

Trial 1/73 round 1 — sharp sinusoidal, width 0.03 (id 33)

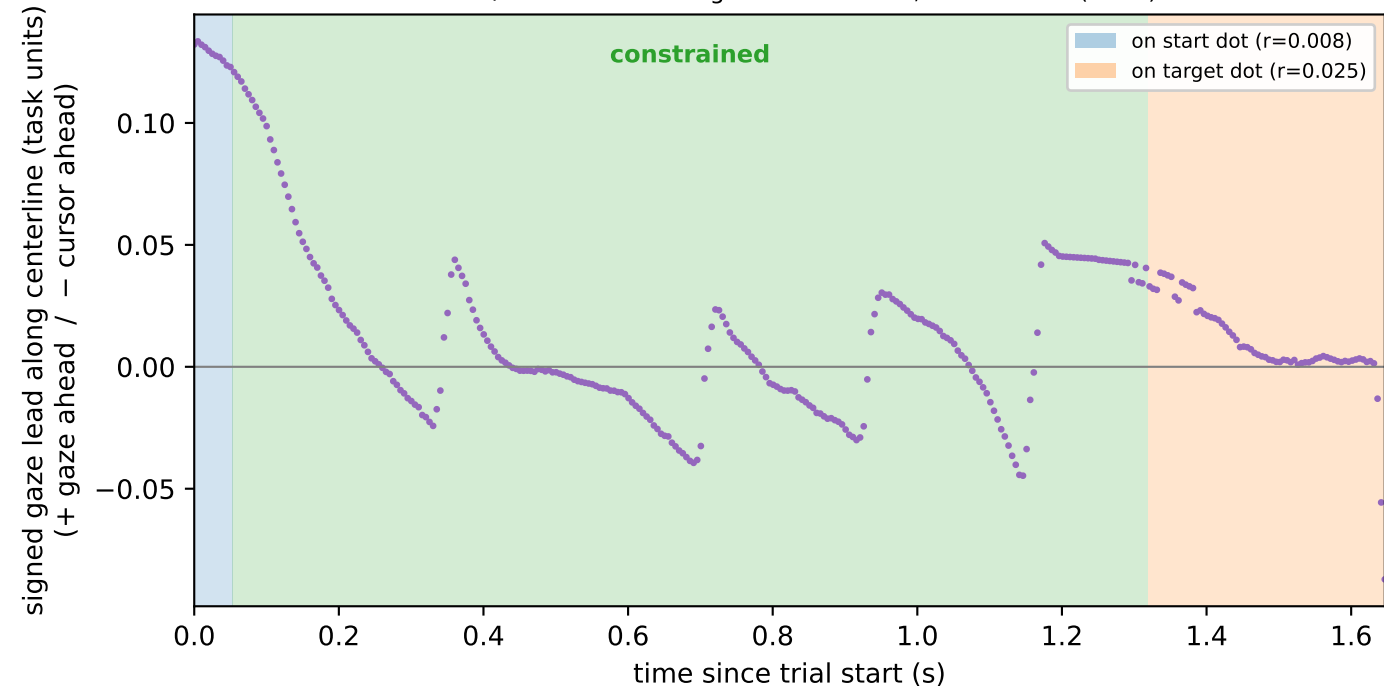

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

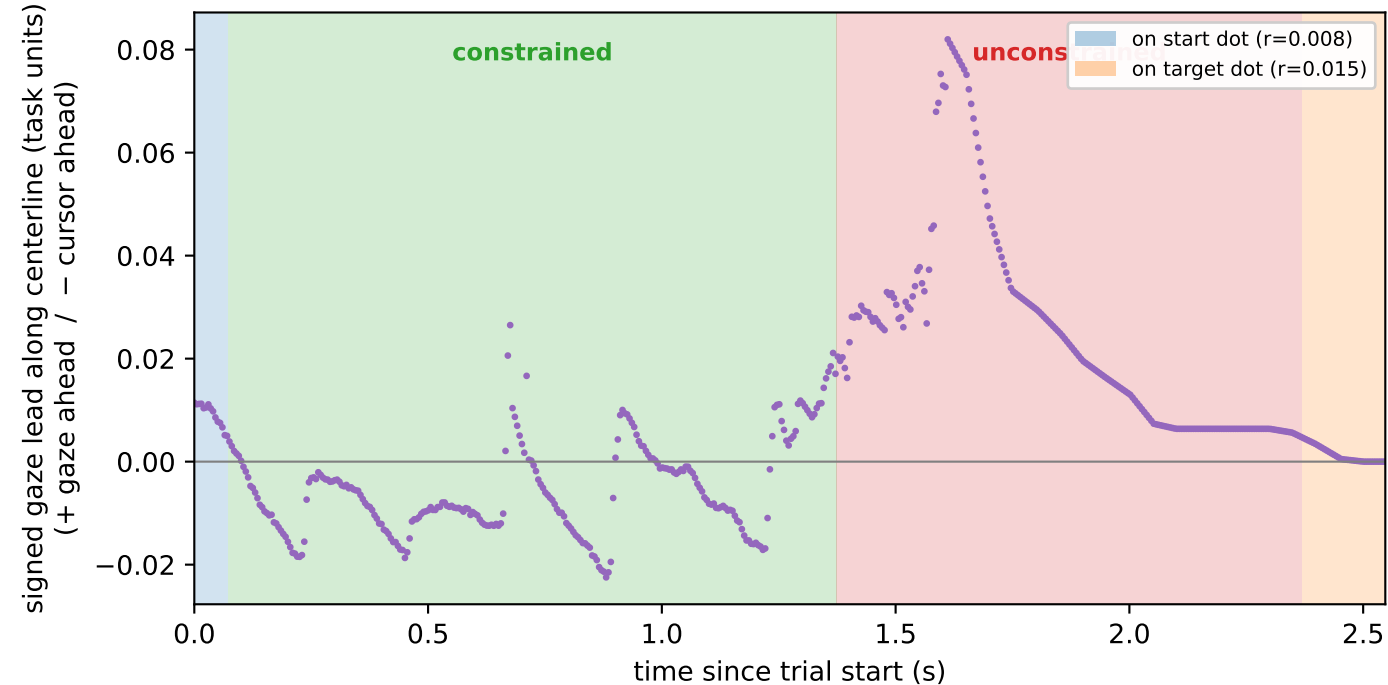

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

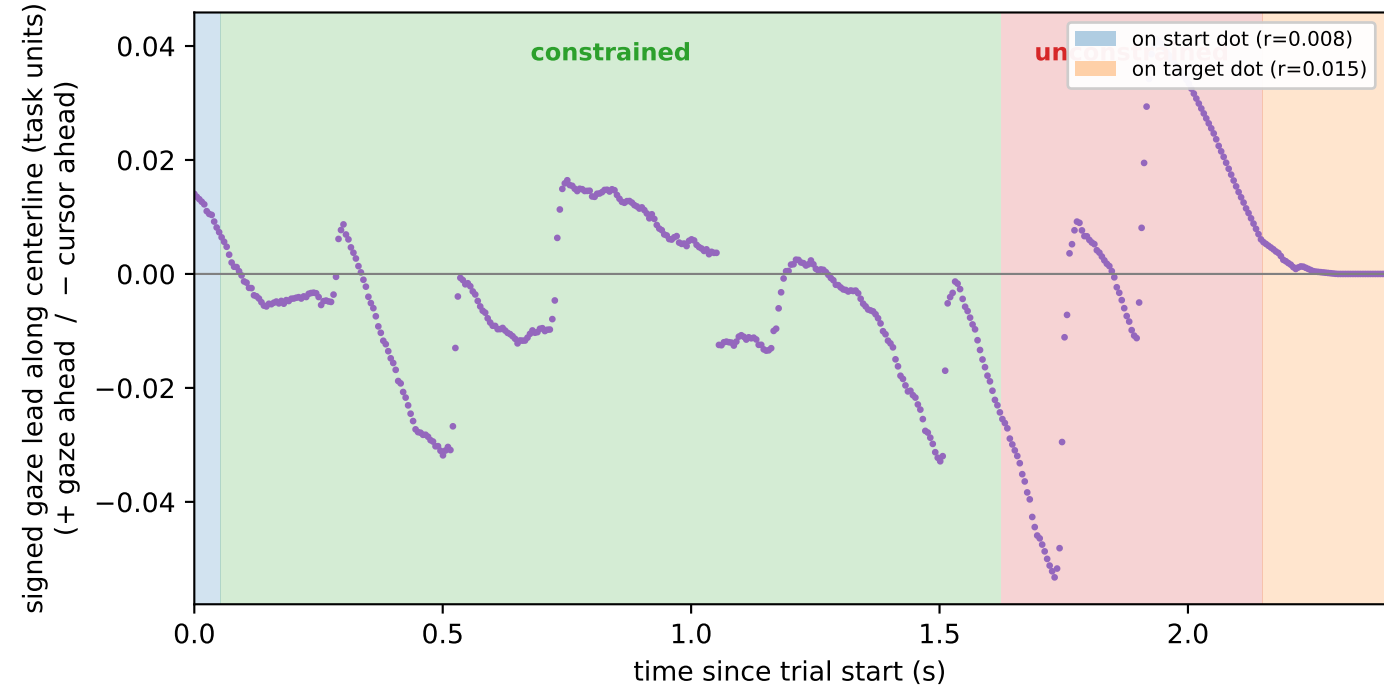

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

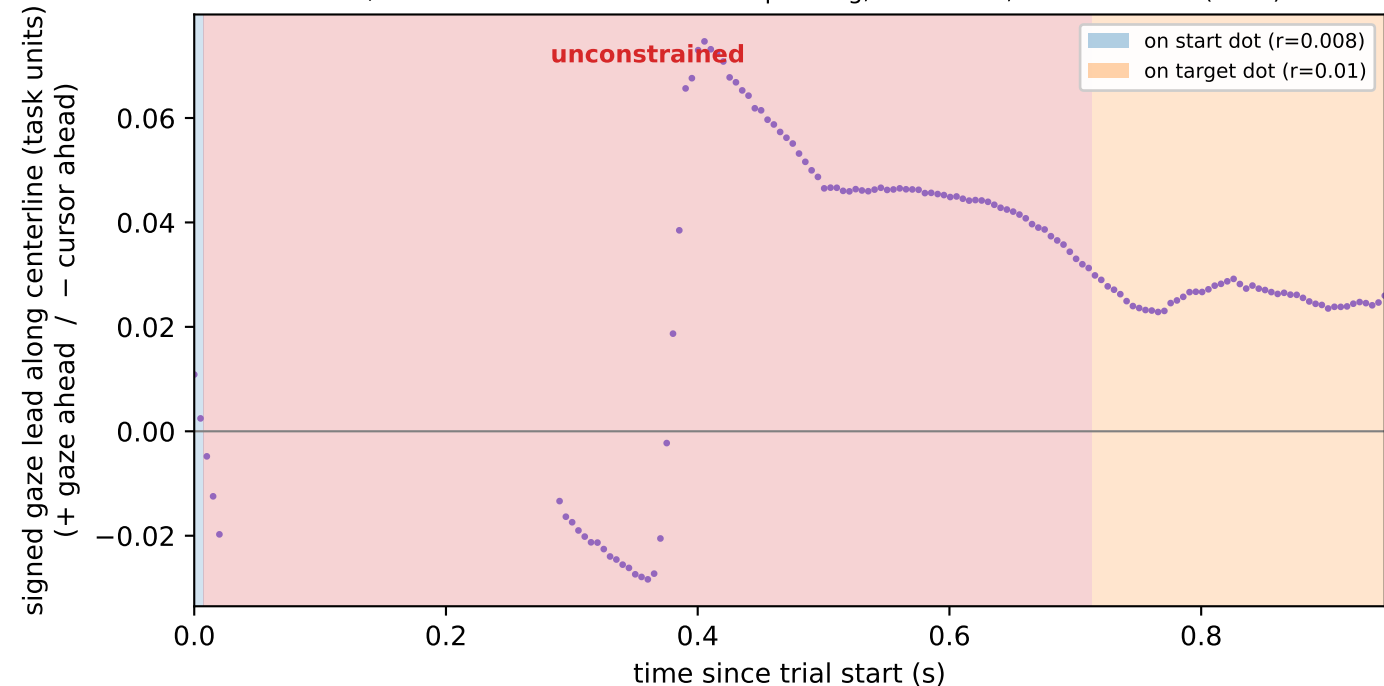

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

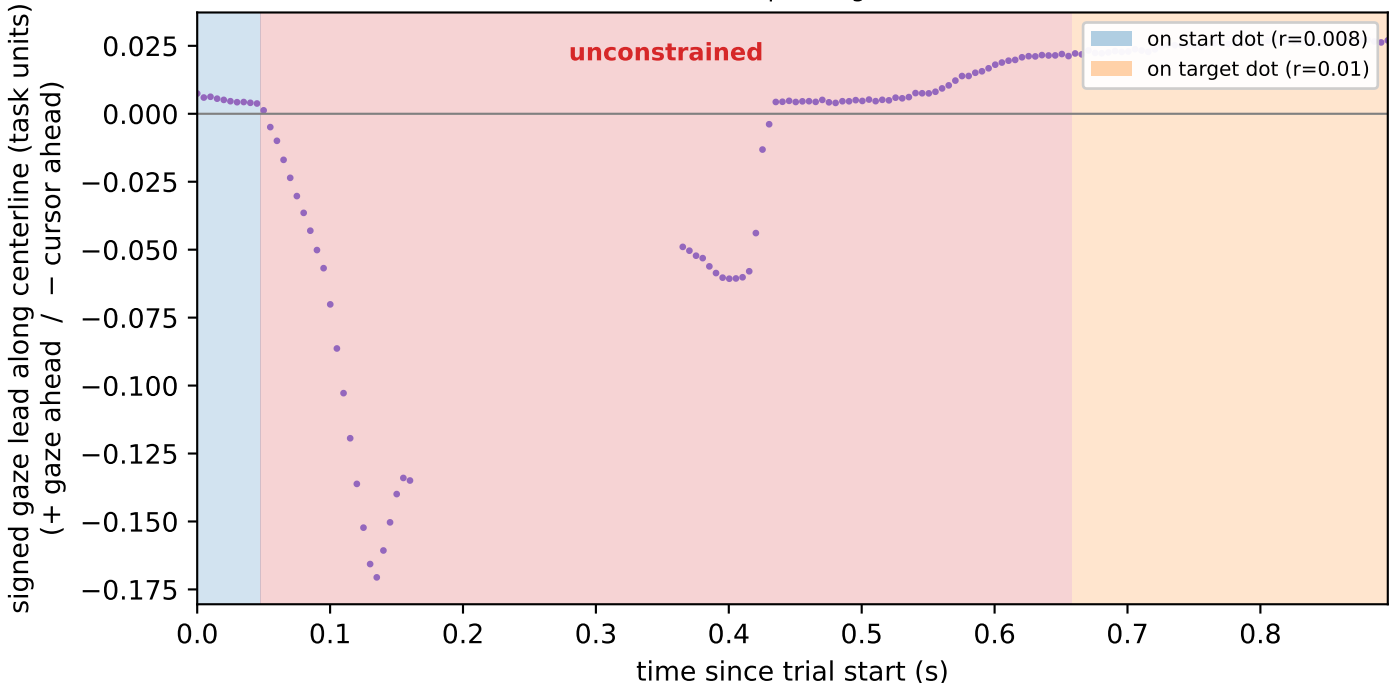

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

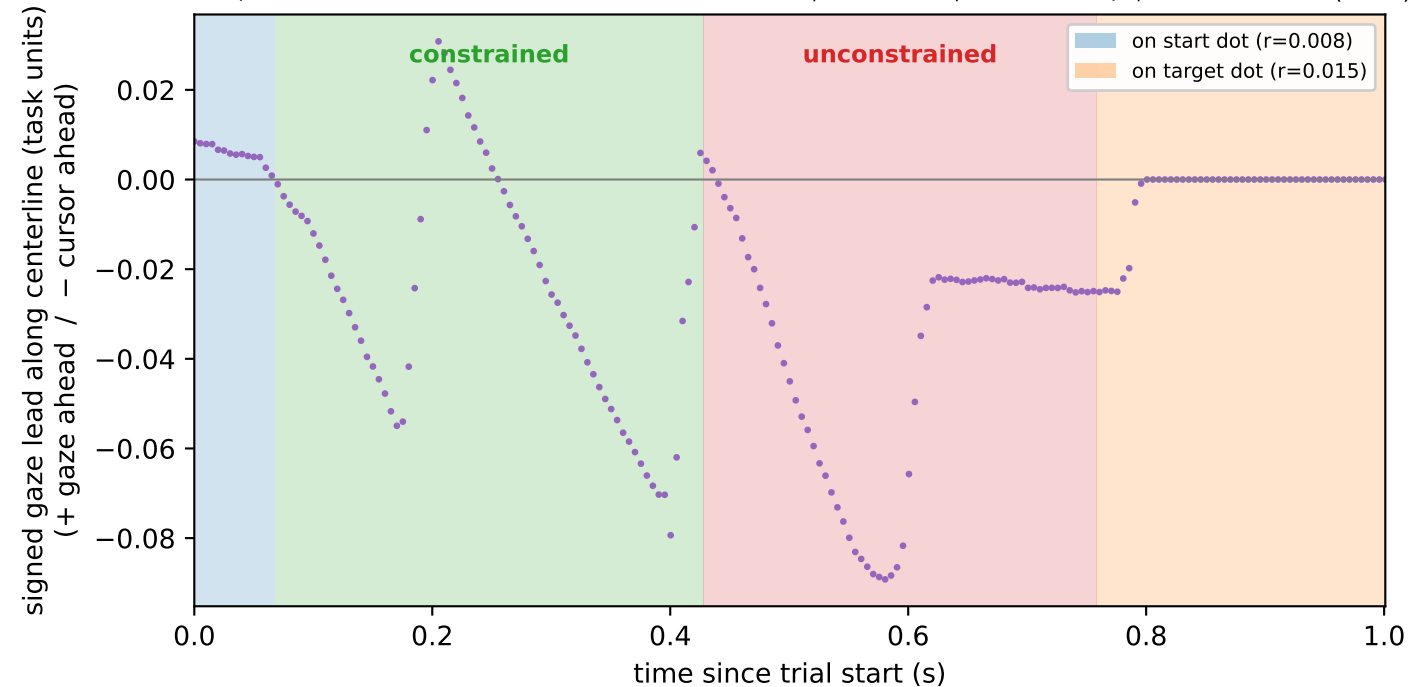

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

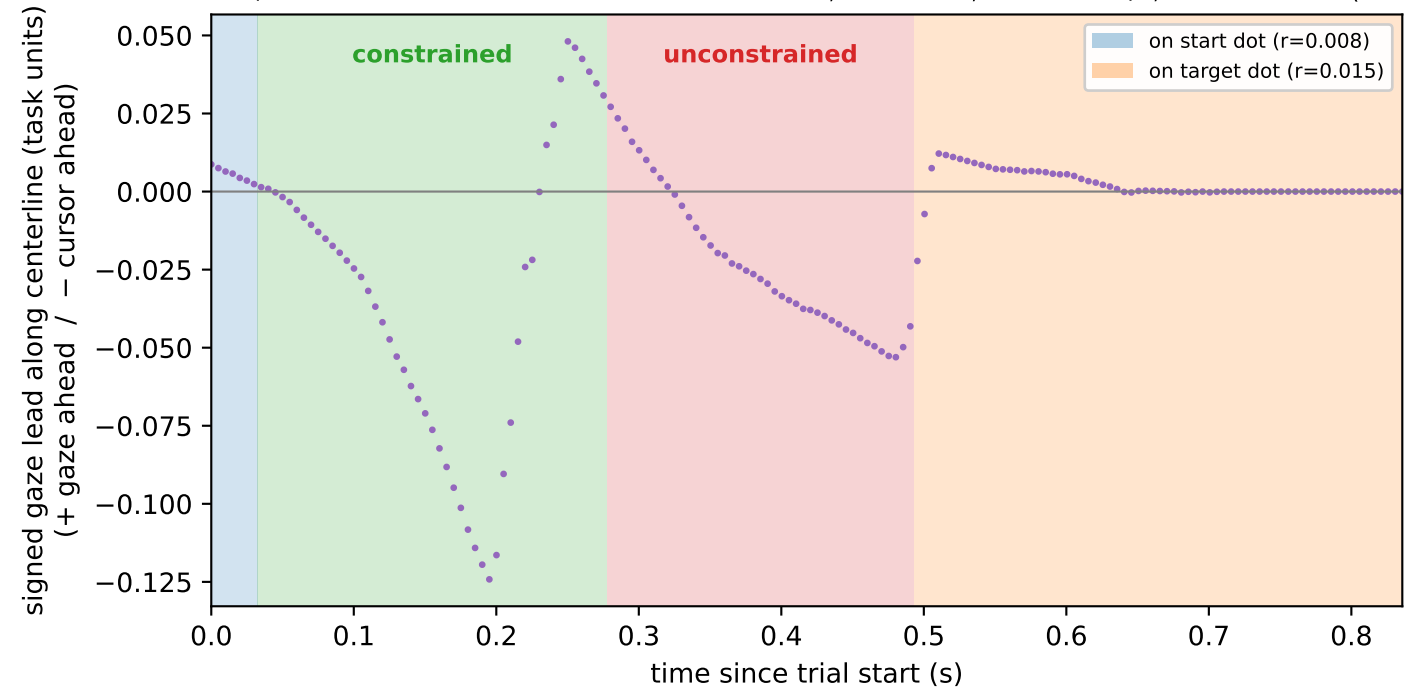

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

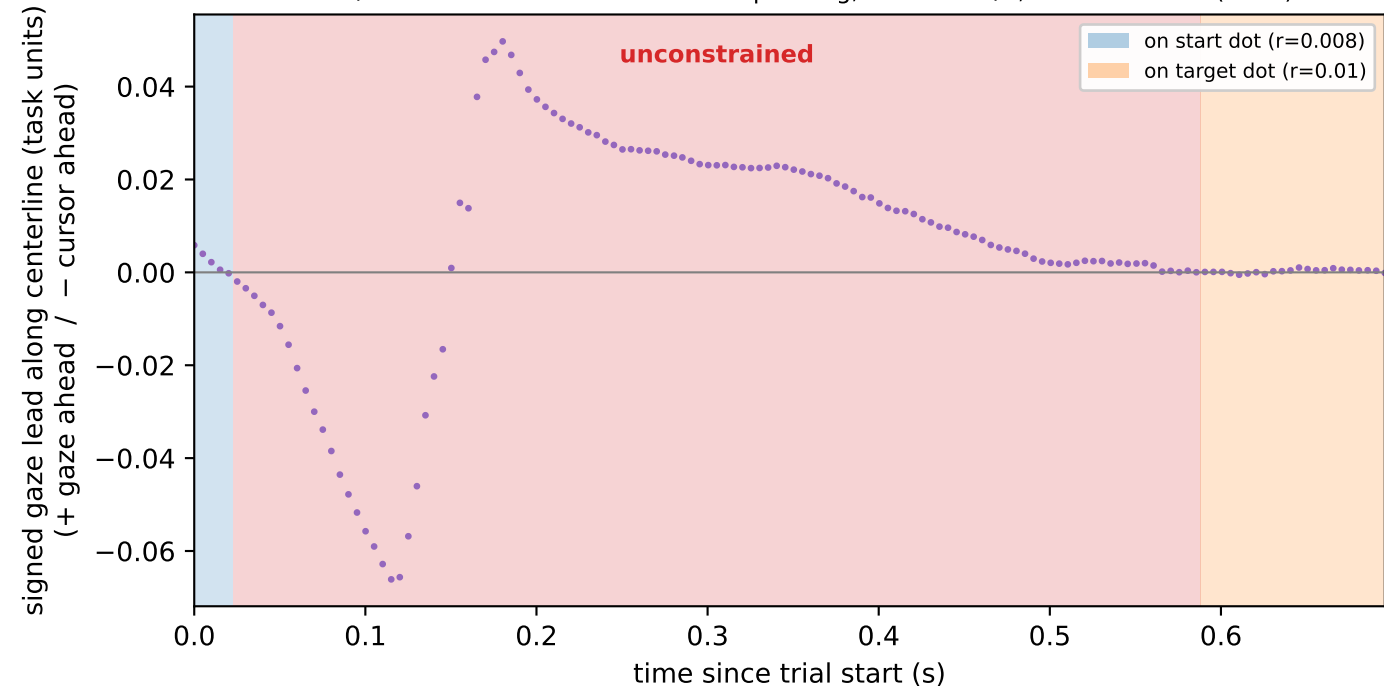

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

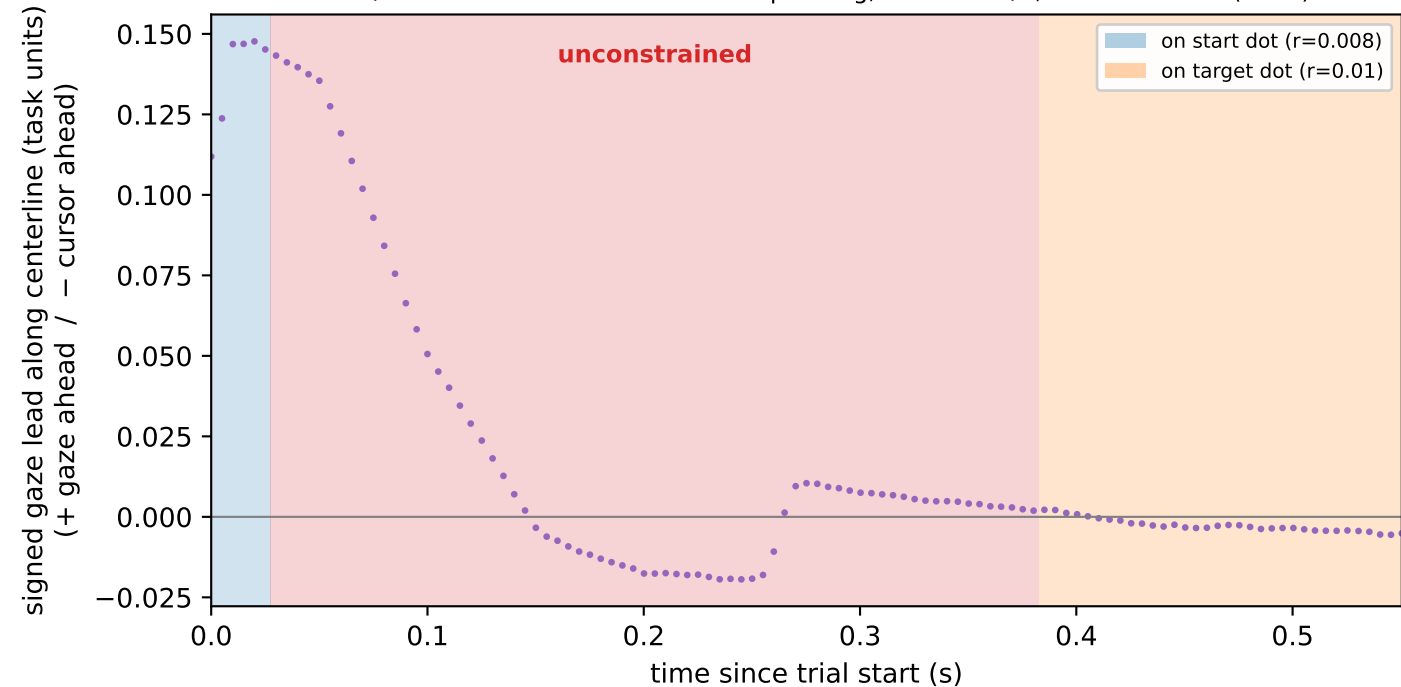

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

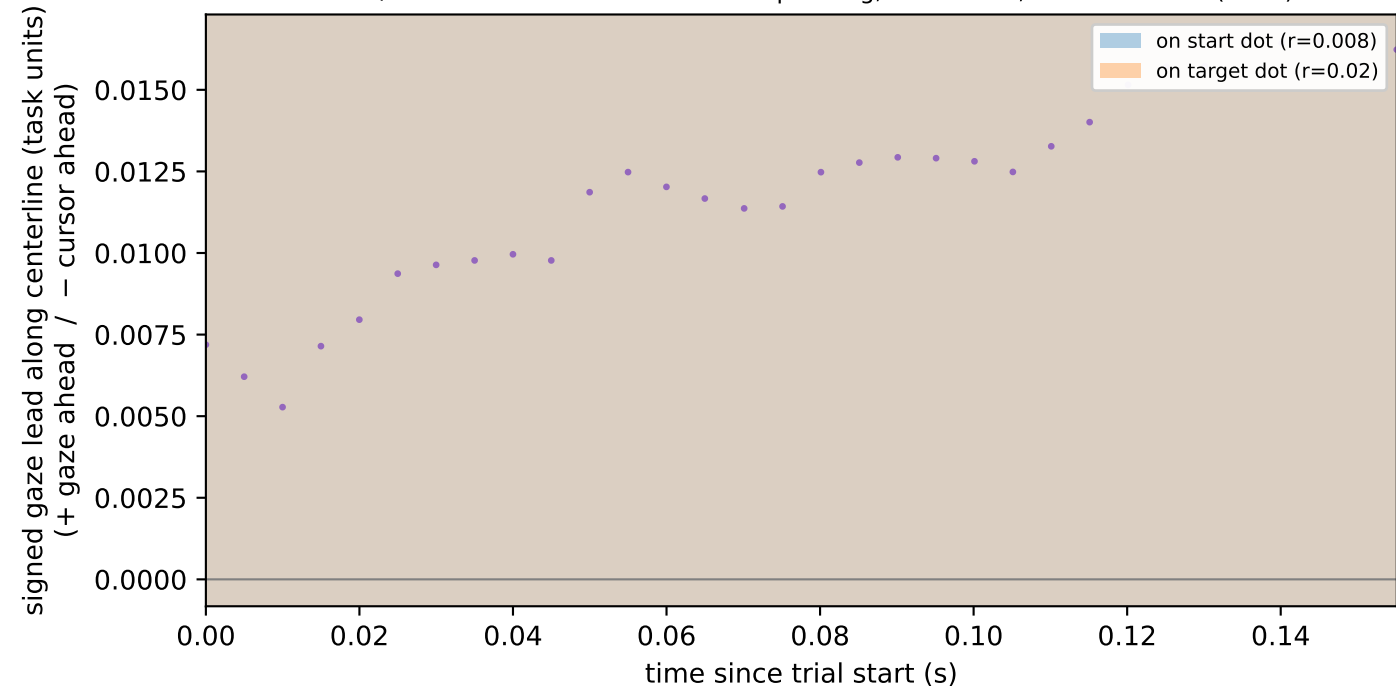

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

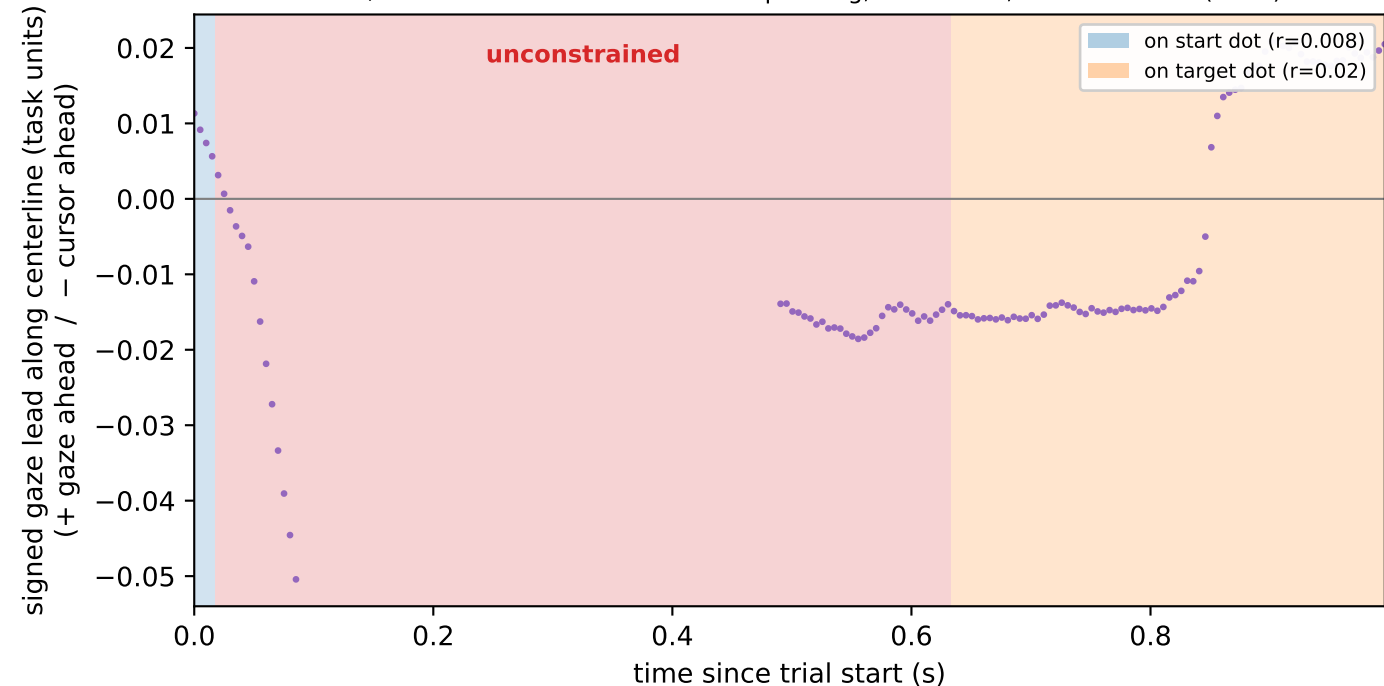

Trial 6/73 round 2 — unconstrained pointing, distance D/3, radius 10mm (id 43)

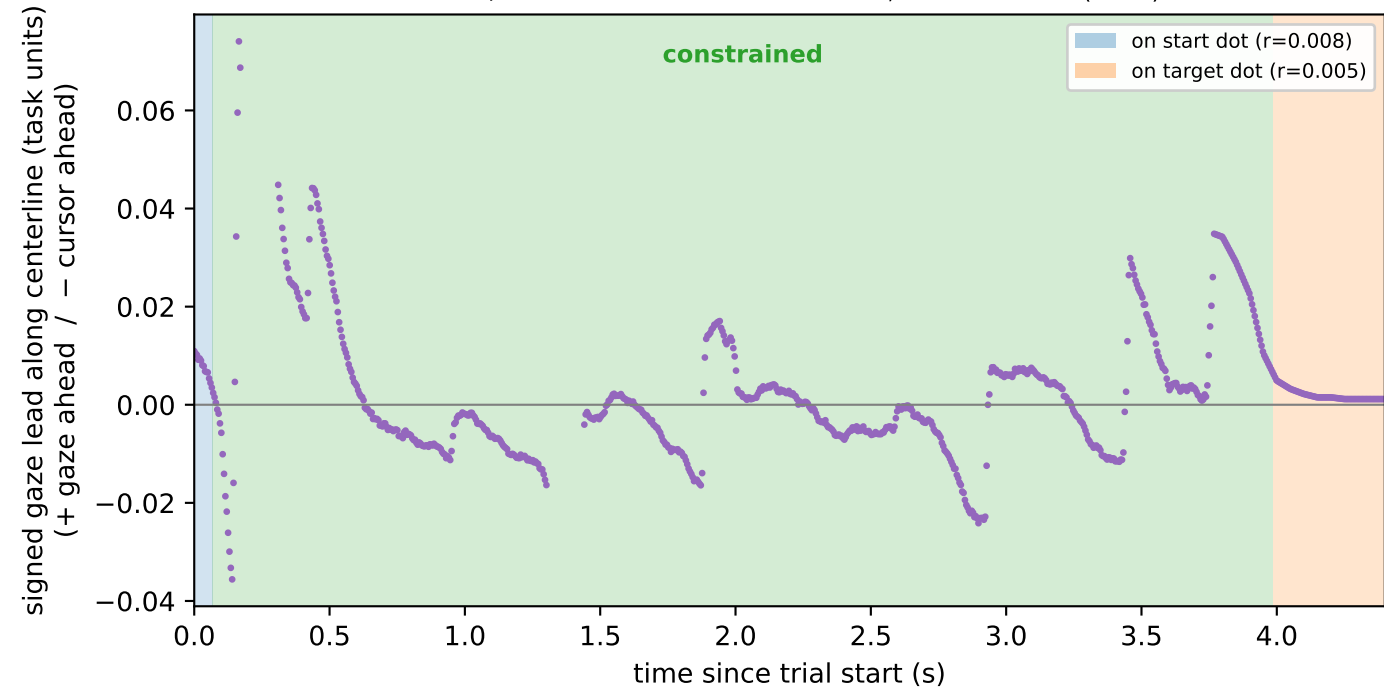

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

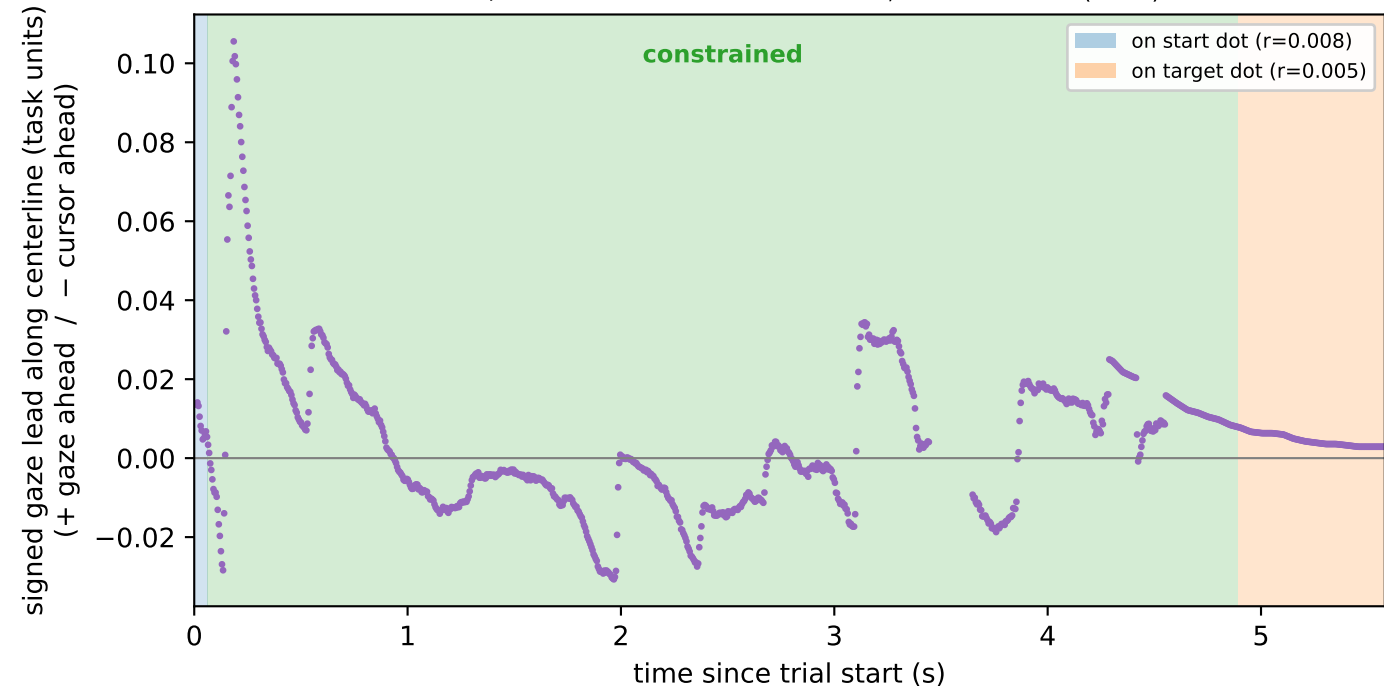

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

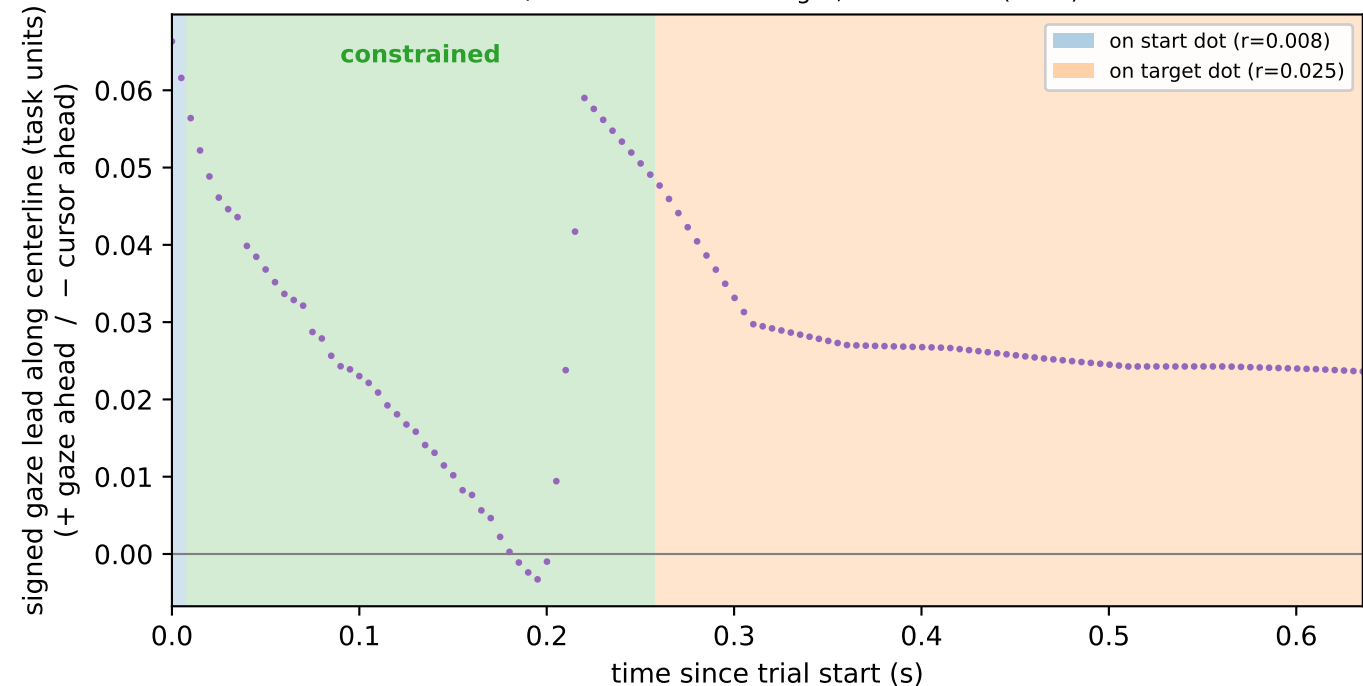

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

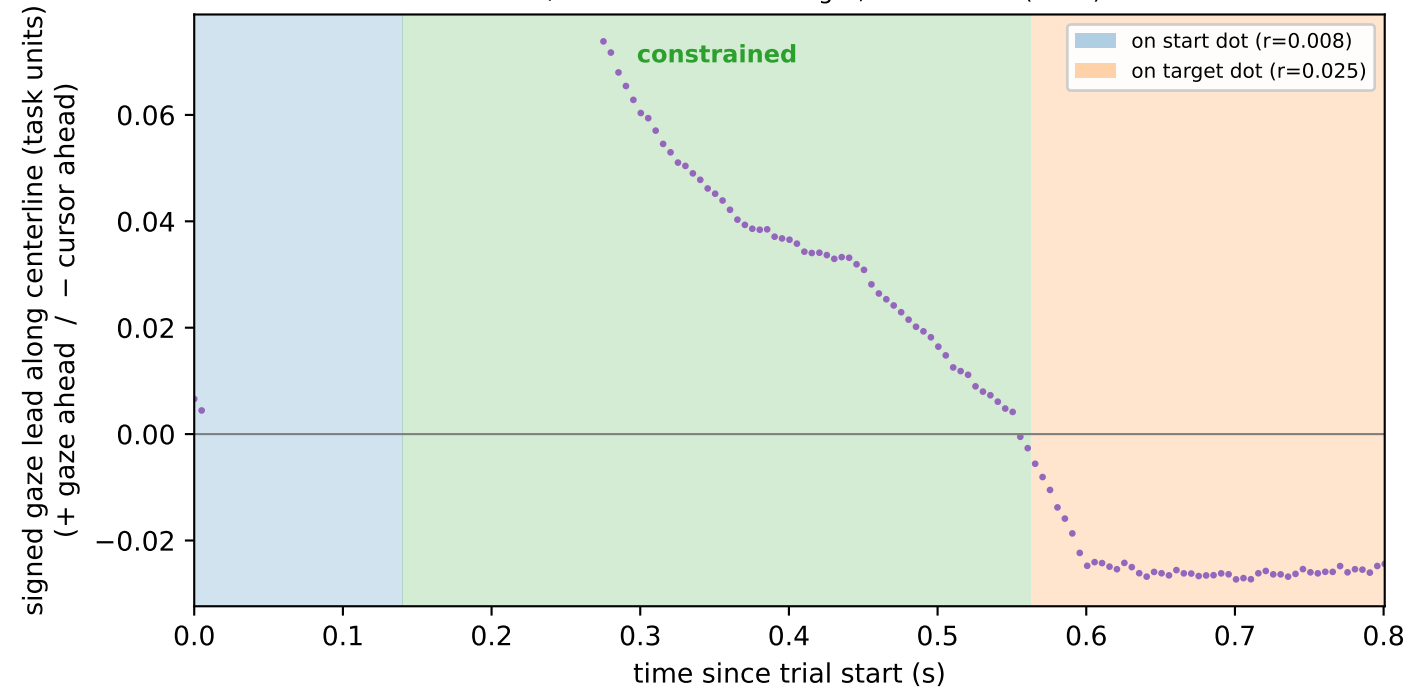

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

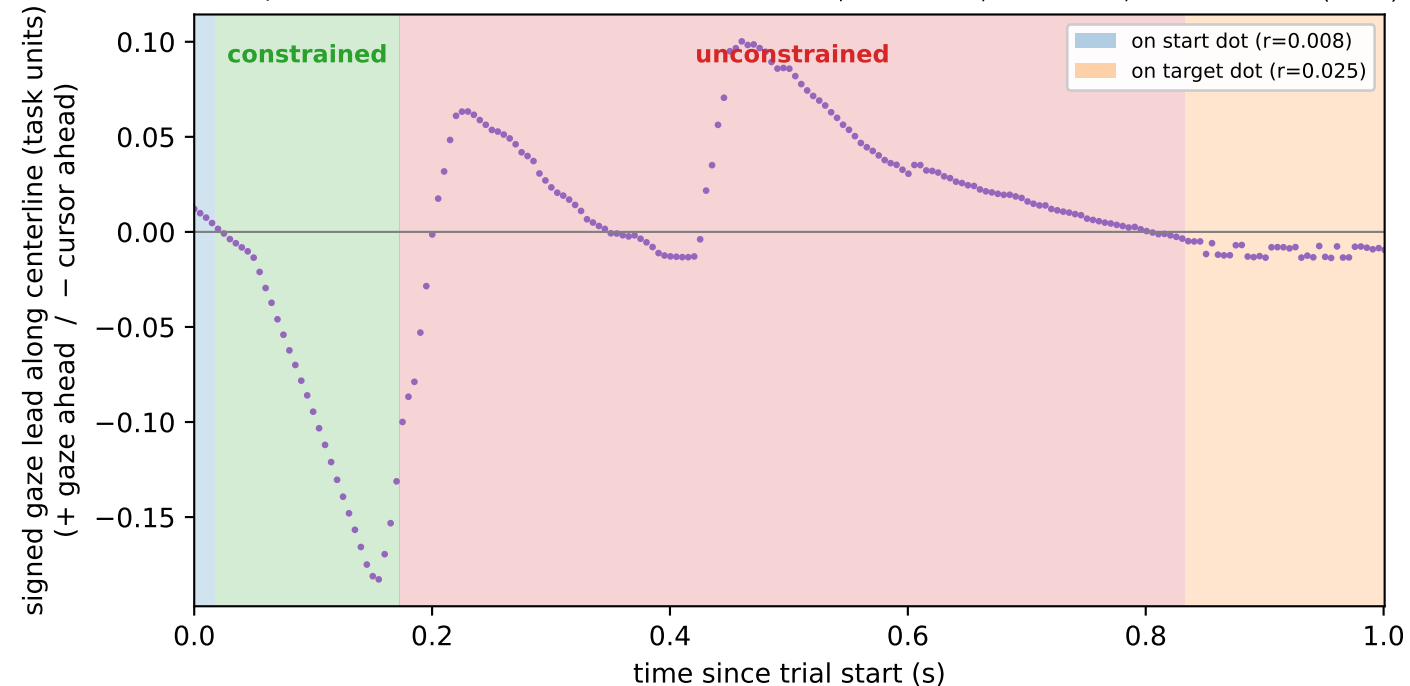

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

Trial 9/73 round 2 — straight, width 0.05 (id 15)

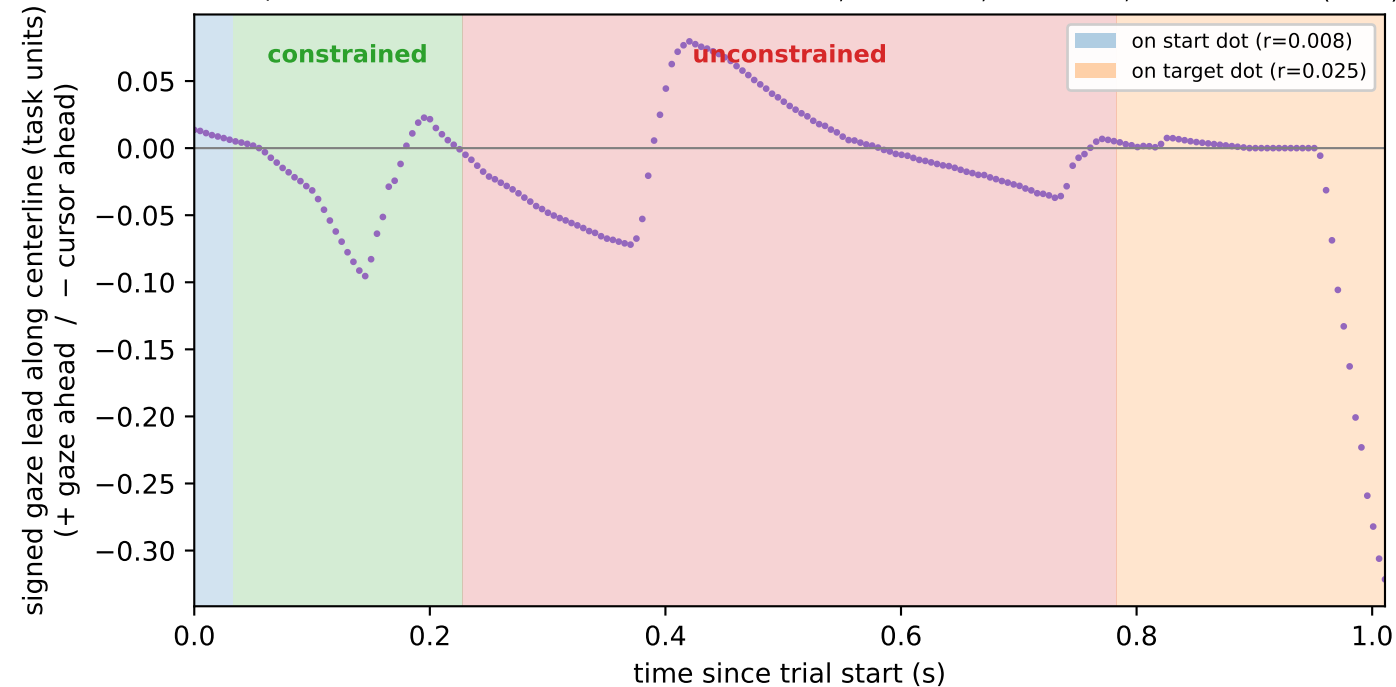

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

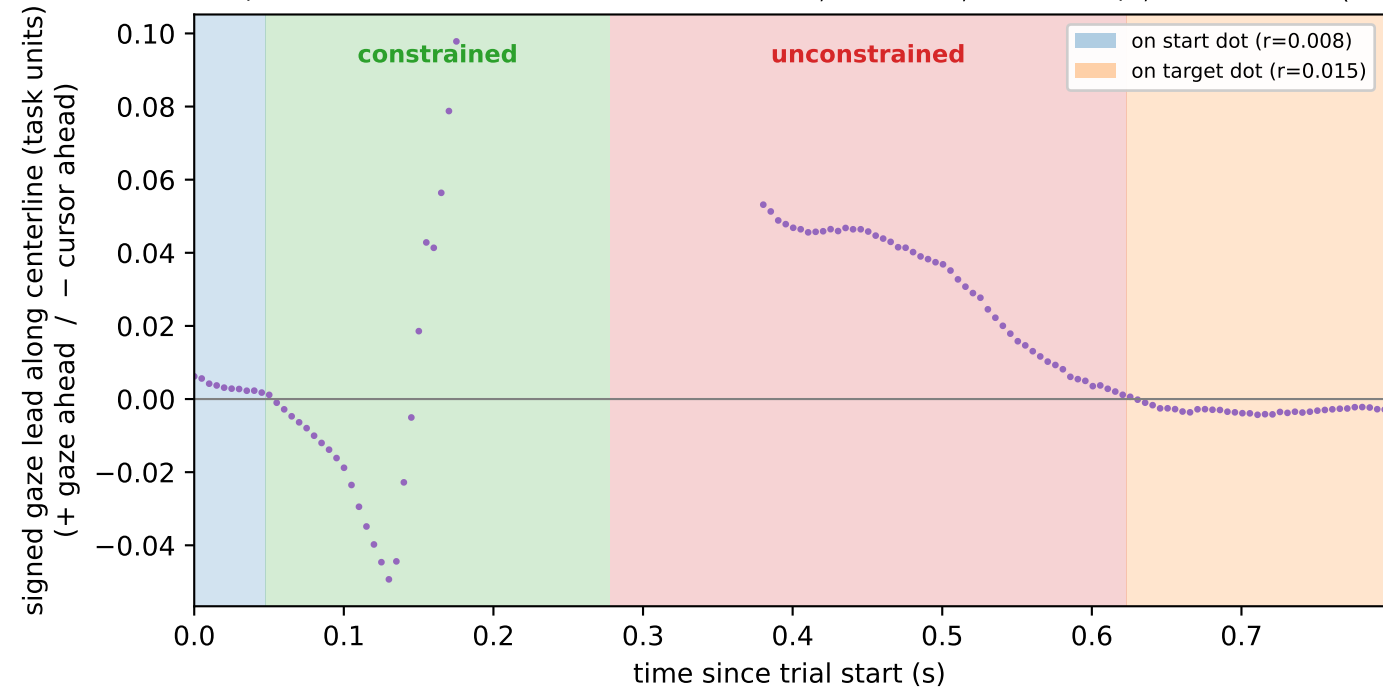

Trial 10/73 round 1 — constrained-to-unconstrained, width 0.05, distance D, radius 25mm (id 83)

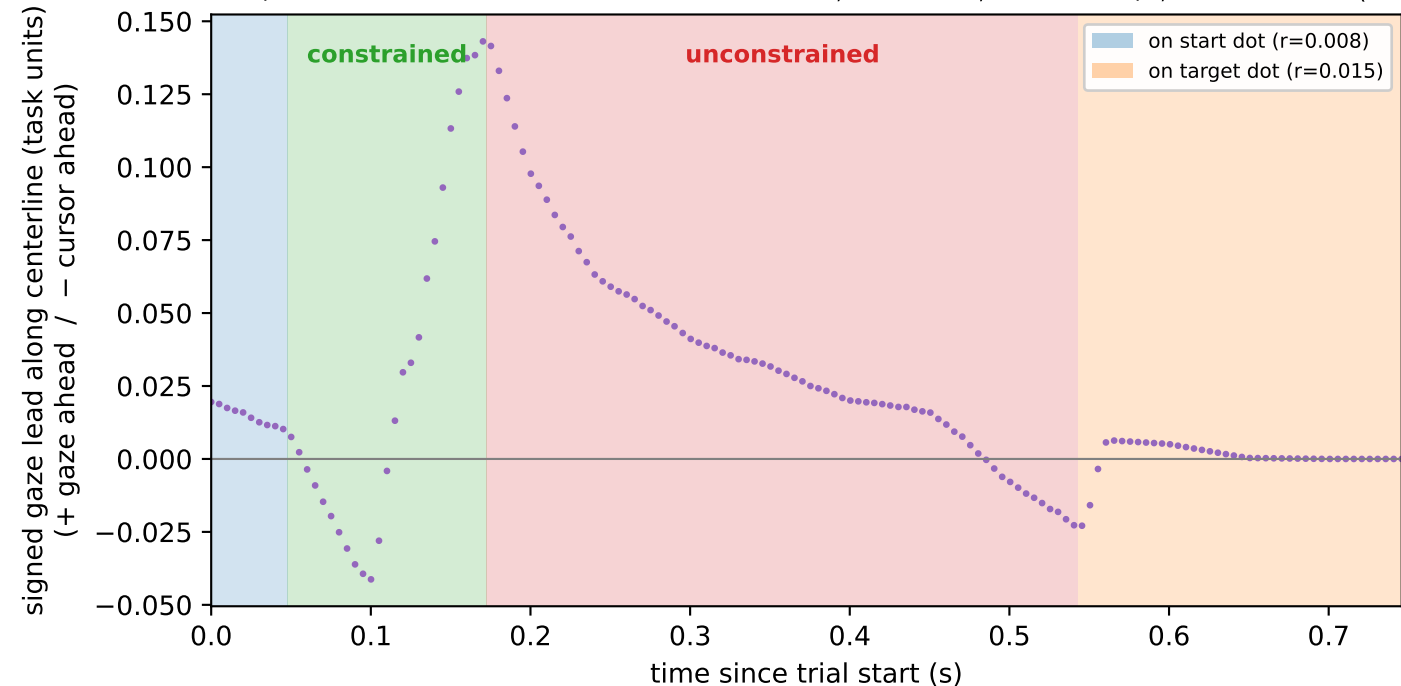

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

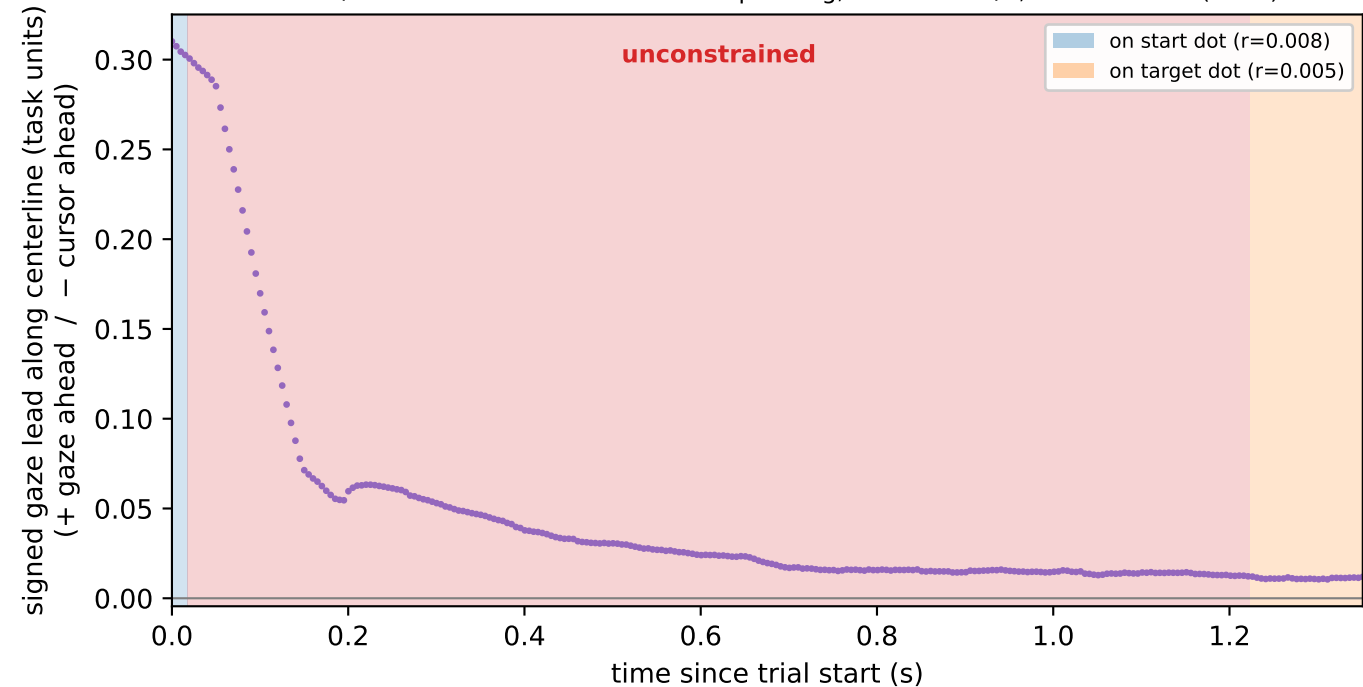

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

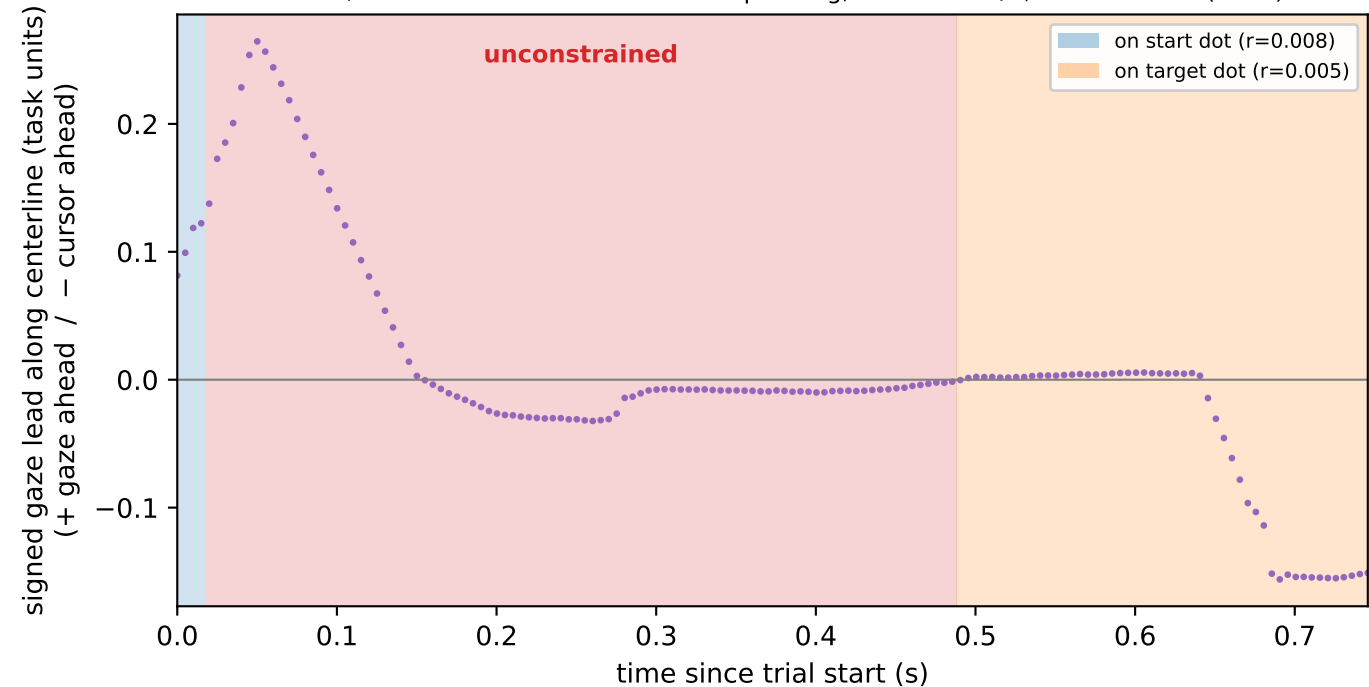

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

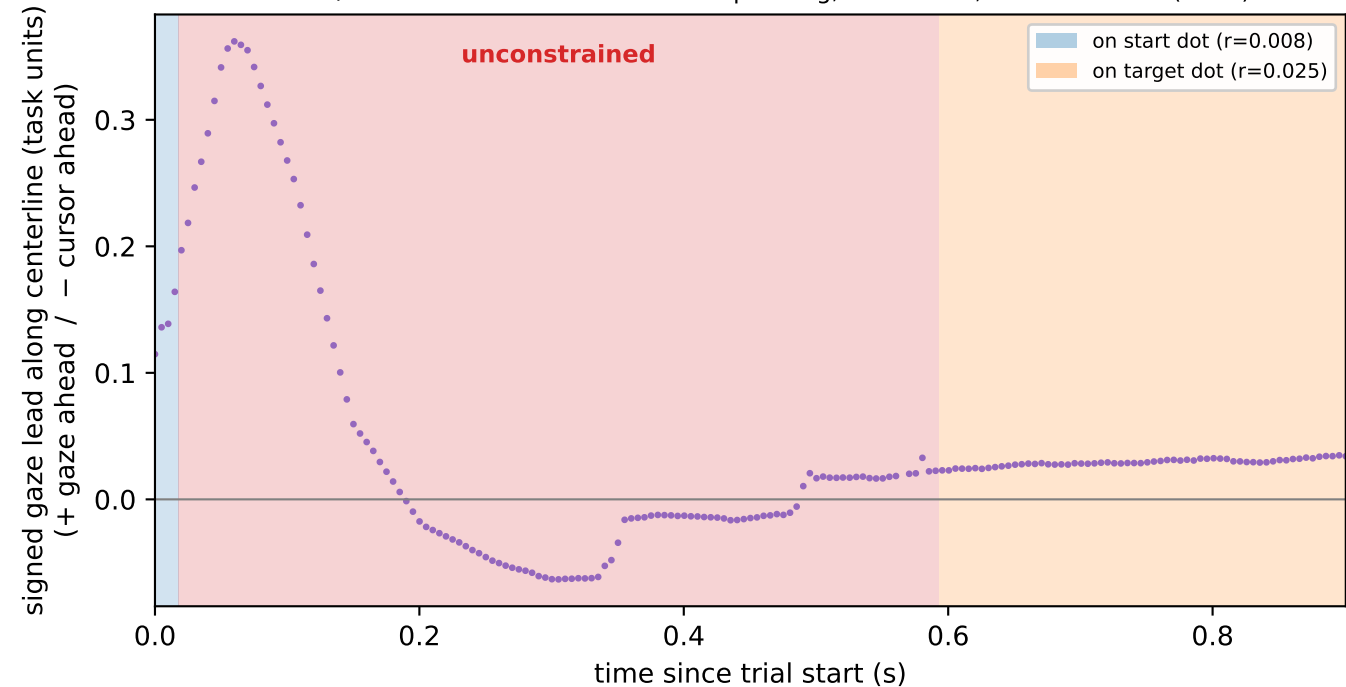

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

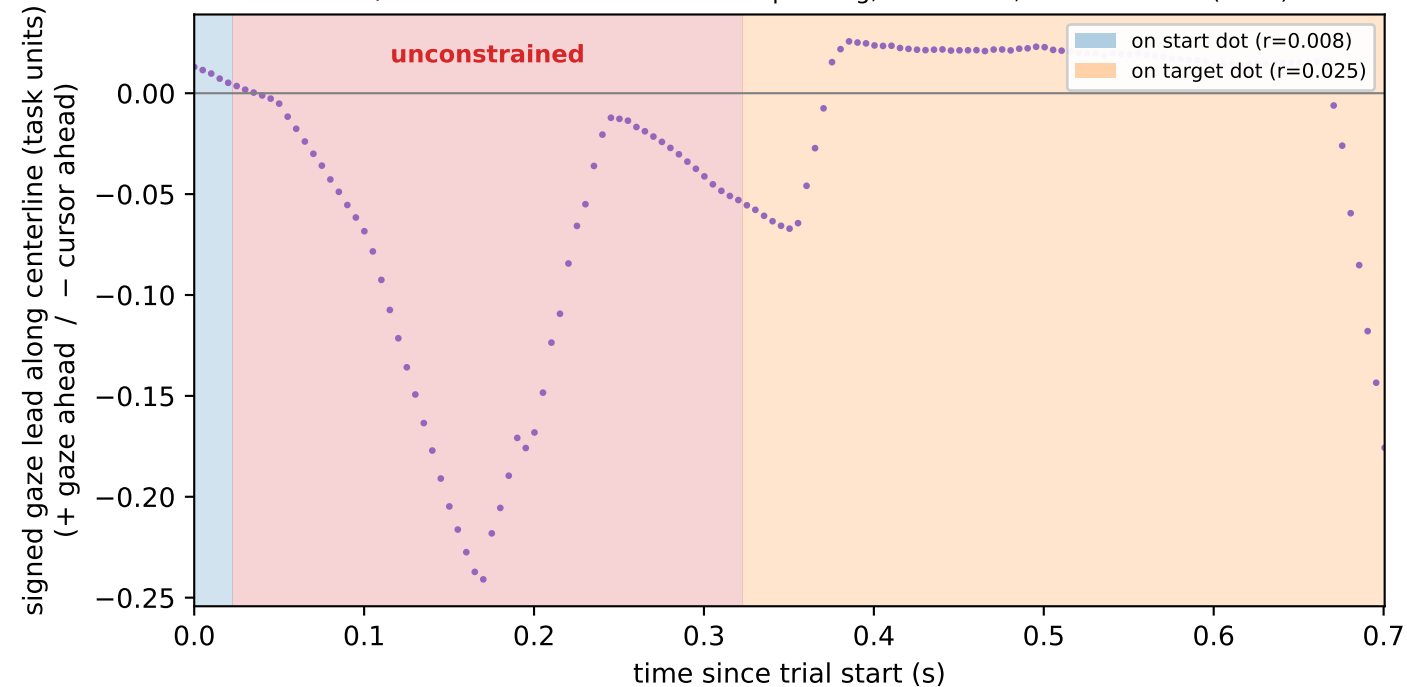

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

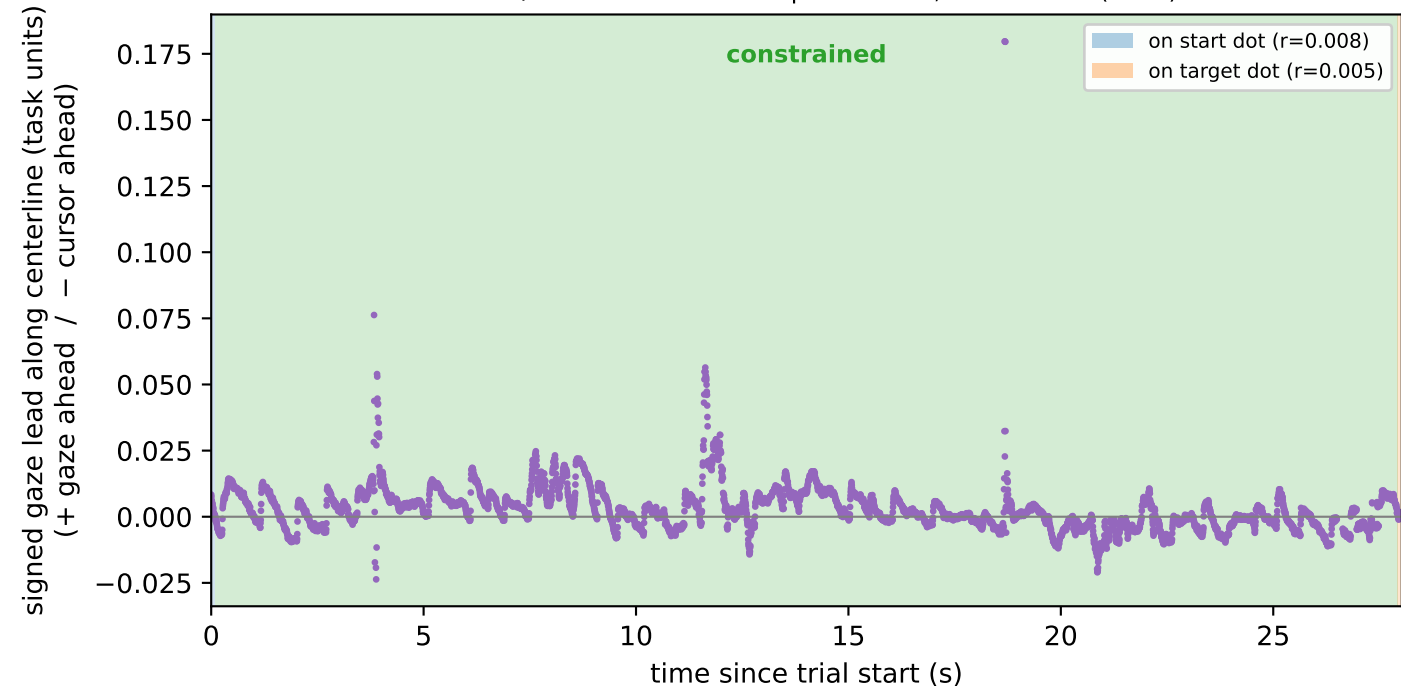

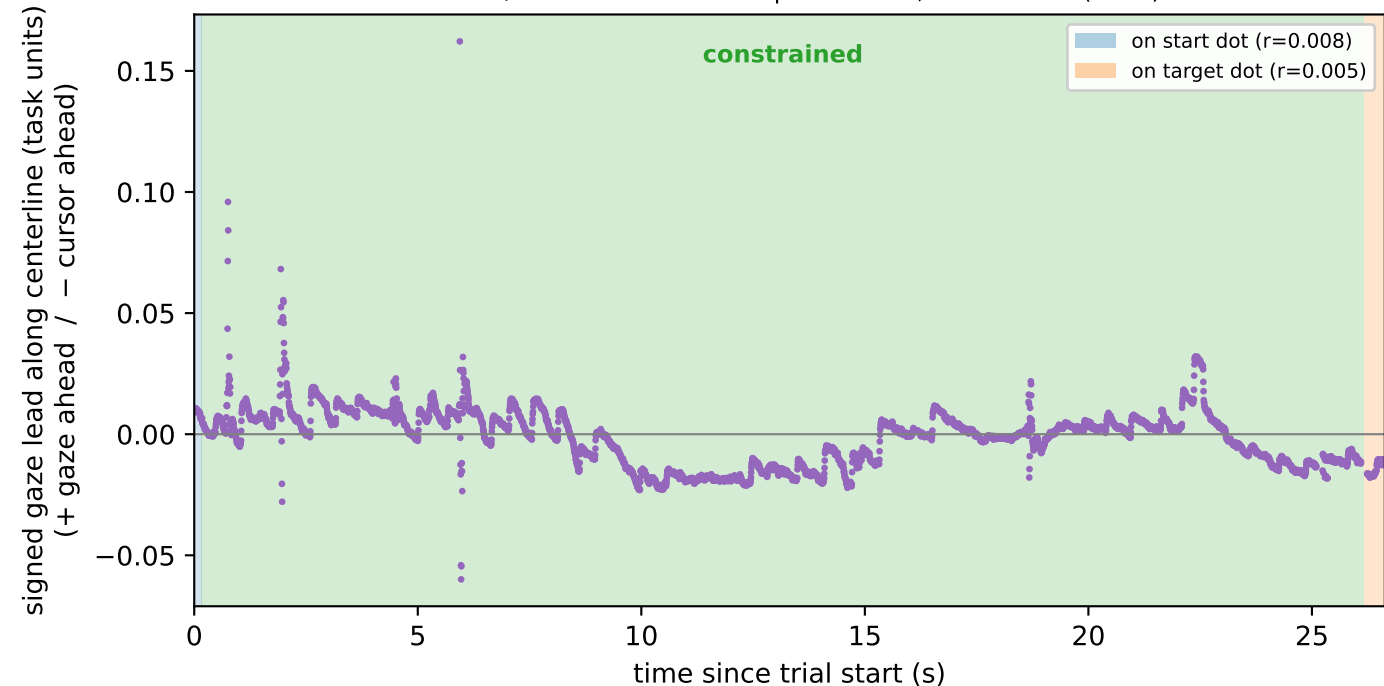

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

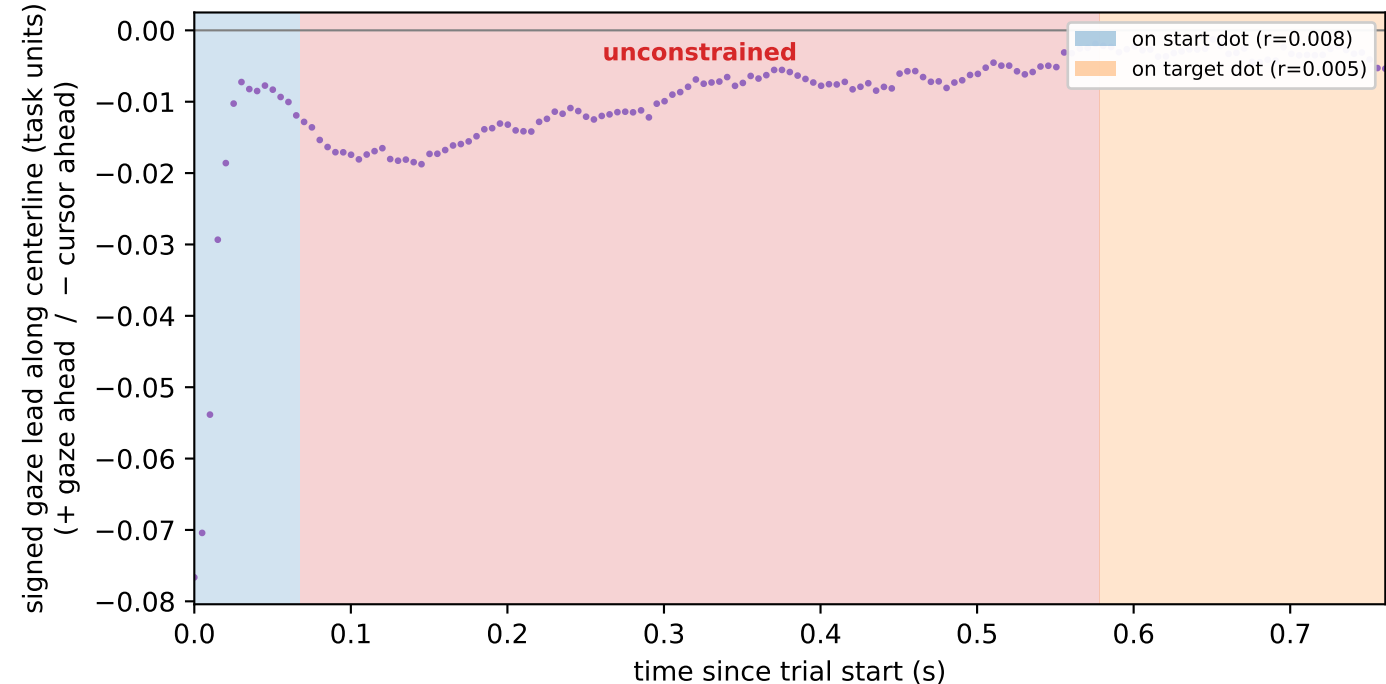

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

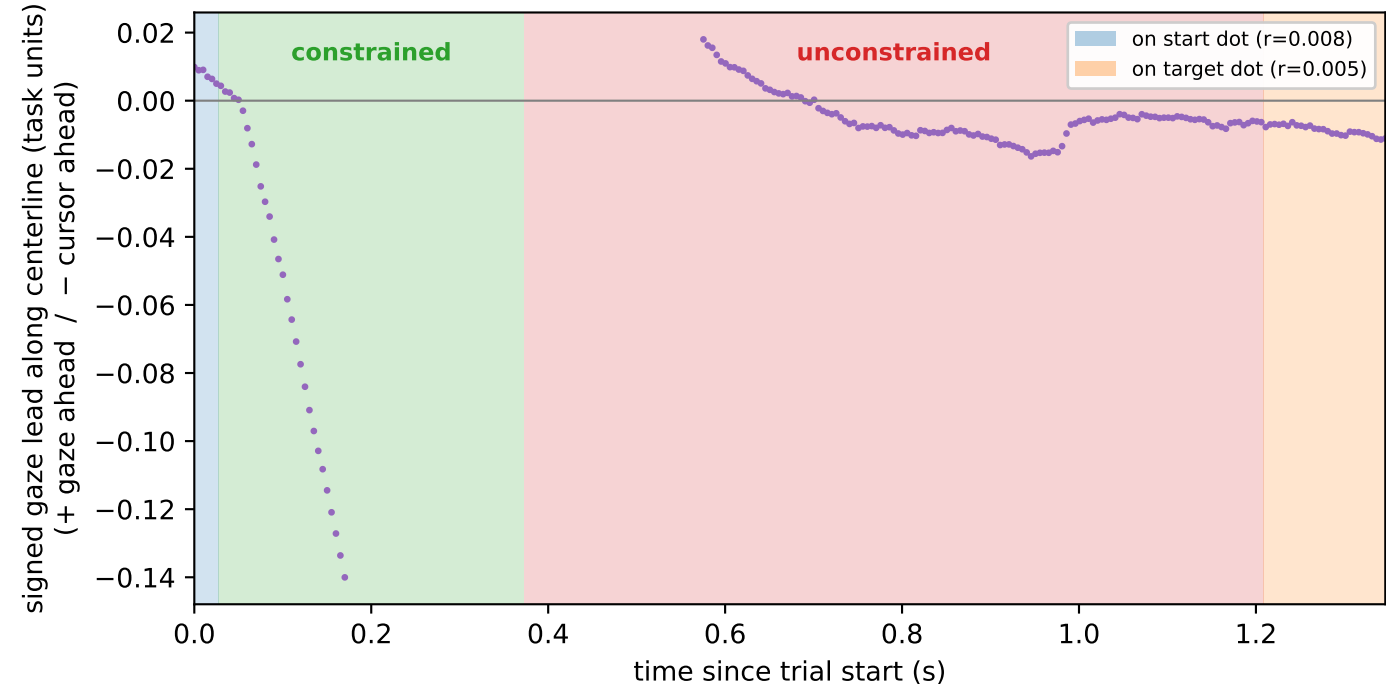

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

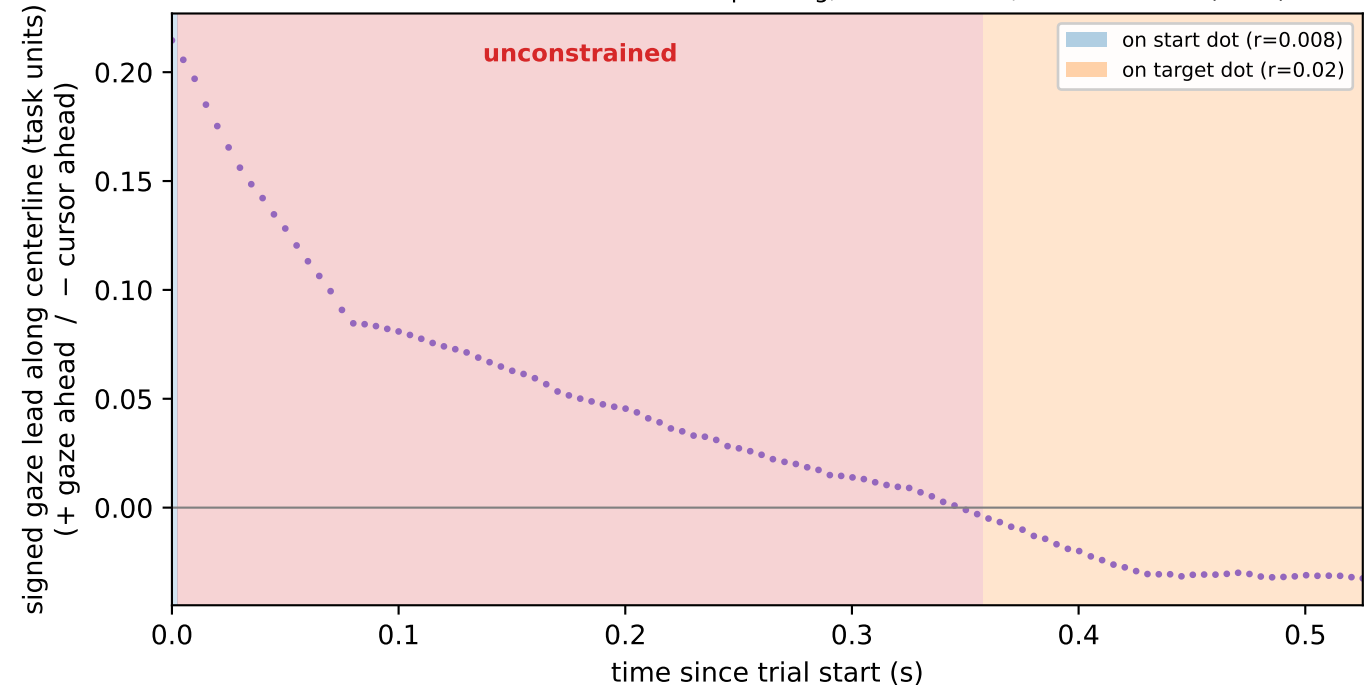

Trial 15/73 round 1 — constrained-to-unconstrained, width 0.05, distance 5D/6, radius 5mm (id 78)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

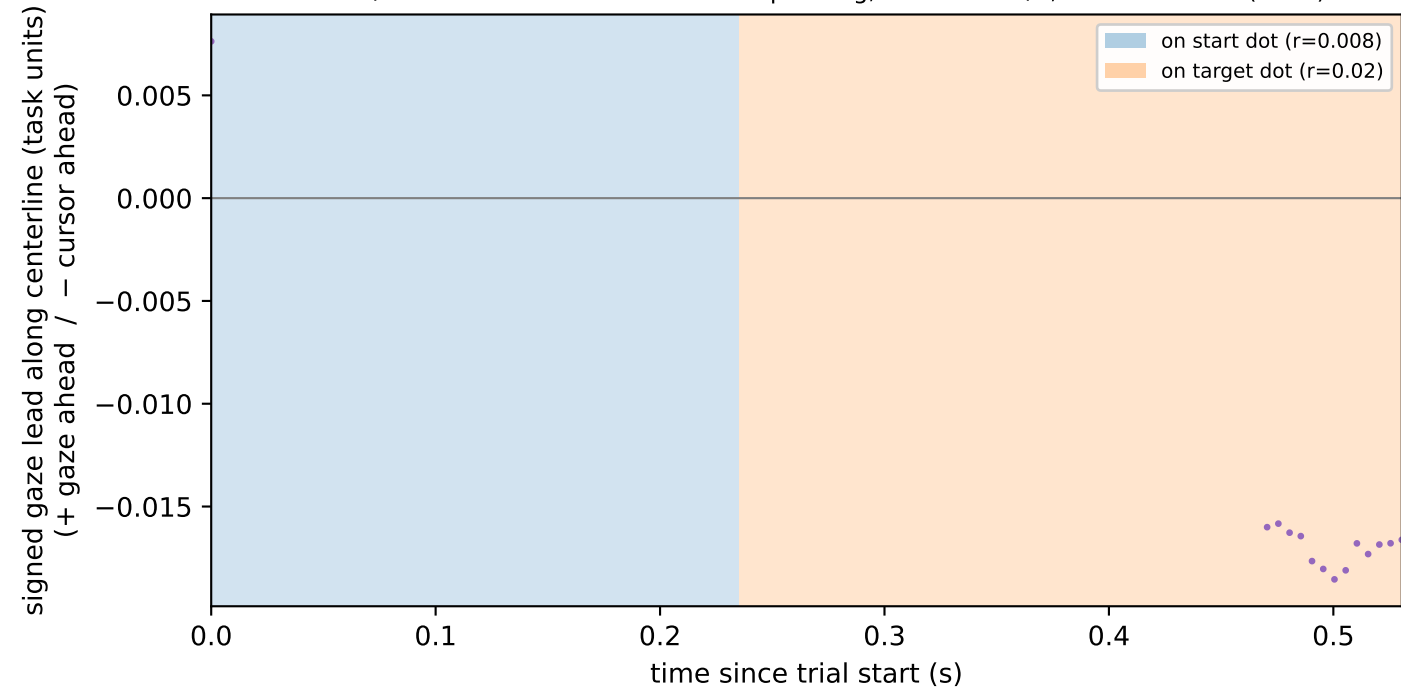

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

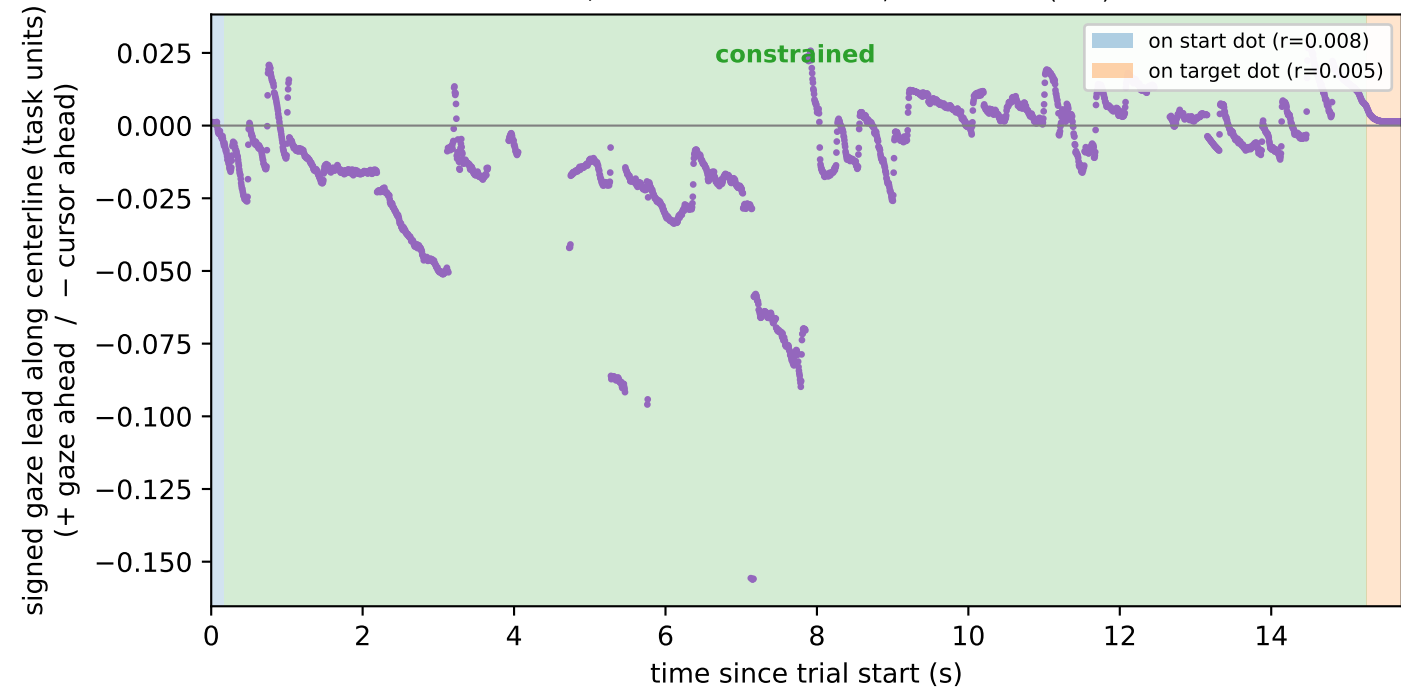

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 16/73 round 2 — unconstrained pointing, distance 2D/3, radius 20mm (id 50)

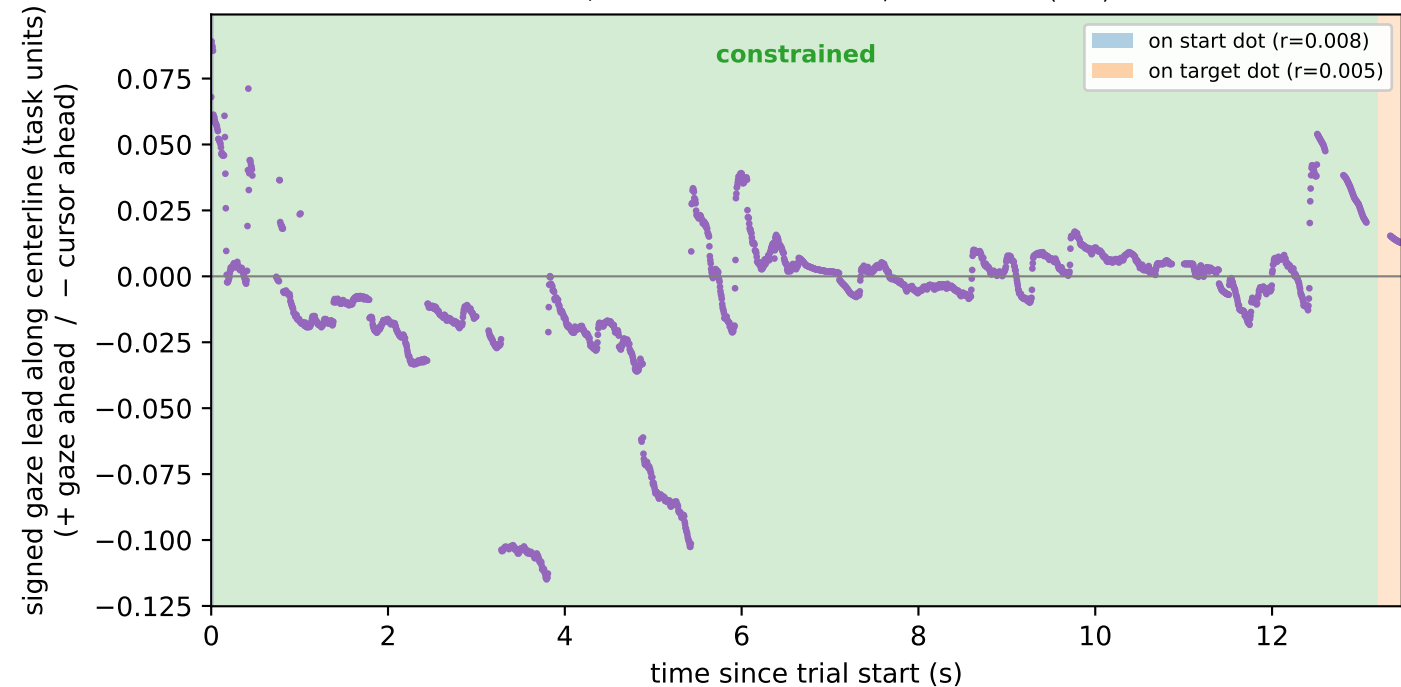

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

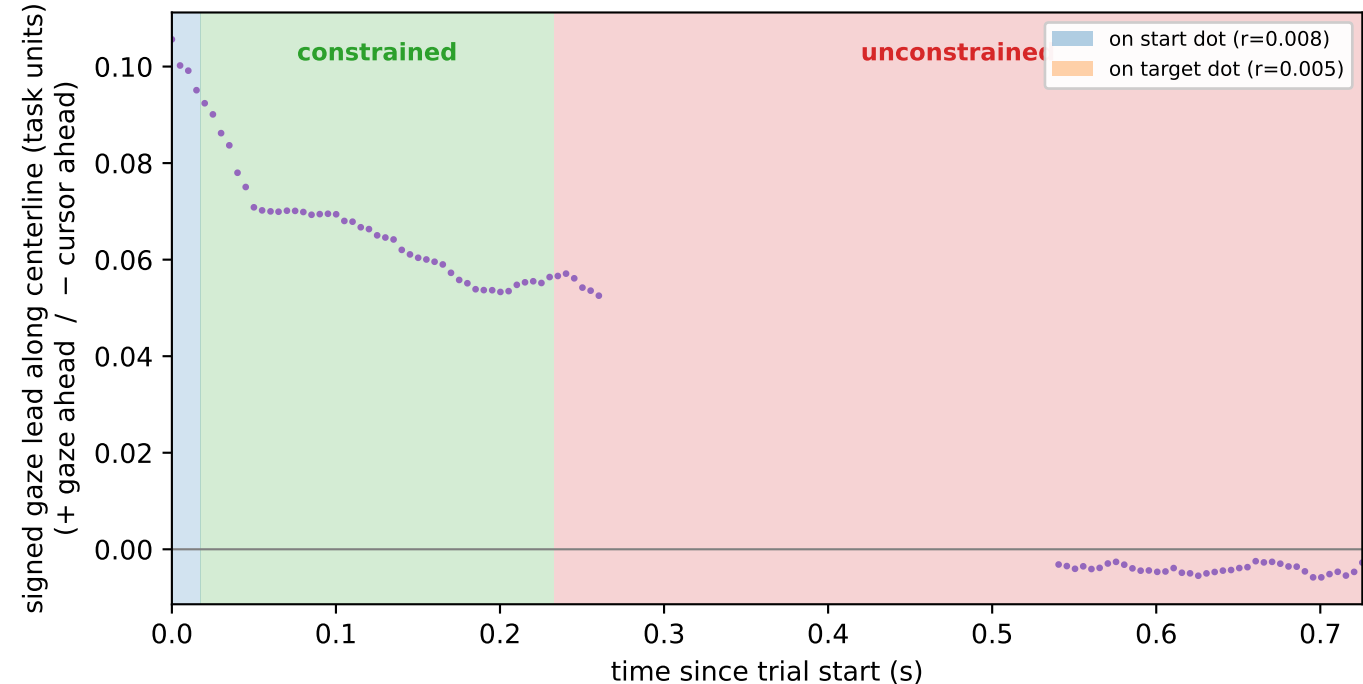

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

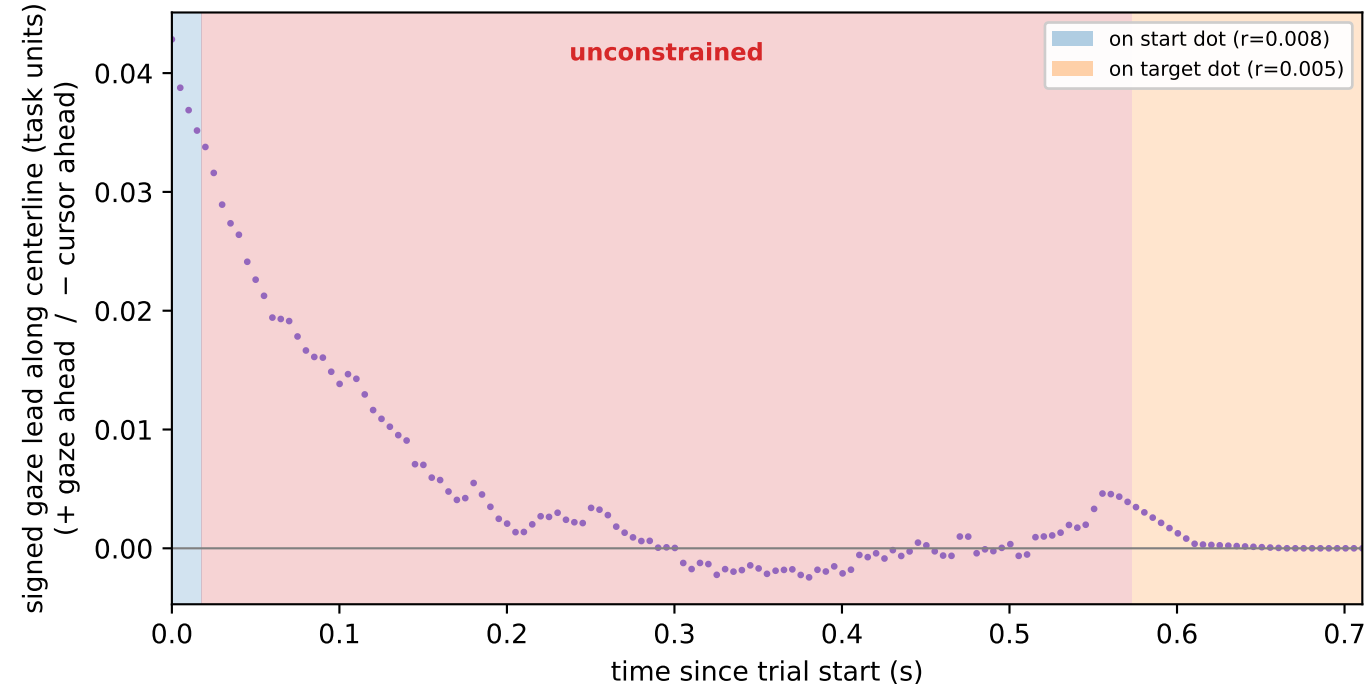

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

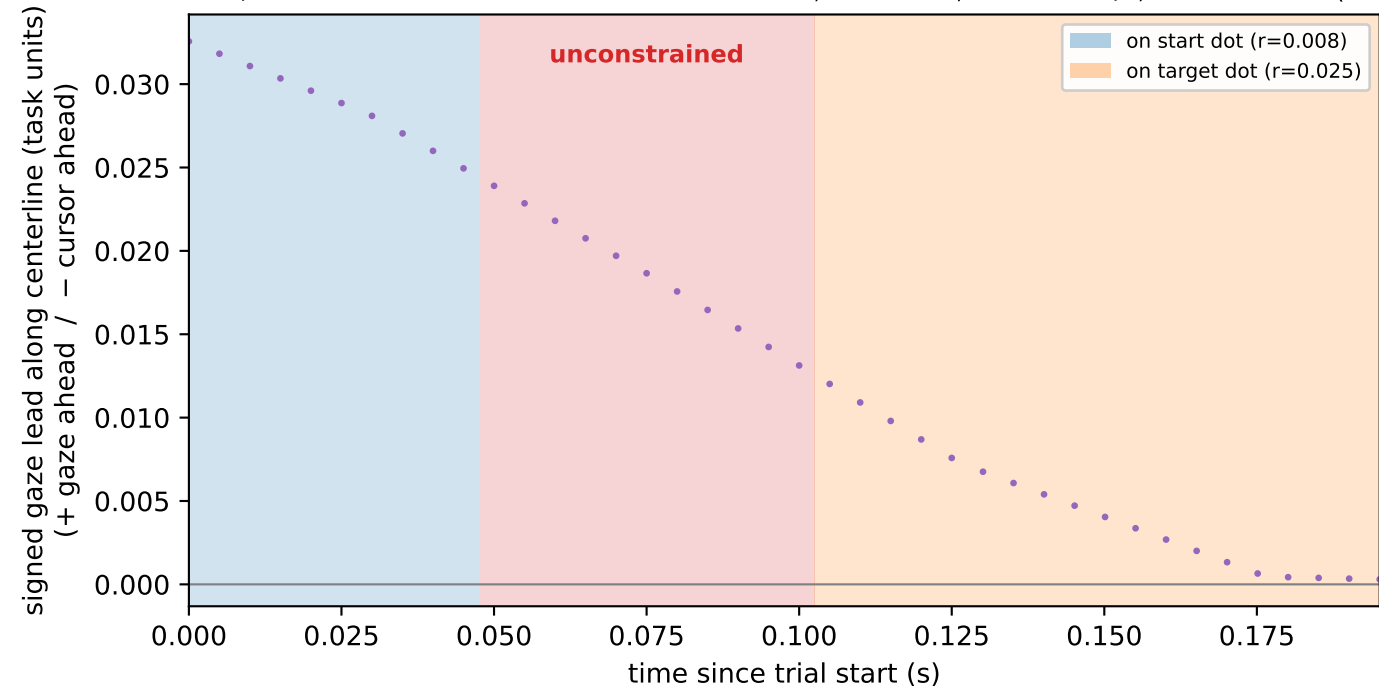

Trial 18/73 round 1 — constrained-to-unconstrained, width 0.05, distance 4D/6, radius 5mm (id 75)

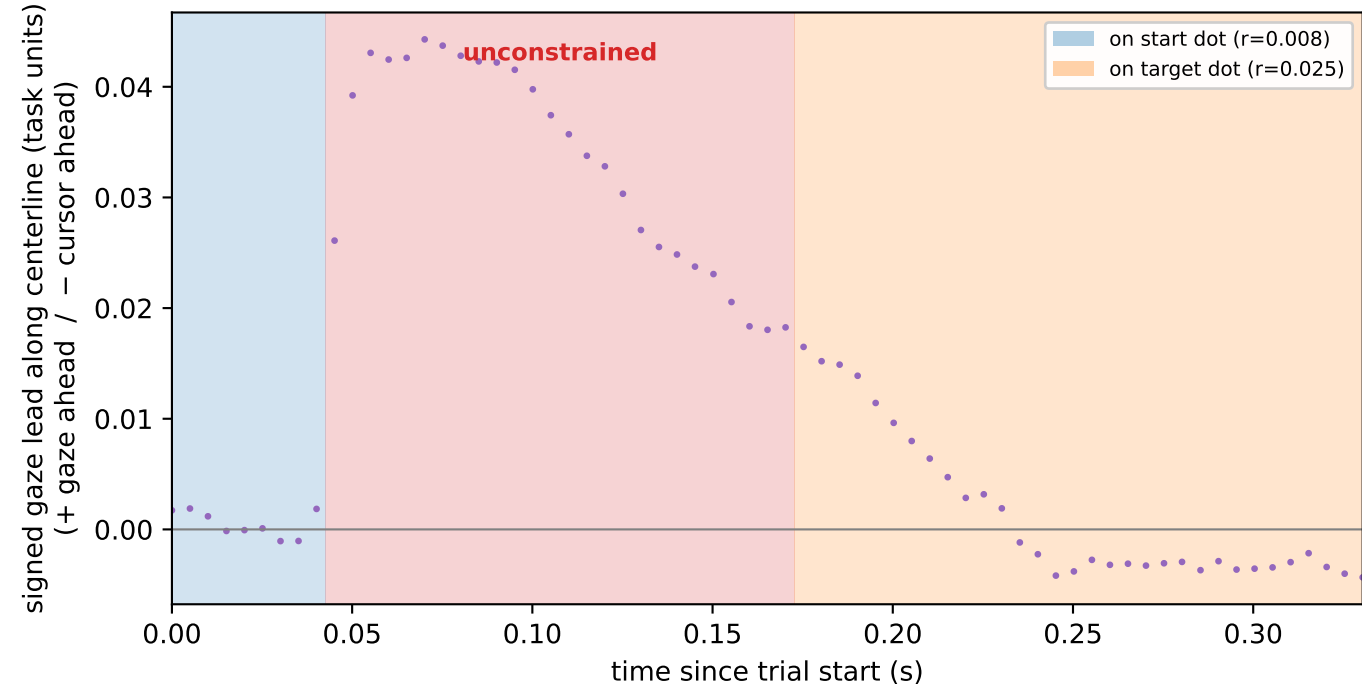

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

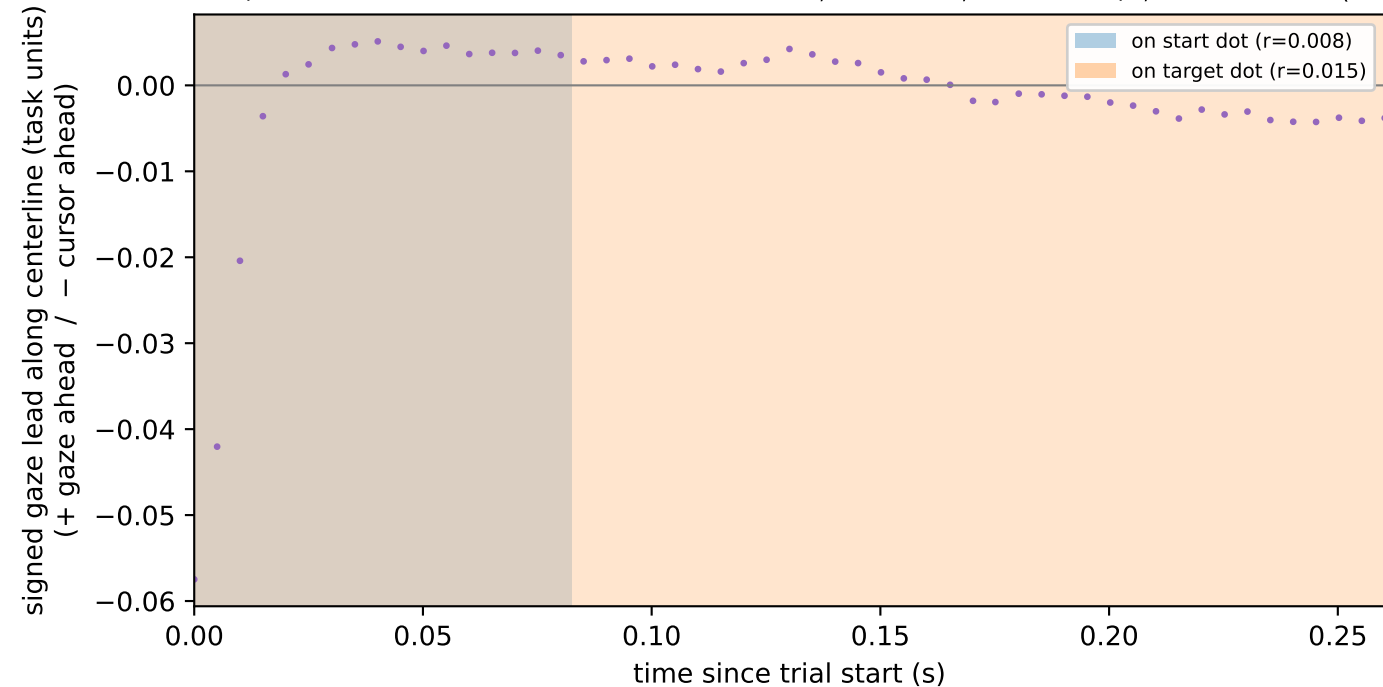

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

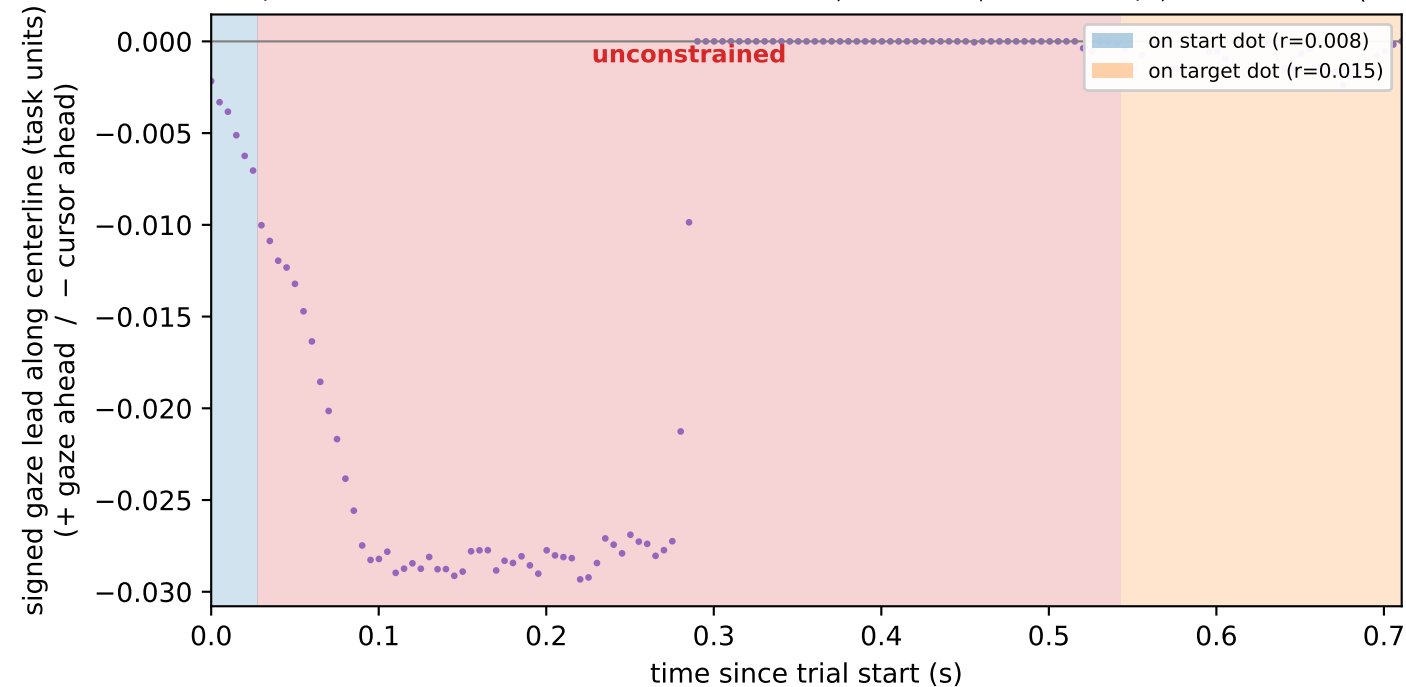

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 20/73 round 1 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 15mm (id 70)

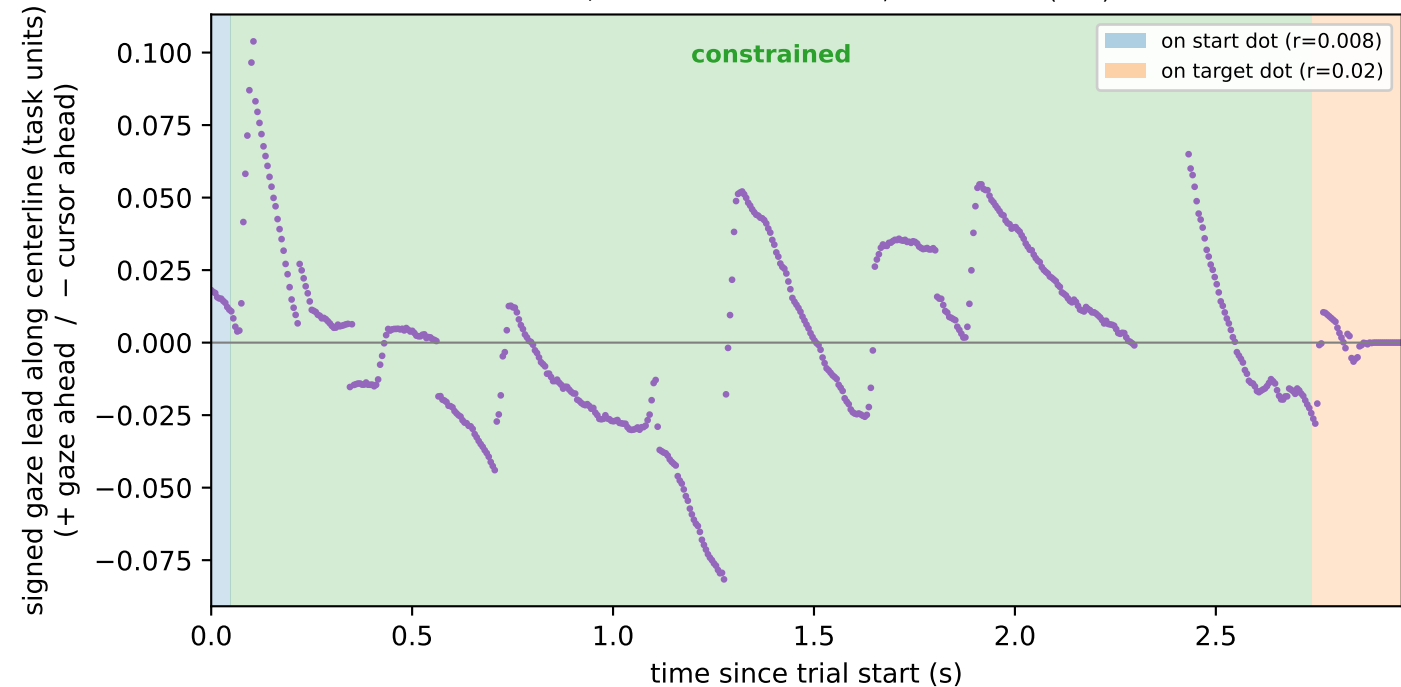

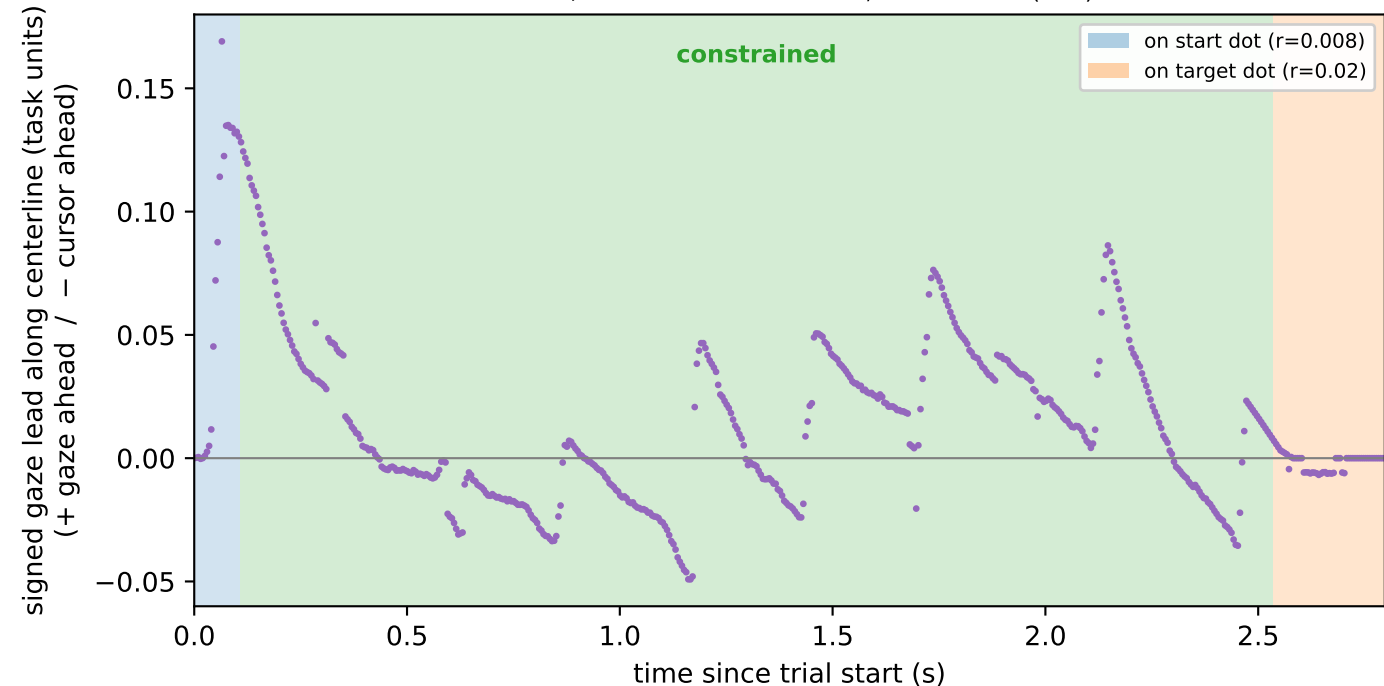

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

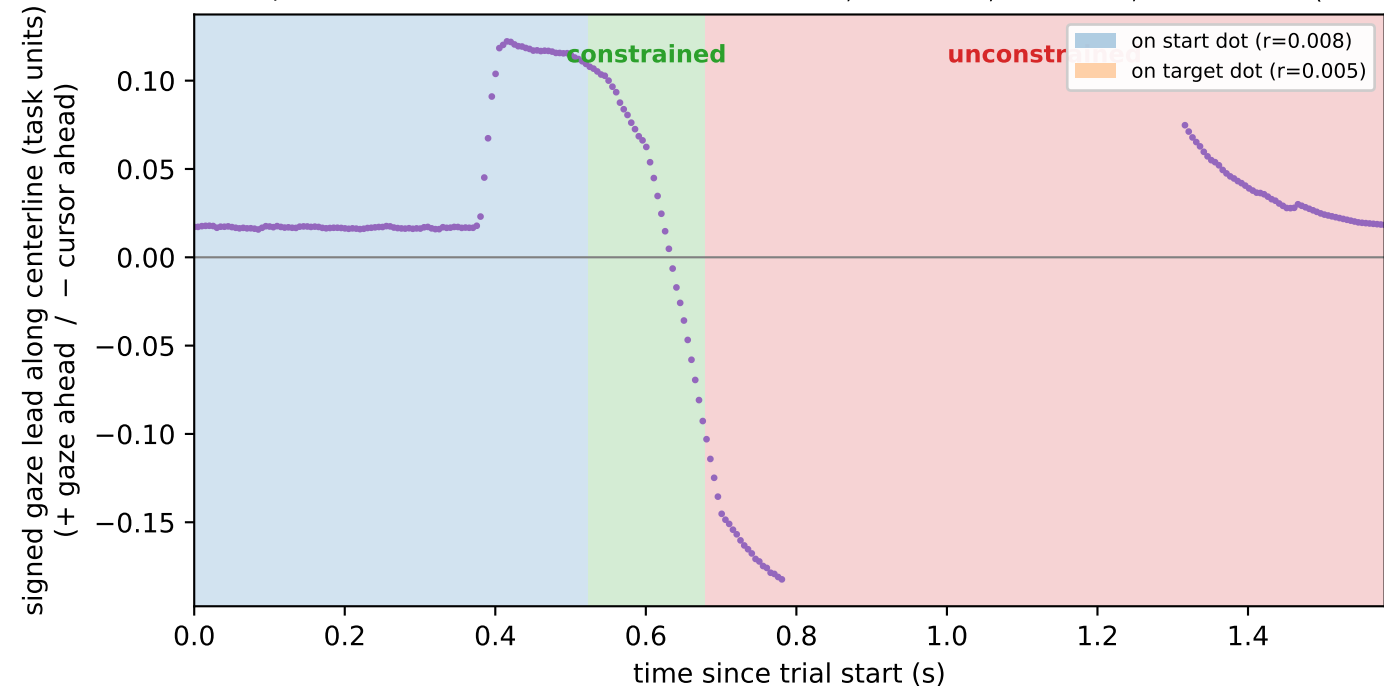

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

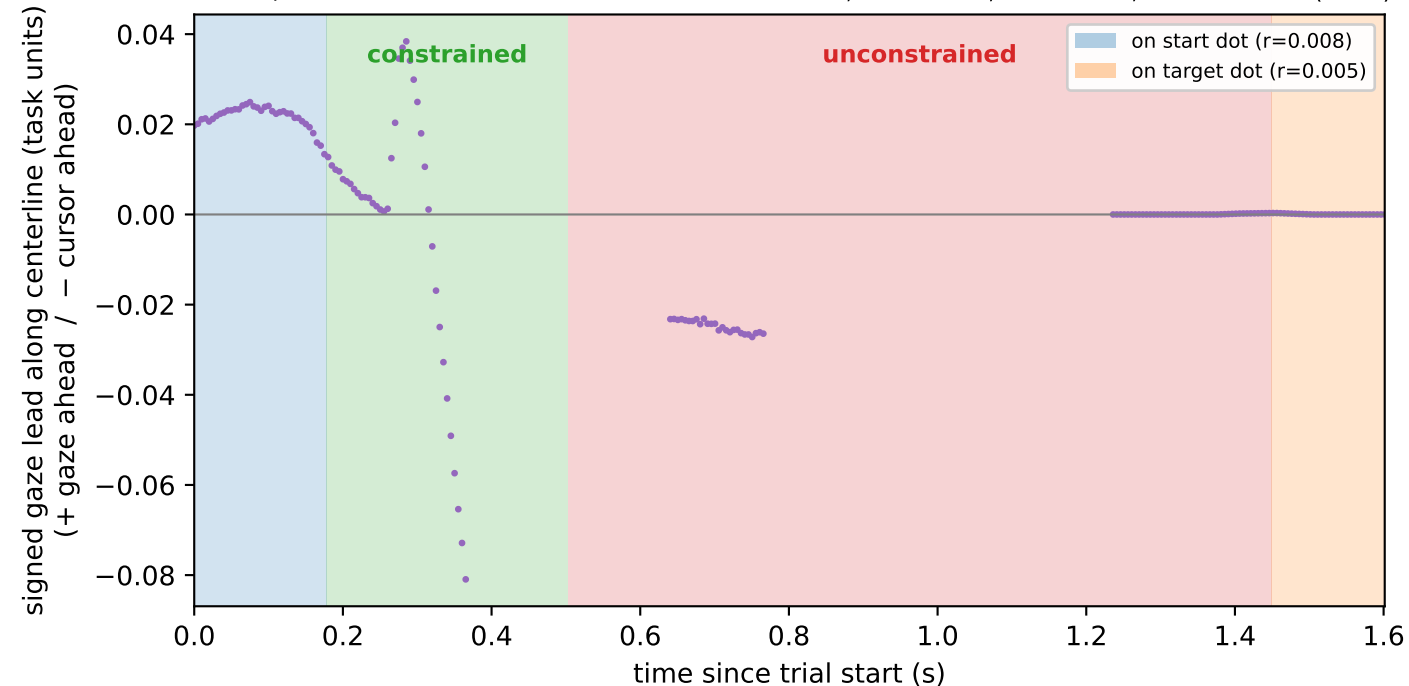

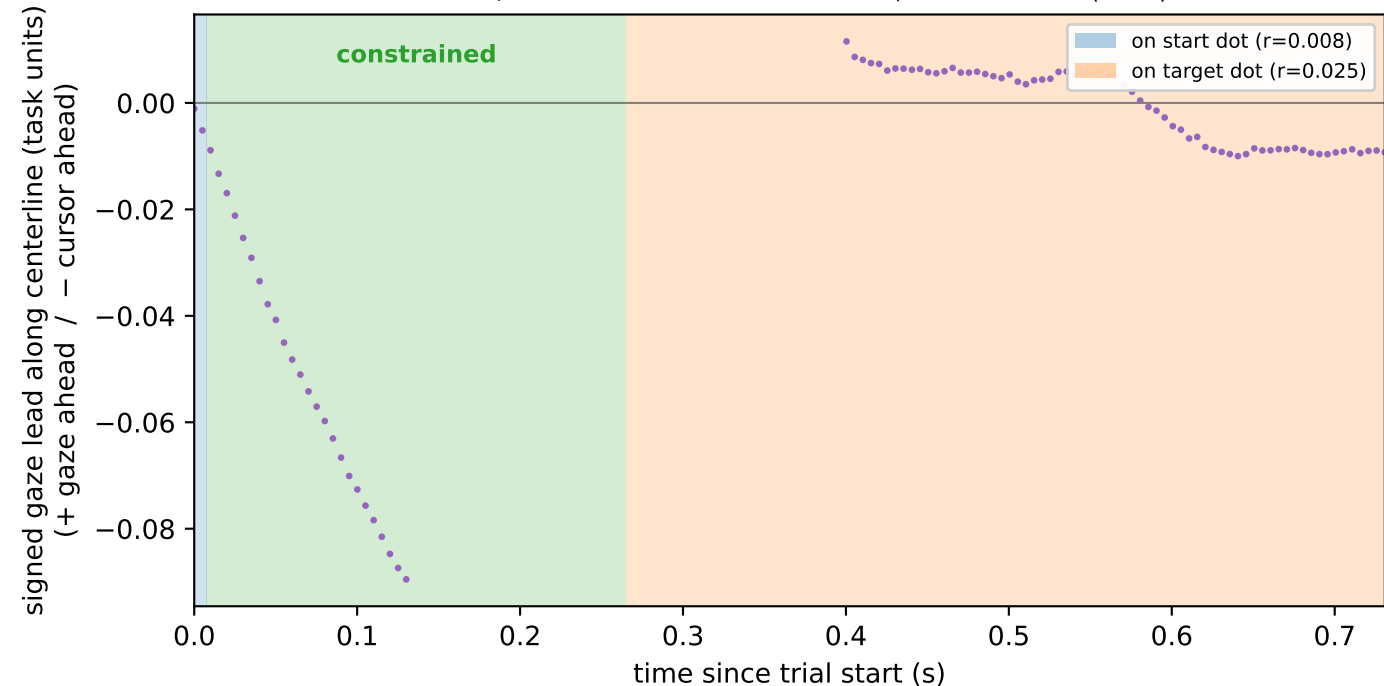

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

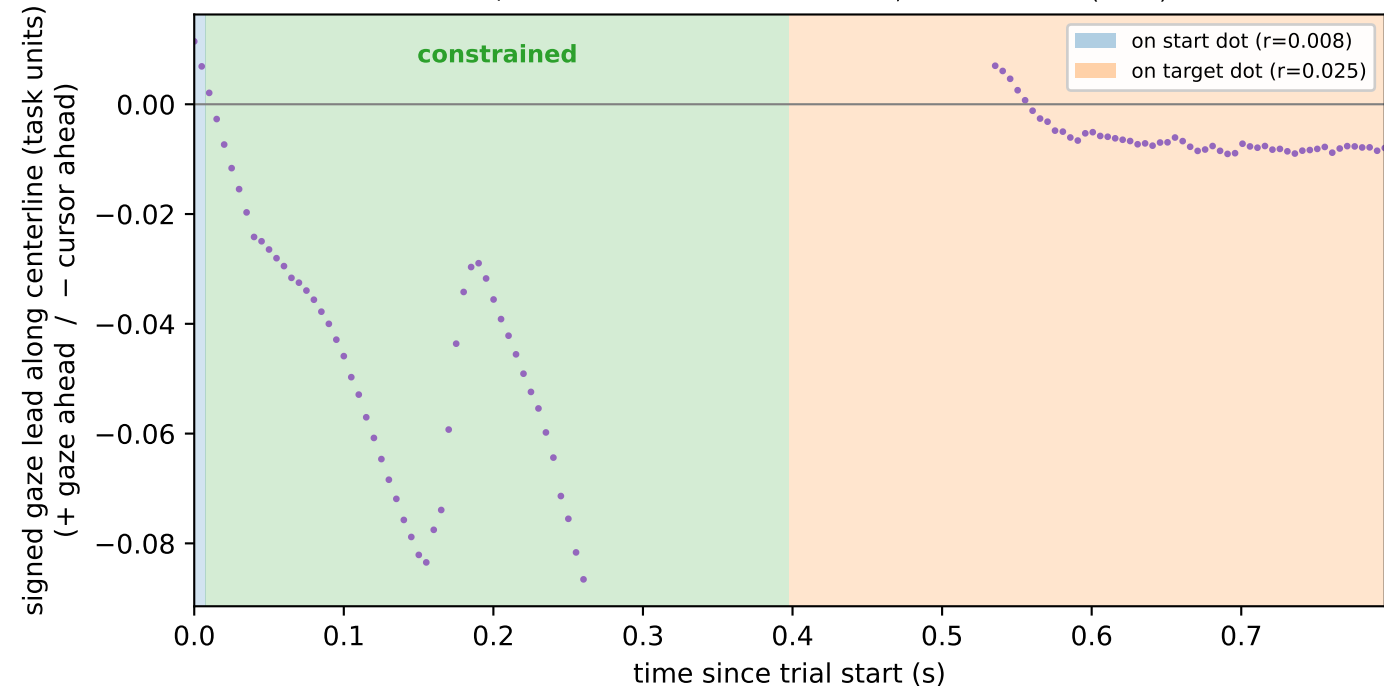

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

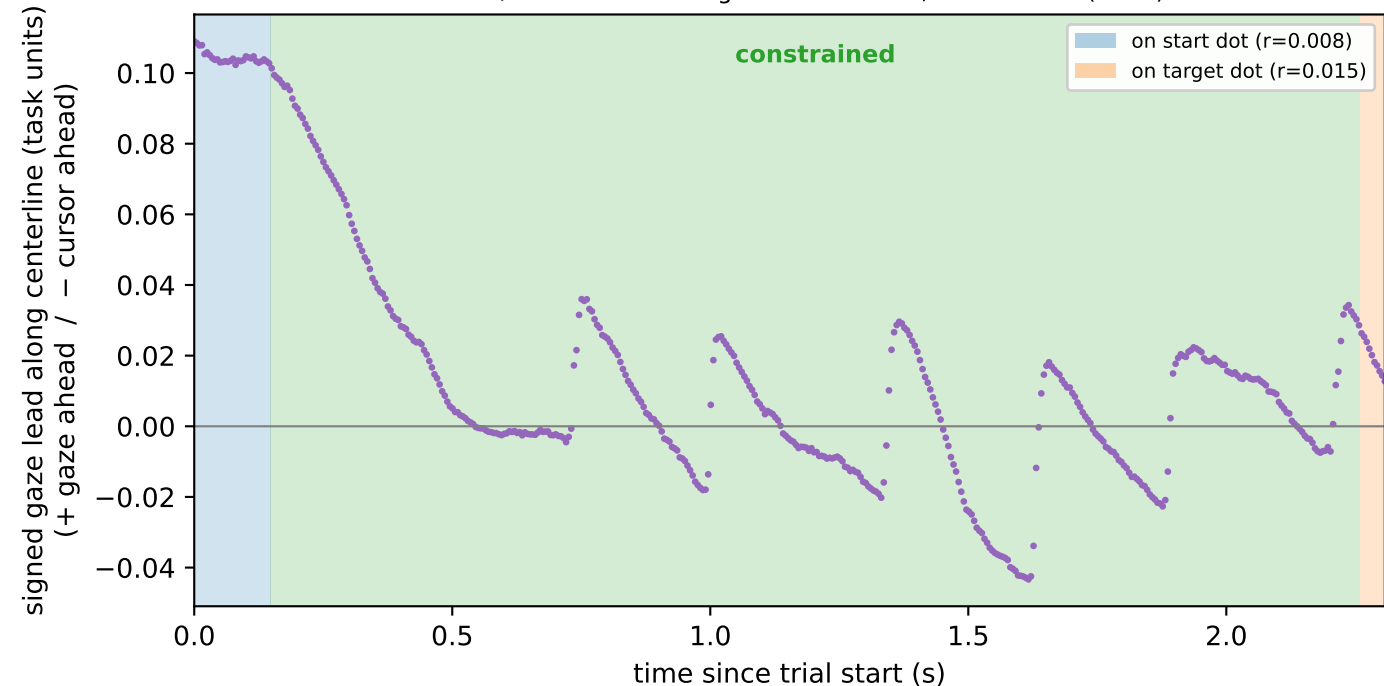

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

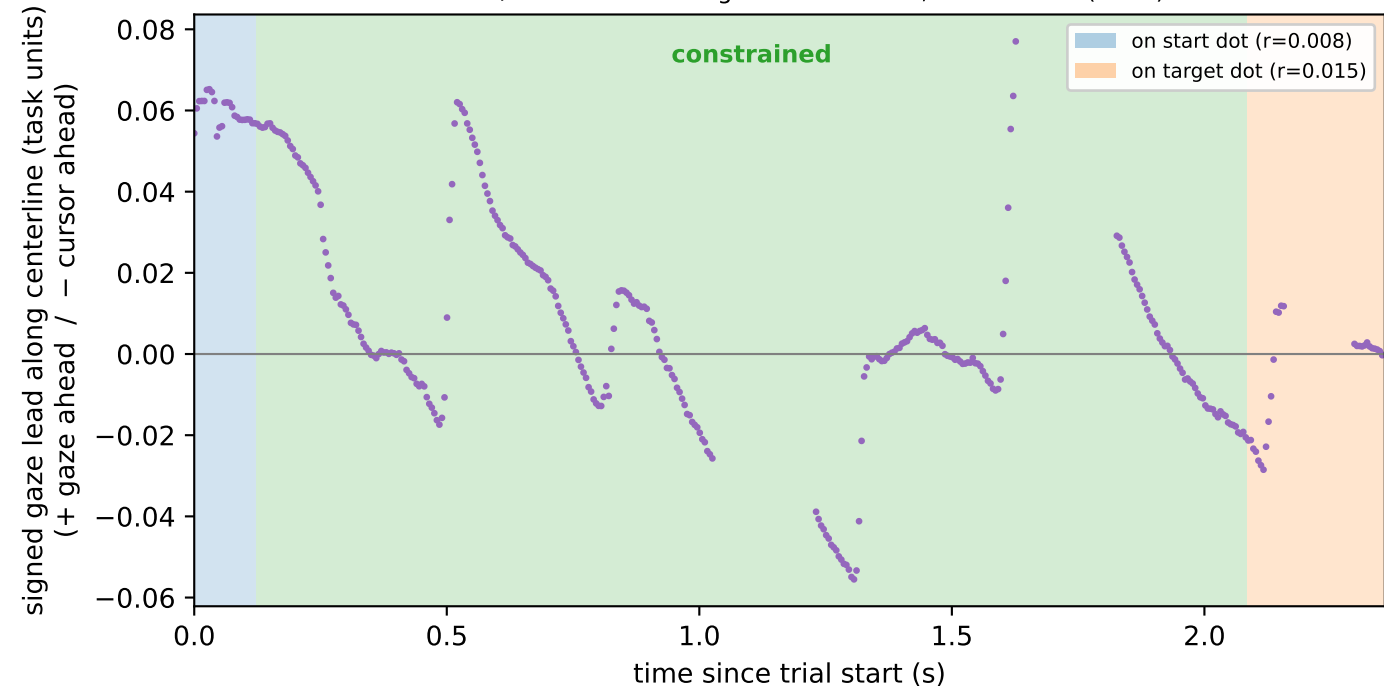

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

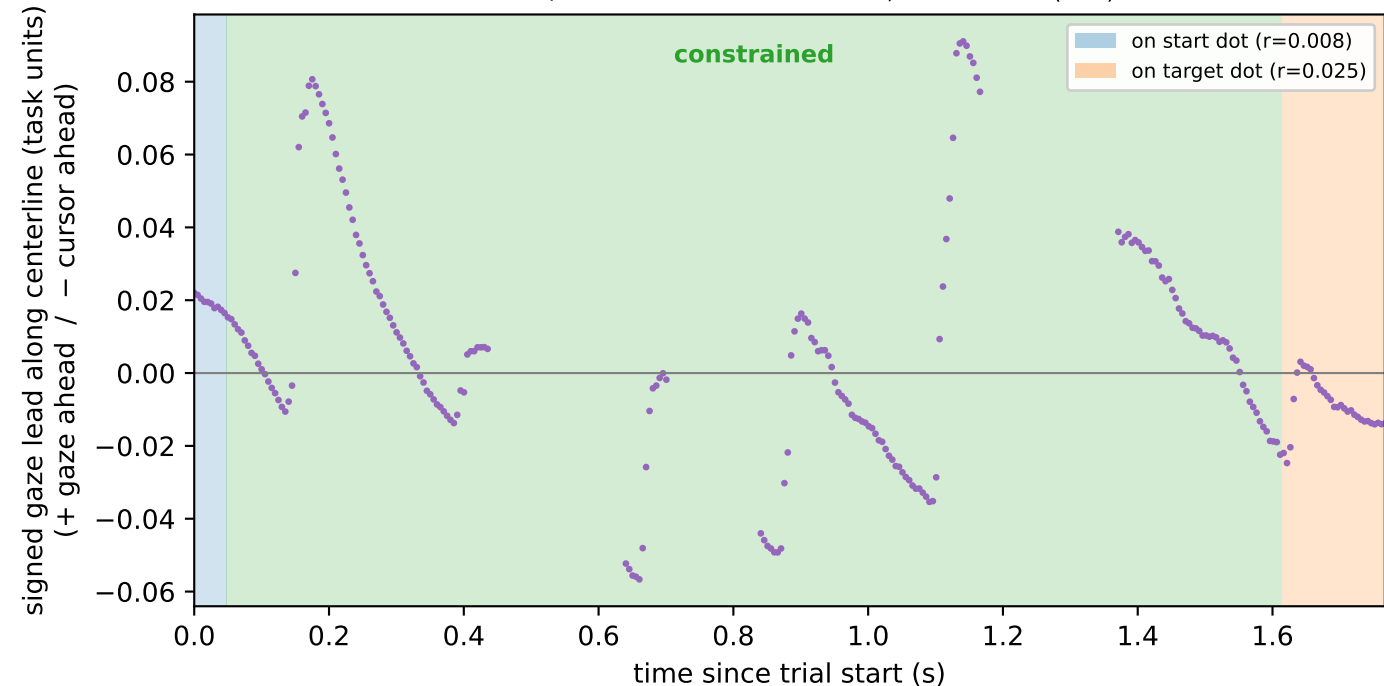

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

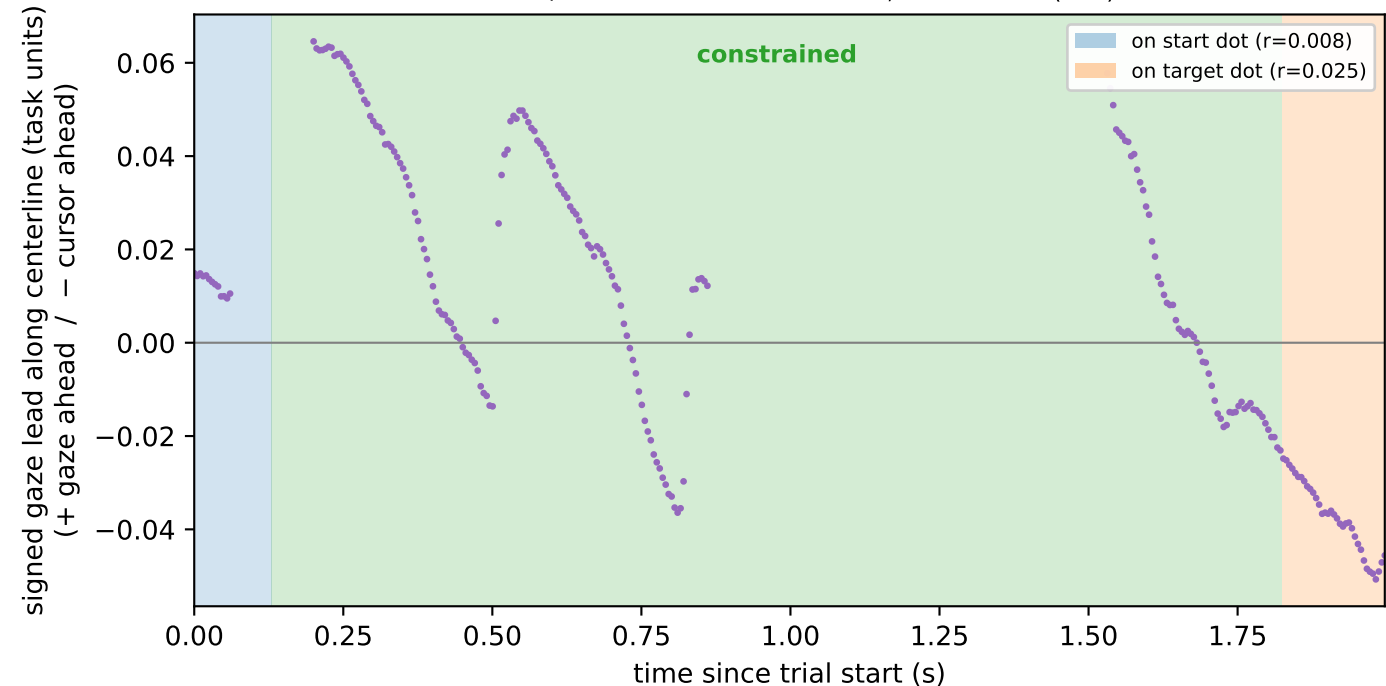

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

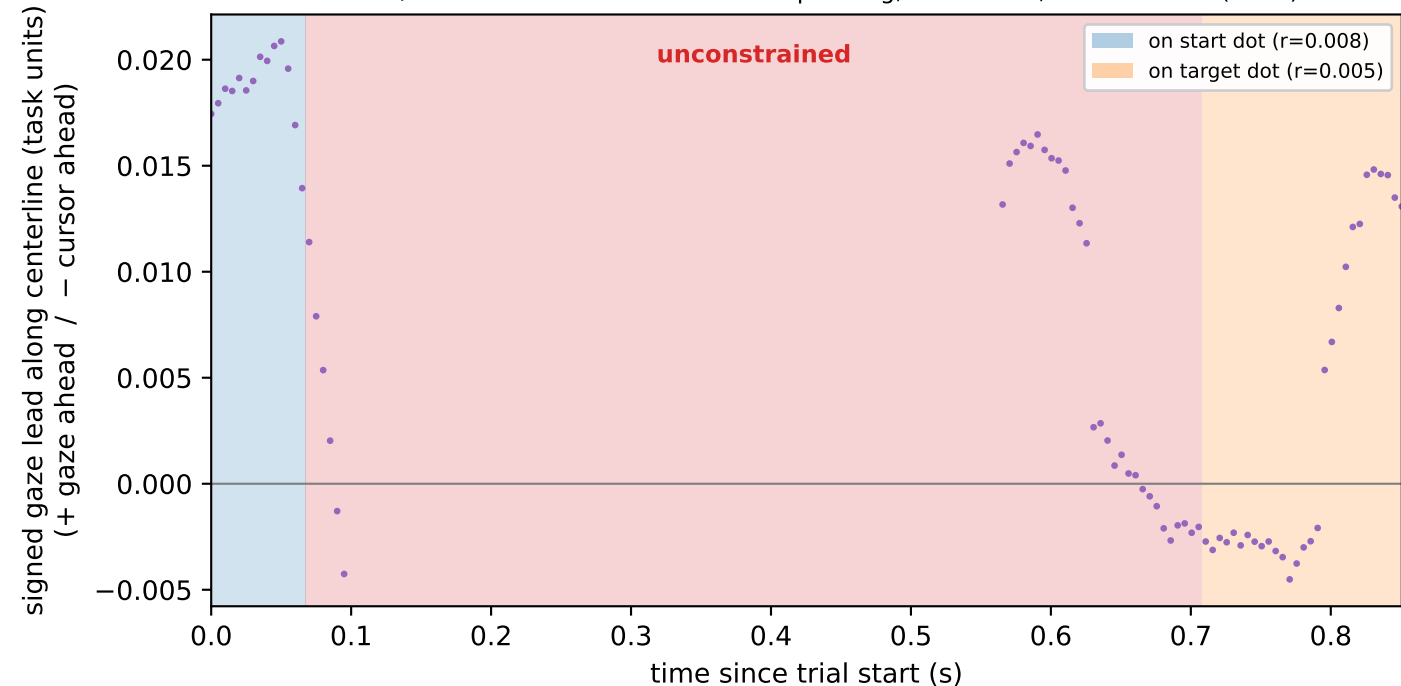

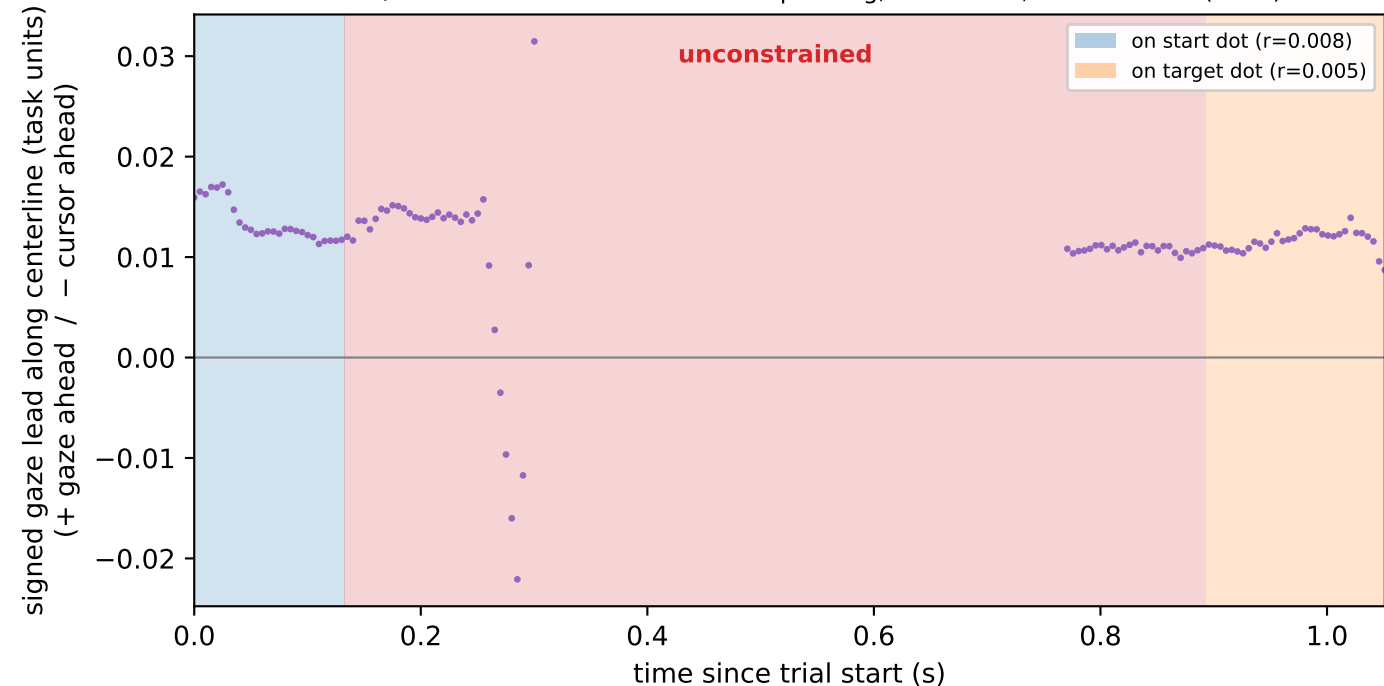

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

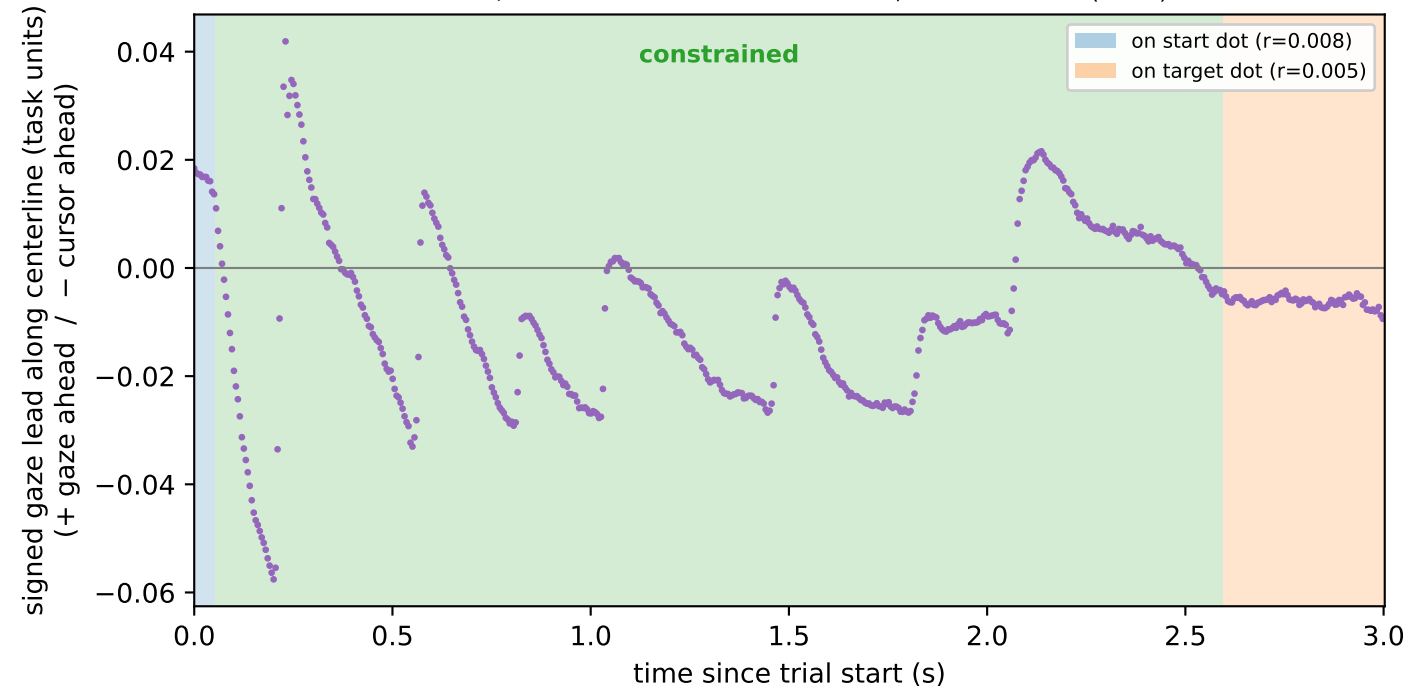

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

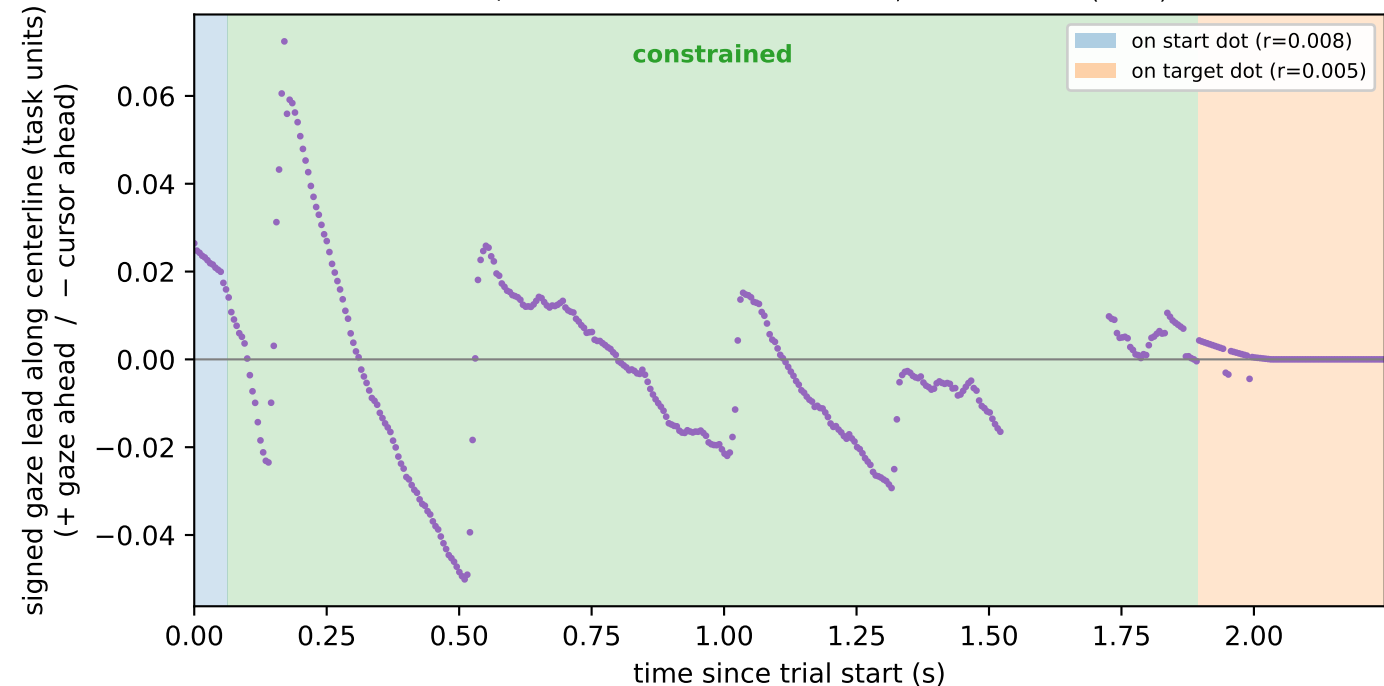

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

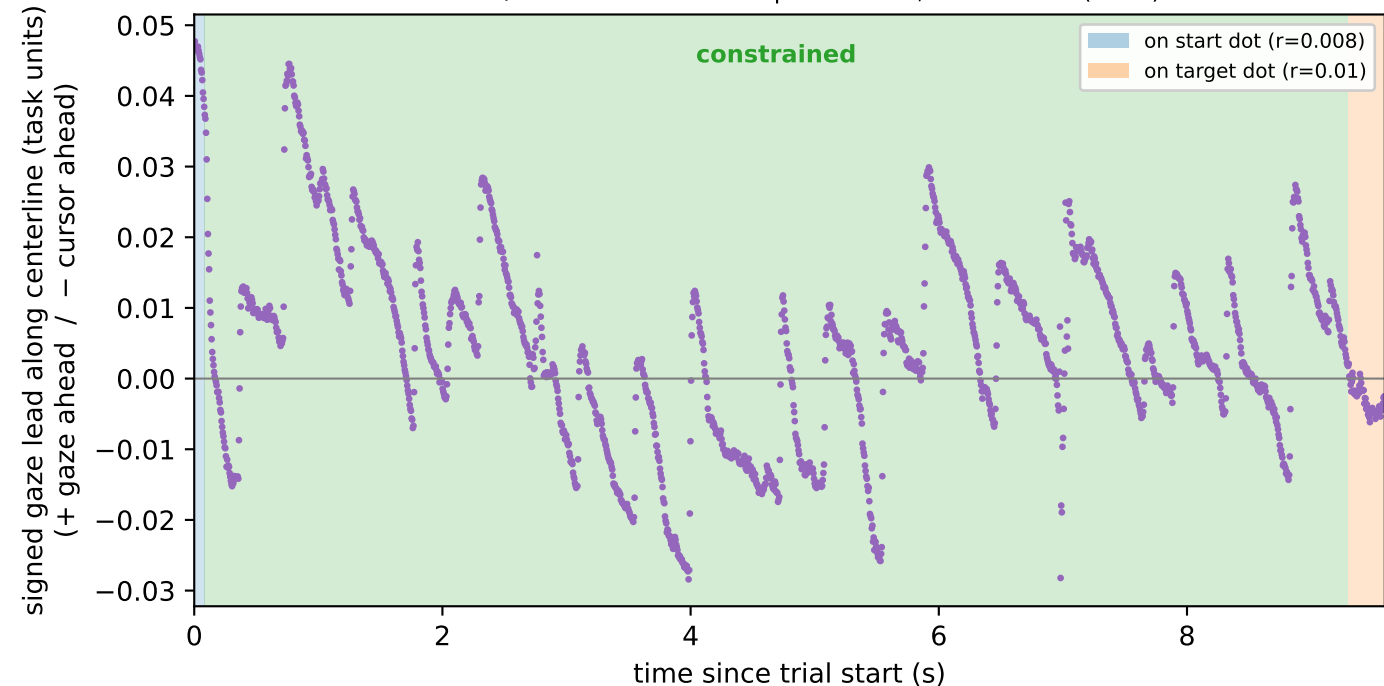

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

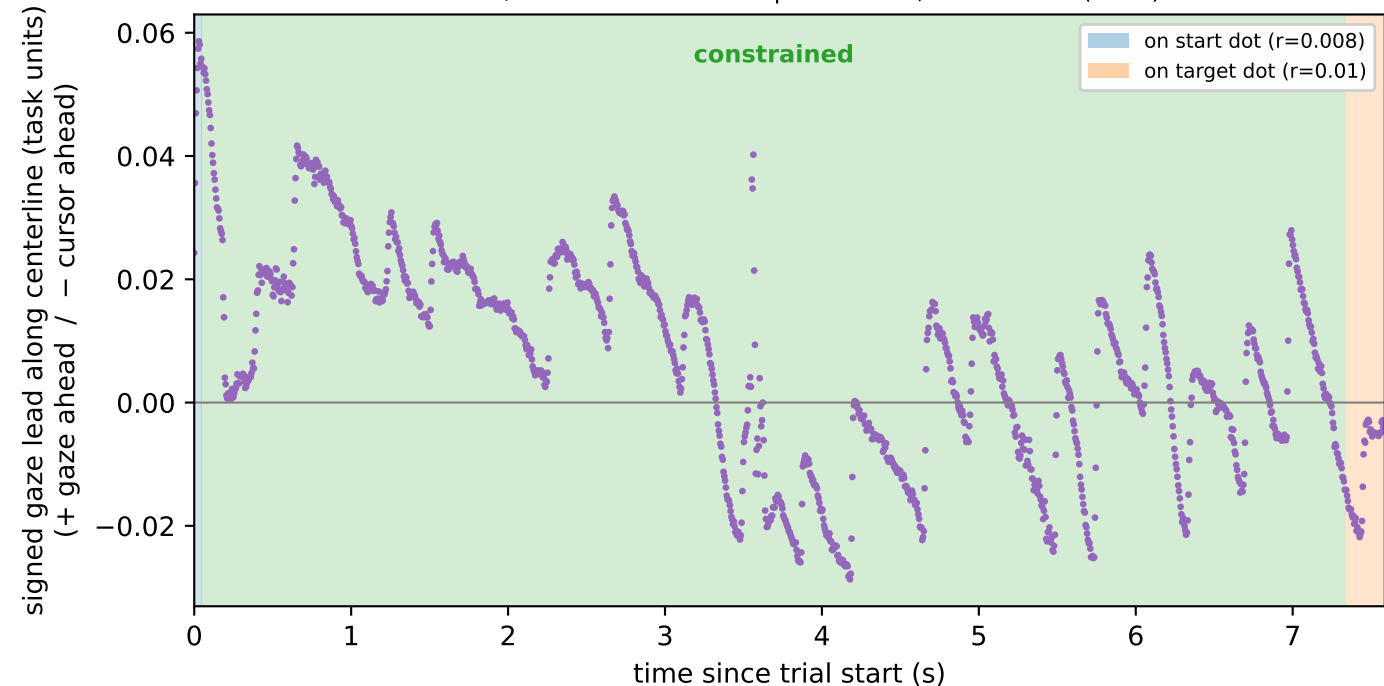

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

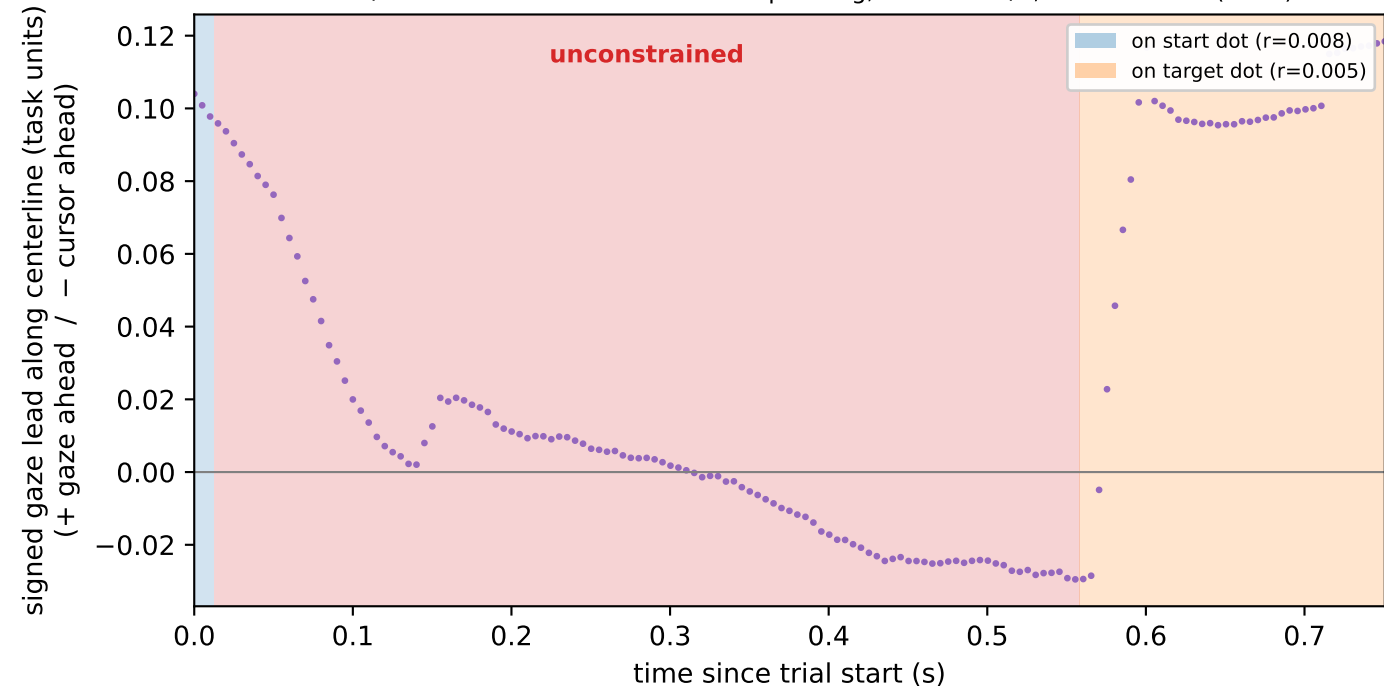

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

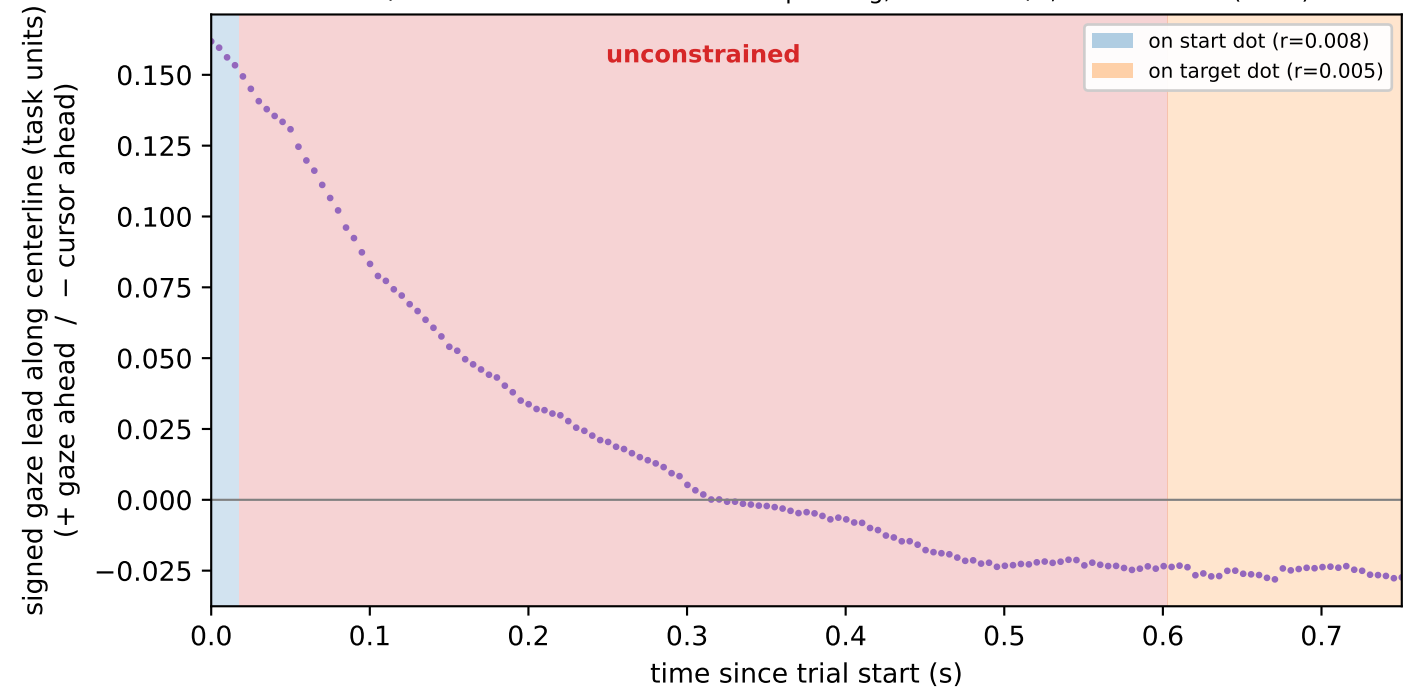

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

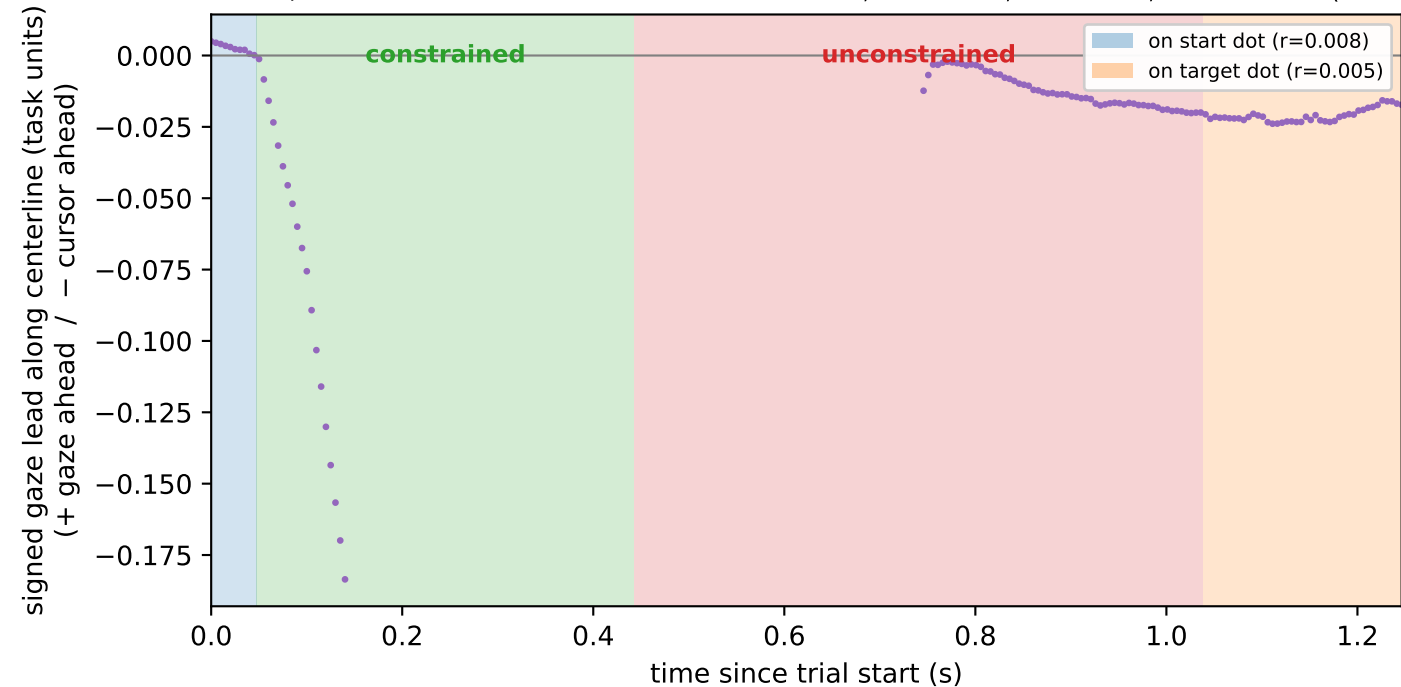

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

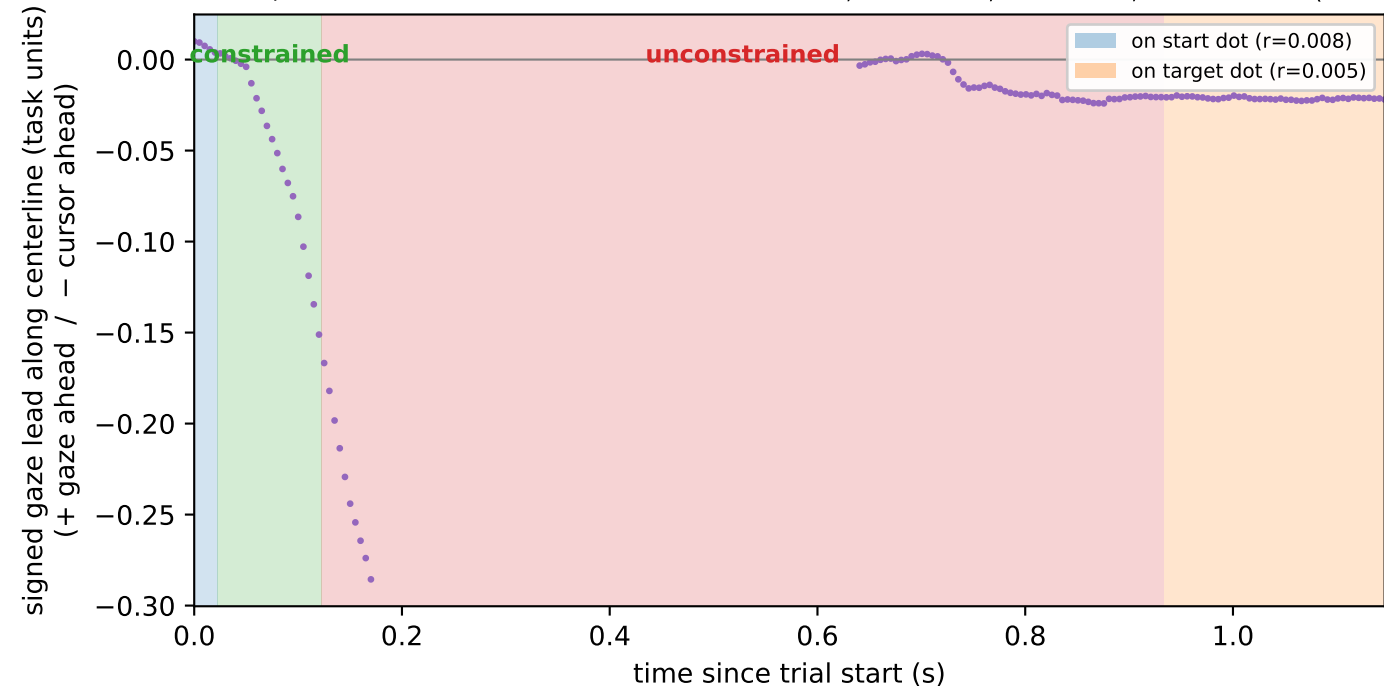

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

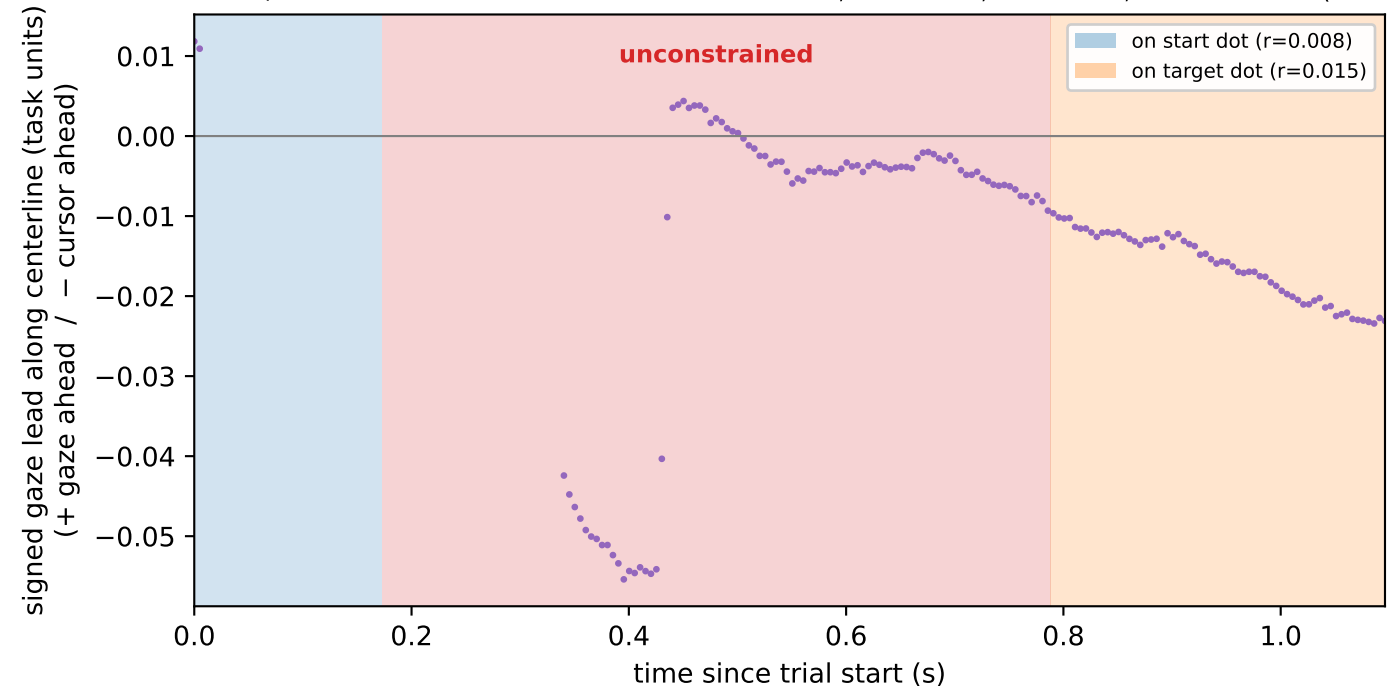

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

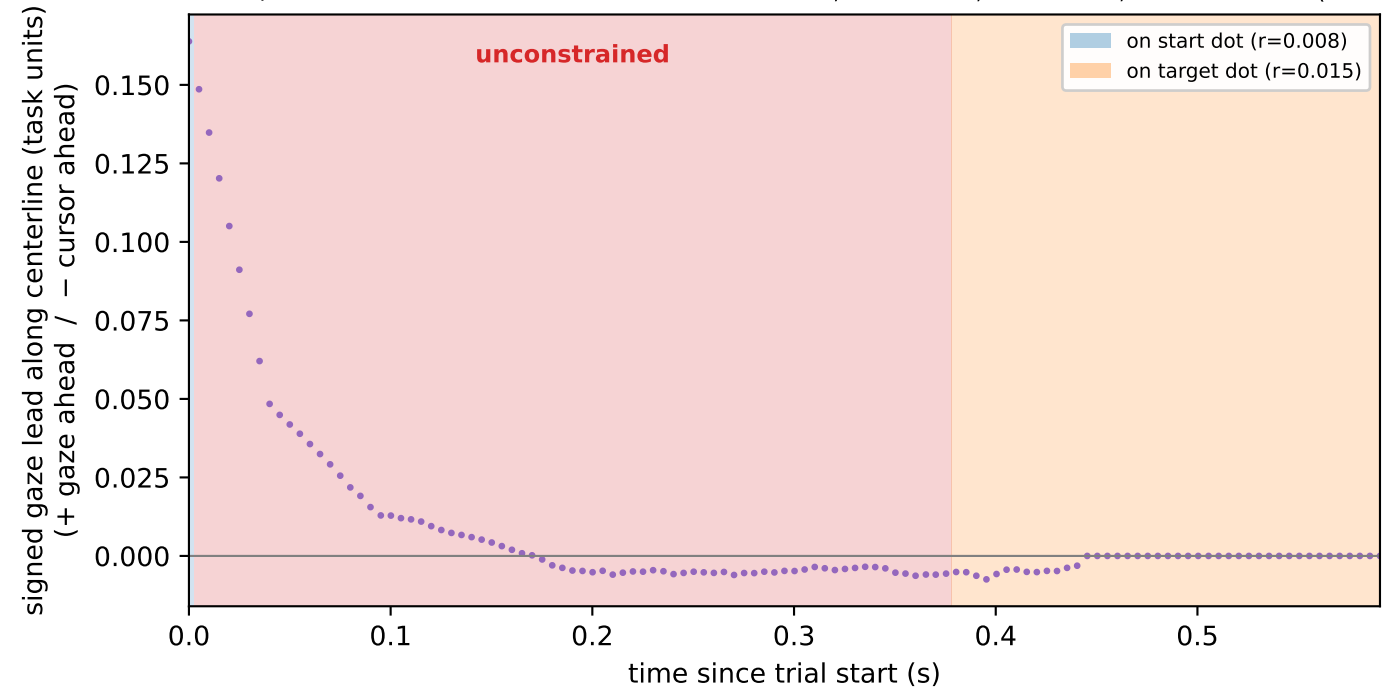

Trial 30/73 round 2 — constrained-to-unconstrained, width 0.03, distance D, radius 5mm (id 72)

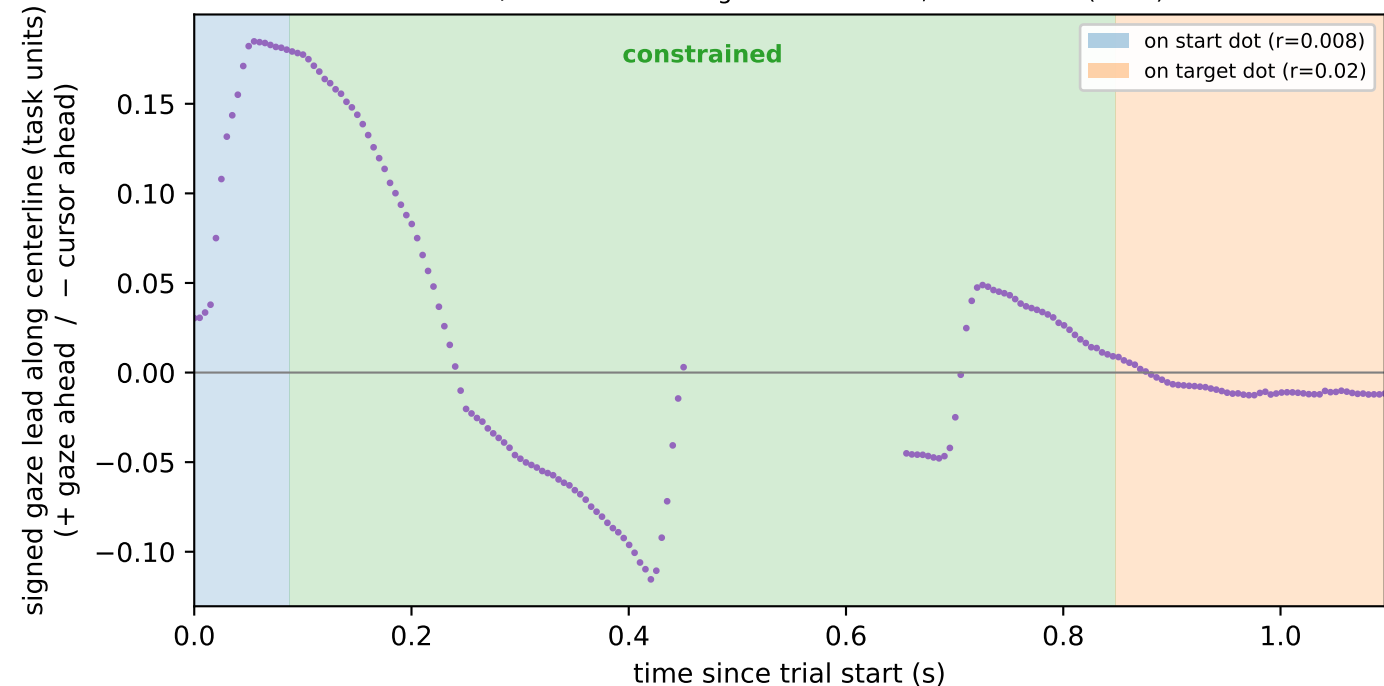

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

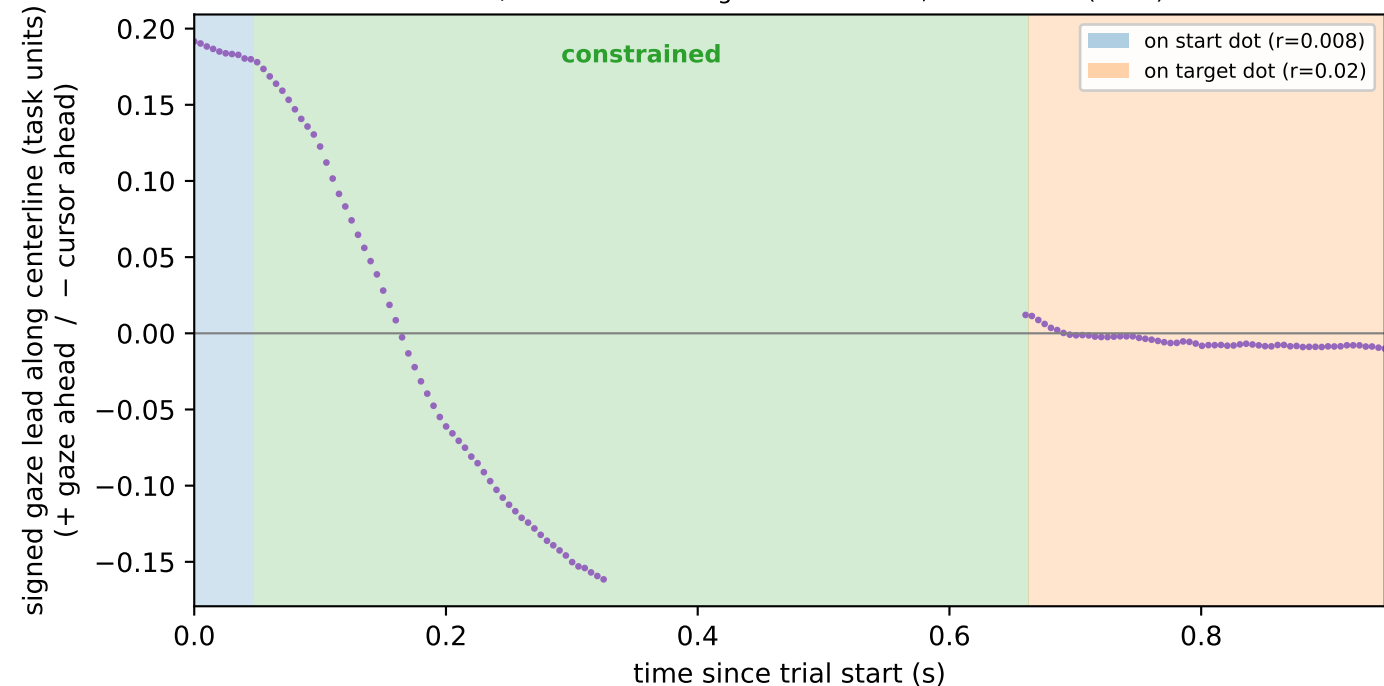

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

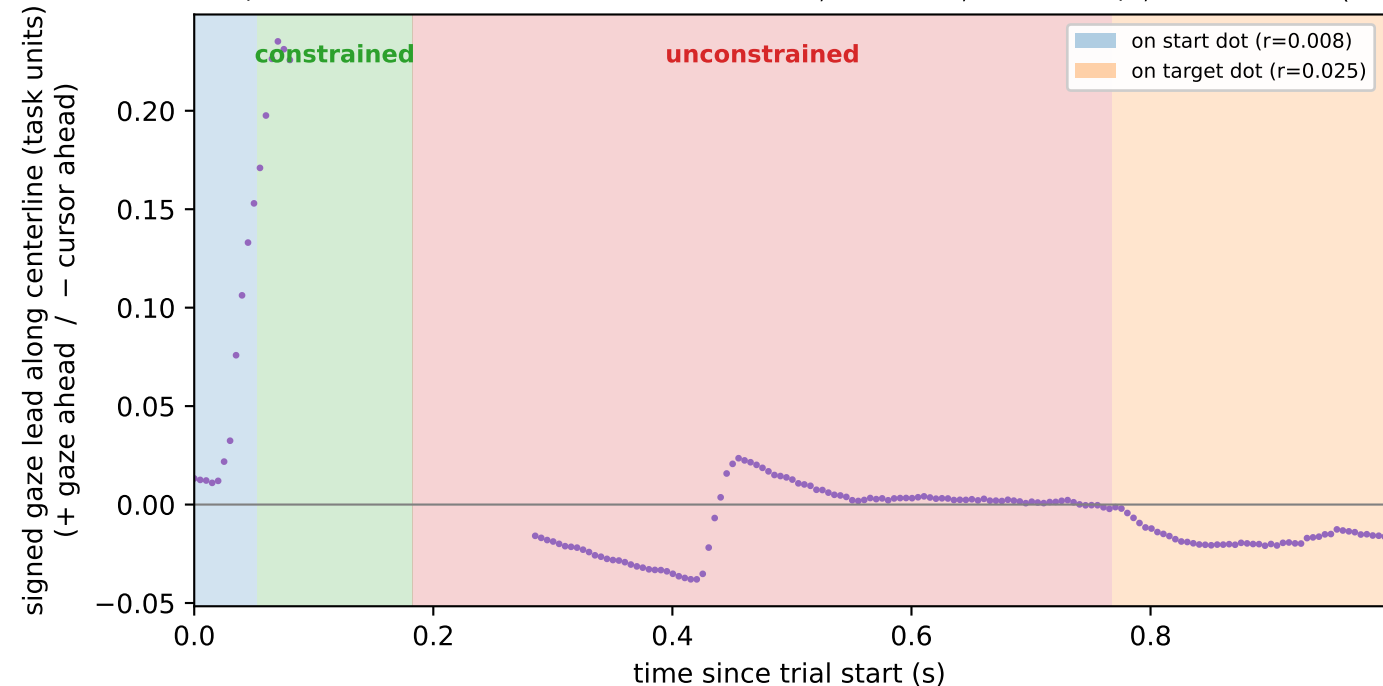

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

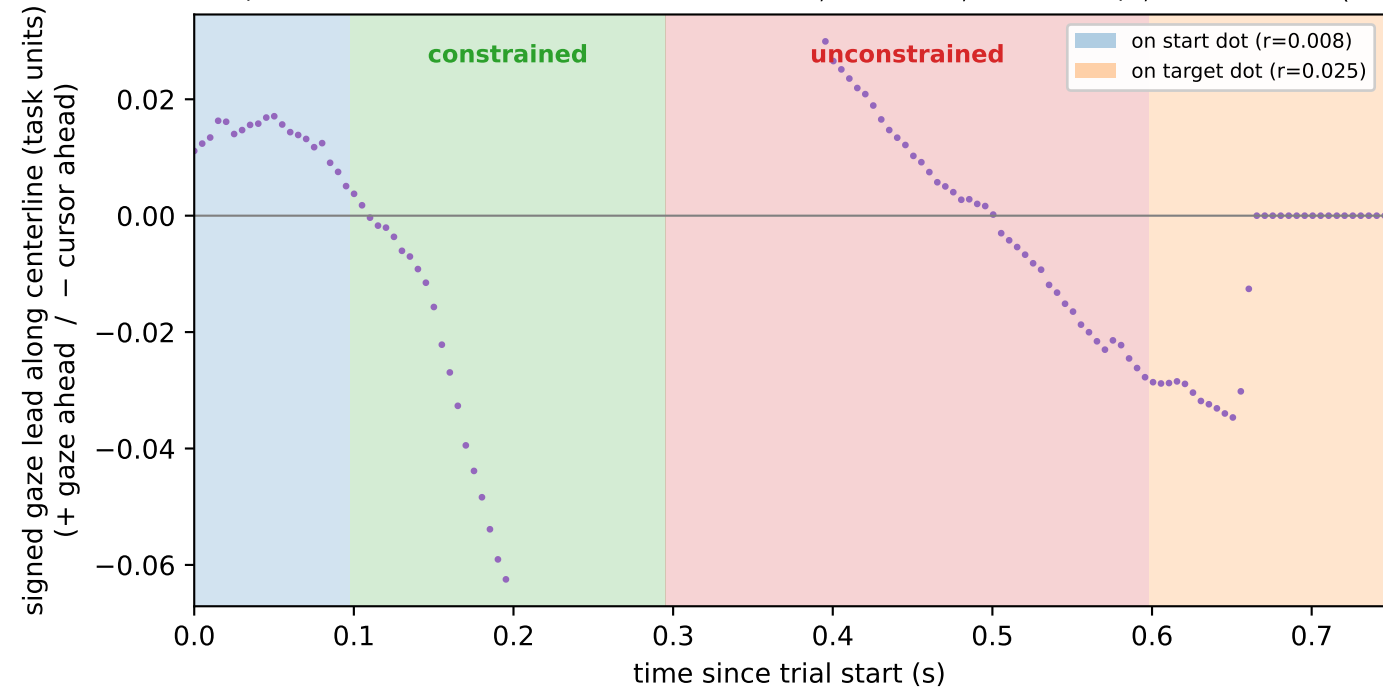

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

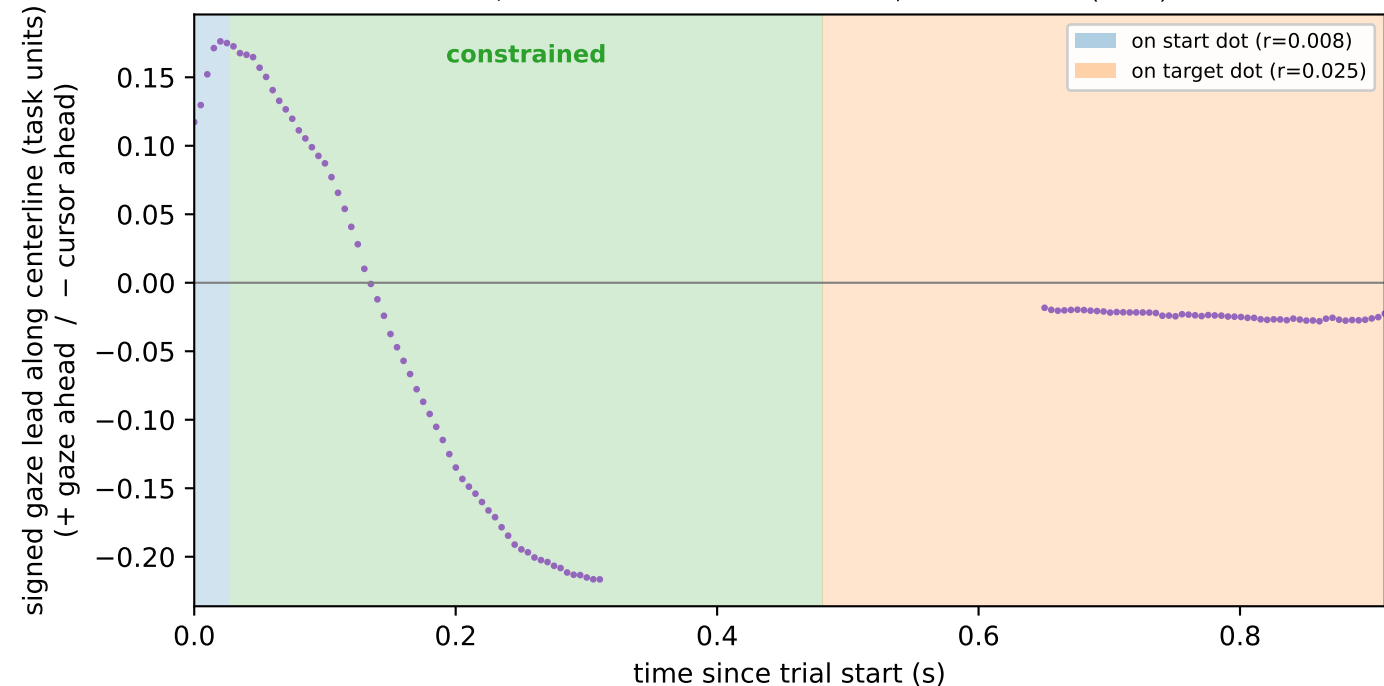

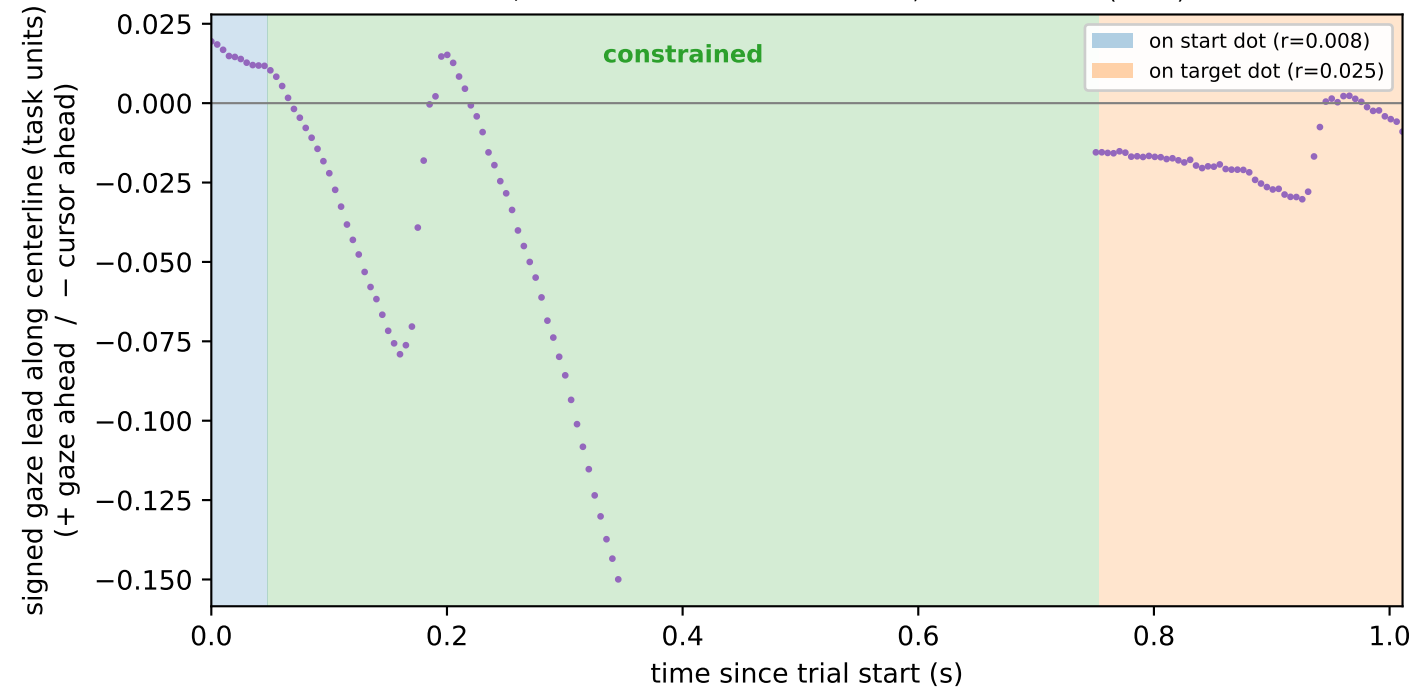

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

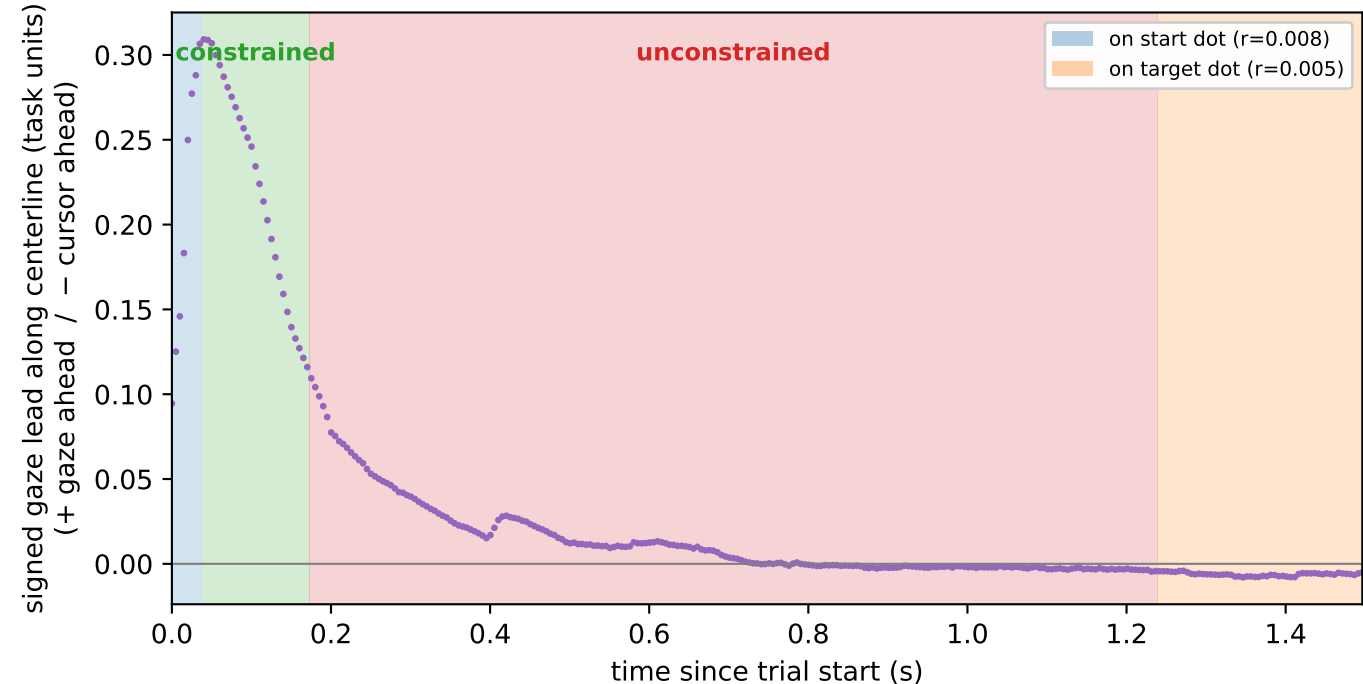

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

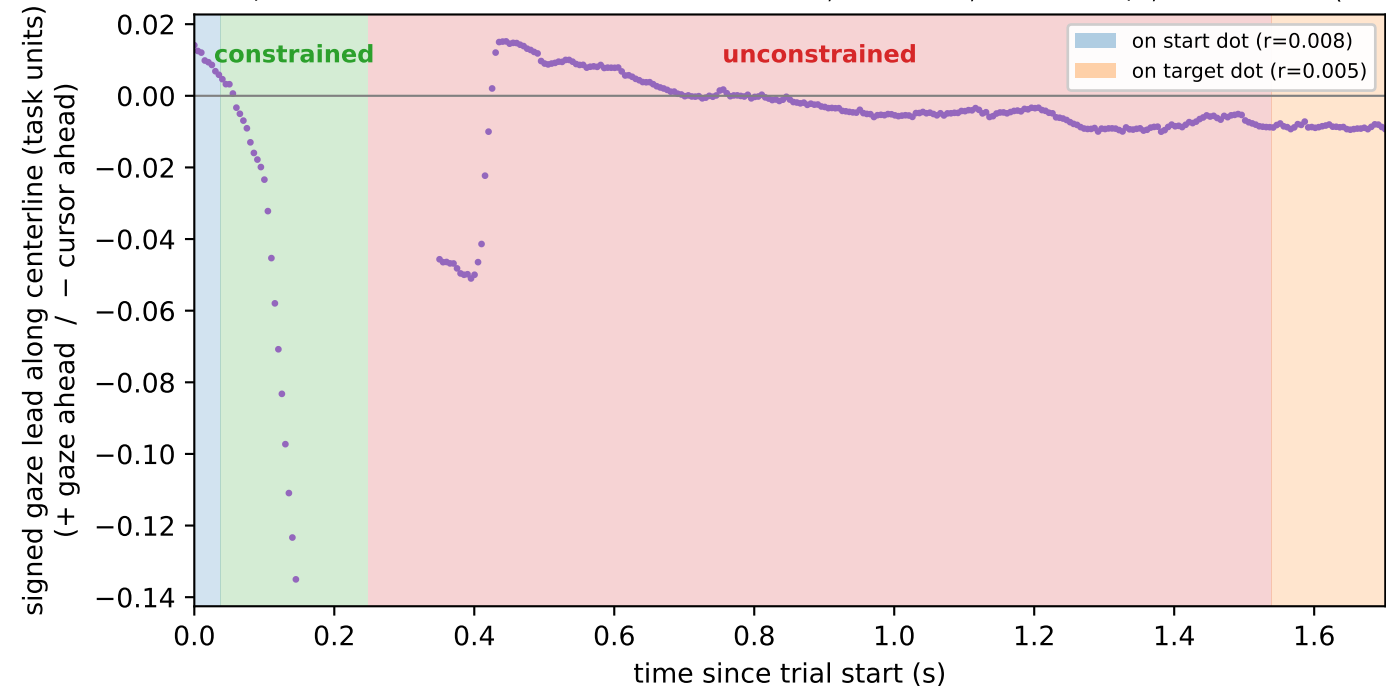

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

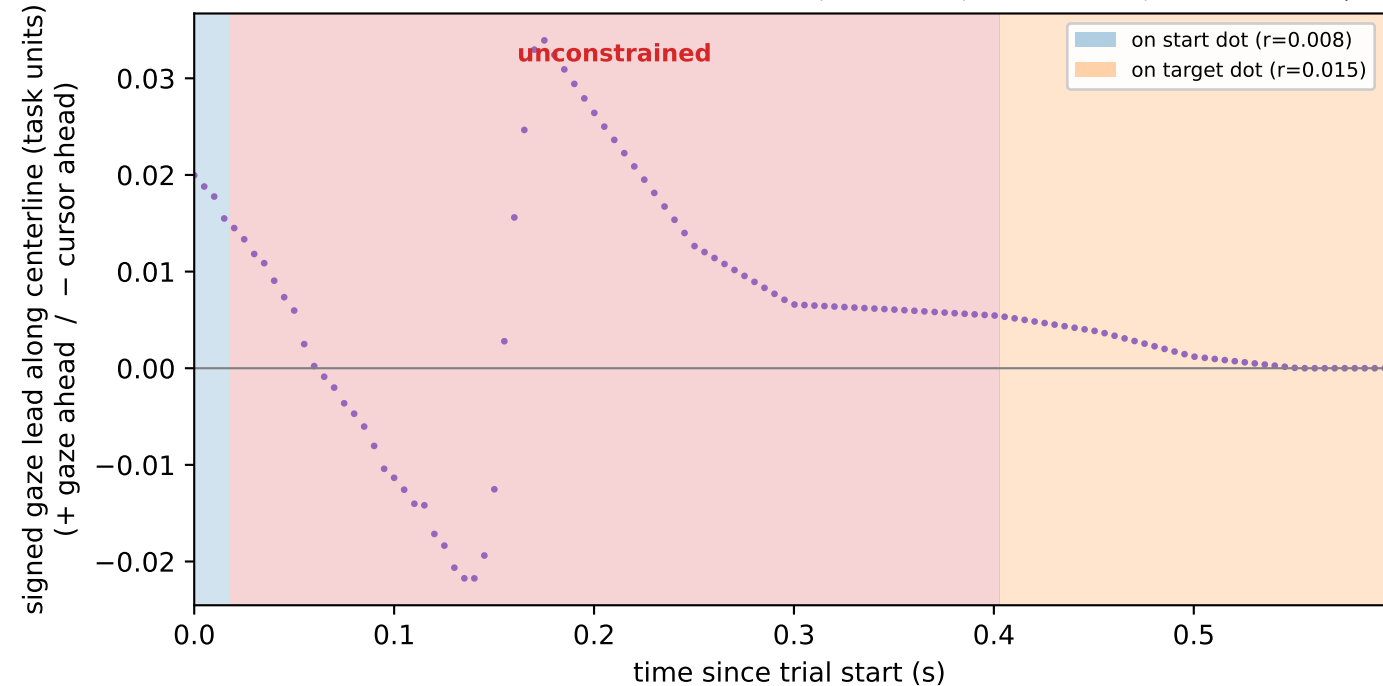

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

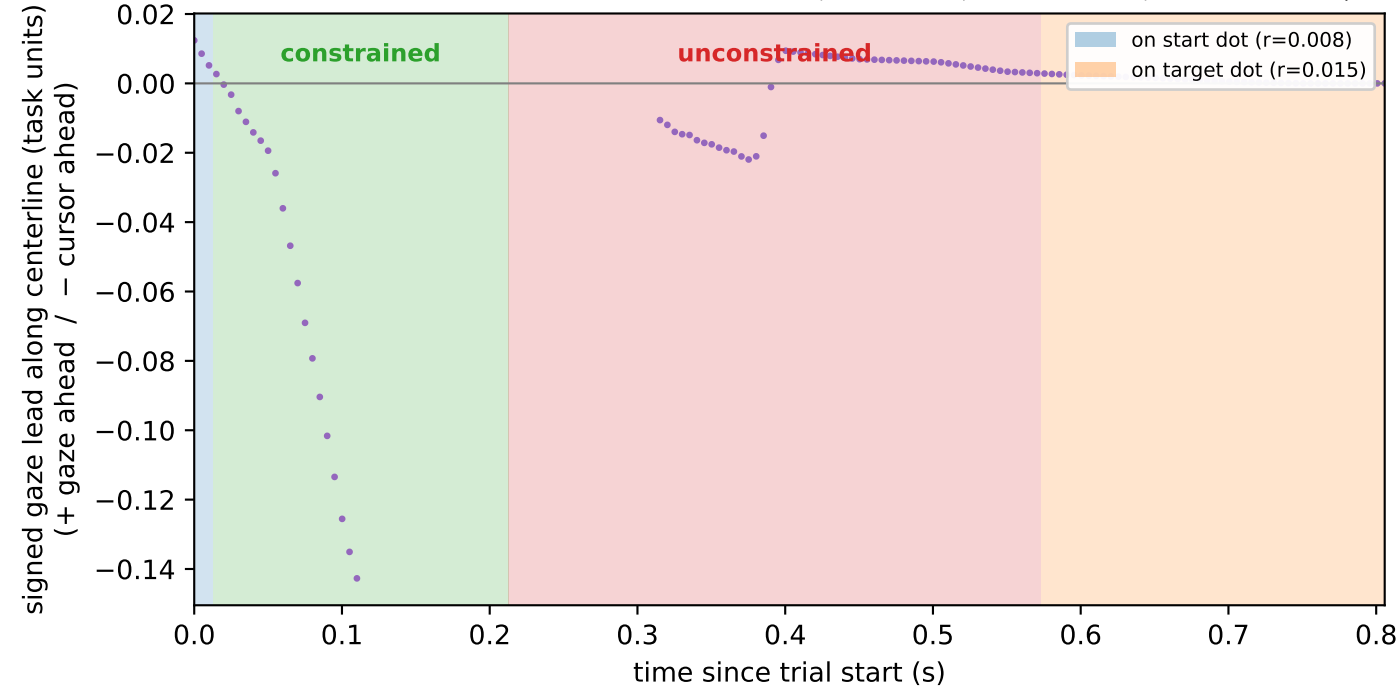

Trial 35/73 round 2 — constrained-to-unconstrained, width 0.03, distance 4D/6, radius 5mm (id 66)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

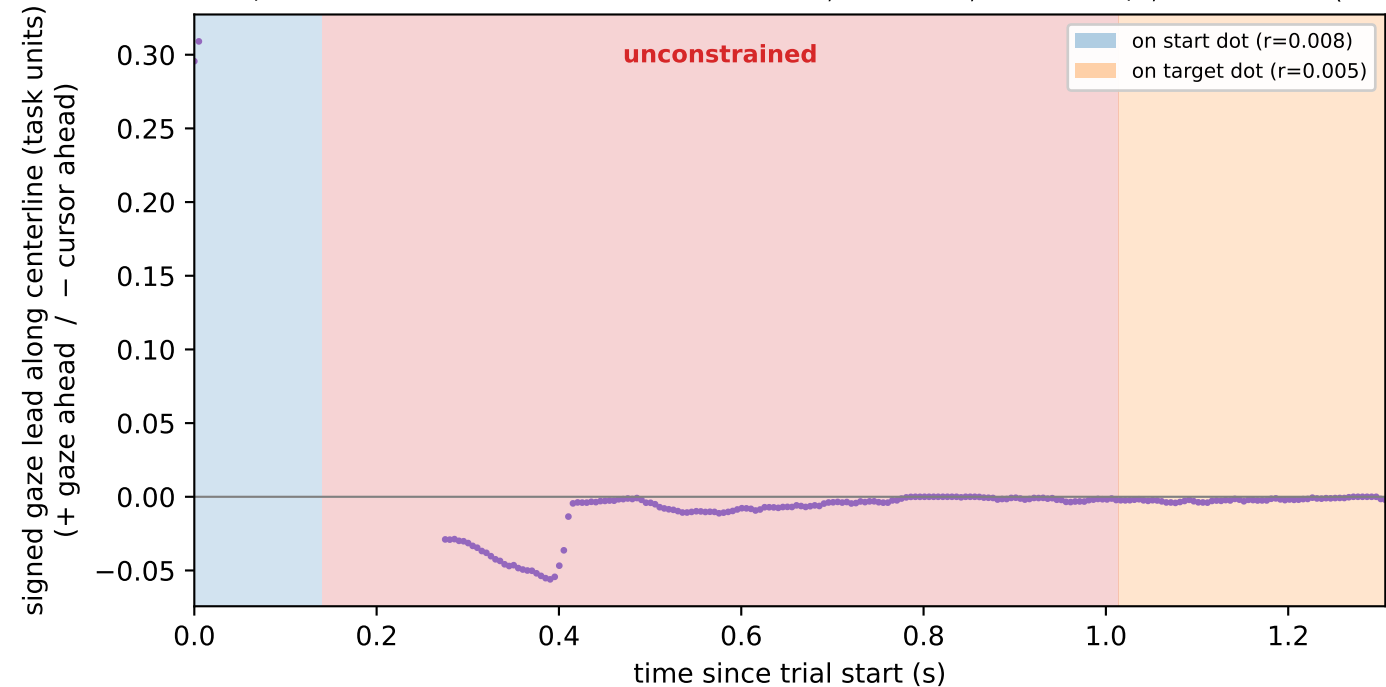

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

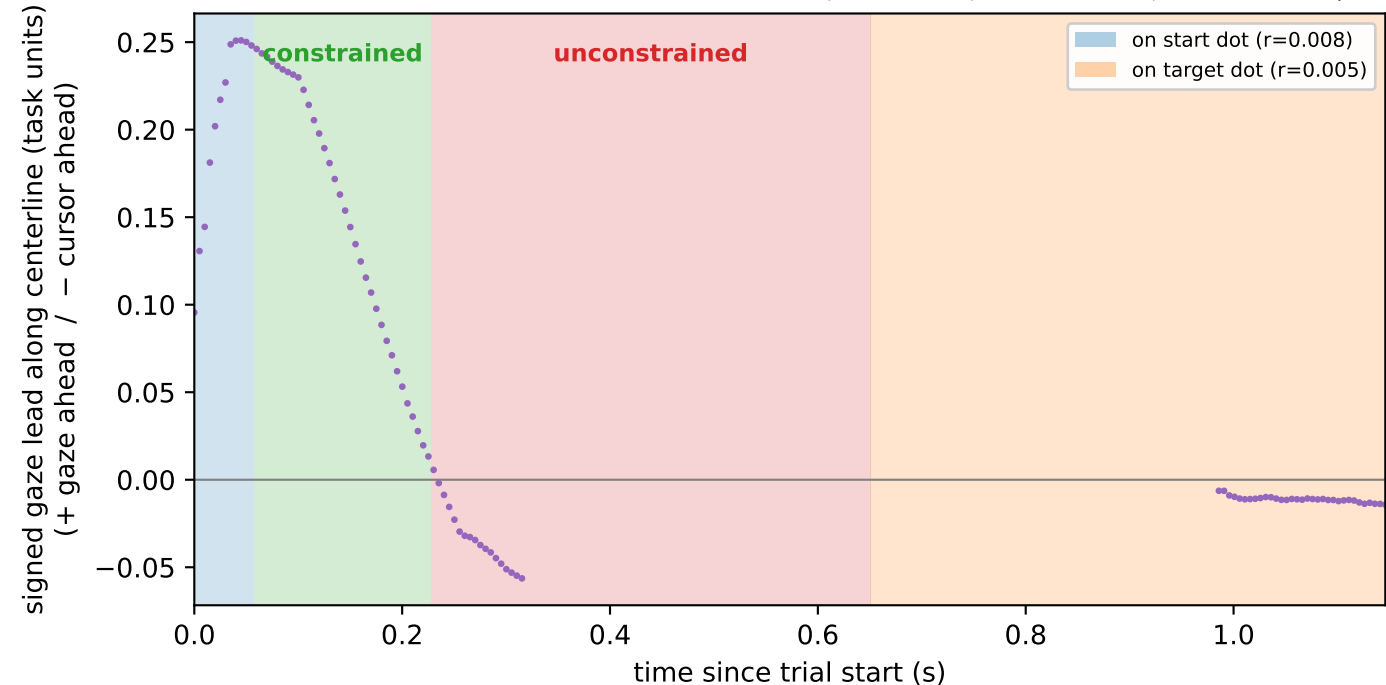

Trial 37/73 round 1 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 5mm (id 69)

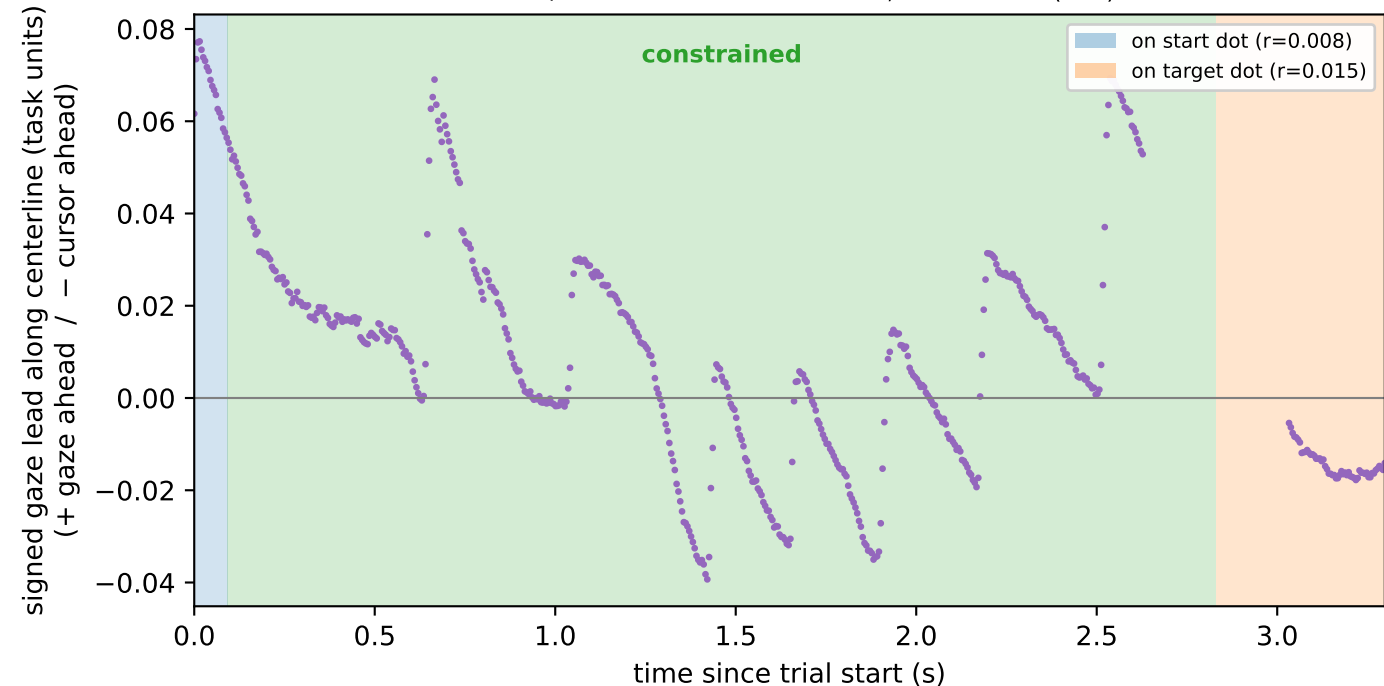

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

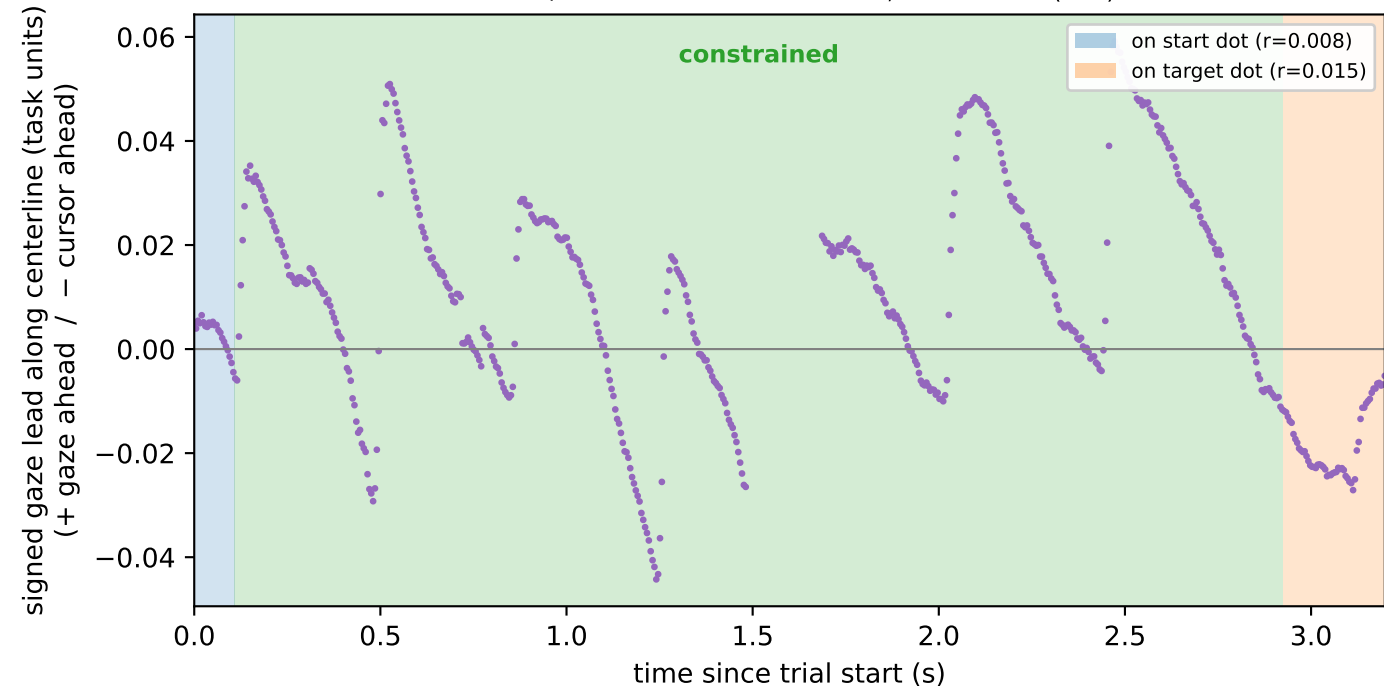

Trial 37/73 round 2 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 5mm (id 69)

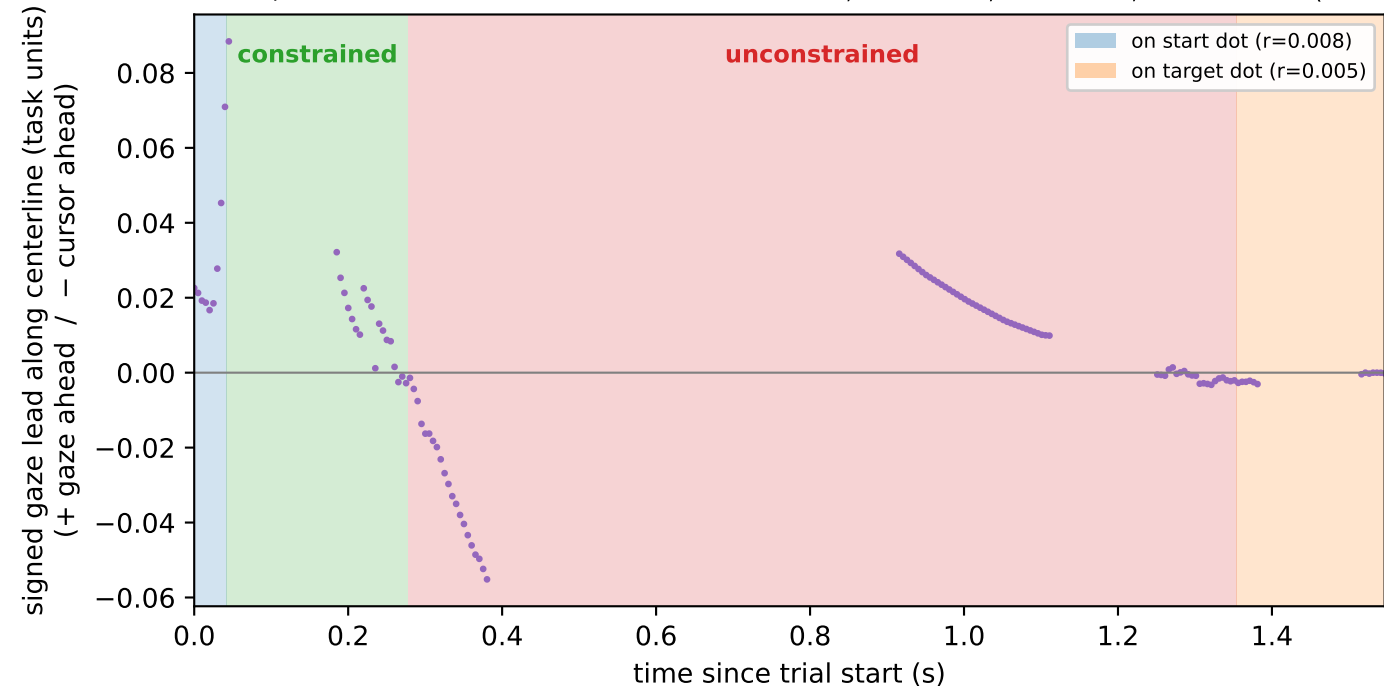

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

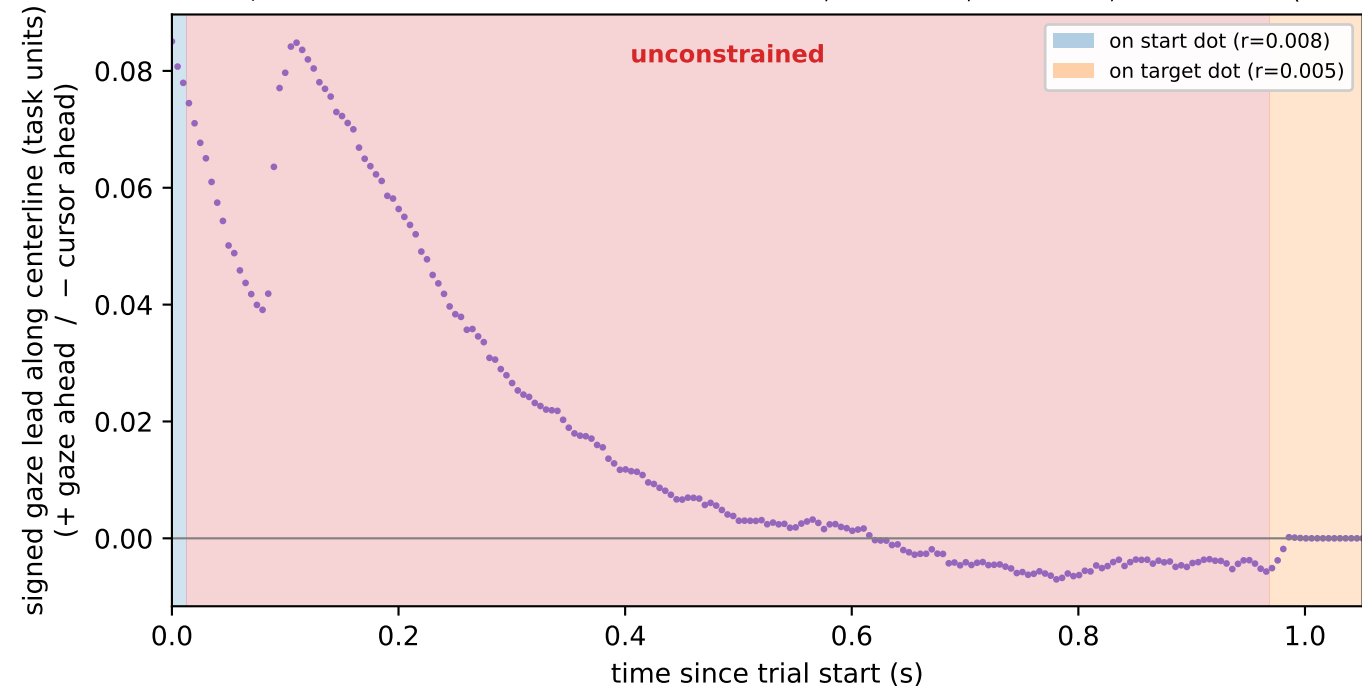

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

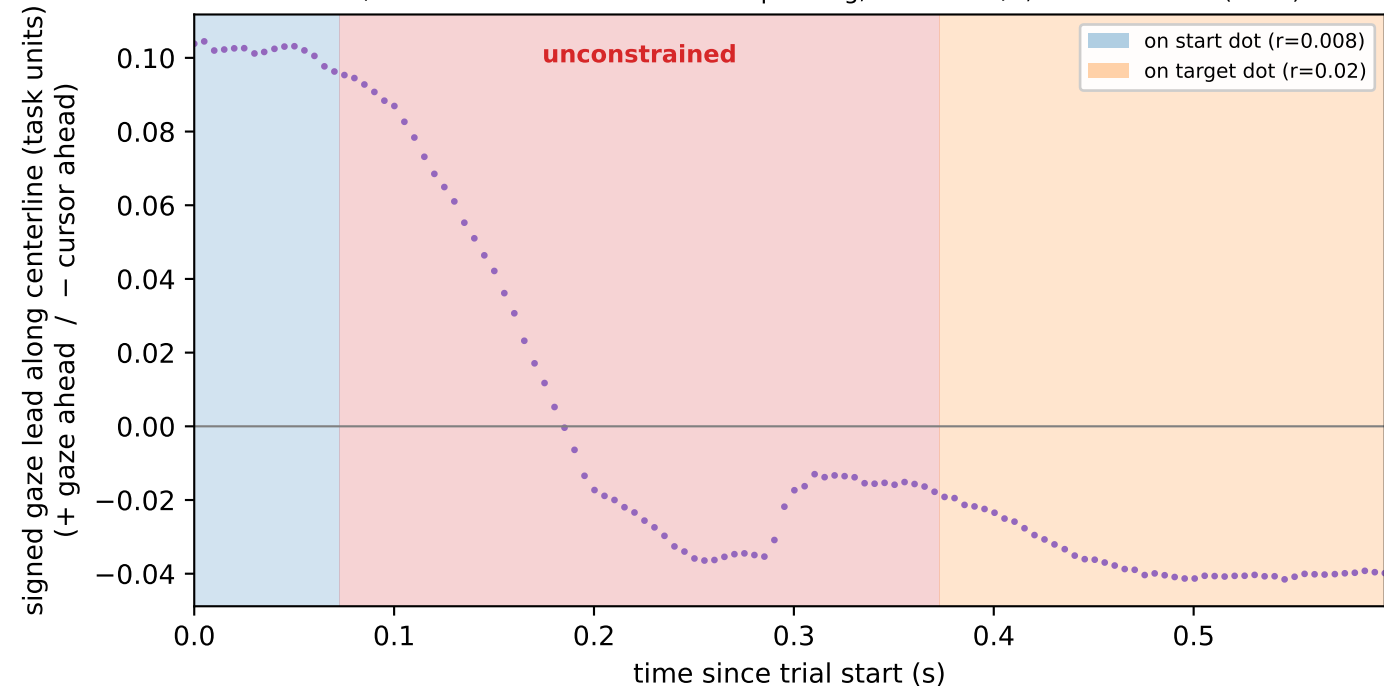

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

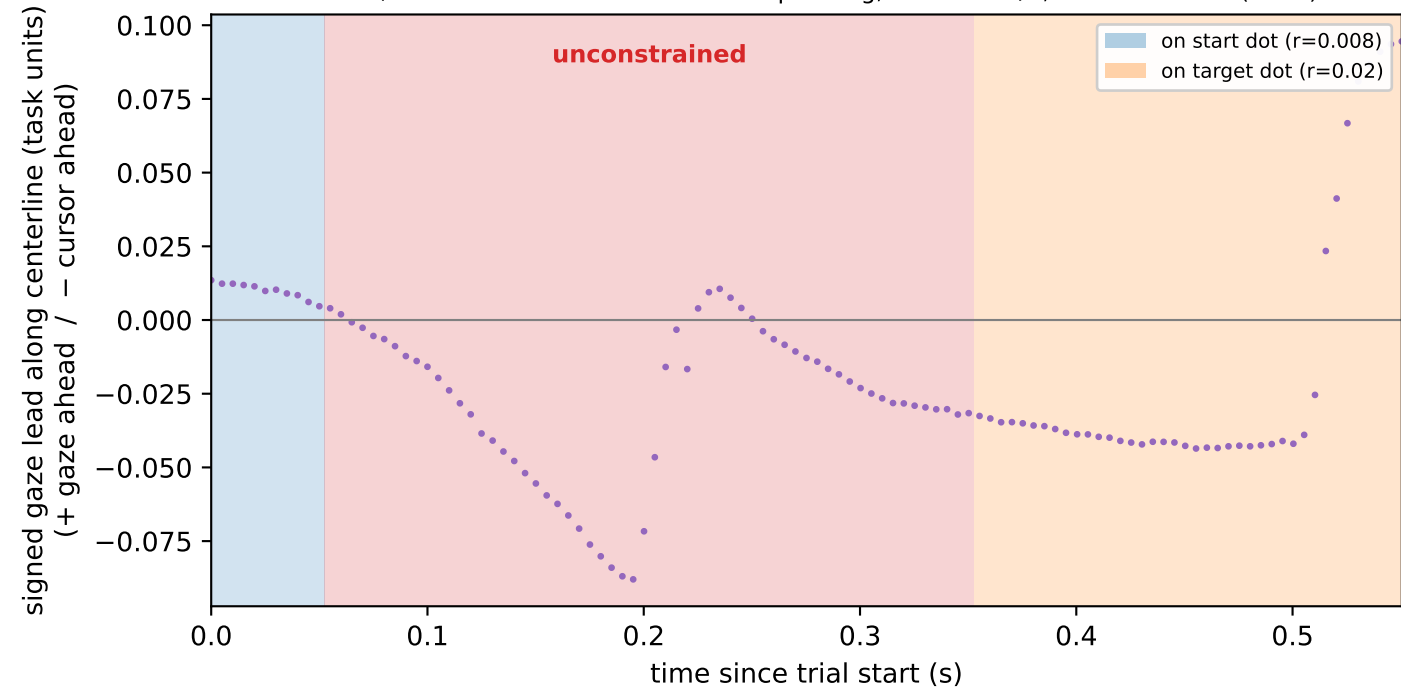

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

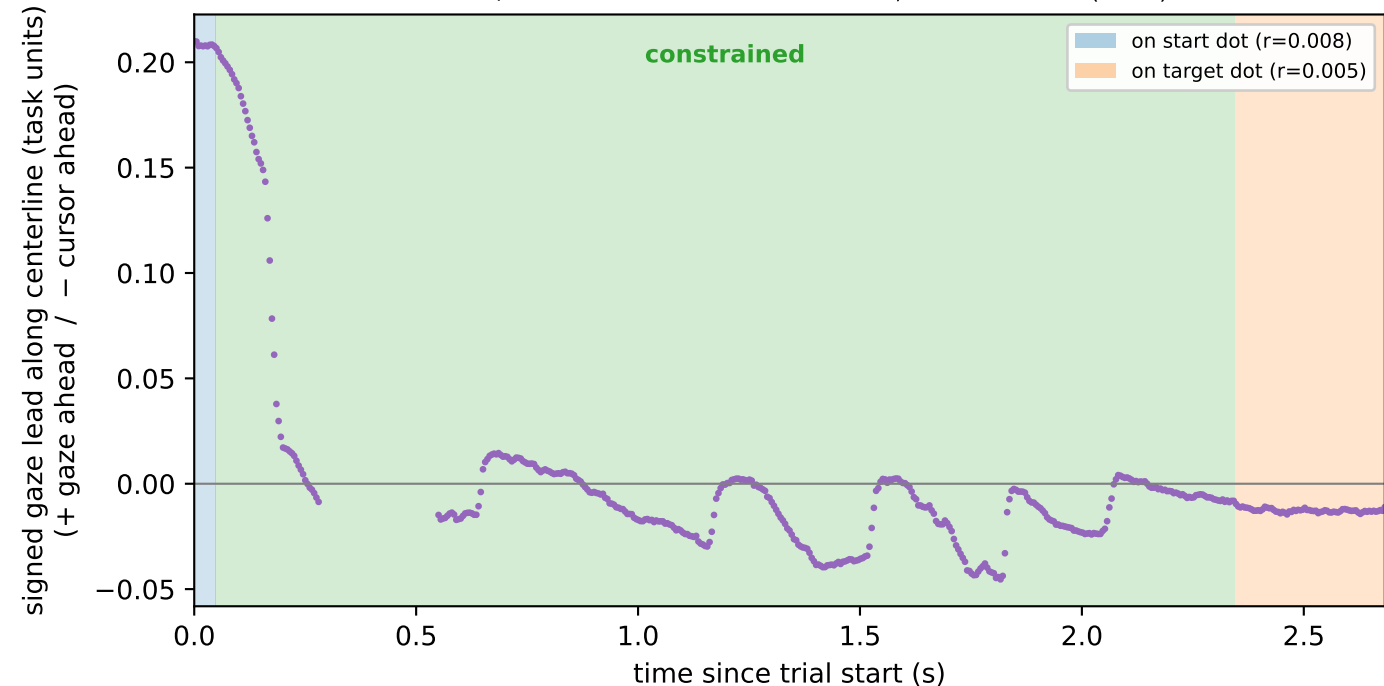

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

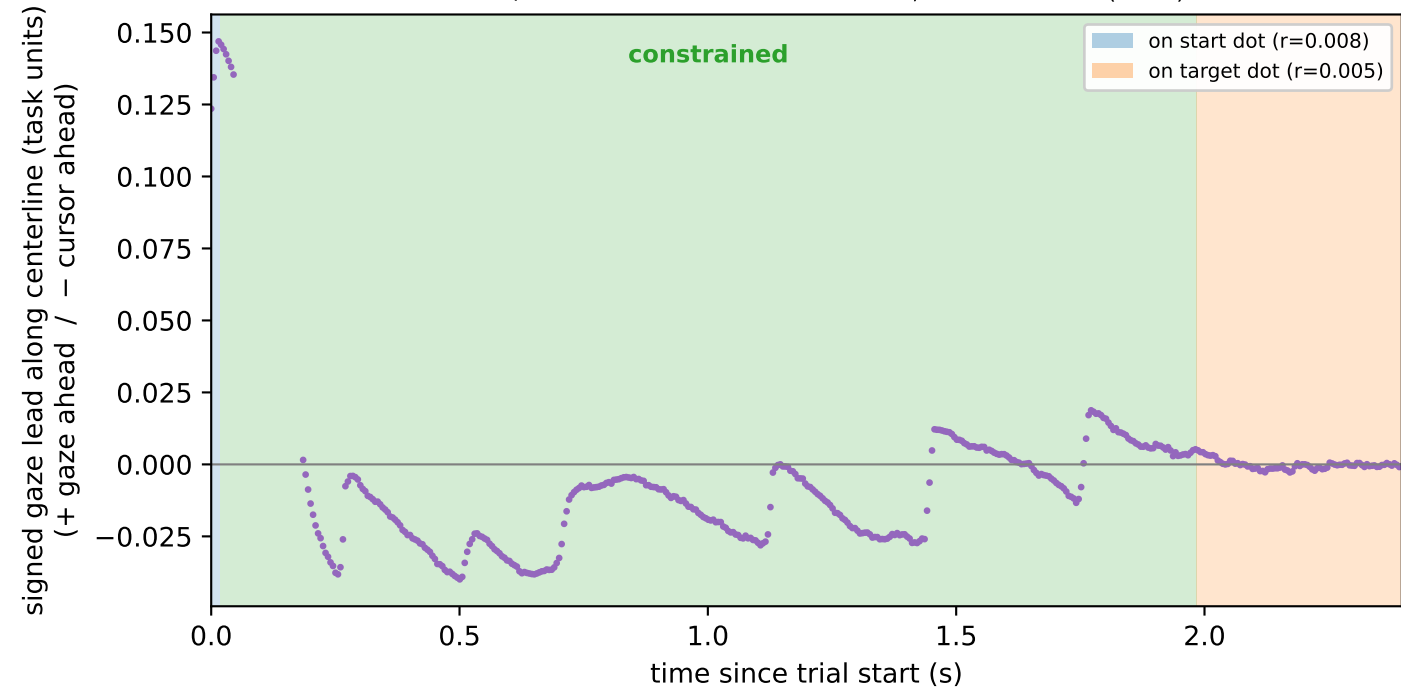

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

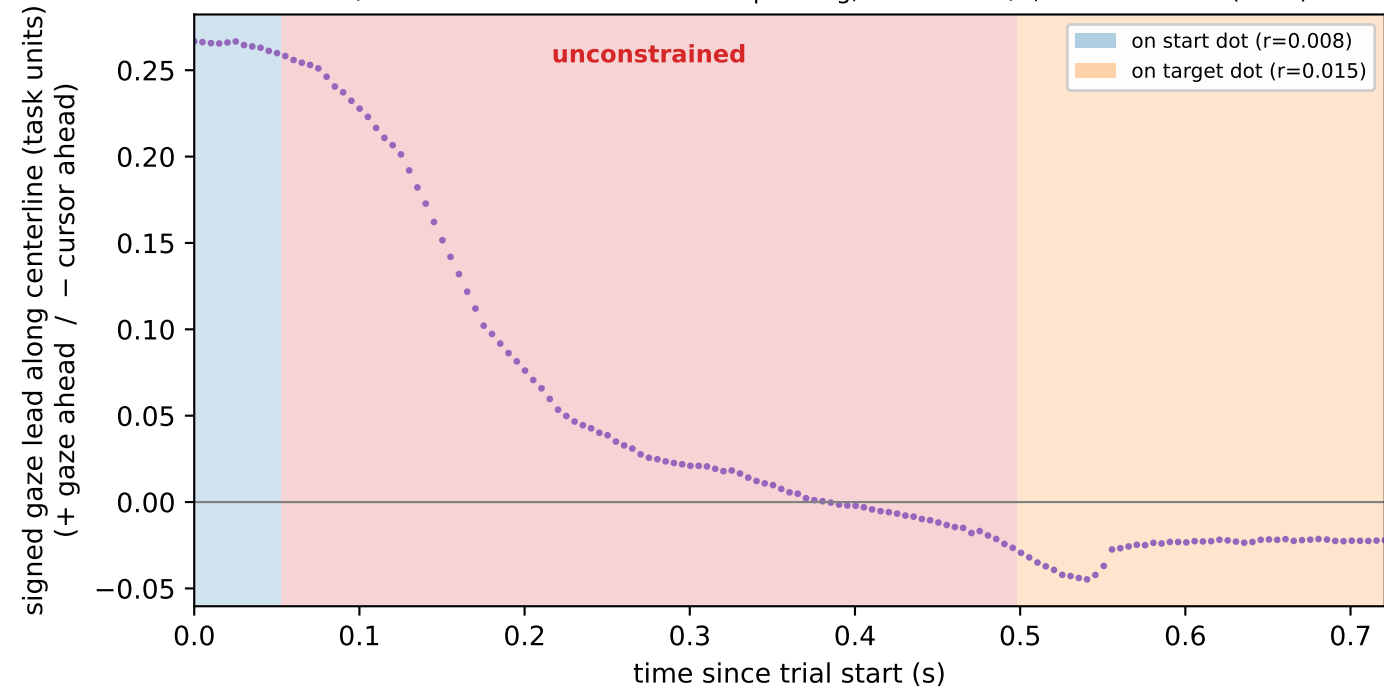

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

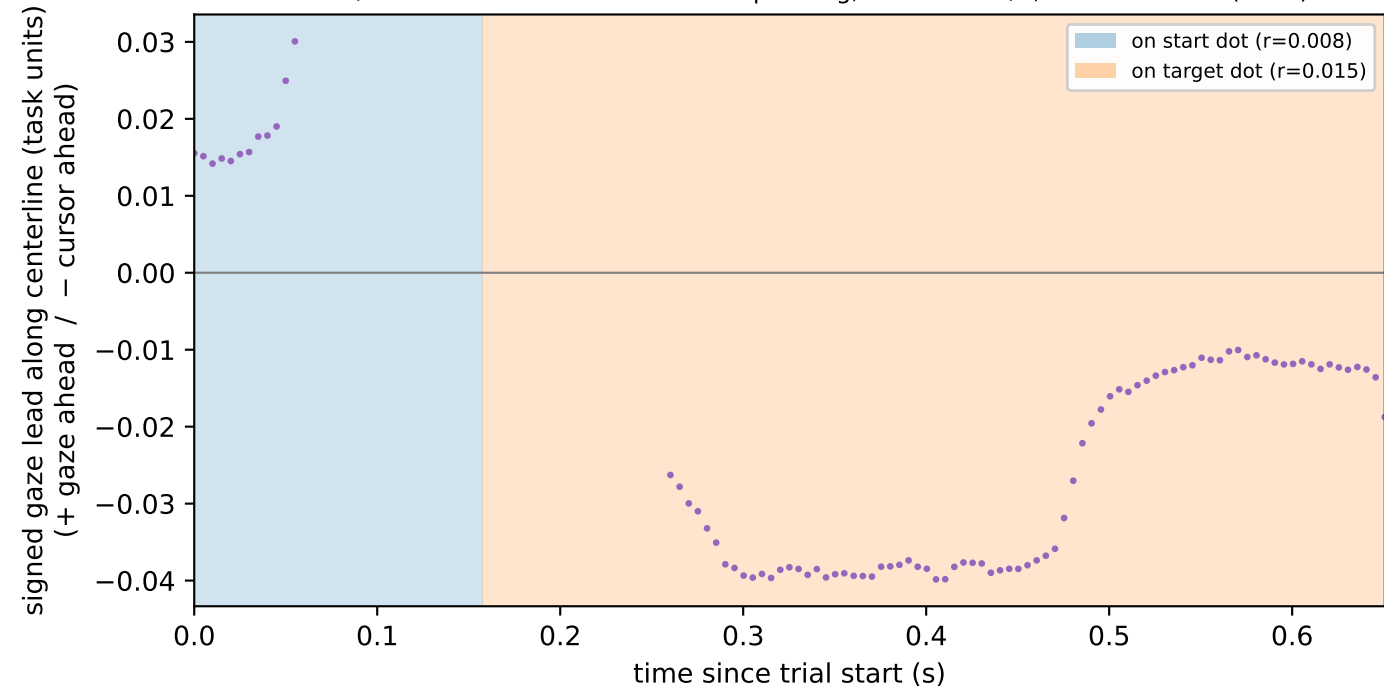

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 42/73 round 1 — unconstrained pointing, distance 2D/3, radius 15mm (id 49)

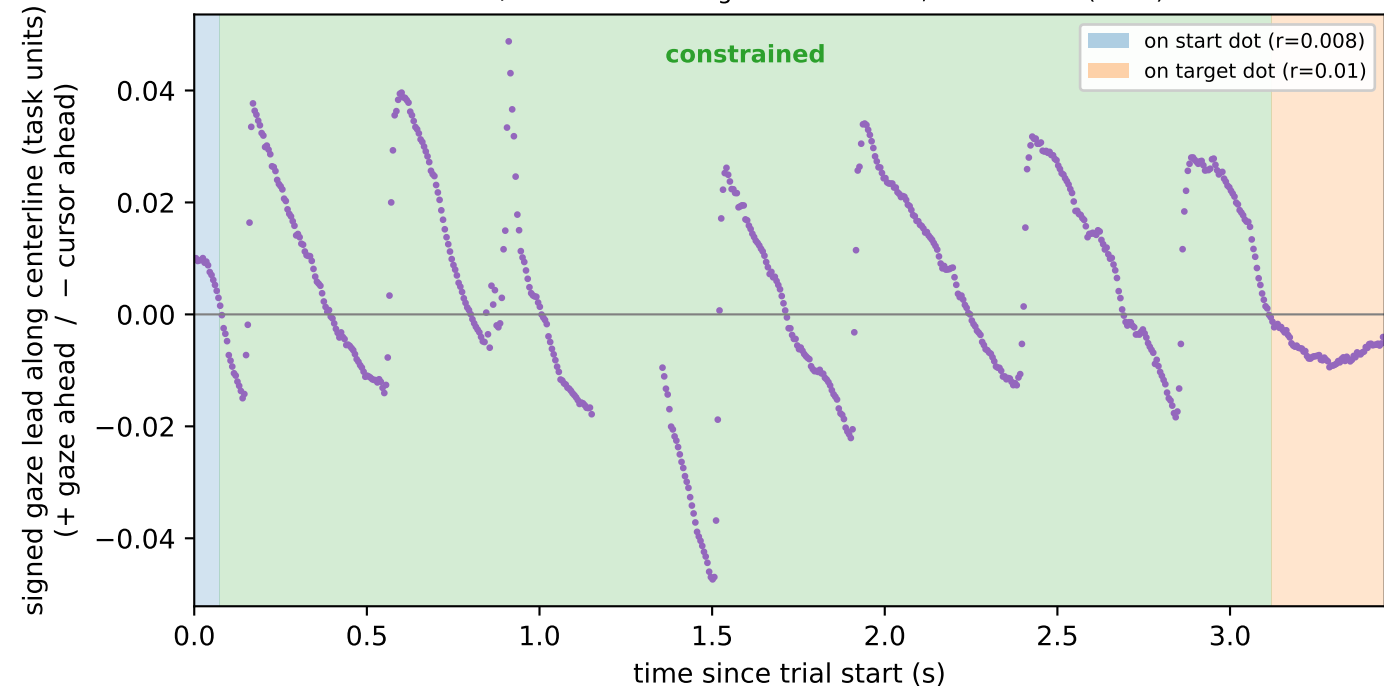

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

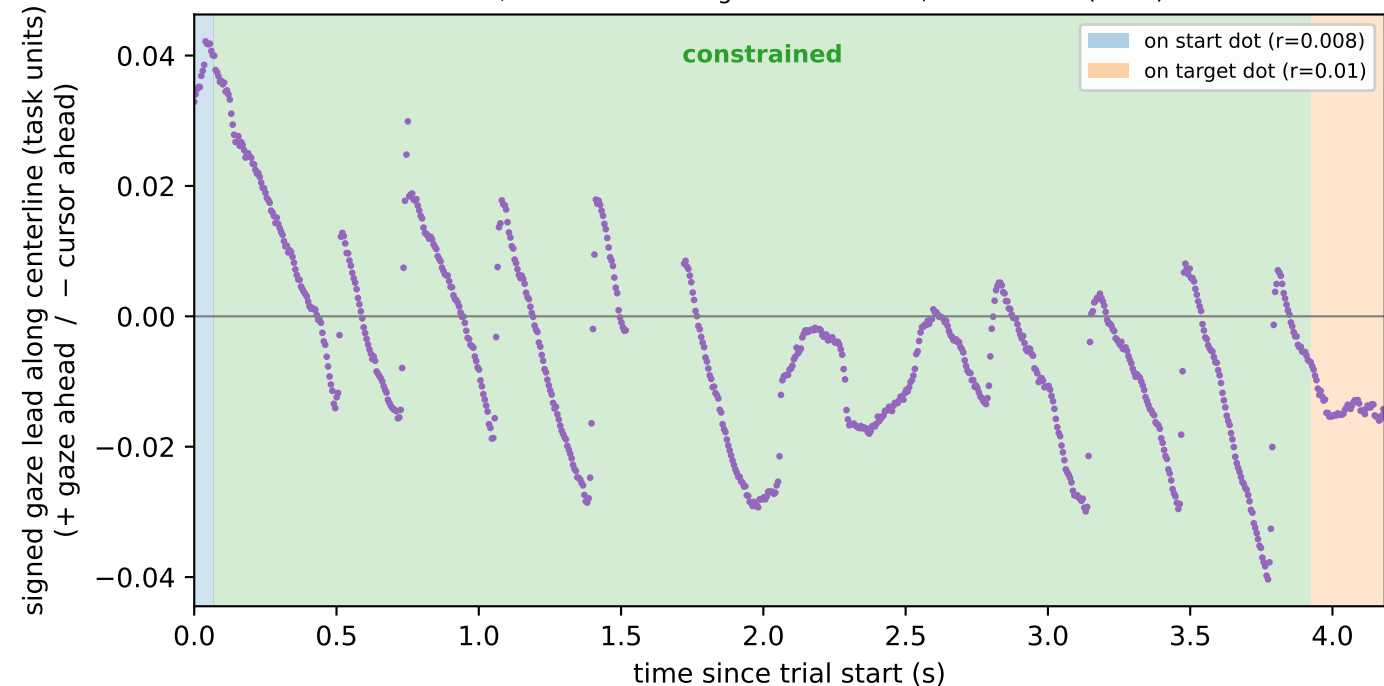

Trial 42/73 round 2 — unconstrained pointing, distance 2D/3, radius 15mm (id 49)

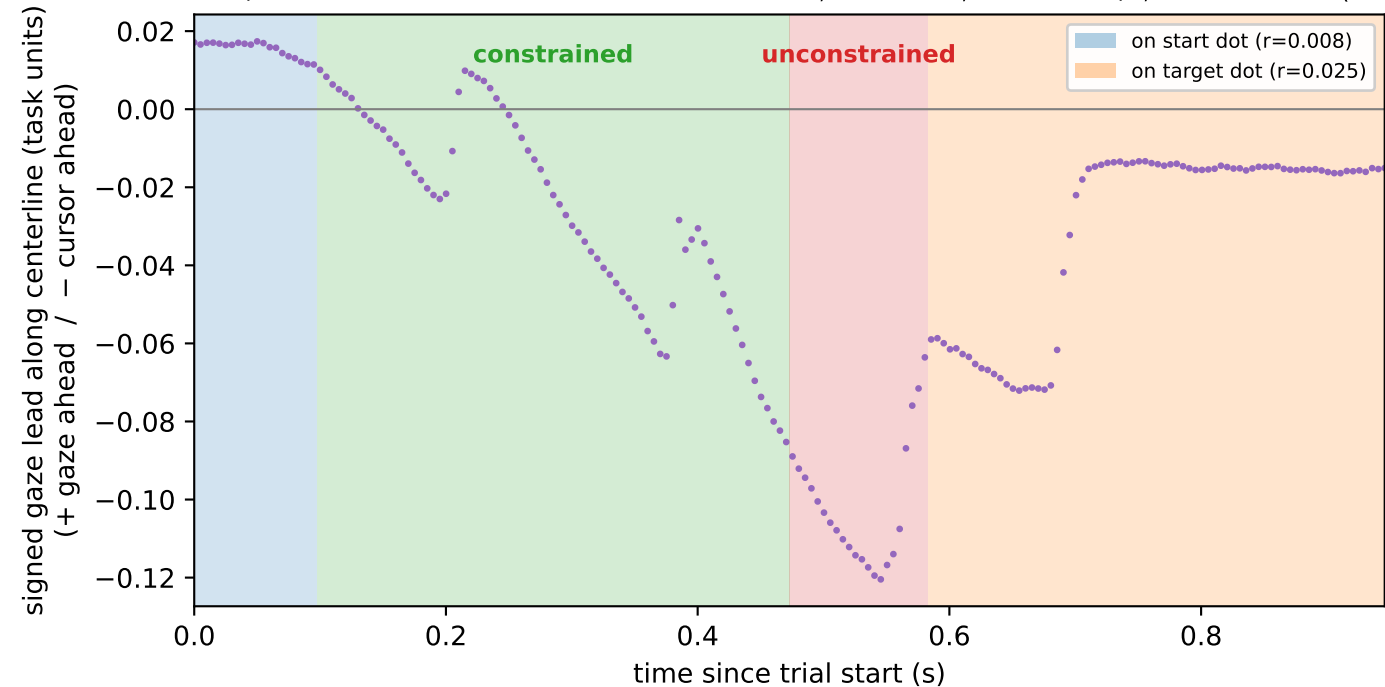

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

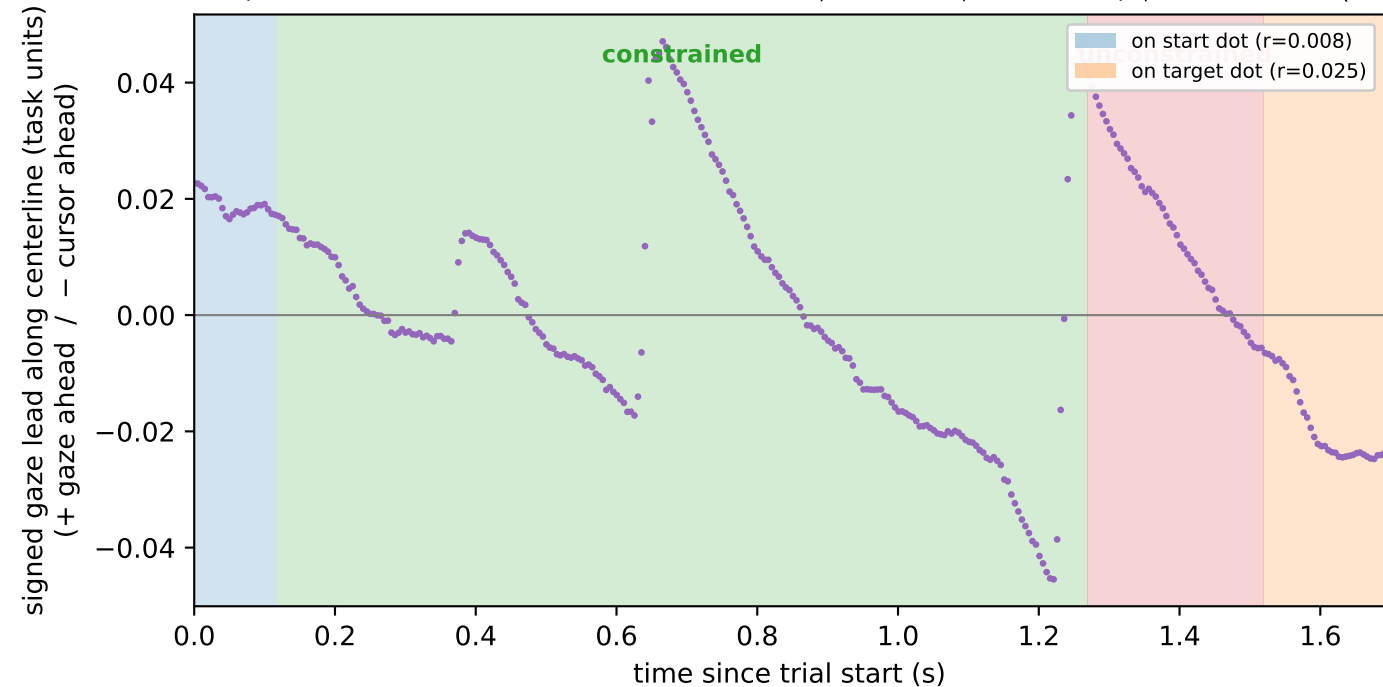

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

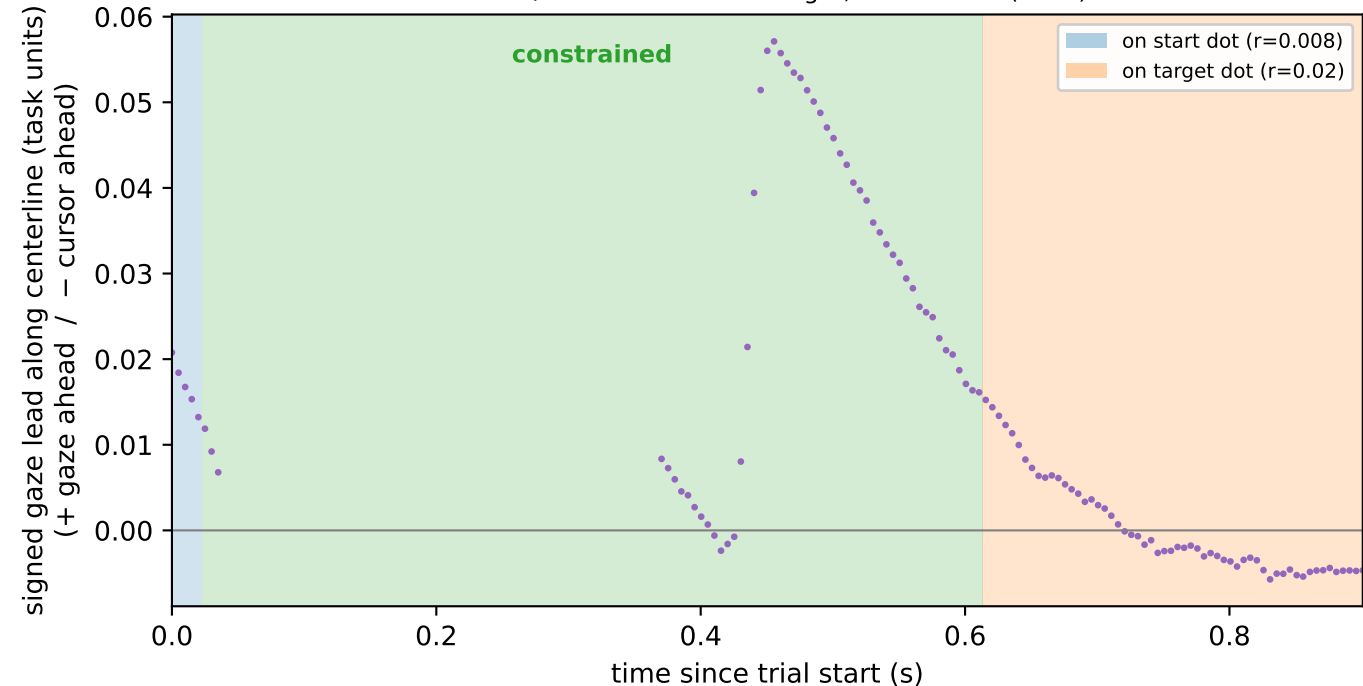

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

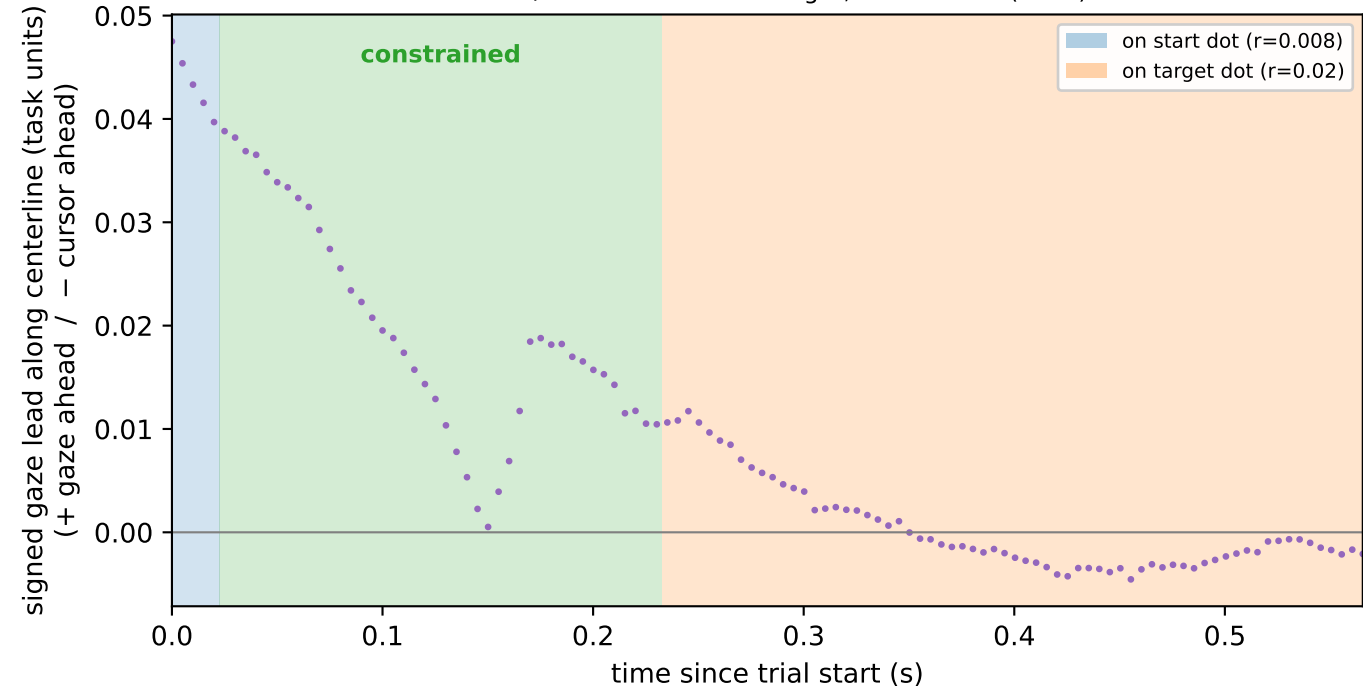

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

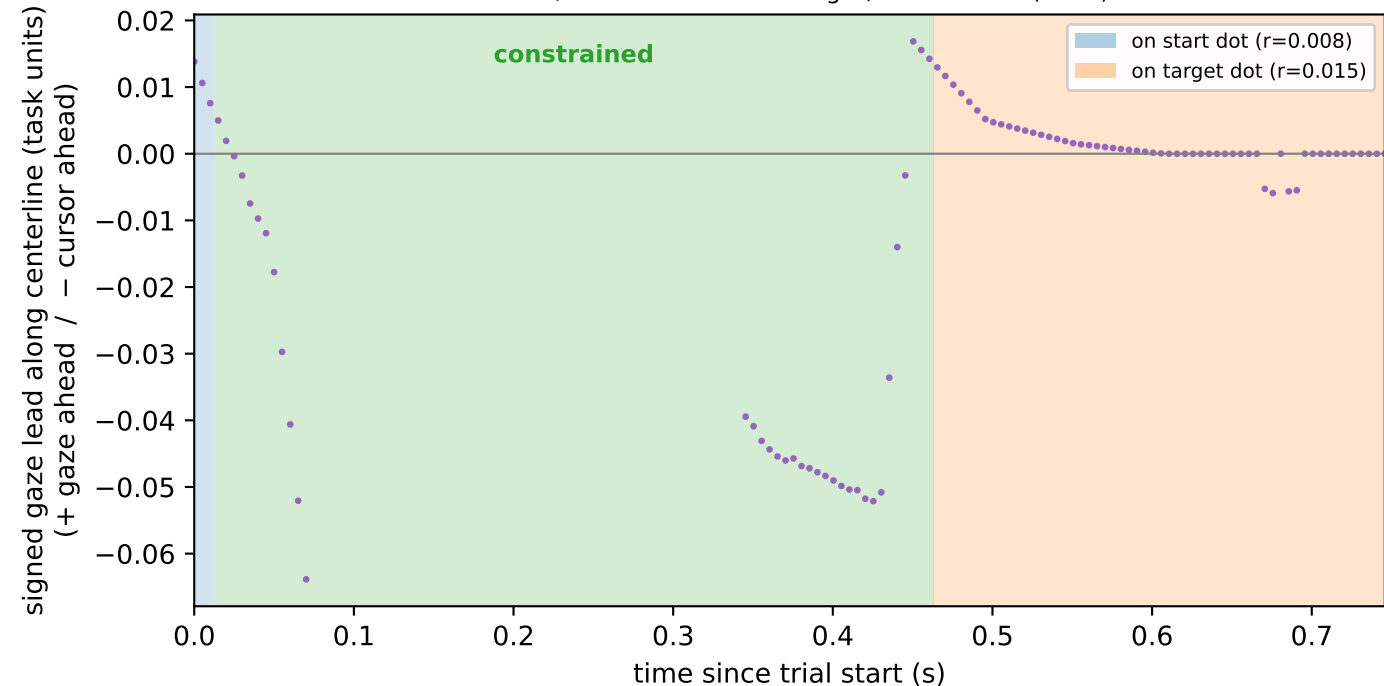

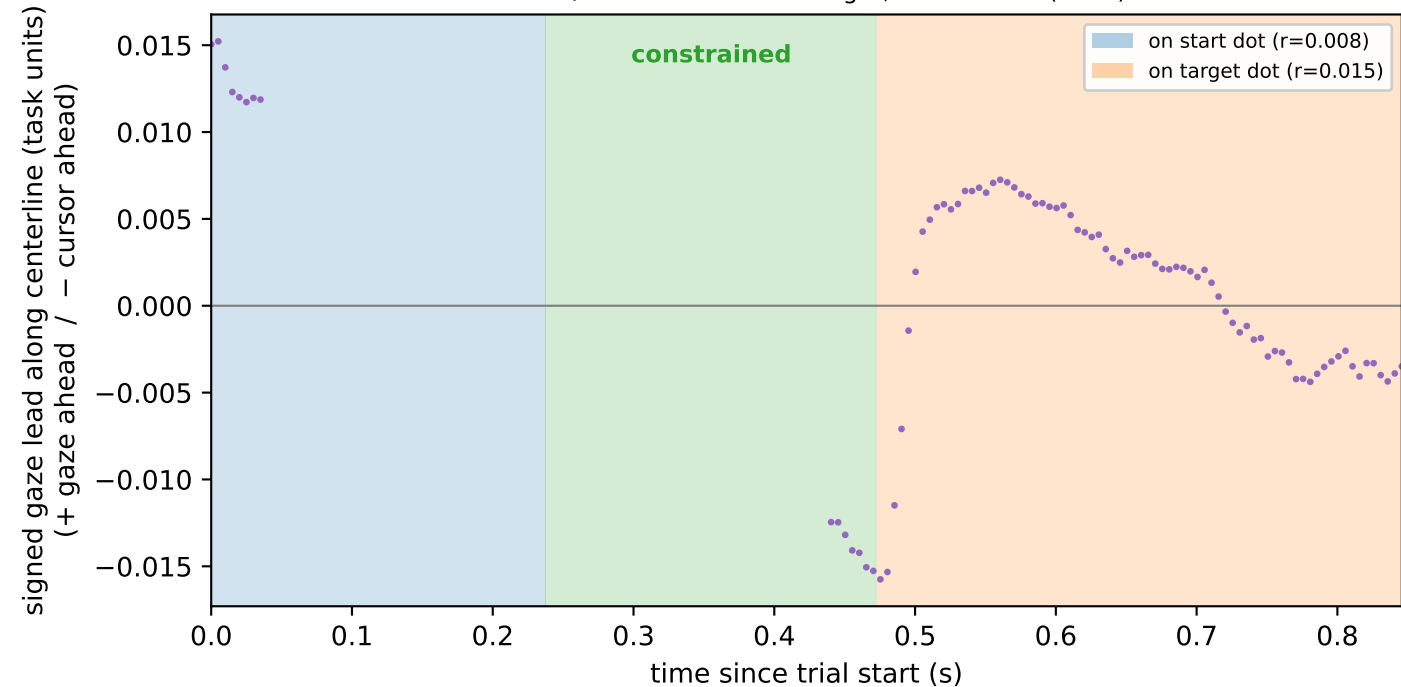

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

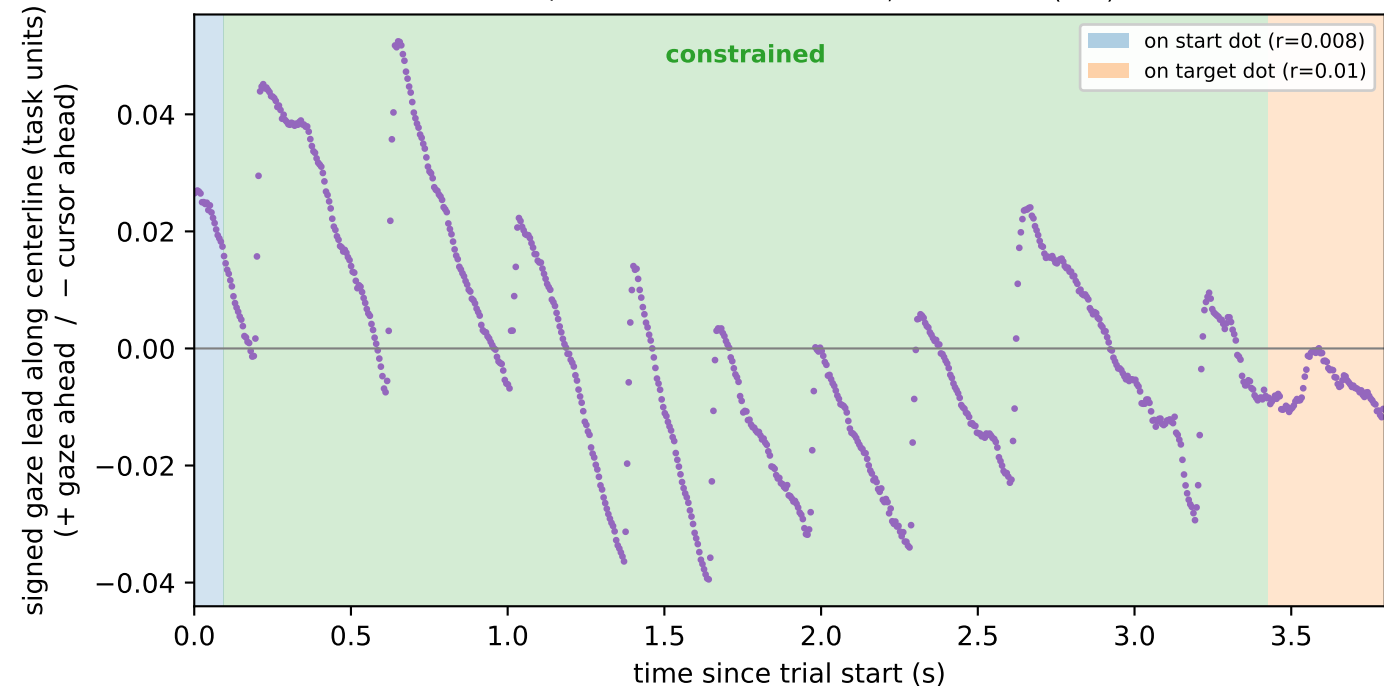

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

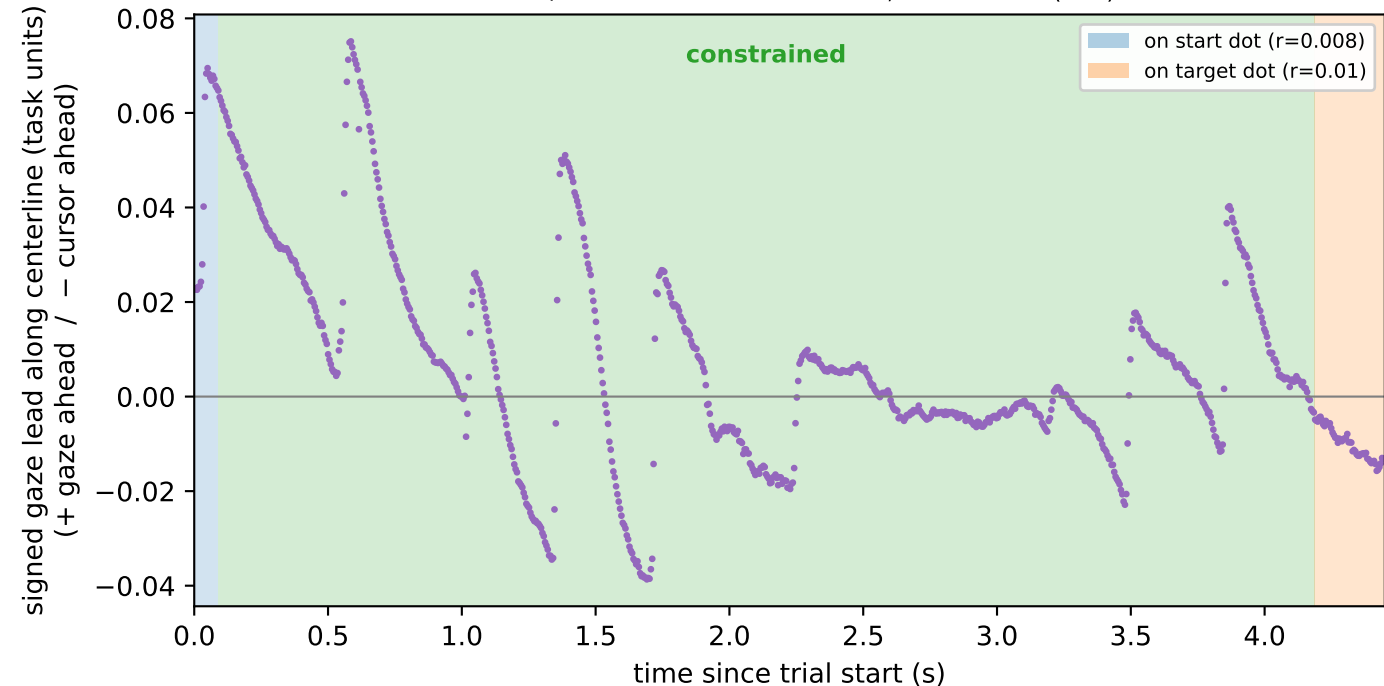

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

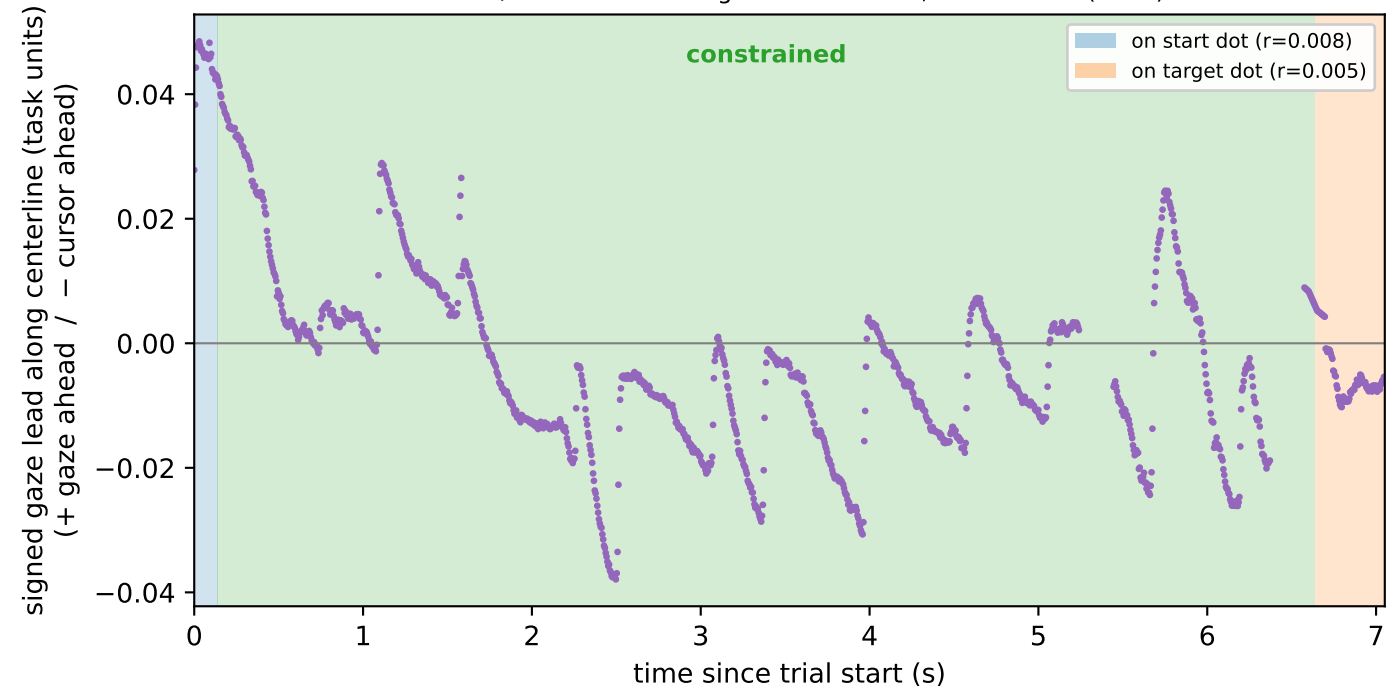

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

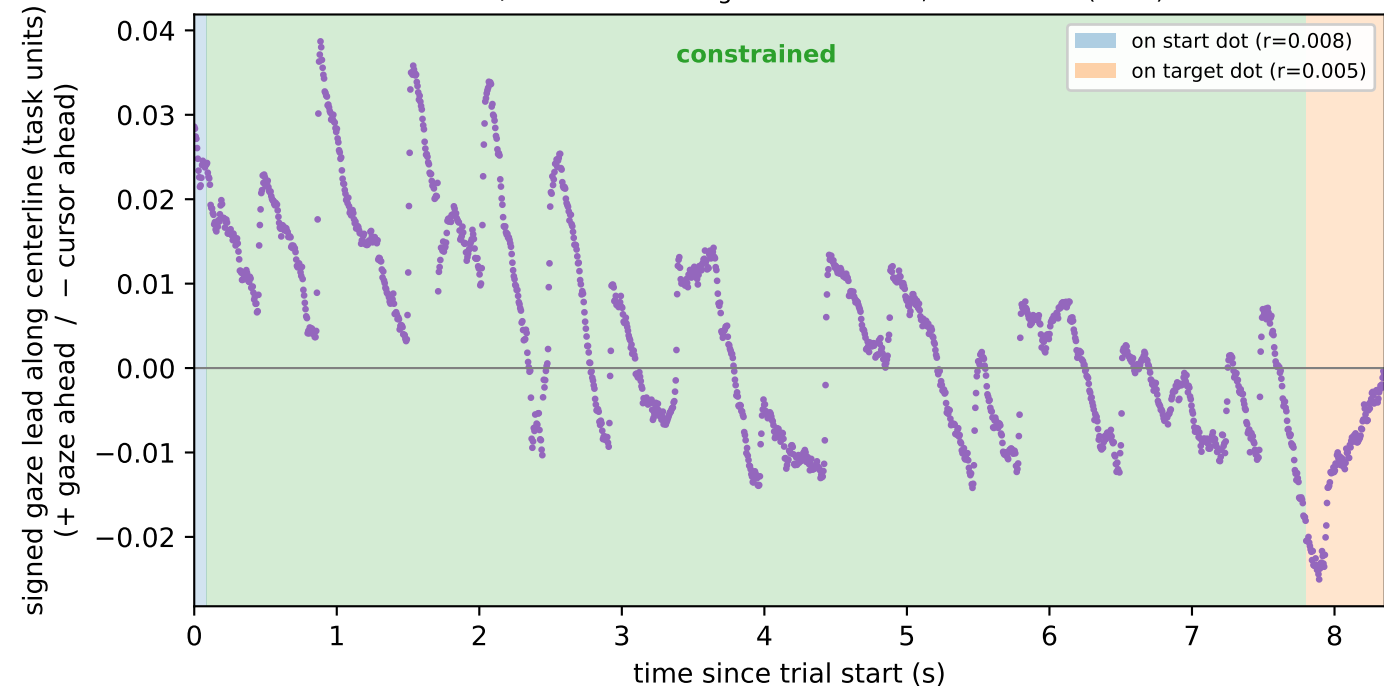

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

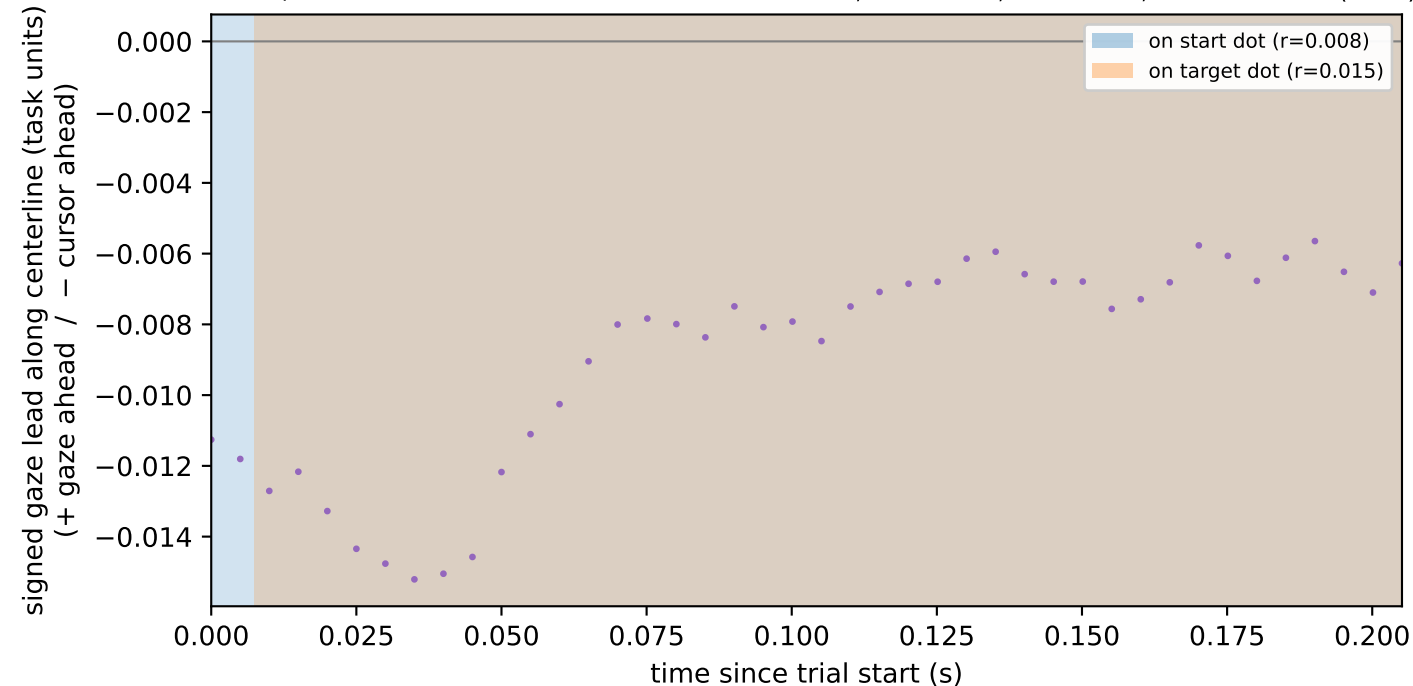

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

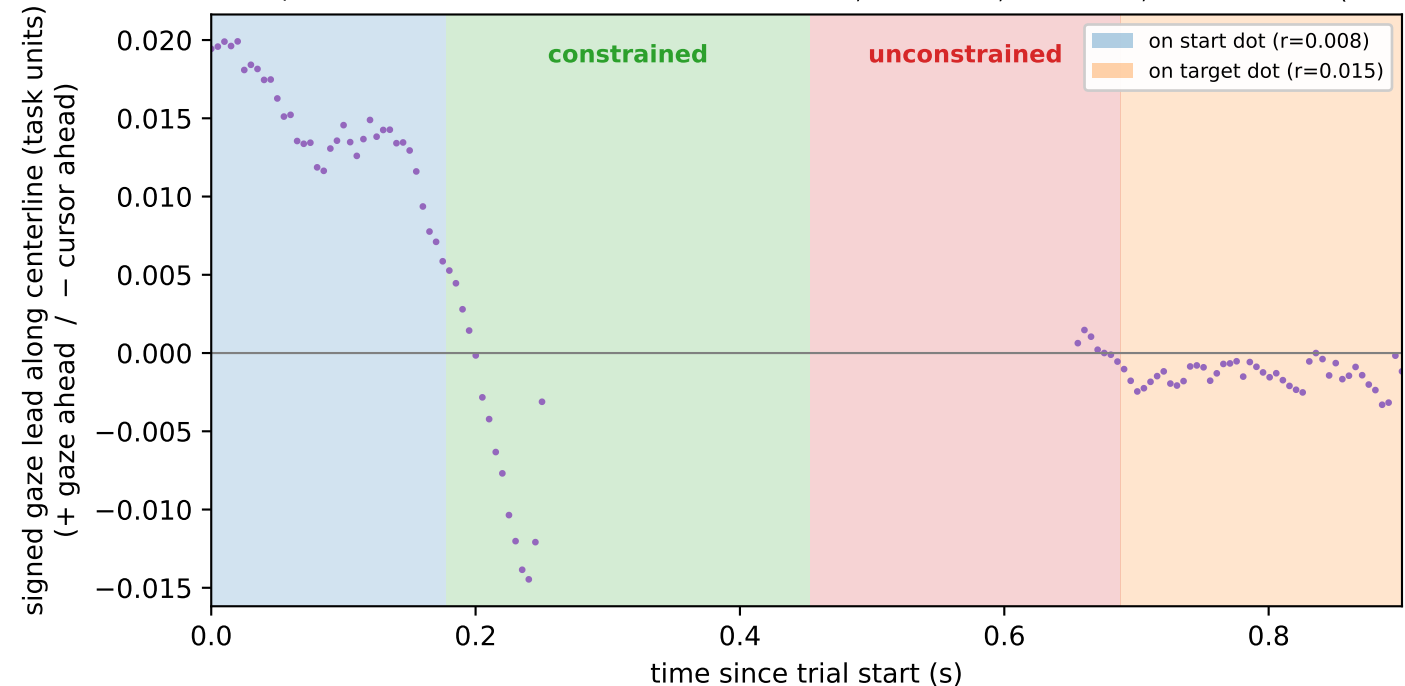

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

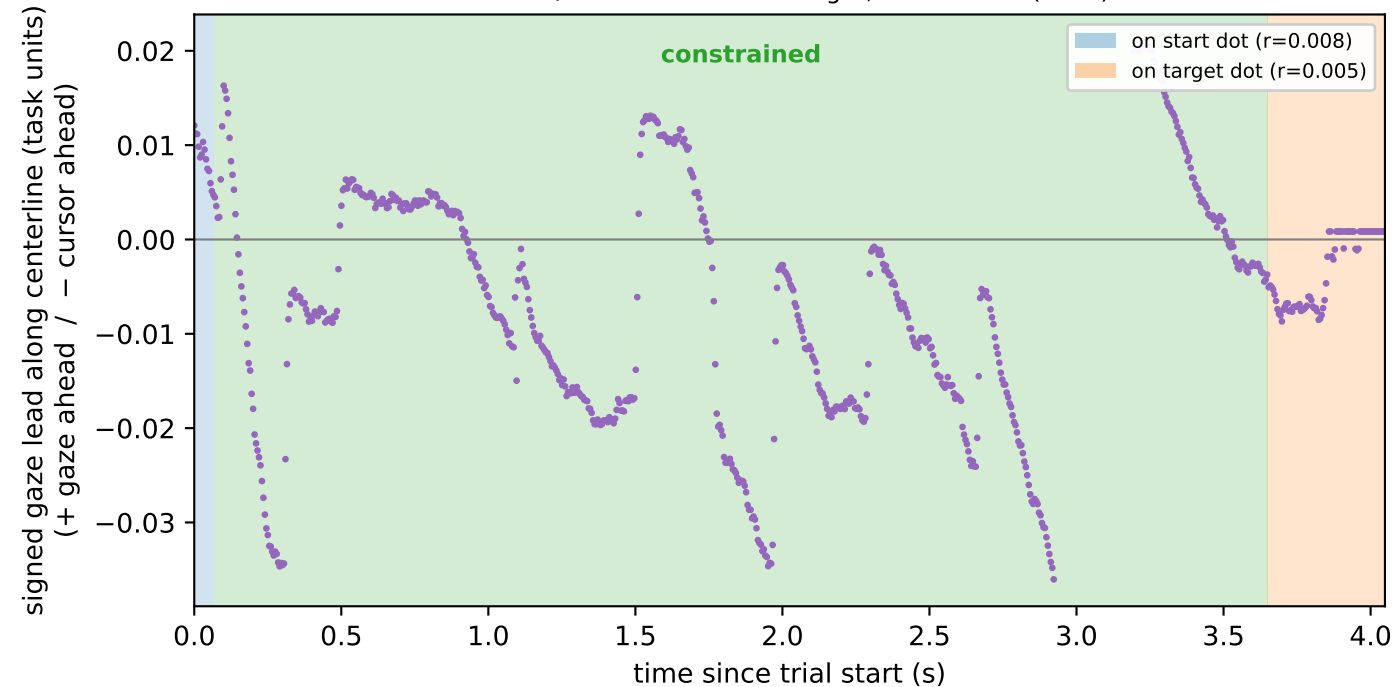

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

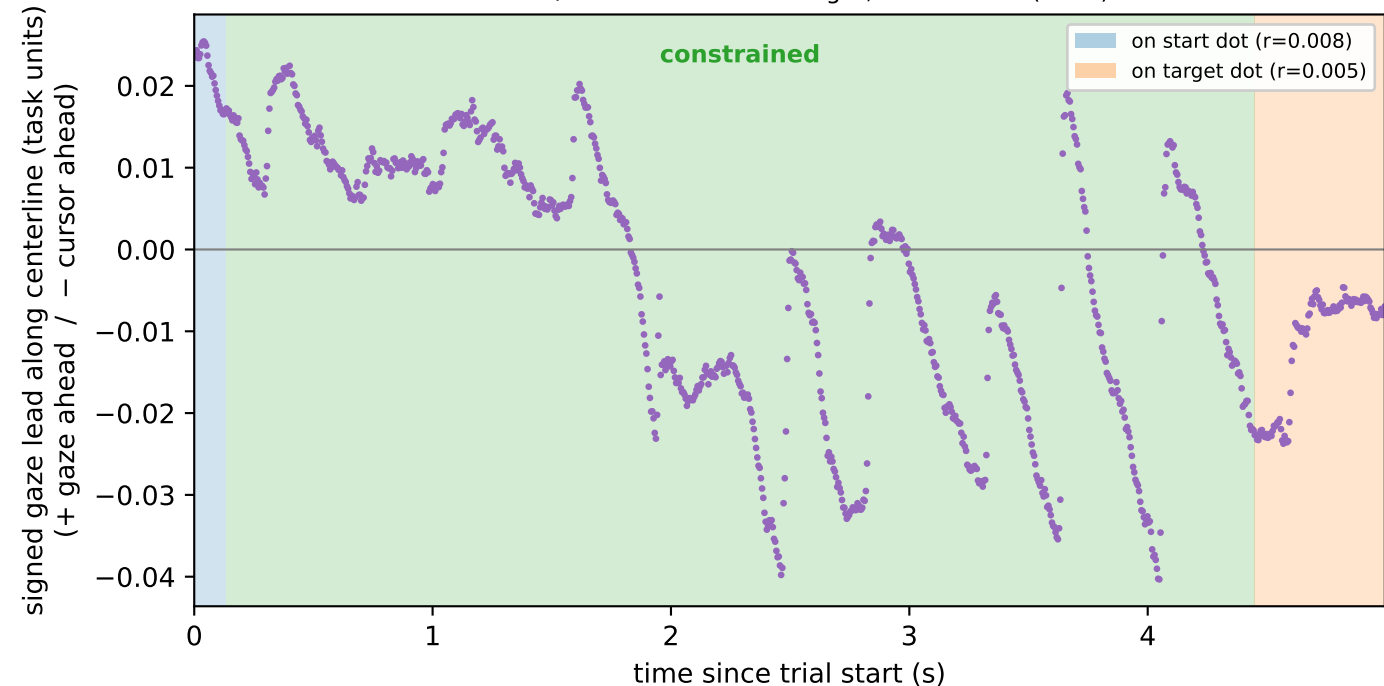

Trial 49/73 round 2 — constrained-to-unconstrained, width 0.03, distance D, radius 15mm (id 73)

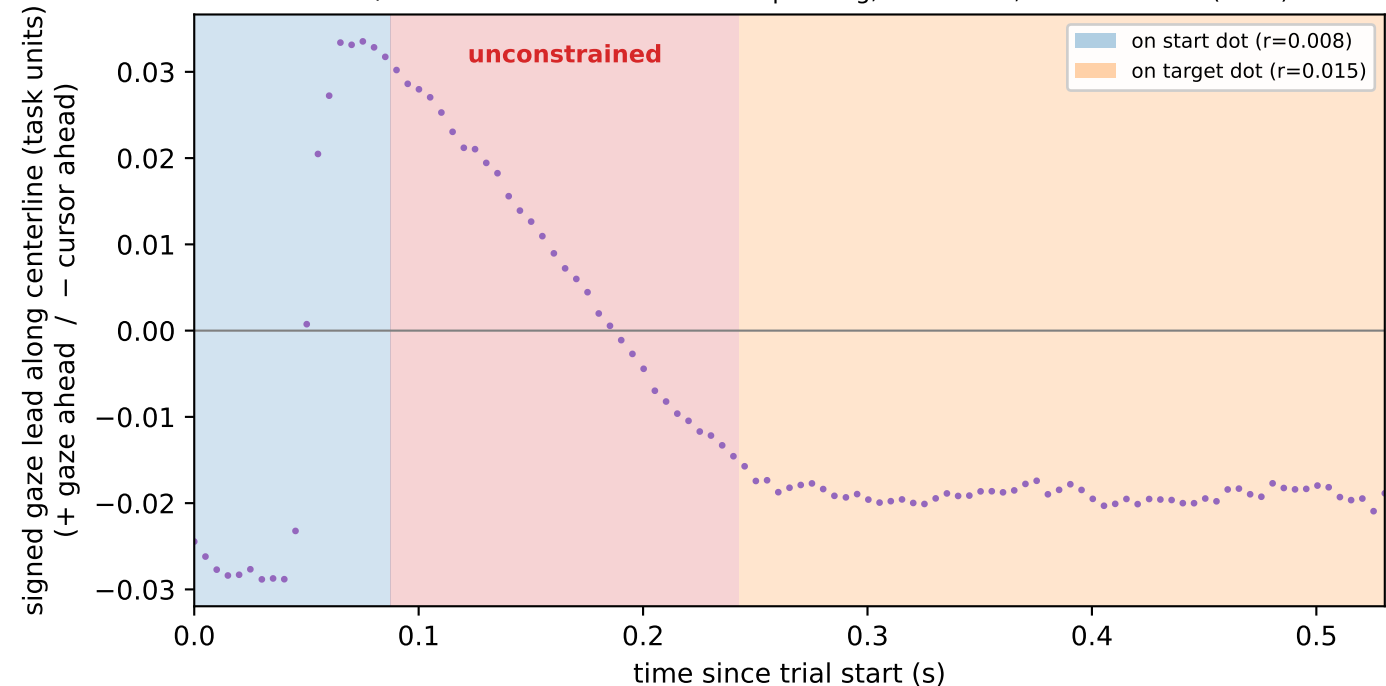

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

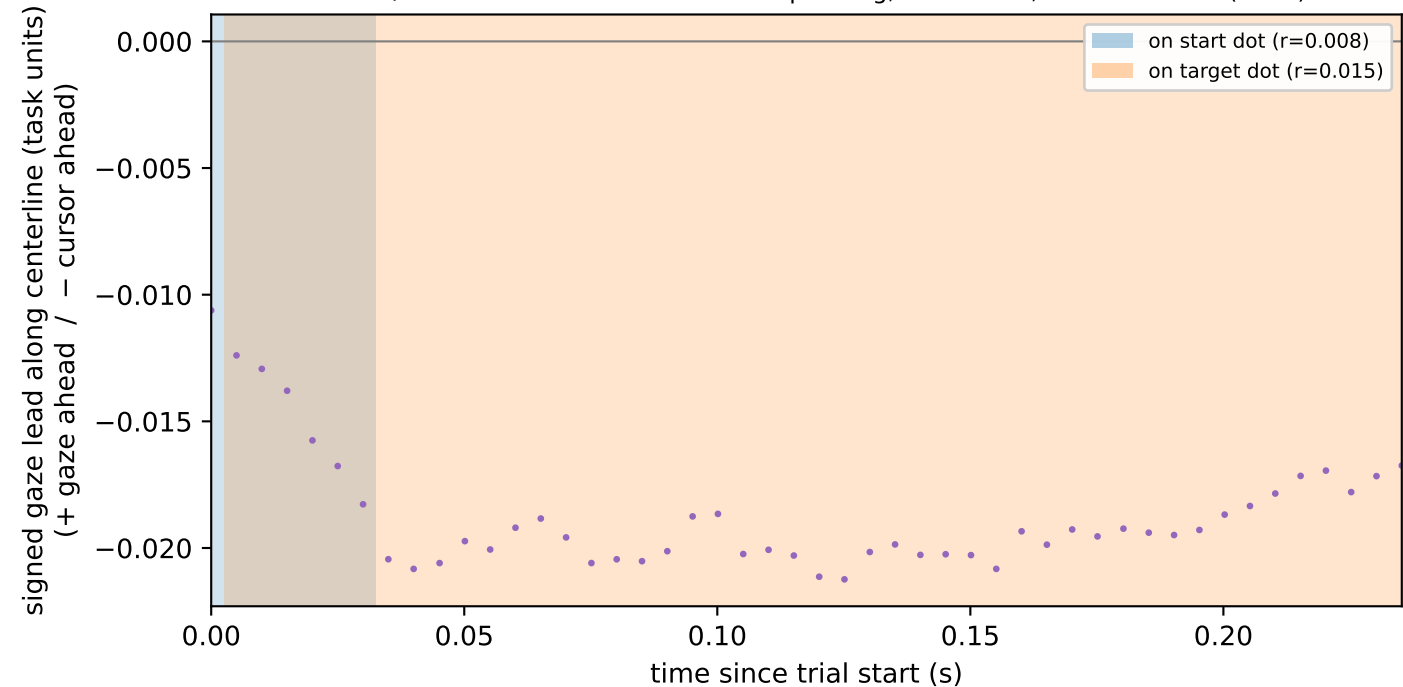

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

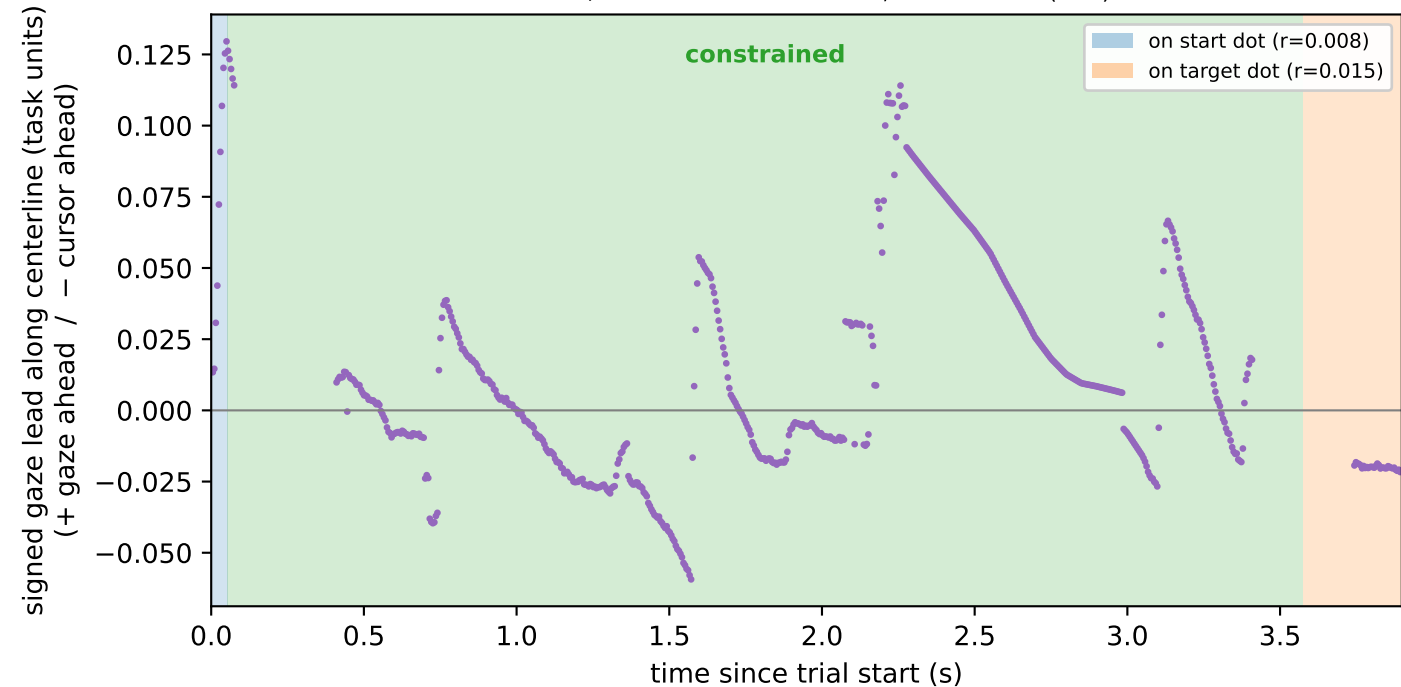

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

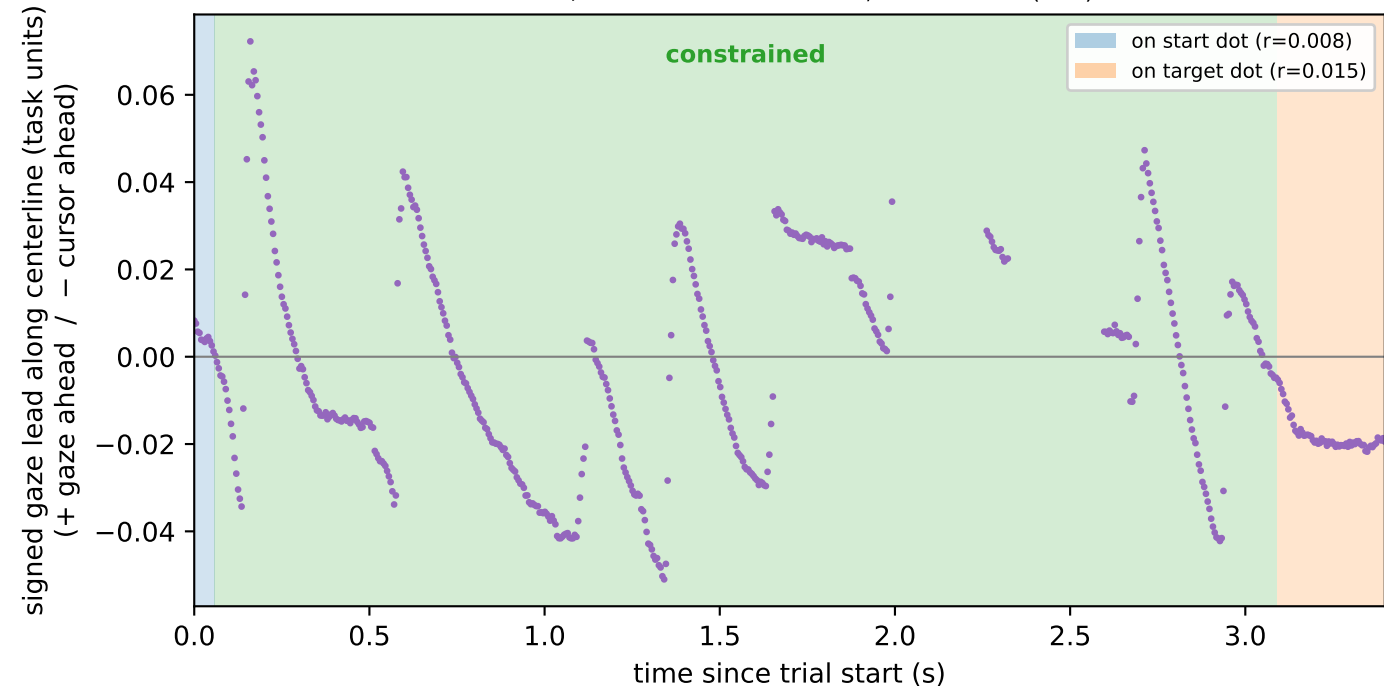

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

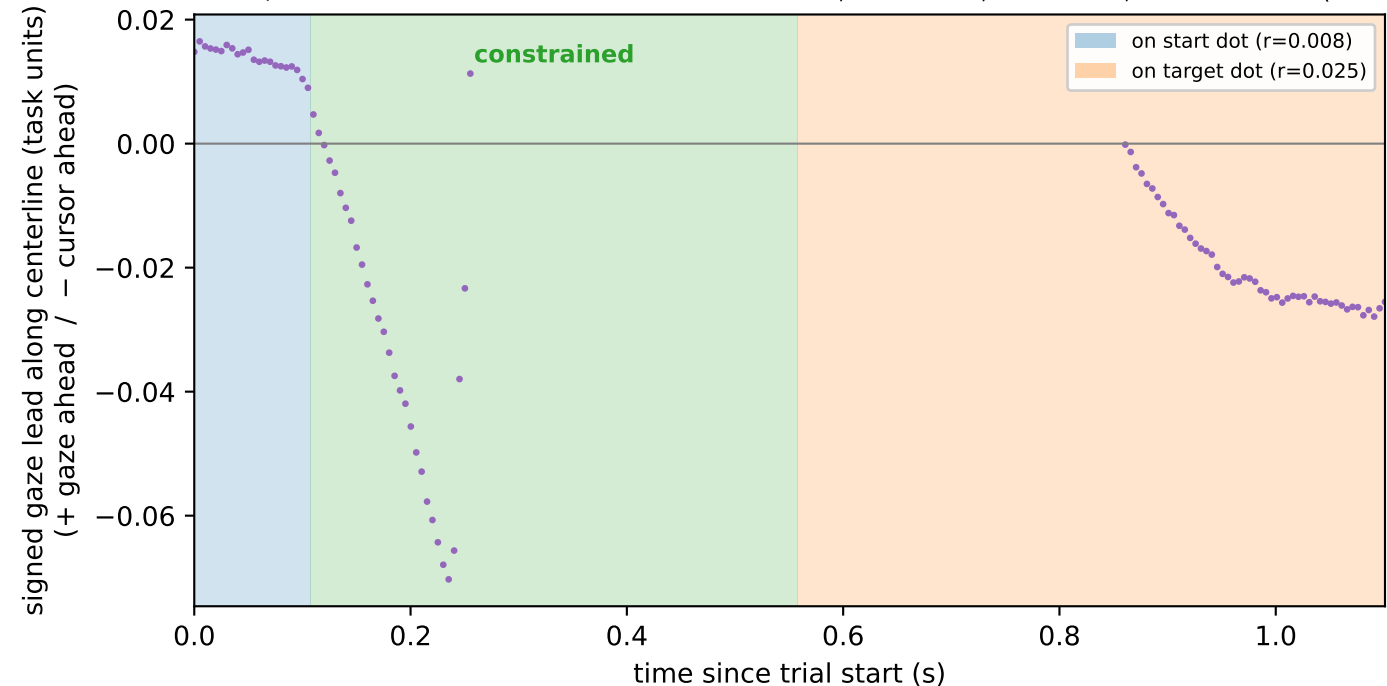

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

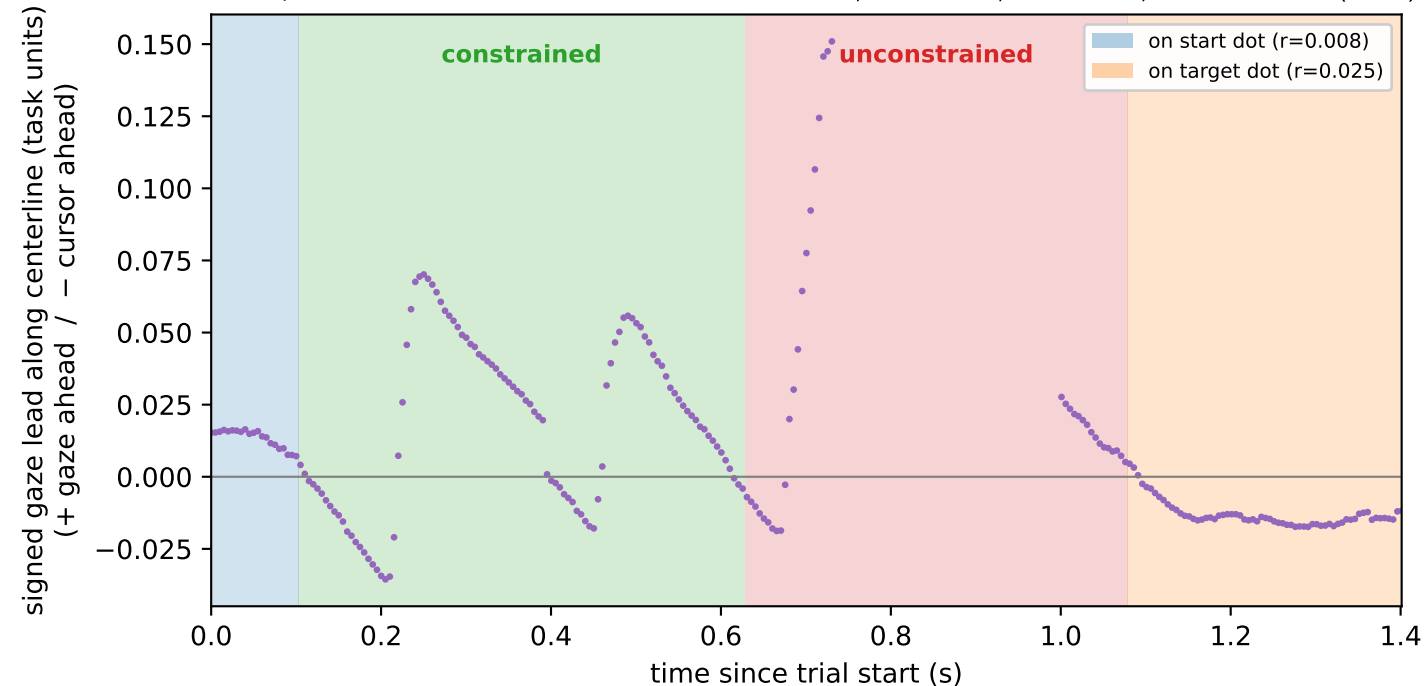

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

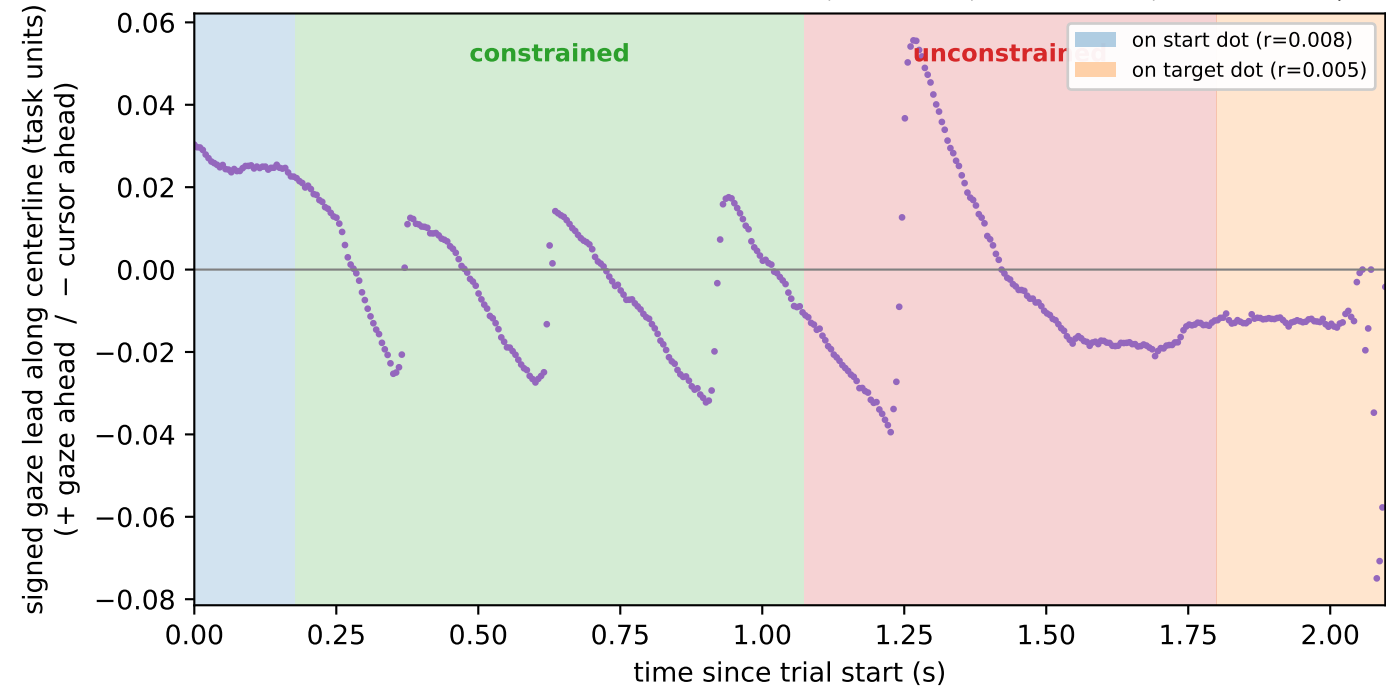

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

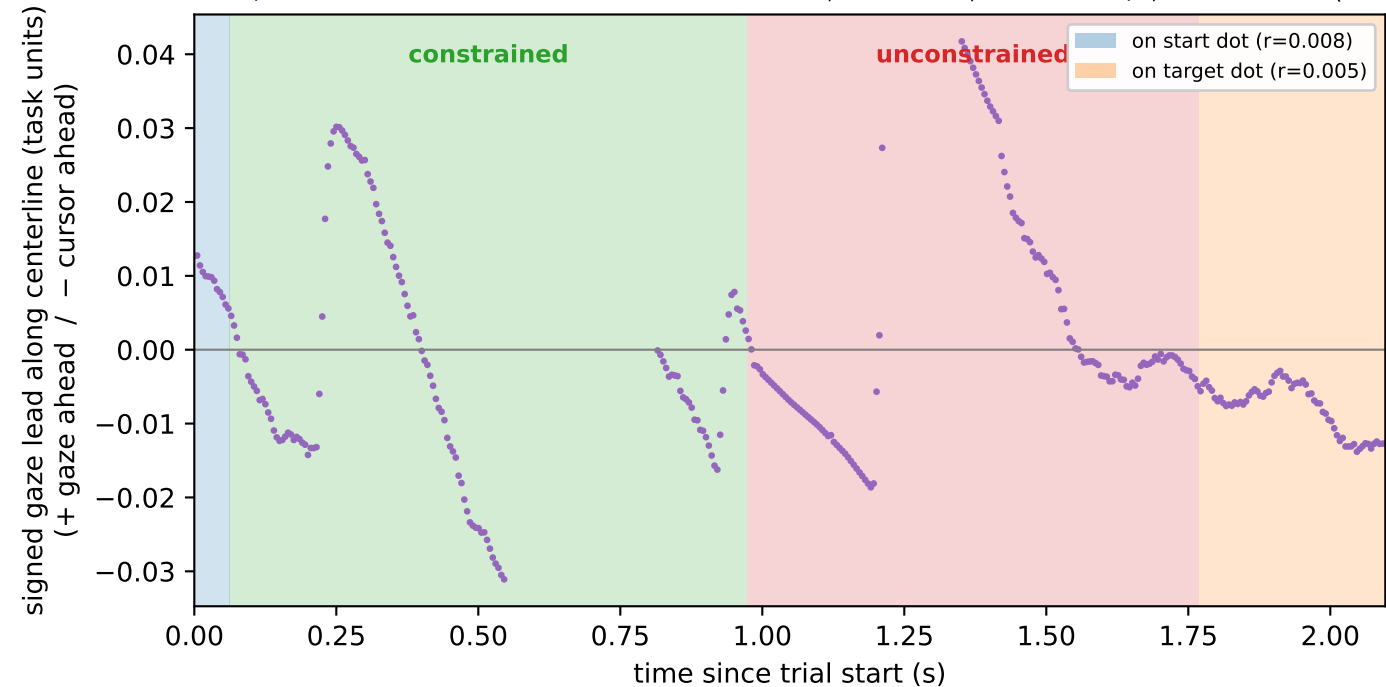

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

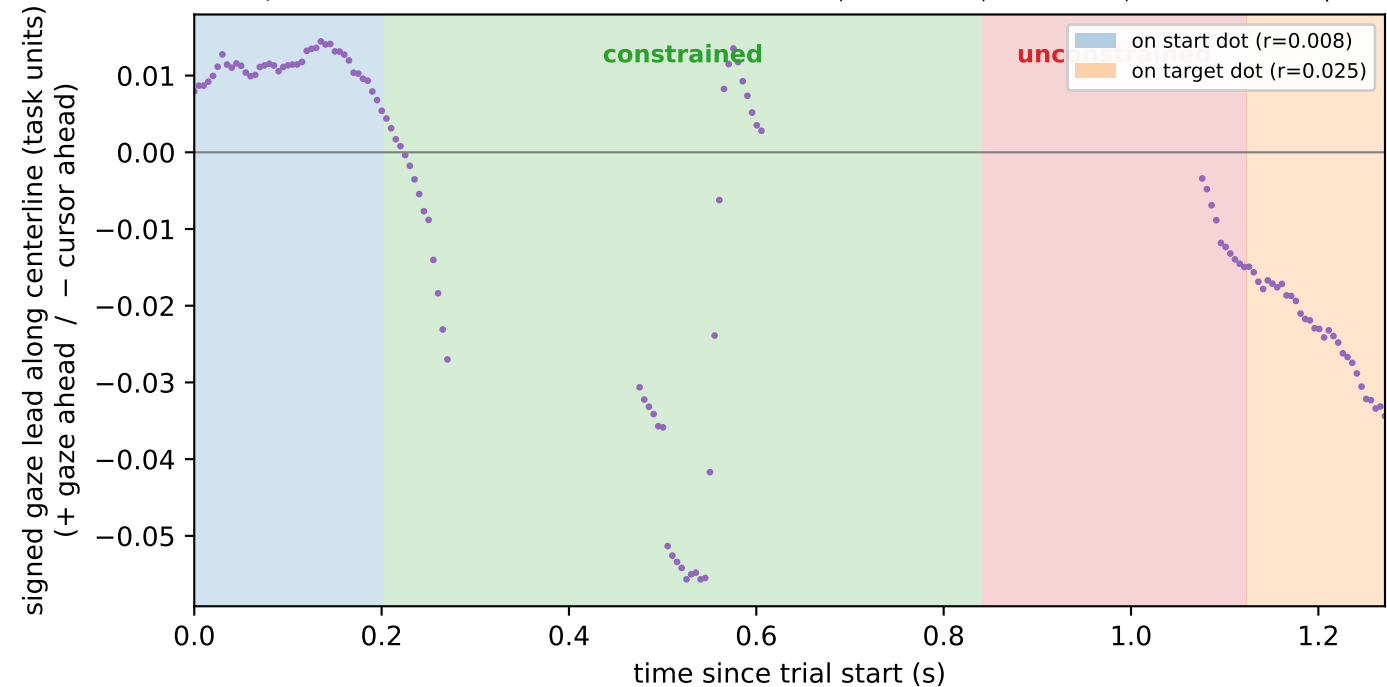

Trial 54/73 round 1 — constrained-to-unconstrained, width 0.01, distance 4D/6, radius 5mm (id 57)

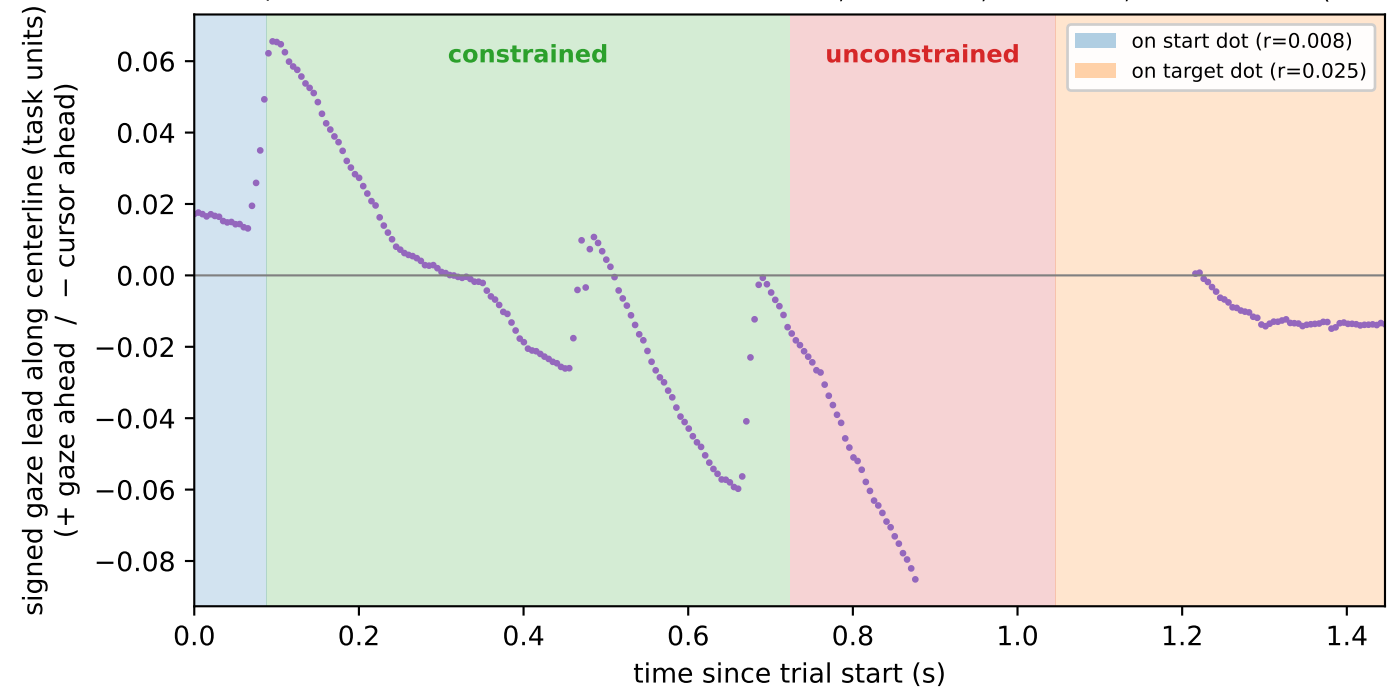

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

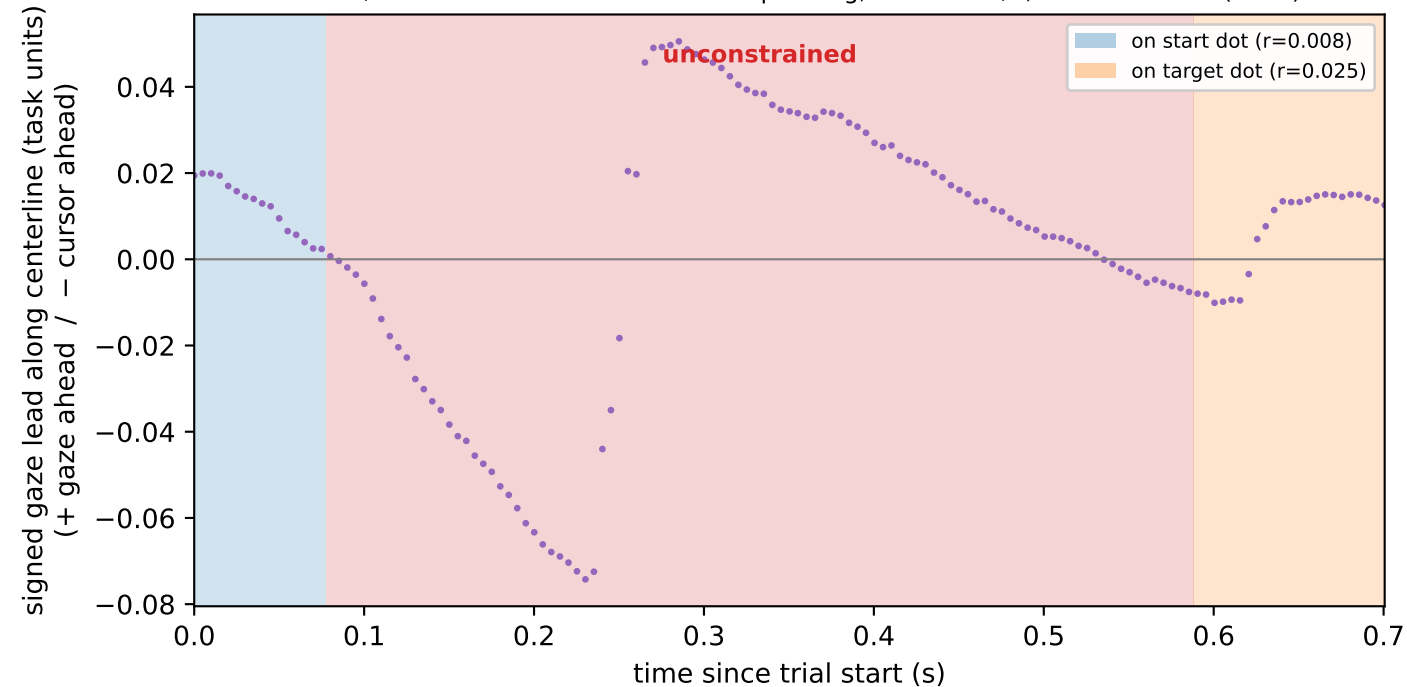

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

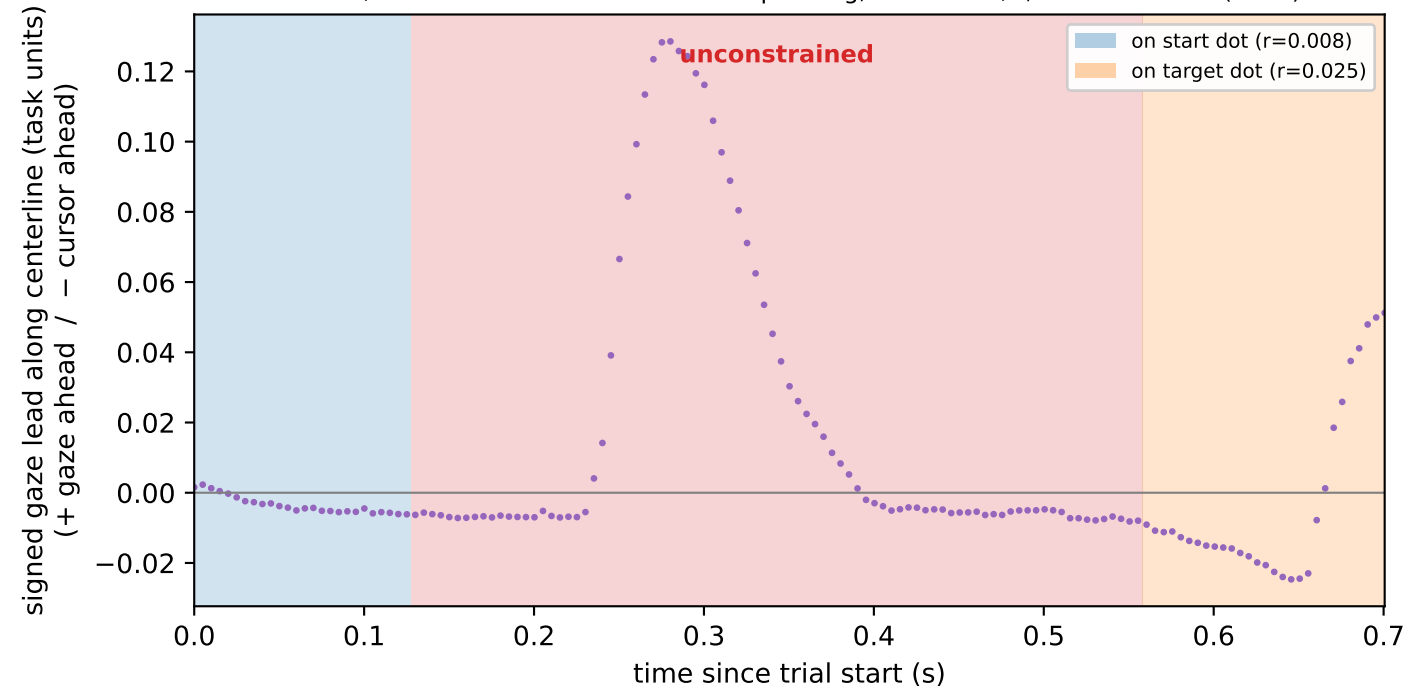

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 56/73 round 1 — unconstrained pointing, distance D/3, radius 25mm (id 46)

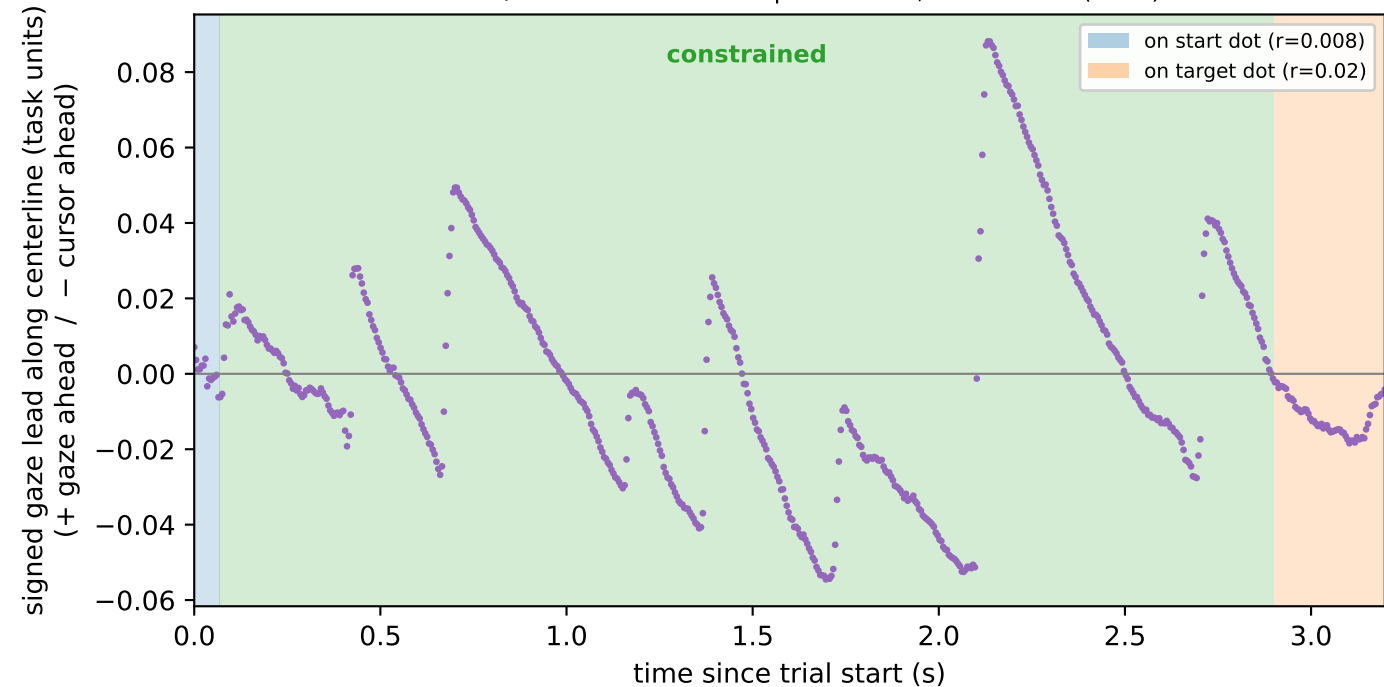

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

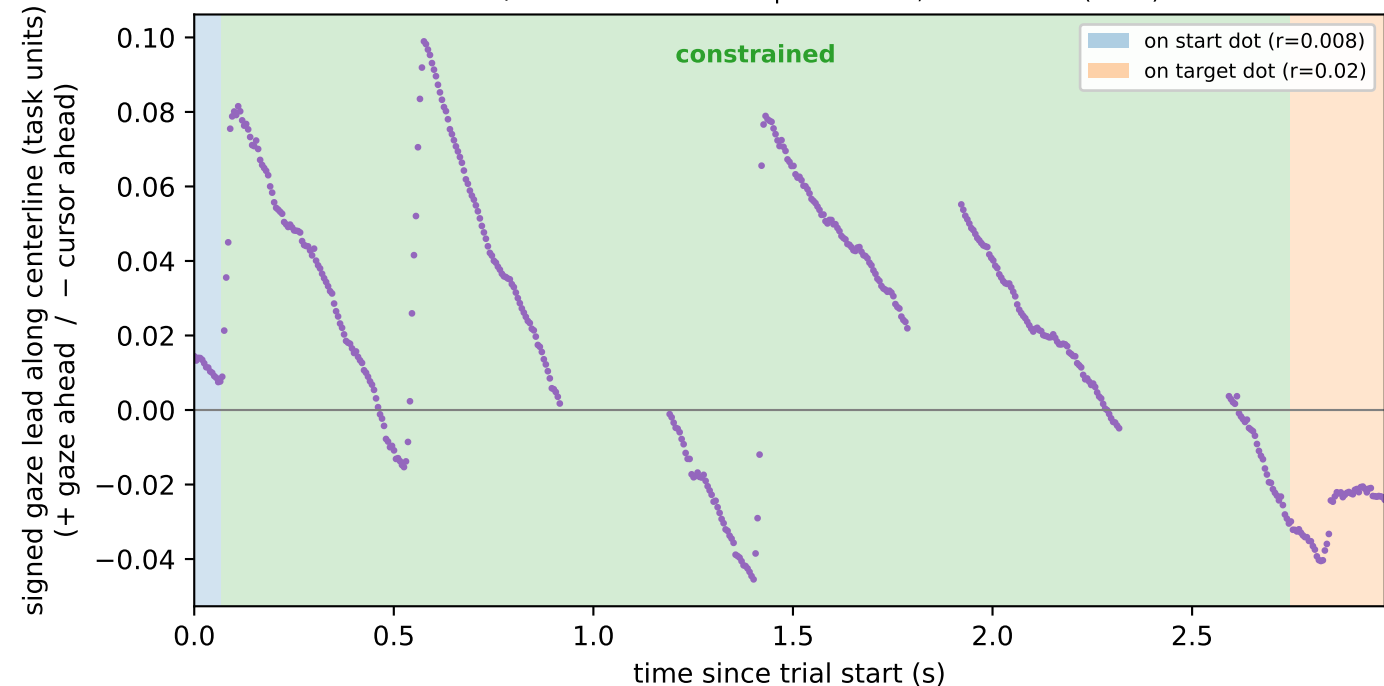

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

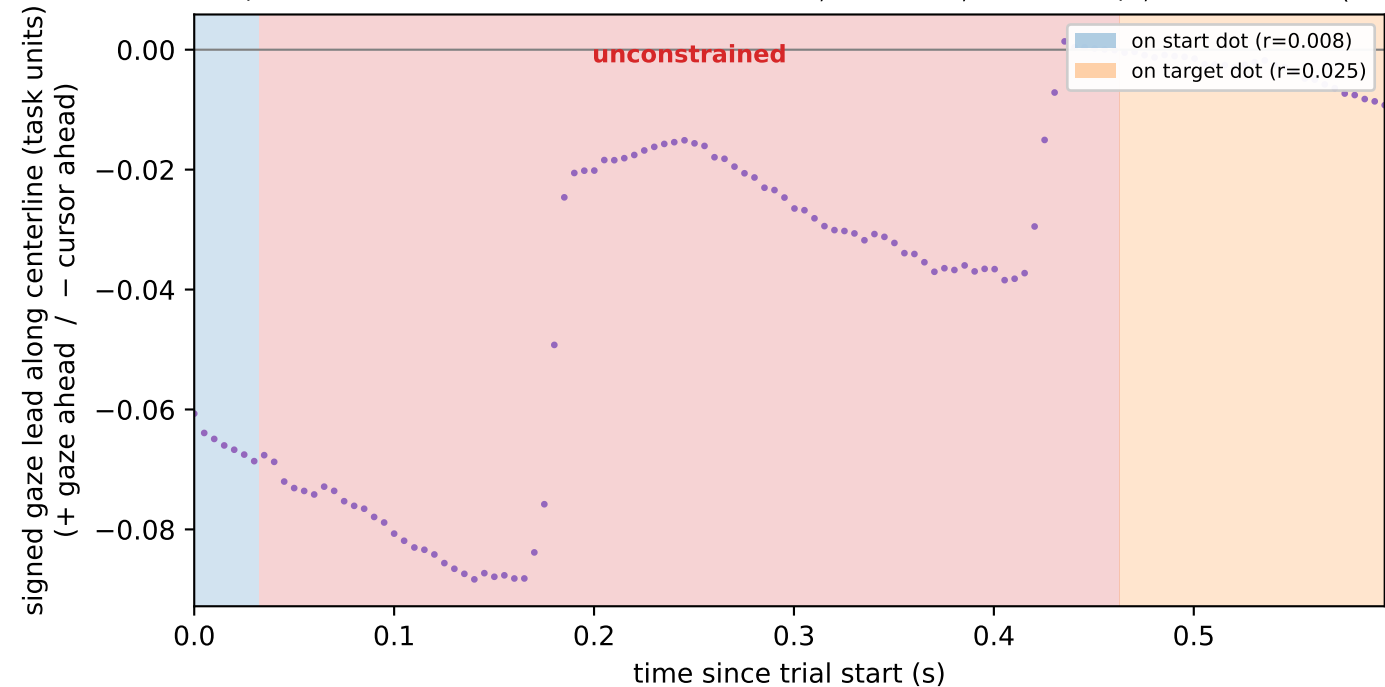

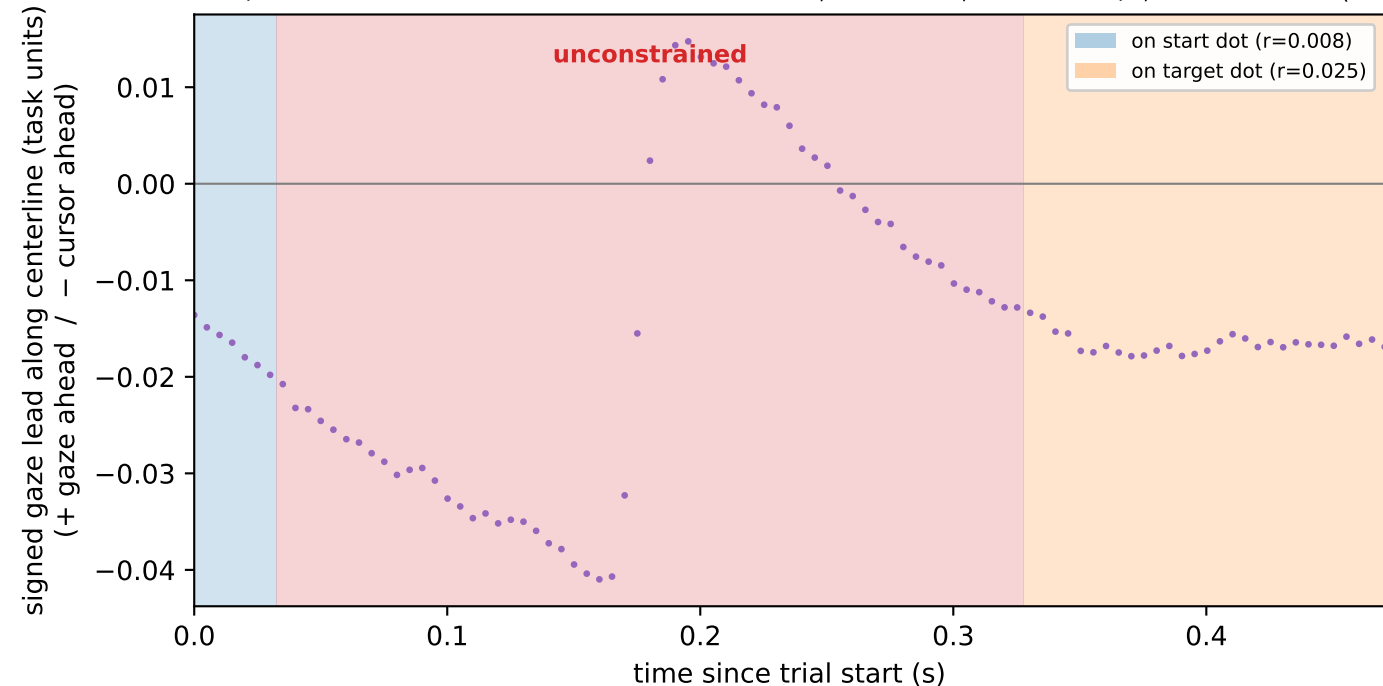

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

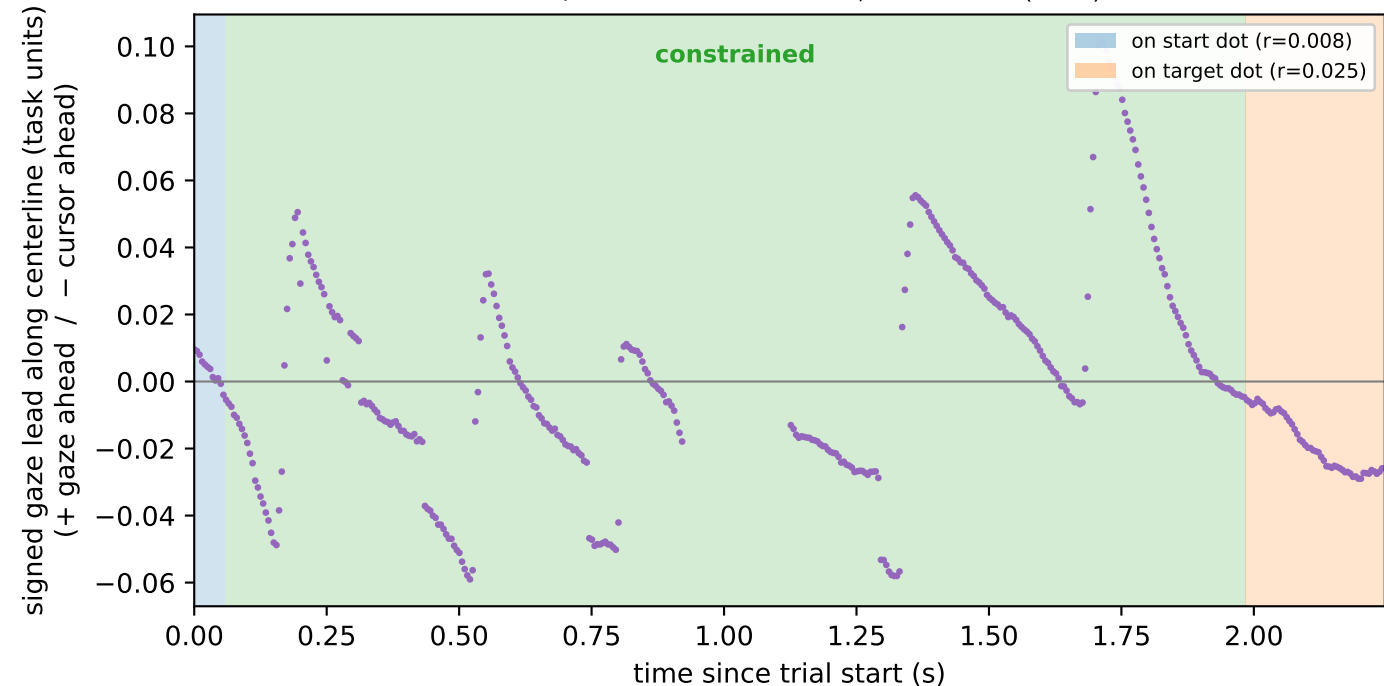

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

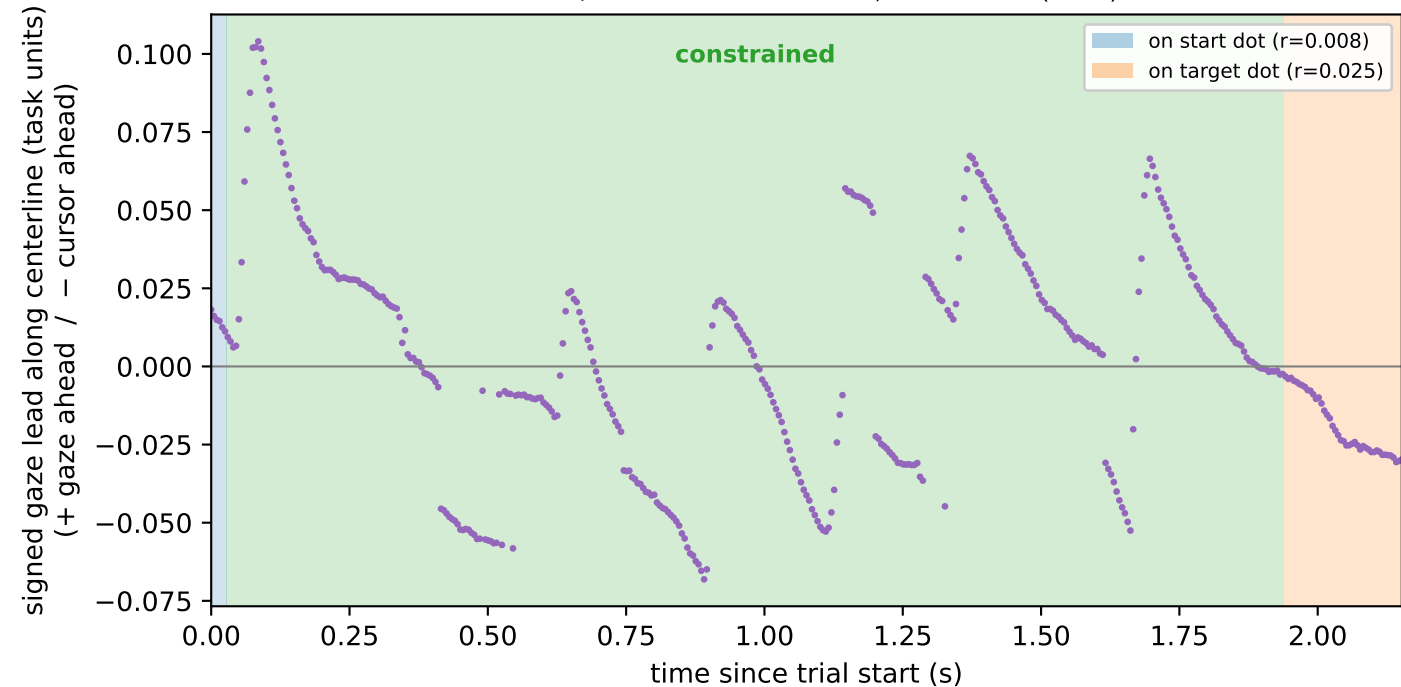

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

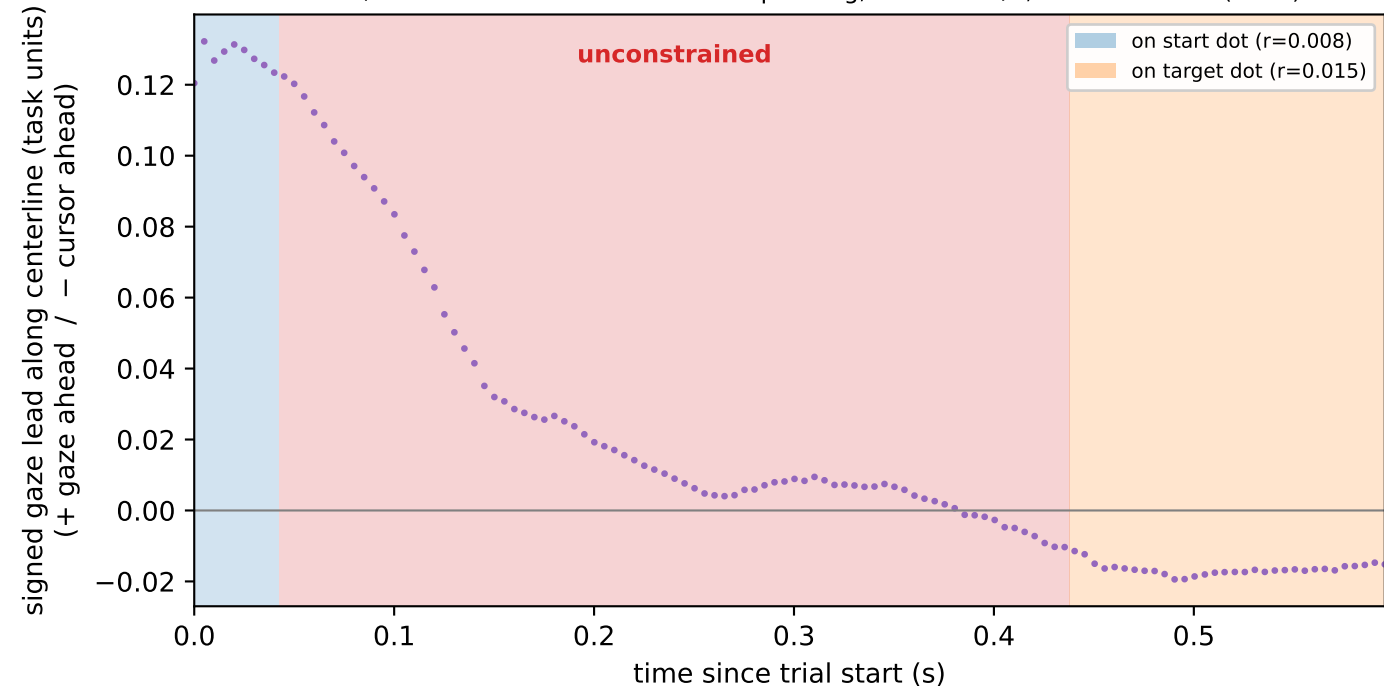

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

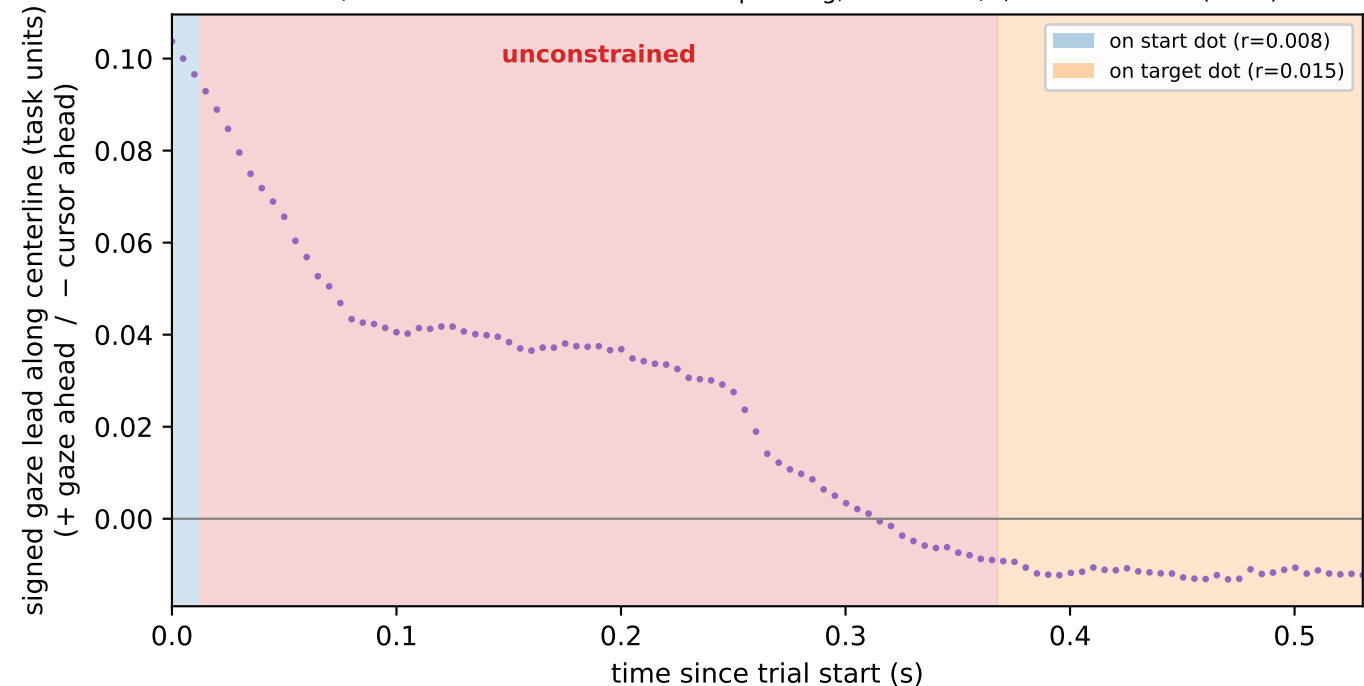

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

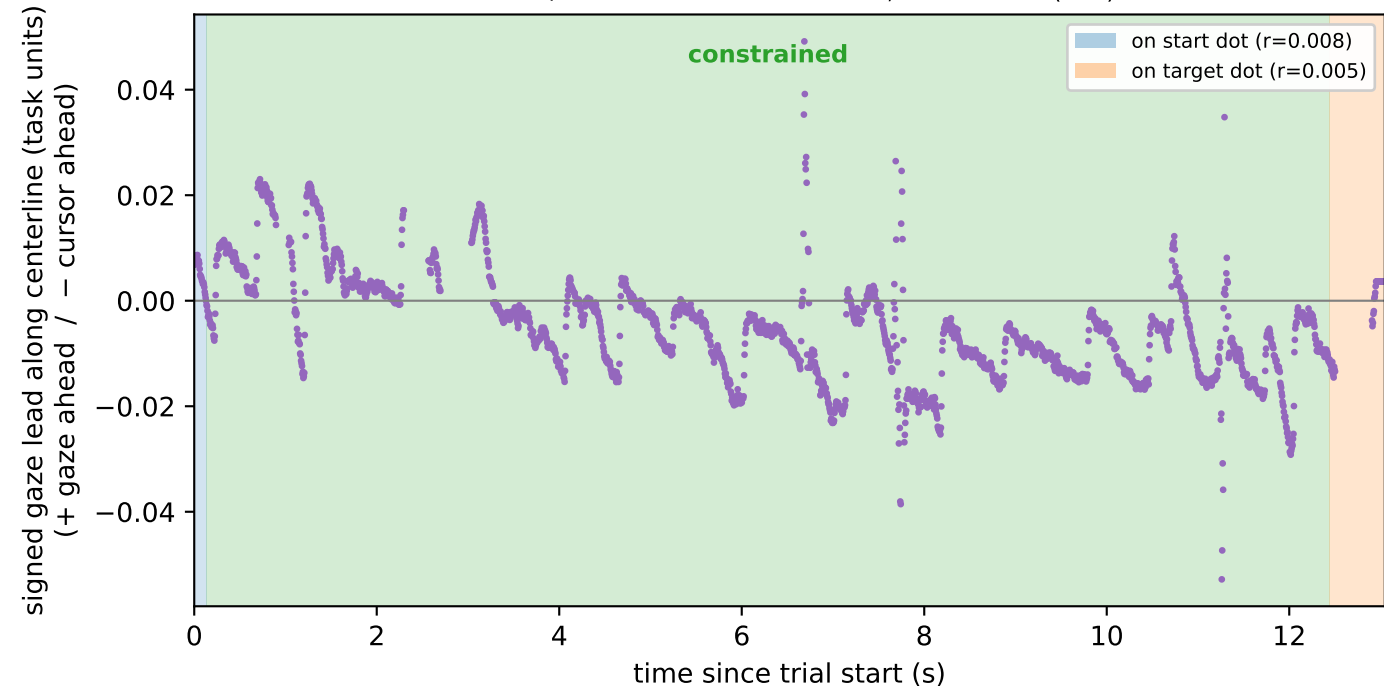

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

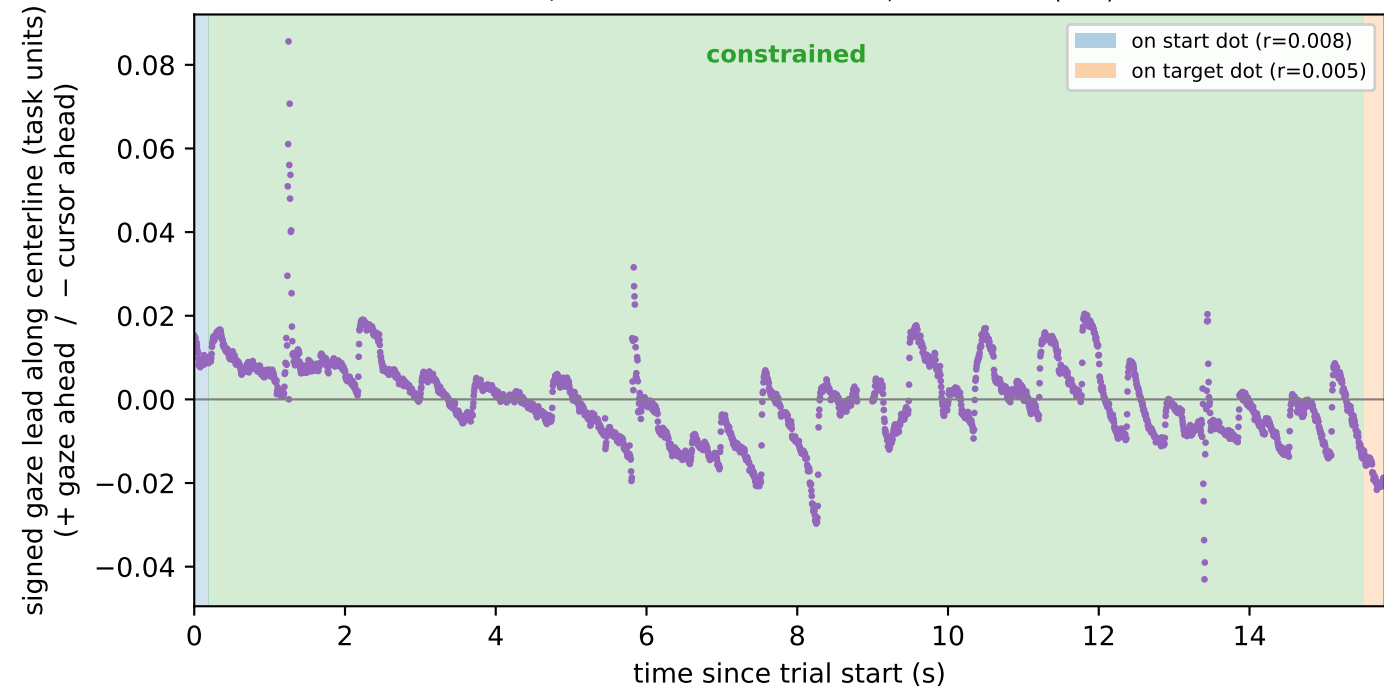

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

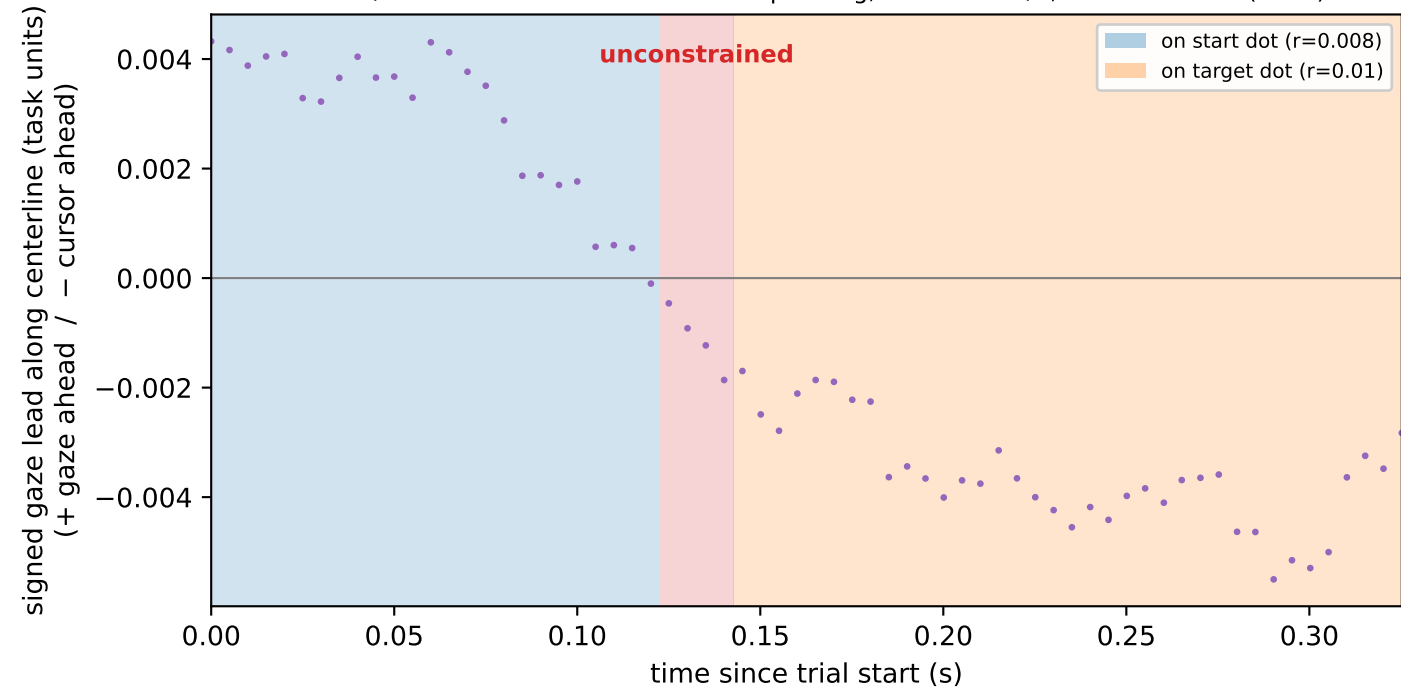

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

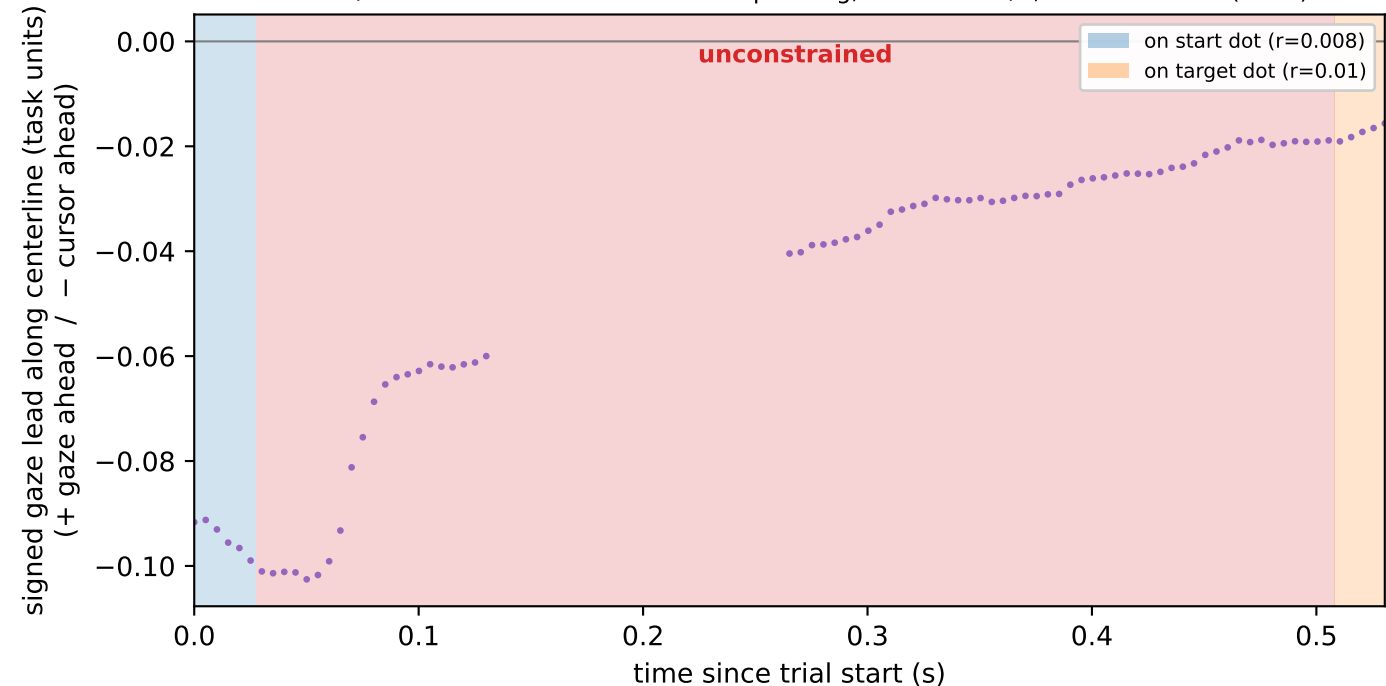

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 62/73 round 1 — unconstrained pointing, distance 2D/3, radius 10mm (id 48)

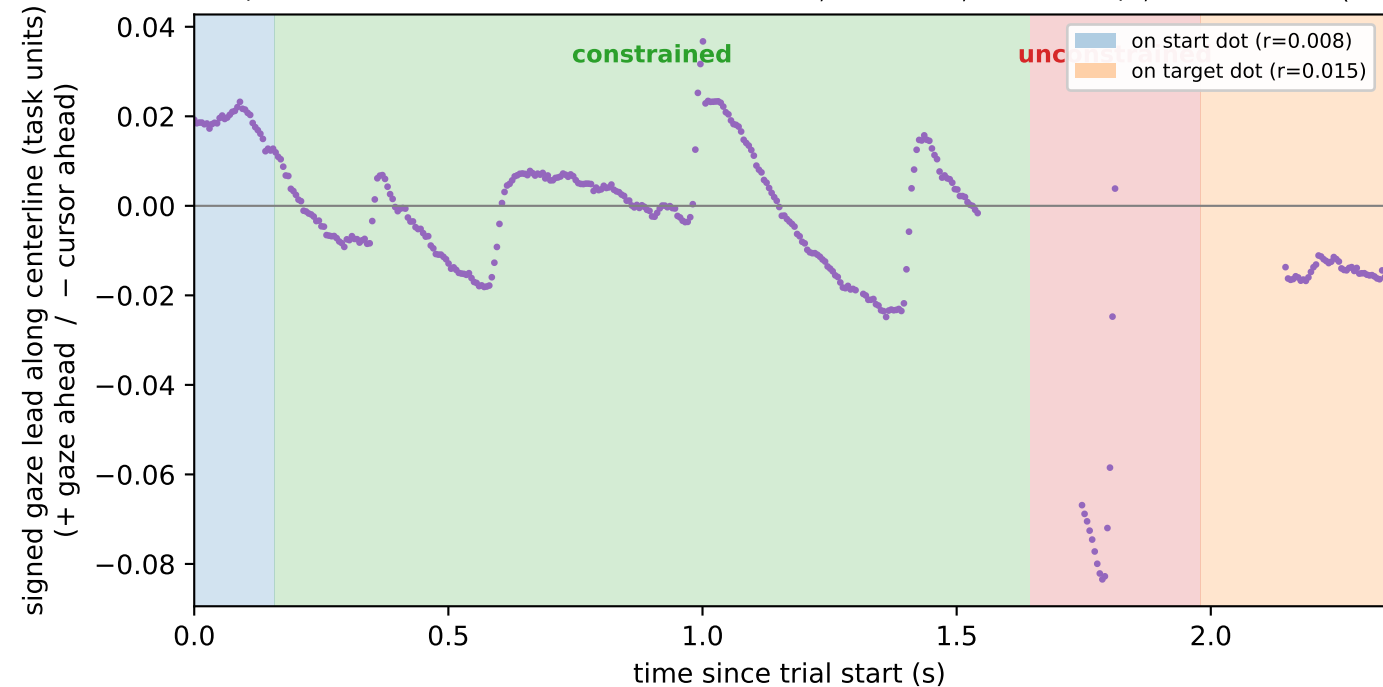

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

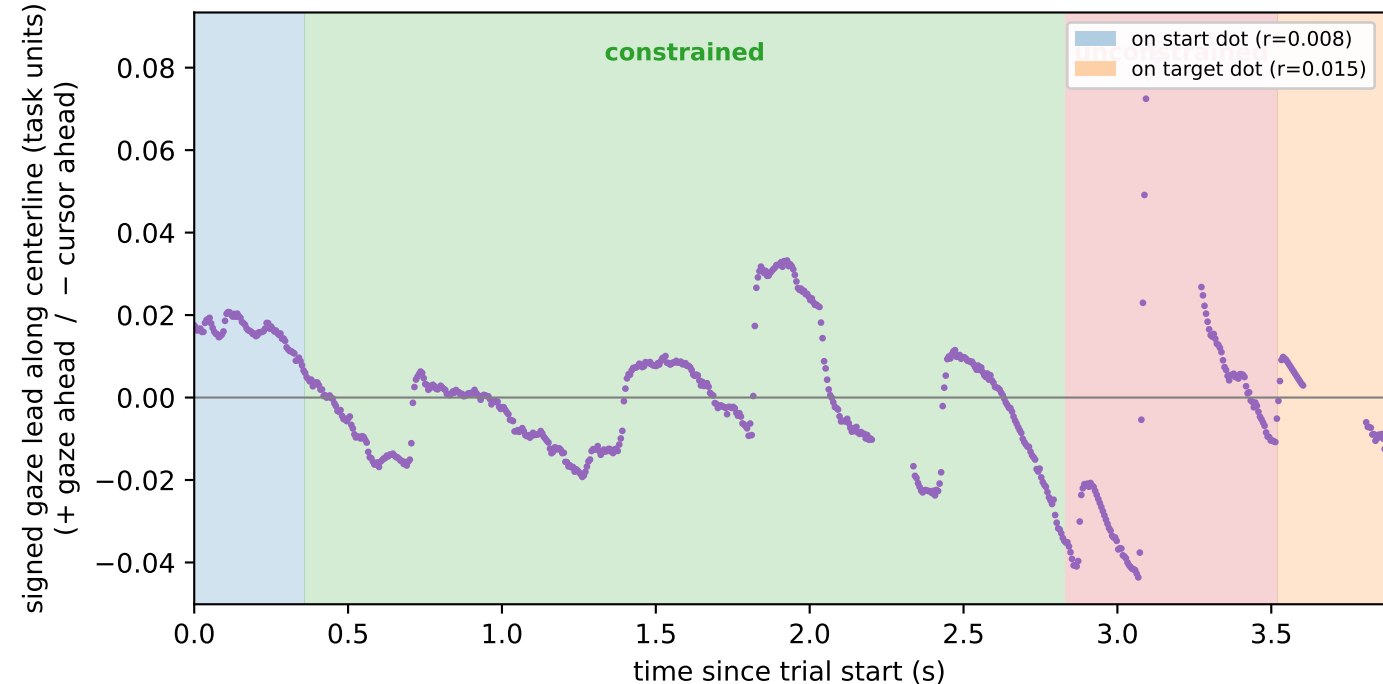

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 63/73 round 1 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 15mm (id 61)

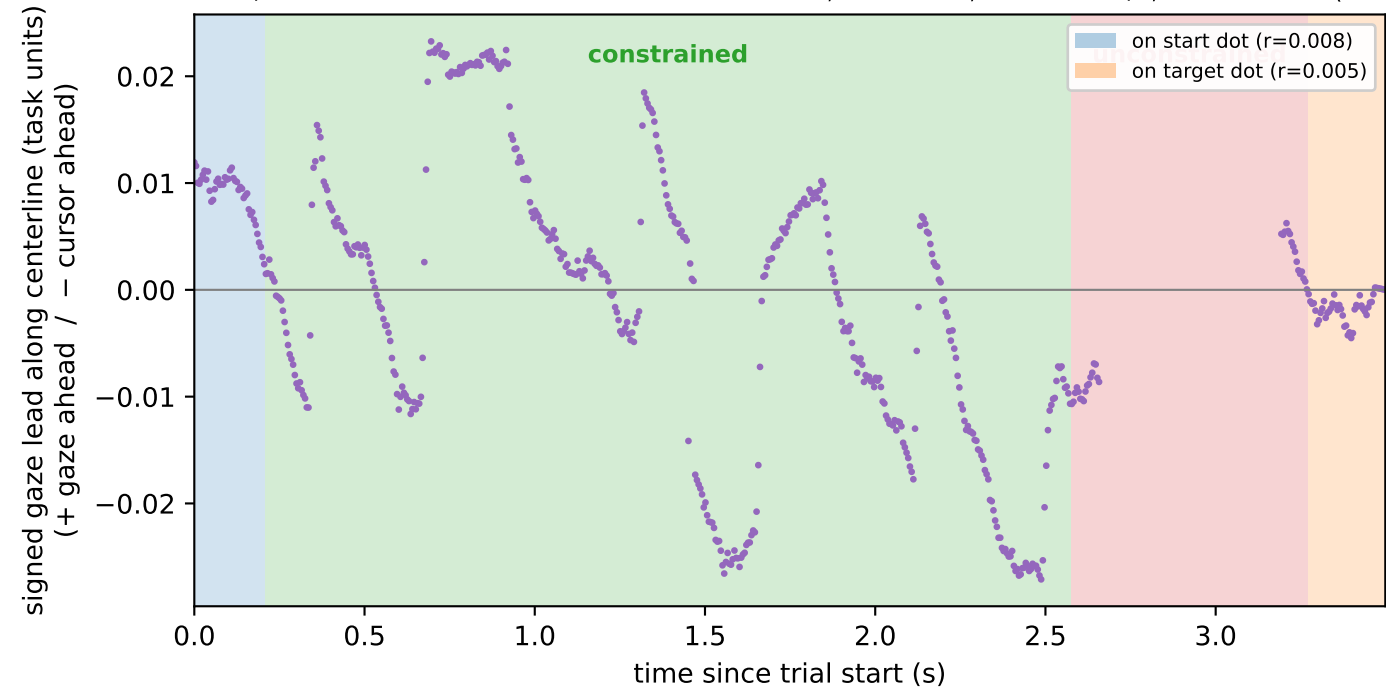

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

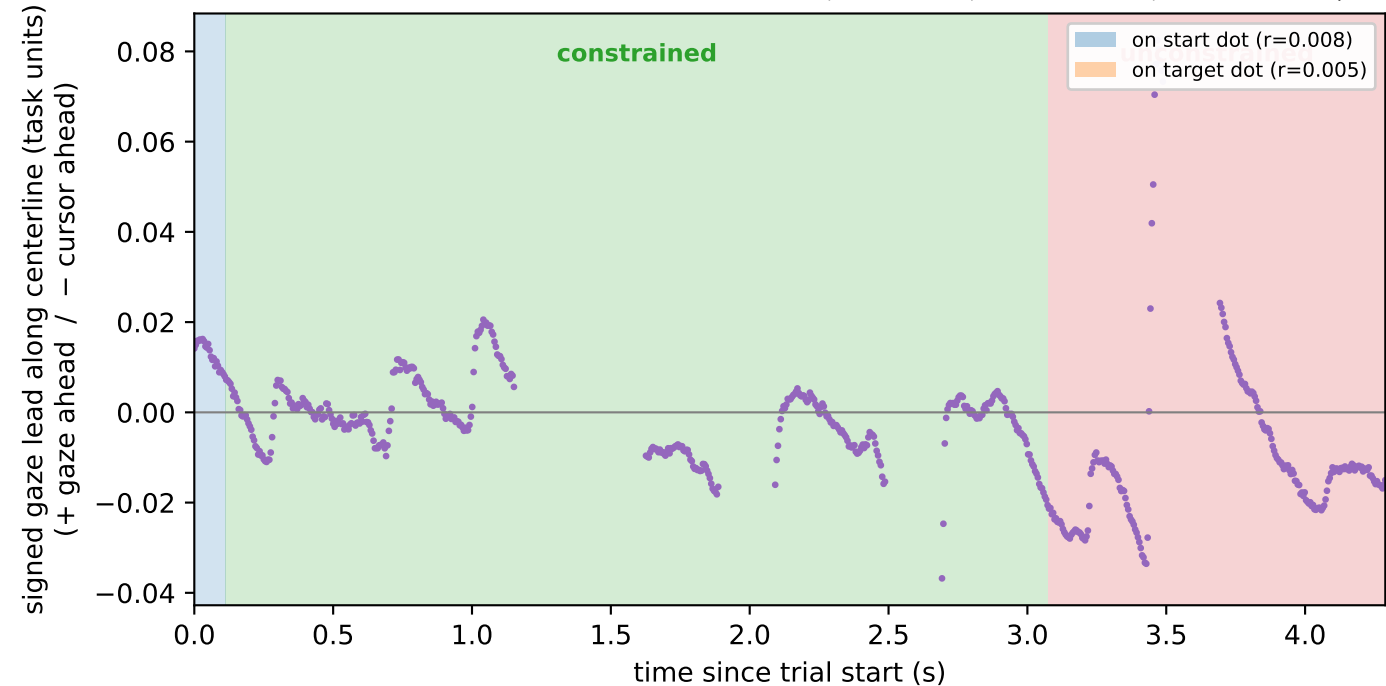

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 64/73 round 1 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 5mm (id 60)

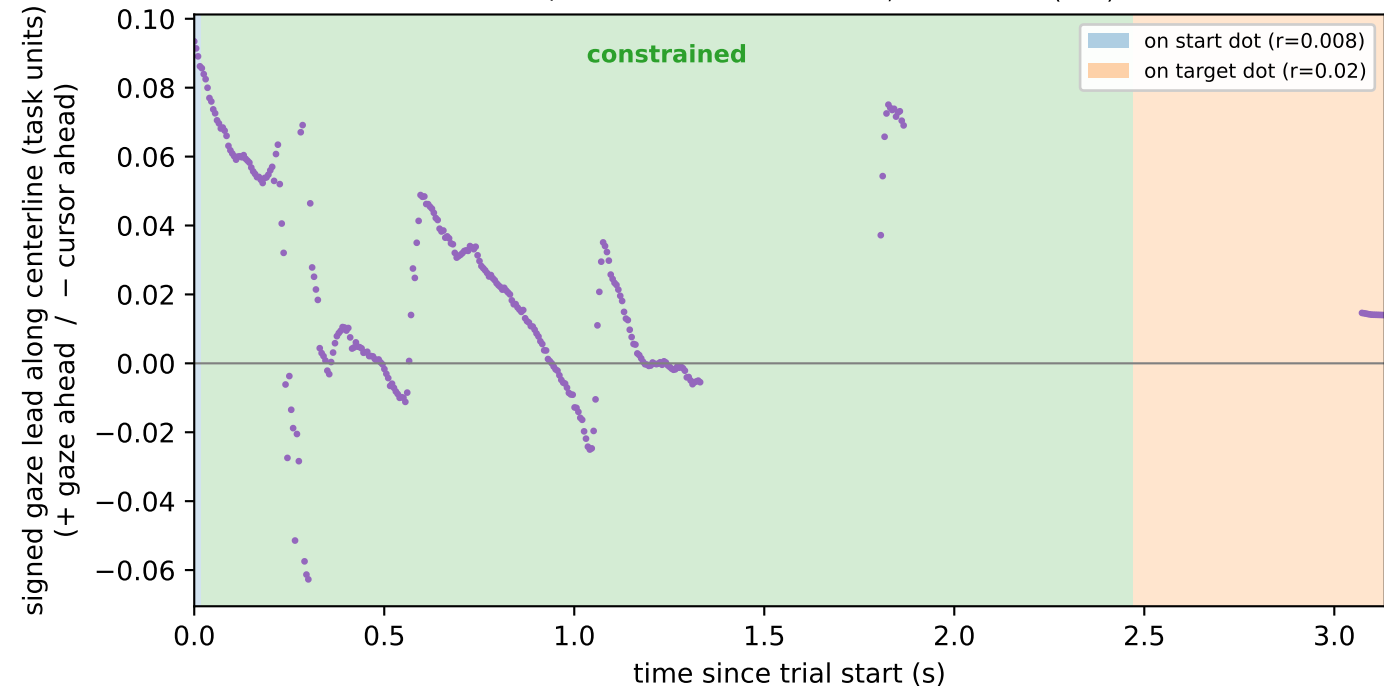

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

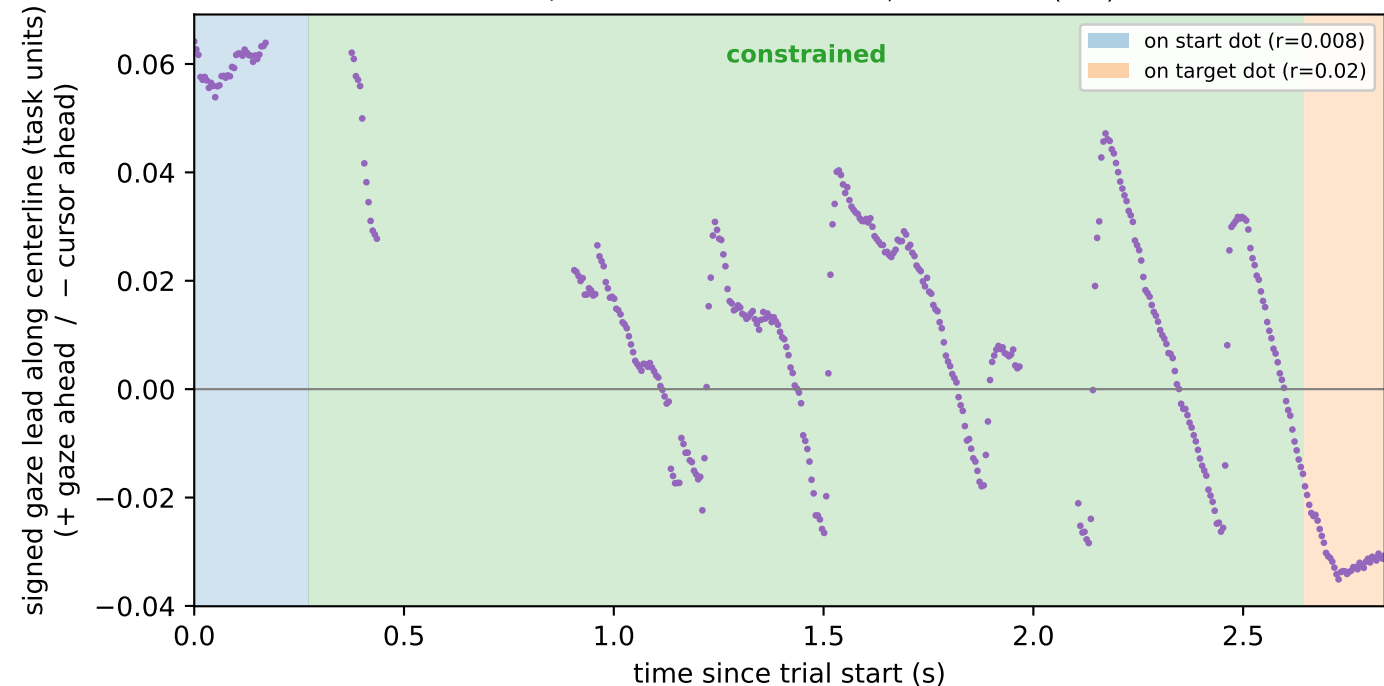

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

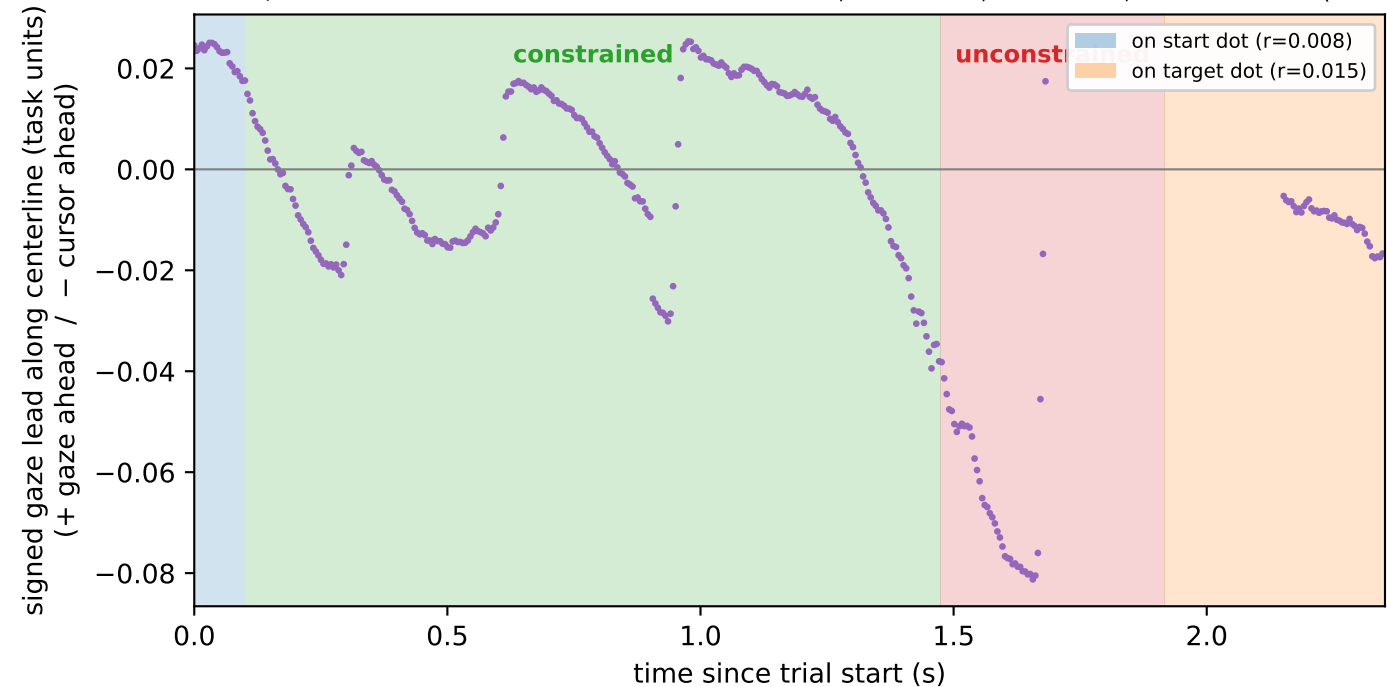

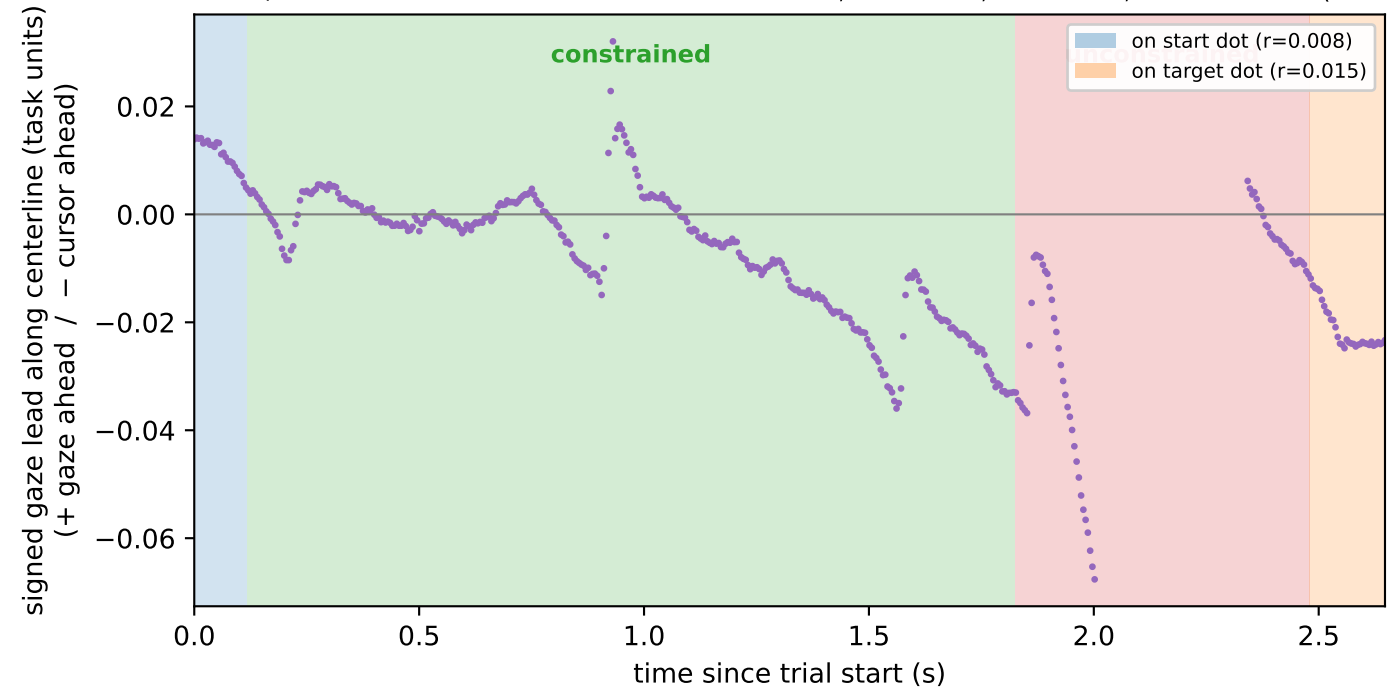

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

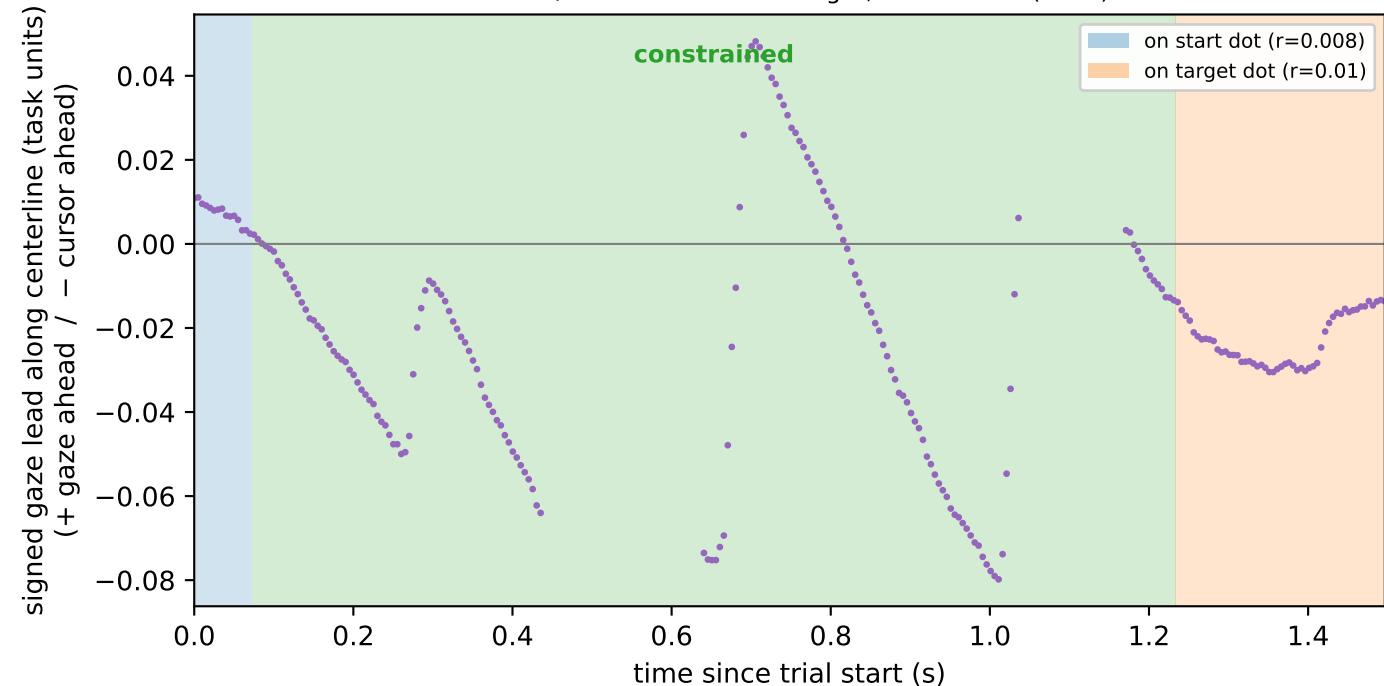

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

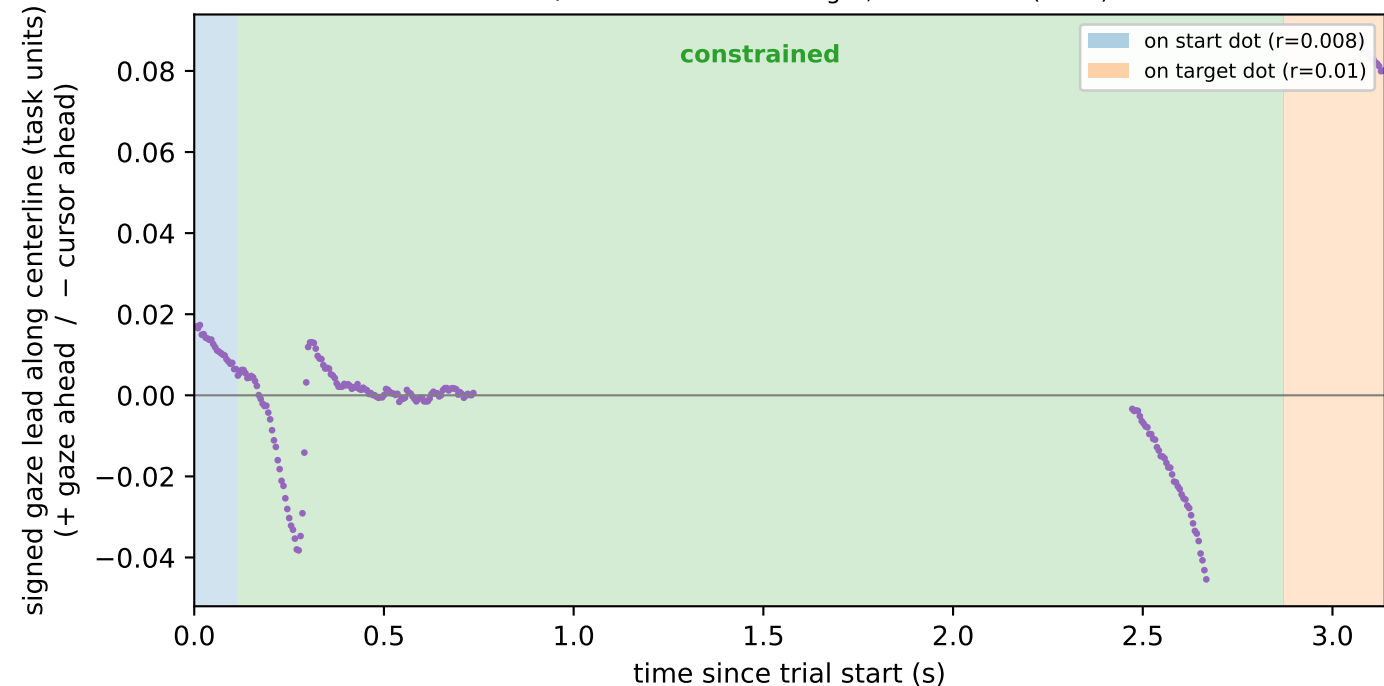

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

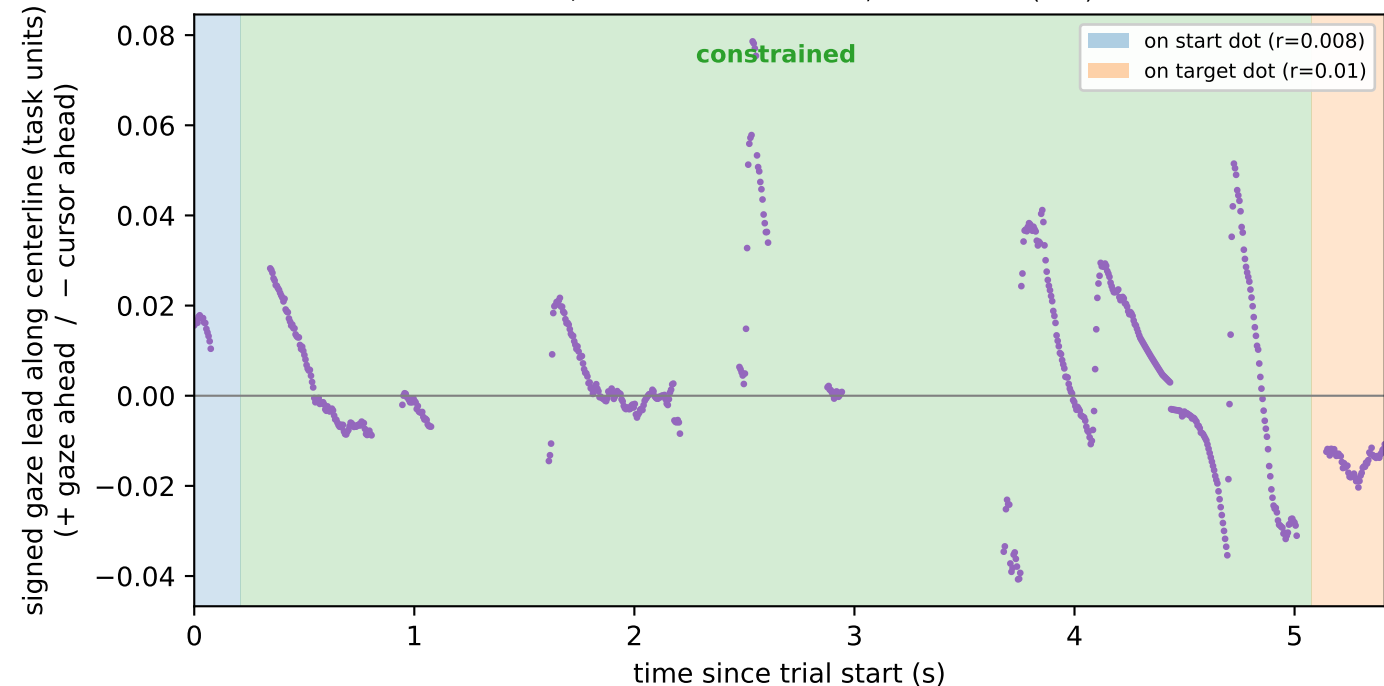

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

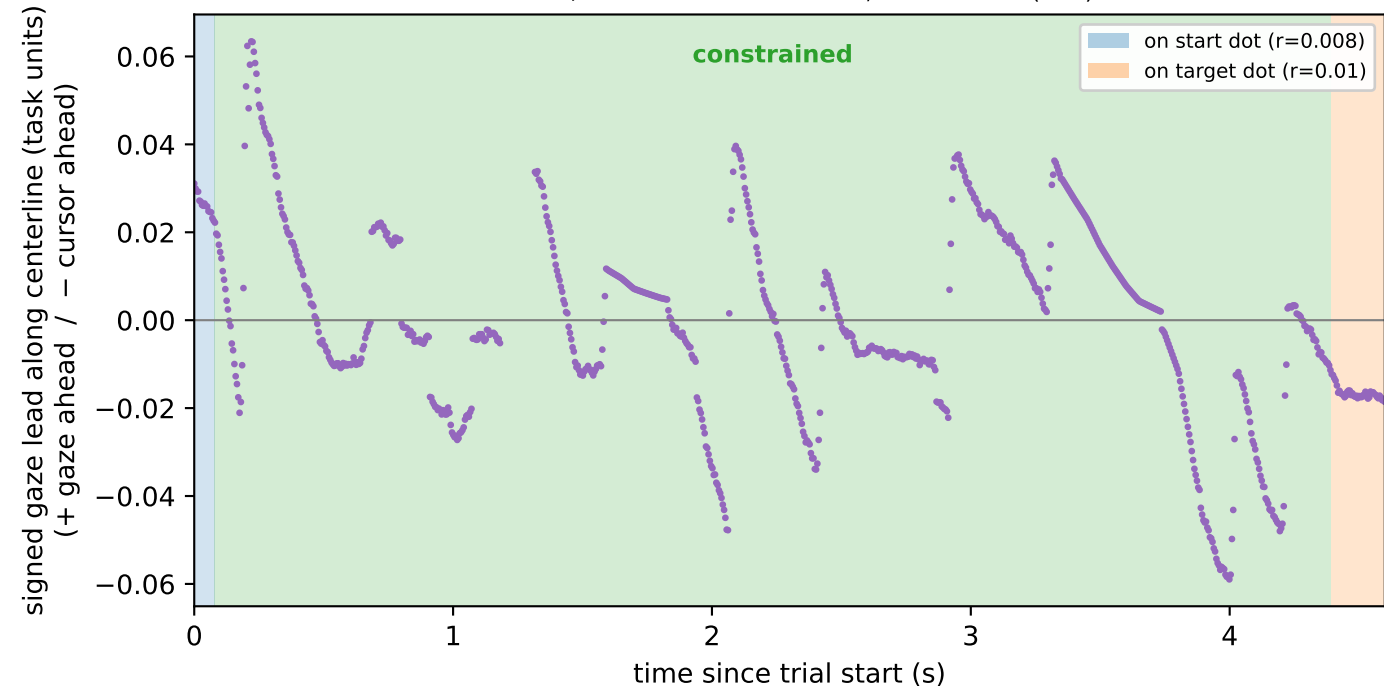

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

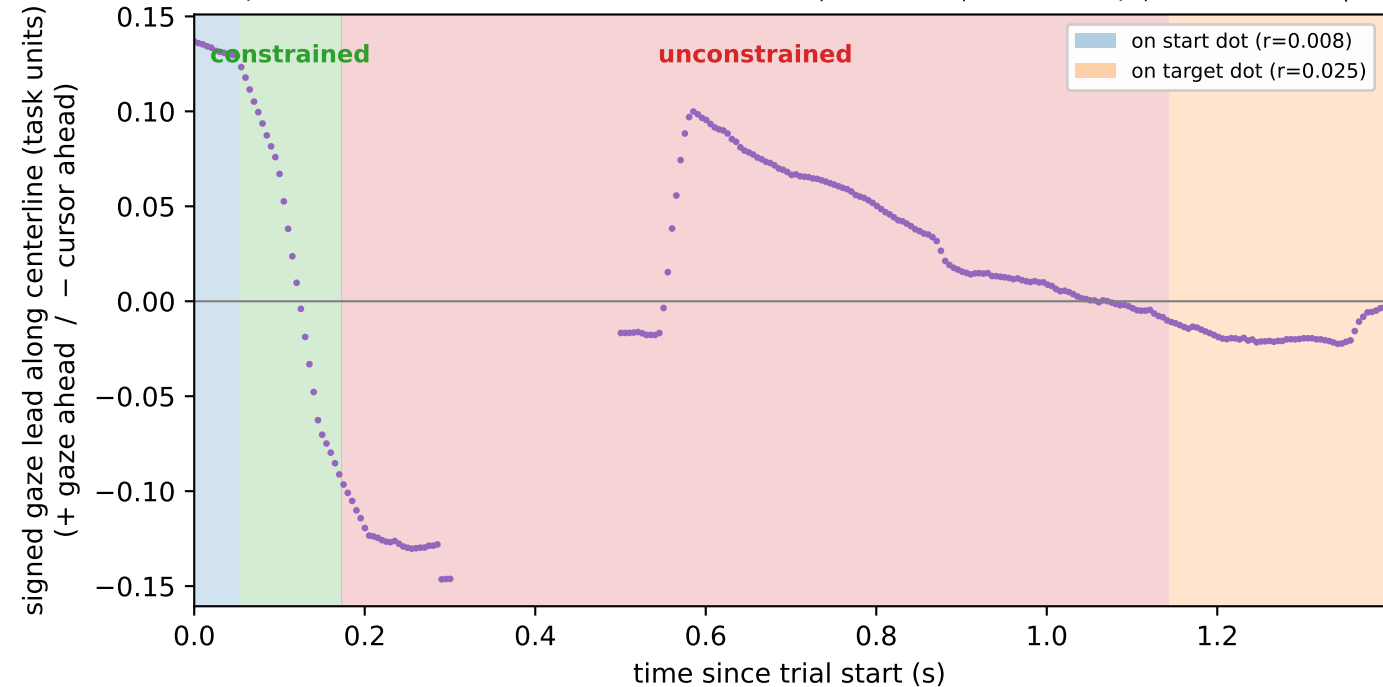

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

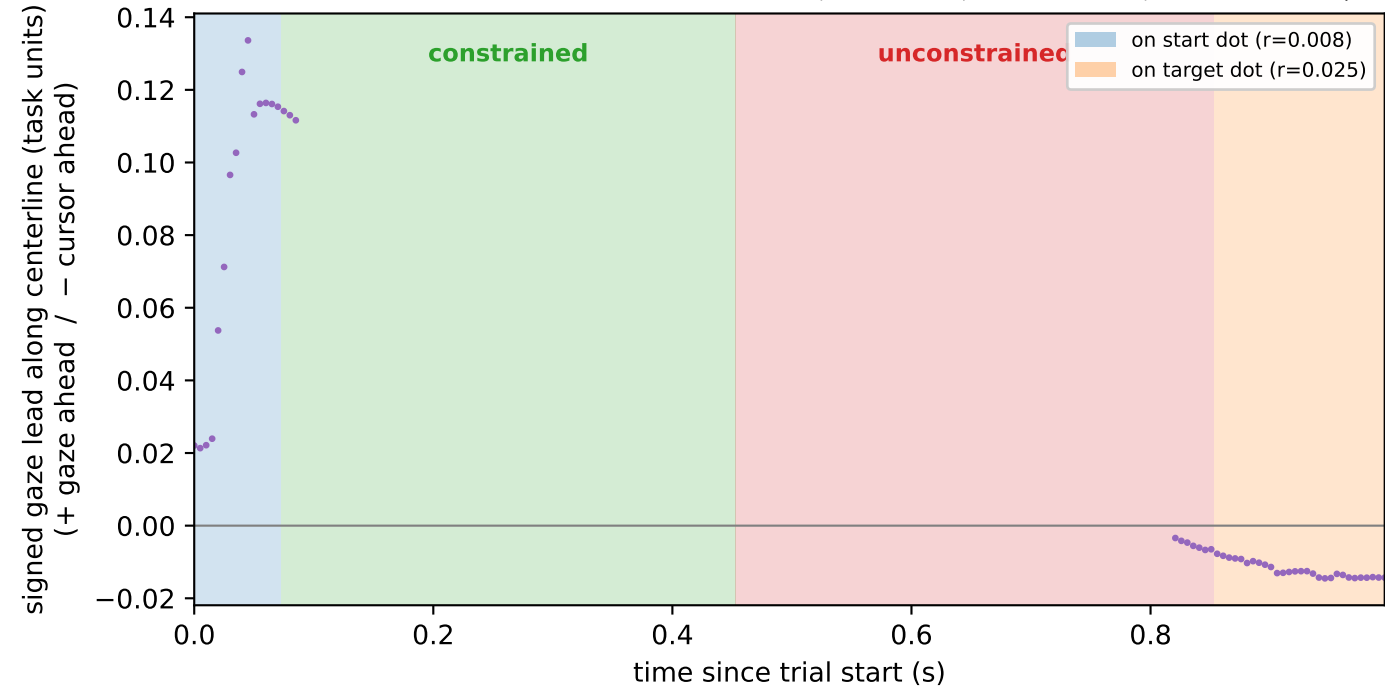

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

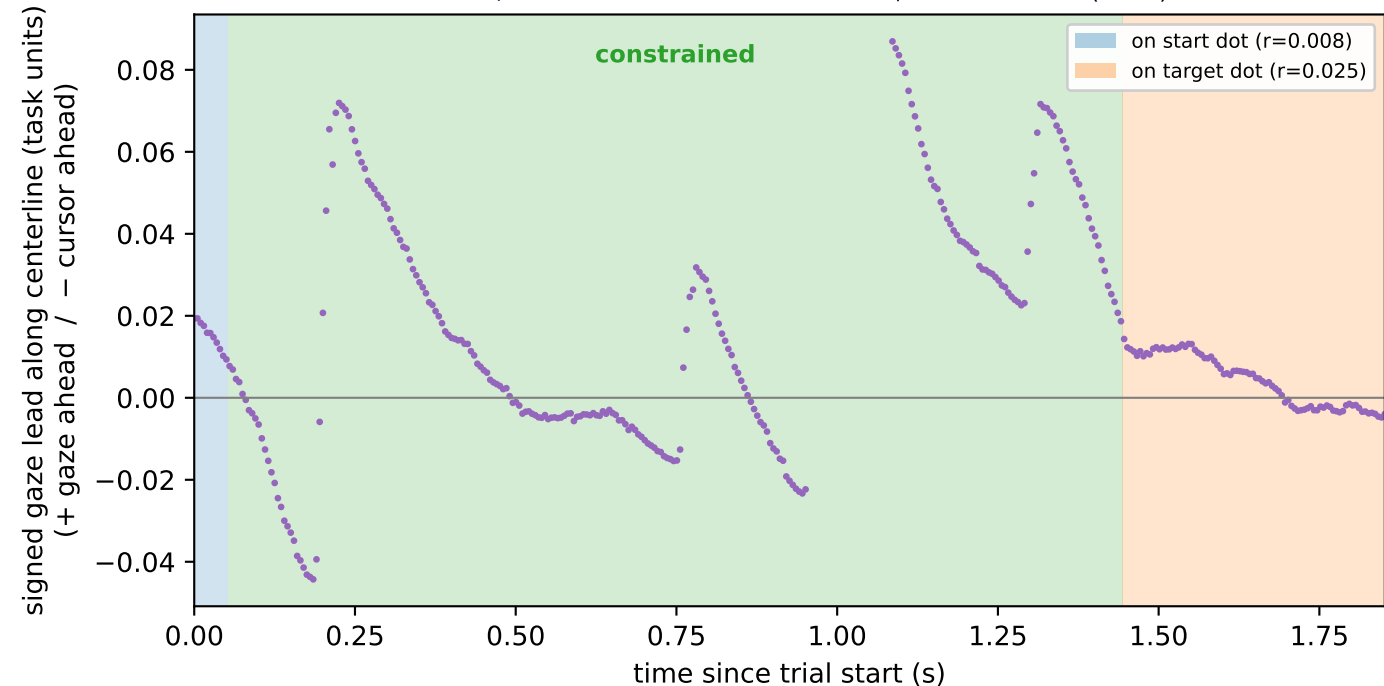

Trial 69/73 round 1 — constrained-to-unconstrained, width 0.01, distance 5D/6, radius 25mm (id 62)

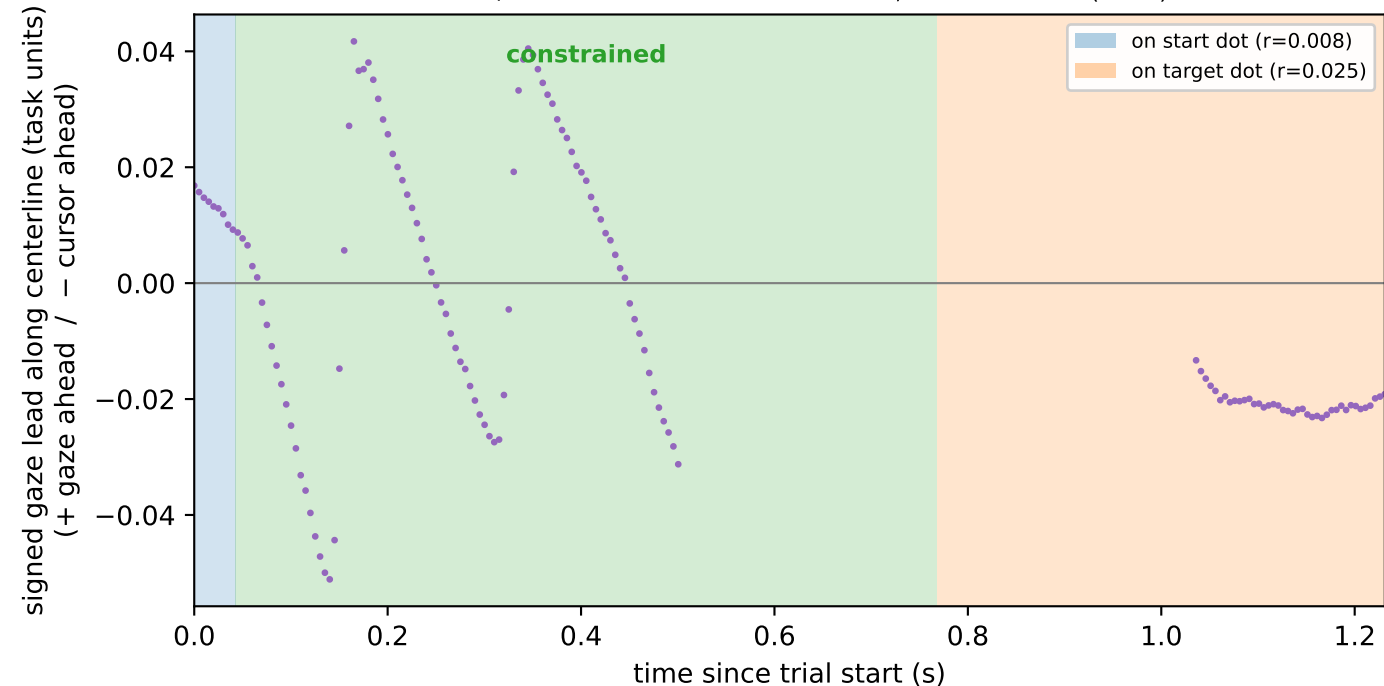

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

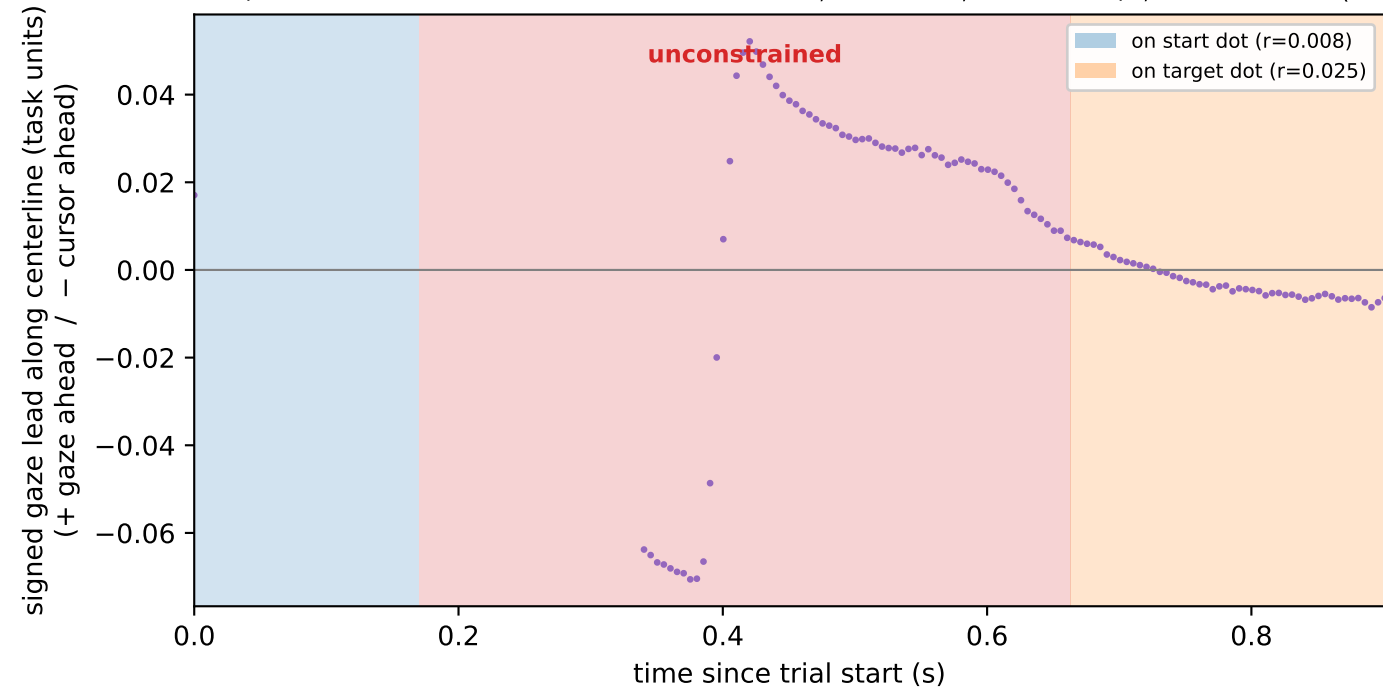

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

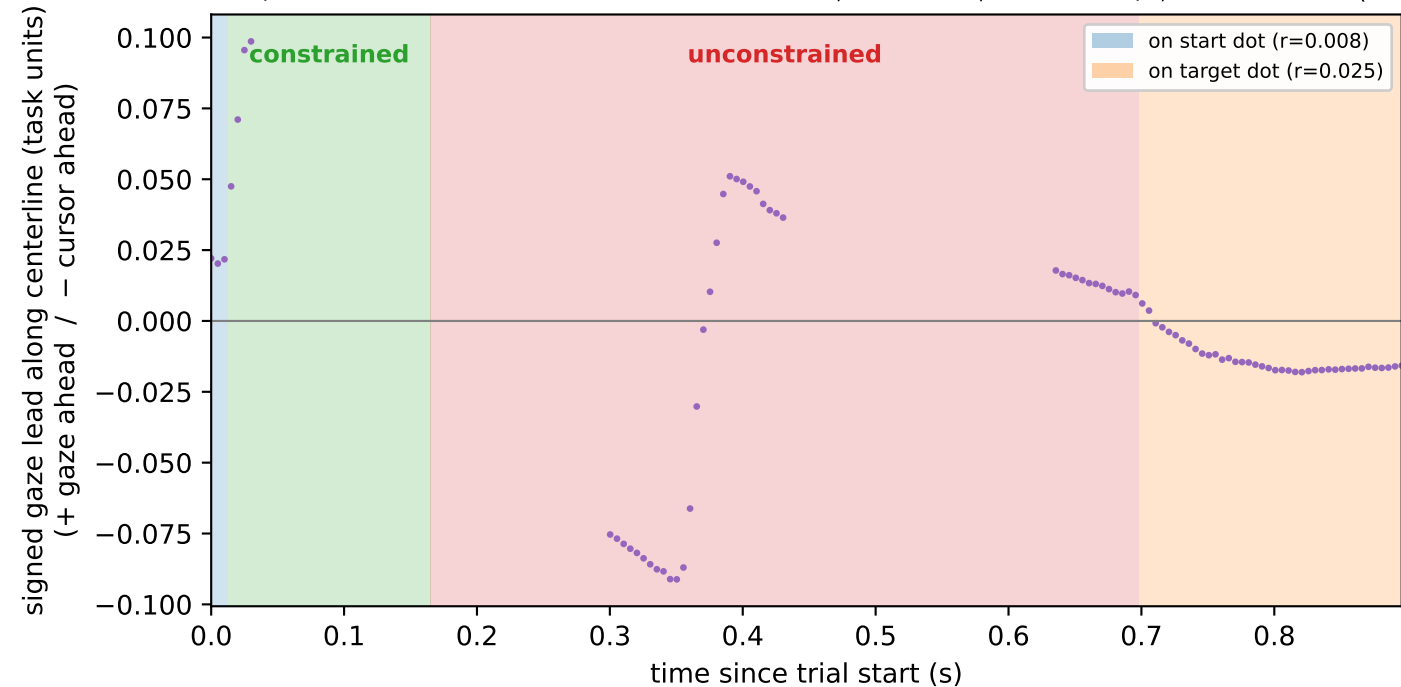

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

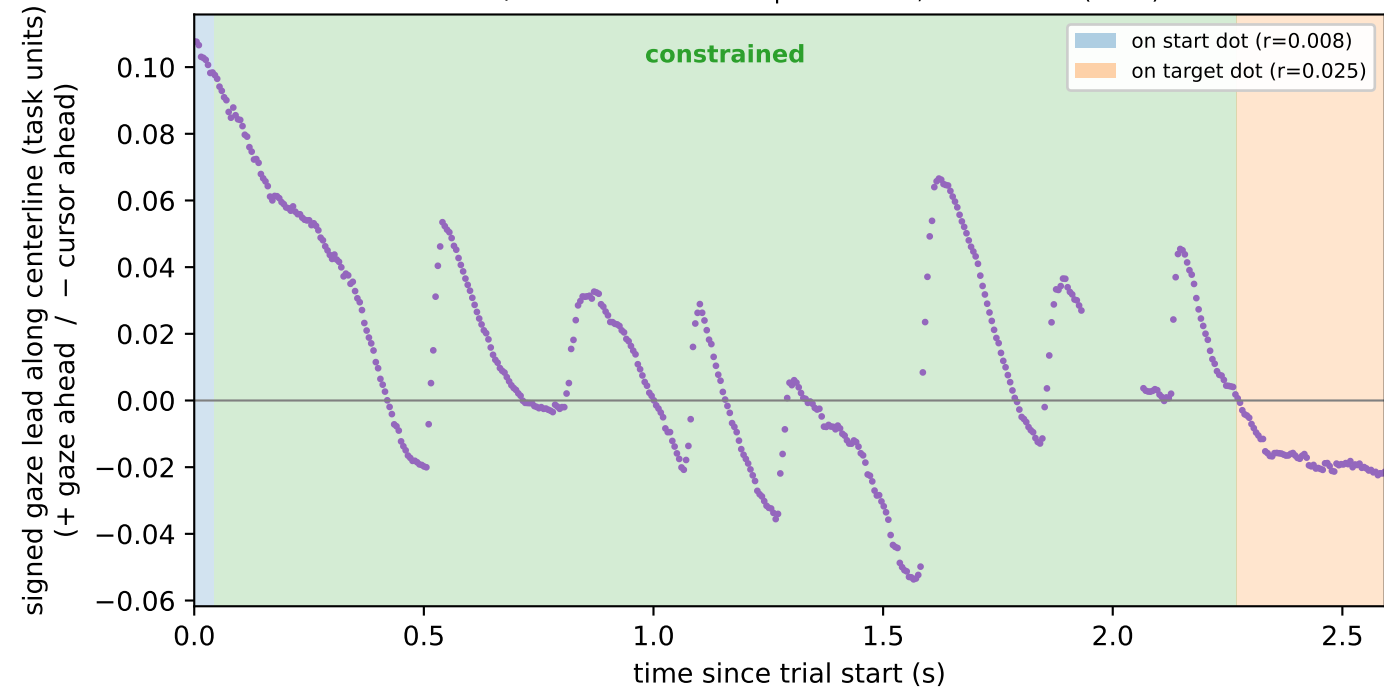

Trial 71/73 round 1 — constrained-to-unconstrained, width 0.03, distance 5D/6, radius 25mm (id 71)

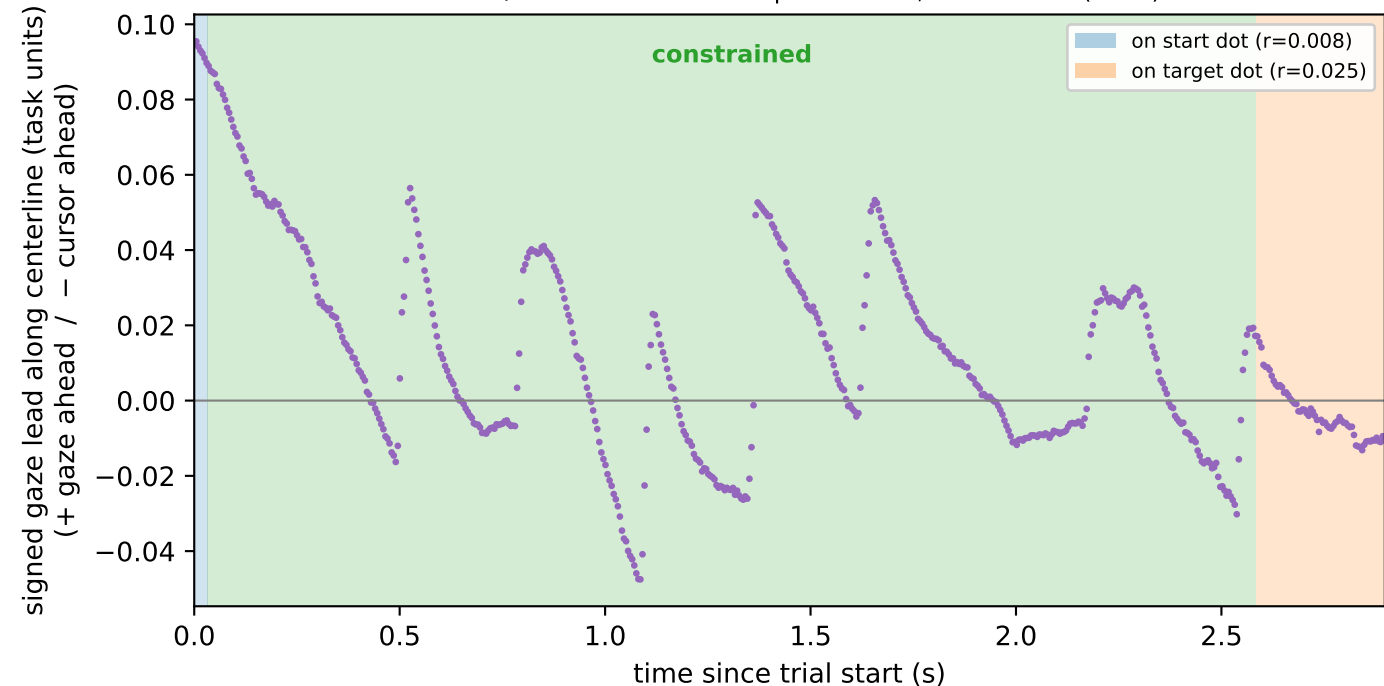

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.

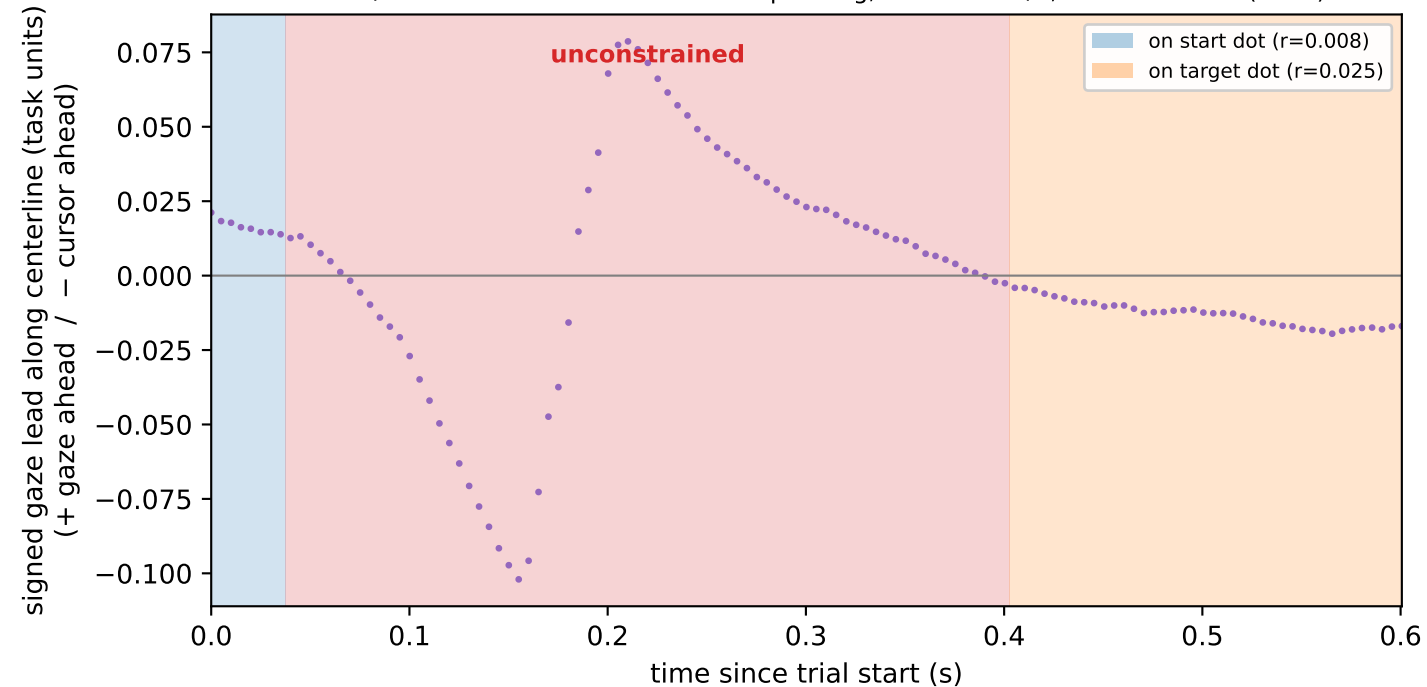

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

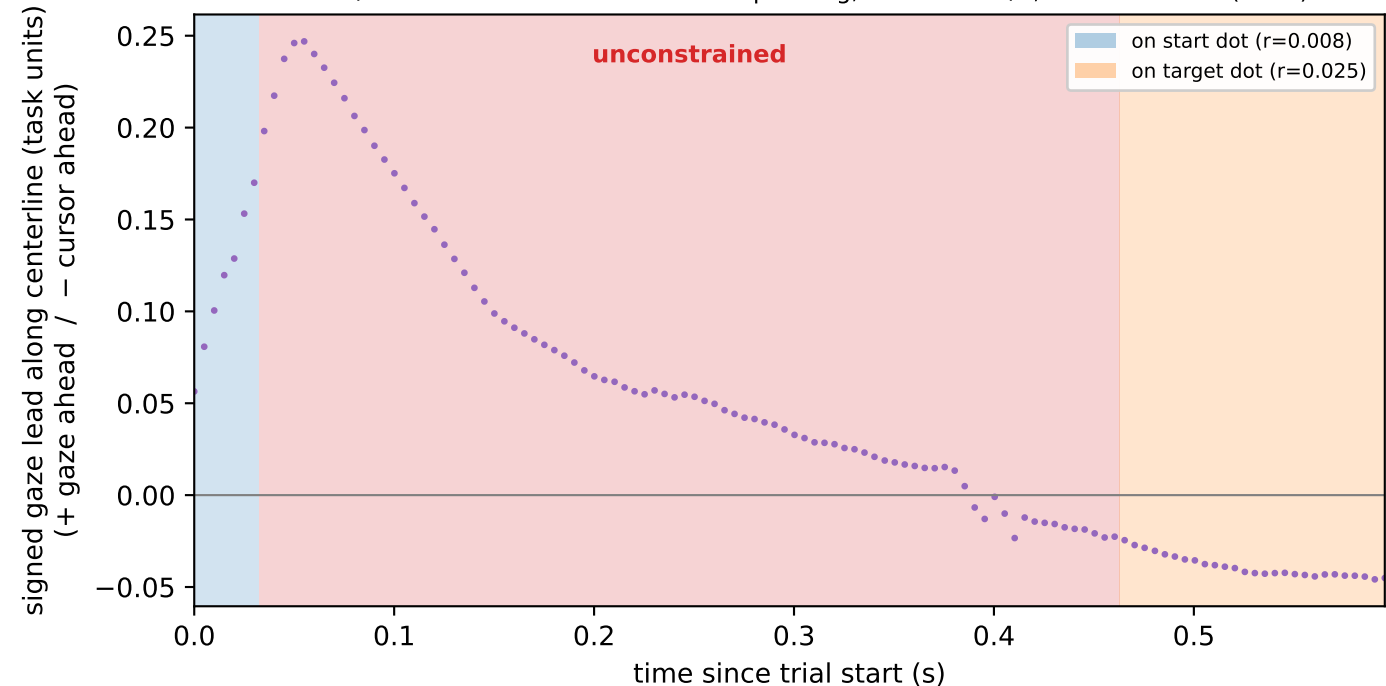

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

Trial 73/73 round 1 — unconstrained pointing, distance 2D/3, radius 25mm (id 51)

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*

*Gaze lead = arc length along the tunnel centerline (the experiment's task coordinate space), so it is in task units.*
