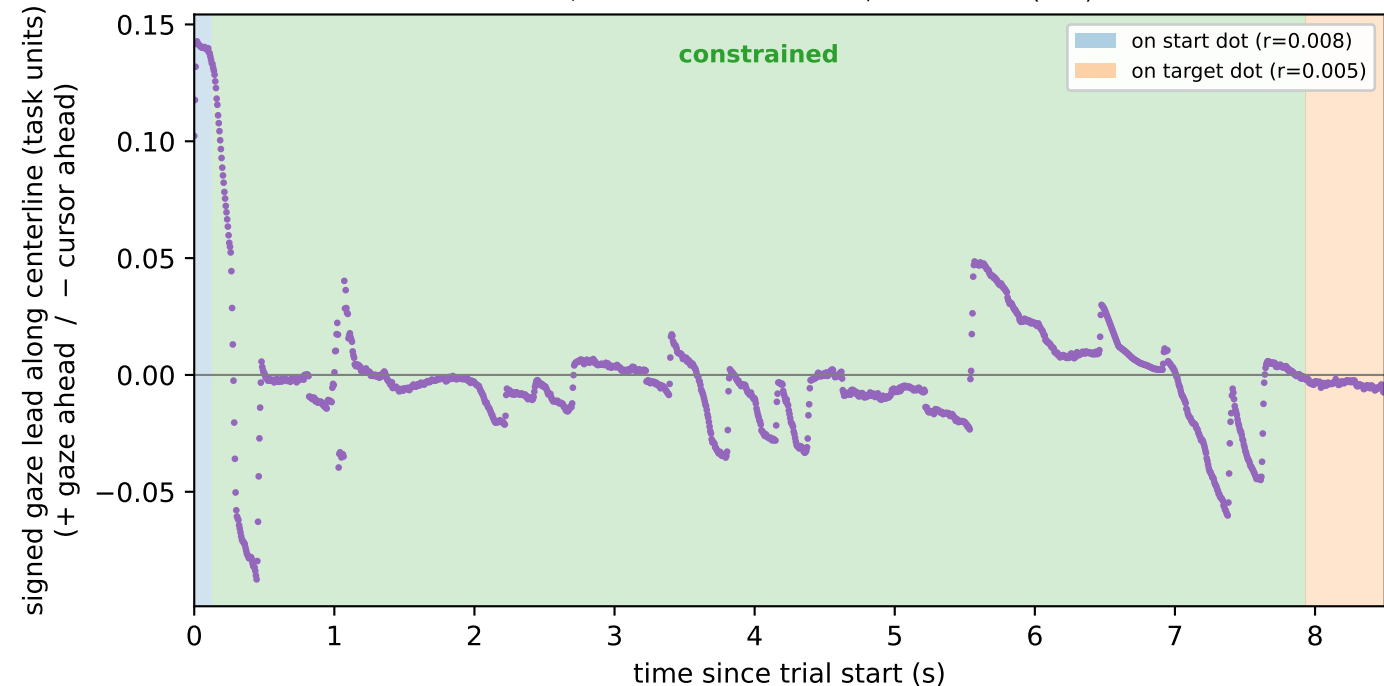

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

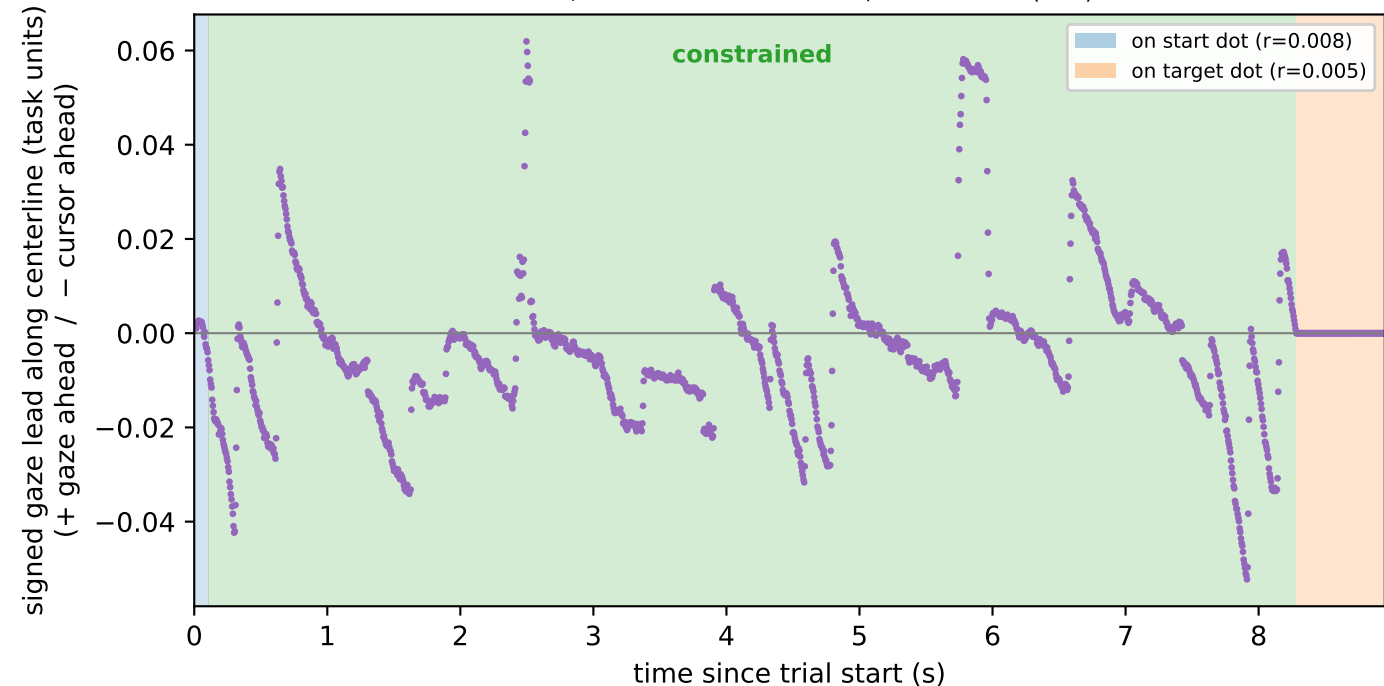

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

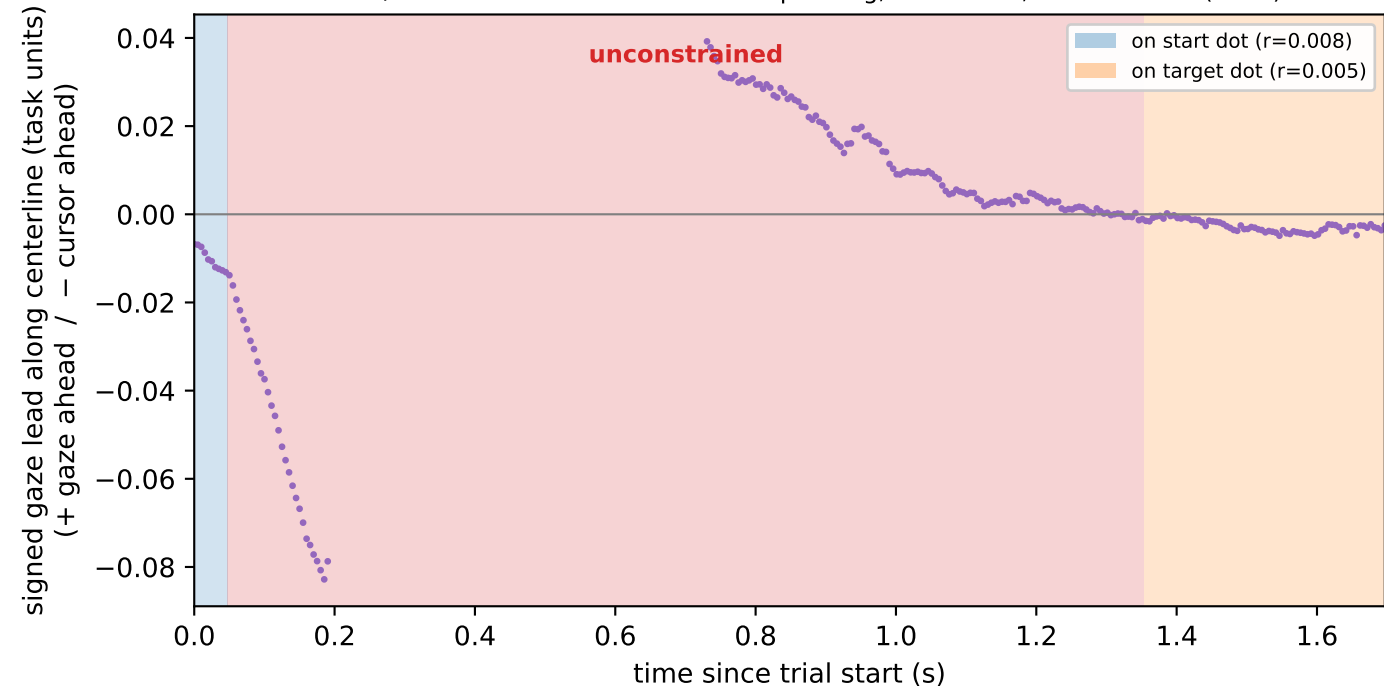

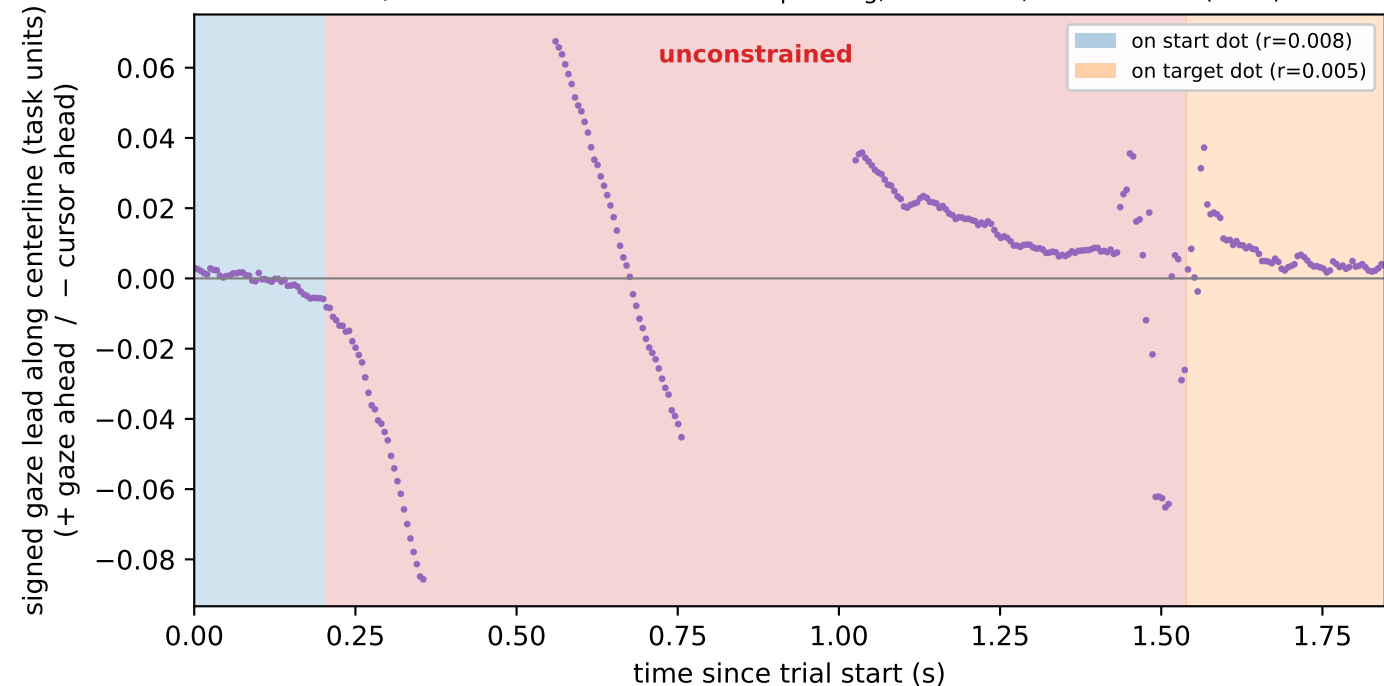

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

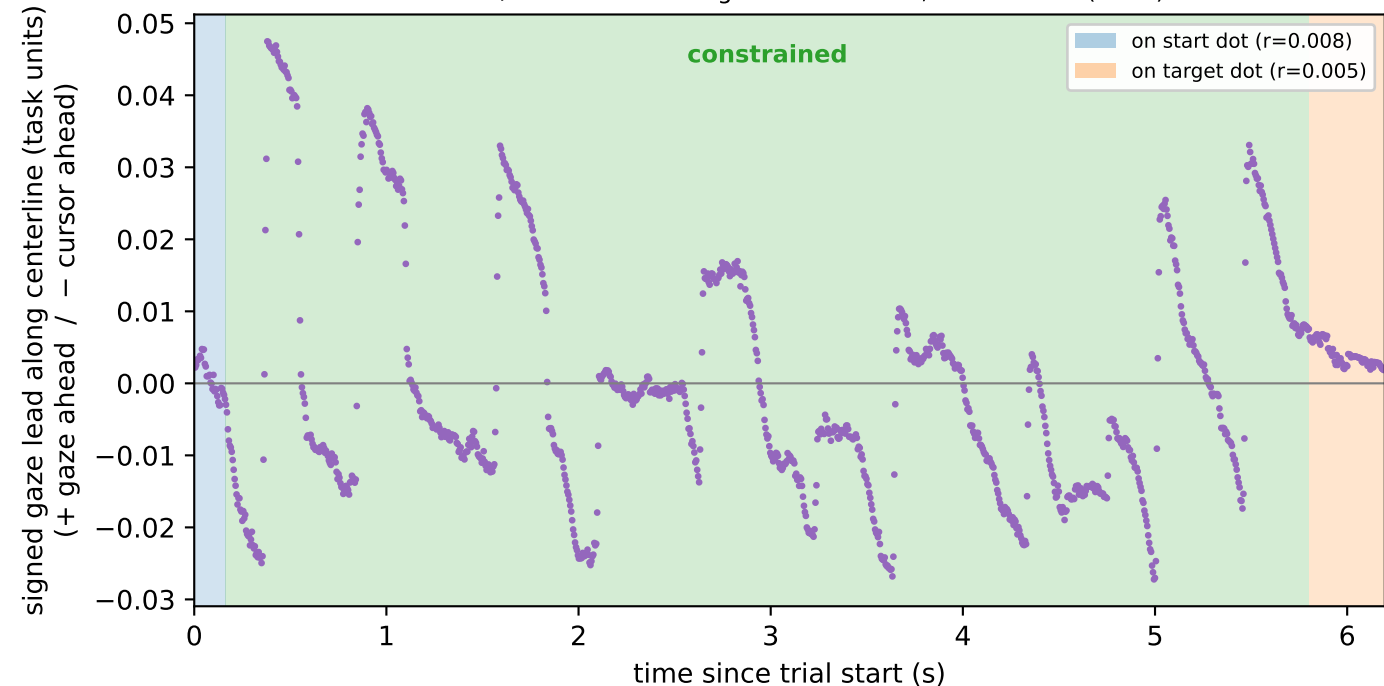

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

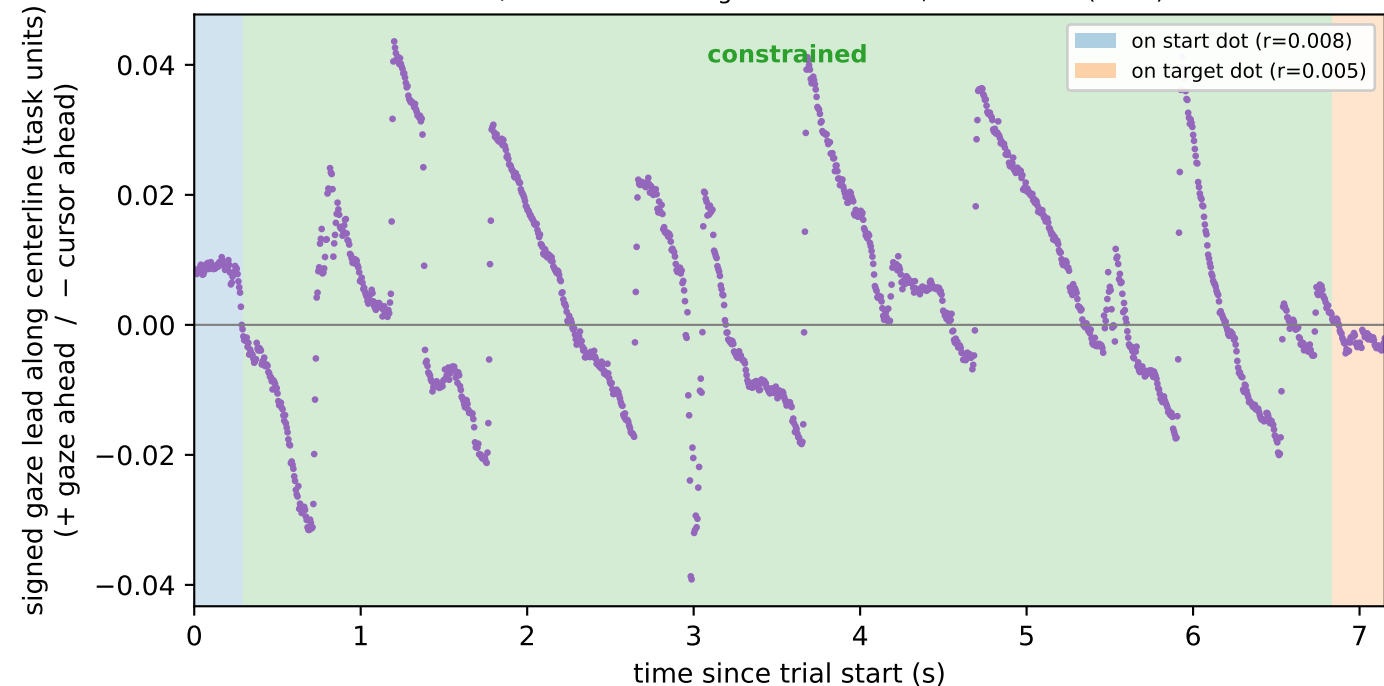

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

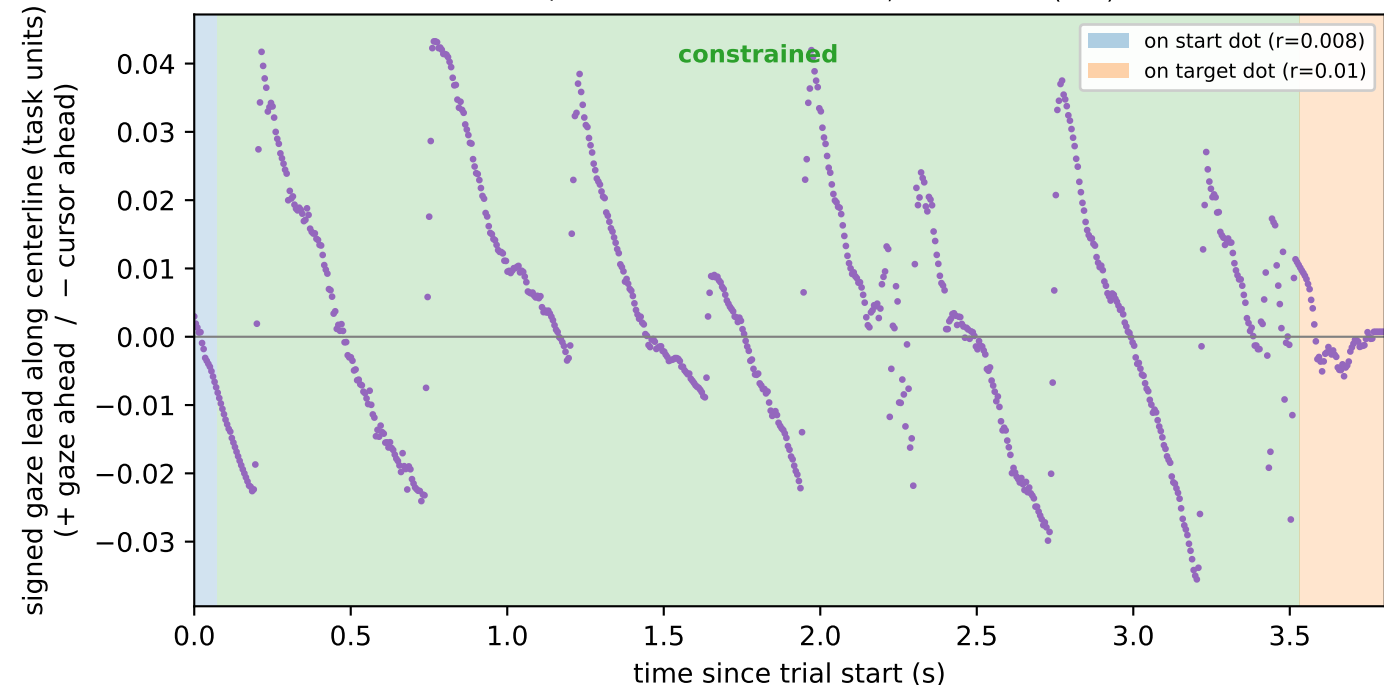

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

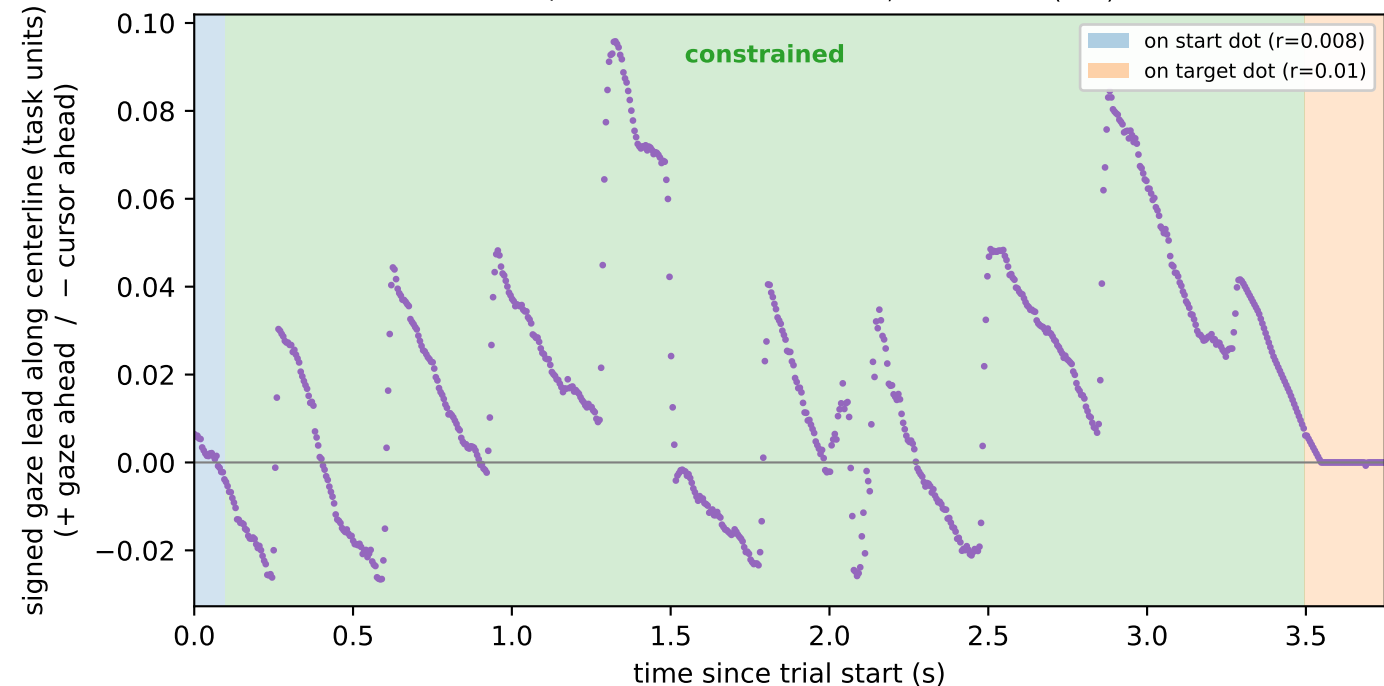

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

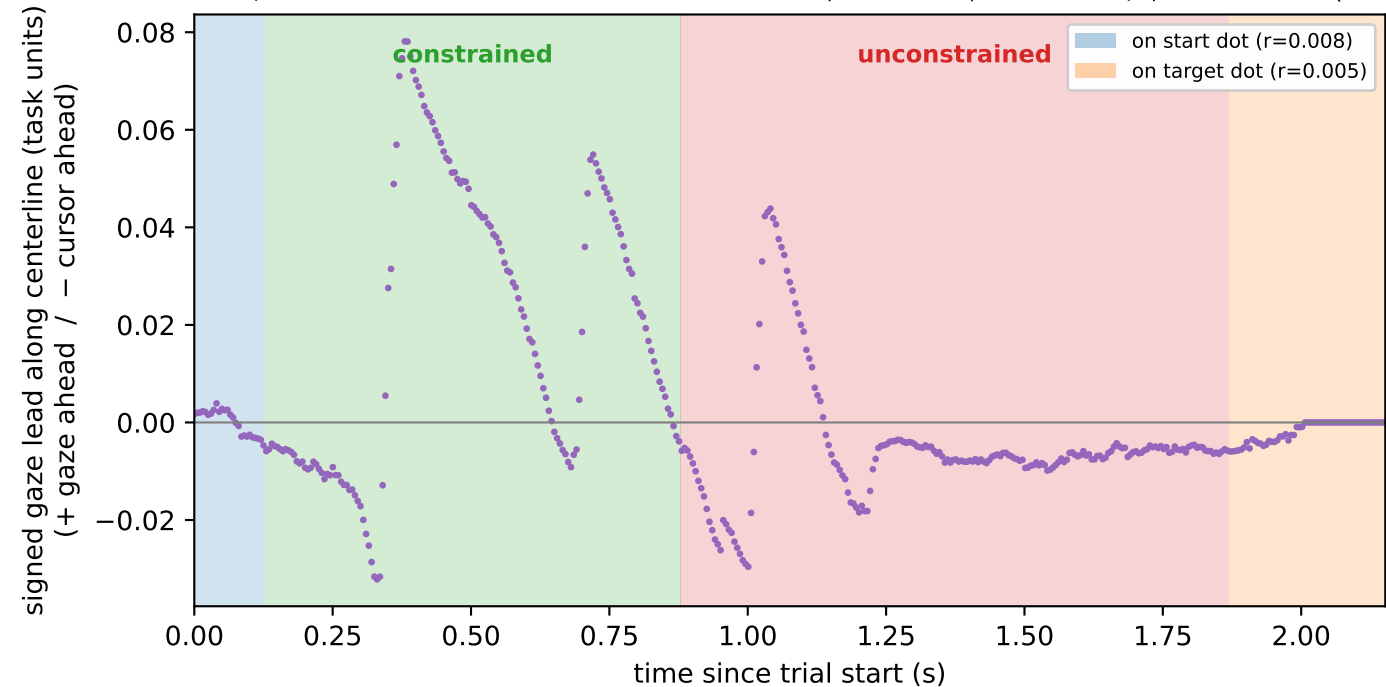

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

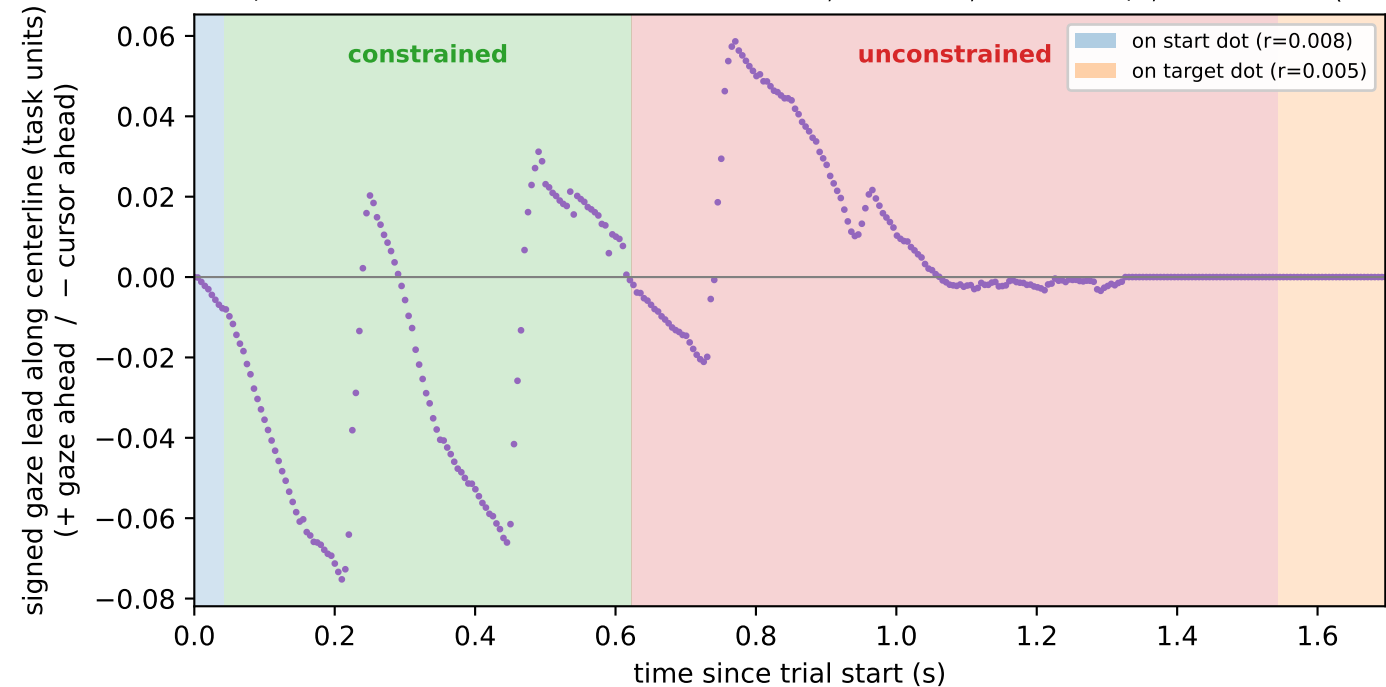

Trial 33/73 round 1 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 5mm (id 66)

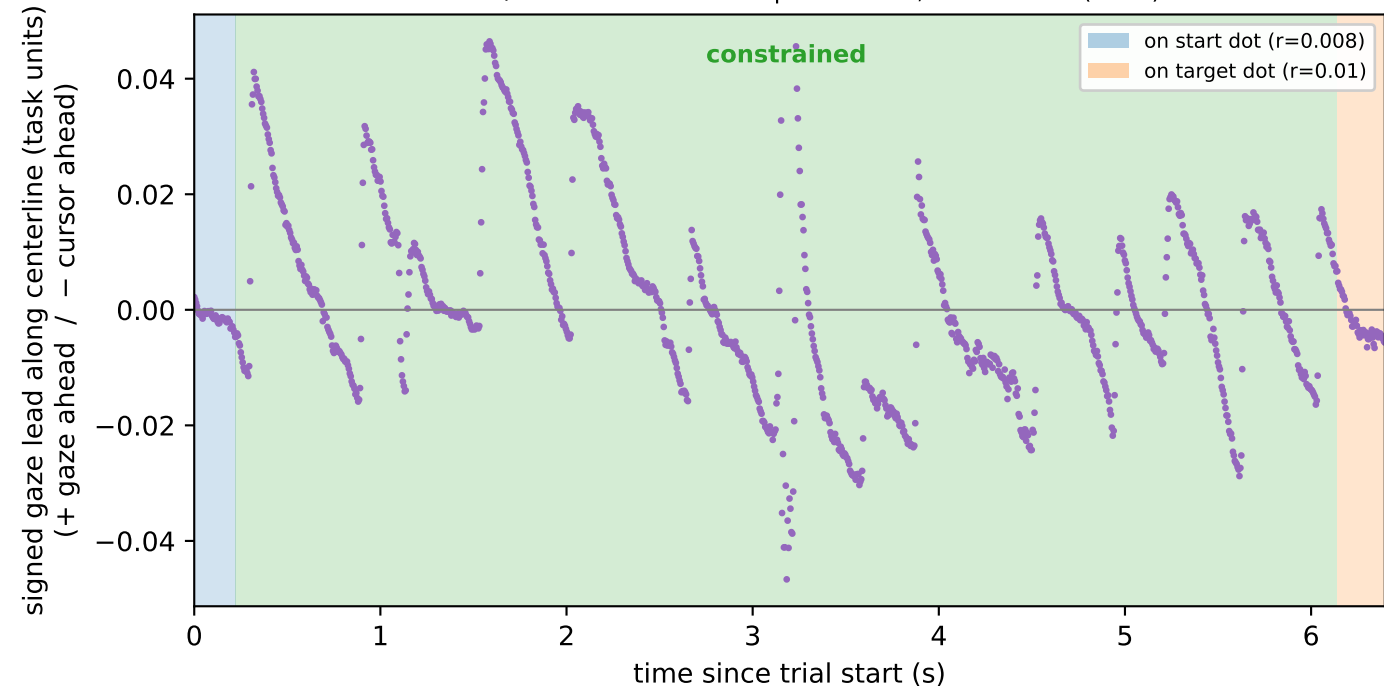

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

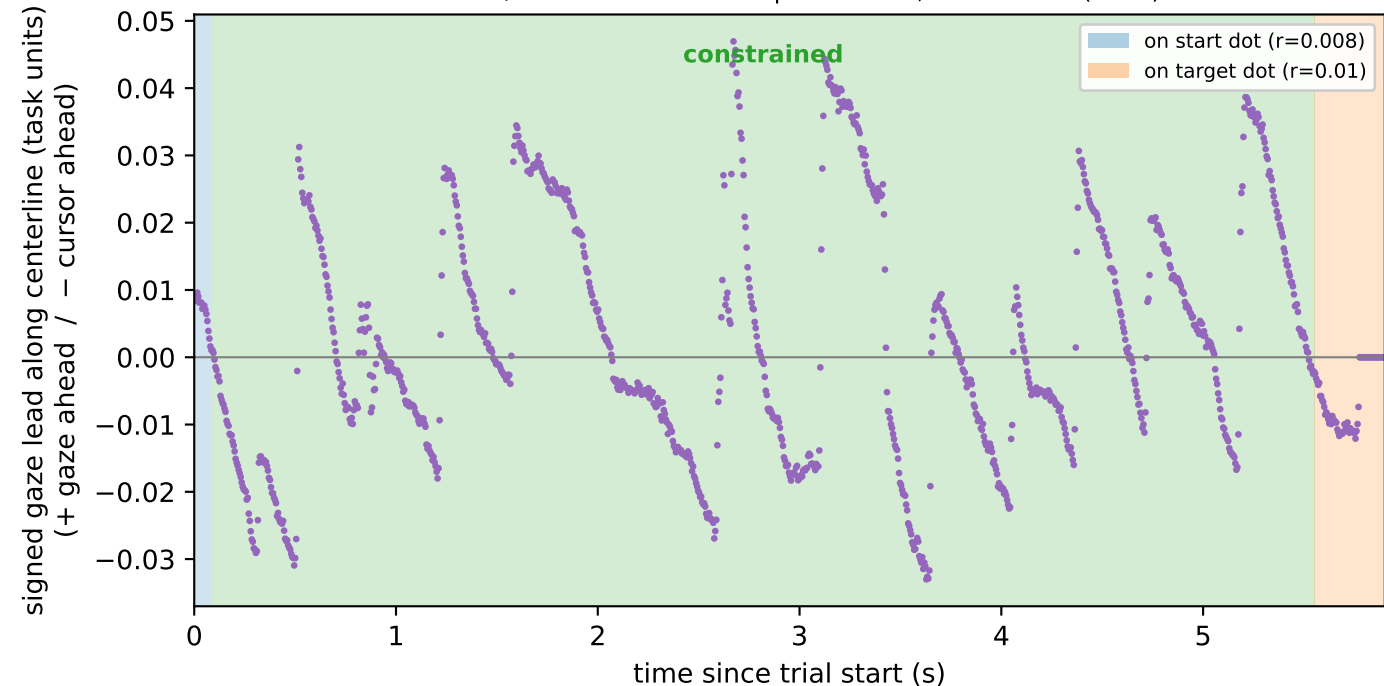

Trial 33/73 round 2 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 5mm (id 66)

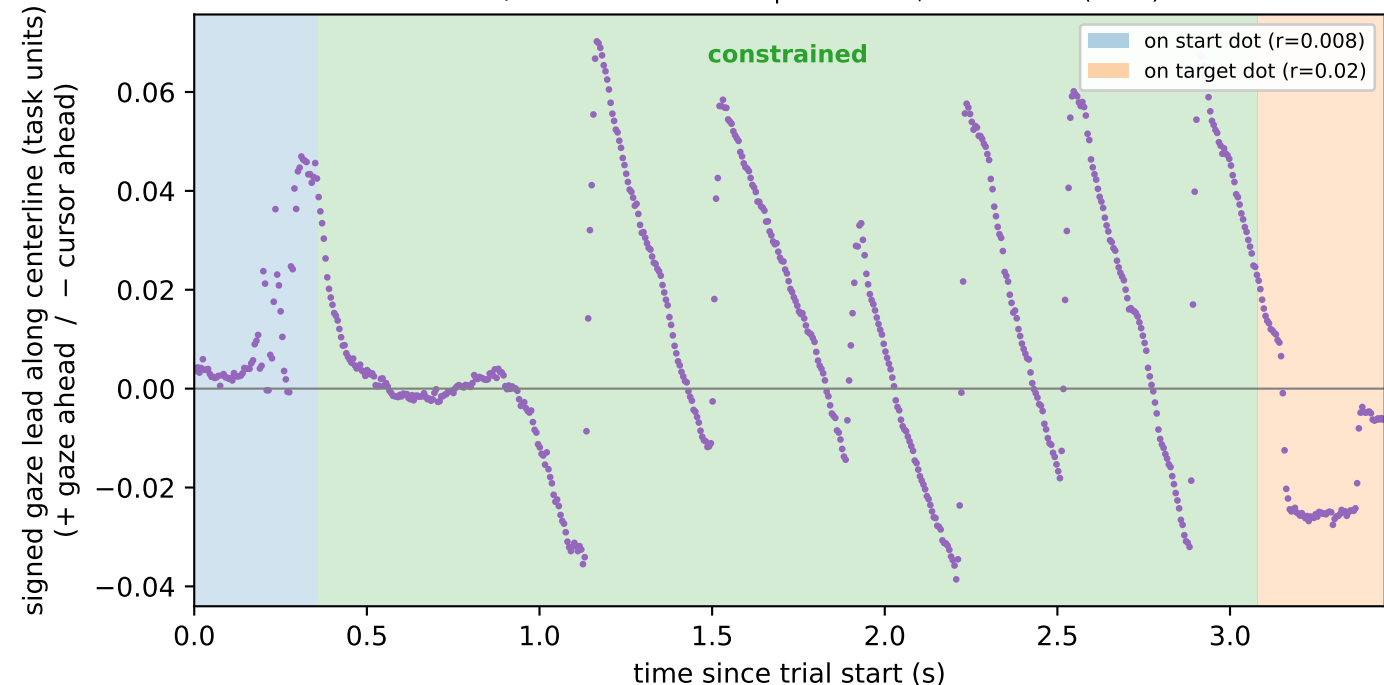

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

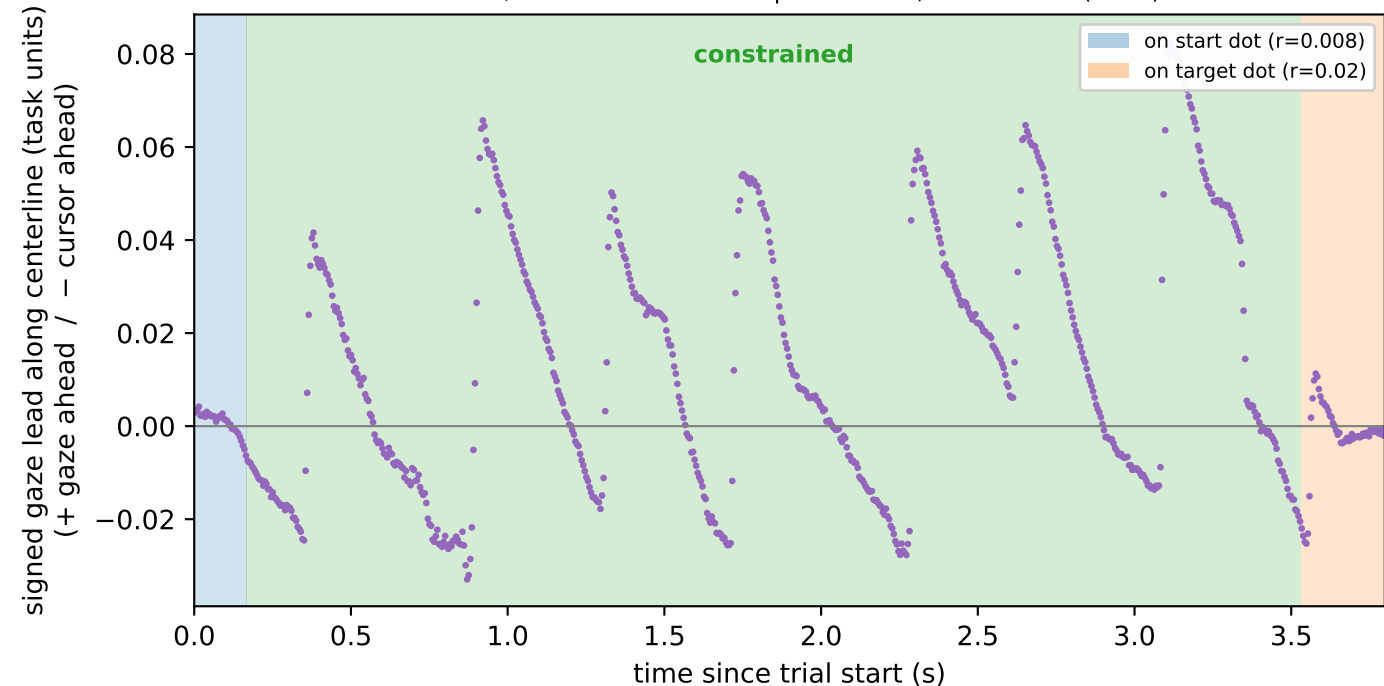

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

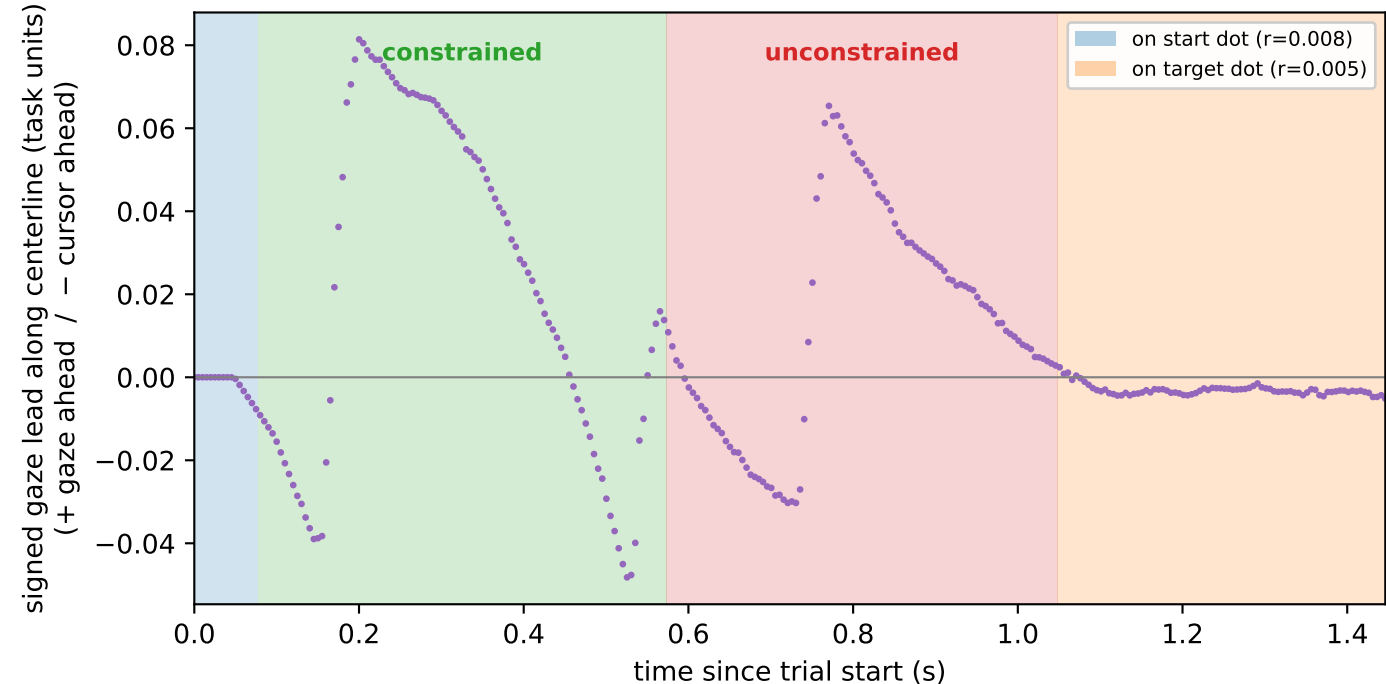

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

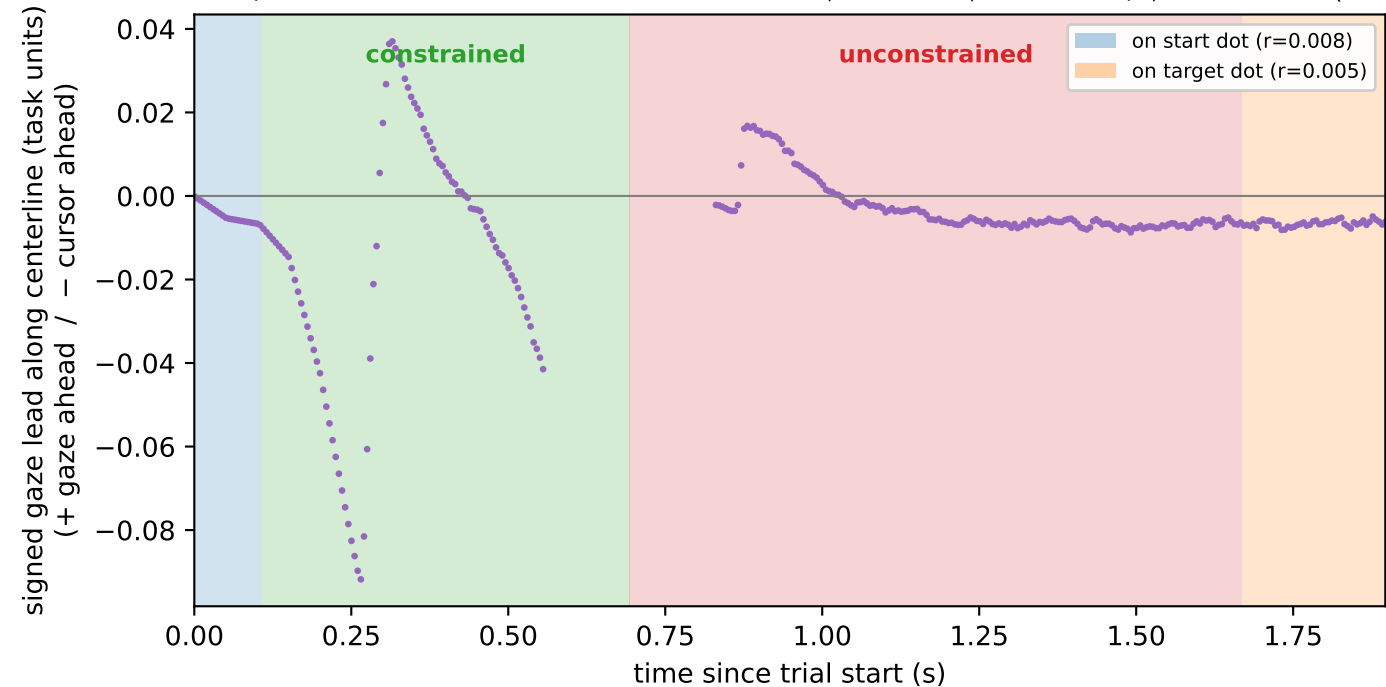

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

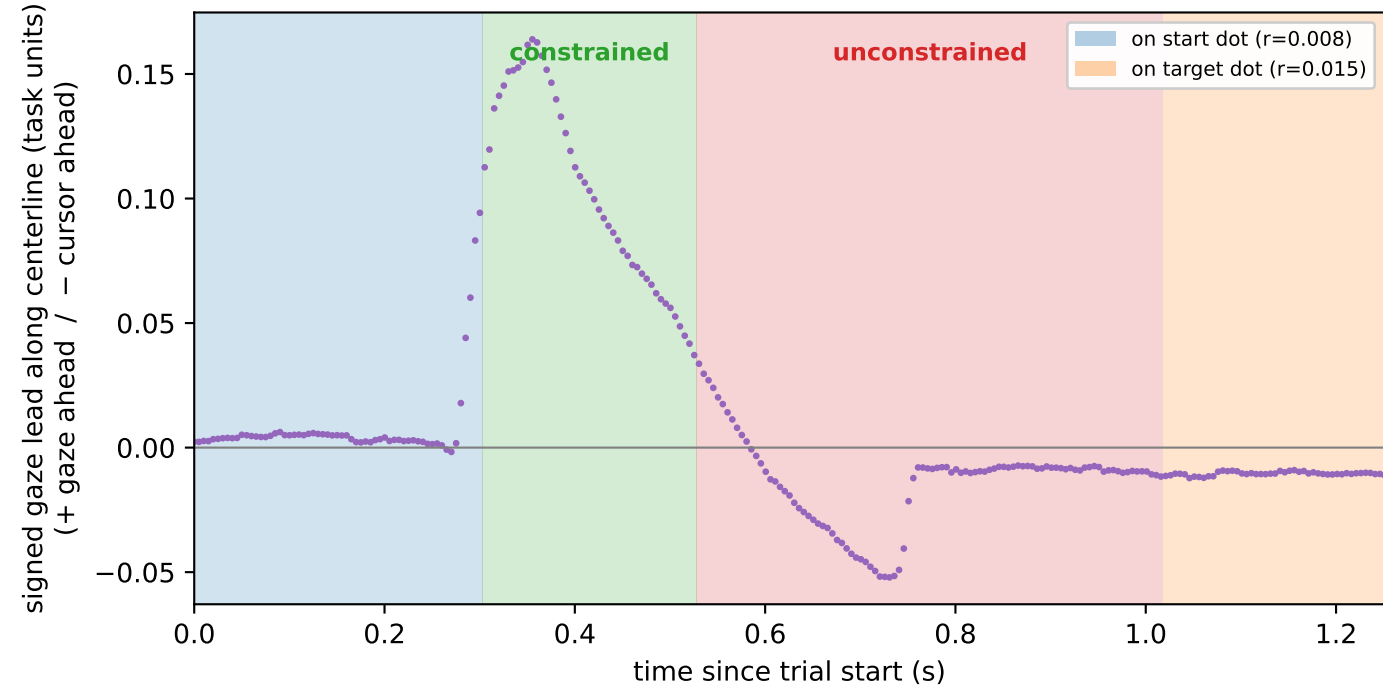

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 36/73 round 2 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 5mm (id 69)

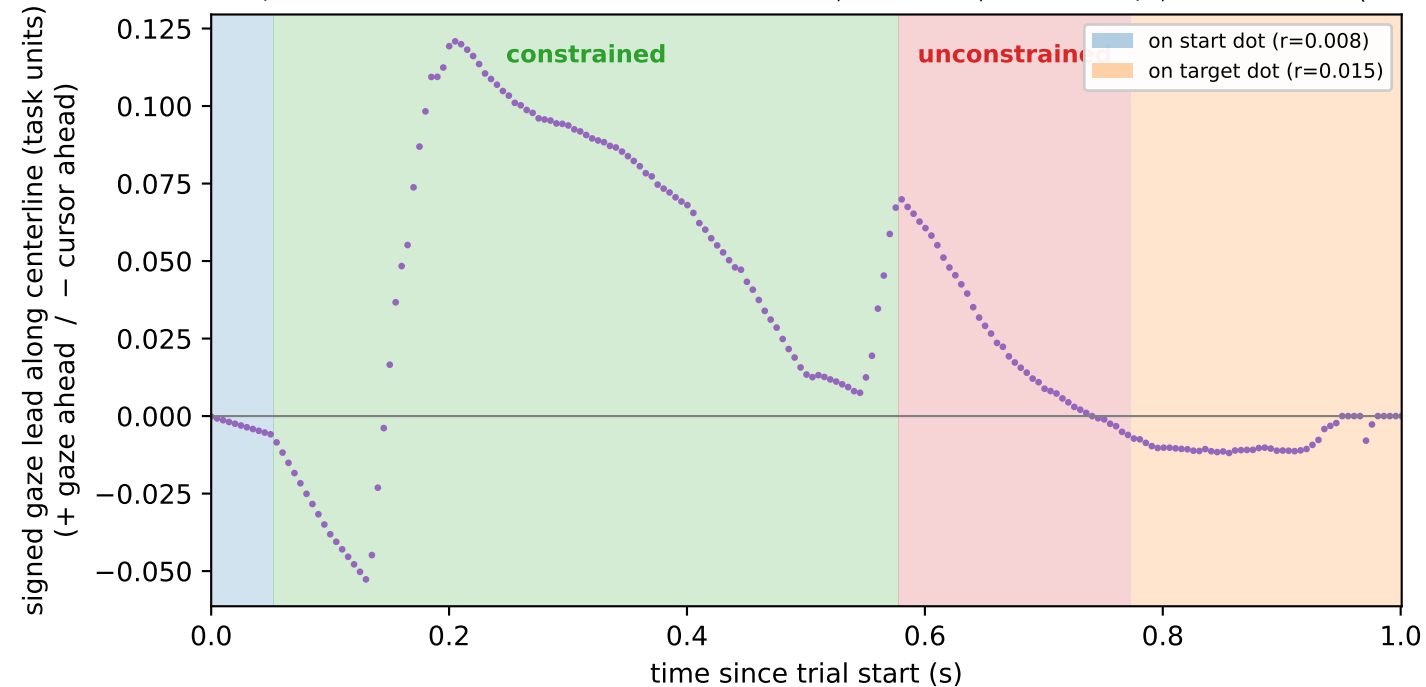

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

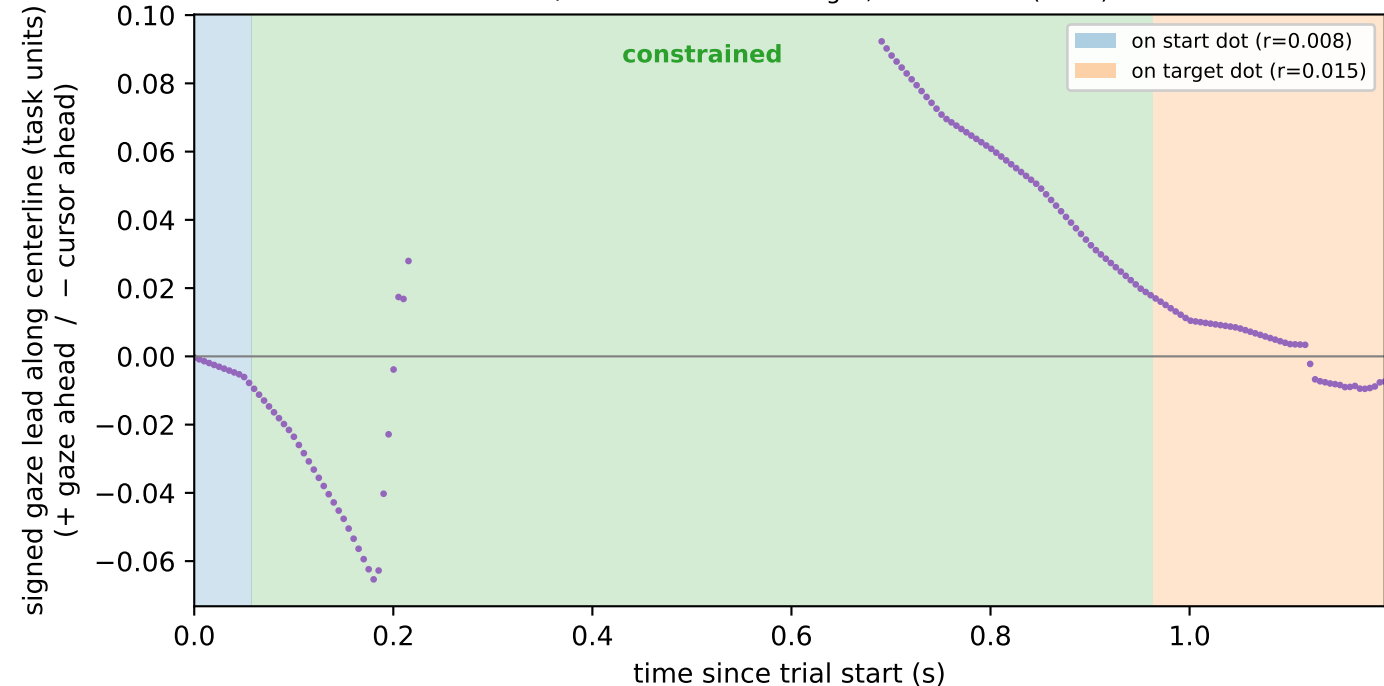

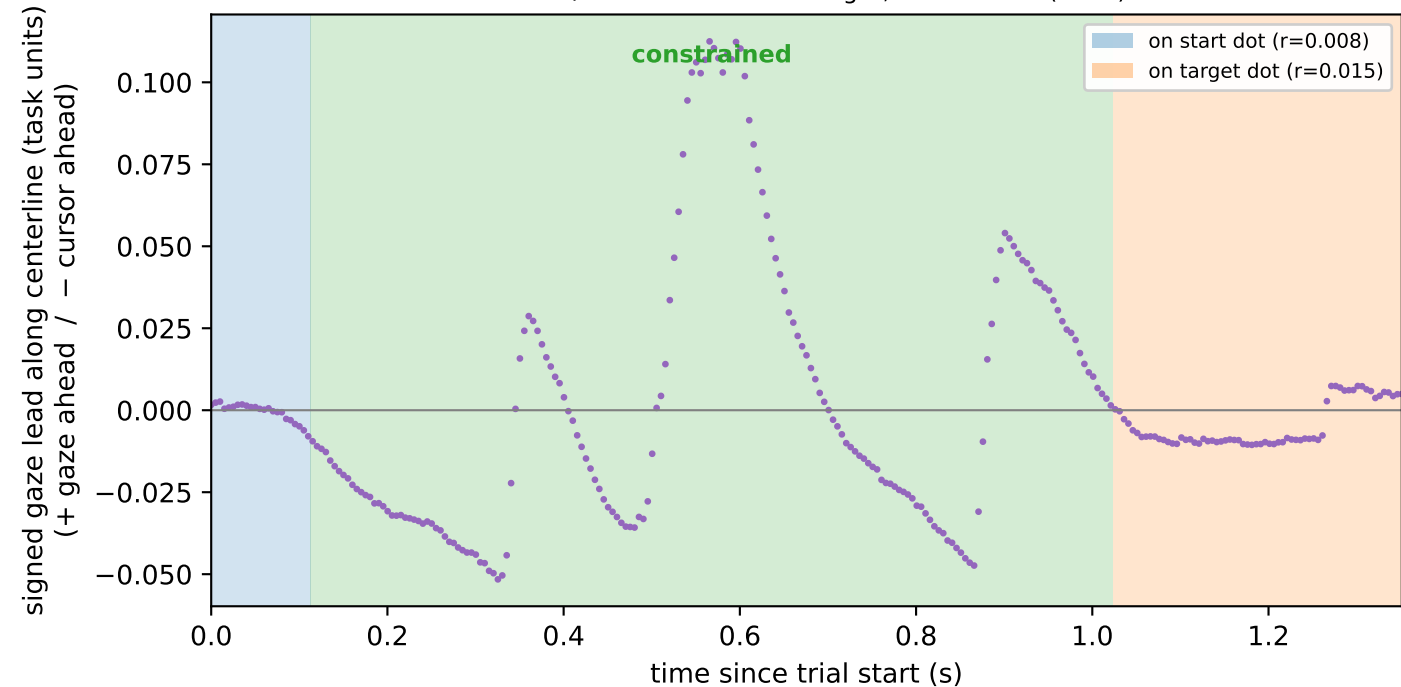

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

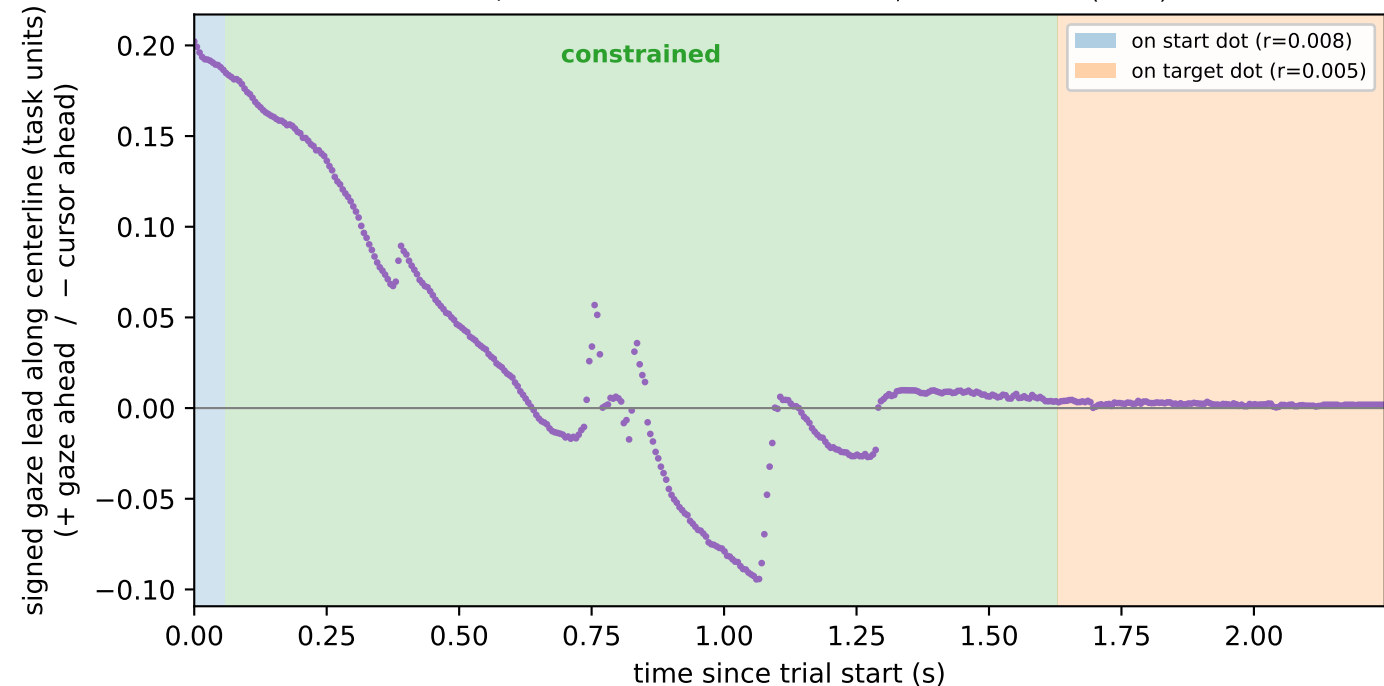

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

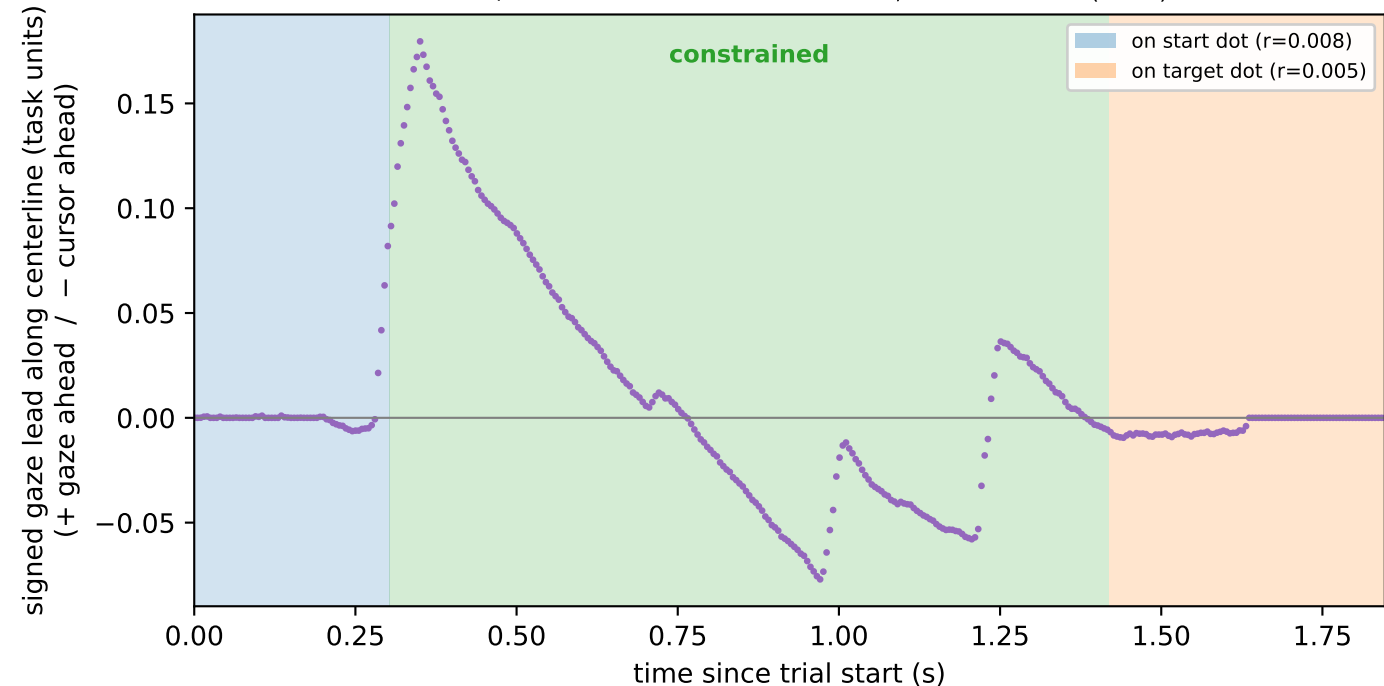

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

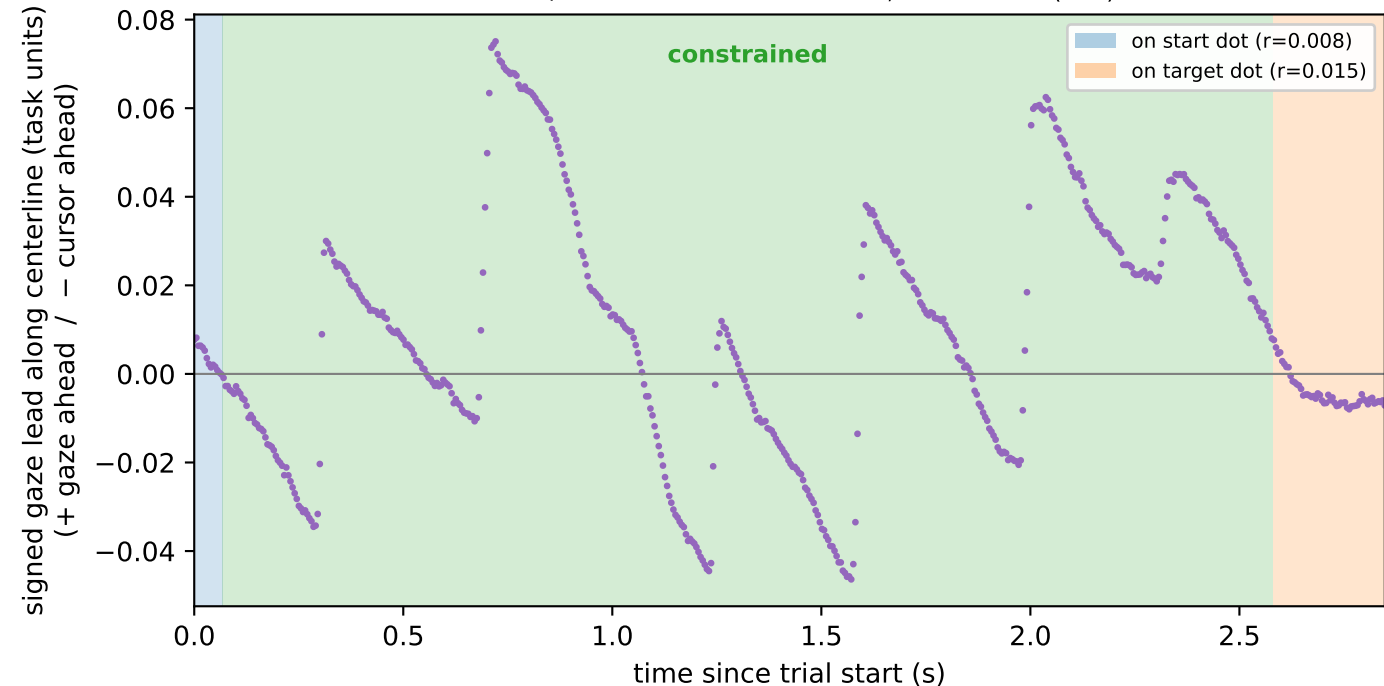

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

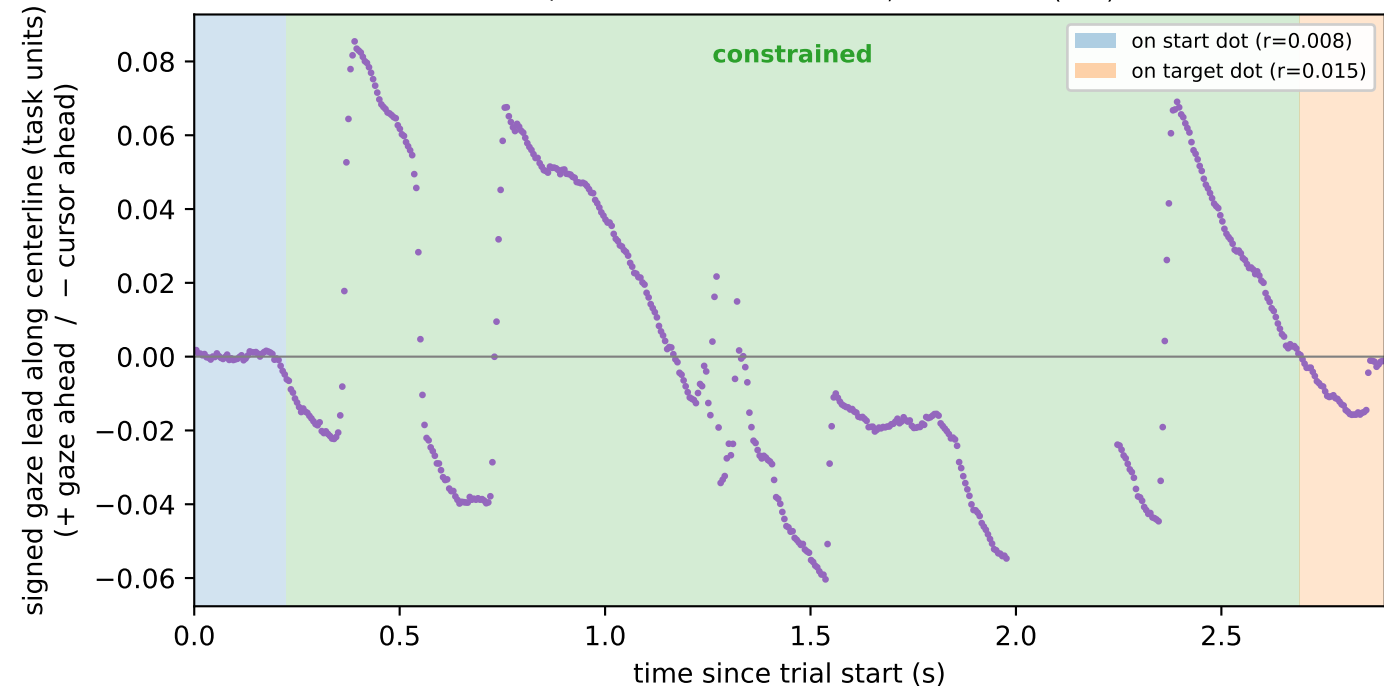

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

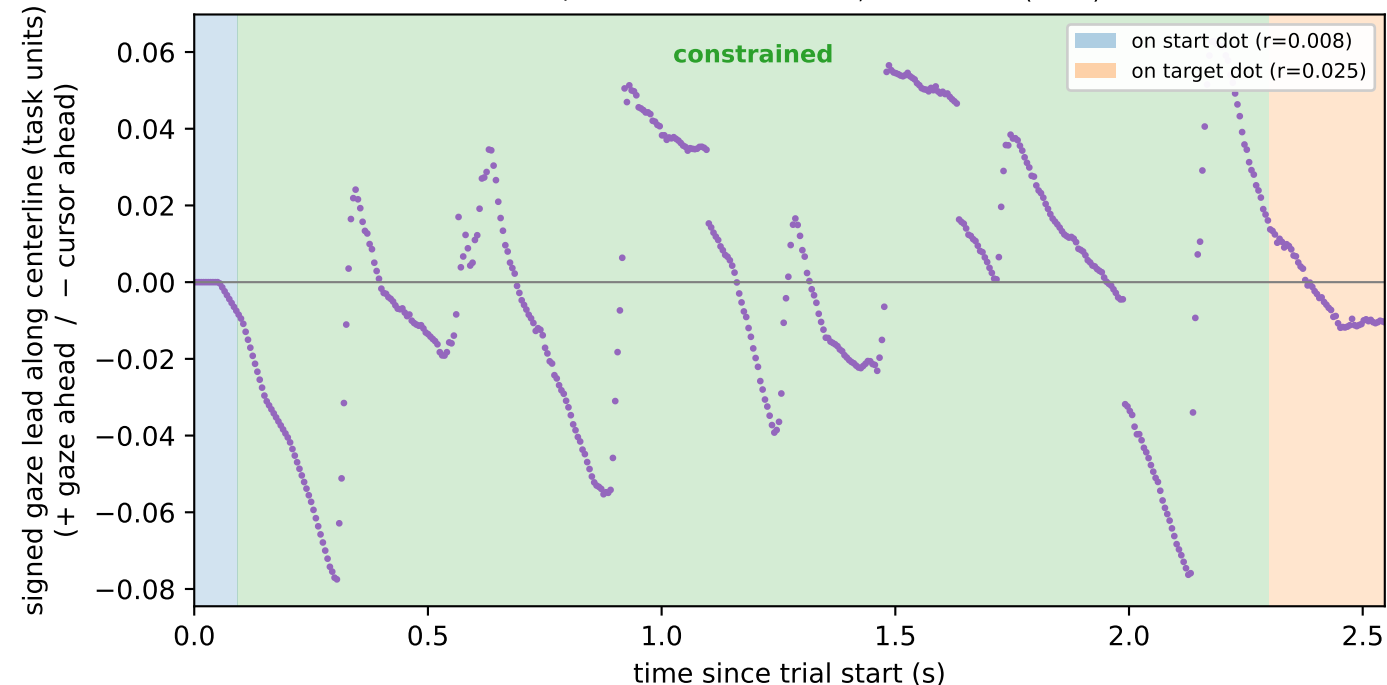

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

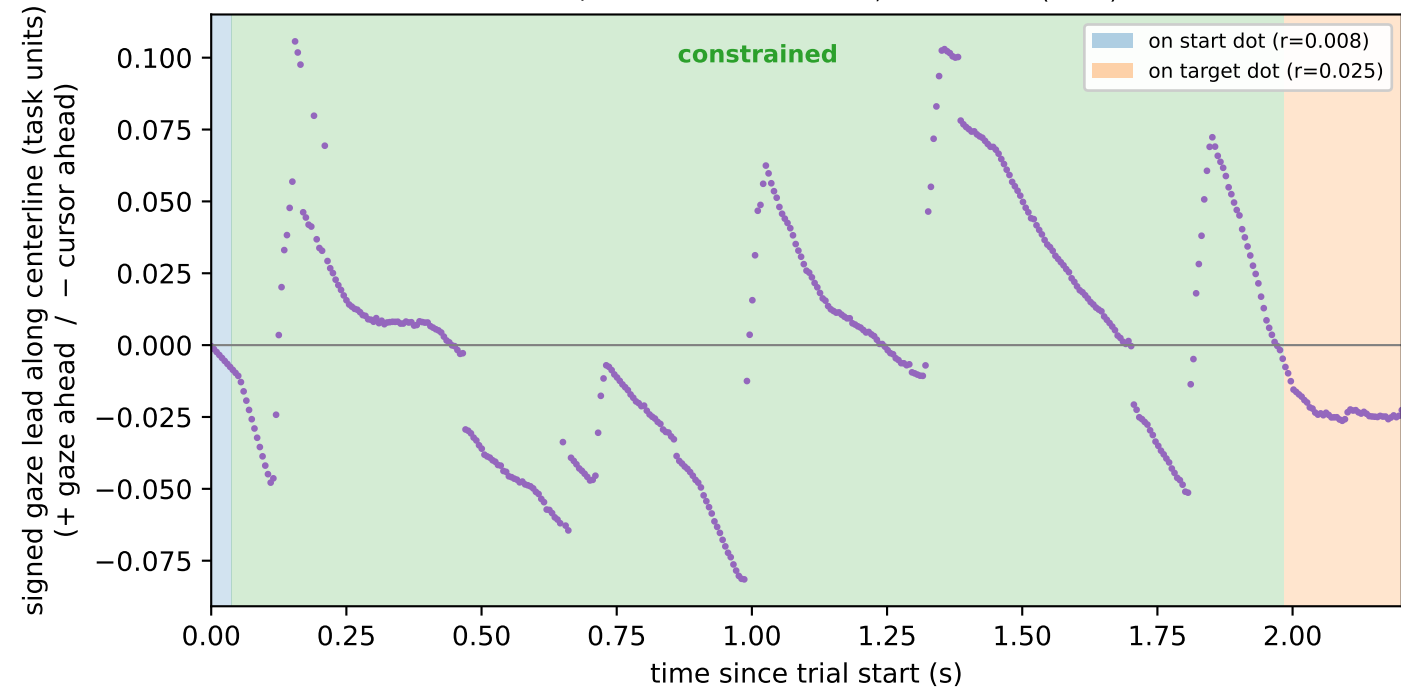

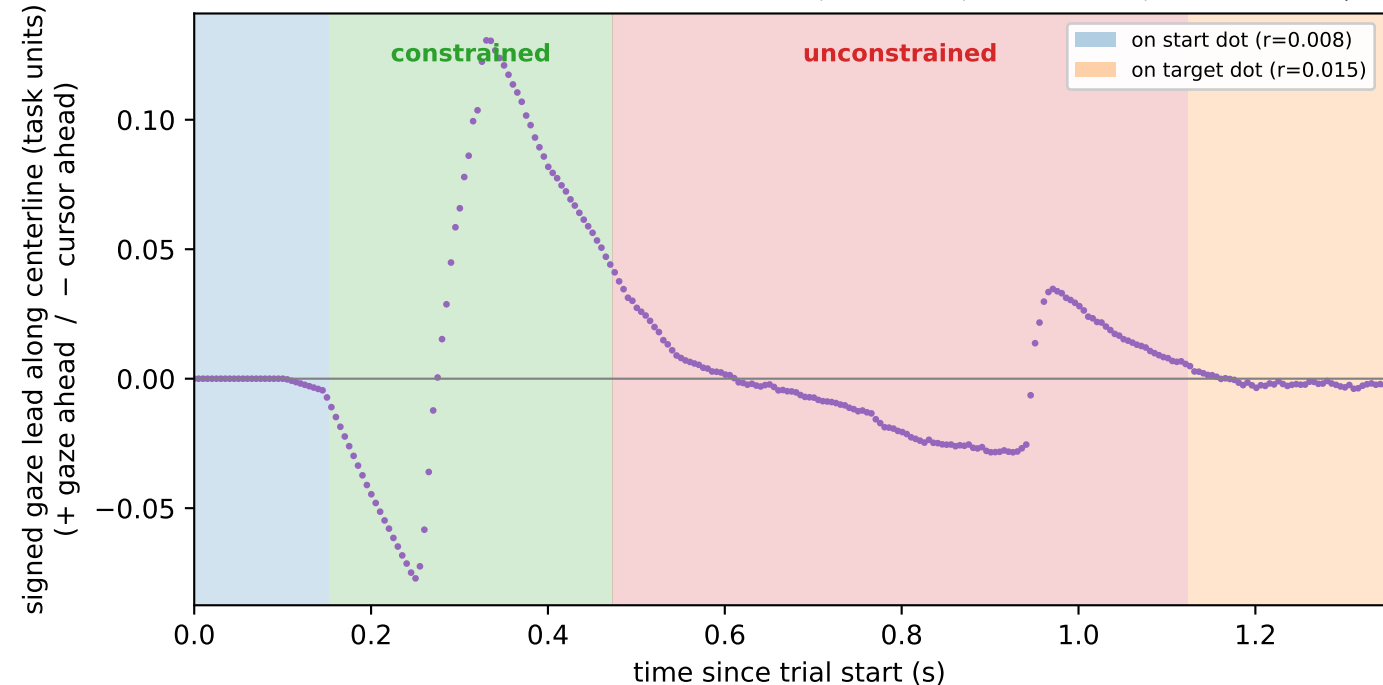

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

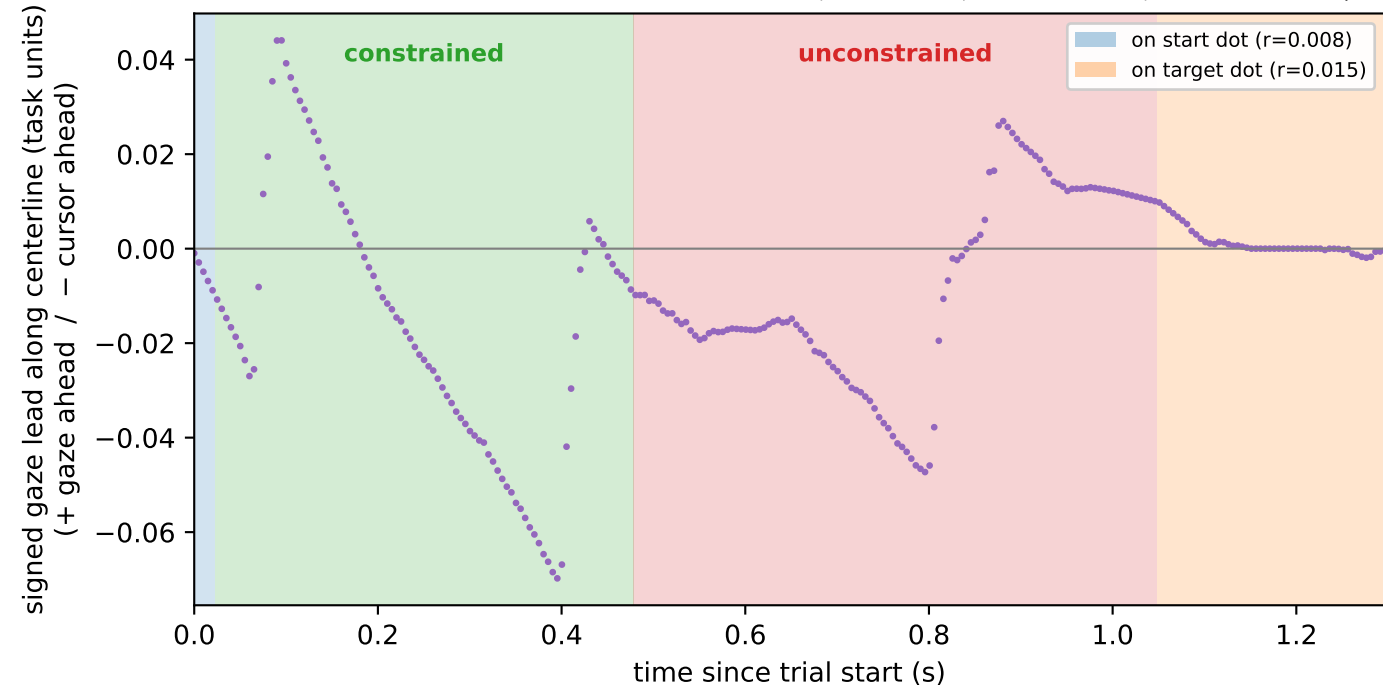

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

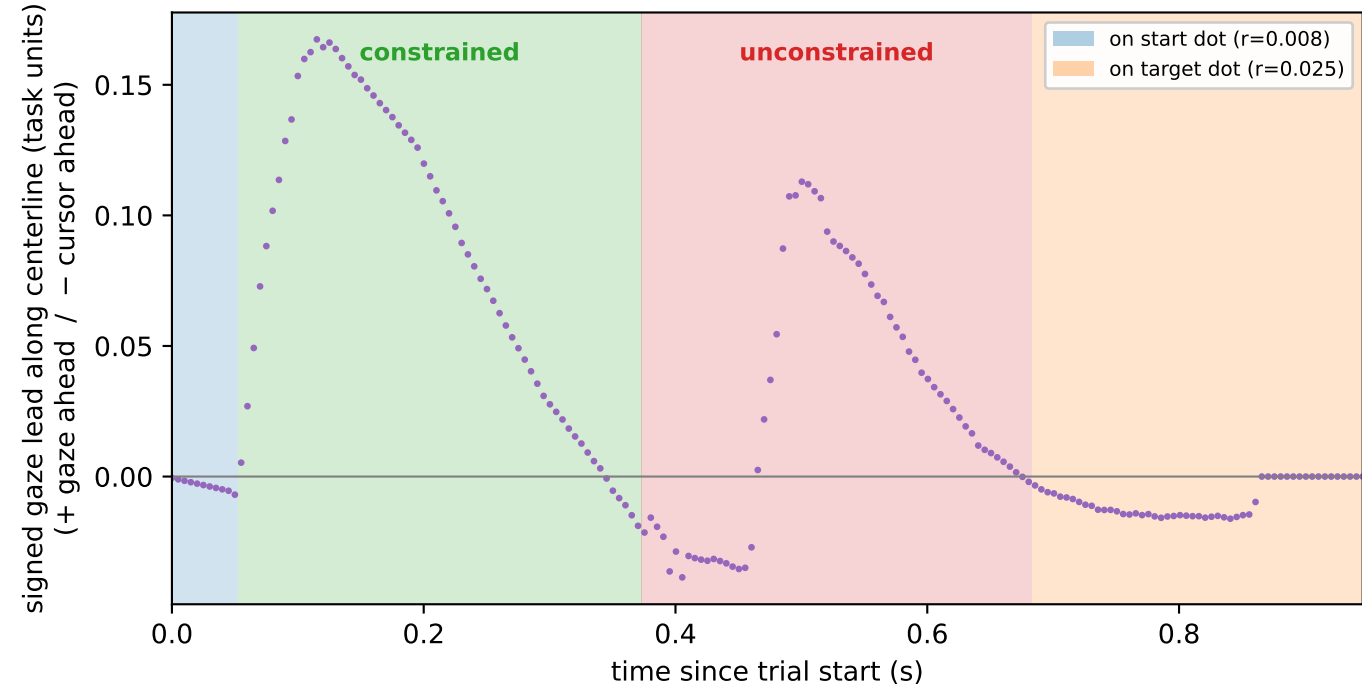

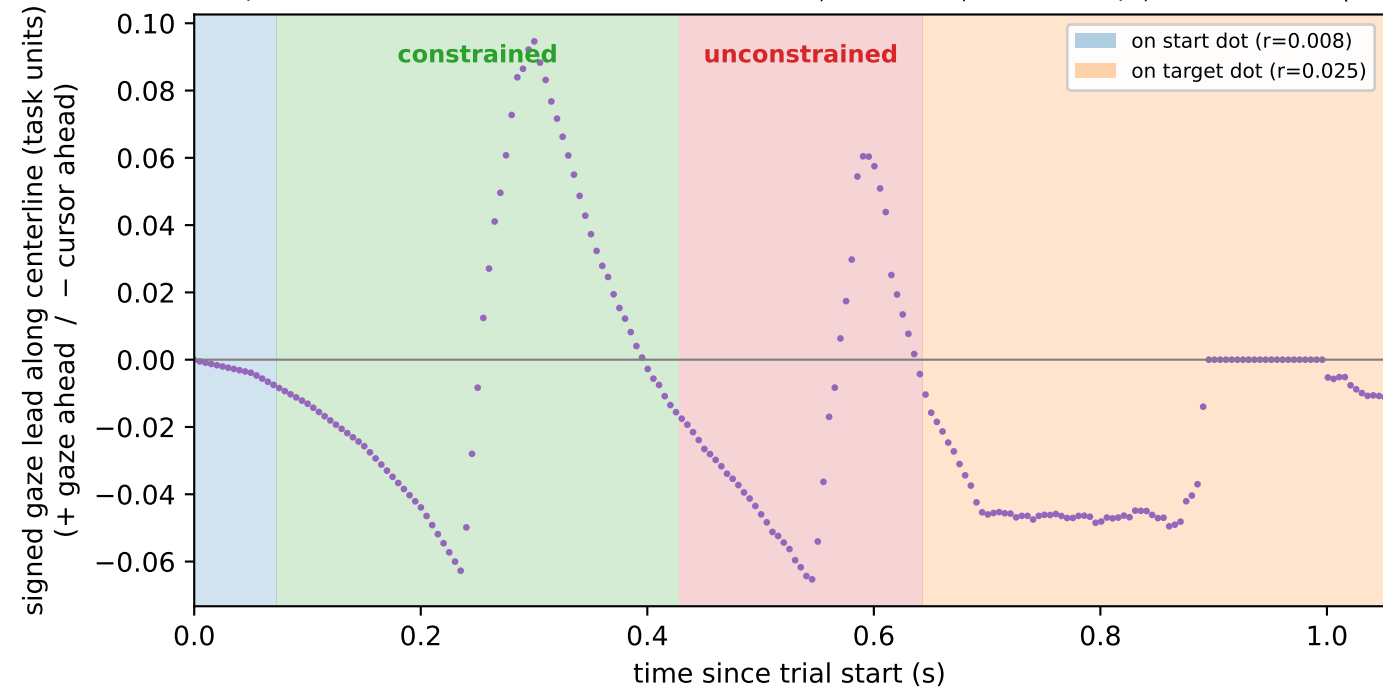

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

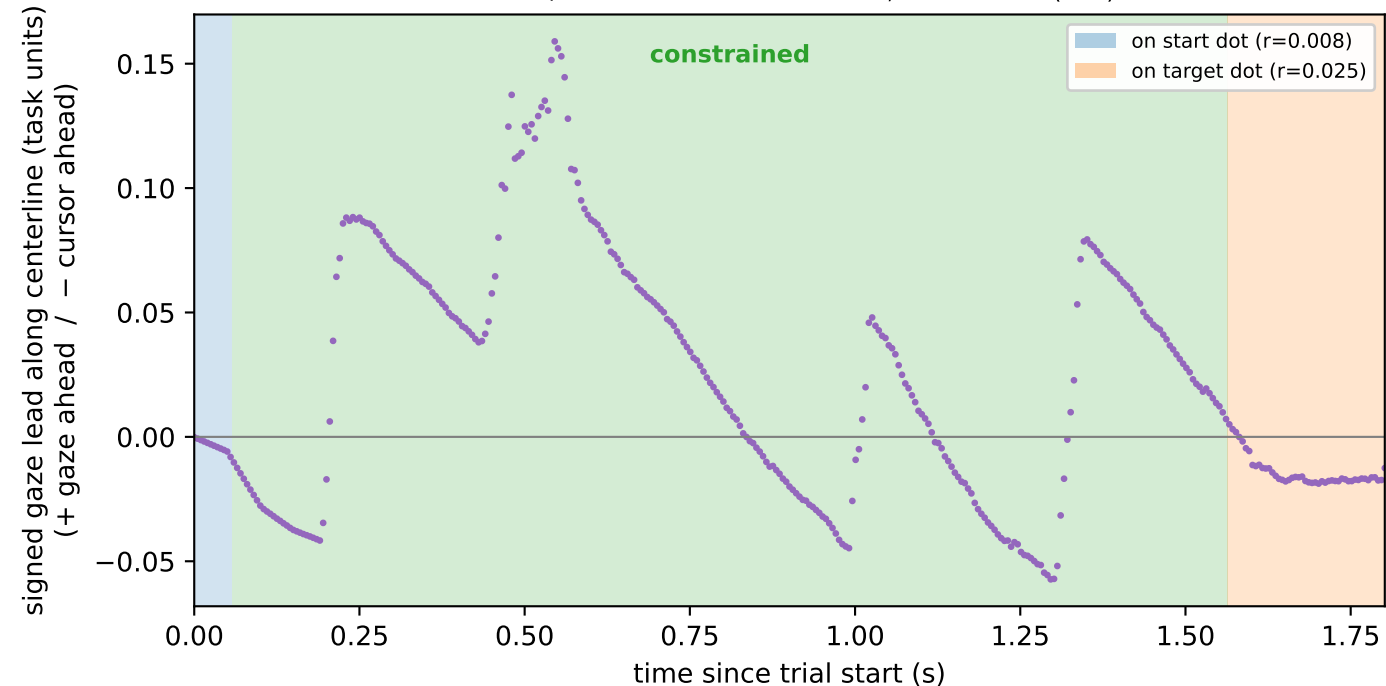

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

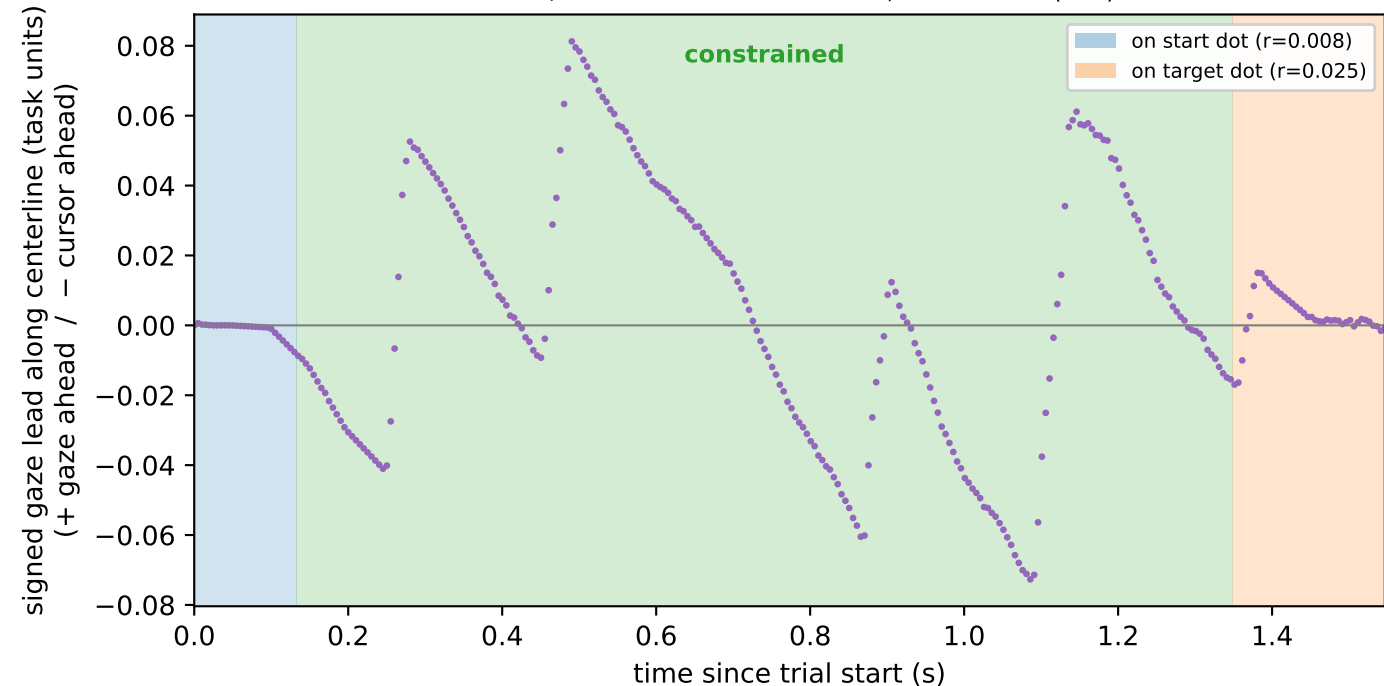

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

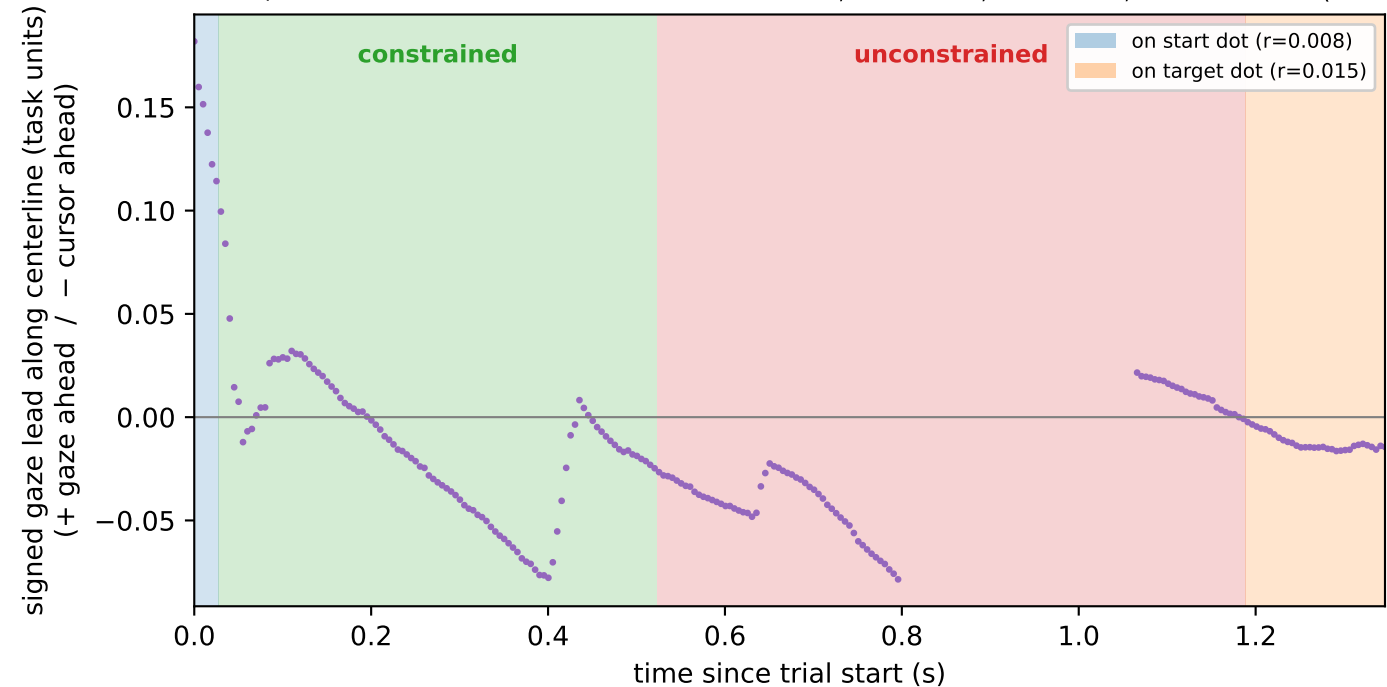

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

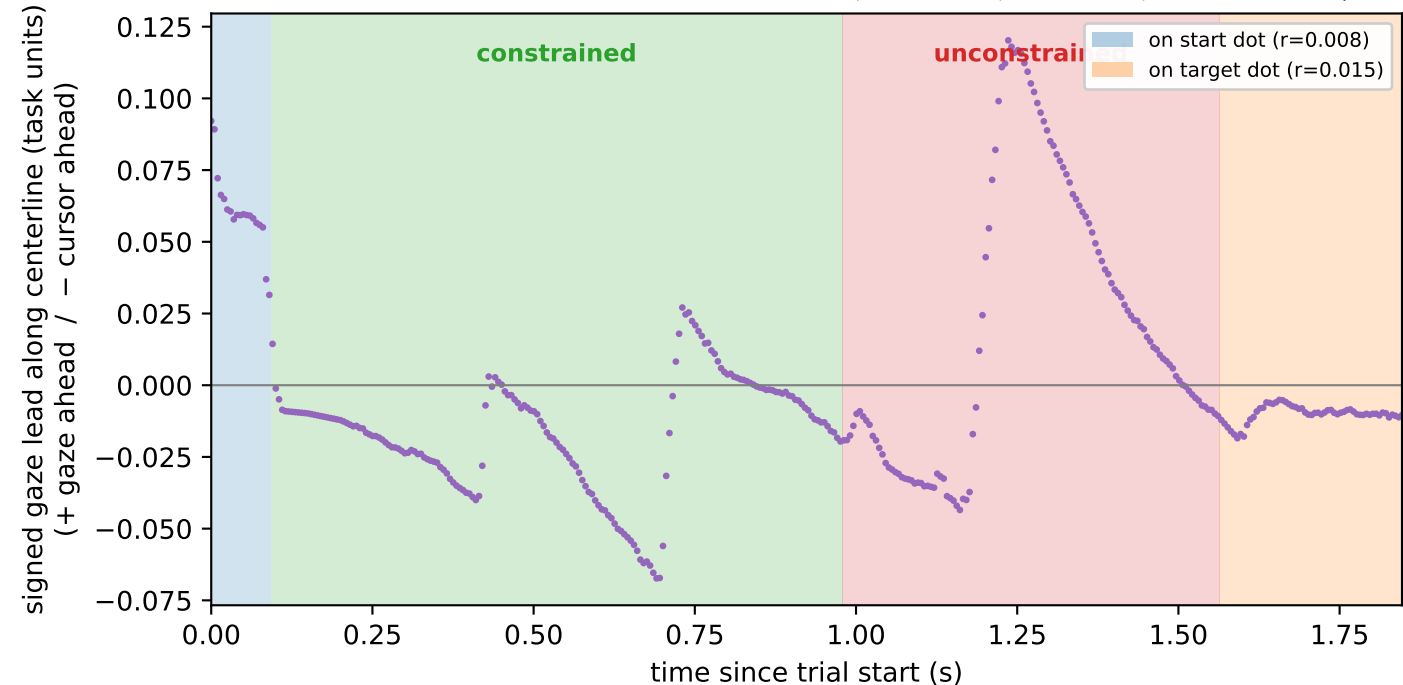

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

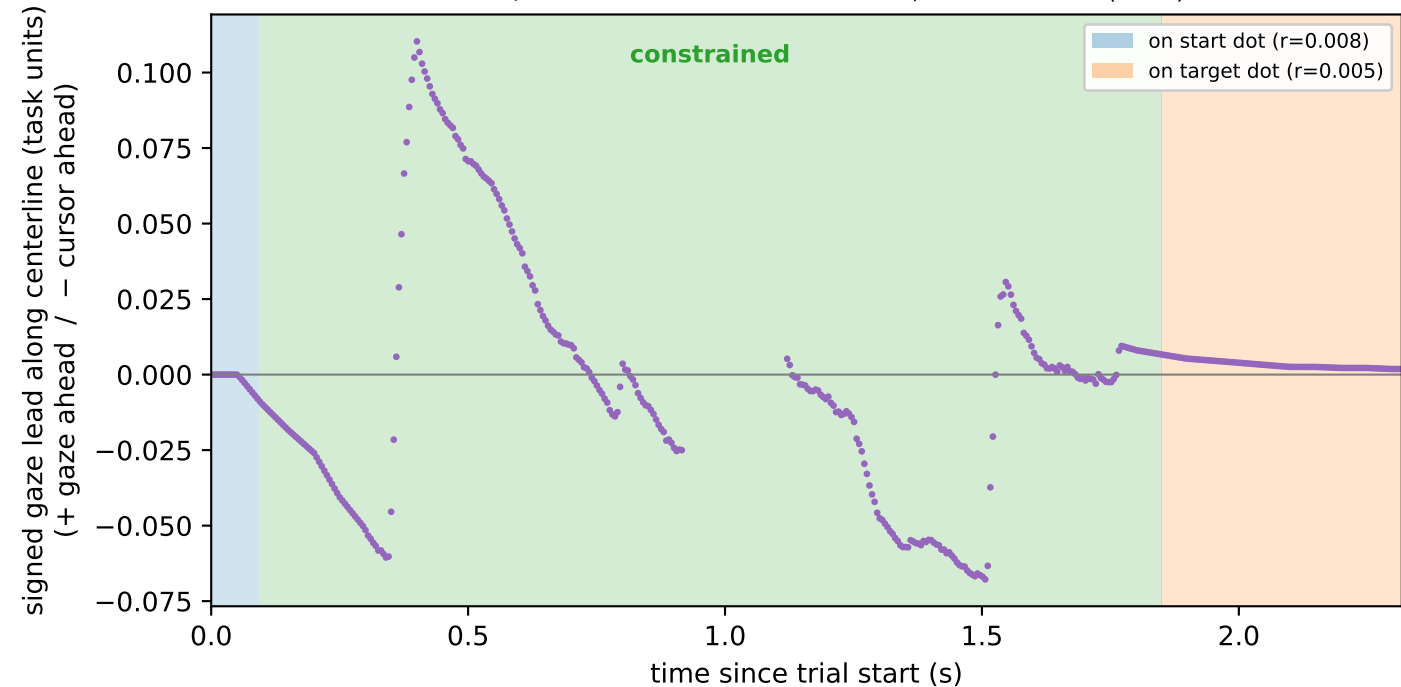

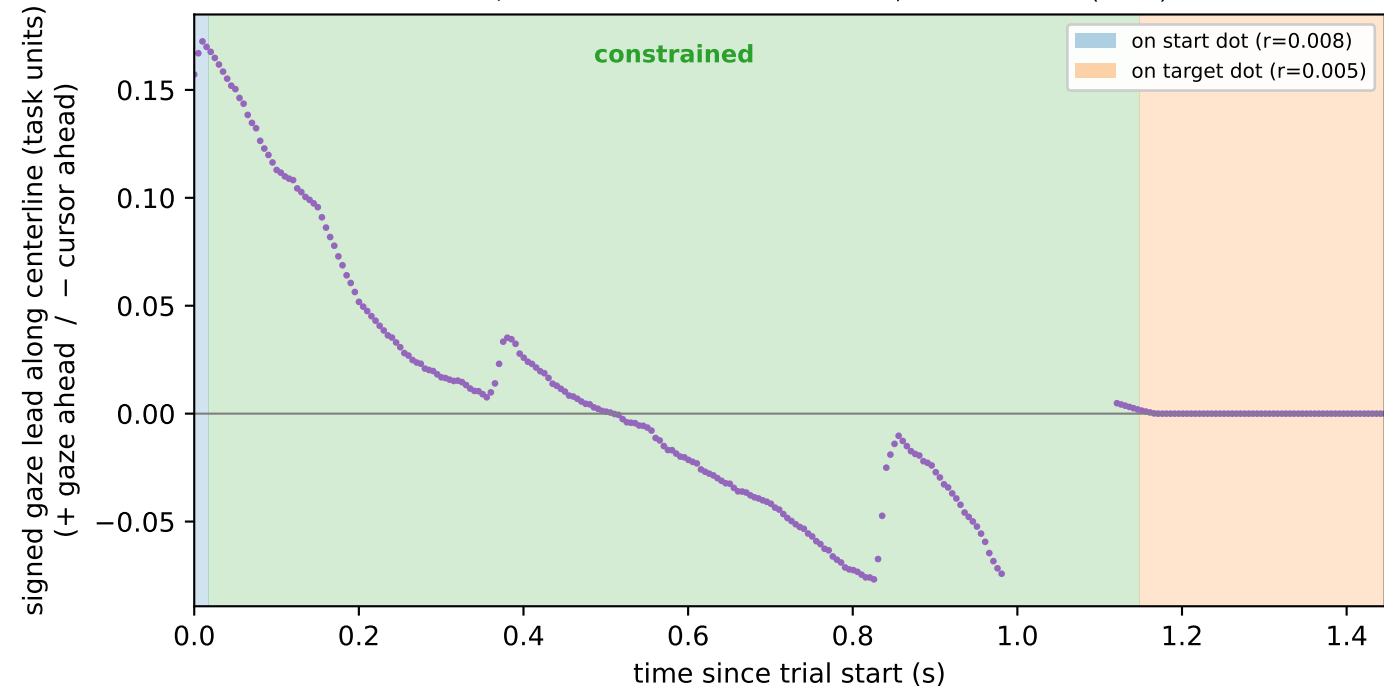

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

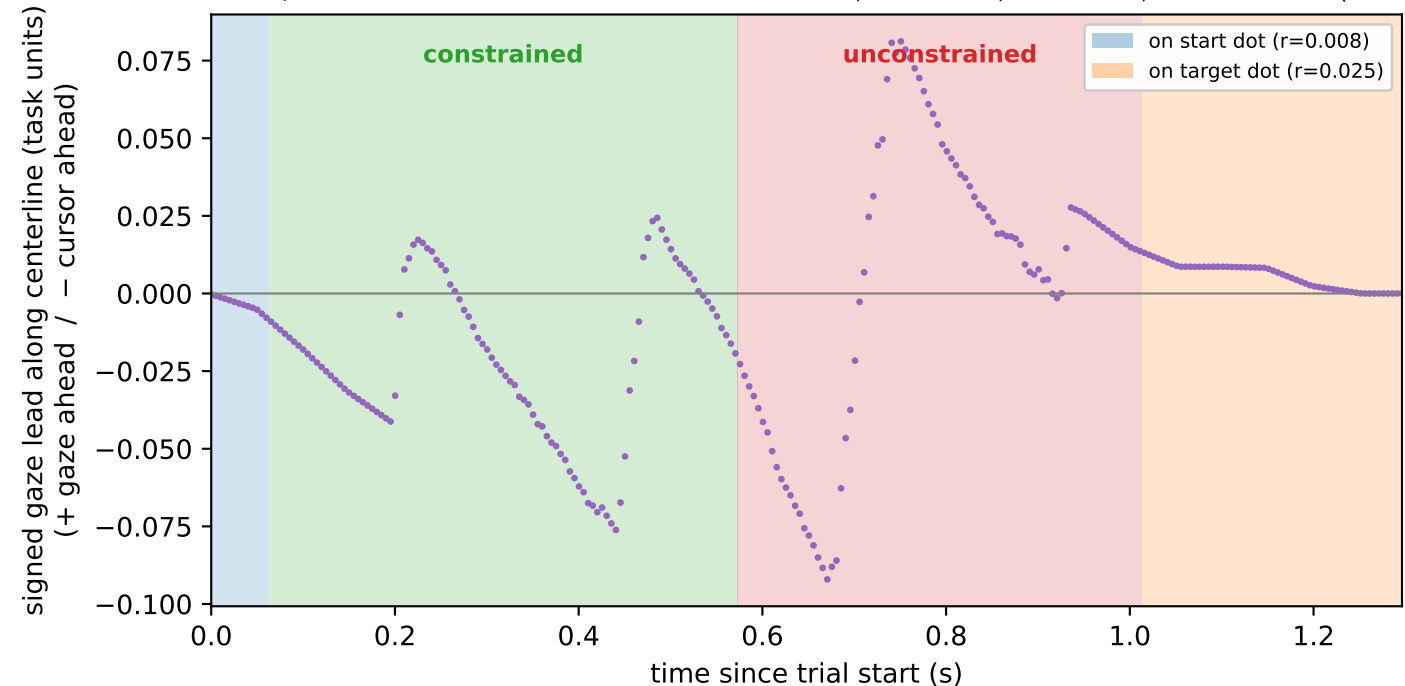

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

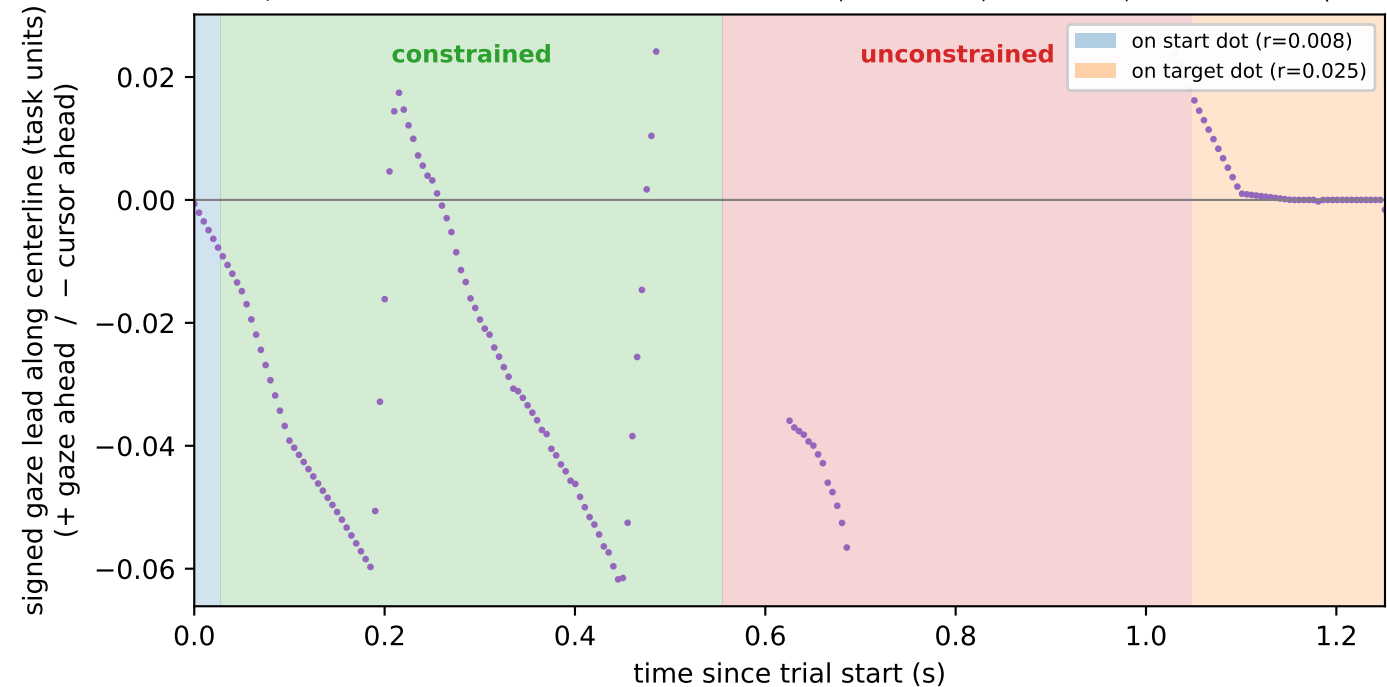

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

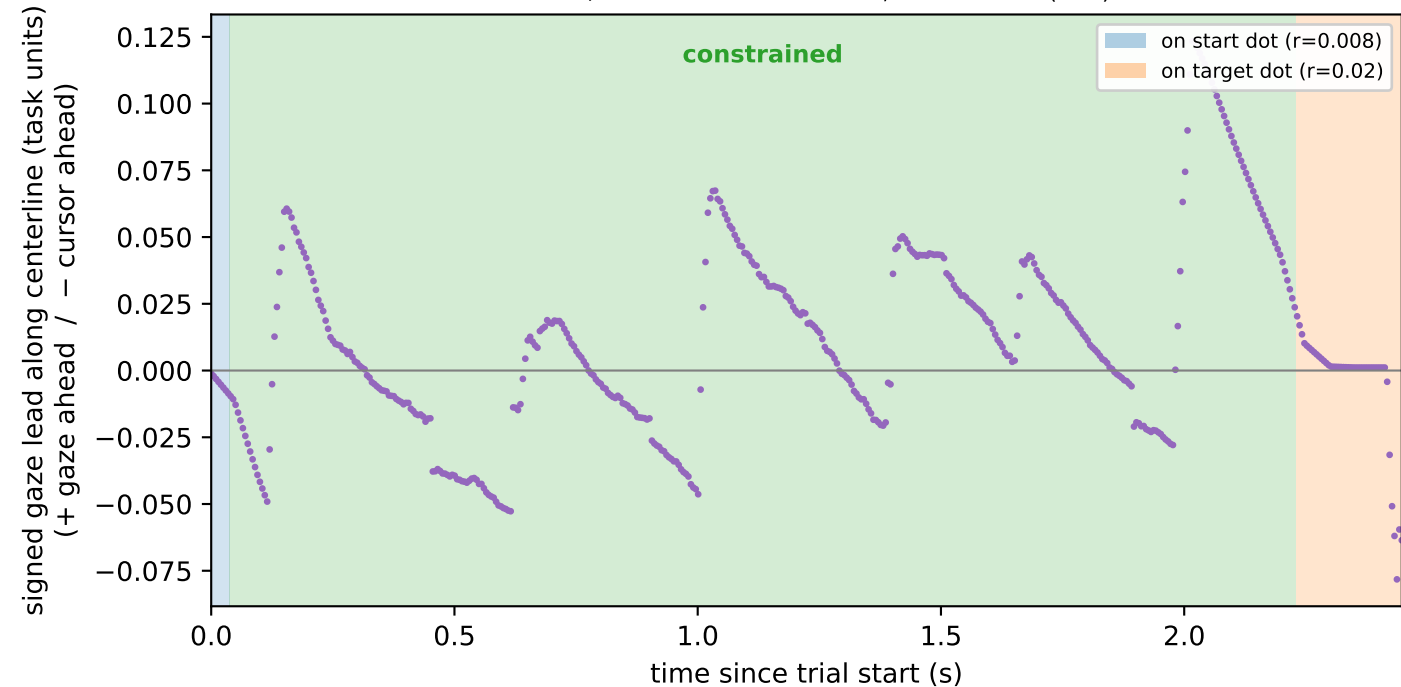

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

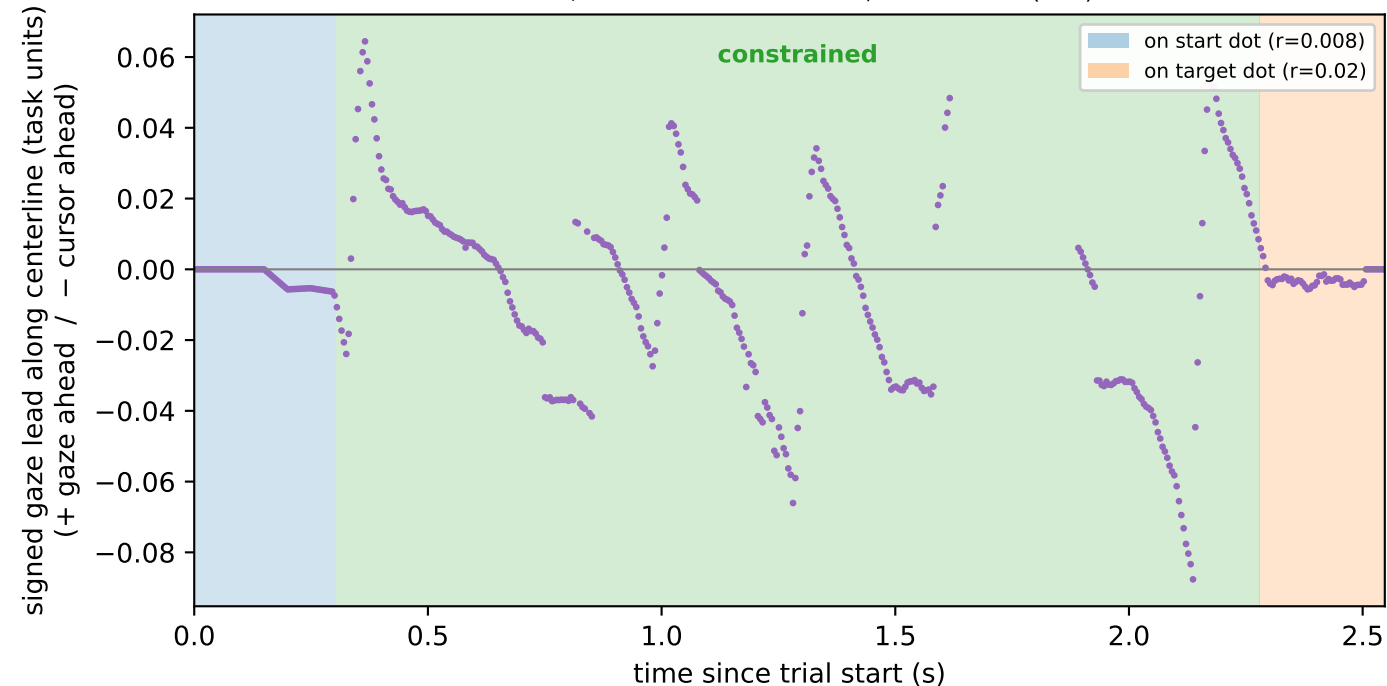

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

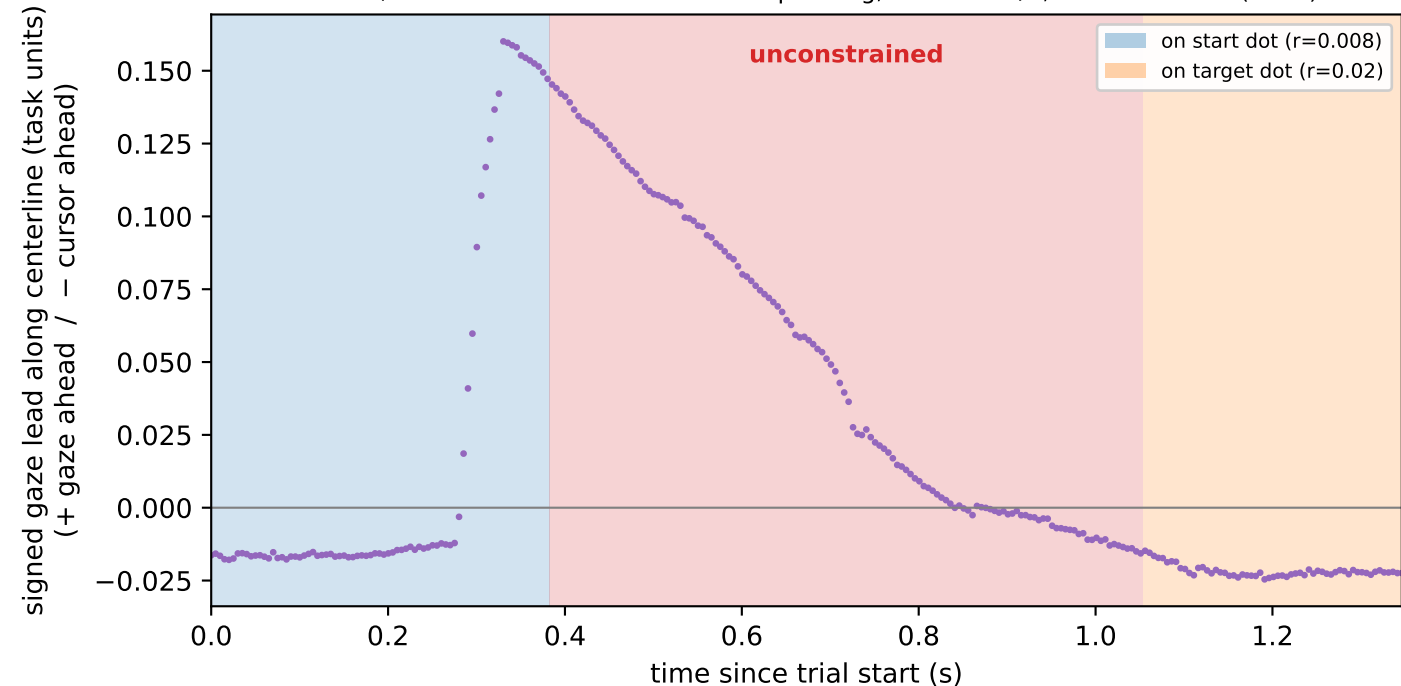

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

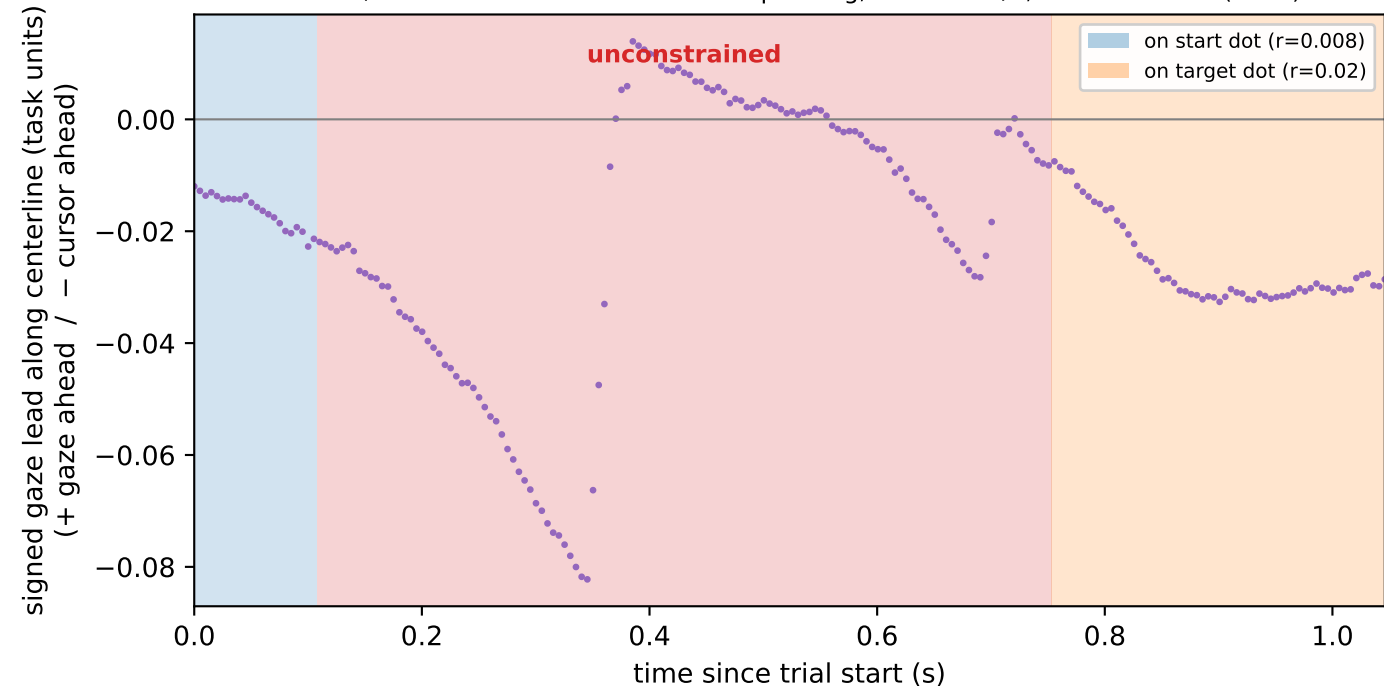

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

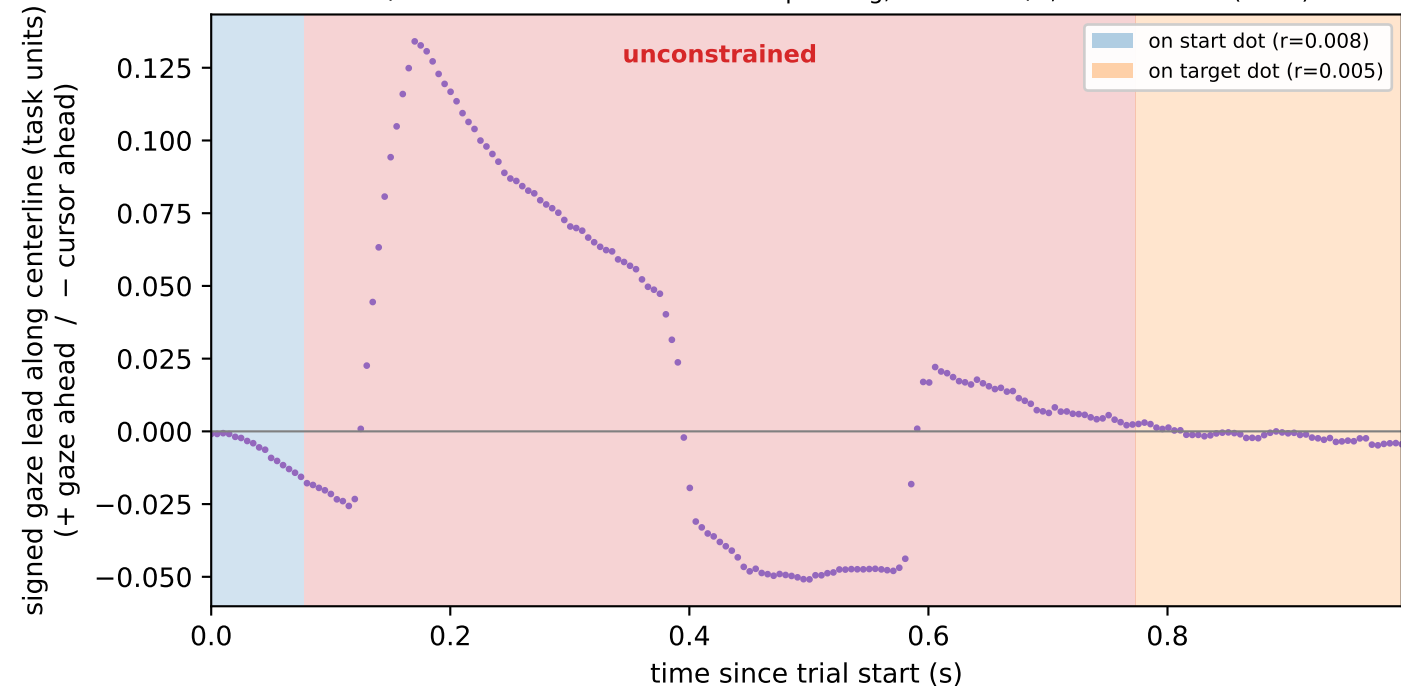

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

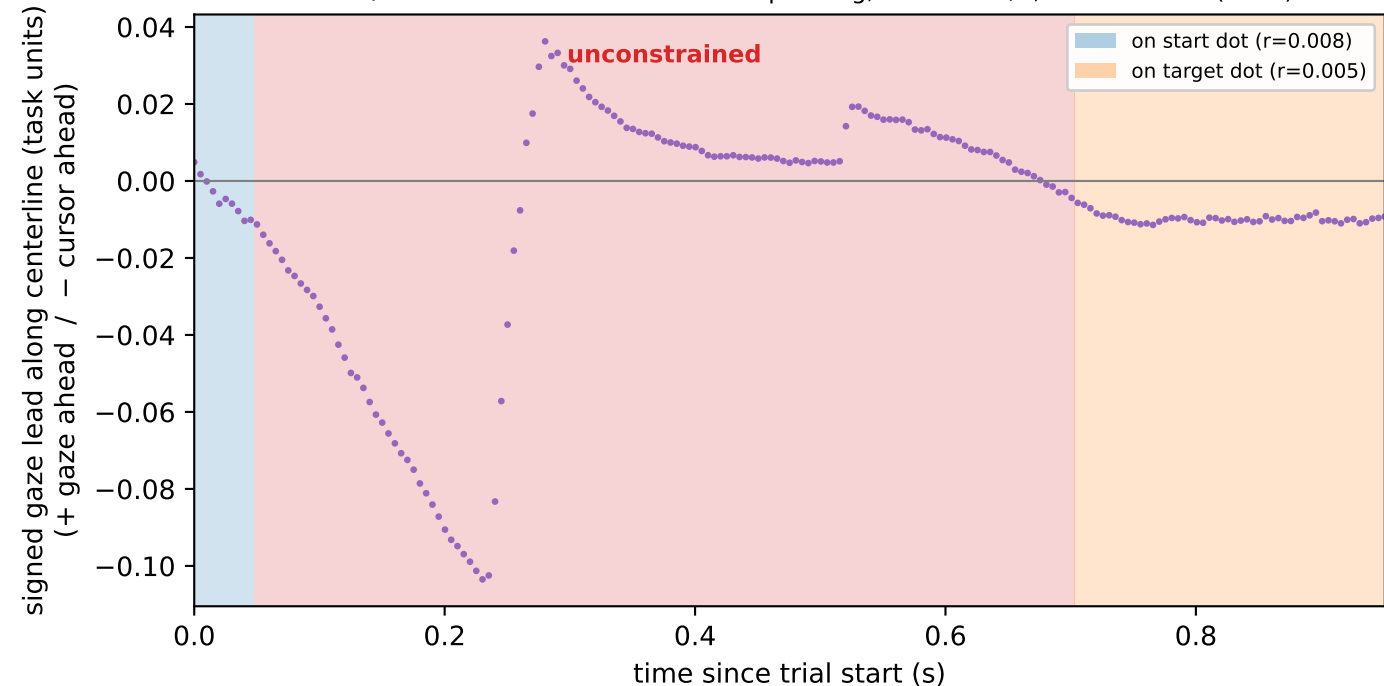

Trial 49/73 round 2 — unconstrained pointing, distance D/3, radius 20mm (id 45)

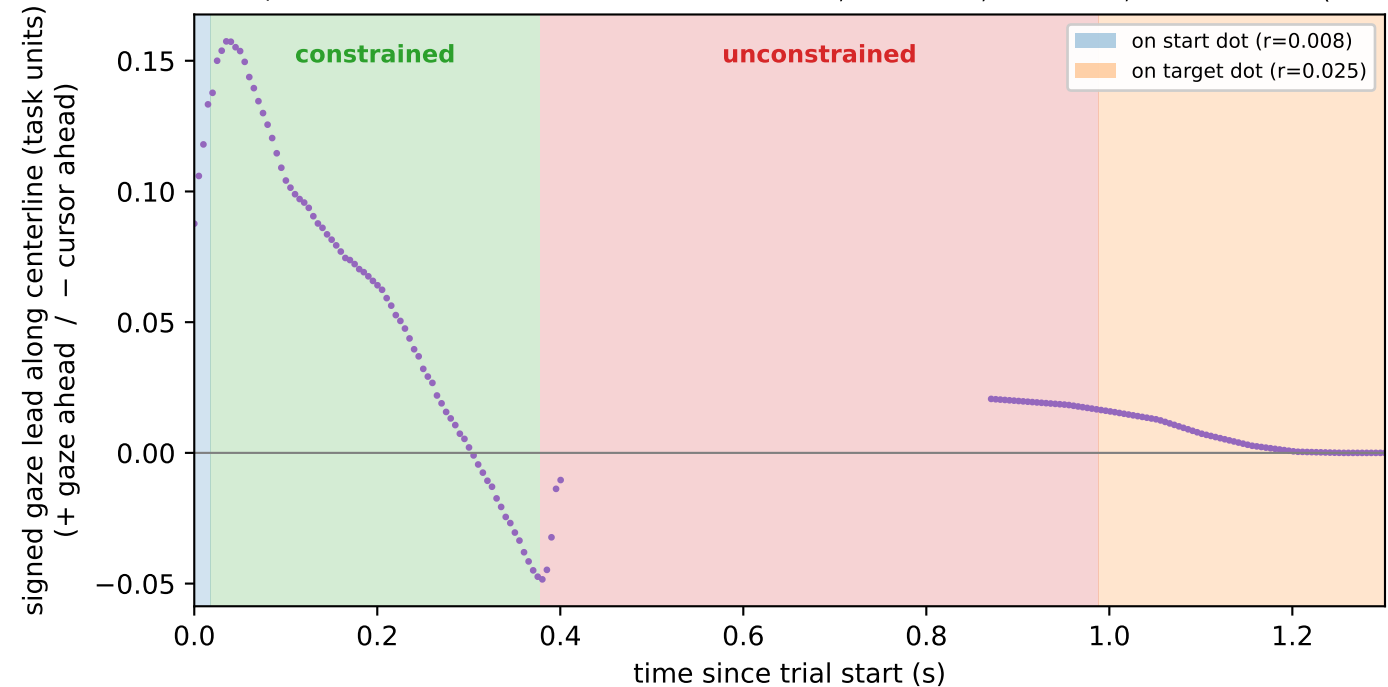

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

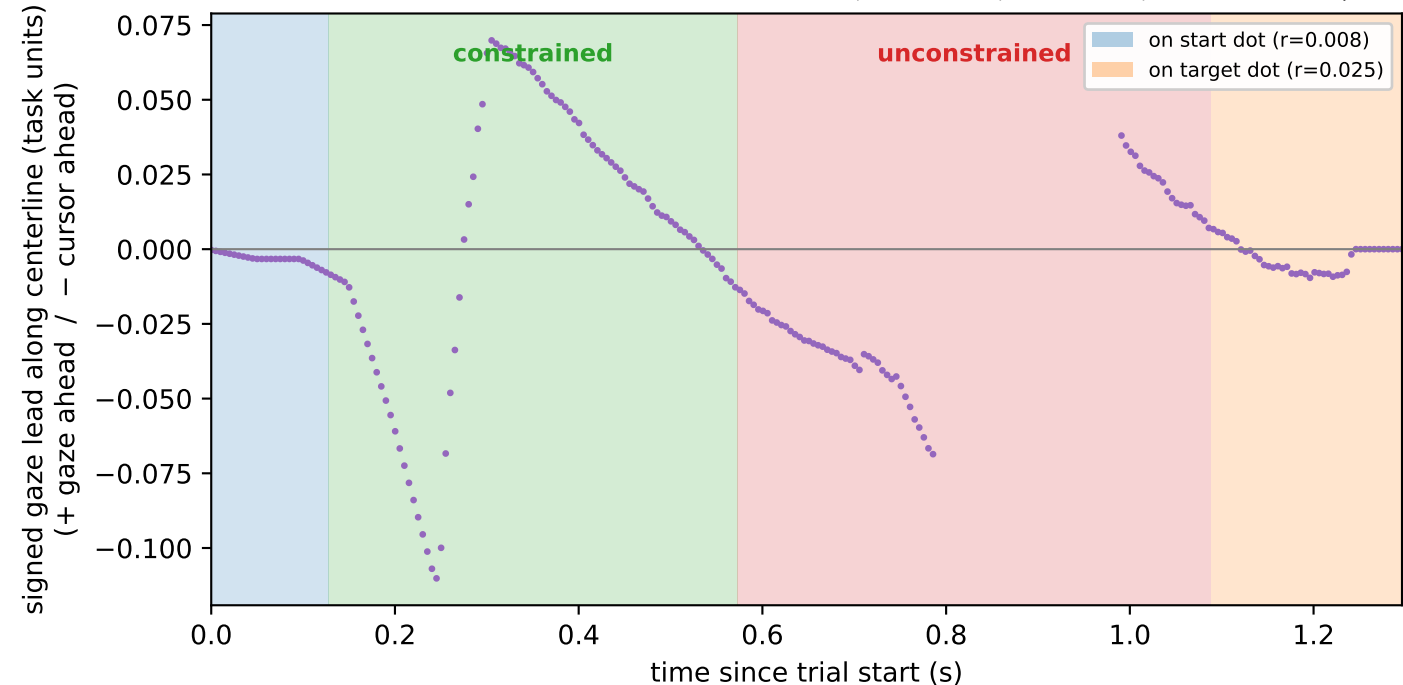

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

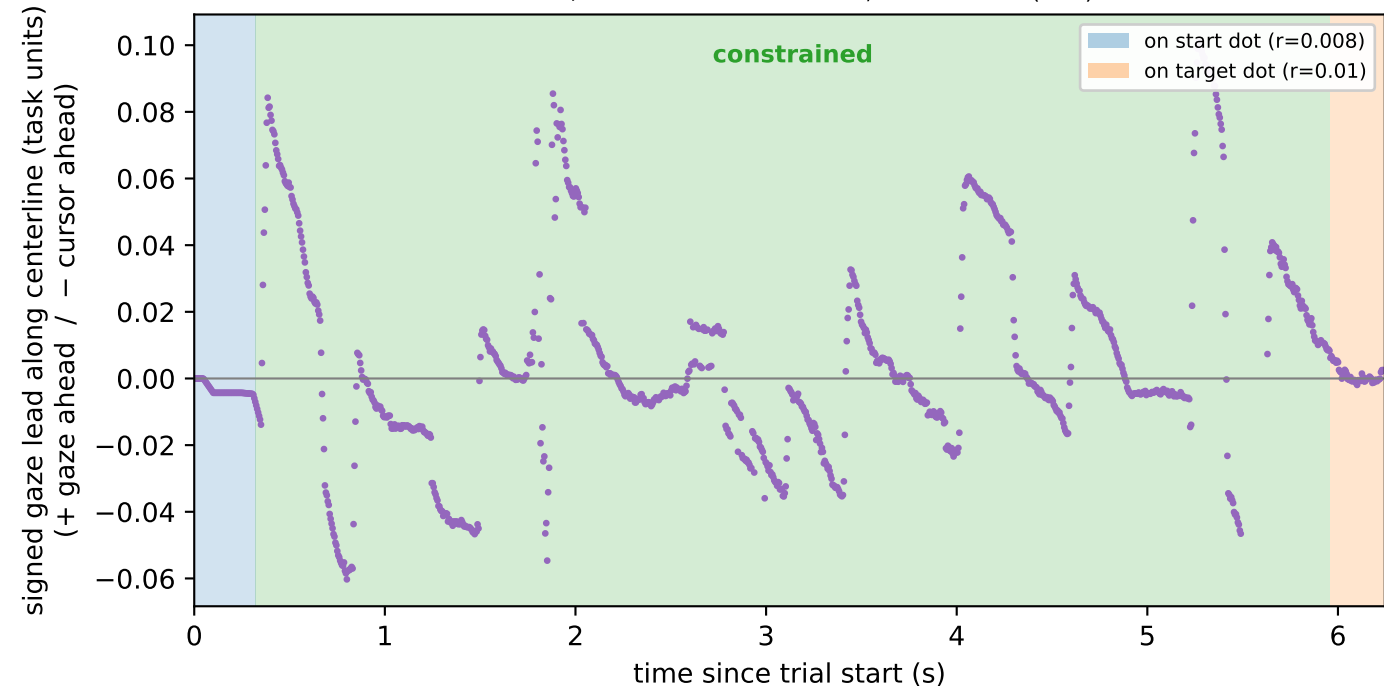

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

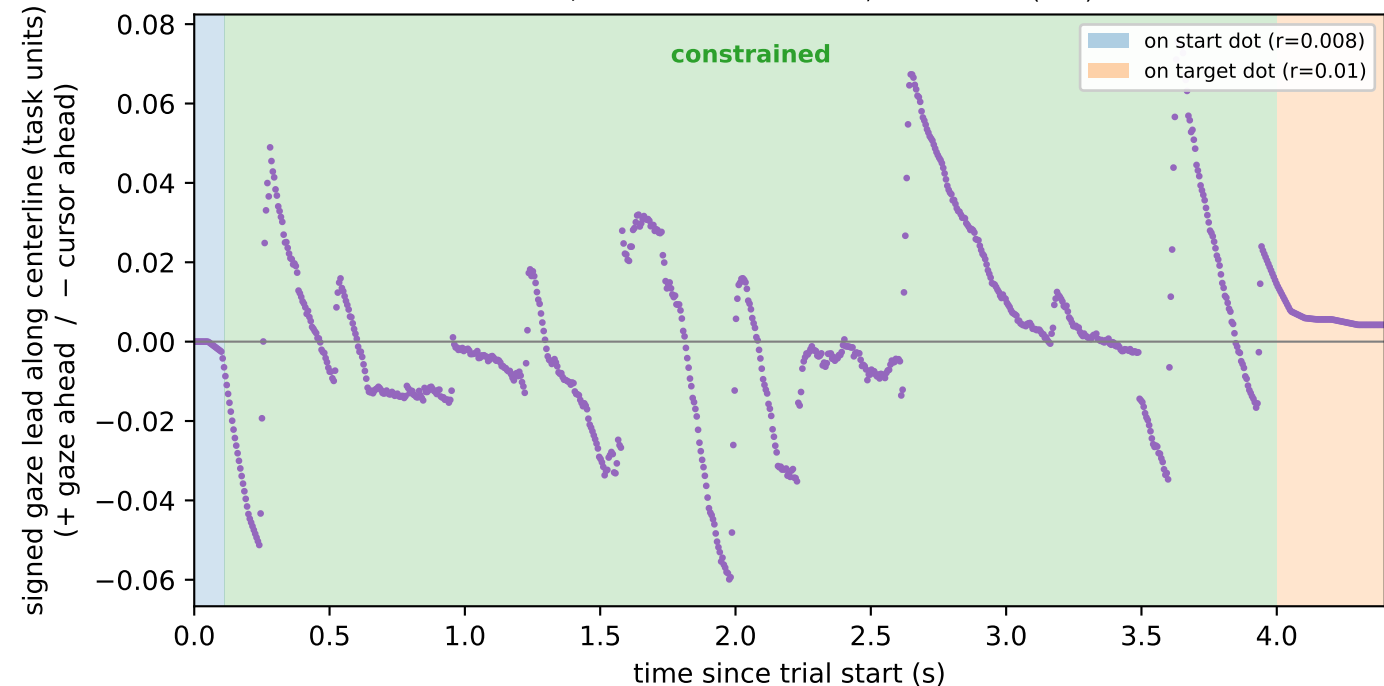

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

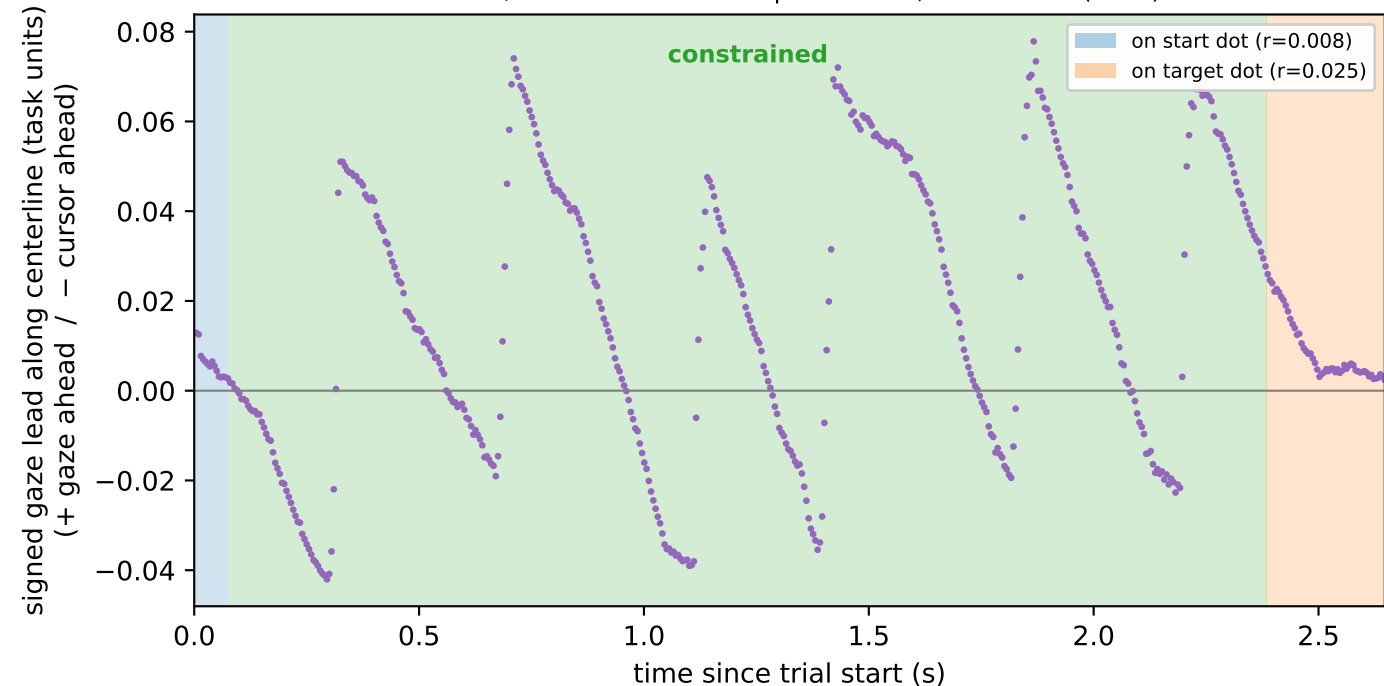

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

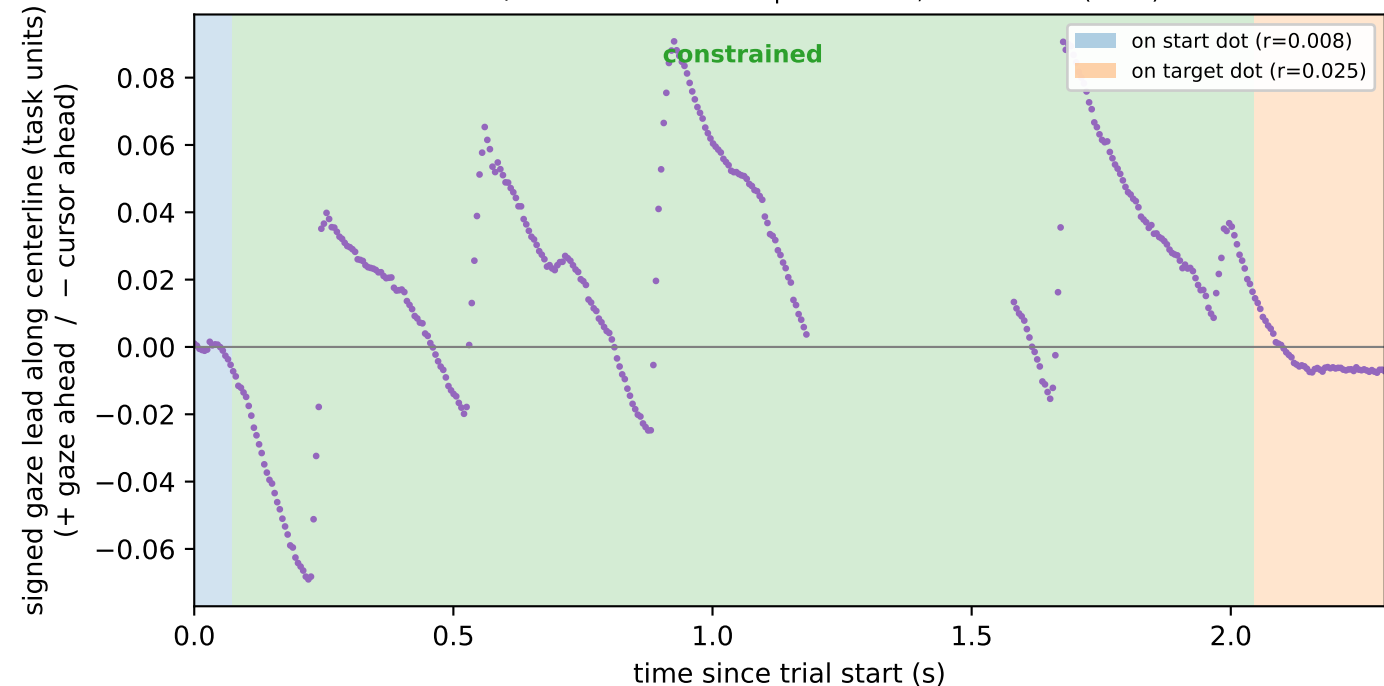

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

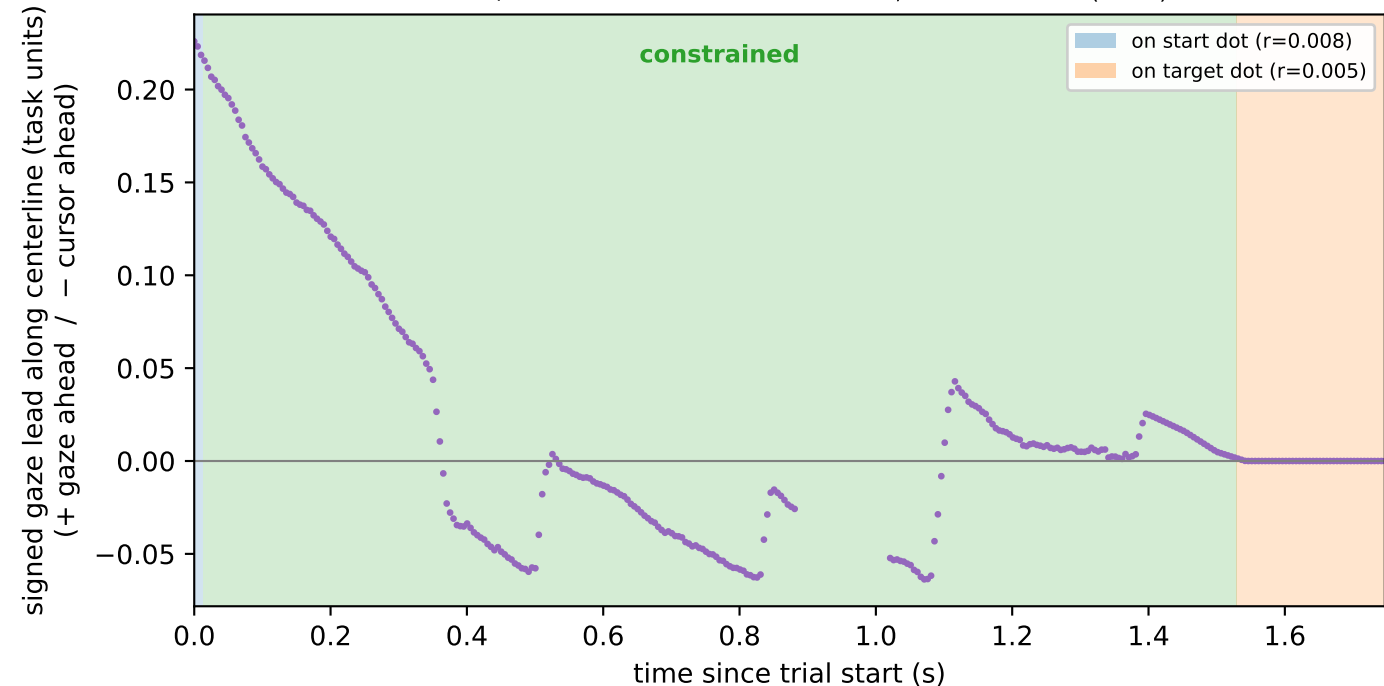

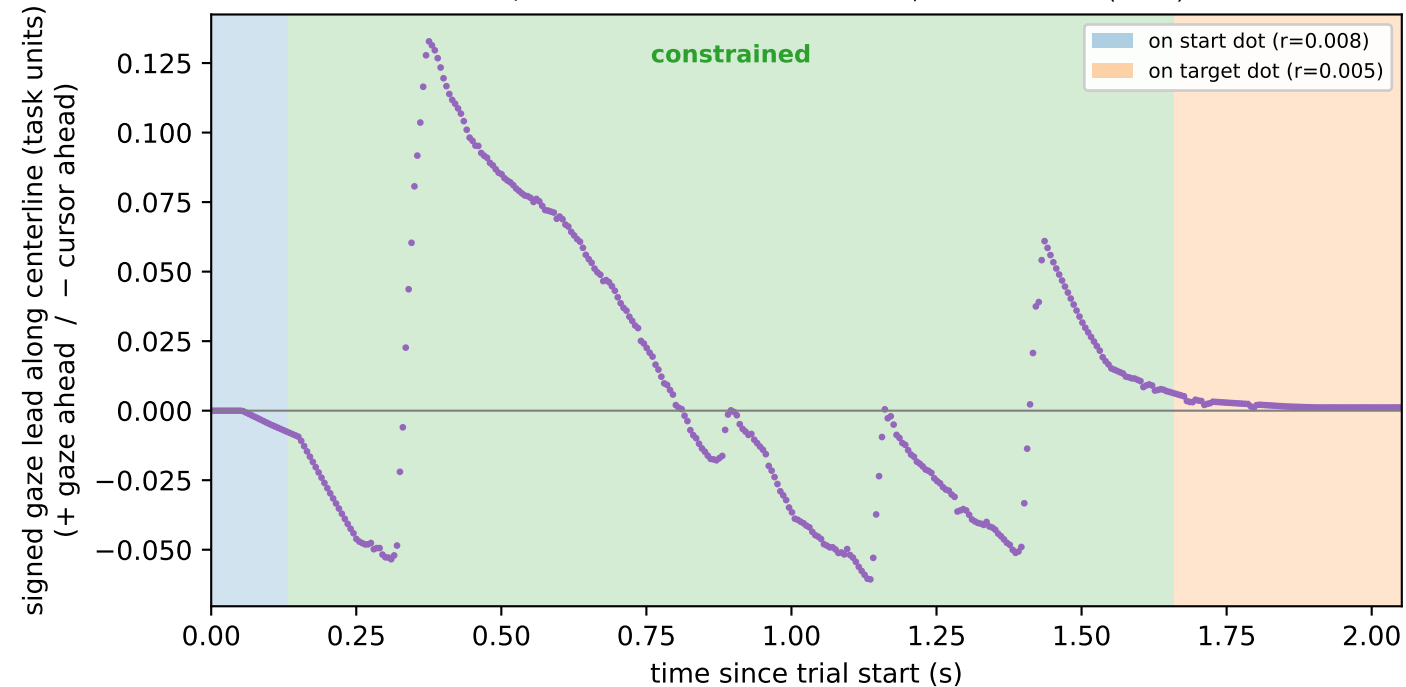

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

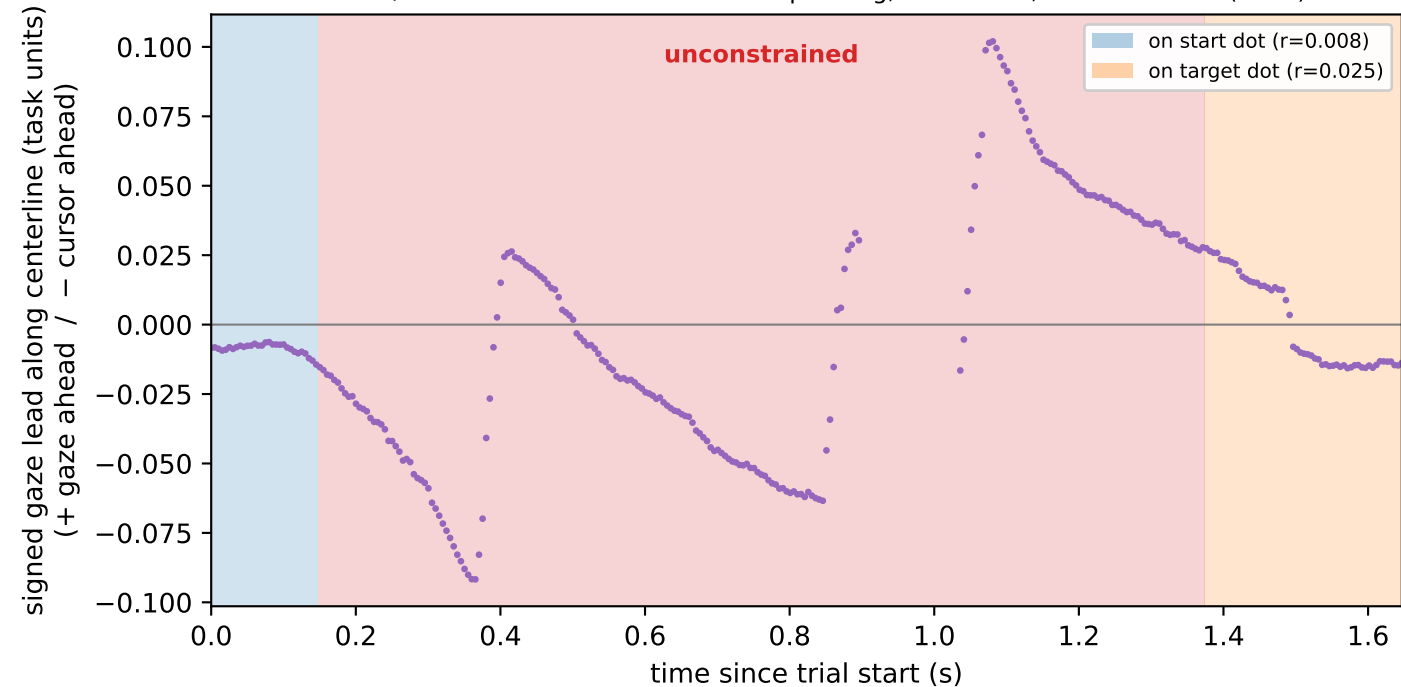

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

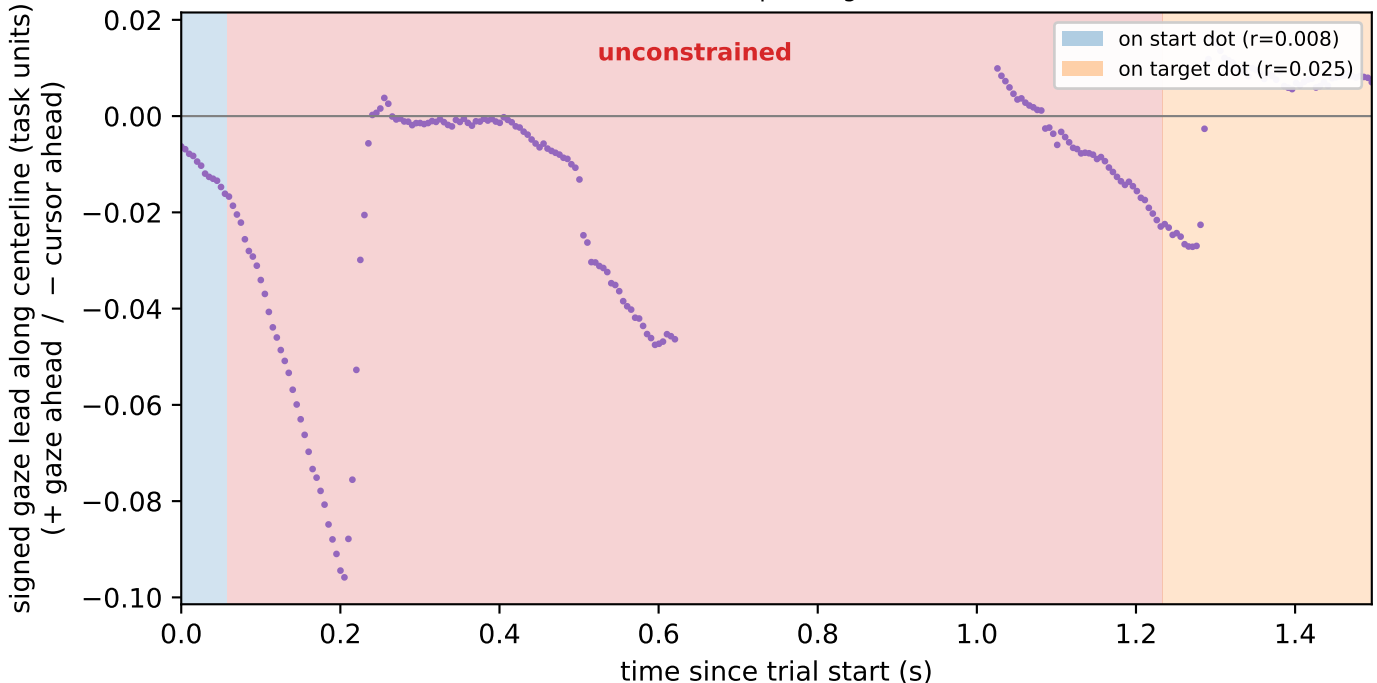

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

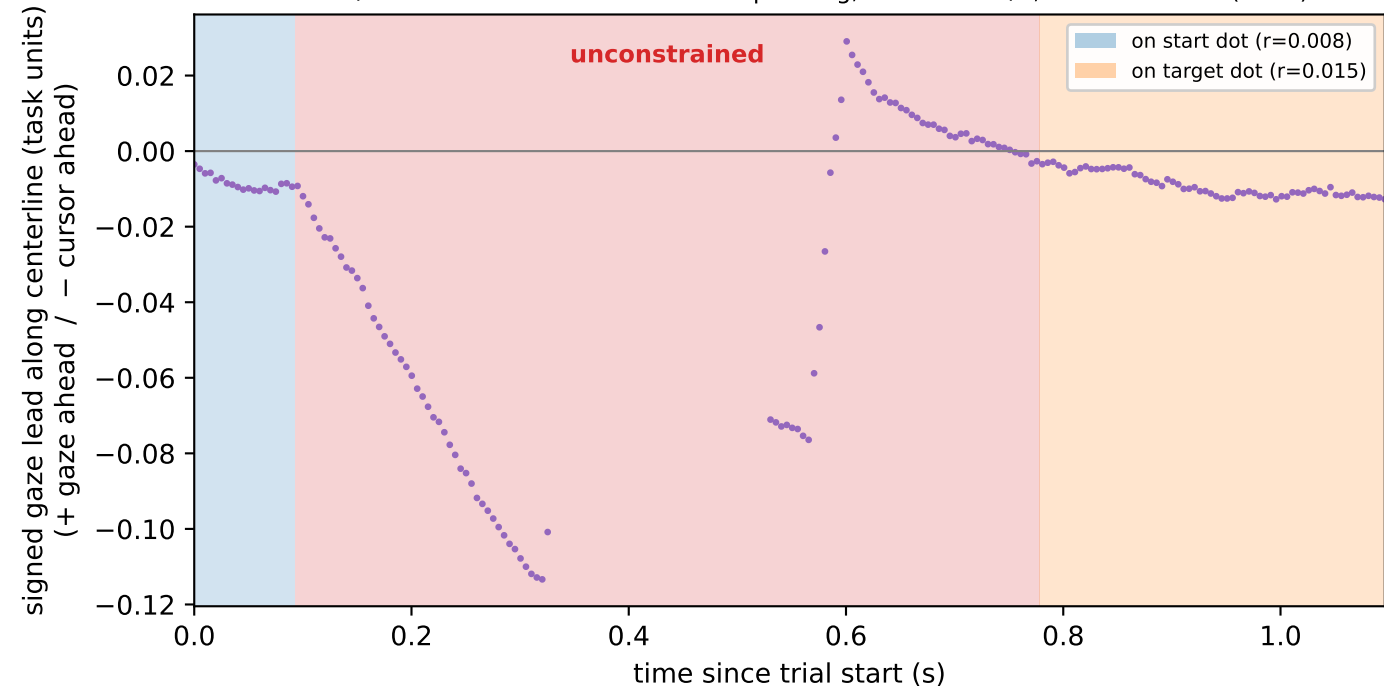

Trial 55/73 round 1 — unconstrained pointing, distance D, radius 25mm (id 56)

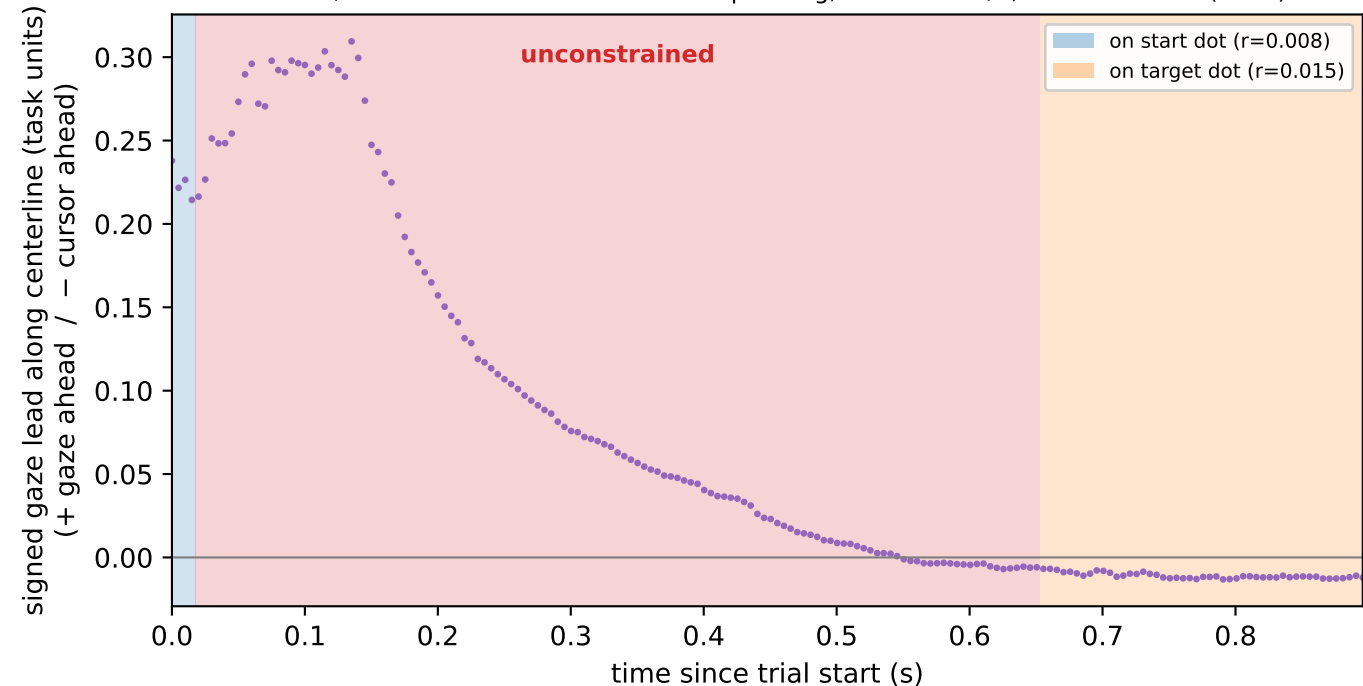

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

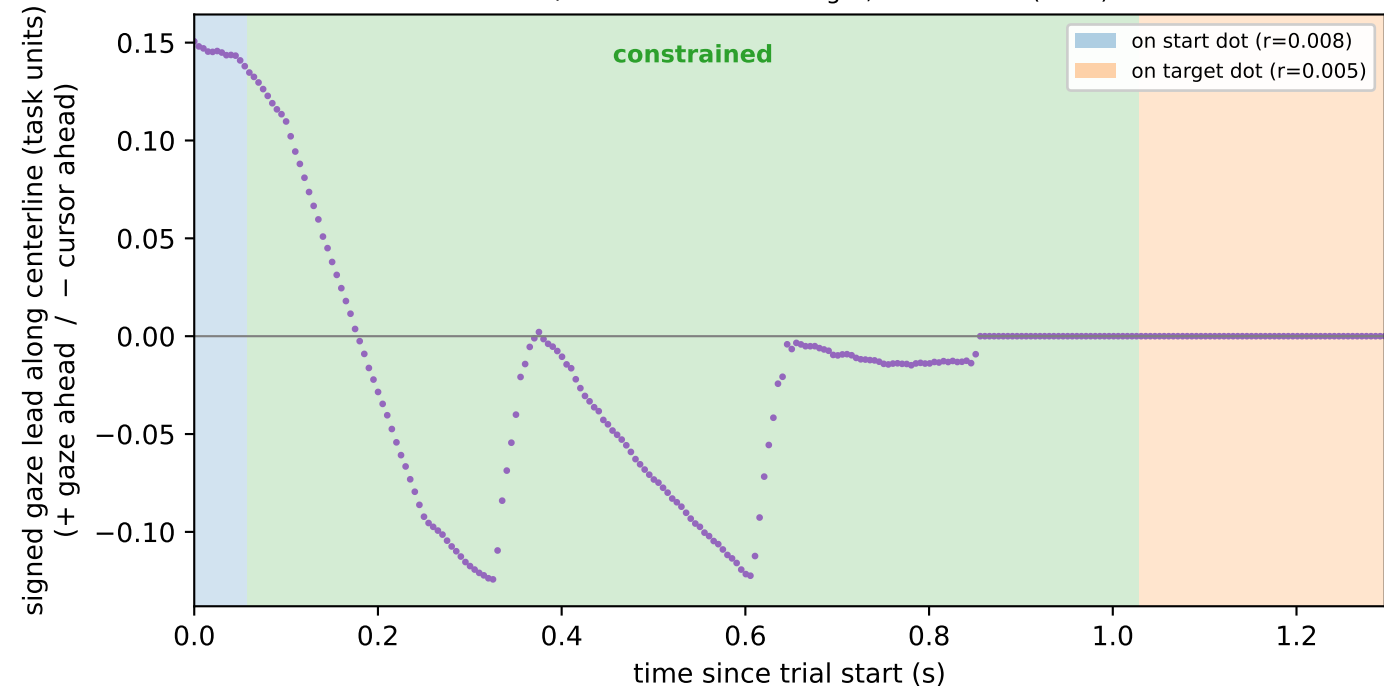

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

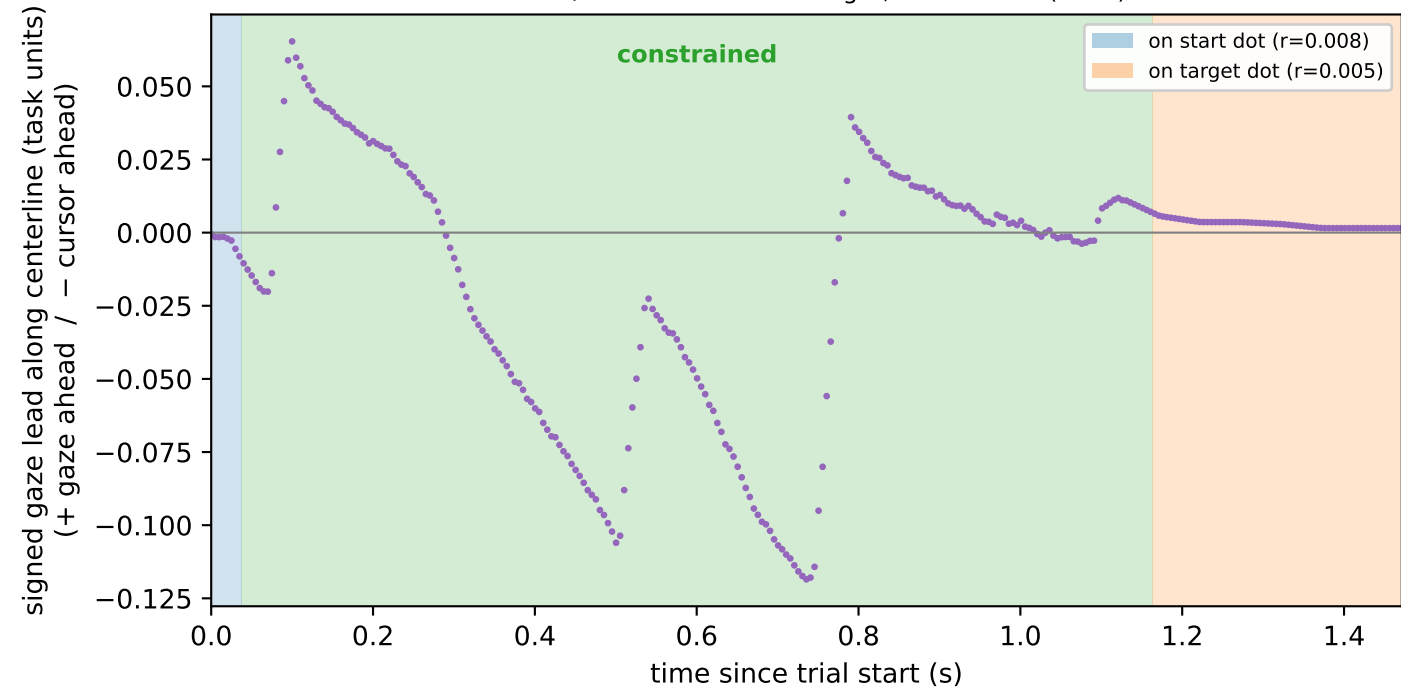

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

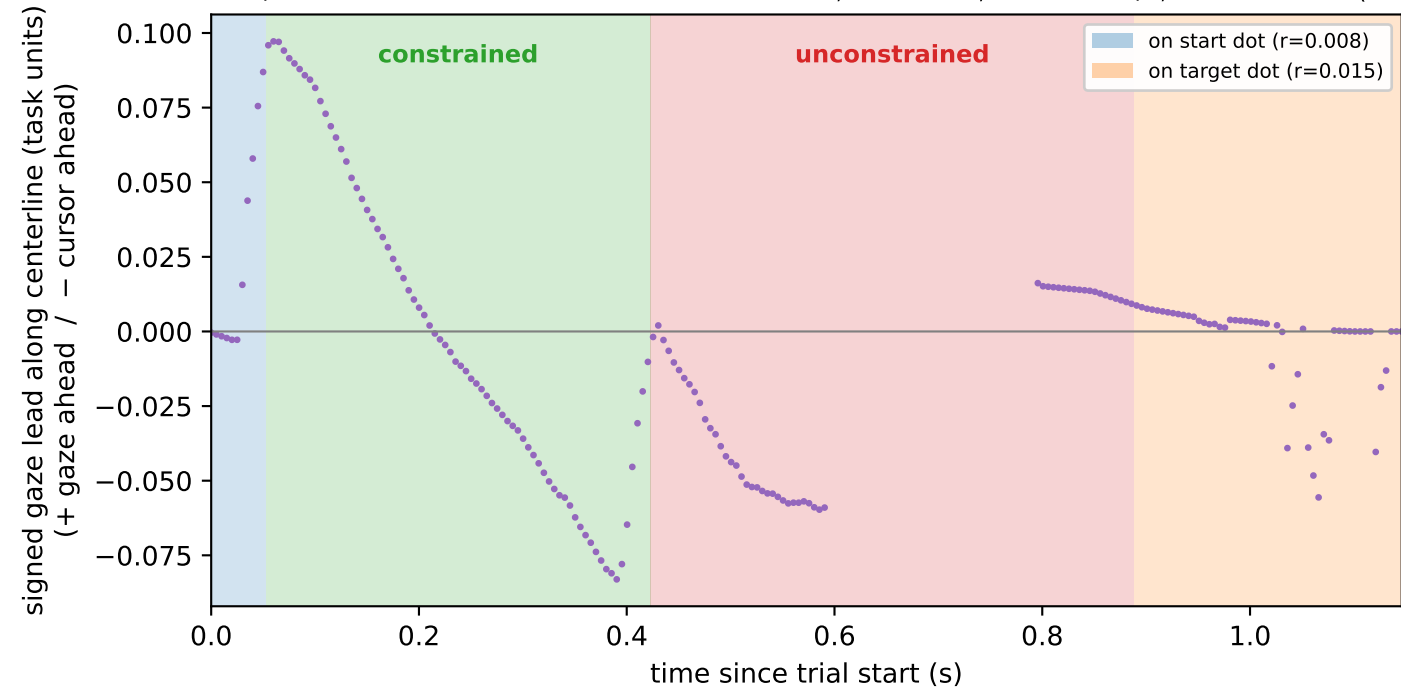

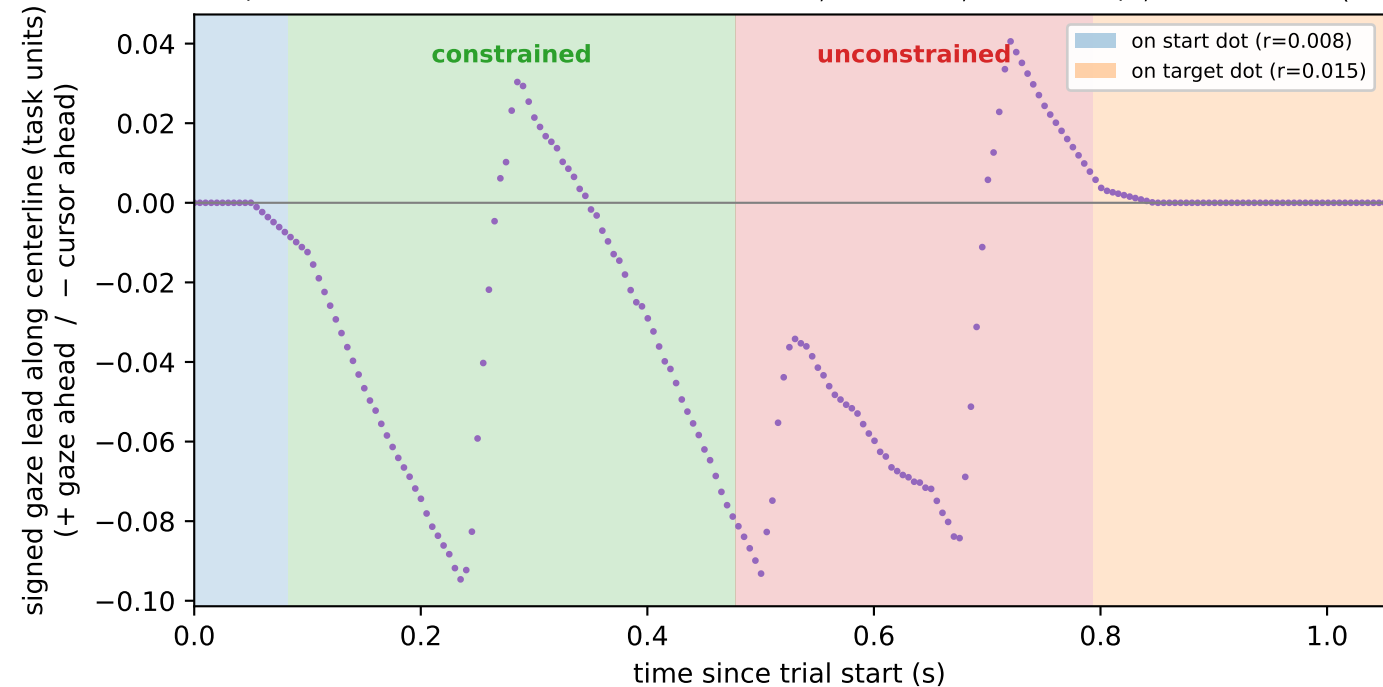

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

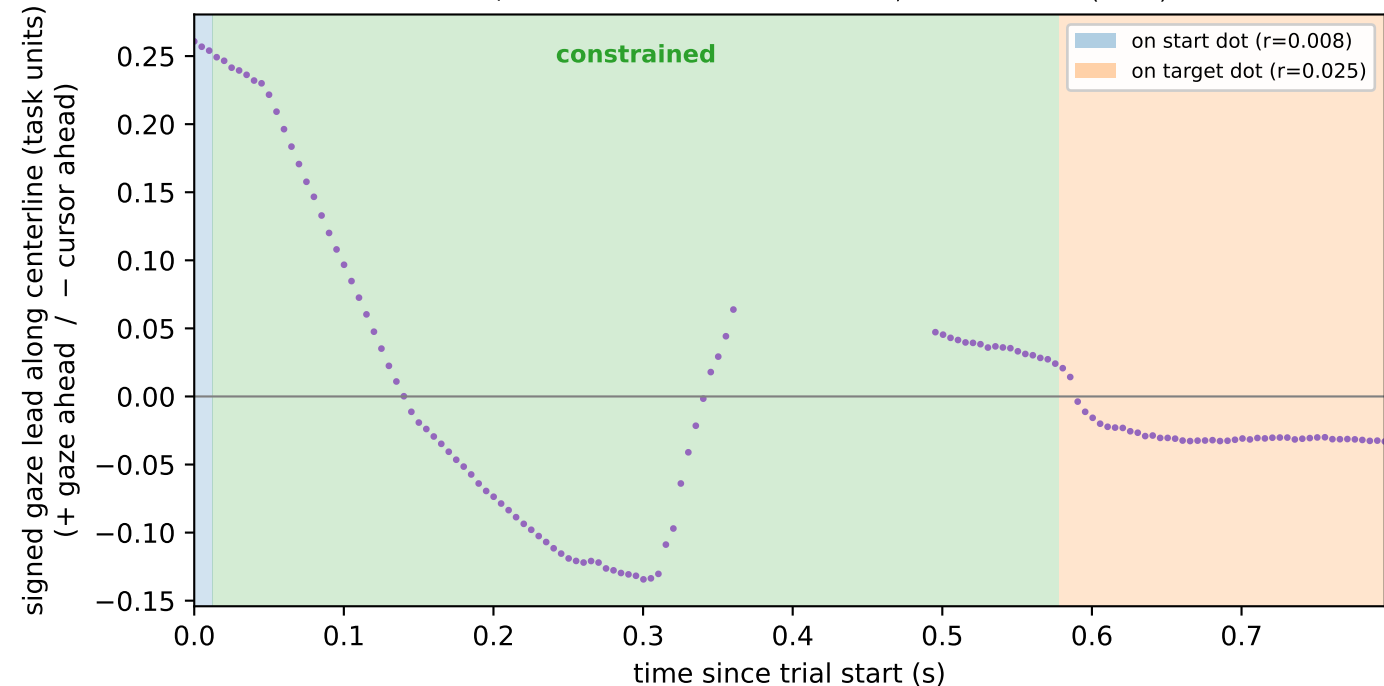

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

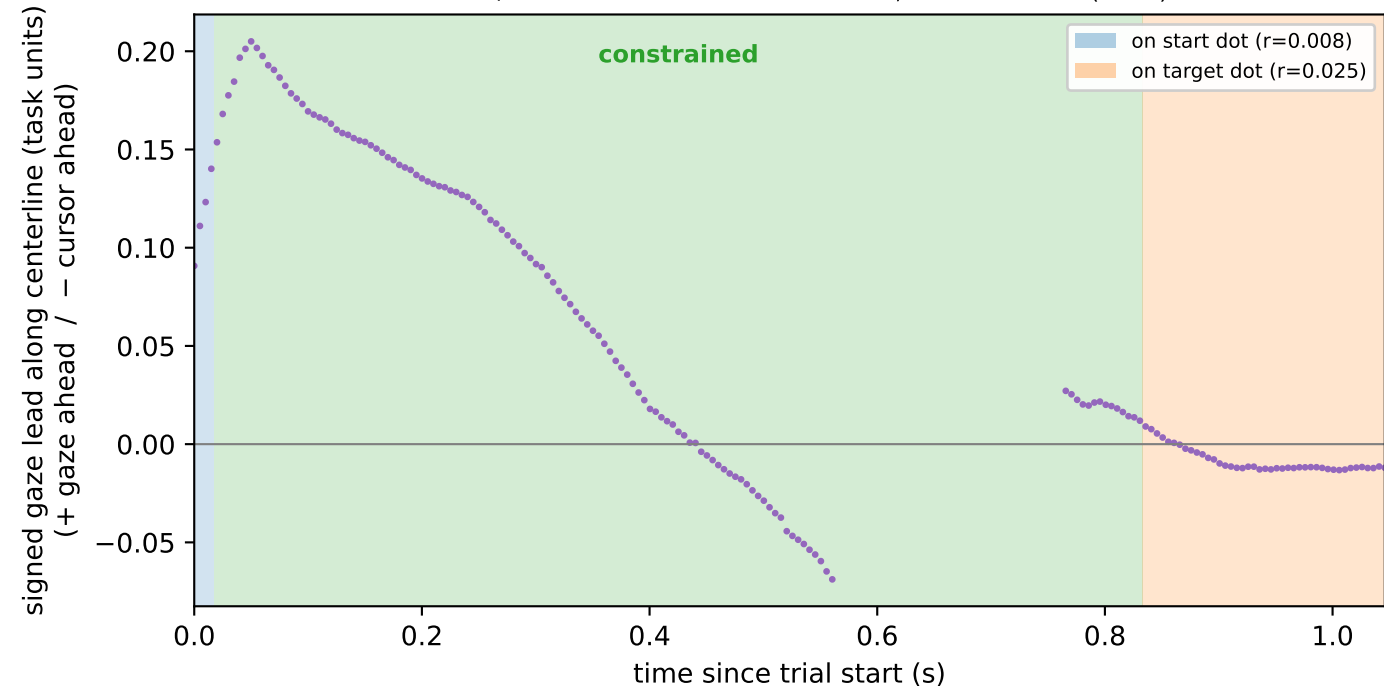

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

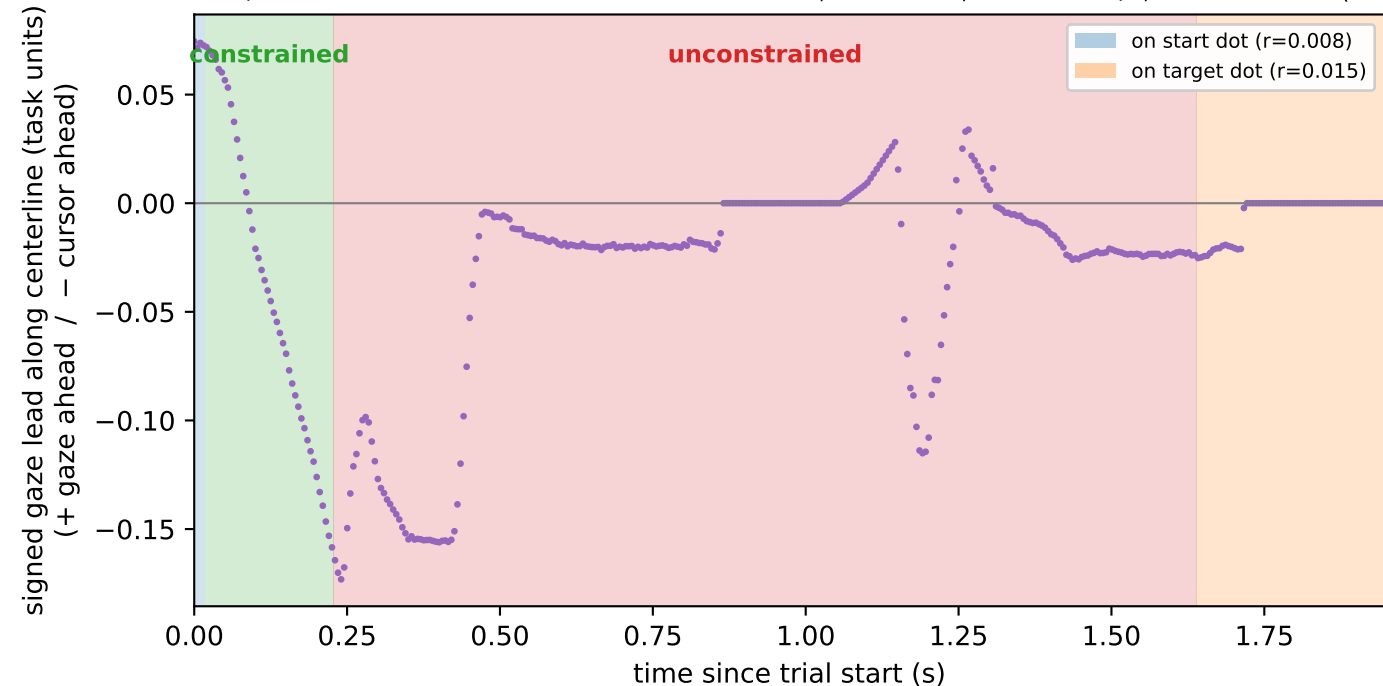

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

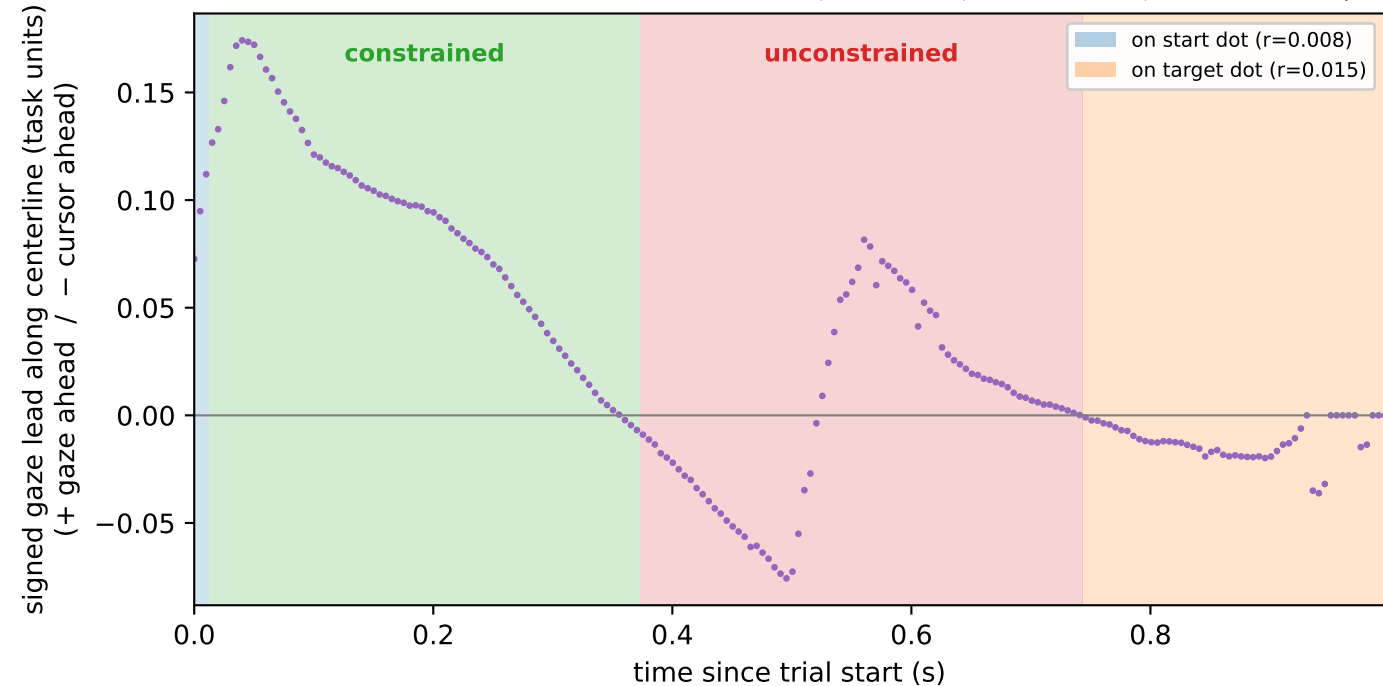

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

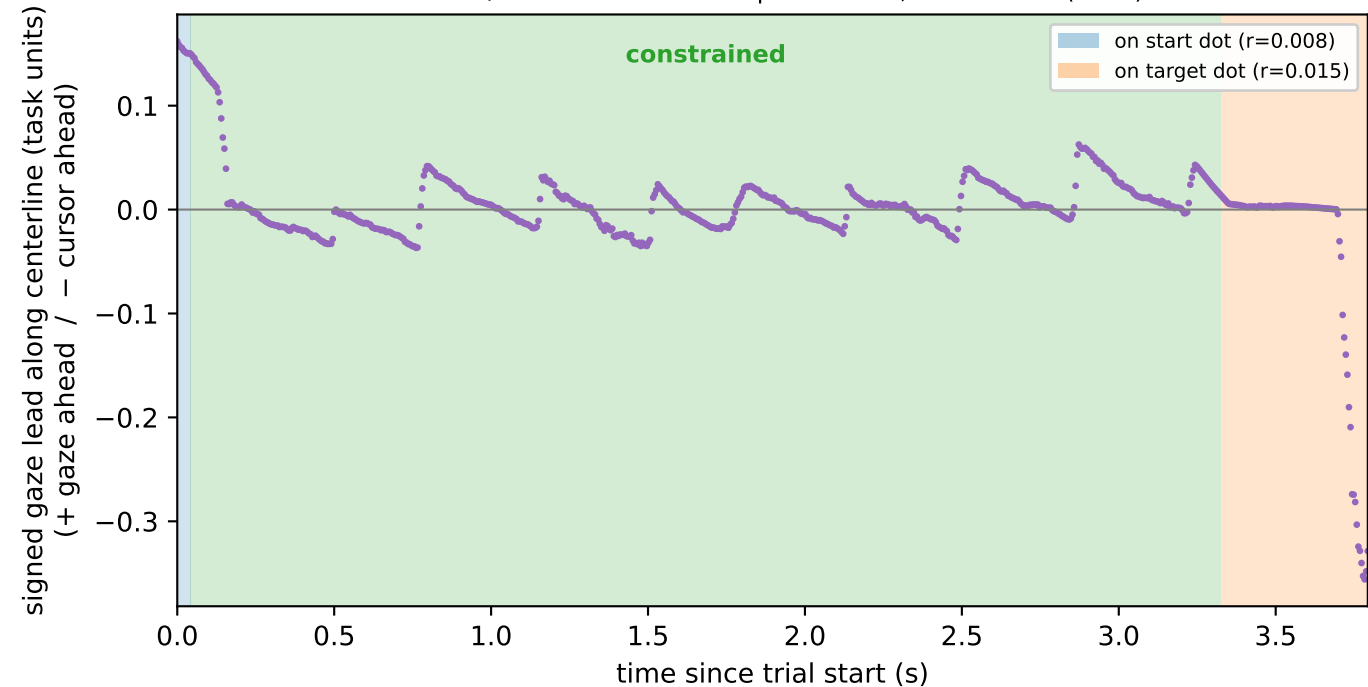

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

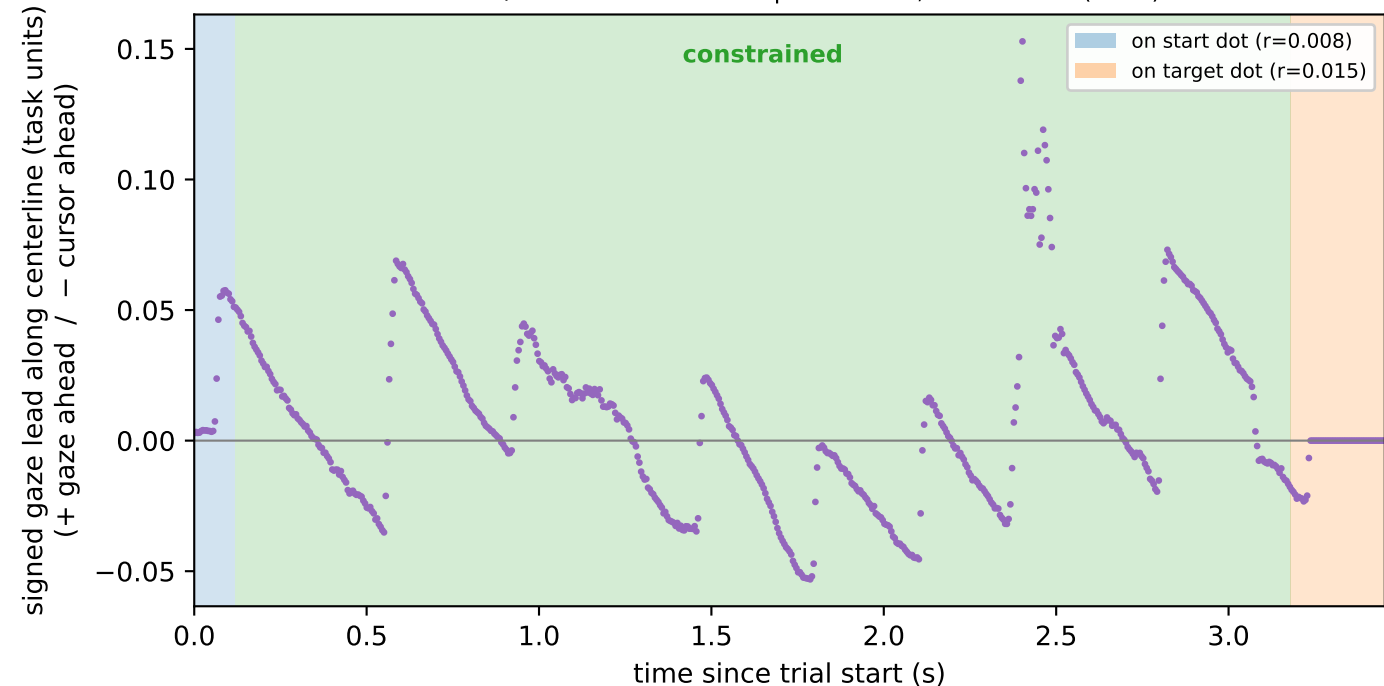

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

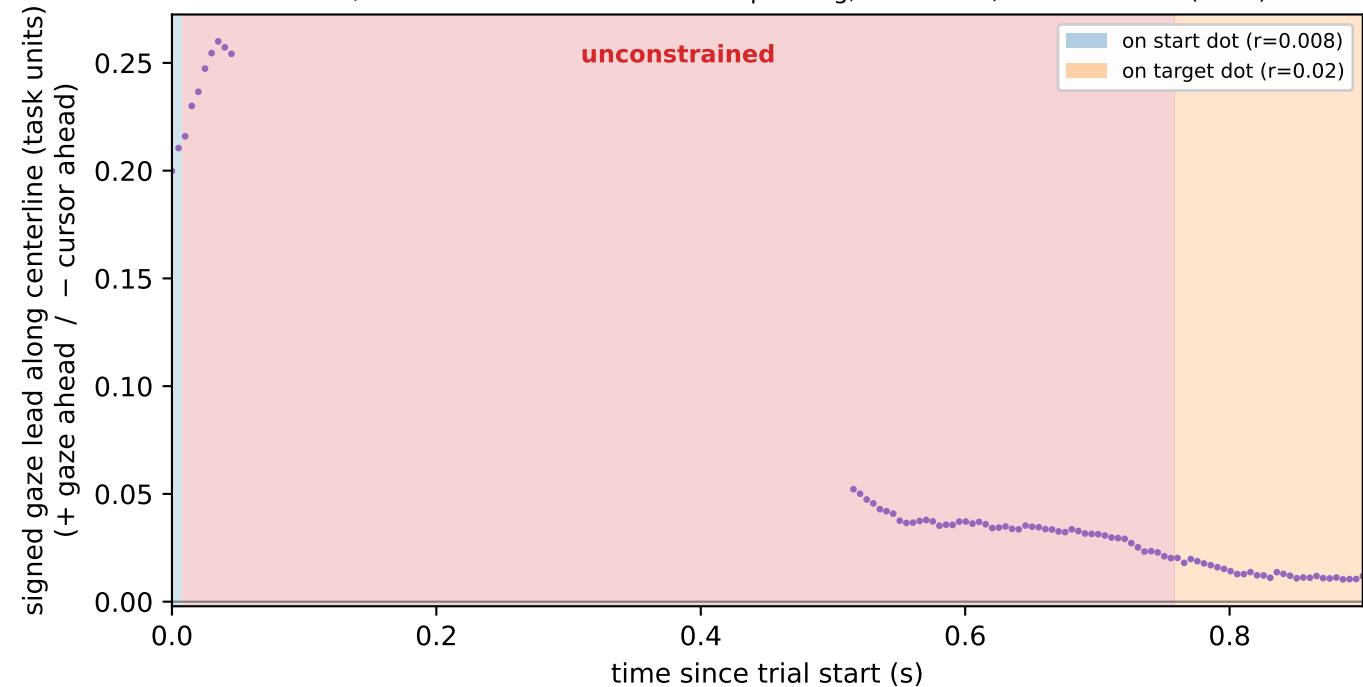

Trial 61/73 round 1 — sharp sinusoidal, width 0.03 (id 33)

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

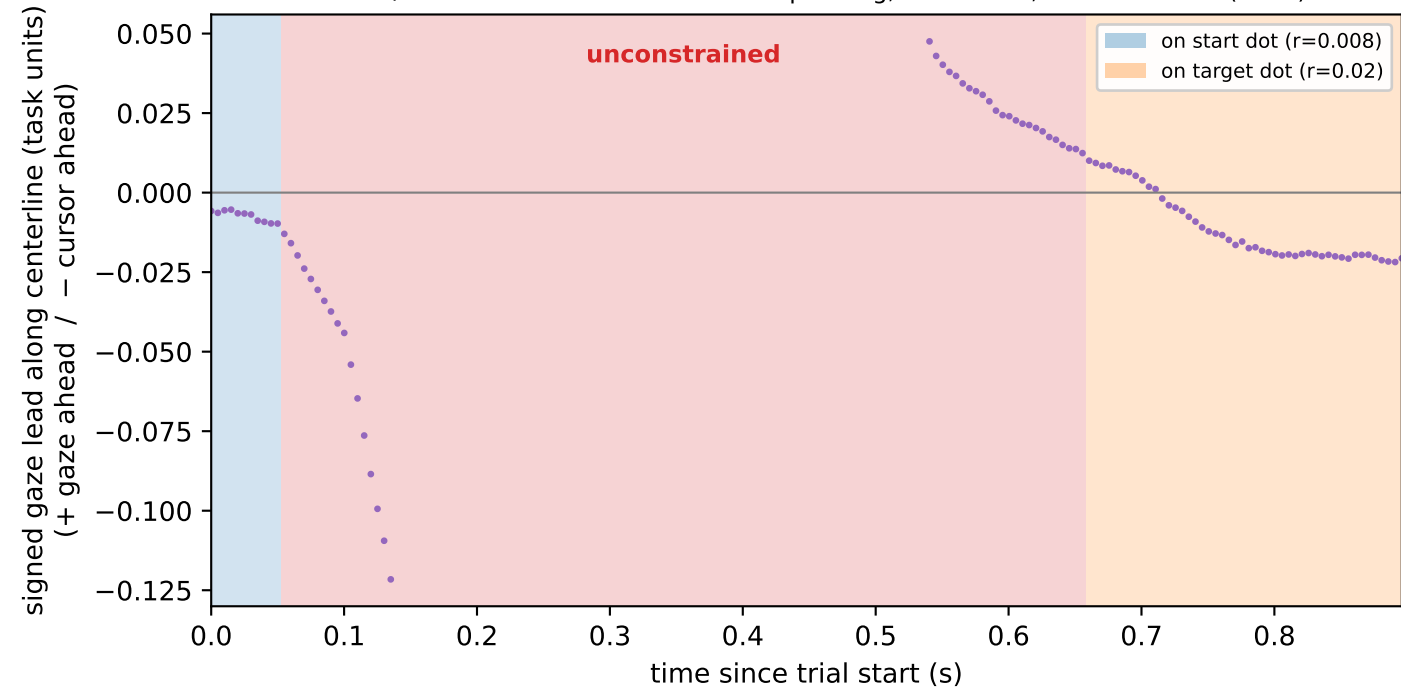

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

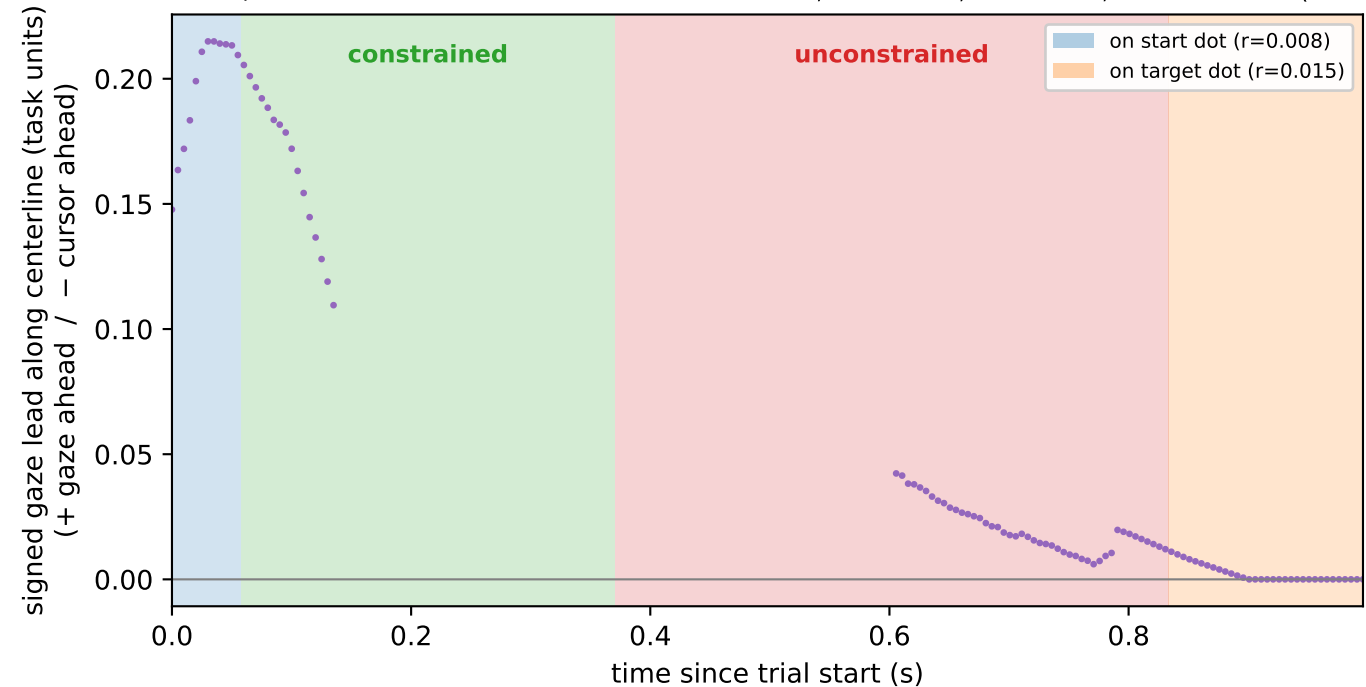

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

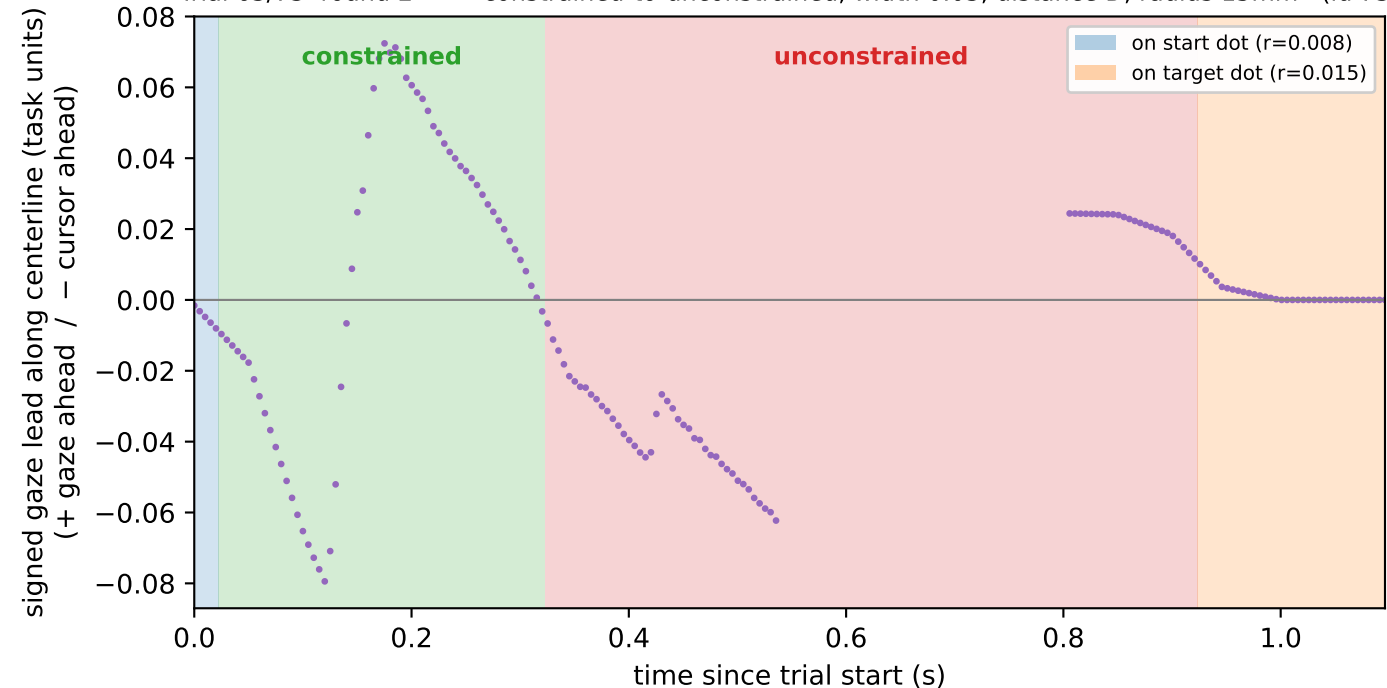

Trial 62/73 round 2 — unconstrained pointing, distance D, radius 20mm (id 55)

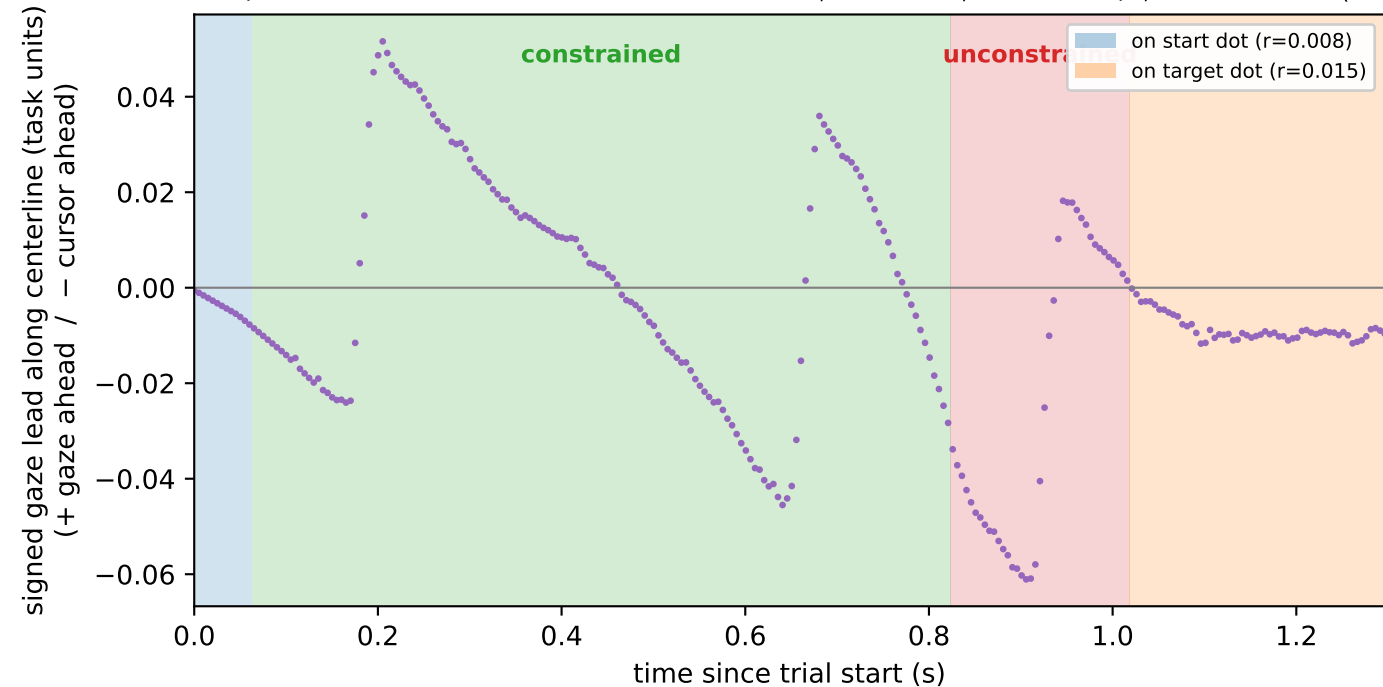

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

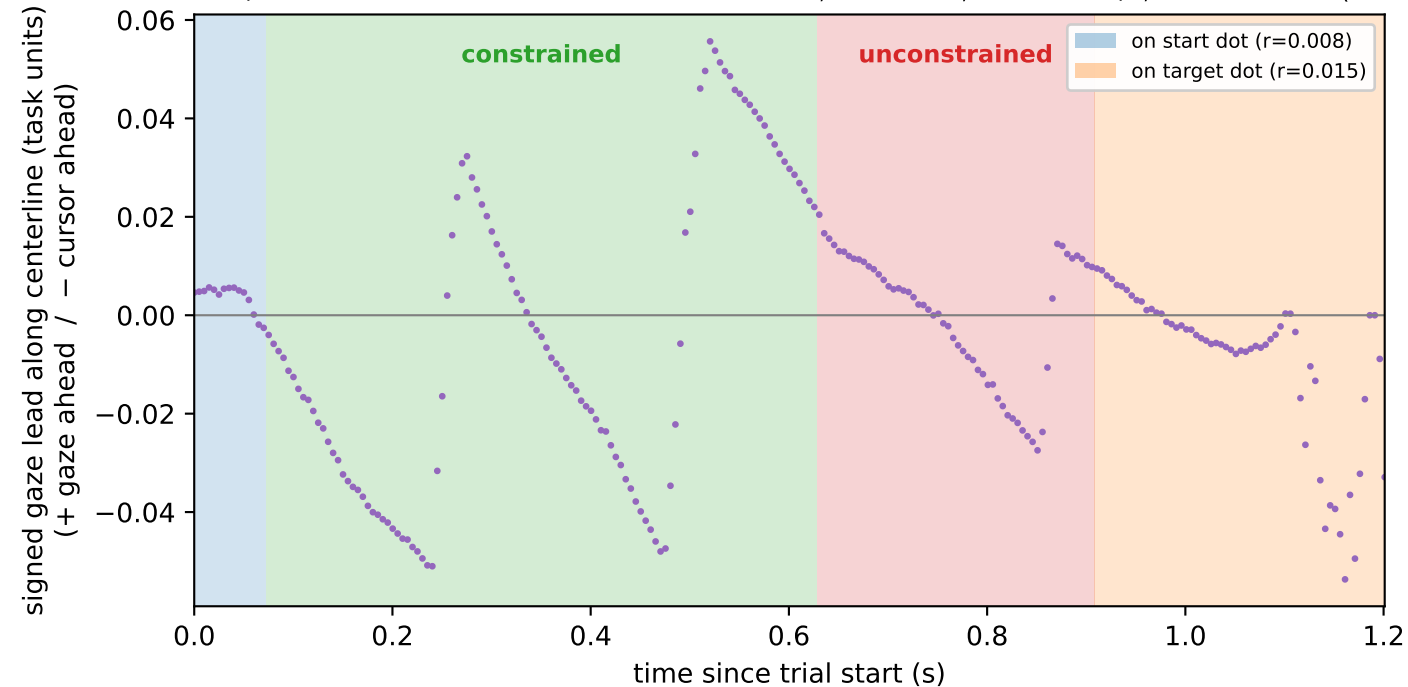

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

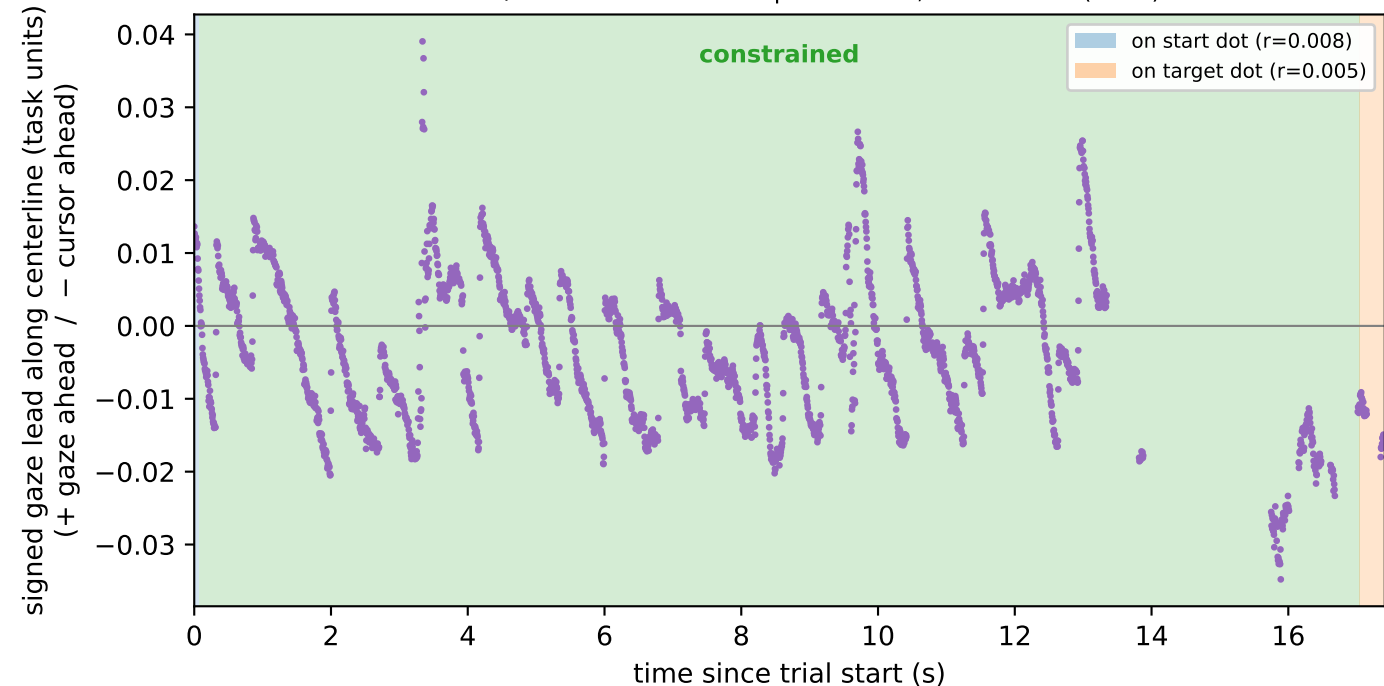

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

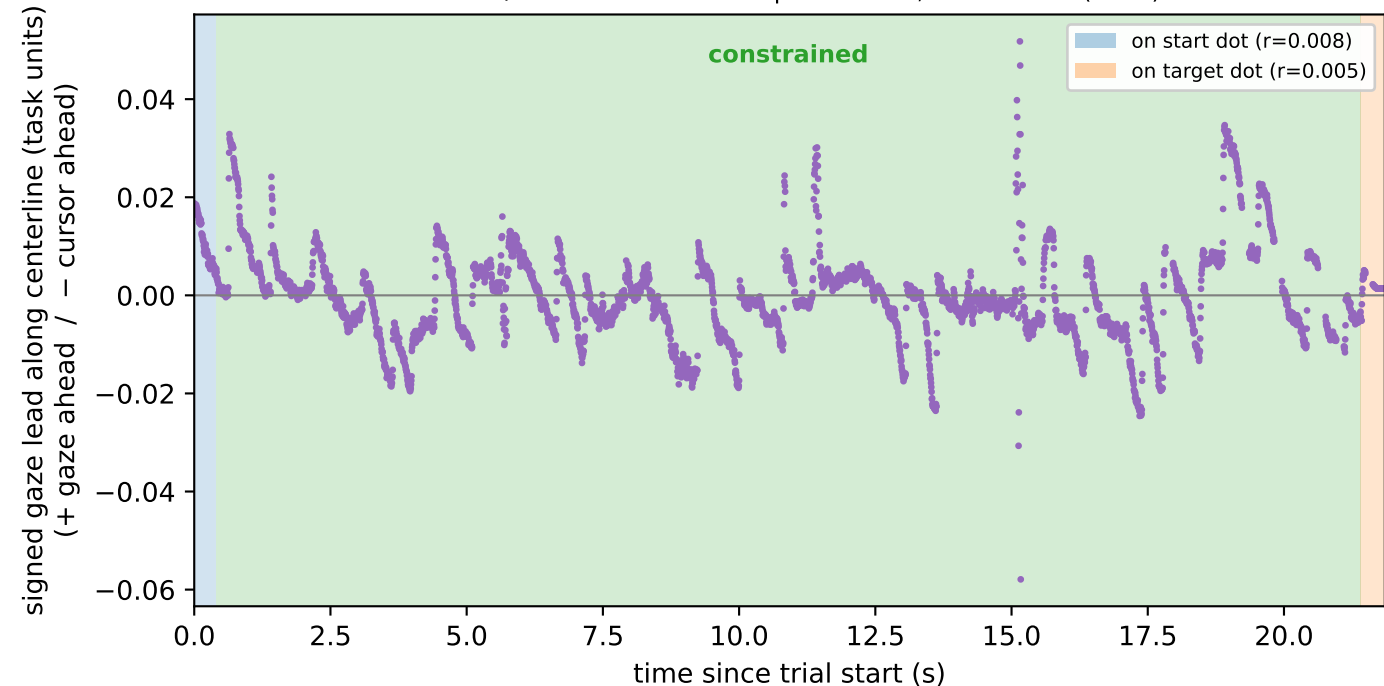

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

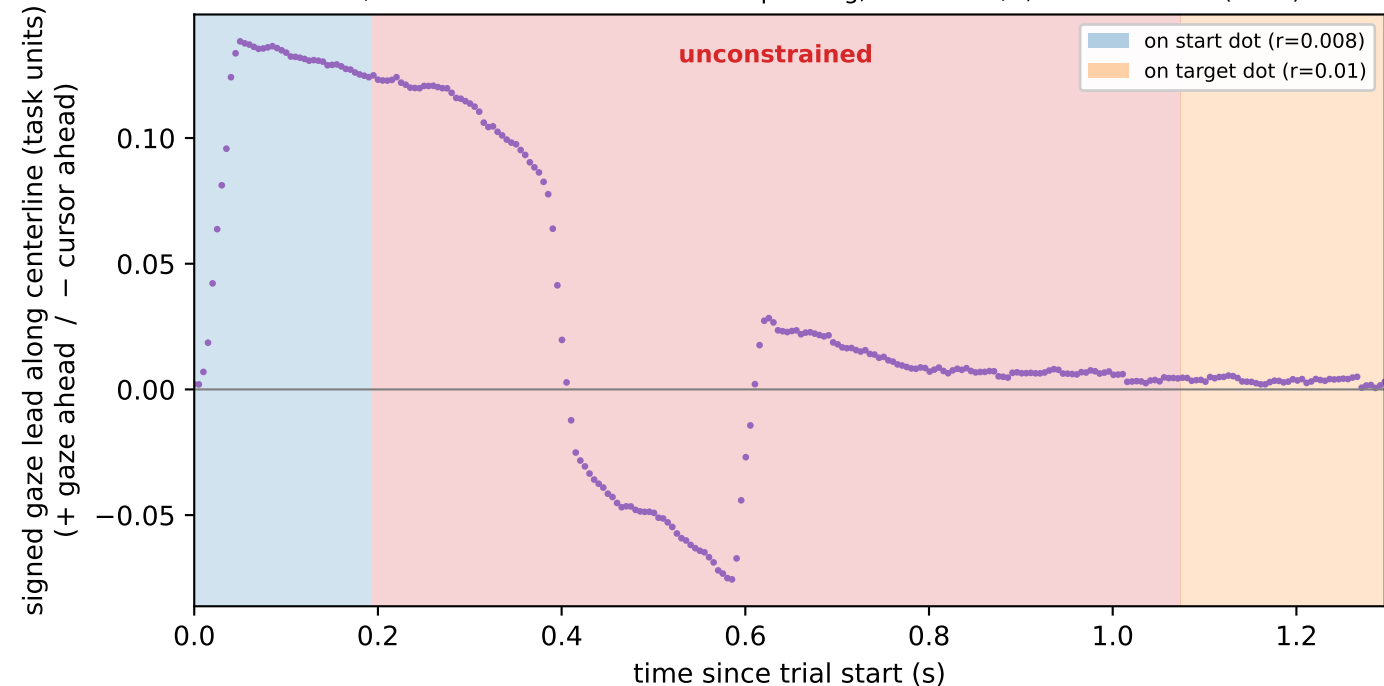

Trial 65/73 round 1 — sharp sinusoidal, width 0.01 (id 31)

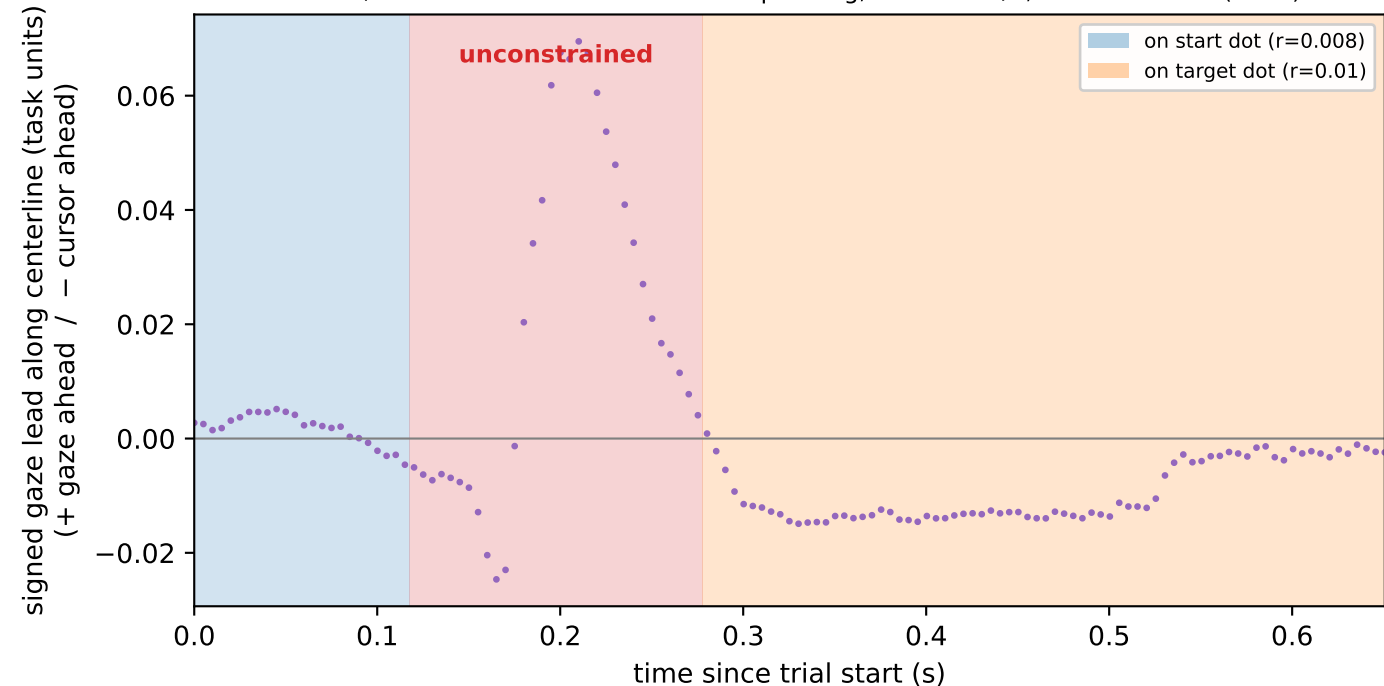

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

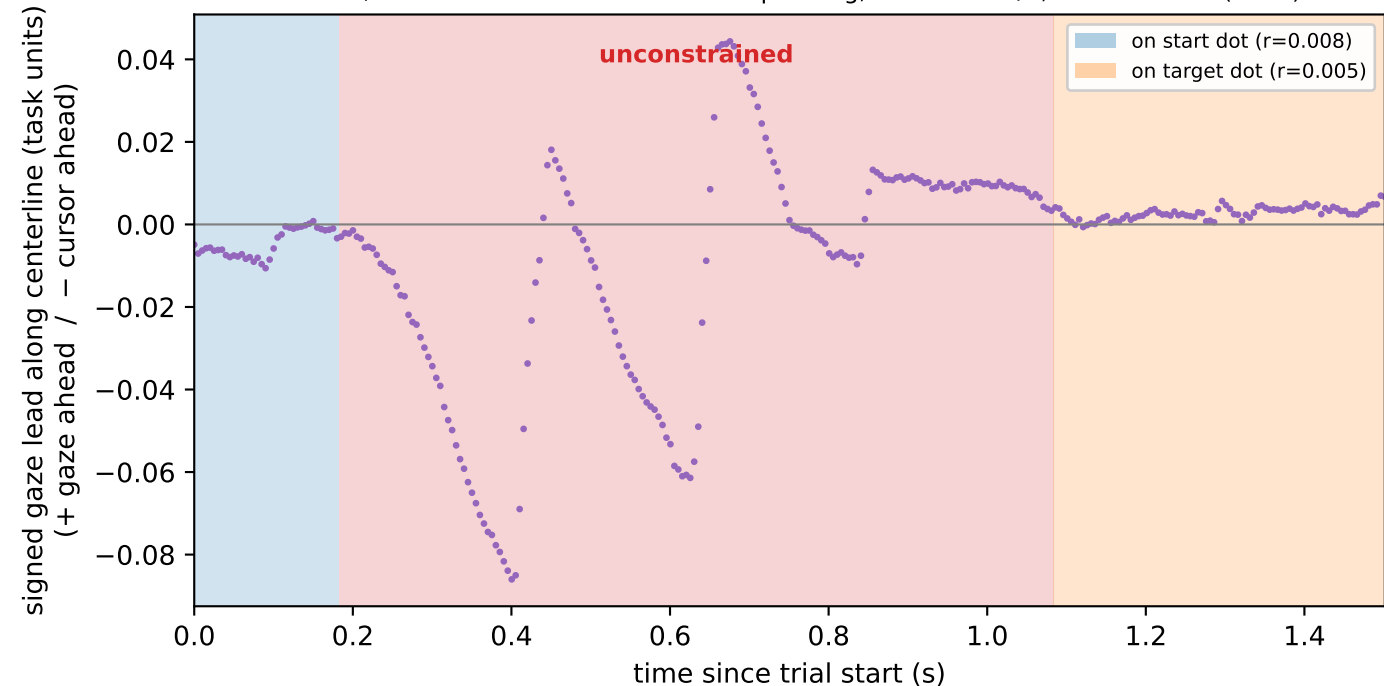

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

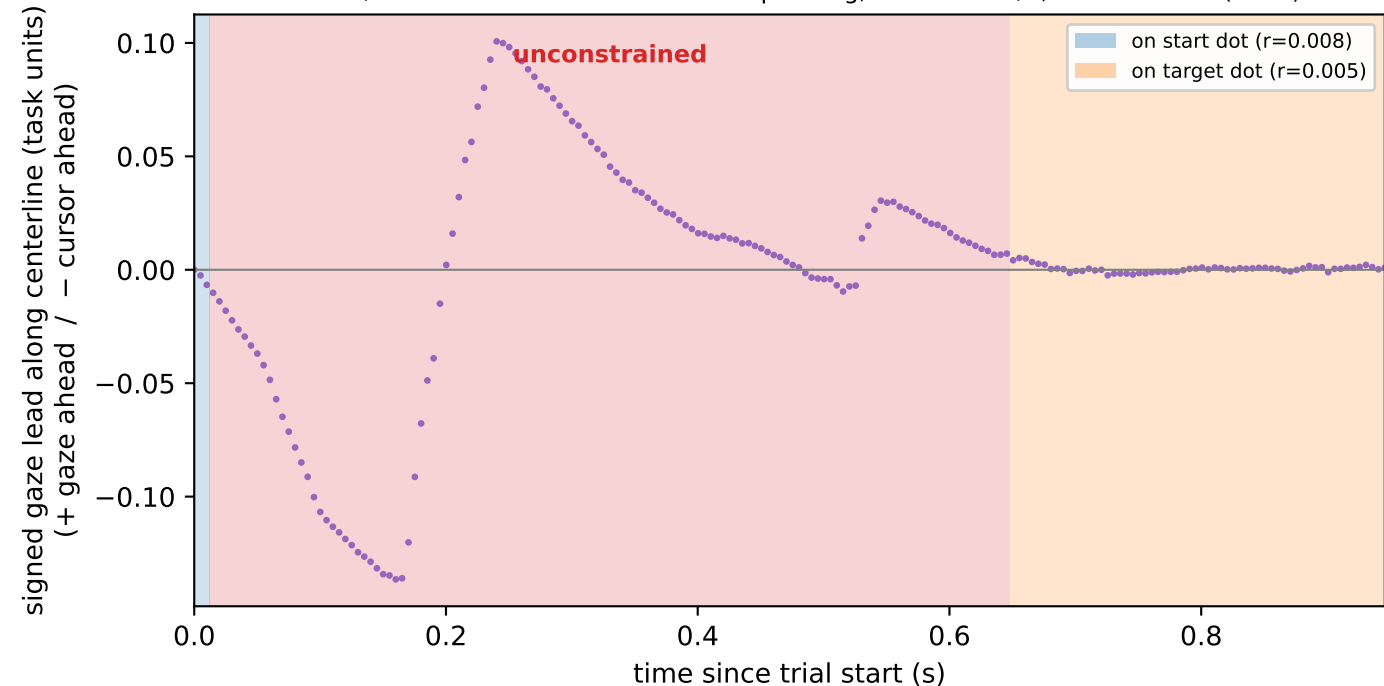

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

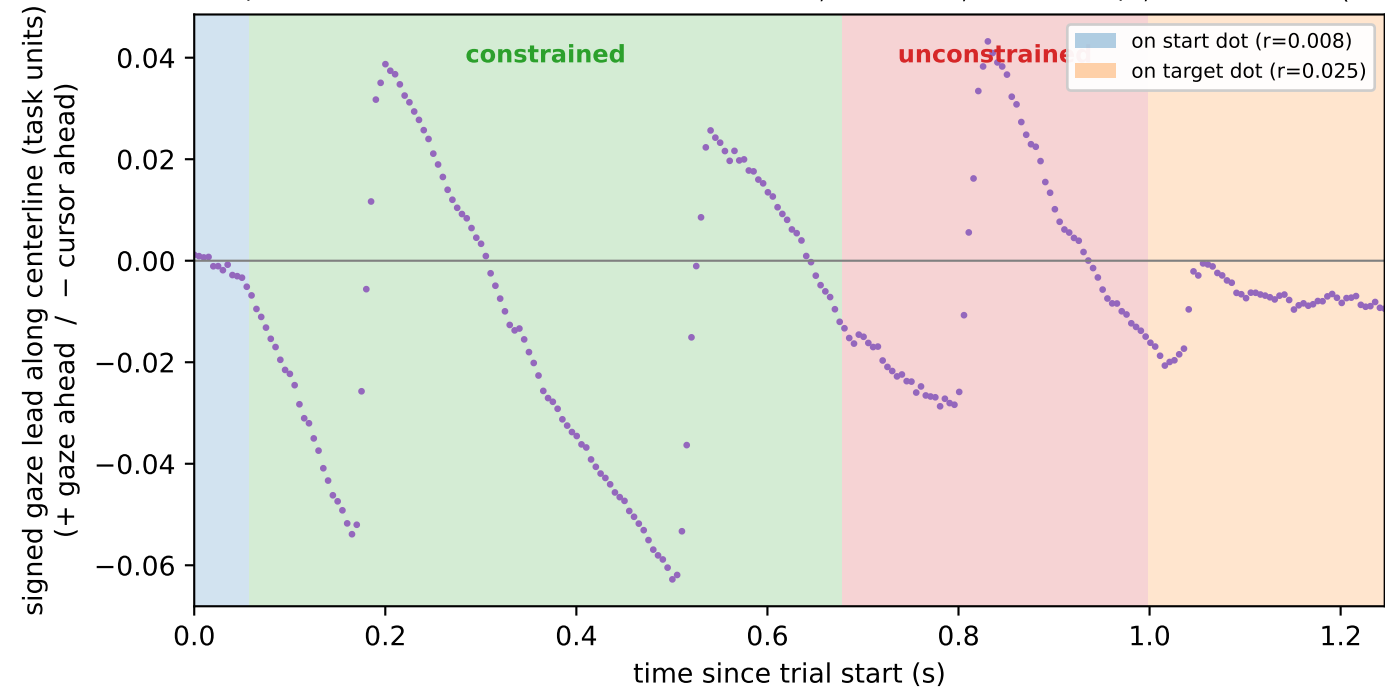

Trial 67/73 round 1 — unconstrained pointing, distance 2D/3, radius 5mm (id 47)

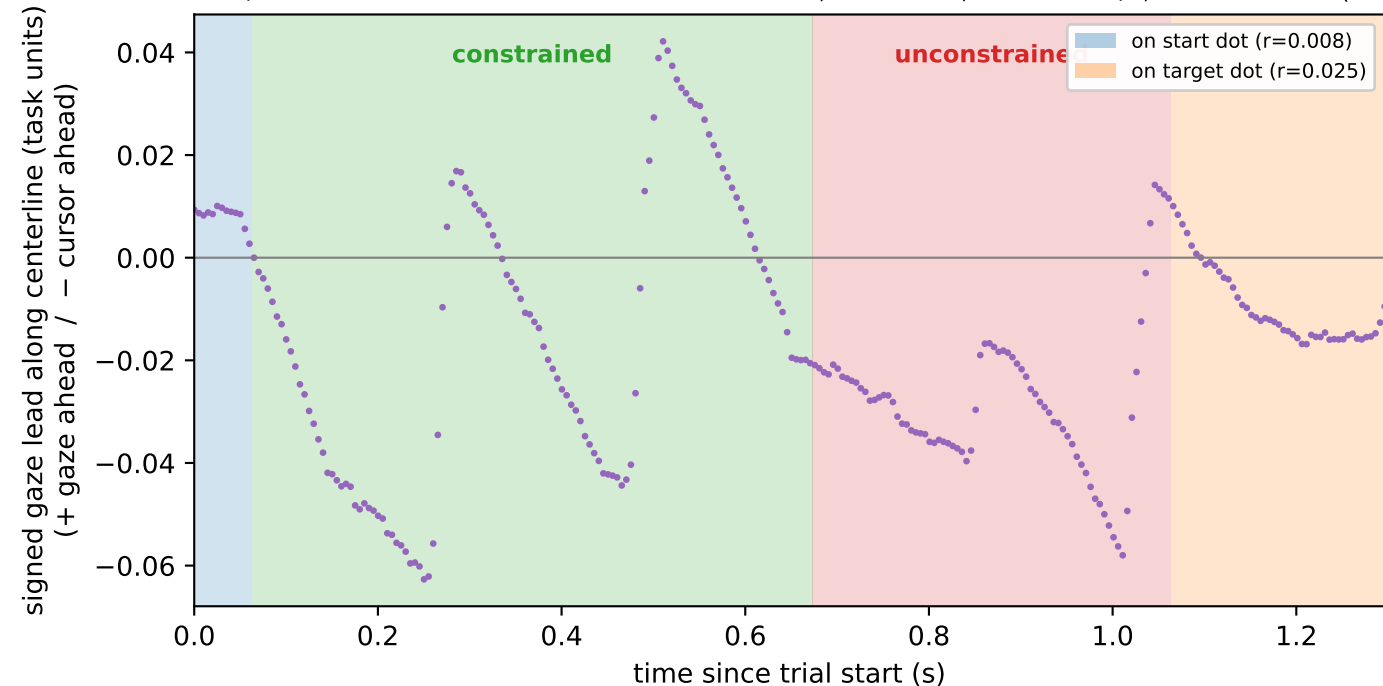

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

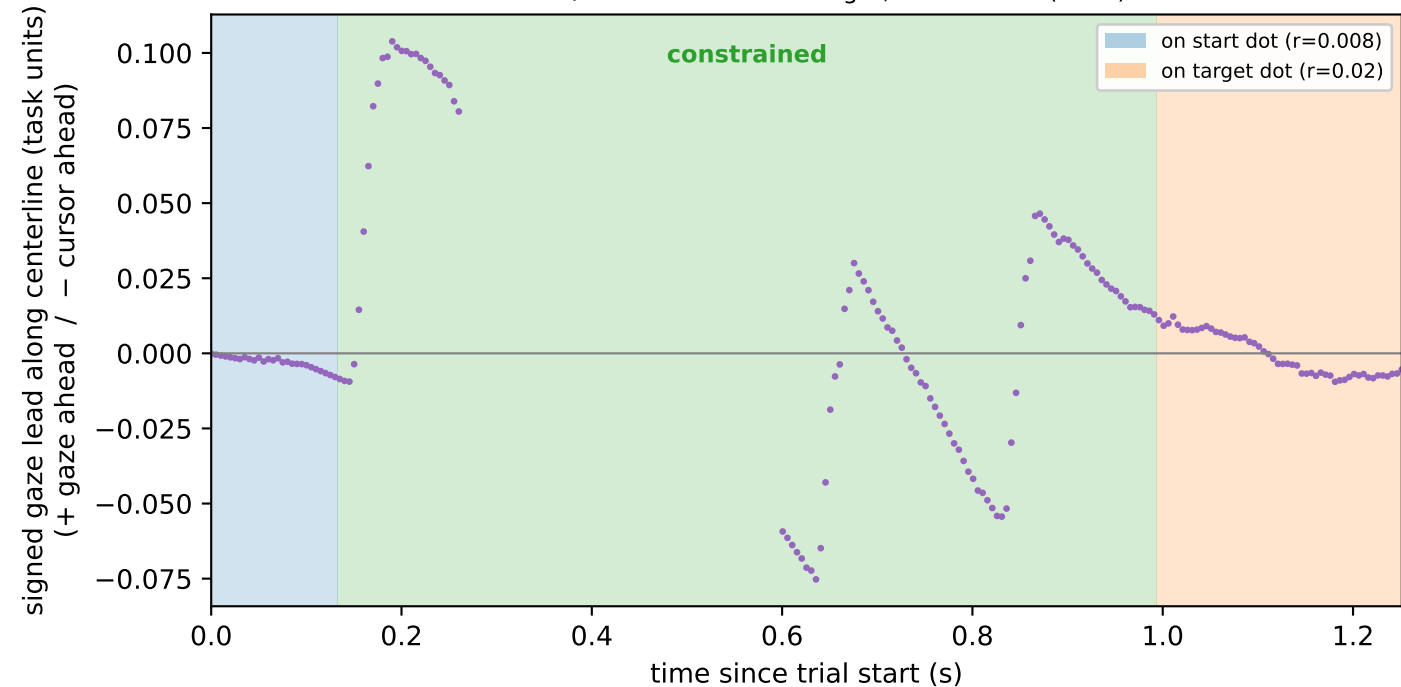

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

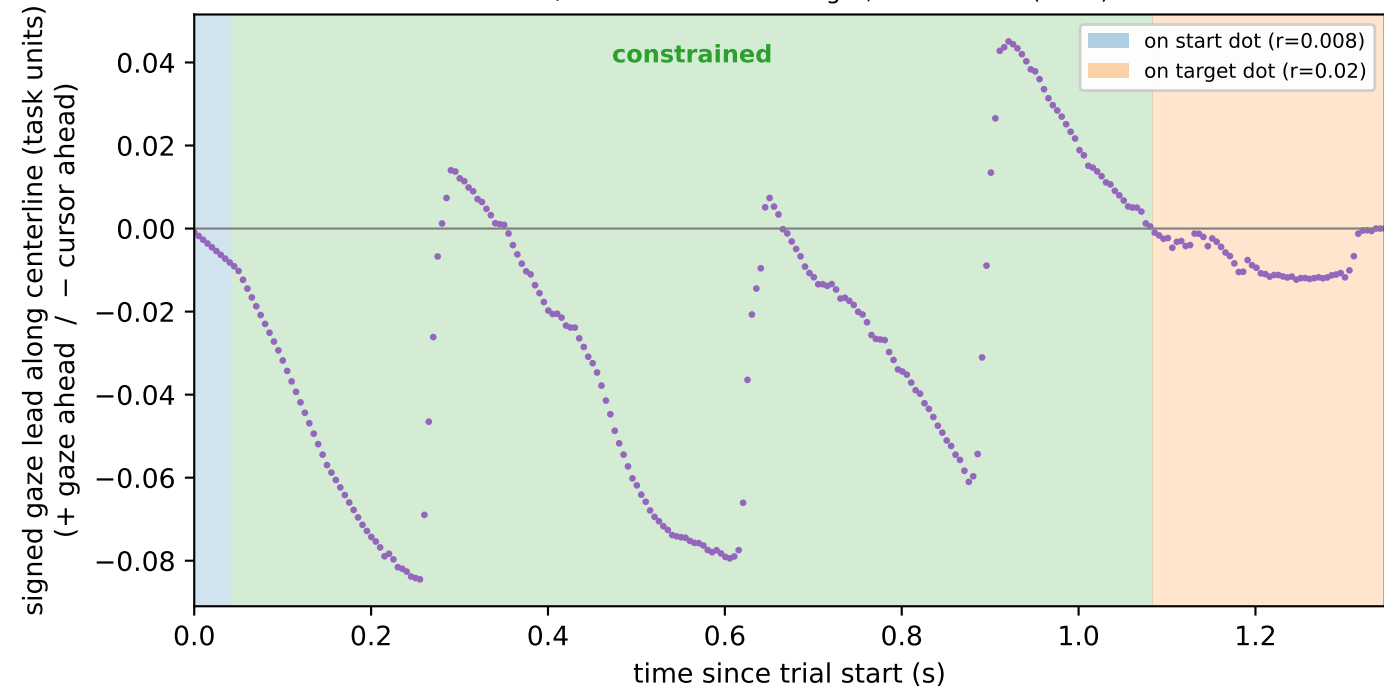

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

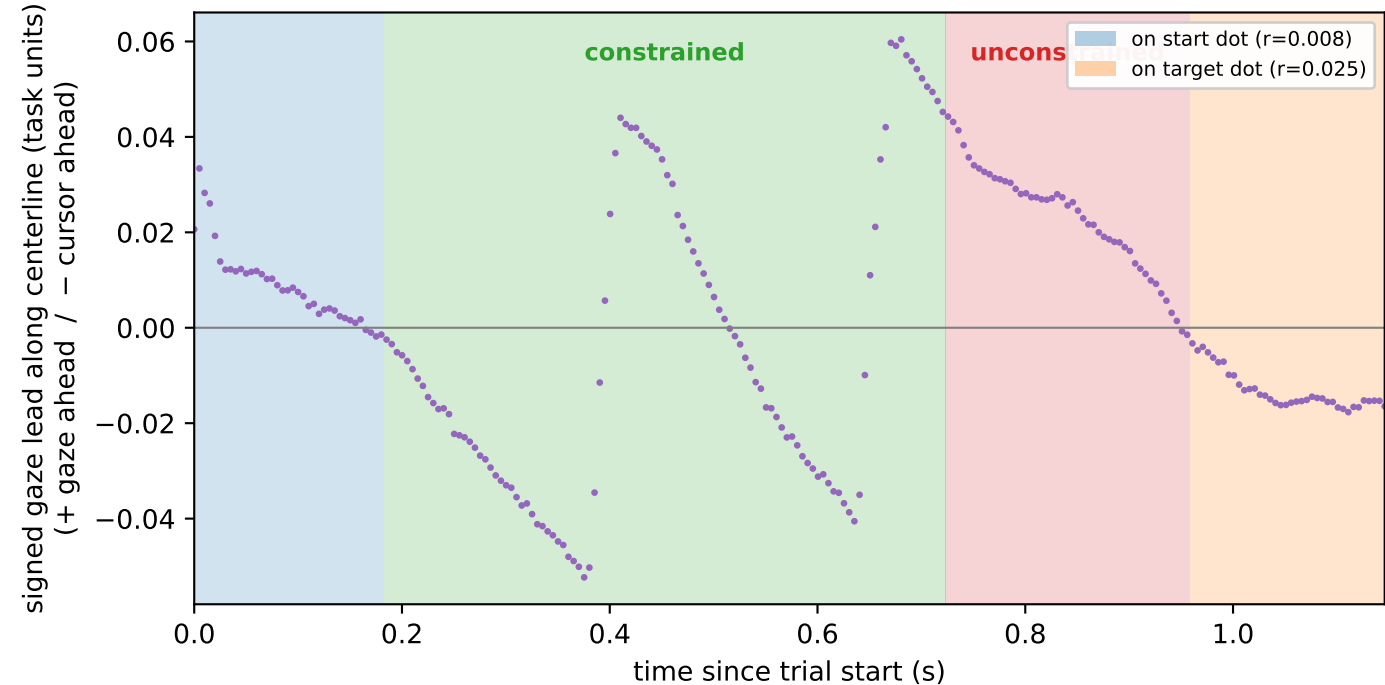

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

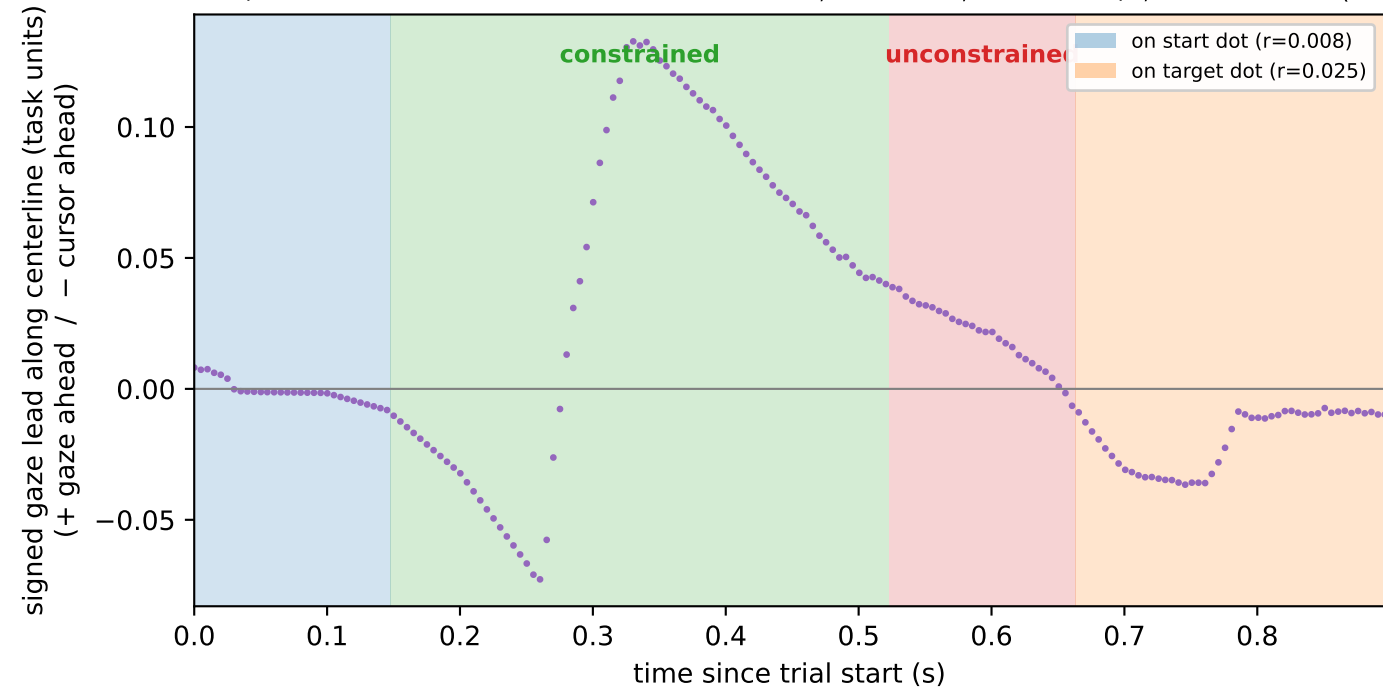

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

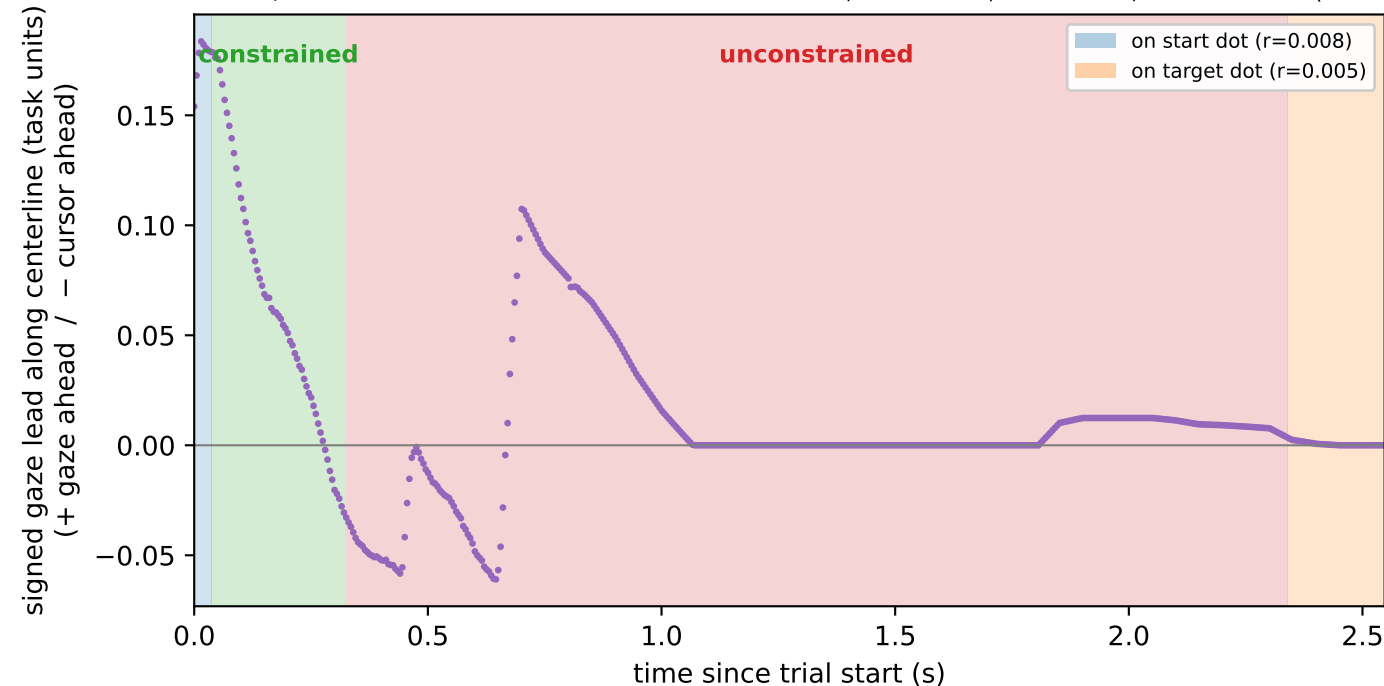

Trial 70/73 round 1 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 25mm (id 68)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

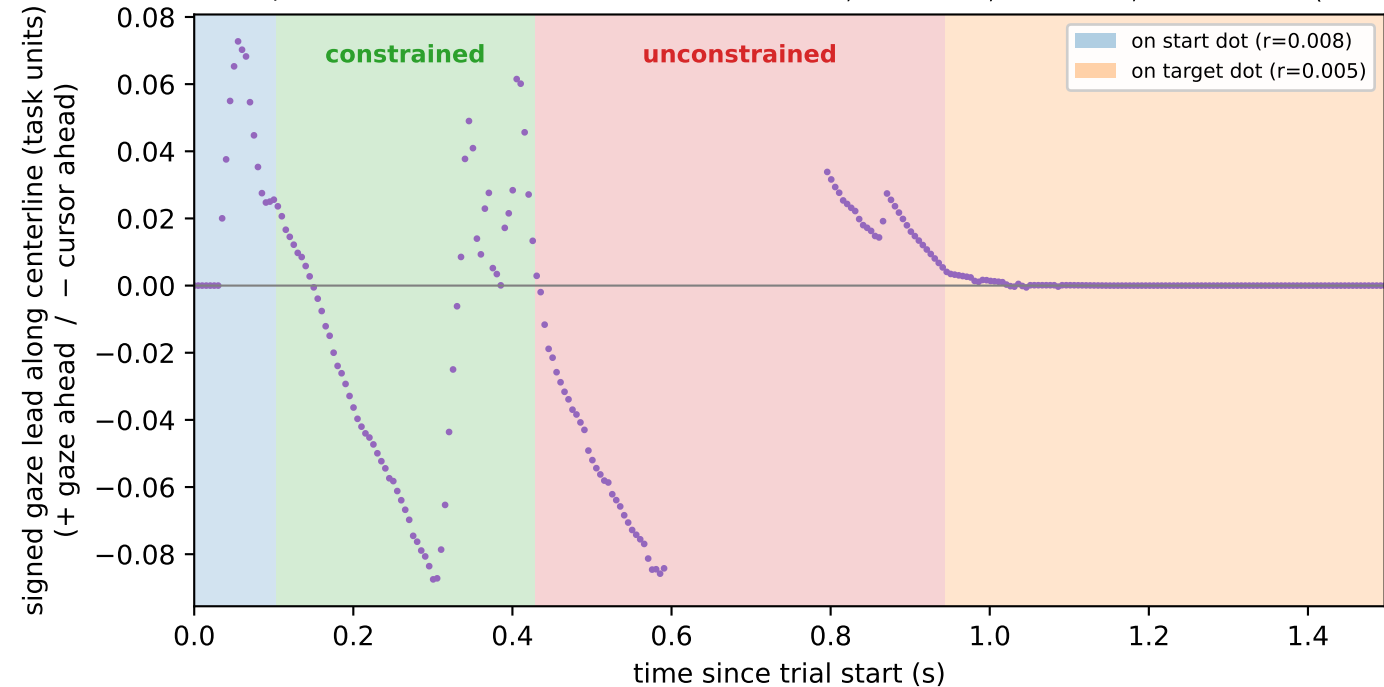

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

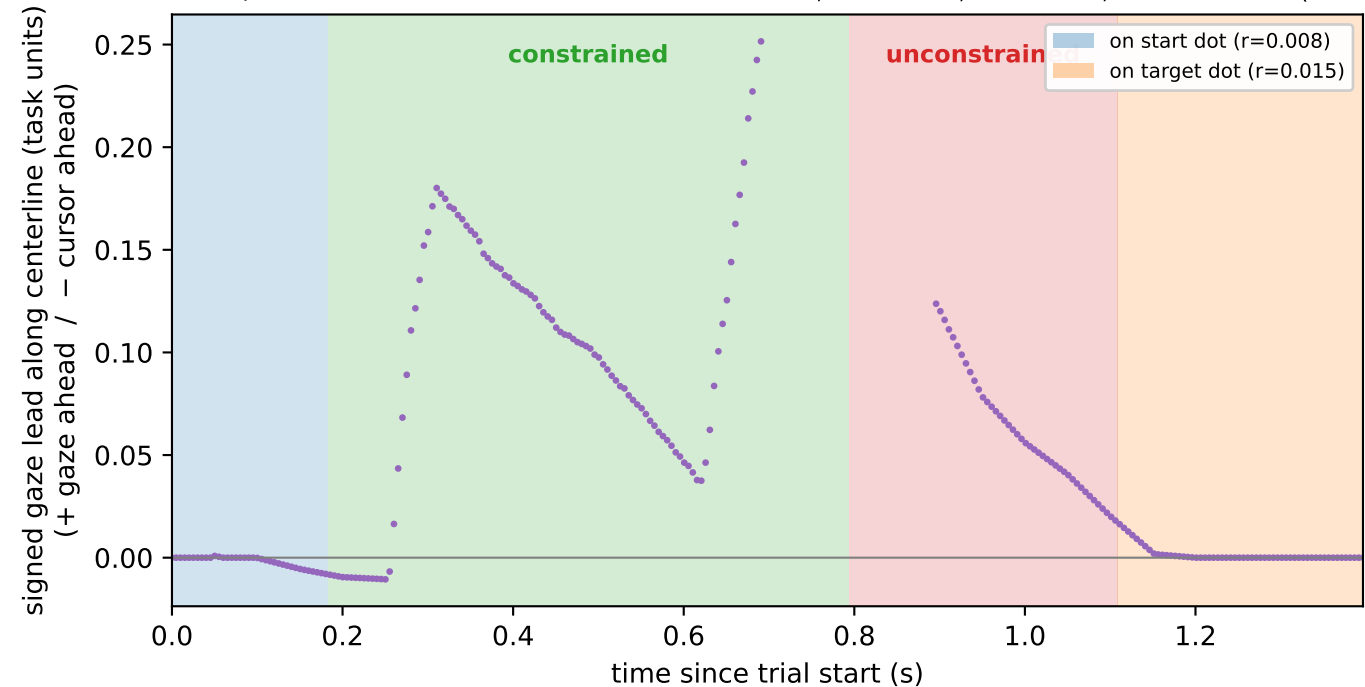

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

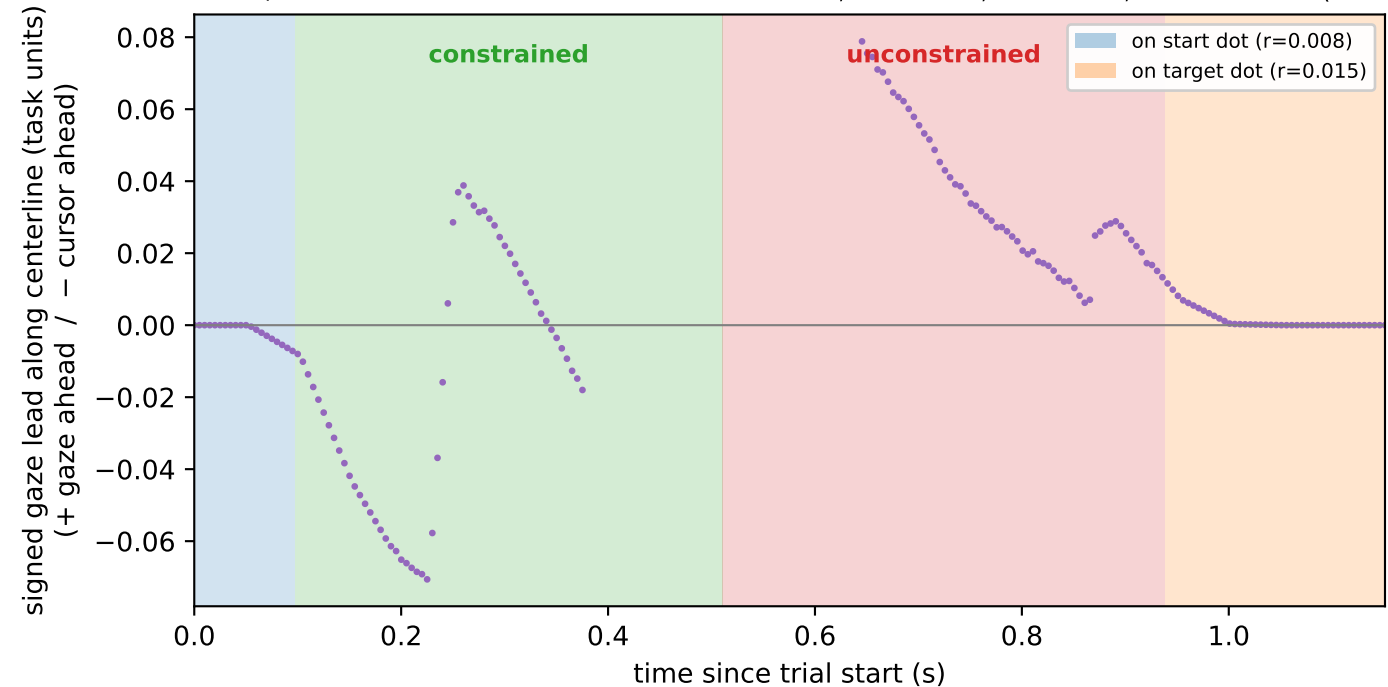

Trial 71/73 round 2 — constrained-to-unconstrained, width 0.05, distance D, radius 5mm (id 81)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

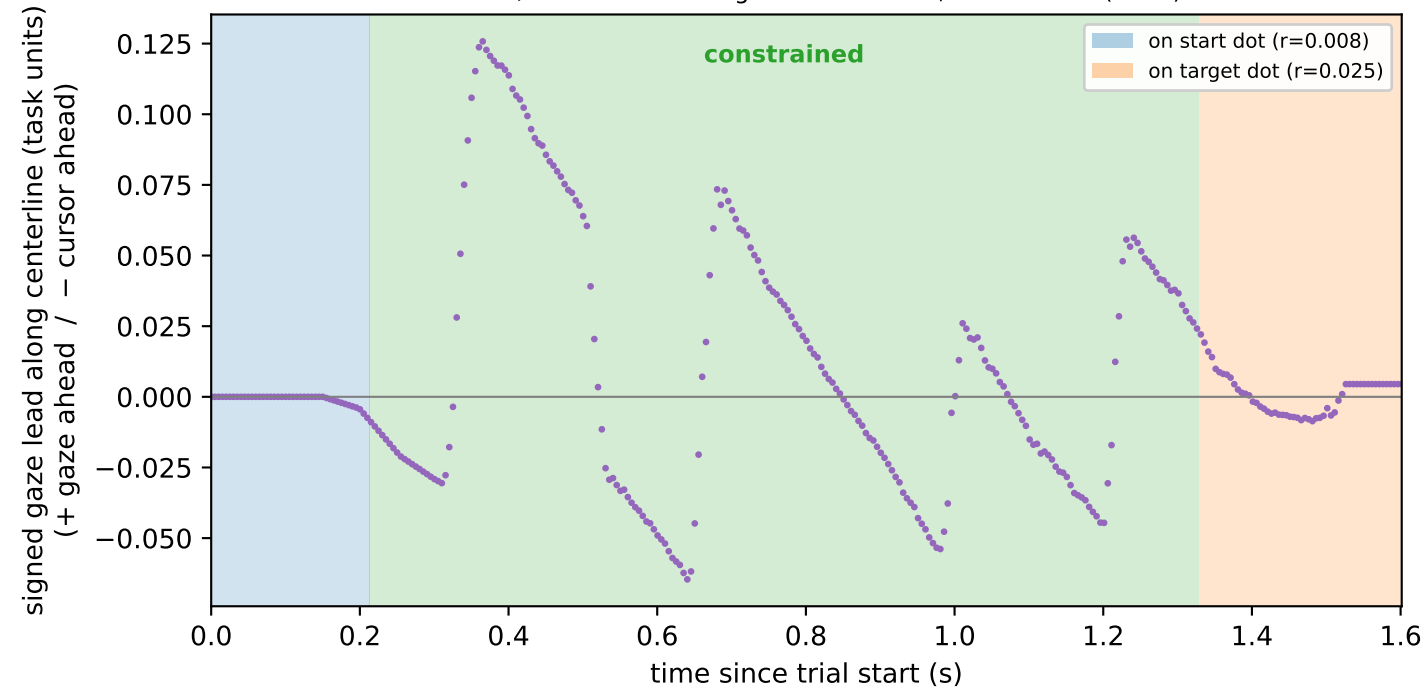

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

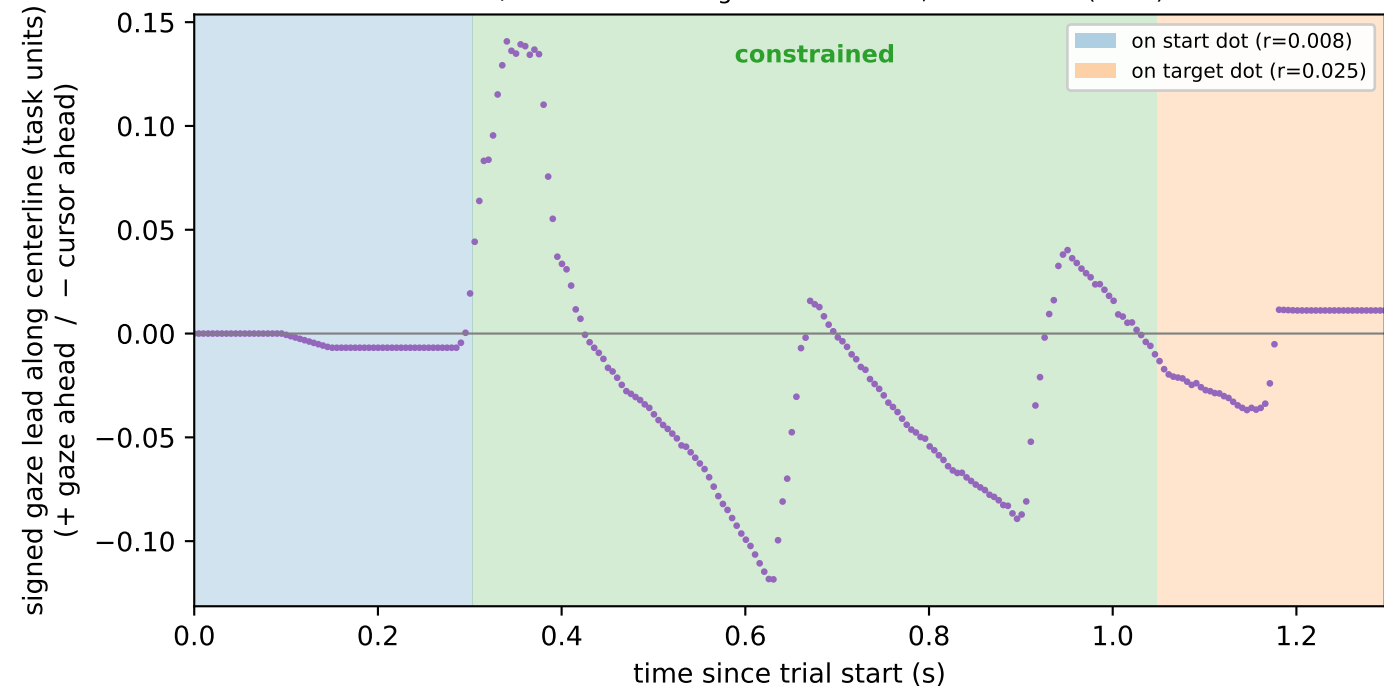

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*
